# A Message from the President

Welcome to The City College of New York!

You have embarked upon an incredible journey at a remarkable moment in our nation's history. For over 175 years, the City College of New York has provided its students with an excellent education, preparing them for success in a broad range of careers and endeavors. Our years of hardship during the COVID-19 pandemic, however, have reinforced another aspect of our mission: while we work to educate students individually, the impact we make on the world is a collective one. CCNY, from its very inception, was based on the proposition that we would never be as strong, democratic or dynamic as we need to be unless we could sustain a community that was capable of asking and pursuing answers to questions that are often ignored in the halls of power, questions that emanate from the experiences and perspectives of those too often underserved in our society. Our city, and our national and global societies, need the vision and talent that each of you possess and we're dedicated to developing those assets under whatever circumstances we will confront together.

At CCNY you will be taught by internationally renowned and accomplished faculty in diverse fields, ranging from science, engineering, and architecture to humanities and the arts, education, and social sciences. We have state of the art laboratories for scientists and engineers, studios in which artists and musicians can hone their craft, and a new medical school that focuses on training a new generation of doctors to address healthcare disparities across the nation. Our social science classrooms are dedicated to the development of new leaders in the public sphere, while our humanities departments work to preserve our culture and promote broader human understanding.

Part of our responsibility as educators and advisors is to awaken your curiosity, expand your knowledge, strengthen your skills, provide leadership and engagement opportunities, and prepare you for careers that will help you change the world for the better. This is our obligation and our privilege. Under the particular circumstances of the moment, we are working to provide these services and supports in both in-person and on-line formats, to give you as much flexibility and security as possible.

To enhance your experience at CCNY, please use this Bulletin to familiarize yourself with our undergraduate majors and areas of specialization. Our rich curriculum offers opportunities to not only chart your own career path, but to explore areas of interest across the fields of science, technology, social justice and the arts. College life outside of the classroom is just as varied and diverse as our student body.

Use our valuable resources to maximize your City Experience. From innovation and entrepreneurship to cutting-edge research, scholarship and creativity, a City College education is a vital force for progress in the lives of our students and in our communities.

I look forward to seeing you on the City College campus.

Sincerely,

Vince Boudreau, President

## About The City College

The City College of New York is a small university within The City University of New York, offering a rich program of undergraduate, master's and doctoral study through its various schools and divisions.

The College of Liberal Arts and Science comprises the:

- **Division of Humanities and the Arts**
- **Division of Science**
- **The Colin Powell School for Civic and Global Leadership (formerly the Division of Social Science)**
- **Division of Interdisciplinary Studies at the Center for Worker Education (CCNY Downtown)**

The Professional Schools are the:

- **Bernard and Anne Spitzer School of Architecture**
- **School of Education**
- **Grove School of Engineering**
- **The CUNY School of Medicine at the City College of New York**

Founded in 1847 by a referendum of the people of New York City, City College's mandate was to offer the best education possible to the "whole people" and to bring together students from various backgrounds to learn from the best faculty in the nation. The City College (CCNY) is the oldest college of the twenty-four units comprising The City University of New York (CUNY), which was established in 1961.

The College's resources include the Morris Raphael Cohen Library, the largest library in the University system, with holdings of over one and a half million volumes; more than two hundred teaching and research laboratories; The Towers, a six-hundred bed residence hall; and an Information Technology Center that provides instructional and research-oriented services and student access through numerous student computer labs. The Aaron Davis Hall is the site of rehearsals, performances, exhibits and technical training for students in the performing arts, as well as presentations by professional artists in partnership with the City College Center for the Arts. It is a major cultural asset for CCNY as well as the New York City community. We are also home to two state of the art scientific research hubs, the Center for Discovery and Innovation and the Advanced Science Research Center, both located on our South Campus.

[About The City College](#)

## Accreditation

All degree programs are registered by the New York State Department of Education. The College is regionally accredited by the Middle States Commission on Higher Education (3624 Market Street, Philadelphia, PA, 19104-2680; 267-284-5000). Additionally, professional curricula are accredited by the appropriate professional educational agency or board including the National Architectural Accrediting Board, the Council for the Accreditation of Educator Preparation, the Accreditation Board for Engineering and Technology, the Liaison Committee on Medical Education.

[About The City College](#)

## Student Life

Student Life Over 15,000 undergraduate and graduate students commute regularly to the City College of New York campus, where over eighty languages other than English can be heard. This diverse student body is comprised of New York State residents, out-of-state students from across the United States, and international students representing more than one hundred different countries. Student diversity remains one of City College's hallmarks, with Asian, Black, and Hispanic students comprising 76 percent of those attending. For detailed demographic information about City College students, see the current edition of City Facts ([www.ccnycuny.edu/institutionalresearch/index.cfm](http://www.ccnycuny.edu/institutionalresearch/index.cfm)).

Within the Division of Student Affairs, student activities at CCNY fall under the umbrella of the Office of Student Life and Leadership Development, which provides support for more than one hundred fifty student clubs and organizations. Included are the undergraduate and graduate student governments, two student newspapers, a yearbook, and a student-run radio station. Clubs reflect many of the academic, recreational, religious, political, professional and ethnic interests of CCNY's students.

[About The City College](#)

## The Campus

The City College campus occupies thirty-five acres along tree-lined Convent Avenue from 131st Street to 141st Street in the Borough of Manhattan. Many buildings in the area, known as St. Nicholas Heights, are landmarked, including CCNY's North Campus Quadrangle buildings and the former home of Alexander Hamilton, first Secretary of the Treasury. The larger campus for CCNY's students, of course, is the City of New York with a wealth of cultural and entertainment attractions found in few other cities of the world.

The City College is easily accessible by subway and bus; express trains from mid-Manhattan reach the campus in about fifteen minutes.

All students, faculty and staff are issued an identification card that must be worn at all times in College buildings.

## Original Campus Buildings

Built in 1904, the original college buildings were designed by the architect George Post in a Collegiate Gothic style. Four halls—Shepard, Baskerville, Townsend Harris and Wingate—were grouped around a green quadrangle and, with Compton and Goethals Halls (added later), now constitute the "North Campus." These buildings and the college gates are listed in the State and National Register of Historic Places.

## Steinman Hall-Engineering (ST)

Just outside the north campus gate is the modern Steinman Hall-Engineering Building. Steinman, a six-story building equipped with approximately ninety eight research and teaching laboratories, also houses the CUNY Energy Institute. More information about specific facilities in Steinman Hall can be found in the sections of this Bulletin describing the engineering programs.

## North Academic Center (NA)

Dedicated in 1984, the North Academic Center covers three full city blocks and has around 1,200 classrooms, labs, lecture halls and a media center. This building also contains the Cohen Library, the Finley Student Center, student government offices, meeting rooms, a print shop, a small theater, a ballroom and the campus dining areas. It is the largest academic building on the campus and contains the School of Education, the Division of Humanities and the Arts, The Colin L. Powell School for Civic and Global Leadership (formerly Social Science) and the newly expanded Information Technology Center as well as many computer laboratories.

## The Robert E. Marshak Science Building (MR)

The Marshak Science Building, a modern and fully equipped thirteen-story building, houses the science programs. The facilities include a number of computer laboratories, a networked system of SUN and SGI computers, laser labs, electron microscopes, nuclear magnetic and electron spin resonance systems, a mass spectrometer facility, an NMR facility, biomedical research laboratories, the Science and Engineering Library, a planetarium, a weather station, and 184 teaching and research laboratories. Also found in the Marshak Building are the Nat Holman Gymnasium and the Jeremiah Mahoney Pool. The Holman Gym seats approximately 1,800 spectators and is a large, modern, multi-purpose facility, home to many of the College's varsity athletic teams. The Mahoney Pool is used for competitions and recreational programs.

## City College Center for Discovery and Innovation

The City College Center for Discovery and Innovation opened in Fall 2014 and features approximately 200,000 square feet of space for advanced research in key interdisciplinary fields. The facility is a magnet for regional, national and international researchers and an academic hub of learning for students and faculty. The new research center and pedestrian plaza serve as a gateway to the south campus of City College, which also features the CUNY Advanced Science Research Center.

The Center for Discovery and Innovation is a futuristic architectural vision that reflects the research inside its laboratories. The interiors have been designed for optimal research functionality and to facilitate collaboration between all who work there.

Expanding upon the college's vision of strengthening academics through interdisciplinary study and research, five major innovative fields are featured in the facility: Nanotechnology, Photonics, Structural Biology, Neuroscience and Environmental Sciences. The scientific and technological achievements at the City College Center for Discovery and Innovation improve environments, extend lives, and transform societies in New York City and around the world.

Designed by the architectural firm of Kohn, Pedersen and Fox, the City College Center for Discovery and Innovation builds upon our already stellar reputation as a major research campus and nexus for leading scientists.

## CUNY Advanced Science Research Center

The Advanced Science Research Center has brought CUNY to a landmark moment in its multi-billion-dollar commitment to becoming a national leader in visionary scientific research of vital, real-world consequence.

Located on the south end of the City College campus in Upper Manhattan, the striking, 200,000-square-foot ASRC building embodies a bold vision of 21st Century discovery. At the center's core is a world-class facility designed to inspire an innovative approach to the scientific method itself, one that links a new wave of talented scientists with hundreds of top researchers from CUNY campuses across the city.

The ASRC focuses CUNY initiatives in five of the most energized areas of global research: Nanoscience. Photonics. Structural Biology. Neuroscience. Environmental Sciences. These are diverse and seemingly distinct fields, but they intersect in many of the most significant research quests of our time. It was the opportunity for myriad collaborations—particularly between labs in areas that are already in CUNY's spheres of strength—that guided the center's planners. Led by Vice Chancellor for Research Gillian Small, what they have conceived is the DNA of a distinctive research culture—creative, collaborative, convergent—to take on scientific challenges ranging from Alzheimer's disease to the future of the global water supply.

## City College Center for the Arts

Hosts an ambitious, year-round calendar of student and professional performances. The mission of the City College Center for the Arts is to provide a creative arts center and focal point for the City College of New York, building a sense of community within the College, elevating the profile of Aaron Davis Hall in the greater New York area, and connecting the College to the surrounding community through the arts.

### Aaron Davis Hall (AD)

Home to CCCA, features a two-theatre performing arts complex with an extensive history in Harlem and throughout this city. Aaron Davis Hall has hosted many of the world's greatest performers, brilliant minds and creators like Nelson Mandela, Harry Belafonte, Bill T. Jones, Celia Cruz, Twyla Tharp, and so many more. Aaron Davis Hall is the only cultural facility of its kind north of Lincoln Center used by groups like Dance Theatre of Harlem, Alvin Ailey II, Harlem School of the Arts, Carnegie Hall and Ballet Hispanico

### The Architecture Building (AR)

The Bernard and Anne Spitzer School of Architecture is housed in a 124,000 square foot facility, designed by architect Rafael Viñoly, which is designed to accommodate approximately 400 students. The building contains studios, classrooms, an exhibit area, administrative offices, the library, and computer labs. The studios each provide close to 1,000 square feet of space. The building also houses the City College Architecture Center (CCAC), which provides consulting services to community-based organizations.

### The Towers Residence Hall (TD)

The Towers at CCNY is the first residence hall to be built on the CCNY campus in its 167-year history. The Towers, located on the corner of West 130th Street and St. Nicholas Terrace on the South Campus, opened its doors in August 2006. Currently, The Towers provides accommodation for 600 resident students.

The Towers consists of 164 fully-furnished, air-conditioned suites in four configurations housing one to four students each as well as a limited number of studio and one-bedroom suites available for faculty housing. All suites have a fully-functional kitchenette. The Towers offers wireless internet service throughout the entire building (including resident rooms and lounges), a multi-purpose seminar room, a fitness center, a central laundry facility, a convenience store and a community kitchen. All residents are required to have an access card for entry at the 24-hour security desk; there are closed-circuit security cameras located throughout the building. CCNY operates a shuttle/escort van service to provide residents with easy access to the North Campus and local subway stations. The Residence Life Staff, which consists of Resident Assistants and professional staff, provides supervision of the building in accordance with CUNY/CCNY policies and procedures. Residence Life also strives to create community through educational and social programming and serves as a resource to all residents.

Information regarding the application process, scheduling a tour, and costs can be found on The Towers website at [www.ccnytowers.com](http://www.ccnytowers.com). The cost for living in The Towers varies by suite type and length of contract, however, all utilities (i.e., electric, heat, A/C, local phone service, access to internet service, access to free laundry room, and basic cable TV service) are included. Prospective residents may contact The Towers office by phone at (917) 507-0070 or via email at [towers@ccny.cuny.edu](mailto:towers@ccny.cuny.edu)

## Zahn Innovation Center

The Zahn Innovation Center is an incubator that nurtures entrepreneurial initiatives at the City College of New York, providing students, faculty and staff with the tools they need to transform their ideas into sustainable ventures. We offer support for both technology-enabled start-ups and social impact ventures.

The Center provides co-working spaces for its technology start-ups and social ventures and an ongoing, campus-wide speaker series. We host four entrepreneurship competitions per year, with \$140,000 in prize money on the table. We also offer mentorship, practical workshops, and expert pro-bono services for legal, Intellectual Property, incorporation, and accounting support. For technology and hardware based start-ups we also offer a wide range of prototyping capabilities including 3D printing, laser cutting, and machining, as well as access to an experienced design engineer.

### AN INCUBATOR

We are a startup incubator located at the City College of New York offering co-working space and an array of resources including: annual competitions, a startup bootcamp, mentorship and pro-bono services, networking opportunities, and rapid prototyping facilities.

### AN APPLIED EDUCATION

We inspire CCNY students to approach their education as changemakers, transforming classroom learning into real-world application. Each semester we partner with various academic departments to create curricula to cultivate the entrepreneurial mindset. We also pair students with startups and other companies in the NYC area through our robust internship program.

### A COMMUNITY OF CHANGEMAKERS

We invite all entrepreneurial thinkers to join our diverse community by attending our public events. We host prominent entrepreneurs, investors and other innovators to City College's campus, we host hackathons, work-shops and other programs throughout the year. We also encourage students to join one of our startup teams or become a part of the Center through the Entrepreneurship Student Club.

[About The City College](#)

## Research and Study Facilities

New subpage CCNY Libraries includes:

- The Morris Raphael Cohen Library (North Academic Center)
- The Architecture Library (Spitzer School of Architecture 101)
- The CUNY Dominican Studies Institute Archives and Library (NAC 2/202)
- The Music Library (Shepard 160)
- The Science/Engineering Library (Marshak 29)
- The Center for Worker Education Library (25 Broadway, 7th Floor)

Cohen Library, built around an atrium in the North Academic Center, occupies five floors and houses Humanities, Powell School, and Education materials. The collections are the largest in the CUNY system, totaling more than 1,700,000 books, 901,600 microforms, 27,800 scores and recordings, 8,000 videos and DVDs, and 1.3 million digital images. Designated a federal depository in 1884, the library has 148,826 government documents. The Archives and Special Collections Division contains 4,191 linear feet

of official records and historical material on the College in addition to rare books and special subject collections. Digital holdings include 944,121 e-books, 150,000 online periodicals, and 100,000 digital government documents. The library serves the instructional and research needs of undergraduate through doctoral levels and provides study areas, carrels, and computer workstations for students and faculty.

The City College Libraries web site (<http://library.ccny.cuny.edu>) provides quick and easy access to digital resources – full text, indexes, dissertations and catalogs – in 236 databases. The OneSearch library catalog provides access to library holdings both at City College and throughout CUNY.

Books and periodicals are arranged on open stacks. The Library of Congress classification is used for the shelf arrangement of most books. Three hundred and fifty computers provide access to digital resources, document preparation software, and the Internet. CLICS, the intra-CUNY borrowing service, allows users to request materials from any library in the University, for delivery to any CUNY library of their choice. Document delivery, Interlibrary Loan, and METRO referrals enable faculty and students to obtain materials from other library collections in the metropolitan area and beyond. MaRLI (Manhattan Research Library Initiative) provides borrowing privileges at NYPL, Columbia and NYU libraries to graduate students who apply to the program. See <https://www.nypl.org/help/research-services/MaRLI> for more information.

Library faculty provide individualized library service and information literacy instruction on multiple levels, from **FIQWS** classes through graduate courses. For research assistance, contact us at: [library.ccny.cuny.edu/askus/contact.tent](mailto:library.ccny.cuny.edu/askus/contact.tent)

About The City College

## Office of Information Technology

Over the past few years the Office of Information Technology (OIT), overseen by the Vice President of Operations and Chief Information Officer, has undergone a targeted expansion. Major changes have included deploying a new firewalls that can support greater bandwidth and traffic speeds. OIT has also enhanced our student laptop loaner program.

The mission of the Office of Information Technology is to:

- Empower the user community to achieve the highest level of academic and administrative success through the effective use of information technologies
- Facilitate academic innovations in teaching, learning, research and scholarship
- Deliver excellent technology services in support of City College's mission.

The OIT is committed to collaborating with the college community to provide excellent information technology products and services. We recognize that the College community has the best chance to succeed when we within the OIT strive for excellence and uphold the highest standards in our daily operations.

The OIT is responsible for software applications, hardware support, telecommunications, media services, network infrastructure, instructional technologies and information security. In addition to providing technical support services to the College community we also initiate technology enhancement projects and implement innovative solutions to technology-based issues to improve campus life.

As College populations become more and more technology savvy, the professional skills development of the OIT staff has become extremely important. We are committed to staying current with the high-level trends of technology and their corresponding impact on education with constant training courses for our staff.

The OIT houses two general computer labs to facilitate the technology needs of our students. (1) The North Academic Center (NAC) General Student Lab, which provides 108 Windows-based computers; and (2) The cTY Tech Center, City College's new state-of-the-art computing, learning and training resource center, located on the ground floor of the Cohen Library in the North Academic Building, room NA 1/301. Re-designed to accommodate student learning in a variety of stimulating configurations. The Tech Center provides the following services:

- Over 300 workstations
- Seven printers (five general-use, one color, and one wifi enabled)
- Two Active Learning Classrooms (capacity of 35 students in each)
- Ten media study rooms (MSR) with dual-flat panel displays that accommodate from three to six students
- Fifteen two-person study rooms equipped with Windows or Macintosh desktop workstations
- Three smart classrooms containing 32, 35 and 50 workstations, high definition projectors, and, in the largest classroom, a podium with AV controls and laptop connections.
- Over 80 single-use desktop in the open bays

The workstations are configured with compatible version of the college's site-licensed software, including Adobe Creative Suite, Matlab, Microsoft Office Suite, SAS, and SPSS. The spatial configurations accommodate students who choose to work individually, as well as provide incentives for student collaboration.

The Service Desk provides support for the CUNY Portal, Blackboard LMS, laptops, CUNYfirst wireless configuration and access, and acts as a central distribution point for campus-wide, site-licensed software to the college community. The Service Desk also provides Tier 1 technical support for students, faculty and staff in the following areas:

- Technical information technology support
- Mobile devices
- Laptop
- Wireless configuration and access
- Site-licensed software
- College e-mail system (Citymail)
- Registration
- CUNY Portal
- Password Reset
- Blackboard
- Active Directory log-in

This one-stop shop solution has given the OIT staff a more efficient way of addressing the technology needs of students, faculty and staff.

Call us at 212.650.7878, email us at [servicedesk@ccny.cuny.edu](mailto:servicedesk@ccny.cuny.edu) or come find us on the ground floor of the Cohen Library in the North Academic Building, room NAC 1/301.

