

Breaking Barriers: AI-Powered Technologies in Communication for ASL and Navigation for the Visually Impaired

Tuesday, Mar 11 2025, 5 PM | Zoom

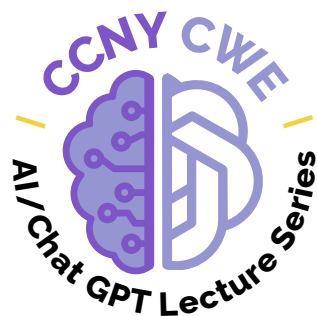

In this talk, Dr. YingLi Tian will share our research on how AI and computer vision technologies can be applied to create innovative solutions for individuals with special needs.

The presentation will focus on two key applications:

- AI-Driven ASL Learning Tool
- Wayfinding and Navigation for the Visually Impaired
