

A Break-A-Leg Productions Workshop

"DELICATE PARTICLE LOGIC"

Join us for an exciting and thought-provoking staged reading of the play by Jennifer Blackmer, highlighting the interactions among Otto Hahn (1944 Nobel Laureate in Chemistry), his longstanding scientific partner Lise Meitner (passed over for that honor), and Hahn's wife Edith. This event will include a performance by professional actors followed by a talk-back discussion session.

When: Thursday, November 30, 2023, 7:30-9:30 pm

Where: 291 Shepard Hall, The City College of New York

This is a free event for Ph.D., M.S., postbacc, and undergraduate students along with their mentors and friends. Light refreshments will be served after the performance. RSVP is required due to limited seating.