For more information on our services and opening hours visit our website: <https://www.ccny.cuny.edu/it/help>

Our Academic Technology Services department provides audio-visual (AV) resources and services in support of academic instruction, scholarly communications, and other activities consistent with the College's mission. This area also supports our distance learning platforms of Zoom and BlueJeans.

ATS provides the following services:

- iMedia and classroom technology support
- Audio-visual resources for loan
- Student laptops for loan
- Video conferencing services
- Video duplication and conversion services

ATS also provides in-classroom AV technology support for users in smart room locations, video-conferencing services utilizing IP based BlueJeans or Polycom equipment, DVD duplication services, VHS to DVD conversion services and a host of AV resources including microphones, document cameras, AV cables, audio and video recorder and playback devices and Mac and PC laptops for loan on a per class or per semester basis.

The College has 140 Smart Classrooms that are outfitted with an LCD projector, projection screen, audio speakers and an audio and video input interface for use with laptops, iPods, document cameras and other AV devices. Our iMedia and Client Services technicians maintain and service this equipment.

Call us at 212.650.5480 or come find us in NAC 1/201.

At City College you will be joining a community devoted to creating and sharing information. Whatever happens you will be a learner, a discoverer, and a technology consumer at City College. You will be using computers and other information technologies for your coursework. We in the OIT are committed to helping you to achieve your full potential and are ready and available to answer any questions at any time.

[About The City College](#)

## Academic Offerings

---

The College offers the following degrees:

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Engineering
- Bachelor of Science in Education
- Bachelor of Fine Arts
- Bachelor of Architecture
- Bachelor of Music
- Various master's and combined B.A./M.A., B.A./M.S. degrees

In August 2008, The City College was granted the authority by the State of New York to offer Ph.D. degrees in Engineering as well as joint degrees in Science with the CUNY Graduate Center. A number of other doctoral programs are based at City College with the Ph.D. degree awarded through the Graduate School and University Center of The City University of New York.

The Sophie Davis School of Biomedical Education offers a program that enables students to earn a B.S./M.D. degree in seven years.

[About The City College](#)

## The Right to Privacy

---

The College complies fully with the Family Educational Rights and Privacy Act ([FERPA](#)).

[About The City College](#)

## Retention, Graduation and Job Placement

---

### Retention

City College remains faithful to its mission of "Access to Excellence," beginning with its recruitment of students through to its engagement with alumni. In addition to its unique freshman seminar (Freshman Inquiry Writing Seminar/FIQWS) and curricula, CCNY offers intentional advising and academic supports, such as the Writing Center, subject-specific tutoring, and four-year graduation plans. Of the first-time regularly admitted freshmen in the Fall 2014 Cohort, 87.0 percent were retained after one year, 74.9 percent after two years, 64.6 percent after three years, and 42.3 percent after four years. The six-year graduation rate for this cohort is 59.72 percent.

### Post-Graduation Outcomes

City College's Career and Professional Development Institute assists the students and alumni by providing a full range of high-quality programs and services, such as career counseling; self-assessment software; career workshops and seminars, CCNY specific online job/internship database, opportunities to network with employers, multiple job/internship fairs; and career preparation. Of the over 1,800 graduates who earned degrees in 2015-2016, approximately 55 percent reported at the time of graduation obtaining full-time employment or enrollment in graduate programs.

### Important Note

The City University of New York reserves the right, because of changing conditions, to make modifications of any nature in the academic programs and requirements of the University and its constituent colleges without advance notice. Tuition and fees set forth in this publication are similarly subject to change by the Board of Trustees of The City University of New York. The University regrets any inconvenience this may cause.

The College does not guarantee to offer all courses it announces. The announcement is made in good faith, but circumstances beyond the control of the College sometimes necessitate changes. The College may cancel courses if the enrollment does not warrant their being offered or if other contingencies make such a cancellation necessary.

## Policies on Non-Discrimination and Sexual Harassment

The City College prohibits discrimination on the basis of race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including pregnancy, childbirth and related conditions), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, status as a victim of domestic violence/stalking/sex offenses, unemployment status, or any other legally prohibited basis in accordance with federal, state and city laws. The [CUNY Sexual Misconduct Policy](#) prohibits sexual harassment, gender-based harassment and sexual violence (together “sexual misconduct”) against any CUNY student, employee or visitor.

It is also the University’s policy to provide reasonable accommodations when appropriate to individuals with disabilities, individuals observing religious practices, employees who have pregnancy or childbirth-related medical conditions, or employees who are victims of domestic violence/stalking/sex offenses. Questions, concerns, or complaints based on any of the above may be directed to the Office of Diversity and Compliance, Shepard Hall, Room 109A-D (212-650-6310). Additionally, complaints under the Sexual Misconduct policy can also be filed with the Office of Public Safety or Office of Student Affairs.

## Disclaimer

The City College of New York, 2023–2024 Undergraduate Bulletin represents the academic policies and procedures, services, course and program offerings that are in effect at the time of publishing. The Bulletin will not be updated to include any changes taking effect since publication. The most current information regarding academic programs and course descriptions, academic policies and services available to students can be found on the City College of New York web site. For matters of academic policy (e.g., applicable degree requirements), students are also advised to consult their major department adviser, refer to the departments web page, the Office of the Provost, and/or the Registrar for additional information.

## Admissions

The Office of Admissions is located in the Wille Administration Building, A-101, 160 Convent Avenue (at 138th Street), New York, NY 10031.

Procedures for admission to City College as a freshman or as a transfer student from another college with advanced standing often differ from one program to another; students are therefore encouraged to visit or call the Office of Admissions at 212-650-6977 with any questions. Admissions information can also be obtained at [www.cuny.edu/admissions](http://www.cuny.edu/admissions).

### Campus Visits

The Office of Admissions offers many opportunities for prospective students to visit our campus. We provide group and individual tours, information sessions, as well as self-guided tours (virtual tours are also available). The Office of Admissions hosts an annual Undergraduate Open House each fall. Information on how to access these services is available on our web site. Please refer to <https://www.cuny.edu/admissions/campus-tours> for more information.

### Degree and Non-Degree Admission

Students are classified into two groups. Degree students (freshmen and transfers) are those who have been accepted into a specific college program leading to a degree. Non-degree students may enroll in credit courses but are not officially registered in a degree program. Non-degree students must meet all prerequisites for the courses in which they wish to enroll. A limited number of credits earned by such students may later be transferred to a degree program.

### Freshman Admission

Applicants who have not attended a college, university and/or proprietary school since graduating high school are considered freshmen. Freshman admission is based on a student’s overall high school academic average, grades in individual subjects, distribution of academic courses, and standardized test scores, if provided. (The College recommends four years of English, four years of social studies, four years of mathematics, three years of laboratory science, three or four years of a foreign language, and one year of performing or visual arts as the academic preparation needed for success at City College. Students with state-approved equivalency diplomas may also apply. International applicants from non-English speaking countries are required to submit a TOEFL (Test of English as a Foreign Language) score; the International English Language Testing System (IELTS) score; or Pearson (PTE) score. NOTE: The college has implemented a test-optional admission policy effective through Spring 2025.

### CUNY Skills Requirements

All students are required to meet City University’s skills proficiency requirements in reading, writing and mathematics. Contact the Office of Admissions for detailed information.

### Applying for Freshman Admission

Applicants for freshman admission can apply online at [www.cuny.edu/admissions](http://www.cuny.edu/admissions). Priority is given to applications completed before February 1 (for fall admission) and September 15 (for spring admission). The application deadline for students applying to the Macaulay Honors College is November 16th.

Selective programs such as Macaulay Honors College, Sophie Davis School of Biomedical Education/CUNY Medical School, Grove School of Engineering, and Bernard and Anne Spitzer School of Architecture have earlier deadlines and/or special application requirements; please contact the Office of Admissions for more information.

## CONTACT THE CUNY HELP DESK

For admission-related questions, including those regarding the status of your admission application, contact the appropriate Help Desk.

## **SEEK Counseling and Student Support Services/The Percy Ellis Sutton SEEK Program**

The Percy Ellis Sutton Search for Education, Elevation and Knowledge (SEEK) program is for New York State residents who are in need of both academic and financial assistance in order to obtain a college education. SEEK students may be eligible to receive up to five years of state-funded tuition assistance and a stipend to help cover the cost of books and college fees. They also receive intensive counseling and academic support.

A student wishing to apply to the SEEK program should file the CUNY freshman application and indicate interest in SEEK and College Discovery. City College should be listed on the Free Application for Federal Student Aid (FAFSA). For more information about SEEK, refer to the section in this Bulletin describing the Department of SEEK Counseling and Student Support Services.

## **Macaulay Honors College/CCNY Honors Programs**

Entering freshmen may apply to honors-level programs at the College, including the City College Honors Program and the Macaulay Honors College.

These programs are academically rigorous. For application and deadline information, contact the Office of Admissions (212-650-6977).

## **Advanced Placement**

Students who enrolled in an advanced placement program while in high school may be excused from certain courses or may receive credit based on advanced placement examination results. The College will award course credit for scores of 3, 4 or 5. Students who have taken the advanced placement examinations should use the code 2083 when requesting to have their score reports sent to City College.

Advanced placement credits may also be awarded for test scores for International Baccalaureate (IB) and Cambridge A-Levels, and Caribbean Advanced Proficiency Examinations (CAPE). You must submit official scores to the Office of Admissions.

Credit for military service and training may be obtained by submitting your Joint Services transcript through the JST System on-line, using your military branch credentials.

## **College Courses Taken in High School**

High school students who have taken college level courses must provide the college/university transcript to the Office of Admissions in order to have the courses evaluated for credit (courses taken as part of CUNY's College Now program do not require a transcript to be sent).

## **Transfer Admission**

Applicants who have attended any college, university and/or proprietary school since graduating high school are considered transfers. Transfer admission is based on a student's overall grade point average (G. P. A.), including courses taken at all institutions attended since graduating high school. A high school transcript is required of all those with fewer than 24 post-high school college credits earned at the time of application (and is recommended for those with 24 or more post-high school credits). All students must meet CUNY's minimum skills requirements (see above). Admission criteria is subject to change. The priority application deadline for the fall semester is February 1 and for the spring semester September 15.

## **Bernard and Anne Spitzer School of Architecture**

The Bernard and Anne Spitzer School of Architecture admits a limited number of freshmen and transfers students each fall semester. Admission to Architecture is highly selective and is based on a student's overall academic record and the supplemental Creative Challenge test (available on the City College Office of Admissions website ([www.ccnycuny.edu/admissions](http://www.ccnycuny.edu/admissions))).

## **Grove School of Engineering**

Freshman admission to the Grove School of Engineering is based on the high school record and standardized test scores. Freshmen are expected to have achieved overall excellence in high school and to be at the calculus-level in mathematics. Transfer admission to the Grove School of Engineering requires a G. P. A. of at least 2.7 and two semesters of calculus (equivalent to Calculus 1 and Calculus 2 at City College) and one semester of physics (equivalent to Physics-PHYS 207 at City College), all with a grade of "C" or higher and a minimum of 24 college credits. All applicants must demonstrate proficiency in math and science. All requirements must have been completed by the time of application.

## **International Students**

Applicants whose schooling has been outside the United States should file the appropriate CUNY transfer or freshman application. Links to the applications are available at [www.ccnycuny.edu/admissions](http://www.ccnycuny.edu/admissions). In addition, students who are on temporary visas and whose native language is not English will be required to submit results of the Test of English as a Foreign Language (TOEFL); the International English Language Testing System (IELTS); or Pearson (PTE). International freshman applicants should also submit SAT or ACT results. See the CUNY admissions website for more information about submitting scores.

International students are encouraged to apply at least eight months prior to the semester the applicant wishes to enter. Each student's application is individually evaluated. In addition, new regulations imposed by the United States Department of Homeland Security may cause delays in receiving the F-1 student visa. It is possible that it may take longer than eight months to be admitted and enrolled at City College. In most cases, international students are not eligible for financial aid.

## **Re-entry to City College**

Students who have not attended City College for one or more semesters (exclusive of Summer Semester) must file an application for re-entry with the Admissions Office at least one month prior to the beginning of the semester for which readmission is sought. Applications for re-entry are available on the college's web site at [www.ccnycuny.edu/admissions](http://www.ccnycuny.edu/admissions) or at the Admissions Office.

Re-entry decisions are based on the student's academic record at City College. The College seeks to re-enter only those students who can demonstrate the ability to remain in good academic standing and complete degree requirements within a reasonable period of time. If the applicant's grade point average is below 2.0, approval may also be required from the Office of Academic Standards. Re-entry students who have attended another college since leaving City College must submit official transcripts from these institutions at the time of re-entry.

## Non-Degree Admission

### Non-Degree Status

Students who do not hold a bachelor's degree must be high school graduates or hold a General Educational Development (GED) or TASC diploma with a minimum score of 3250, and should submit transcripts of any prior college work. All non-degree students (post-baccalaureate, visiting, non-degree) are limited to a maximum of 24 credits. Departmental approval is needed to register for courses in English, mathematics, science and English as a Second Language. Non-degree students are not allowed to register for courses in the Grove School of Engineering or the Spitzer School of Architecture. Non-degree students must be proficient in English and Mathematics.

Non-degree and post-baccalaureate students are not eligible for financial aid and must pay tuition and fees.

Non-degree students must meet all prerequisites for the courses in which they wish to enroll. City College degree students have first priority for registration. Non-degree students register for classes on a space available basis.

### Post-Baccalaureate Status

Students who already hold a bachelor's degree and wish to enroll in undergraduate courses for personal or professional enrichment, without pursuing a degree, may be eligible for post-baccalaureate admission. Students must meet course prerequisites as determined by the department and are admitted on a space available basis.

### Senior Citizens

New York State residents who are 60 or older may enroll tuition-free in undergraduate courses on a space-available basis, provided they do so on an audit basis. An \$80 per semester fee is required of senior citizens who are auditing courses. Those who wish to enroll for credit may do so on the same basis as other degree-credit students. Senior citizens who wish to take courses for credit must file a regular application and meet the general admission requirements. For information regarding course offerings or application procedures, contact the Office of Admissions.

## Visitors from Other CUNY Colleges or Universities

### From Within The City University of New York

Students currently enrolled at another CUNY college must file an E-Permit with their home college. Check the website of the home college for E-Permit application and procedures.

### From Outside The City University of New York

Students who are currently enrolled in schools outside CUNY must provide the Office of Admissions with a copy their transcript from their home school, together with a completed non-degree application. There is a non-refundable application fee of \$65. An on-line applications is available at [www.ccnycuny.edu/admissions](http://www.ccnycuny.edu/admissions).

Visitors from other colleges may not take courses in the Grove School of Engineering or the Spitzer School of Architecture. The Department of Mathematics may request that students take an examination to verify placement into specific courses.

Note: Non-degree students attending City College are not eligible to take courses on permit at another CUNY college.

### Integrity of Documents

All documents submitted to City University and City College in support of an application for admission or transfer credit evaluation become the possession of City University and City College and will not be returned to the applicant.

For information about the CUNY policy on Admissions Application Fraud see the CUNY Manual of General Policy ARTICLE VII STUDENT AFFAIRS AND SPECIAL PROGRAMS > Policy 7.01 Admission Application Fraud ([http://policy.cuny.edu/manual\\_of\\_general\\_policy/article\\_vii/policy\\_7.01/text](http://policy.cuny.edu/manual_of_general_policy/article_vii/policy_7.01/text))

All information requested on an application must be answered fully and correctly. Omission of colleges, universities and/or proprietary schools attended or falsification of information will constitute grounds for permanently rescinding an offer of admission, disciplinary action and/or dismissal.

### Health Statement and Immunization Requirement

New York State Public Health Law 2165 requires proof of immunity to measles, mumps and rubella (MMR) as a condition for attendance. The College reserves the right to prevent the registration of any applicant who fails to provide a record of immunization or who otherwise provides a health risk to the College community. It is University policy that all students who register for six or more credits/equivalent credits and were born after December 31, 1956 must provide proof of their immunity to measles, mumps and rubella. Students may fax their immunization records and the forms to 212-650-8227.

New York State passed Public Health Law (PHL) 2167, addressing meningococcal meningitis. In compliance with PHL 2167, all New York State students, regardless of how many credits they take in college, must fill out a Meningococcal Meningitis Response form within 30 days of registration or at the same time they send in their MMR compliance document.

Students may download forms at [http://origin.admin.ccnycuny.edu/student\\_affairs/wellness/default.asp](http://origin.admin.ccnycuny.edu/student_affairs/wellness/default.asp). If submitting the forms by fax, be sure to include the name, social security number (or assigned City College identification number) and birth date. Applicants are advised to confirm the receipt of the fax by calling 212-650-8222.

### CUNY Policy on Admission of Students Who May Pose a Risk to the College

The college reserves the right to deny admission to any student if in its judgment, the presence of that student on campus poses an undue risk to the safety or security of the college or the college community. That judgment will be based on an individualized determination taking into account any information the college has about the crime committed by the student and the particular circumstances of the college, including the presence of a child care center, summer camp, public school or public school students on the campus. In addition, the college may consider factors such as the amount of time since the crime was committed, the amount of jail time served by the student, the number of years the student was on probation or parole, whether the student has satisfied probation or parole requirements at the time of the student's application, whether the student has completed drug, alcohol, sex offender or other treatment, and what work or educational experience the student has had after the conviction. Finally, if the student is known to have been assisted by CUNY-sponsored or other re-entry program or initiative, the college will consult with a counselor or representative from said program.

## Accelerated Master's Degrees

Accelerated master's degrees offer eligible undergraduate students the opportunity to earn a master's and a bachelor's degree in fewer semesters. There are two types of accelerated master's programs: **combined bachelor's/master's degrees** and **4+1 options**.

In a **combined degree**, a student completes all requirements for both a bachelor's and a master's degree while still an undergraduate, and earns both degrees upon graduation.

In a **4+1 option**, a student may take graduate courses while an undergraduate. After graduating with the bachelor's, the student may apply a determined number of graduate credits taken while an undergraduate toward a master's degree, shortening the time to completion of the master's by as much as one semester. A student in a 4+1 option may be accepted to the graduate program before finishing the bachelor's degree.

Programs include:

[Biochemistry, MS](#)  
[Biomedical Engineering BE\(BME\)/MS\(BME\)](#)  
[Biology, BS/MS](#)  
[Biotechnology, MS \(Biology\)](#)  
[Chemistry, BS/MS](#)  
[Computer Engineering BE\(CpE\)/MS\(CpE\)](#)  
[Computer Science BS\(CSc\)/MS\(CSc\)](#)  
[Cyber Security BE\(EE\)/MS\(Cyb\), BE\(CpE\)/MS\(Cyb\), BS\(CSc\)/MS\(Cyb\)](#)  
[Economics, BA/MA](#)  
[Electrical Engineering BE\(EE\)/ME\(EE\)](#)  
[History, BA/MA](#)  
[Mathematics, MS](#)  
[Mechanical Engineering BE\(ME\)/ME\(ME\)](#)  
[Psychology, BA/MA](#)  
[Study of the Americas, MA](#)  
[Urban Design MUP \(5+1\)](#)

New programs are being added. If you are interested in an accelerated master's degree that is not on this list, please contact the department office or email [xlr8@ccny.cuny.edu](mailto:xlr8@ccny.cuny.edu).

## The Office of the Registrar

The Office of the Registrar is located in the Wille Administration Building, room A-102 on 160 Convent Avenue (at 138th Street), New York, New York 10031.

Some of the operations that are handled in the office include maintaining academic records, issuance of transcripts, course registrations, processing of verification letters, maintenance of the academic calendar, and awarding of student degrees, while protecting all students' information in accordance with FERPA regulations. We encourage students to visit our webpage at [www.ccny.cuny.edu/registrar](http://www.ccny.cuny.edu/registrar) for additional information. Students can contact a representative via telephone at 212-650-7850 or via Zoom by going to our home-page and clicking on the link for our Virtual Front Desk. In addition students can contact the office by sending an email to [registrar@ccny.cuny.edu](mailto:registrar@ccny.cuny.edu).

## Tuition and Fees

The Bursar's Office is located in the Wille Administration Building, Room 103, and the telephone number is 212-650-8700.

Tuition is set by the University Board of Trustees and is subject to change without notice of their actions. Students should arrange to pay their total tuition, fees and charges as the final step of the registration process if they wish to be admitted to classes. Students who may be eligible for financial assistance or grants should consult with the Financial Aid Office as early as possible.

## Undergraduate Tuition Per Semester

	Resident Students	Non-Resident Students
Full-Time	\$3465 per Semester	\$620 per Credit
Part-Time	\$305 per Credit	\$620 per Credit
Non-degree Students	\$445 per Credit	\$915 per Credit
*Mandatory Fees	\$204.95 full-time	\$204.95 full-time
	\$118.95 part-time	\$118.95 part-time

Semester Fees

	Resident	Non-Resident
Consolidated Fee	\$15	\$15
Technology Fee	\$125 (Full Time)	\$125 (Full-Time)
	\$62.50 (Part-Time)	\$62.50 (Part-Time)
Student Activity Fee	\$63.50 (Full-Time)	\$63.50 (Full-Time)
	\$40.00 (Part-Time)	\$40.00 (Part-Time)
Student Senate Fee	\$1.45	\$1.45

**Application Fees**

Undergraduate Freshmen	\$65
Undergraduate Transfer	\$70
Graduate	\$75
Readmission	\$20
Late Registration	\$25
Change of Program	\$18
Duplicate Receipt	\$5
Returned Check Fee	\$20
Late Payment Fee	\$15
Transcript	\$7
Make-up Examination, first in semester	\$25
Make-up Examination, second in semester	\$5
Duplicate ID Card	\$10
Duplicate Diploma	\$30
Senior Citizens	\$80 (\$65 + \$15 consolidated fee)

\*\* Subject to change through a student referendum & Board approval

There may be other costs and fees associated with academic work, such as textbooks and studio or lab materials. Notice of additional fees will appear in the course listing in each semester's Schedule of Classes.

**Senior Citizen Fees**

Individuals who have reached the age of 60 prior to the first day of a semester may enroll for undergraduate courses on an audit basis and pay only the Senior Citizen's fee of \$65.00 plus the \$15.00 consolidated fee. Persons in this category may enroll on a space available basis after degree students have had an opportunity to register. Students must document their eligibility by submitting a copy of one of the following:

- Medicaid card
- Driver's License or Non-Driver ID
- Birth Certificate

**Excess Hours**

Excess hours are contact hours (class hours) in excess of credit hours. Graduate students taking classes that have more contact hours than credit hours pay an excess contact hour charge. For example, if a 3-credit class meets 5 hours a week, a NY State resident student pays \$65 per excess contact hour (\$130 for 2 extra hours) and a non-NY State resident pays \$85 per excess contact hour (\$170 for 2 extra hours).

**Tuition Refunds**

When courses are cancelled by the College, a full refund of appropriate tuition and fees will be made. In other cases, tuition refunds will be made or liability reduced only in accordance with Board of Trustees regulations. Further information can be obtained from the Office of the Registrar. On approved applications, proportionate refunds of tuition will be made in accordance with the schedule below. The date on which the application is filed, not the last date of attendance, is considered the official date of the student's withdrawal and serves as the basis for computing any refund.

Withdrawal before the first day of classes (as published in the Academic Calendar)	100%
Withdrawal before completion of the first full scheduled week of classes	75%
Withdrawal before completion of the second full scheduled week of classes	50%
Withdrawal before completion of third full scheduled week of classes	25%
Withdrawal beyond third week	0%

Consolidated, student activity, materials and technology fees are not refundable.

**Payment of Collection Costs**

Students who do not make full payment of their tuition, fees and other college bills and whose account is sent to a collection agency will be responsible for all collection costs, including agency fees, attorney fees, and court costs, in addition to whatever amounts are owed to the College. In addition, non-payment or a default judgment against a student's account may be reported to a credit bureau and be reflected in their credit reports.

## New York State Residency Requirements

Students are assigned residency status when admitted to the College. Since residency determines tuition rates, students should know their classifications. If there is a question of status it is the responsibility of the student to prove residency. A "CUNY Residency Form" is available at the Office of the Registrar. New students must apply through the Office of Admissions.

The Financial Aid Office administers federal and state funds, as well as those provided by special programs and the College itself. Federal funds may be disbursed only to those who maintain their academic standing and are not in default of a student loan or owe a refund on a federal grant. For the most recent information on application filing procedures, deadline dates, and eligibility criteria for the various programs, students are urged to contact the Financial Aid Office.

For additional information, see the CUNY Website describing New York State residency

(<http://www2.cuny.edu/about/administration/offices/legal-affairs/university-tuition-fee-manual/iv-residency>).

\*For further information or additional questions, please visit the [Bursar website](#).

## Financial Aid

The Financial Aid Office is located in the Wille Administration Building, Room 104 and the phone number is (212) 650-6656.

The Financial Aid Office administers federal and state funds, as well as those provided by special programs and the College itself, with the intention of insuring that all qualified students will have an opportunity to pursue higher education. Scholarships, grants, loans, work opportunities and governmental benefits are combined into a package to help meet the difference between the cost of attendance and the contribution from the student and family. Unless otherwise stated, offer amounts are based upon need. Federal funds may be disbursed only to those who maintain good academic standing and are not in default of a student loan or owe a refund on a federal grant. Students are urged to apply before the priority deadline of March 15. For the most recent information on application filing procedures, academic progress requirements, and other eligibility criteria for the various programs, students are urged to contact the Financial Aid Office.

Financial Aid

## New York State Awards

In order to be considered for any NYS aid, students must have graduated from high school in the United States, earned a high school equivalency diploma, or passed a federally approved "Ability to Benefit" test, as defined by the commissioner of the State Education Department.

**Note:** The deadline published in our academic calendar for declaring a major by 60 credits, only applies to New York State aid.

### The Senator Jose Peralta NYS DREAM Act (DREAM ACT)

Allows undocumented and other eligible students to apply for New York State financial aid. The NYS DREAM Act application is used to determine student eligibility under the provisions of the NYS DREAM Act.

Students who meet the NYS DREAM Act's eligibility requirements for high school attendance, high school completion, in-state CUNY tuition, and citizenship or immigration status will be able to apply for one or more NYS student financial aid programs.

Students who qualify under the NYS DREAM Act can separately apply for NYS student financial aid programs. For more details <https://www.hesc.ny.gov/>

### Tuition Assistance Program (TAP)

TAP is a grant for full-time undergraduate students who are residents of New York State and who are U.S. citizens or eligible noncitizens. Under-graduates may be eligible for grants from \$500 to a maximum of \$5,165 for the academic year. TAP awards cannot exceed the cost of tuition. Participants in this program are expected to comply with the program pursuit and academic progress requirements to remain eligible for subsequent TAP awards. Additionally one of the New York State Higher Education Services Corporation (NYSHESC) academic eligibility requirements for TAP, is that students must declare a major when they have accumulated 60 or more credits. Declaration or change of major, concentration or minor must be submit-ted by the deadline published in our academic calendar. In addition, students must be registered for at least 12 credits contributory toward their major, minor or general education requirement. Further information on TAP eligibility is available in the Financial Aid Office and on its website.

### Part-Time TAP

Students who were first time freshmen in 2006-07 or thereafter and who are enrolled in at least 6 but fewer than 12 credits, may now be eligible for Part-time TAP without having to previously been enrolled full time. Students must maintain a GPA of at least 2.00.

### Aid for Part-Time Study (APTS)

This grant program is financed by New York State and administered by participating colleges. APTS provides aid to part-time (3-11 credits) undergraduates for their educational expenses. Awards cannot exceed tuition costs. Recipients must file a FAFSA and a TAP application and be New York State residents who have not used up eligibility for the TAP program. In addition, students must complete and submit the "CUNY Supplement Form. In addition, students must complete and submit the "CUNY Supplement Form" in the CUNYfirst Student Center To-do-list.

### Excelsior Scholarship

The Excelsior Scholarship, in combination with other student financial aid programs, allows students to attend a CUNY college tuition-free.

### Eligibility

An applicant must:

- be a resident of NYS and have resided in NYS for 12 continuous months prior to the beginning of the term;
- be a U.S. citizen or eligible non-citizen;
- have either graduated from high school in the United States, earned a high school equivalency diploma, or passed a federally approved "Ability to Benefit" test, as defined by the Commissioner of the State Education Department;
- have a combined federal adjusted gross income of \$125,000 or less;
- be pursuing an undergraduate degree at a CUNY or SUNY college;
- be enrolled in at least 12 credits per term and complete at least 30 credits each year (successively), applicable toward his or her degree program;

- if attended college prior to the 2019-20 academic year, have earned at least 30 credits each year (successively), applicable toward his or her degree program prior to applying for an Excelsior Scholarship;
- be in a non-default status on a student loan made under any NYS or federal education loan program or on the repayment of any NYS award;
- be in compliance with the terms of the service condition(s) imposed by a NYS award that you have previously received; and
- execute a Contract agreeing to reside in NYS for the length of time the award was received, and, if employed during such time, be employed in NYS.

## NYS Science, Technology, Engineering and Mathematics (STEM) Incentive Program

The NYS STEM Incentive Program provides a full CUNY tuition scholarship for the top 10 percent of students in each New York State high school if they pursue a STEM degree in an associates or bachelor degree program and agree to work in a STEM field in New York State for 5 years after graduation.

### Eligibility

An applicant must:

- Be a NYS resident
- Be a U.S. citizen or eligible non-citizen
- Be enrolled full time at a SUNY or CUNY college, including the statutory or contract colleges at Cornell University and Alfred University, beginning with the fall term following his or her high school graduation
- Be ranked in the top 10% of his/her high school graduating class of a NYS high school
- Be matriculated in an undergraduate program leading to a degree in Science, Technology, Engineering or Mathematics at a SUNY or CUNY college
- Earn a cumulative grade point average (GPA) of 2.5 or higher each term after the first semester
- Execute a service contract agreeing to reside and work in NYS for five years in the field of Science, Technology, Engineering or Mathematics.
- Not be in default on a student loan made under any NYS or federal education loan program or repayment of any state award
- Be in compliance with the terms of any service condition imposed by a state award

### Award Amounts

Recipients shall receive an annual award for full-time study equal to the annual tuition charged to NYS resident students attending an undergraduate program at the State University of New York, or actual tuition charged, whichever is less. The STEM award will be reduced by the amount of any other tuition-only assistance award received.

### Duration

Recipients shall be entitled to an annual award for not more than four academic years of full-time undergraduate study while matriculated in an approved program leading to a degree in Science, Technology, Engineering or Mathematics or five years if the program of study requires five years.

### How to Apply

Applications will be available October 1 every year for the upcoming academic year. Recipients are not required to submit another New York State Science, Technology, Engineering and Mathematics Incentive Program Web Supplement once they have been awarded this scholarship, but must complete the (FAFSA) and TAP application each year. Awards will be paid directly to the school on behalf of students upon the successful completion of each term. Successful completion of a term means the applicant meets all of the eligibility requirements for the award.

#### Financial Aid

## Federal Awards (Title IV Aid)

### Pell Grant

Pell is an entitlement program, which means that the U.S. Government guarantees a grant to all students who show evidence of need. The student must complete the Free Application for Federal Student Aid (FAFSA). This program is for first undergraduate degree students who are U.S. citizens or eligible noncitizens. Students are required to enroll in one or more actual or equivalent credits in a degree granting program. One must maintain good academic standing and make satisfactory progress towards completing a degree. A student enrolled in an undergraduate program may only receive a maximum of 6 years of full time Pell award. This equates to 600% of Lifetime Eligibility Used. Once a student reaches the 600% limit of the Pell award they are no longer eligible. For information about eligibility and the award amount please contact the Financial Aid Office.

### Campus-Based Aid Programs

Funds from the two federal programs—Federal Work-Study (FWS), and Federal Supplemental Educational Opportunity Grant (FSEOG)—are offered to eligible students who attend on at least a half-time basis. Except for FSEOG, which is for undergraduates only, undergraduate and graduate students who are U.S. citizens or eligible noncitizens may apply. Unlike Federal Pell and TAP, these are not entitlement programs; the Free Application for Federal Student Aid form (FAFSA), which is used to apply for most financial aid, should be filed each year before the priority deadline of March 15.

### Federal Work-Study Program (FWS)

Students are offered an opportunity to earn wages while pursuing their course of study. Federal Work-Study jobs are available on campus or off campus at an approved public service or non-profit agency.

### William D. Ford Federal Direct Loan (Subsidized and Unsubsidized)

Ford Federal Direct Loans enable students in degree granting programs and are enrolled at least half-time to meet educational expenses by borrowing from the federal government at a low interest rate. Dependent undergraduate students may borrow up to \$5,500 for the first year, \$6,500 the second year, and \$7,500 for each remaining year of undergraduate study. Independent undergraduate students may borrow up to \$9,500 for the first year, \$10,500 the second year, and \$12,500 for each remaining year of undergraduate study. Unsubsidized Federal Direct Loans are available to students regardless of income. Applicants must file the FAFSA and a loan application. Students are responsible for the interest payments on unsubsidized loans. For details such as repayment and interest rates, consult the Financial Aid Office.

Exit counseling is required for any student borrower who ceases to maintain at least half-time enrollment (six or more credits).

## William D. Ford Federal Direct PLUS Loans

These loans are for parents of dependent students who need additional funds for educational expenses. The parent must be a US citizen or eligible noncitizen. A parent may borrow up to the student's cost of attendance minus any financial aid. Half-time enrollment is required. A credit check is required in order to qualify for a PLUS loan. The Financial Aid Office will determine student eligibility for a William D. Ford Federal Direct Loan before a Federal Direct PLUS Loan can be received. For details such as repayment and interest rates, consult the Financial Aid Office.

### Verification

Students who file a FAFSA may be chosen for a process called "verification". When the federal government requires verification, the financial aid office must confirm the information on a student's FAFSA. Items to be verified include adjusted gross income, US taxes paid, education credits, untaxed IRA distributions, Untaxed portions of pensions, IRA deductions and payments, tax-exempt interest, income earned from work, household size, number in college, and Identity/statement of educational purpose. Students chosen for verification cannot receive any disbursements until this process has been completed.

### Federal Return to Title IV Policy

Students who cease to be enrolled prior to the end of a payment period or period of enrollment (semester), may have their financial aid package recalculated based on the Federal Return to Title IV regulations. The regulations require that the College calculate the portion of the federal aid a student is entitled to, based on the aid that could have been disbursed had the student remained enrolled and the number of days the student attended classes.

The enrollment status used to calculate financial aid eligibility is set either on the 7th day of classes or at the point the student's financial aid record becomes payable. Updates on Financial Aid certification dates are available in the Financial Aid Office and on its website.

Students who withdraw from some or all classes prior to the earlier of those dates will have their aid recalculated and could lose some or all of their aid. If a student fails to begin attendance in some or all of their classes, the unattended classes will not be used to calculate their enrollment status for financial aid eligibility. If aid has been disbursed for unattended classes, the student may be required to return funds, with the exception of federal work-study earned, which will not be recouped.

Students who officially withdraw after completing more than 60% of the semester are considered to have "earned" 100% of their federal financial aid, and the College is not required to recalculate their eligibility.

If the Return to Title IV calculation determines that the student is not entitled to a portion of the money that has already been disbursed, the College will return the "unearned" portion to the federal government and the student will be billed for the money that was returned on his or her behalf. A "Negative Service Indicator" will be placed on the student's record until the money has been repaid to the Bursar.

If the calculation determines that the student is entitled to aid that has not been disbursed, the Office of the University Controller will notify the student of his or her eligibility and give the student the opportunity to decline the post withdrawal disbursement. However, post withdrawal disbursements of federal grant aid will automatically be disbursed to the student's account.

To receive a post withdrawal disbursement of loan funds, the student must sign and return the post withdrawal notice, confirming that he or she wants the loan to be disbursed; however, only the first disbursement of a loan may be disbursed after a student has withdrawn.

Financial Aid

## Other Financial Aid

### New York State Scholarships and Awards

Scholarships awarded through the New York State Education Department and administered by the Higher Education Services Corporation (NYSHESC) include the following: New York State Scholarship for Academic Excellence; New York State Achievement and Investment in Merit Scholarship (AIMS); Military enhanced Recognition Incentive and Tribute Scholarship (MARS); Regents Awards for Children of Deceased or Disabled Veterans; Regents Awards for Children of Deceased Police Officers, Firefighters and Corrections Officers; State Aid to Native Americans; New York State World Trade Center Memorial Scholarships; and Veterans Tuition Awards. For further information and application materials, contact NYSHESC ([www.hesc.ny.org](http://www.hesc.ny.org) or 99 Washington Avenue, Albany, New York 12255; Tel: (888) 697-4372) or the New York State Education Department (New York State Education Department 89 Washington Avenue Albany, New York 12234).

### Accelerate, Complete, Engage (ACE)

ACE at The City College of New York is a comprehensive program designed to help students complete their bachelor's degree on time. ACE provides financial, academic, and personal support, including intensive academic advisement and career development, as well as tuition, textbook, and transportation assistance.

### Alternative Loans

International students, non-matriculated and/or less than half-time students may be eligible to receive a private loan to help with their educational expenses. These loans may require a co-signer and a credit check. Students must contact the lending institution of their choice for information regarding these loans.

### City University Supplemental Tuition Assistance Program (CUSTA)

Depending on funding from the New York State Legislature, this program provides supplemental assistance of up to \$100 per year to students who would experience an automatic decrease in their TAP award beginning in the fifth semester. Recipients must be full-time undergraduates, New York State residents, and eligible for maximum TAP. Recipients are chosen from among TAP applicants; students need take no special action.

## Federal Aid to Native Americans

To be eligible for these awards, applicants should be a member of, or at least one-quarter degree Indian blood descendant of a member of an American Indian tribe who are eligible for the special programs and services provided by the United States through the Bureau of Indian Affairs, and be accepted for admission to an accredited college pursuing a four-year degree. Further information may be obtained from the local Bureau of Indian Affairs Office or the U.S. Bureau of Indian Affairs, Office of Education (1849 C Street, NW, Washington D.C. 20240-0001).

## Macaulay Honors College

Macaulay Honors College seeks to admit students with leadership potential who are high achievers, intellectually curious, creative, and highly motivated. In addition to academic performance, prospective students are evaluated using a combination of academic and personal factors including High school transcript, extracurricular activities, community service, personal initiative and leadership qualities, recommendations, character reference letter, essays and interviews (for some students). Honors College

students receive a laptop computer and access to a Macaulay Opportunities Fund grant of up to \$7,500 for the undergraduate experience to be used for global research, and internships. In addition students accepted into the Honors College who are New York State residents, receive full coverage for their tuition. Students are required to file a FAFSA and TAP applications, and the Honors College tuition waiver may be reduced by the amount of the TAP, Pell, SEOG and NYC Merit Scholarship awards, NYS and other scholarships.

## SEEK Counseling and Student Support Services/The Percy Ellis Sutton SEEK Program

The Percy Ellis Sutton Search for Education, Elevation and Knowledge (SEEK), program is funded by New York state for its legal residents who have been deemed by the College as economically disadvantaged and academically underprepared. Students admitted to City College as SEEK students will receive extensive support services, including tutoring and counseling when needed. In addition, based on family income and financial need demonstrated via the FAFSA, SEEK students may qualify to receive program stipends to assist with the costs of books and supplies, as well as certain mandatory CUNY fees. Since SEEK is designed primarily for full-time students, if qualified, SEEK students are eligible to receive two extra semesters of TAP grant funding, for a maximum of ten semesters. Students must meet specific economic criteria to qualify for admission to the SEEK program. The income limits are based on the federal poverty guidelines and are tied to family size. At the time of their initial admission to the College, students are required to provide The Federal tax returns (1040) and other applicable documents as official proof of total family income for SEEK. Undocumented students may be eligible for NYS aid by completing The José Peralta New York State DREAM ACT application.

## Veterans

Veterans and the children of deceased or permanently disabled veterans are encouraged to contact the Office of Veterans Affairs located in Wingate Hall, Room 107. The telephone number is (212) 650-5374.

## World Trade Center Memorial Scholarship

This scholarship covers the cost of tuition, fees, books and supplies, transportation, and room and board for four full-time academic years. It is awarded to the children and spouses of victims who died or were severely disabled as a result of the terrorist attacks of September 11, 2001, or as a result of the rescue and recovery efforts related to those attacks. The applicant must be enrolled as a matriculated undergraduate student in a program approved by the Commissioner of Education and must file FAFSA and TAP applications. Financial aid received from other sources will be taken into account when calculating scholarship eligibility.

[Financial Aid](#)

## Merit-Based Scholarships

### The City College of New York Scholarship Program

The City College offers a variety of scholarships to entering freshmen, transfer and continuing students. Criteria for selection vary but may include past academic performance, standardized test scores, evidence of creative promise, financial need, campus involvement, community service, volunteer activities or demonstrated leadership. Scholarship information can be obtained from the College's website.

### Peter F. Vallone Academic Scholarship Program

The Peter F. Vallone Academic Scholarship (formerly the New York City Council Merit Scholarship) rewards New York City high school graduates who have proven their ability to succeed academically while they were in high school. Students may receive \$700 per year (\$350 per semester). Funding is determined by the New York City Council and scholarship amounts are subject to change based upon funding provided each academic year. Once a college has reached their allocation amount, no additional recipients can be awarded.

### Application Form

There is no separate application for the scholarship. Students are automatically considered for the award when they apply for admission to CUNY.

#### To qualify you must:

- Must be a US Citizen/Eligible Non-Citizen
- Be a resident of New York City
- Graduate from a New York City high school with at least an 80(B) GPA
- Enroll at a CUNY college as a full-time student within one year of graduating from high school
- Register as a full-time student each semester (except summer) and maintain at least a 3.0 cumulative GPA
- Attend CUNY before attending any other post secondary institution

### Pursuit and Progress

- You must maintain continuous full-time (12 credits) enrollment within the City University of New York system
- You must maintain a cumulative GPA of at least 3.0 that is calculated once a year at the end of the Spring semester
- Students pursuing an associate's degree may receive the Peter V. Vallone Academic Scholarship for a maximum of six semesters. Those seeking a bachelor's degree are limited to eight semesters of eligibility
- The award is not restored once it has been lost

### Student Budgets (Cost of Attendance)

The City University of New York (CUNY) calculates "average living expenses" for each academic year. Living expenses are added to tuition and fee expenses, to equal the "cost of attendance". Items included in the calculation are room and board, transportation, books and supplies, and personal expenses.

## 2023-2024 Cost of Attendance

Student Living away with parents:	
Books and Supplies	\$1,364
Transportation	\$1,122
Lunch	\$1,700
Personal Expenses	\$1,928
Housing	\$5,080
<b>Total</b>	<b>\$11,194</b>

Student Living away from parents:	
Books and Supplies	\$1,364
Transportation	\$1,122
Personal Expenses	\$2,646
Medical	\$2,381
Housing	\$17,604
Food (At Home)	\$2,484
Lunch	\$1,700
<b>Total</b>	<b>\$29,301</b>

### Satisfactory Academic Progress (SAP) Requirements

Federal Financial Aid - All students must satisfy qualitative and quantitative academic standards in order to remain eligible for federal financial aid. Students will be measured against the Title IV Satisfactory Academic Progress Standards at the end of each spring semester in order to determine eligibility for the upcoming year. Those who fail to meet the academic standards will have their federal aid automatically suspended until they meet the minimum standards. (Students who can document that their failure to satisfy academic requirements were the result of extraordinary or exceptional circumstances may be able to apply for a waiver to receive federal aid for another semester).

New York State Aid - To qualify for a New York State Tuition Assistance Program (TAP) or Aid for Part-time Study (APTS) award, students must meet the applicable New York State Satisfactory Academic Progress standards.

To view the Federal and New York State academic requirements please refer to "Academic Requirements" under "Frequently Asked Questions" in the Financial Aid section of the City College website.

### Financial Aid Refunds

A student can receive financial aid refunds in one of two ways:

1. A check mailed to the student's address
2. Direct deposit

For safety and security, direct deposit is strongly recommended.

Financial aid will be applied to a student's outstanding tuition and fees charges first. Remaining funds will be refunded to the student. (Note: TAP, and APTS and Excelsior Scholarship can only be used toward a student's tuition charges).

### Study Abroad

Financial aid is available for students who attend an approved study abroad program.

### New York State Aid

The New York State Tuition Assistance Program (TAP) may be used for Study Abroad programs. Students must be enrolled full-time and at least twelve (12) of their credits must be contributory to their program of study. Tuition must be paid at the City College of New York or another New York state college or university. A student's TAP award will be contingent on verification that the courses they register for at the foreign institution are contributory toward their program of study as well as meeting all other eligibility criteria. TAP will not cover tuition when City College has an agreement to forward paid tuition funds to a foreign institution.

### Federal Aid

Federal financial aid may be used for study abroad programs. Direct loans and Pell grants are the types of aid most commonly used. To qualify for a Direct Student loan students must be enrolled for at least six (6) credits. To qualify for a Federal Pell Grant, students must be enrolled for at least one (1) credit. However, the award amount would be prorated based on the number of credits.

Students must meet federal satisfactory academic progress requirements and all other eligibility requirements. Additionally students who enroll for a non-CUNY study abroad program must submit a Consortium Agreement form as part of the study abroad approval process.

## New York State Awards

In order to be considered for any NYS aid, students must have graduated from high school in the United States, earned a high school equivalency diploma, or passed a federally approved "Ability to Benefit" test, as defined by the commissioner of the State Education Department.

**Note:** The deadline published in our academic calendar for declaring a major by 60 credits, only applies to New York State aid.

## The Senator Jose Peralta NYS DREAM Act (DREAM ACT)

Allows undocumented and other eligible students to apply for New York State financial aid. The NYS DREAM Act application is used to determine student eligibility under the provisions of the NYS DREAM Act.

Students who meet the NYS DREAM Act's eligibility requirements for high school attendance, high school completion, in-state CUNY tuition, and citizenship or immigration status will be able to apply for one or more NYS student financial aid programs.

Students who qualify under the NYS DREAM Act can separately apply for NYS student financial aid programs. For more details <https://www.hesc.ny.gov/>

## Tuition Assistance Program (TAP)

TAP is a grant for full-time undergraduate students who are residents of New York State and who are U.S. citizens or eligible noncitizens. Under-graduates may be eligible for grants from \$500 to a maximum of \$5,165 for the academic year. TAP awards cannot exceed the cost of tuition. Participants in this program are expected to comply with the program pursuit and academic progress requirements to remain eligible for subsequent TAP awards. Additionally one of the New York State Higher Education Services Corporation (NYSHESC) academic eligibility requirements for TAP, is that students must declare a major when they have accumulated 60 or more credits. Declaration or change of major, concentration or minor must be submitted by the deadline published in our academic calendar. In addition, students must be registered for at least 12 credits contributory toward their major, minor or general education requirement. Further information on TAP eligibility is available in the Financial Aid Office and on its website.

## Aid for Part-Time Study (APTS)

This grant program is financed by New York State and administered by participating colleges. APTS provides aid to part-time (6-11 credits) undergraduates for their educational expenses. Awards cannot exceed tuition costs. Recipients must file a FAFSA and a TAP application and be New York State residents who have not used up eligibility for the TAP program. In addition, students must complete and submit the "CUNY Supplement Form. In addition, students must complete and submit the "CUNY Supplement Form" in the CUNYfirst Student Center To-do-list.

## Excelsior Scholarship

The Excelsior Scholarship, in combination with other student financial aid programs, allows students to attend a CUNY college tuition-free.

### Eligibility

An applicant must:

- be a resident of NYS and have resided in NYS for 12 continuous months prior to the beginning of the term;
- be a U.S. citizen or eligible non-citizen;
- have either graduated from high school in the United States, earned a high school equivalency diploma, or passed a federally approved "Ability to Benefit" test, as defined by the Commissioner of the State Education Department;
- have a combined federal adjusted gross income of \$125,000 or less;
- be pursuing an undergraduate degree at a CUNY or SUNY college;
- be enrolled in at least 12 credits per term and complete at least 30 credits each year (successively), applicable toward his or her degree program;
- if attended college prior to the 2019-20 academic year, have earned at least 30 credits each year (successively), applicable toward his or her degree program prior to applying for an Excelsior Scholarship;
- be in a non-default status on a student loan made under any NYS or federal education loan program or on the repayment of any NYS award;
- be in compliance with the terms of the service condition(s) imposed by a NYS award that you have previously received; and
- execute a Contract agreeing to reside in NYS for the length of time the award was received, and, if employed during such time, be employed in NYS.

## NYS Science, Technology, Engineering and Mathematics (STEM) Incentive Program

The NYS STEM Incentive Program provides a full CUNY tuition scholarship for the top 10 percent of students in each New York State high school if they pursue a STEM degree in an associates or bachelor degree program and agree to work in a STEM field in New York State for 5 years after graduation.

### Eligibility

An applicant must:

- Be a NYS resident
- Be a U.S. citizen or eligible non-citizen
- Be enrolled full time at a SUNY or CUNY college, including the statutory or contract colleges at Cornell University and Alfred University, beginning with the fall term following his or her high school graduation
- Be ranked in the top 10% of his/her high school graduating class of a NYS high school
- Be matriculated in an undergraduate program leading to a degree in Science, Technology, Engineering or Mathematics at a SUNY or CUNY college
- Earn a cumulative grade point average (GPA) of 2.5 or higher each term after the first semester
- Execute a service contract agreeing to reside and work in NYS for five years in the field of Science, Technology, Engineering or Mathematics.
- Not be in default on a student loan made under any NYS or federal education loan program or repayment of any state award
- Be in compliance with the terms of any service condition imposed by a state award

## Award Amounts

Recipients shall receive an annual award for full-time study equal to the annual tuition charged to NYS resident students attending an undergraduate program at the State University of New York, or actual tuition charged, whichever is less. The STEM award will be reduced by the amount of any other tuition-only assistance award received.

## Duration

Recipients shall be entitled to an annual award for not more than four academic years of full-time undergraduate study while matriculated in an approved program leading to a degree in Science, Technology, Engineering or Mathematics or five years if the program of study requires five years.

## How to Apply

Applications will be available October 1 every year for the upcoming academic year. Recipients are not required to submit another New York State Science, Technology, Engineering and Mathematics Incentive Program Web Supplement once they have been awarded this scholarship, but must complete the (FAFSA) and TAP application each year. Awards will be paid directly to the school on behalf of students upon the successful completion of each term. Successful completion of a term means the applicant meets all of the eligibility requirements for the award.

## Federal Awards (Title IV Aid)

### Pell Grant

Pell is an entitlement program, which means that the U.S. Government guarantees a grant to all students who show evidence of need. The student must complete the Free Application for Federal Student Aid (FAFSA). This program is for first undergraduate degree students who are U.S. citizens or eligible noncitizens. Students are required to enroll in one or more actual or equivalent credits in a degree granting program. One must maintain good academic standing and make satisfactory progress towards completing a degree. A student enrolled in an undergraduate program may only receive a maximum of 6 years of full time Pell award. This equates to 600% of Lifetime Eligibility Used. Once a student reaches the 600% limit of the Pell award they are no longer eligible. For information about eligibility and the award amount please contact the Financial Aid Office.

### Campus-Based Aid Programs

Funds from the two federal programs—Federal Work-Study (FWS), and Federal Supplemental Educational Opportunity Grant (FSEOG)—are offered to eligible students who attend on at least a half-time basis. Except for FSEOG, which is for undergraduates only, undergraduate and graduate students who are U.S. citizens or eligible noncitizens may apply. Unlike Federal Pell and TAP, these are not entitlement programs; the Free Application for Federal Student Aid form (FAFSA), which is used to apply for most financial aid, should be filed each year before the priority deadline of March 15.

### Federal Work-Study Program (FWS)

Students are offered an opportunity to earn wages while pursuing their course of study. Federal Work-Study jobs are available on campus or off campus at an approved public service or non-profit agency.

### William D. Ford Federal Direct Loan (Subsidized and Unsubsidized)

Ford Federal Direct Loans enable students in degree granting programs and are enrolled at least half-time to meet educational expenses by borrowing from the federal government at a low interest rate. Dependent undergraduate students may borrow up to \$5,500 for the first year, \$6,500 the second year, and \$7,500 for each remaining year of undergraduate study. Independent undergraduate students may borrow up to \$9,500 for the first year, \$10,500 the second year, and \$12,500 for each remaining year of undergraduate study. Unsubsidized Federal Direct Loans are available to students regardless of income. Applicants must file the FAFSA and a loan application. Students are responsible for the interest payments on unsubsidized loans. For details such as repayment and interest rates, consult the Financial Aid Office.

Exit counseling is required for any student borrower who ceases to maintain at least half-time enrollment (six or more credits).

### William D. Ford Federal Direct PLUS Loans

These loans are for parents of dependent students who need additional funds for educational expenses. The parent must be a US citizen or eligible noncitizen. A parent may borrow up to the student's cost of attendance minus any financial aid. Half-time enrollment is required. A credit check is required in order to qualify for a PLUS loan. The Financial Aid Office will determine student eligibility for a William D. Ford Federal Direct Loan before a Federal Direct PLUS Loan can be received. Borrowers with their first Direct Subsidized loan disbursement on or after 7/1/2013 may not receive Direct Subsidized loans for more than 150 percent of the published length of their program. For details such as repayment and interest rates, consult the Financial Aid Office.

### Verification

Students who file a FAFSA may be chosen for a process called "verification". When the federal government requires verification, the financial aid office must confirm the information on a student's FAFSA. Items to be verified include adjusted gross income, US taxes paid, education credits, untaxed IRA distributions, Untaxed portions of pensions, IRA deductions and payments, tax-exempt interest, income earned from work, household size, number in college, and Identity/statement of educational purpose. Students chosen for verification cannot receive any disbursements until this process has been completed.

### Federal Return to Title IV Policy

Students who cease to be enrolled prior to the end of a payment period or period of enrollment (semester), may have their financial aid package recalculated based on the Federal Return to Title IV regulations. The regulations require that the College calculate the portion of the federal aid a student is entitled to, based on the aid that could have been disbursed had the student remained enrolled and the number of days the student attended classes.

The enrollment status used to calculate financial aid eligibility is set either on the 7th day of classes or at the point the student's financial aid record becomes payable. Updates on Financial Aid certification dates are available in the Financial Aid Office and on its website.

Students who withdraw from some or all classes prior to the earlier of those dates will have their aid recalculated and could lose some or all of their aid. If a student fails to begin attendance in some or all of their classes, the unattended classes will not be used to calculate their enrollment status for financial aid eligibility. If aid has been disbursed for unattended classes, the student may be required to return funds, with the exception of federal work-study earned, which will not be recouped.

Students who officially withdraw after completing more than 60% of the semester are considered to have "earned" 100% of their federal financial aid, and the College is not required to recalculate their eligibility.

If the Return to Title IV calculation determines that the student is not entitled to a portion of the money that has already been disbursed, the College will return the "unearned" portion to the federal government and the student will be billed for the money that was returned on his or her behalf. A "Negative Service Indicator" will be placed on the student's record until the money has been repaid to the Bursar.

If the calculation determines that the student is entitled to aid that has not been disbursed, the Office of the University Controller will notify the student of his or her eligibility and give the student the opportunity to decline the post withdrawal disbursement. However, post withdrawal disbursements of federal grant aid will automatically be disbursed to the student's account.

To receive a post withdrawal disbursement of loan funds, the student must sign and return the post withdrawal notice, confirming that he or she wants the loan to be disbursed; however, only the first disbursement of a loan may be disbursed after a student has withdrawn.

## Other Financial Aid

---

### New York State Scholarships and Awards

Scholarships awarded through the New York State Education Department and administered by the Higher Education Services Corporation (NYSHESC) include the following: New York State Scholarship for Academic Excellence; New York State Achievement and Investment in Merit Scholarship (AIMS); Military enhanced Recognition Incentive and Tribute Scholarship (MARS); Regents Awards for Children of Deceased or Disabled Veterans; Regents Awards for Children of Deceased Police Officers, Firefighters and Corrections Officers; State Aid to Native Americans; New York State World Trade Center Memorial Scholarships; and Veterans Tuition Awards. For further information and application materials, contact NYSHESC ([www.hesc.ny.org](http://www.hesc.ny.org) or 99 Washington Avenue, Albany, New York 12255; Tel: (888) 697-4372) or the New York State Education Department (New York State Education Department 89 Washington Avenue Albany, New York 12234).

### Veterans

Veterans and the children of deceased or permanently disabled veterans are encouraged to contact the Office of Veterans Affairs located in Wingate Hall, Room 106. The telephone number is (212) 650-5374.

### Macaulay Honors College

Macaulay Honors College seeks to admit students with leadership potential who are high achievers, intellectually curious, creative, and highly motivated. In addition to academic performance, prospective students are evaluated using a combination of academic and personal factors including High school transcript, extracurricular activities, community service, personal initiative and leadership qualities, recommendations, character reference letter, essays and interviews (for some students). Honors College students receive a laptop computer and access to a Macaulay Opportunities Fund grant of up to \$7,500 for the undergraduate experience to be used for global research, and internships. In addition students accepted into the Honors College who are New York State residents, receive full coverage for their tuition.

Students are required to file a FAFSA and TAP applications, and the Honors College tuition waiver may be reduced by the amount of the TAP, Pell, SEOG and NYC Merit Scholarship awards, NYS and other scholarships.

### World Trade Center Memorial Scholarship

This scholarship covers the cost of tuition, fees, books and supplies, transportation, and room and board for four full-time academic years. It is awarded to the children and spouses of victims who died or were severely disabled as a result of the terrorist attacks of September 11, 2001, or as a result of the rescue and recovery efforts related to those attacks. The applicant must be enrolled as a matriculated undergraduate student in a program approved by the Commissioner of Education and must file FAFSA and TAP applications. Financial aid received from other sources will be taken into account when calculating scholarship eligibility.

### Federal Aid to Native Americans

To be eligible for these awards, applicants should be a member of, or at least one-quarter degree Indian blood descendant of a member of an American Indian tribe who are eligible for the special programs and services provided by the United States through the Bureau of Indian Affairs, and be accepted for admission to an accredited college pursuing a four-year degree. Further information may be obtained from the local Bureau of Indian Affairs Office or the U.S. Bureau of Indian Affairs, Office of Education (1849 C Street, NW, Washington D.C. 20240-0001).

### Alternative Loans

International students, non-matriculated and/or less than half-time students may be eligible to receive a private loan to help with their educational expenses. These loans may require a co-signer and a credit check. Students must contact the lending institution of their choice for information regarding these loans.

### City University Supplemental Tuition Assistance Program (CUSTA)

Depending on funding from the New York State Legislature, this program provides supplemental assistance of up to \$100 per year to students who would experience an automatic decrease in their TAP award beginning in the fifth semester. Recipients must be full-time undergraduates, New York State residents, and eligible for maximum TAP. Recipients are chosen from among TAP applicants; students need take no special action.

### SEEK Counseling and Student Support Services/The Percy Ellis Sutton SEEK Program

The Percy Ellis Sutton Search for Education, Elevation and Knowledge (SEEK), program is funded by New York state for its legal residents who have been deemed by the College as economically disadvantaged and academically underprepared. Students admitted to City College as SEEK students will receive extensive support services, including tutoring and counseling when needed. In addition, based on family income and financial need demonstrated via the FAFSA, SEEK students may qualify to receive program stipends to assist with the costs of books and supplies, as well as certain mandatory CUNY fees. Since SEEK is designed primarily for full-time students, if qualified, SEEK students are eligible to receive two extra semesters of TAP grant funding, for a maximum of ten semesters. Students must meet specific economic criteria to qualify for admission to the SEEK program. The income limits are based on the federal poverty guidelines and are tied to family size. At the time of their initial admission to the College, students are required to provide IRS tax returns and other applicable documents as official proof of total family income for SEEK. Undocumented students may be eligible for NYS aid by completing The José Peralta New York State DREAM ACT application.

## Merit-Based Scholarships

---

### The City College of New York Scholarship Program

The City College offers a variety of scholarships to entering freshmen, transfer and continuing students. Criteria for selection vary but may include past academic performance, standardized test scores, evidence of creative promise, financial need, campus involvement, community service, volunteer activities or demonstrated leadership. Scholarship information can be obtained from the College's website.

## Peter F. Vallone Academic Scholarship Program

The Peter F. Vallone Academic Scholarship (formerly the New York City Council Merit Scholarship) rewards New York City high school graduates who have proven their ability to succeed academically while they were in high school. Students may receive \$700 per year (\$350 per semester). Funding is determined by the New York City Council and scholarship amounts are subject to change based upon funding provided each academic year. Once a college has reached their allocation amount, no additional recipients can be awarded.

### Application Form

There is no separate application for the scholarship. Students are automatically considered for the award when they apply for admission to CUNY.

#### To qualify you must:

- Must be a US Citizen/Eligible Non-Citizen
- Be a resident of New York City
- Graduate from a New York City high school with at least an 80(B) GPA
- Enroll at a CUNY college as a full-time student within one year of graduating from high school
- Register as a full-time student each semester (except summer) and maintain at least a 3.0 cumulative GPA
- Attend CUNY before attending any other post secondary institution

### Pursuit and Progress

- You must maintain continuous full-time (12 credits) enrollment within the City University of New York system
- You must maintain a cumulative GPA of at least 3.0 that is calculated once a year at the end of the Spring semester
- Students pursuing an associate's degree may receive the Peter V. Vallone Academic Scholarship for a maximum of six semesters. Those seeking a bachelor's degree are limited to eight semesters of eligibility
- The award is not restored once it has been lost

### Student Budgets (Cost of Attendance)

The City University of New York (CUNY) calculates "average living expenses" for each academic year. Living expenses are added to tuition and fee expenses, to equal the "cost of attendance". Items included in the calculation are room and board, transportation, books and supplies, and personal expenses.

2020-2021 Cost of Attendance Calculation		
Student living with parent:		
	Room & Board	\$4,750
	Transportation	\$1,122
	Lunch	\$1,360
	Books & Supplies	\$1,364
	Personal Expenses	\$1,772
	<u>Loan Fees</u>	<u>\$58</u>
		\$10,426
Student living away from parent:		
	Room & Board	\$16,067
	Transportation	\$1,122
	Lunch	\$1,360
	Books & Supplies	\$1,364
	Personal Expenses	\$4,533
	<u>Loan Fees</u>	<u>\$58</u>
		\$24,504

An updated "Cost of Attendance" will be posted to the City College Financial Aid webpage, under Frequently Asked Questions (FAQ) each academic year.

### Satisfactory Academic Progress (SAP) Requirements

**Federal Financial Aid** - All students must satisfy qualitative and quantitative academic standards in order to remain eligible for federal financial aid. Students will be measured against the Title IV Satisfactory Academic Progress Standards at the end of each spring semester in order to determine eligibility for the upcoming year. Those who fail to meet the academic standards will have their federal aid automatically suspended until they meet the minimum standards. (Students who can document that their failure to satisfy academic requirements were the result of extraordinary or exceptional circumstances may be able to apply for a waiver to receive federal aid for another semester).

**New York State Aid** - To qualify for a New York State Tuition Assistance Program (TAP) or Aid for Part-time Study (APTS) award, students must meet the applicable New York State Satisfactory Academic Progress standards.

To view the Federal and New York State academic requirements please refer to "Academic Requirements" under "Frequently Asked Questions" in the Financial Aid section of the City College website.

### Financial Aid Refunds

A student can receive financial aid refunds in one of two ways:

1. A check mailed to the student's address
2. Direct deposit

For safety and security, direct deposit is strongly recommended.

Financial aid will be applied to a student's outstanding tuition and fees charges first. Remaining funds will be refunded to the student. (Note: TAP, and APTS and Excelsior Scholarship can only be used toward a student's tuition charges).

## Study Abroad

Financial aid is available for students who attend an approved study abroad program.

## New York State Aid

The New York State Tuition Assistance Program (TAP) may be used for Study Abroad programs. Students must be enrolled full-time and at least twelve (12) of their credits must be contributory to their program of study. Tuition must be paid at the City College of New York or another New York state college or university. A student's TAP award will be contingent on verification that the courses they register for at the foreign institution are contributory toward their program of study as well as meeting all other eligibility criteria. TAP will not cover tuition when City College has an agreement to forward paid tuition funds to a foreign institution.

## Federal Aid

Federal financial aid may be used for study abroad programs. Direct loans and Pell grants are the types of aid most commonly used. To qualify for a Direct Student loan students must be enrolled for at least six (6) credits. To qualify for a Federal Pell Grant, students must be enrolled for at least one (1) credit. However, the award amount would be prorated based on the number of credits.

Students must meet federal satisfactory academic progress requirements and all other eligibility requirements. Additionally, students who enroll for a non-CUNY study abroad program must submit a Consortium Agreement form as part of the study abroad approval process.

## Honors Programs

The City College offers two college-wide honors programs for undergraduates, which are administered by the Honors Center (NAC 4/150; 212-650-6917; [cityhonors@ccny.cuny.edu](mailto:cityhonors@ccny.cuny.edu)).

### The City College Honors Program

The City College Honors Program offers selected, high-achieving students in all disciplines a particularly challenging academic program, intensive advising, and opportunities for personal, academic, and professional growth. The heart of the program is the honors curriculum, delivered through small, interactive classes that fulfill the general education (Pathways) requirements in an Honors context. Specific Pathways requirements are determined by a student's major. The honors-level Pathways classes provide enhanced and enriched learning experiences that create an excellent academic springboard for future goals, regardless of a student's eventual specialization. Honors Classes are taught by outstanding faculty, who encourage student participation, inquiry, and rigorous study.

Retention in the City College Honors Program requires a cumulative G.P.A. of 3.6 and consistent full-time attendance. Upon successful completion of the honors program, the designation "Liberal Arts Honors" is entered on the student's transcript.

To be eligible for the program as an entering first-year student, a student must have a high school average of at least 90%. New first-year students will be considered for the program if they have applied to the Macaulay Honors College at The City College (see below), or if they have applied for scholarships at City College using the downloadable scholarship application available at <http://ccny.cuny.edu/admissions> under the heading Prospective Students/Admissions/Scholarships.

A small number of incoming transfer and continuing students may be admitted to the program at the discretion of the Honors director. To be considered, these students transferring into Honors must have a cumulative G.P.A. of 3.6 or higher, have completed fewer than sixty credits, and have at least five Pathways courses still to be taken. Transfer students must have applied for admission to The City College. Continuing students are considered only for fall term admission. The City College Continuing Student Honors Program Application, due by the first Friday in June, is available in the spring term from the Honors Center (NAC Room 4/150, [cityhonors@ccny.cuny.edu](mailto:cityhonors@ccny.cuny.edu)).

### The Macaulay Honors College at The City College

The City College participates in the university-wide Macaulay Honors College, which sponsors students on eight campuses at CUNY. The program accepts only new freshmen with outstanding academic high school records and encourages the highest level of academic accomplishment, cross-campus community engagement across the eight Macaulay cohorts, service, and leadership. A dedicated staff assists students with career exploration, and opportunities for academic, personal, and professional development.

Among Pathways courses for Macaulay students are four required special interdisciplinary seminars focusing on New York City. Additional honors-level Pathways courses are chosen from honors and other classes appropriate to the major in consultation your assigned Macaulay Honors College academic advisor.

Students are expected to achieve a term G.P.A. of 3.3 for each of their first three semesters and maintain a G.P.A. of 3.6 from the second semester of their Sophomore year for each semester until graduation. Consistent full-time attendance is mandatory. Upon successful completion of the program, the designation "William E. Macaulay Honors College at The City University of New York" is entered on the student's record.

The program admits only new first-year students. The special application for Macaulay Honors College is available for electronic completion and submission at <http://www.cuny.edu/admissions/apply.html>. The application deadline is December 1. Detailed information about additional benefits (including full-tuition scholarships) and requirements of the Macaulay Honors College can be accessed at [www.macaulay.cuny.edu](http://www.macaulay.cuny.edu).

### Research Honors in the Major

The City College is a research institution strongly committed to scholarship and research on the part of students as well as faculty. Macaulay Honors College scholars are required to complete a capstone as part of their program requirements. Honors Program students are strongly encouraged to engage in a capstone project. Every school, division, and department has developed a structure within which qualified undergraduate students can pursue either independent study, scholarly or creative projects, or research projects under faculty guidance. Students can elect to assist a faculty member in a project. Students should have completed all basic requirements and be nearing completion of their specialization before they apply for independent study. Those who elect to pursue Honors in the Major should begin the departmental honors sequence well before they graduate, typically organizing it no later than their Junior year in tandem with their major advisor. Faculty will assist eligible students in devising and arranging for cross-disciplinary projects.

In most cases, departmental honors courses are numbered 30100-30300 or 30400. Consult the departmental chair or your academic advisor for details. Application for Research Honors must be made to the department by December 10 for the spring term and by May 1 for the fall term.

## Health and Wellness Services

---

Health and Wellness Services provides programmatic and informational support to help students further their academic and personal growth goals. This office serves as an umbrella for several different departments including the AccessAbility Center (Student Disability Services), the Counseling Center, Student Health Services, Gender Resources, and Emergency grants.

### The AccessAbility Center (Student Disability Services)

---

The AccessAbility Center/Student Disability Services (AAC/SDS) ensures full participation and meaningful access to all of City College's services, programs, and activities that correspond with the Americans with Disabilities Act of 1990, amended in 2008, Section 504 of the Rehabilitation Act of 1973, the Fair Housing Act of 1968, and other applicable Federal, State, and local non-discriminations laws. AAC/SDS accomplishes this goal through the coordination and implementation of appropriate accommodations and support services for students with disabilities. The Center works actively toward full inclusion in policies, procedures, and practices in the context of accessibility while maintaining essential academic and technical standards. If you are a student with a disability and believe you could benefit from AAC/SDS accommodations and services, please contact the Center via: telephone: (212) 650-5913; or TTY/TTD: (212) 650-8441; or email: [disabilityservices@ccny.cuny.edu](mailto:disabilityservices@ccny.cuny.edu); or visit in-person at North Academic Center, Room 1/218, during business hours (Monday-Friday, 9:00 am-5:00 pm).

*While students can request accommodations at any time, it is best to contact AAC/SDS as early as possible.*

### Student Health Services

---

Student Health Services (SHS) is committed to the delivery of quality care to the student population in order to promote, improve and advance the health, well being and overall success of college students as directed by the guidelines of the American College Health Association (ACHA).

Clinical services provided by a full time and part time Registered Nurse. These services are free and confidential to all currently enrolled CCNY students. Medical services include immunizations such as MMR, Hepatitis B, Tdap (Tetanus) and seasonal Influenza, PPD/Tuberculin testing, Health Education and First Aid. SHS arranges for free on-site HIV Testing and health insurance navigators as part of the Affordable Care Act for information and enrollment to various health insurance plans. SHS provides continuity of care with referrals to community based organizations. SHS has also joined the National Campaign for the Prevention of Teen and Unwanted Pregnancy along with other CUNY campuses and is committed to comply with the Campus Sexual Health Initiative by providing students with the education, tools and resources available.

#### Immunization Requirements:

New York State Public Health Law (PHL) 2165 (1b and Title 10 New York Codes, Rules and Regulations Subpart 66-2 (10 NYCRR Subpart 66-2) mandates that all incoming students, whether full time or part time, born on or after December 31, 1956, must be immunized against measles, mumps, and rubella (MMR) and requires proof of immunity as a requirement for attendance. City College reserves the right to prevent the registration of any applicant who fails to provide a record of immunization or who, otherwise, provides a health risk to the College community.

New York State passed Public Health Law 2167, addressing meningococcal meningitis. In compliance with PHL 2167, all New York State students, regardless of how many credits they take in college, must fill out a Meningococcal Meningitis Response form. Students may download both forms from the Student Health Services website:

<http://www.ccny.cuny.edu/shs>

Student Health Services is located in the Marshak Building, Room J-15 and can be reached at 212-650-8222.

## The Counseling Center

---

### The Counseling Center

The mission of the Counseling Center is to assist students in the resolution of any barriers that may hinder their ability to achieve their highest academic potential, while ensuring their mental health needs are met, regardless of ability to pay. Counselors provide free of charge and confidential short-term, student-centered and culturally informed psychological services from a modern and integrative theoretical orientation, treating all students with respect and recognition of their unique strengths. Counseling offers students a safe, confidential, and nonjudgmental space to voice their concerns and address these concerns with a counselor. Counselors provide students with feedback, they listen, reflect, and validate students' emotions, and they offer support and strategies for coping with challenges. Counseling has been shown to be helpful with a wide range of concerns and is effective for both chronic problems and situational difficulties. Most students learn that counseling offers tremendous benefits in helping them work through problems that are affecting their lives.

The Counseling Center also serves as a liaison to the community, linking students to more intensive and longer term services when needed. Additionally, the Counseling Center is committed to supporting faculty in the identification of students who may benefit from counseling services and reaching students in need.

Services at the Counseling Center include individual counseling, crisis intervention, group counseling, consultation, referral, and psycho-educational activities. Students who are interested in scheduling an appointment or learning about the Counseling Center should call (212) 650-8222, stop by Health and Wellness Services in the Marshak Science Building J-15, or email [counseling@ccny.cuny.edu](mailto:counseling@ccny.cuny.edu).

### The Gender Resources Program

The Gender Resources Program promotes a culture of inclusion of all gender and sexual identities at CCNY while recognizing the intersectionality of oppression, race, religion, class, ability/disability, immigration status and ethnicity. The program provides confidential clinical services to registered CCNY students including crisis support and resources for survivors of sexual assault, intimate partner violence, stalking and interpersonal violence. We nurture and support the LGBTQIA community. Students who are interested in scheduling an appointment or learning more about the Gender Resources Program should call (212) 650-8222, stop by Health and Wellness Services in Marshak Building, Room J-15 or email [genderresources@ccny.cuny.edu](mailto:genderresources@ccny.cuny.edu).

## Emergency Grants

The Emergency Grants programs is for currently enrolled students in degree granting programs who are not in debt to the college. These grants can assist students for short-term, non-recurring emergencies with a one-time grant to alleviate the situation. Any matriculated student in good academic standing, who is experiencing a current and unforeseen emergency, is eligible to apply for a grant. Interested students can visit the emergency grant website: <http://www.ccnycuny.edu/services/resources>

## Student Health Services

Student Health Services (SHS) provides clinical services such as immunizations (MMR), basic first aid care, pregnancy testing, contraception education, and PPD testing. These services are available to all current CCNY students and free of charge. SHS also arranges for free on-site HIV Testing and information regarding health insurance options.

### Immunization Requirements:

New York State Public Health Law 2165 and 2167, and Title 10 New York Codes, Rules and Regulations Subpart 66-2 (10 NYCRR Subpart 66-2) mandates that all incoming students, degree or non-degree, born after December 31, 1956, must be immunized against measles, mumps, and rubella (MMR). All students (regardless of age) must complete the meningitis response form. Students need to submit the immunization record and meningitis response form before registering for classes.

Students may download forms from the Student Health Services website: <http://www.ccnycuny.edu/shs>

Student Health Services is located in the Marshak Building, Room J-15 and can be reached at 212-650-8222.

## Gender and Sexuality Resources

### The Gender Resources Program

Gender and Sexuality Resources at CCNY promotes a culture of inclusion of all gender and sexual identities at CCNY while recognizing the intersectionality of oppression, race, religion, class, ability/disability, immigration status and ethnicity. The office provides confidential clinical services to registered CCNY students including crisis support and resources for LGBTQIA+ students, survivors of sexual assault, intimate partner violence, stalking and interpersonal violence. We nurture and support the LGBTQIA+ community. Students who are interested in scheduling an appointment or learning more about the should call (212) 650-8222, stop by Health and Wellness Services in Marshak Building, Room J-15 or email [genderresources@ccny.cuny.edu](mailto:genderresources@ccny.cuny.edu). Visit our website for additional information and resources: [ccny.cuny.edu/health-wellness/gender-resources](http://ccny.cuny.edu/health-wellness/gender-resources).

## Gender and Sexuality Resources

### The Gender Resources Program

Gender and Sexuality Resources at CCNY promotes a culture of inclusion of all gender and sexual identities at CCNY while recognizing the intersectionality of oppression, race, religion, class, ability/disability, immigration status and ethnicity. The office provides confidential clinical services to registered CCNY students including crisis support and resources for LGBTQIA+ students, survivors of sexual assault, intimate partner violence, stalking and interpersonal violence. ## The Department of Student Life and Leadership Development

The Department of Student Life and Leadership Development works collaboratively with undergraduate and graduate student leaders to create an engaging and vibrant co-curricular experience at City College. The office advises and provides assistance to over 170 student organizations in chartering their clubs, planning their activities and offering leadership training. The office also houses the CitySERV program that organizes and matches interested students with volunteer or community service opportunities. Additionally, the SEEDS (Student Empowerment & Engagement Development Series) program and the SLAPC (Student Life Activities Planning Committee) committee offer students the opportunity to get involved in planning campus events while developing leadership skills.

The department also manages the Hoffman Student Lounge, the Game Room, the NAC Ballroom, the Aronow Theater, a computer lab and several conference rooms for use by CCNY students and their organizations. Additionally, Student Life manages all orientation programs for new students, helps facilitate student government elections and serves as advisor to the Undergraduate Student Government, the Graduate Student Council, as well as all Media Boards. The main administrative office is located in NAC 1/210 and the phone number is 212-650-5002.

### The City Center

Centrally located near the entrance of the North Academic Center and under the auspice of Student Life. The City Center provides a warm and collegial introduction to student life on the City College campus. The Center is staffed by a team of enthusiastic student workers who are dedicated to accommodating not only students' needs but also the rest of the CCNY community. The City Center now includes a variety of campus engagement services such as the ID Services for your CityOneCard, Club Relations, and Club Reservation. This "One-Stop Center" serves as the key information, resource and referral center for students, faculty, staff and guests of the college. In addition to sharing vital information about campus resources and facilities the Center provides information on upcoming student events and programs. Stop by and say "Hi" to the staff or call 212-650-7000 ext10310 for more information.

## Intercollegiate Athletics

The City College of New York features sixteen varsity sports and one club sport (co-ed lacrosse) that compete at the National Collegiate Athletic Association (NCAA) Division III intercollegiate level: eight for women (basketball, soccer, volleyball, tennis, fencing, cross country running, indoor and outdoor track and field) and eight for men (basketball, baseball, soccer, volleyball, tennis, cross country running, indoor and outdoor track and field). The City College of New York Department of Intercollegiate

Athletics takes pride in laying a solid foundation built on teamwork, honesty, respect, and sportsmanship. The Department of Athletics does adhere to all City College, City University of New York Athletic Conference (CUNYAC), and National Collegiate Athletic Association guidelines and demonstrates highly ethical behavior in pursuit of excellence.

Our sixteen NCAA sports all have long histories of success and championships, both individual and team. Teams compete in various local, regional, national events and leagues, with primary affiliation being the CUNY Athletic Conference. The primary goal of the college is to provide an environment where student-athletes can excel academically, athletically, and personally. Athletic scholarships are not offered by Division III colleges. Membership on a team is open to all qualified undergraduate students in good academic standing and who meet the NCAA eligibility standards. For more information, contact the Athletics office (Marshak Building, Room 20; 212-650-8228; [www.ccnathletics.com](http://www.ccnathletics.com); [www.cunyathletics.com](http://www.cunyathletics.com))

## The Office of Community Standards

Academic communities exist to facilitate the process of acquiring and exchanging knowledge and understanding, to enhance the personal and intellectual development of its members, and to advance the interests of society. In order to realize its purpose, the College and its members must be free from personal injury or harm; bias or harassment; intimidation or coercion; damage or loss of property; disruption of educational and social activities; unreasonable interference with the exchange of concepts and ideas; and unreasonable interference with the administrative and supporting services offered by the College. Accordingly, all student members of the college community are expected to conduct themselves in a manner that demonstrates mutual respect for the rights and personal/academic well-being of others, preserves the integrity of the social and academic environment, and supports the mission of the college. The Office of Community Standards' chief responsibility is to educate students of their role in maintaining this learning environment and to address behavior that impedes, obstructs, or threatens the maintenance of order and attainment of the aforementioned goals by violating the standards of conduct set forth in the college and University student conduct policies. The Office of Community Standards is also responsible for investigating alleged violations of the institutional rules on student conduct and for the coordination and implementation of the conduct process.

For more information about the Office of Community Standards, the CCNY Rules for Student Conduct and the Student Conduct Process you may visit the City College web site at <https://www.ccnycuny.edu/studentaffairs/community-standards> or contact the Office of Community Standards at 212-650-5009 and [grhinehart@ccny.cuny.edu](mailto:grhinehart@ccny.cuny.edu) and/or [akinggarcia@ccny.cuny.edu](mailto:akinggarcia@ccny.cuny.edu)

## The Office of Recreation and Campus Fitness

The Office of Recreation & Campus Fitness provides the campus community with structured competitive athletic events, tournaments, and leagues, as well as access to a wide variety of athletic and fitness facilities. The structured activities of the Intramural program generally takes place during club hours on Thursdays. Some of the events that take place during the semester include basketball, volleyball, badminton, soccer, and tennis. The recreation program offers the campus community opportunities to work out with cardiovascular equipment and weight training in the Wingate Fitness Center. Individuals can swim, play tennis, basketball, volleyball, badminton, soccer, frisbee, or jog in a recreational, non-competitive environment. The recreation program emphasizes enjoyment, health and wellness, social interaction, camaraderie, and physical activity. The intramural programs also offer that along with the challenge of competition with one's peers. (Wingate Hall, 3rd floor; 212-650-6595)

## Career and Professional Development Institute

The Career and Professional Development Institute's (CPDI) goal is to provide individual as well as programmatic services to students from their Freshman year to Senior year to help them develop their professional identity which can result in career focused full-time employment at the time of graduation. Students can participate in one of many programs (Explorer Program, CPDI Internship Program, CPDI Senior Recruitment Program, Senior Experience), attend workshops, search CCNY Career Connections for job/internship opportunities, access valuable career information on our website, attend employer on-campus events or schedule an appointment to meet with a career counselor to discuss personal career options.

## Child Development and Family Service Center

The Child Development and Family Services Center provides quality child-care and early educational services to the students of City College New York. The Center is currently CLOSED FOR RENOVATIONS.

## Alumni Association of the City College

The first graduating class of 1853 of the New York Free Academy (as The City College of New York as originally known) organized the Alumni Association to form a community of friends with a shared experience and common goals. In 1913, the Association was incorporated, and is governed by a Board of Directors. At the Annual Meeting held in the spring, dues paying members elect the officers of the corporation who guide the affairs. Officers who are elected annually include the President, three Vice Presidents, Secretary, Treasurer and Historian. In addition, thirty-six Directors from the membership-at-large are selected for staggered three-year-terms. Two to three Directors from each of the special interest or affiliate groups, including their respective Presidents, are elected annually for one-year terms. The Board of Directors meets a minimum of four times a year.

The purpose and objectives of the Alumni Association are to advance the interests and welfare of the College, to foster a spirit of fraternity/sorority and good will among graduates, to serve alumni and to offer financial, technical and networking support for today's students.

Representing special concerns, interests and educational specialties, the Association serves as the umbrella of fifteen affiliate groups including Alumni Varsity, Architecture Alumni, Art Alumni, Asian Alumni, Black Alumni, Center of Workers Education Alumni, Communications Alumni, Education Alumni, Latino Alumni, Political Science Alumni, ROTC Alumni, Science Alumni, Young Alumni, Business/ Economics Alumni, and Engineering School Alumni. The groups are each governed by a voluntary Board of Directors with officers and conduct activities to benefit alumni and today's students.

In recognition of the growing geographical diversity of alumni, the chartering of Alumni Chapters began after World War II. Fifty dues paying members living in a city outside the New York metropolitan area can secure a charter from the Alumni Association as an official Chapter. Chapters include Washington, D.C.; Palm Beach/South Florida, Gulf Coast of Florida; Northern California; Southern California; Northern Nevada; Houston, Texas; Northern New Jersey and Connecticut.

## Office of Veterans Affairs

The goal of the Office of Veterans Affairs (OVA) is to educate the veterans, guardsmen, and reservists of the United States Armed Forces whose courageous service to their country must be rewarded by investing in their future and ensuring their academic success. The OVA is committed to recruiting, enrolling, and retaining veteran students and their families. The OVA works in collaboration with the various offices on campus including Student Affairs, Admissions, Accessibility Services, Financial Aid, Registrar, Student Health Services, the Department of Wellness and Counseling, and Affirmative Action to assist veterans in becoming acclimated to college life while obtaining veteran educational benefits and other available resources. Student veterans receive a maximum of 12 military elective credits and a maximum of 12 military credits from non-traditional sources for a total maximum of 24 credits. Credits will be granted for military training courses based on the recommendations from the ACE (American Council on Education) armed forces military evaluation guidelines. (Wingate Hall, Room 107; 212-650-5374)◆◆◆◆

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11

Bill (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent nor delay the student's enrollment;
- Assess a late penalty fee to the student;  
Require the student to secure alternative or additional funding;
- Deny the student access to any resources available to other students who have satisfied their tuition and fee bills to the institution, including but not limited to access to classes, libraries, or other institutional facilities.

However, to qualify for this provision, such students may be required to:

- Produce the Certificate of Eligibility by the first day of class;
- Provide written request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

## Housing and Residence Life

The Towers at CCNY is the first residence hall to be built on the CCNY campus. The Towers, located on the South campus, offers a vibrant living and learning experience for all residents (which includes CCNY students, faculty, staff, and students from other CUNY campuses). The Towers consists of 164 fully furnished, air-conditioned suites in four configurations that house one to four students each, as well as a limited number of studio and one-bedroom suites available for faculty housing. All suites have a kitchenette that includes a cooktop stove, a microwave, full -size refrigerator, a sink, cabinets, and countertop space. The Towers offers free wireless internet service throughout the entire building (including resident rooms and lounges), a multipurpose seminar room, a music room, a fitness center, a 24-hour security desk, a central laundry facility (free for residents), a community kitchen, and lounge area with a billiards table and large TV with comfortable seating.

The Residence Life Staff, which consists of resident assistants and professional staff, provides supervision of the building in accordance with CCNY/CUNY policies and procedures. Residence Life also strives to create a sense of community through educational and social programming and serves as a resource to all residents. (The Towers at CCNY, 401 West 130th Street; Phone: 917-507-0070, Email: towers@ccny.cuny.edu; [www.ccnytowers.com](http://www.ccnytowers.com))

## Department of International Student and Scholar Services

The Department of International Student and Scholar Services provides services and advocacy for international students and scholars who are not permanent residents of the United States. Additionally, it provides pre-semester orientation programs and semester long workshops that assist with adapting to life in the United States while pursuing their education.

## The College of Liberal Arts and Science

### General Statement

The aims of the College of Liberal Arts and Science (CLAS) are several: firstly, to develop students as broadly cultivated and intelligent citizens of the world in which they live; secondly, to impart to students a critical cast of mind that is agile in its reception of new ideas, and accustomed to the mastery of new skills; thirdly, to educate students so that each may be able to perform some particular function in the community in a worthy and ethical manner. In attaining these goals, students fulfill requirements in a broad range of categories, such as art, literature, foreign language, social science, mathematics and natural science.

### Academic Standards

The attainment of high academic standards at The City College entails more than the satisfaction of minimum GPA requirements. Diligent attendance of classes, on-time arrival for each scheduled session, careful preparation for class and timely completion of coursework are also significant factors in ensuring academic success.

### Undergraduate Majors and Degrees Offered

The College of Liberal Arts and Science offers courses of study leading to the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Music, and Bachelor of Fine Arts. A minimum GPA of 2.0 is required to formally declare a major. Some majors have additional requirements. In addition to BA and BS degrees, some departments offer combined B.A./M.A., B.A./M.S., and B.S./M.S. programs (see individual department listings for further information). Through its constituent divisions:

- Humanities and the Arts
- Interdisciplinary Studies at the Center for Worker Education
- Science
- The Colin L. Powell School for Civic and Global Leadership (formerly the Division of Social Science)

The College of Liberal Arts and Science offers undergraduate degrees in over thirty-five fields. Advisors are available in the office of each divisional Dean to assist students in choosing a major and planning an appropriate academic program.

## Degree Requirements

To be awarded a degree by the College of Liberal Arts and Science, all students must:

1. Complete a minimum of 120 credits. These credits are composed of general education requirements, major requirements and free electives.
2. Maintain a minimum "C" or better average (i.e., a G.P.A. of at least 2.0) for all coursework taken at The City College, as well as a minimum G.P.A. of at least 2.0 in their major. (Note that some majors require a higher minimum G.P.A.)
3. Satisfy a residency requirement by completing a total of 80 credits or the final 30 credits at City College, as well as at least 60% of their major at City College.
4. Clear their account of any fees and fines due.

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student:

To obtain a Bachelor of Arts degree, students must have a minimum of ninety (90) credits in courses that are classified as Liberal Arts & Sciences courses. For a Bachelor of Science, and Bachelor of Science in Education degrees, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Fine Arts, Bachelor of Architecture, Bachelor of Engineering and Bachelor of Music degrees, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Transfer Students

Most college-level liberal arts and science courses taken at accredited institutions for which the student has earned a grade of "C" or better are transferable. Courses from non-accredited institutions may be transferable on a limited basis and at the discretion of the major department. All passing courses from CUNY institutions are transferable. All CUNY Pathways courses and SUNY core courses will transfer for the same Pathways designation to City College. Twelve credits of "D" grades from non-CUNY institutions are transferable. The maximum total number of transfer credits is 90, from non-CUNY institutions. Transferred courses may or may not meet major degree requirements. Students should consult with the academic advisor in the major department for more information.

All students must meet with an academic advisor to discuss the appropriate sequence of courses necessary for their degree.

## The CLAS Office of Academic Standards

The Office of Academic Standards (OAS) convenes and coordinates the activities of the CLAS Committee on Course and Standing. The committee acts on all matters relating to academic standards such as second reinstatement appeals for students who had been academically dismissed for failure to maintain a minimum 2.0 G.P.A., requests for core/general education substitutions, and appeals by students who seek to withdraw from courses after the institutional deadline has expired. In special circumstances a CLAS student may also appeal for a limited waiver of the residency requirement to the Committee on Course and Standing. The committee consists of members selected by the CLAS Faculty Council. All student appeals must be signed, submitted in writing with appropriate supporting documents. Faculty who are in agreement with a student appeal may submit letters of support, and advisors may assist the student in preparing the appeal. Neither students nor faculty appear in person before the committee; all appeals are presented to the committee by the Director of Academic Standards, who serves as the non-voting Chair. The Chair may act on the committee's behalf or advise appropriate action. The Chair also communicates the outcome of the appeal to the concerned student and faculty in writing.

## Grade Appeals

Earned grade changes are adjudicated within the Academic Unit: First appeal is to the Professor, next to Department Chair, and next to the Dean. A student has one semester from the end of a course (not including summer term and prior to graduation) to dispute a grade given in a College of Liberal Arts and Sciences (CLAS) course.

## Re-entry/Reinstatement Appeals

Students who leave the College of Liberal Arts and Science for a semester or more in good standing can apply to re-enter through the Advisor in their Major Division, CWE and/or the SEEK Advisor if they are in the SEEK Program, or the Gateway or New Student Experience Advisors if they have not yet settled on a major.

Students who seek to re-enter but are in poor standing (<2.0 GPA) having left or been dismissed from the College for the first time, likewise should appeal to their Major Advisor, CWE, the SEEK program or Gateway or New Student Experience Advisors, who, if accepting, will prepare a **contract for reinstatement which the student must sign and bring a copy of to the registrar and the Office of Academic Standards.**

Students who seek to be reinstated again, after an initial re-entry, need to appeal to the Office of Academic Standards. In all cases, a student may appeal or advisor may refer a decision to the Office of Academic Standards.

## The Bernard and Anne Spitzer School of Architecture

---

Professor Bradley Horn, Interim Dean • Professor June Williamson, Chair • Department Office: SSA 113 • Tel: 212-650-7118

### General Information

The City College offers the following undergraduate degree in Architecture:

B. Arch.

B.S.

### Programs and Objectives

The Bernard and Anne Spitzer School of Architecture is deeply committed to creating a just, sustainable, and imaginative future for a rapidly urbanizing planet. Through innovative research and interdisciplinary collaboration, the degree programs in Architecture, Landscape Architecture, Urban Design, and Sustainability in the Urban Environment seek to educate a diverse student body to become engaged professionals, both reflecting and enriching the complex communities of local and global environments. The School acts in the spirit of the City College of New York's historic Ephebic Oath: "To transmit the city, not only not less, but greater, better and more beautiful than it was transmitted to us."

The Architecture program empowers students to design for the betterment of our shared global community. At the School, the only public school of architecture in New York City, our professional B.Arch. program is shaped by the diversity of our students, the inventive research of our faculty, and by multidisciplinary collaborations. We prepare students to become engaged designers and to deploy an expansive set of skills to address pressing social, cultural, environmental, and professional challenges. With a rigorous foundation in the core competencies of building design, history, theory, and technologies, and with an emphasis on agile thinking, the Architecture programs aim to educate the next generation of innovators redefining the role of the architect in the twenty-first century.

The Architecture program leads students through the artistic, technical, intellectual and social process of designing buildings, communities and open spaces. All students are enrolled in this course of study, which leads to the Bachelor of Architecture (the professional degree for licensure) in five years.

A student may elect to obtain the B.S. in Architectural Studies after four years of study. An individual who obtains the 4-year B.S. in Architectural Studies degree at City College may not obtain a Bachelor of Architecture degree at City College.

## History

The program in architecture leading to the professional degree was initiated in September 1961, within the School of Engineering and Architecture. In July 1968, a separate School of Architecture and Environmental Studies was created. In September 1971, the Urban Landscape and Urban Design options were added to the programs of the School. The J. Max Bond Center for Urban Futures evolved from the City College Architectural Center, which was founded in 1980. With the inauguration of our current building, in 2009 the School was renamed The Bernard and Anne Spitzer School of Architecture.

## Curriculum

The educational program of the School is separated into two interdependent phases. Each phase has a specific emphasis.

In Phase 1 (first, second, and third years), the student is offered a general education in liberal arts and sciences as well as a core curriculum within the School; the core curriculum is comprised of architectural design, history of architecture, architectural technology & structures, visual and computational studies. Together, these courses provide essential and varied core competencies that empower the student to deploy an expansive set of skills to address pressing social, cultural, environmental, and professional challenges.

Phase 2 (fourth and fifth years) is devoted to advanced studies in architecture along with the development of the student's independent thinking and interests. Along with electives in and outside of the School, the student participates in Advanced Studios. These are design and research laboratories that seek – through specific proposals – to address a range of discreet pressing topics and interests.

## Liberal Arts Credit Requirements

The following applies to all students who enter The City College of New York either as a first year or a transfer student: To obtain a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For a Bachelor of Architecture degree a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Accreditation

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The City College of the City University of New York, Bernard and Anne Spitzer School of Architecture offers the following NAAB-accredited degree programs:

B. Arch. (160 undergraduate credits)

M. Arch. (non-professional degree + 108 credits)

Next accreditation visit for all NAAB-accredited programs: 2026 (postponed from 2025 by NAAB due to COVID-19).

The five-year professional degree (Bachelor of Architecture) is registered by the New York State Education Department.

The Bernard and Anne Spitzer School of Architecture

## Admissions

### Freshmen

For information about academic requirements, application procedures, placement examinations and special admissions programs, (p. ) consult the front of this *Bulletin*.

### Changing Majors within the College

Students at City College who want to change their major to architecture must apply to the School of Architecture. A limited number of applicants may be accepted each year.

### Transfer and Previous Degree Students

Students with previous college course work or degrees may be exempted from some of the required and elective general education courses. An evaluation of a student's transfer credits is made by the Spitzer School advisement. Those wishing to apply must complete a CUNY Transfer Application. Once accepted students are individually evaluated on the basis of past academic work. A portfolio is required only for those who previously studied architecture.

### Applicants from Other Institutions

Applicants who have earned a B.S. degree in Architecture at another institution should submit a transfer student application. Accepted applicants will be asked to present a portfolio containing examples of their work. Placement in studio is based on portfolio evaluation.

The Bernard and Anne Spitzer School of Architecture

## Registration and Advisement

### Pre-Registration

All Architecture students must see an academic advisor before registration. At these times, advisors will consult on matters of registration, program, credits, academic standing, or personal problems related to the student's professional career.

### Program Planning Procedures

Entering freshmen are advised by an advisor in the School of Architecture. At the advisement session, they prepare a program for the coming semester. The approval of an advisor is required for any change in an approved curricular program.

Most courses offered by the School are part of a sequence. Since every course in this Bulletin is not offered every semester, students should be careful to plan programs that can be completed in the required number of semesters.

Depending on prior coursework and or math placement, a student may be required to complete the prerequisite sequence Math 19000 to Math 19500.

Most courses offered by the School have prerequisites, which are listed immediately after the course descriptions. The prerequisites must be successfully completed before the course that requires them can be taken.

Students may not register for two sequential courses simultaneously in Architectural Studio, History/Theory, or Construction Technology, unless they have been granted permission by an Academic Advisor in consultation with course faculty.

If the student wishes to drop a course that is a corequisite of another course, both must be dropped.

During Phase 1, students with an overall average of 2.33 and a 2.33 in professional courses and a successful portfolio review are permitted to proceed from second year to third year. During Phase 2, all students are required to submit an acceptable portfolio at the beginning of the second semester of fourth year.

Students who have earned a B average in the preceding term, and who have no grade below a C in any subject studied that term, may be permitted to take more than 17 credits.

Students are expected to attend the School full-time and carry a minimum of 12 credits.

Students are responsible for seeing that they complete all requirements necessary for graduation. Students are also responsible for informing the Office of the Registrar if at any time they have reason to believe their records are incorrect.

Students who suspend their studies must apply for re-entry.

## Advisement

### Director of Undergraduate Affairs

The Bernard and Anne Spitzer School of Architecture

## Facilities

The Architecture Library

The Architecture Library contains more than 30,000 volumes related to the programs of the School. It currently receives 70 periodicals, and has a collection of 11,000 pamphlets and pictures. Public workstations in the library offer web access. The Morris Raphael Cohen Library and the Science/Engineering Library are also available for student use. Professor Nilda Sanchez-Rodriguez is the Chief Librarian of the Architectural Library.

#### Fabrication Shops

Students use the shop to make models that enable them to study design solutions in three dimensions and to analyze construction details and methods. The shop is equipped with laser cutter, 3d printers and CNC equipment as well as hand and power tools for wood and plastic. Instruction is provided in the use of equipment. Use of the shop is integral to the design curriculum, beginning with the first year studio.

#### The Digital Labs

The Digital Labs, housed in large central spaces in the School, provide students with a variety of networked computer equipment for carrying out graphic and design and building modeling projects. Advanced software for drafting, drawing, mapping and rendering as well as other applications are available. The labs are also used for teaching the various computer courses offered in the School.

## Research

---

The J. Max Bond Center is founded on the legacy of architect and former Dean J. Max Bond, Jr. (1935-2009) and the City College Architecture Center (CCAC), which operated in the 1980s and 1990s as an influential pro bono architecture and planning service for underserved communities throughout New York City.

To architect J. Max Bond, Jr. (1935-2009), social equity was a core value, as was design integrity. Founded in 2011 and through 2015 The J. Max Bond Center for the Just City at CCNY advanced Max's vision through collaborative faculty research projects, urban design advocacy and projects, leadership development, and educational programs at its home within the Spitzer School of Architecture.

The center was re-established and renamed The J. Max Bond Center for Urban Futures in 2018. The Center honors its past with its mission to advance our collective urban futures toward greater social equity and cultural cohesion. Our methodology and belief is that social impact and innovation are both achievable and actionable through applied research and design.

The center offers research opportunities for students including independent study for credit.

Mr. Michael Miller  
SSA 117; 650-5454

## Assistant Director of Undergraduate Affairs

Ms. Amy Daniel  
SSA 133; 650-8748

# Facilities

## Art Gallery

The Art Department's gallery space displays work of undergraduates, graduate students, and professional artists, as well as specially curated exhibitions. Approximately 2000 sq. ft. in size, the gallery accommodates two- and three-dimensional art.

## Ceramic Design

The facilities include a large open work area with 18 pottery wheels and a slab roller, extruder, and a kiln room with three electric kilns. There is a plaster studio where students learn mold-making. Various clay bodies are used for utilitarian, sculptural and architectural ceramics, with equal emphasis on clay's multicultural traditions (e.g., Egyptian paste and majolica).

## Electronic Design & Multimedia

The electronic design studio incorporates four dedicated computer classrooms/labs, a Digital Output Center, and a design studio classroom, facilitating interaction between traditional and digital design production. The computer labs are configured with industry-standard computers configured with hardware and software for a complete range of print and digital applications, including: design, illustration and imaging, print and electronic publishing, animation, video, 3D modeling and animation, web design and web programming and other applications that integrate digital media design and art. Labs provide access to color laser printing and scanning and patch station for audio output and digital video projection. Students have access to medium and large-format archival inkjet printing and checkout of cameras and other media equipment through the

Digital Output Center. Payment for printing is through lab fees or credit card. With an open studio policy for currently enrolled students, the lab is available over 60 hrs./wk. under the supervision of the lab manager, faculty, and lab assistants. This facility mirrors the real-world graphics environments found in industry in order to better prepare students for positions in the field.

## Painting and Drawing

The painting and drawing rooms are equipped with architectural-quality drafting tables and large easels. Each studio has wall space for critiques and large-scale projects. Model platforms, mat cutters, props and tools for the construction of painting supports are available. The Art Visual Resource Library maintains a collection of slides of student work for reference.

## Photography

The photography facilities include a black & white darkroom, a conventional color darkroom, a color processing lab, and an advanced digital lab. Facilities also include shooting studios/classrooms. Equipment includes: Speedotron, Bowens Calumet Travelite, and Interfit flash systems, as well as Smith Victor, Arri and Lowell hot lights, Seconic light meters, Manfrotto and Oben tripods, large-format Omega enlargers, a 30" Colenta processor, and a NuArc mercury exposure unit. Cameras available for student use include: Hasselblad H5D DSLR, Mamiya 7 and RZ medium format systems, Cambo, Chamonix, and Toyo 4x5 field cameras. A five station advanced digital lab is equipped with iMac stations, Imacon Flextight X1 scanners, a Nikon 5000EDLS scanner, Epson XL10000 and, Epson 750 scanners, and Epson 3880 and 4880 printers. The David and Lenore Levy Collection of Contemporary Photography is available for student and faculty study in all areas of the Art Department.

## Printmaking

The studio is equipped for the teaching of intaglio, lithography, relief processes including woodcut and lino-cut, collagraph, carborundum aquatint, water-based silk-screen, photo-printmaking in etching, silkscreen, lithography, and combinations of all the print media. The Printshop houses three etching, one relief and two lithography presses. There is a 62" x 62" Duhit plate maker with a deep well blanket, a plate cutter, large hot plate, aquatint box, large aluminum bed for lithographic plates, lithographic stones in a full range of sizes, a queen size drying rack, numerous rollers of various durometers and dimensions, a hydrobooth and hydroblaster for silk screen, a large format ink jet printer to facilitate the production of oversized images and a Universal laser cutter with a 12" x 24" cutting bed. The integration of equipment for digital and photographic processes with conventional printmaking equipment allows for the full range of printmaking experiences.

## Sculpture

The sculpture studio facility is amply equipped for the creation of traditional and non-traditional three-dimensional art. It accommodates various techniques including wood assemblage, construction, woodcarving, plaster, clay, and stone carving. There is a small efficient area for metal fabrication with metal working tools including mig welders and plasma cutters. The studio also houses a basic wood design shop with a table saw, jointer, surfacing tools, hand tools, and several band saws.

## The Architecture Library

The Architecture Library contains more than 30,000 volumes related to the programs of the School. It currently receives 70 periodicals, and has a collection of 11,000 pamphlets and pictures. Public workstations in the library offer web access. The Morris Raphael Cohen Library and the Science/Engineering Library are also available for student use. Professor Nilda Sanchez-Rodriguez is the Chief Librarian of the Architectural Library.

## The Fabrication Shops

Students use the shop to make models that enable them to study design solutions in three dimensions and to analyze construction details and methods. The shop is equipped with laser cutter, 3d printers and CNC equipment as well as hand and power tools for wood and plastic. Instruction is provided in the use of equipment. Use of the shop is integral to the design curriculum, beginning with the first year studio.

## The Digital Labs

The Digital Labs, housed in large central spaces in the School, provide students with a variety of networked computer equipment for carrying out graphic and design and building modeling projects. Advanced software for drafting, drawing, mapping and rendering as well as other applications are available. The labs are also used for teaching the various computer courses offered in the School.

## Visual Media Lab

Located in the Compton-Goethals building in Room 245A, the Visual Media Lab is a facility that offers digital media resources to students and faculty in the Art Department at CCNY. Fostering community between the labs in the EDM and Photography programs and building on the model of the former slide library, the VML serves as a supplemental facility that provides technology and image resources in a welcoming learning-based setting. By providing various workshops, the VML offers students and faculty access to tools to work on their class projects and the confidence to apply those tools successfully and creatively.

# The School of Education

**Dr. Edwin M. Lamboy, Dean** • Office: NA 3/203 • Tel: 212-650-5471

The School of Education, an outgrowth of the extension courses organized in the fall of 1908 for teachers, librarians, and social workers, was established as a separate school of The City College in the spring of 1921. It is organized under its own faculty to prepare men and women for various educational services, teaching and non-teaching, in day care/pre-school settings, as well as in the elementary and secondary schools and with adults. It is also open to in-service personnel who wish to take courses for professional development.

The City College is accredited by the Middle States Association of Colleges and Secondary Schools. The teacher education program of the College prepares pre-school, elementary, middle school, and secondary teachers. The School of Education was accredited by the National Council for Accreditation of Teacher Education (NCATE) in 2016. It is currently pursuing accreditation by the Association for Advancing Quality in Educator Preparation (AAQEP), scheduled for 2025. Additionally, the School of Education is affiliated with the American Association of Colleges for Teacher Education.

In collaboration with the other Schools and Divisions of The City College, the School of Education offers programs of study in a number of professional fields. Professional preparation for educational service is under the jurisdiction of the Board of Trustees of the City University of New York and coordinated by its Committee on Coordination of Teacher Education.

The programs lead to the degrees of Bachelor of Science and Bachelor of Science in Education. The School also offers an education concentration, including student teaching, to a large number of liberal arts degree candidates seeking state certification in certain secondary school teaching areas. Programs of study are designed to meet state certification and New York City licensing requirements. Candidates who obtain the bachelor's degree may, upon graduation, apply for NYS teacher certification electronically, using the TEACH Online Services application system. Instructions for using the system are available from the CCNY certification website at [https://www.ccnycunyu.edu/sites/default/files/education/upload/TEACH\\_Tutorial.pdf](https://www.ccnycunyu.edu/sites/default/files/education/upload/TEACH_Tutorial.pdf). Candidates must also indicate to the CCNY School of Education Certification Officer that they wish to be recommended for certification.

## Mission and Shared Vision of the School of Education

In keeping with the historical mission of the College, the School of Education provides access to the field of education for all those who show promise of contributing to New York City schools and the education of the City's children, regardless of national origin, home language, or economic condition.

The preparation of teachers in the United States is intended to meet the needs of a democratic society. In New York City, this is extended to preparing educators to work with students who are diverse in all respects. To that end, the School seeks to draw on the varied strengths of candidates while ensuring that they acquire the academic, pedagogical, technological, professional, and personal skills required of an educator in an urban setting. The School commits itself to ensuring that its graduates can demonstrate solid grounding in the liberal arts and sciences, a deep understanding of public purposes of education in a democracy, thorough training in effective teaching skills, and the professional and affective dispositions to work successfully with students, families, and colleagues in the field.

The School focuses on five themes to insure coherence across its curriculum, instruction, field experience, and assessment:

- A. Developing In-depth Knowledge about the World
- B. Becoming Skilled, Reflective Practitioners
- C. Educating for and about Diversity
- D. Nurturing Leadership for Learning
- E. Building Caring Communities.

### A. Developing In-depth Knowledge About the World

Candidates preparing to work in schools in teaching or supervisory roles demonstrate the content knowledge and skills necessary to help all students learn. All the College's programs attempt to meet national and professional standards of content, rigor, and coherence. This knowledge is found in the liberal arts and sciences and is presented with the most up-to-date technology. Indeed, there is a consensus of educators, from progressives to traditionalists, that literature, history, philosophy, mathematics, natural science, foreign languages, and art and music must be part of a university curriculum.

To that end, the institution requires a core curriculum emanating from its College of Liberal Arts and Science. The School adopts and enhances this curriculum by requiring of its candidates additional math and science courses. Undergraduate candidates, in addition to their pedagogical courses, must complete an academic major or concentration. In addition to these requirements, pedagogical courses echo the content of the liberal arts core and concentrations. History, mathematics and English are part of these courses.

Content knowledge is demonstrated in teaching methods courses: e.g. language arts, social studies, math and science. In these courses, candidates are introduced to State learning standards at the level appropriate to the certification they seek. Through the use of content knowledge, candidates must be able to determine the widest and deepest potential knowledge base of each of their students with the accompanying strategies that range from direct instruction to inquiry so the student can, from textual and electronic sources, obtain, rehearse, recall, and transfer new knowledge to routine and new learning contexts. Knowledge of students and pedagogy goes hand-in-hand with content knowledge.

The seven knowledge areas of a university curriculum, listed above, have value in themselves, a value that education and liberal arts faculty communicate, deliberately and in passing, even in pedagogical courses. These faculties work together on curriculum and search committees. Only if they share and transmit the value of these knowledge areas will candidates develop a disposition to continue experiencing these and participate in lifelong learning. If they are not disposed to recognize this value they will not be able to pass it on to their students.

The target for teacher and other professional candidates with regard to content includes in-depth knowledge of the subject matter to be taught or supervised including the methods of the discipline that determine what becomes knowledge. Candidates demonstrate this knowledge through inquiry, critical analysis, and synthesis of the subjects they plan to teach. Some are able to meet target levels of performance by graduation from the programs of the School. Others, at that point in their development as educators, meet, at least, acceptable levels. But all graduates have the basic tools, technology and necessary dispositions to continue their development as educational professionals as well as learners. In order to ultimately meet target levels of performance, our graduates will have to continue to develop their content as well as their professional knowledge.

### B. Becoming Skilled, Reflective Practitioners

Teacher competence is obviously a primary influence on student learning. Critical dimensions of competence are pedagogical knowledge and skills. The School of Education adds to this the knowledge and skills to be a successful educator in urban schools that serve a diverse population of children and families and the disposition to use these to promote the learning of all children. In order to articulate the School's purposes and goals, pedagogical competence is divided into six subcategories:

1. Knowledge of human learning and development. In coursework, candidates build their pedagogical knowledge on a foundation of learning and developmental theory in tandem with practice in fieldwork. Candidates observe students in an educational and cultural context.
2. Knowledge of constructivism and inquiry learning. In coursework and fieldwork, candidates learn how to provide students with opportunities to explore, inquire, discover, and problem-solve. Candidates apply knowledge by gradually implementing a wider range of instructional practices in the field with diverse groups of students.
3. Knowledge of pedagogical approaches to working with students with special needs. Candidates, whether in special education or not, recognize that they may be called upon to work in inclusion classrooms and engage in culturally responsive teaching. As well as experiencing constructivist and inquiry models, candidates investigate complementary models for students with special needs.
4. Knowledge of the use of instructional technology for teaching, learning, and assessment. The School promotes the skillful use of instructional and communications technology with a predominantly "across the curriculum" approach based on the recognition that technology must be used to support student learning.
5. The knowledge and ability to put into practice both multiple teaching strategies and approaches to assessment that build on the knowledge and strengths that students bring to school and allow for differentiated instruction for diverse learners. Based on their knowledge and experiences with cultural differences, candidates integrate multiple strategies in the preparation of lessons and fieldwork. They are introduced to formal and informal assessment approaches in foundation courses and in succeeding course and fieldwork experiences, become comfortable with a wide range of assessment strategies.

6. Application of knowledge and skills through sequenced experiences in the field. Through sequenced fieldwork, candidates grow in their ability to apply the skills and knowledge learned. Fieldwork culminates in a carefully monitored semester of student teaching or a practicum in which they engage in a formal inquiry into their teaching practice.

### **C. Educating for and about Diversity**

The great strength of City College is the diversity of its students and faculty. As a public institution, the College has in place a policy of nondiscrimination on the basis of age, color, disability, national or ethnic origin, race, religion, sex, sexual orientation, veteran or marital status. As a campus situated at the center of one of the world's most diverse metropolises, the College enjoys the opportunity of making that policy a living reality.

The School of Education subscribes wholeheartedly to the goal of full inclusion and so works continuously to ensure that the diversity of the New York City population, and particularly of the surrounding local community of upper Manhattan, is reflected in the make-up of the faculty and in the perspectives, concerns, and materials taken up throughout the curriculum. Access to education and to careers in teaching for the widest possible representation across the City's population is central to the School's mission but, at the same time, a wider variety of educational options is often available to the economically more advantaged. In this light, the School and the College seek especially to provide access to those who are economically disadvantaged. Mechanisms to provide such access include low tuition, financial aid, academic support services, and scheduling of classes to accommodate students who work.

The School views the diversity of students and faculty, defined in its widest sense, not just as an obligation but as an educational resource. While an emphasis on multiculturalism does prepare learners for the diversity of the world outside the classroom, a diverse classroom actually brings that reality into the educational process itself. In a true community of learners, where each member contributes to the learning process, it must be the case that greater diversity of lived experience among the learners results in a richer learning experience for the community. For the School of Education candidate, diversity is more than a fact of the world, something about which the candidate must learn; it is a fact of the candidate's own classroom, something through which the candidate can learn. It is the responsibility of faculty to draw upon the diversity of the school to enrich the learning processes of all candidates, a practice that serves as a model for candidates in their own teaching.

The School is continuously working towards finding ways to promote understanding across experiential divides. Particularly where native cultures, languages, and dialects differ from candidate to candidate, candidate to instructor, and faculty member to faculty member, it is a challenge to appreciate and accurately assess the value of another's contribution. It is also a challenge to prepare candidates to meet the demands of state and professional assessment instruments, which may not always be sufficiently sensitive to cultural and linguistic differences. The School strives to meet these demands without sacrificing either academic rigor or cultural and linguistic pluralism.

### **D. Nurturing Leadership for Learning**

1. General preparation. Our goal is to develop the capabilities of candidates to assume leadership roles in their classrooms, schools, and communities. Whether or not candidates eventually assume formal leadership positions, the acquisition of the knowledge, skills, technology, and dispositions required for providing leadership serves to enhance their performance at the classroom, school, and community levels. Accordingly, developing the capacity to apply leadership skills that foster the development of community in multicultural, multilingual schools is a theme that is embedded and reinforced in the course content, fieldwork, research requirements, and internship experiences offered by all the programs in the School.

2. Candidates acquire the ability to lead and participate in decision-making bodies that address the academic content and management structure of the diverse programs in their schools. They are prepared to engage in collaborative processes that encourage the mutual efforts of teachers, administrators, and staff to work and learn together. They become skilled at collegial planning and evaluation, managing conflict, and reflecting and dialoging on their own professional practices. They seek to become stewards of best practice and, by so doing, feel a responsibility for the whole School and not just the classroom.

3. Preparing candidates for formal leadership positions. Candidates learn to lead through the co-creation of a shared vision, values and goals. To accomplish this, they learn to build consensus, manage conflict, and clearly communicate the importance of the shared vision and values on an ongoing basis. They learn to create and maintain a culture of cooperation and collaboration which has teaching and learning as its central focus. They develop the value of empowering teachers and staff to act on their own ideas by involving them in decision-making processes and encouraging them to think of themselves as leaders. They demonstrate commitment to and sensitivity and respect for diverse cultures served by school communities.

4. Faculty in the leadership preparation programs utilize case study methodology, problem-based learning, and cooperative learning strategies to prepare candidates to understand the process of developing and articulating a vision and its related goals, to acquire the skills and dispositions needed to relinquish authority to teachers and staff, to appropriately involve others in decision-making processes, to delegate authority, and to share credit with others for the successes enjoyed by a school or other institutional unit.

### **E. Building Caring Communities**

Community-building must be at the heart of any school improvement effort. Caring communities are places where teachers and children support and celebrate each other's learning and general well-being. The School, in order to help candidates begin this career-long endeavor, focuses on the creation of democratic classrooms and schools and teachers' roles as models of caring, values, and moral behavior.

1. Democratic classrooms and schools. Candidates come to understand what democratic classrooms and schools look like and what values they have. Faculty strive to be examples, not as transmitters where their voices dominate, but as co-intentional learners, coaches, and facilitators. Beyond modeling faculty explore with candidates the dynamics of democratic classrooms and emphasize why they are important. They emphasize the connection between public education and caring citizens equipped to make judgments as they participate in the decision-making processes of society.

2. Teachers as models of caring, values, and moral behavior. All teachers need to know their students well and, to the extent possible, personalize instruction and provide advice, nurturing, and counseling when needed. Faculty of the School, therefore, need to know candidates well and help them identify ways to know their students and to express interest in and caring for them. Candidates need to remember details about students' lives, keep notes, call and visit their homes, respond authentically, and ask students what they think and care about. Most of all, candidates need to learn that being a caring teacher is not playing a role. They must be authentic persons before they are caring persons. To be authentic in front of students leaves one vulnerable, and candidates need to be able to deal with that vulnerability.

3. Candidates, therefore, learn how classrooms and schools become caring communities and how they become more democratic. They understand behaviors and forces that militate against caring, democratic classrooms. They exhibit caring and democratic behaviors in their education classes. Finally, they will define the values their classrooms will support and understand how these values will contribute to the building of character in their students.

4. The School continually reviews and evaluates all undergraduate and graduate programs, including the objectives, content, and learning activities of individual courses. Experimentation is sought in all aspects of the program. Through required courses, counseling, experience in community agencies, and in affiliated and other schools, students are prepared to fill their role as urban teachers.

## Officers of the Administration

## Undergraduate Admissions

For information about academic requirements, application procedures, placement examinations, and special admissions programs, (p.) consult the back of this *Bulletin* or go to the Office of Admissions and Student Services in NAC 3/223A.

Prospective childhood education and bilingual childhood education candidates must apply for admission to the School of Education through the Office of Admissions & Student Services, NA 3/223A. The criteria for admission are:

1. Pass the School of Education Admissions Test (S.E.A.T.) administered by the School of Education through the Office of Admissions & Student Services;
2. Complete a satisfactory interview and on-site essay with program faculty.
3. City College GPA of 2.5 or higher;
4. A minimum of 45 credits. Twelve credits must be completed at CCNY with at least three credits in Education.

Prospective Science Learning and Public Engagement students are required to have completed 12 credits of science, have a GPA of 2.7 in science, have an overall GPA of 2.7, and interview with a program advisor.

Prospective secondary education candidates must meet the requirements above. In addition, they must have a City College GPA of 2.7 or higher and a GPA of 3.0 in their major.

Those who plan to teach art, or any secondary school (middle or senior high school) subject are enrolled in the College of Liberal Arts and Science and follow a program leading to either a B.A. or B.S. degree. These candidates will take the education sequence as a concentration in Education under the guidance of both education and liberal arts advisors. Candidates wishing to pursue a concentration in secondary education must apply for admission in the Office of Admissions & Student Services, NA 3/223A. They must meet the requirements for the concentration in Education, in addition to the requirements of the individual liberal arts programs.

In general, credit for courses completed with a grade of C or better will apply to the Education program. No credit will be granted for courses in which the lowest passing grade (usually "D") was obtained. No credit may be given in excess of the number of credits actually earned in a course, or in excess of the number of credits listed for the comparable course in the CCNY curriculum.

For undergraduate students interested in completing select graduate courses for an accelerated master's degree while completing the bachelor's degree, please contact the faculty members listed under the undergraduate programs that are linked to accelerated master's degrees.

## Mission and Shared Vision of the School of Education

In keeping with the historical mission of the College, the School of Education provides access to the field of education for all those who show promise of contributing to New York City schools and the education of the City's children, regardless of national origin, home language, or economic condition.

The preparation of teachers in the United States is intended to meet the needs of a democratic society. In New York City, this is extended to preparing educators to work with students who are diverse in all respects. To that end, the School seeks to draw on the varied strengths of candidates while ensuring that they acquire the academic, pedagogical, technological, professional, and personal skills required of an educator in an urban setting. The School commits itself to ensuring that its graduates can demonstrate solid grounding in the liberal arts and sciences, a deep understanding of public purposes of education in a democracy, thorough training in effective teaching skills, and the professional and affective dispositions to work successfully with students, families, and colleagues in the field.

The School focuses on five themes to insure coherence across its curriculum, instruction, field experience, and assessment:

- A. Developing In-depth Knowledge about the World
- B. Becoming Skilled, Reflective Practitioners
- C. Educating for and about Diversity
- D. Nurturing Leadership for Learning
- E. Building Caring Communities.

### A. Developing In-depth Knowledge About the World

Candidates preparing to work in schools in teaching or supervisory roles demonstrate the content knowledge and skills necessary to help all students learn. All the College's programs attempt to meet national and professional standards of content, rigor, and coherence. This knowledge is found in the liberal arts and sciences and is presented with the most up-to-date technology. Indeed, there is a consensus of educators, from progressives to traditionalists, that literature, history, philosophy, mathematics, natural science, foreign languages, and art and music must be part of a university curriculum.

To that end, the institution requires a core curriculum emanating from its College of Liberal Arts and Science. The School adopts and enhances this curriculum by requiring of its candidates additional math and science courses. Undergraduate candidates, in addition to their pedagogical courses, must complete an academic major or concentration. In addition to these requirements, pedagogical courses echo the content of the liberal arts core and concentrations. History, mathematics and English are part of these courses.

Content knowledge is demonstrated in teaching methods courses: e.g. language arts, social studies, math and science. In these courses, candidates are introduced to State learning standards at the level appropriate to the certification they seek. Through the use of content knowledge, candidates must be able to determine the widest and deepest potential knowledge base of each of their students with the accompanying strategies that range from direct instruction to inquiry so the student can, from textual and electronic sources, obtain, rehearse, recall, and transfer new knowledge to routine and new learning contexts. Knowledge of students and pedagogy goes hand-in-hand with content knowledge.

The seven knowledge areas of a university curriculum, listed above, have value in themselves, a value that education and liberal arts faculty communicate, deliberately and in passing, even in pedagogical courses. These faculties work together on curriculum and search committees. Only if they share and transmit the value of these knowledge areas will candidates develop a disposition to continue experiencing these and participate in lifelong learning. If they are not disposed to recognize this value they will not be able to pass it on to their students.

The target for teacher and other professional candidates with regard to content includes in-depth knowledge of the subject matter to be taught or supervised including the methods of the discipline that determine what becomes knowledge. Candidates demonstrate this knowledge through inquiry, critical analysis, and synthesis of the subjects they plan to teach. Some are able to meet target levels of performance by graduation from the programs of the School. Others, at that point in their development as educators, meet, at least, acceptable levels. But all graduates have the basic tools, technology and necessary dispositions to continue their development as educational professionals as well as learners. In order to ultimately meet target levels of performance, our graduates will have to continue to develop their content as well as their professional knowledge.

### B. Becoming Skilled, Reflective Practitioners

Teacher competence is obviously a primary influence on student learning. Critical dimensions of competence are pedagogical knowledge and skills. The School of Education adds to this the knowledge and skills to be a successful educator in urban schools that serve a diverse population of children and families and the disposition to use these to promote the learning of all children. In order to articulate the School's purposes and goals, pedagogical competence is divided into six subcategories:

1. Knowledge of human learning and development. In coursework, candidates build their pedagogical knowledge on a foundation of learning and developmental theory in tandem with practice in fieldwork. Candidates observe students in an educational and cultural context.
2. Knowledge of constructivism and inquiry learning. In coursework and fieldwork, candidates learn how to provide students with opportunities to explore, inquire, discover, and problem-solve. Candidates apply knowledge by gradually implementing a wider range of instructional practices in the field with diverse groups of students.
3. Knowledge of pedagogical approaches to working with students with special needs. Candidates, whether in special education or not, recognize that they may be called upon to work in inclusion classrooms and engage in culturally responsive teaching. As well as experiencing constructivist and inquiry models, candidates investigate complementary models for students with special needs.
4. Knowledge of the use of instructional technology for teaching, learning, and assessment. The School promotes the skillful use of instructional and communications technology with a predominantly "across the curriculum" approach based on the recognition that technology must be used to support student learning.

5. The knowledge and ability to put into practice both multiple teaching strategies and approaches to assessment that build on the knowledge and strengths that students bring to school and allow for differentiated instruction for diverse learners. Based on their knowledge and experiences with cultural differences, candidates integrate multiple strategies in the preparation of lessons and fieldwork. They are introduced to formal and informal assessment approaches in foundation courses and in succeeding course and fieldwork experiences, become comfortable with a wide range of assessment strategies.
6. Application of knowledge and skills through sequenced experiences in the field. Through sequenced fieldwork, candidates grow in their ability to apply the skills and knowledge learned. Fieldwork culminates in a carefully monitored semester of student teaching or a practicum in which they engage in a formal inquiry into their teaching practice.

### C. Educating for and about Diversity

The great strength of City College is the diversity of its students and faculty. As a public institution, the College has in place a policy of nondiscrimination on the basis of age, color, disability, national or ethnic origin, race, religion, sex, sexual orientation, veteran or marital status. As a campus situated at the center of one of the world's most diverse metropolises, the College enjoys the opportunity of making that policy a living reality.

The School of Education subscribes wholeheartedly to the goal of full inclusion and so works continuously to ensure that the diversity of the New York City population, and particularly of the surrounding local community of upper Manhattan, is reflected in the make-up of the faculty and in the perspectives, concerns, and materials taken up throughout the curriculum. Access to education and to careers in teaching for the widest possible representation across the City's population is central to the School's mission but, at the same time, a wider variety of educational options is often available to the economically more advantaged. In this light, the School and the College seek especially to provide access to those who are economically disadvantaged. Mechanisms to provide such access include low tuition, financial aid, academic support services, and scheduling of classes to accommodate students who work.

The School views the diversity of students and faculty, defined in its widest sense, not just as an obligation but as an educational resource. While an emphasis on multiculturalism does prepare learners for the diversity of the world outside the classroom, a diverse classroom actually brings that reality into the educational process itself. In a true community of learners, where each member contributes to the learning process, it must be the case that greater diversity of lived experience among the learners results in a richer learning experience for the community. For the School of Education candidate, diversity is more than a fact of the world, something about which the candidate must learn; it is a fact of the candidate's own classroom, something through which the candidate can learn. It is the responsibility of faculty to draw upon the diversity of the school to enrich the learning processes of all candidates, a practice that serves as a model for candidates in their own teaching.

The School is continuously working towards finding ways to promote understanding across experiential divides. Particularly where native cultures, languages, and dialects differ from candidate to candidate, candidate to instructor, and faculty member to faculty member, it is a challenge to appreciate and accurately assess the value of another's contribution. It is also a challenge to prepare candidates to meet the demands of state and professional assessment instruments, which may not always be sufficiently sensitive to cultural and linguistic differences. The School strives to meet these demands without sacrificing either academic rigor or cultural and linguistic pluralism.

### D. Nurturing Leadership for Learning

1. General preparation. Our goal is to develop the capabilities of candidates to assume leadership roles in their classrooms, schools, and communities. Whether or not candidates eventually assume formal leadership positions, the acquisition of the knowledge, skills, technology, and dispositions required for providing leadership serves to enhance their performance at the classroom, school, and community levels. Accordingly, developing the capacity to apply leadership skills that foster the development of community in multicultural, multilingual schools is a theme that is embedded and reinforced in the course content, fieldwork, research requirements, and internship experiences offered by all the programs in the School.
2. Candidates acquire the ability to lead and participate in decision-making bodies that address the academic content and management structure of the diverse programs in their schools. They are prepared to engage in collaborative processes that encourage the mutual efforts of teachers, administrators, and staff to work and learn together. They become skilled at collegial planning and evaluation, managing conflict, and reflecting and dialoging on their own professional practices. They seek to become stewards of best practice and, by so doing, feel a responsibility for the whole School and not just the classroom.
3. Preparing candidates for formal leadership positions. Candidates learn to lead through the co-creation of a shared vision, values and goals. To accomplish this, they learn to build consensus, manage conflict, and clearly communicate the importance of the shared vision and values on an ongoing basis. They learn to create and maintain a culture of cooperation and collaboration which has teaching and learning as its central focus. They develop the value of empowering teachers and staff to act on their own ideas by involving them in decision-making processes and encouraging them to think of themselves as leaders. They demonstrate commitment to and sensitivity and respect for diverse cultures served by school communities.
4. Faculty in the leadership preparation programs utilize case study methodology, problem-based learning, and cooperative learning strategies to prepare candidates to understand the process of developing and articulating a vision and its related goals, to acquire the skills and dispositions needed to relinquish authority to teachers and staff, to appropriately involve others in decision-making processes, to delegate authority, and to share credit with others for the successes enjoyed by a school or other institutional unit.

### E. Building Caring Communities

Community-building must be at the heart of any school improvement effort. Caring communities are places where teachers and children support and celebrate each other's learning and general well-being. The School, in order to help candidates begin this career-long endeavor, focuses on the creation of democratic classrooms and schools and teachers' roles as models of caring, values, and moral behavior.

1. Democratic classrooms and schools. Candidates come to understand what democratic classrooms and schools look like and what values they have. Faculty strive to be examples, not as transmitters where their voices dominate, but as co-intentional learners, coaches, and facilitators. Beyond modeling faculty explore with candidates the dynamics of democratic classrooms and emphasize why they are important. They emphasize the connection between public education and caring citizens equipped to make judgments as they participate in the decision-making processes of society.
2. Teachers as models of caring, values, and moral behavior. All teachers need to know their students well and, to the extent possible, personalize instruction and provide advice, nurturing, and counseling when needed. Faculty of the School, therefore, need to know candidates well and help them identify ways to know their students and to express interest in and caring for them. Candidates need to remember details about students' lives, keep notes, call and visit their homes, respond authentically, and ask students what they think and care about. Most of all, candidates need to learn that being a caring teacher is not playing a role. They must be authentic persons before they are caring persons. To be authentic in front of students leaves one vulnerable, and candidates need to be able to deal with that vulnerability.
3. Candidates, therefore, learn how classrooms and schools become caring communities and how they become more democratic. They understand behaviors and forces that militate against caring, democratic classrooms. They exhibit caring and democratic behaviors in their education classes. Finally, they will define the values their classrooms will support and understand how these values will contribute to the building of character in their students.

- The School continually reviews and evaluates all undergraduate and graduate programs, including the objectives, content, and learning activities of individual courses. Experimentation is sought in all aspects of the program. Through required courses, counseling, experience in community agencies, and in affiliated and other schools, students are prepared to fill their role as urban teachers.

### Certification Office, Certification Officer

Ms. Margaret Schehl  
NA 3/213, 212-650-5590

## Maintenance of Matriculation

As a professional school with the responsibility of recommending candidates for New York State certification, the School of Education must conduct ongoing professional assessment of all candidates. In cases where a faculty member determines that an individual is inappropriate for the teaching profession, he/she may recommend removal from the teacher preparation program to the chair of the department. The student has the right to appeal to the Committee on Course and Standing. The findings of the Committee are final.

## Liberal Arts Core Requirement

All candidates in the School of Education are required to complete a Core of liberal arts courses. Credit is given only for courses completed with a grade of "C" or better. Candidates planning to specialize in secondary education generally choose a major in the liberal arts, and fulfill the Core requirements appropriate to that major.

For childhood and bilingual childhood education majors the Core requirements are outlined below. Early Childhood Education majors should refer to the Department of Interdisciplinary Arts and Sciences section of this Bulletin. For further information on Core requirements, candidates should consult their academic advisors. All courses that are offered by specific departments within the College of Liberal Arts and Science are described in this Bulletin.

The following Core courses are required for childhood education and bilingual childhood education (B.S.Ed.) majors. Note that not all Pathways courses meet New York State Department of Education requirements for certification. Candidates should see an advisor for more information.

### Liberal Arts Core Requirement

#### Required Core (12)

English Composition FIQWS	(6 crs: 3 crs English composition + 3 crs toward Flexible Core) 3 (+3) credits
English Composition	3 credits
Math & Quantitative Reasoning	3 credits
Life & Physical Sciences	3 credits

#### Flexible Core (18)

World Cultures & Global Issues	3 credits
World Cultures & Global Issues	3 credits
U.S. Experience in Its Diversity	3 credits
Creative Expression	3 credits
Individual and Society	3 credits
Scientific World	3 credits

## College Option (12)

SPCH 11100	Foundations of Speech Communication	3
EDCE 20000	Inquiry in Education	3
EDCE 20600	Observing Children and Their Development	3
EDUC 22100	Urban Schools in a Diverse American Society	3
	OR	
EDUC 22200	Schl Amer Soc BIng	3

SPCH 11100: *The Speech Examination is a College requirement. Students in the School of Education meet this requirement by taking SPCH 11100 or passing an exemption examination.*

EDUC 22200: *Bilingual Childhood Education Majors Only*

## Modern Language

Competence in a second language is required of B.S.Ed. degree candidates. The sequence is designed to give candidates oral competency in the language and also to familiarize them with the diversity within the New York City student population.

Candidates who have had three years of a foreign language in high school will meet the language requirement. When less than three years were taken in high school, candidates are required to take additional coursework at the college. Candidates who have a satisfactory speaking knowledge of a second language may be exempted from these courses by passing an oral competency test given each semester by the Department of Classical and Modern Languages and Literatures. Candidates may apply for the test in NA 5/223.

Candidates for the B.S.Ed. degree in Childhood Education must successfully complete three years of a language other than English in high school or two semesters in college: SPAN 19300 and/or 19400 (Heritage Speakers); SPAN 12300 AND 12400 (Non-Heritage Speakers); or equivalent courses in another language.

Candidates for the B.S.Ed. degree in Bilingual Childhood Education must successfully complete a 300-level language course (SPAN 32100, 32200, or 37300, or equivalent course in another language). Depending on the results of their placement exam, some candidates may need foundation courses: SPAN 19300 and/or 19400 (Heritage Speakers); SPAN 12300, 12400 or 22600 (Non-Heritage Speakers); or equivalent courses in another language before they enroll in the required 300-level course.

## Liberal Arts Major Requirements

New York State requires that individuals seeking childhood and adolescent teacher certification have completed a liberal arts major in addition to their preparation in education. For those who wish to teach in secondary schools, this is a major in the teaching area. Those wishing to teach in the elementary school may complete a traditional liberal arts major (Art, economics, English, history, music, political science, psychology, sociology, Spanish) or they may complete a special interdisciplinary major designed specifically for those preparing to be elementary teachers. There are nine interdisciplinary concentration areas: biology, earth science, chemistry, mathematics, elementary mathematics, theater and its cultural context, art and its cultural context, language and literature, and social studies. Those preparing to be elementary school teachers should consult with an advisor to select an appropriate liberal arts major.

### Additional Requirements

1. Professional development seminars in child abuse identification, school violence prevention and Dignity for All Students (DASA) training (EDUC 41900).

## Medical Examination

The nature of a teacher's work requires especially good health. Therefore, all candidates students must arrange to have a medical examination prior to fieldwork and student teaching placements; also, they must inform the School of Education of any significant or possibly disabling illness as soon as they become aware of it.

A person with physical conditions which are likely to lead to frequent absences, or who might be unable to cope with emergency situations in a school, will only be admitted when given a clearance by the New York City Public Schools Medical Examiner.

All candidates are required to have a tuberculin skin test. The forms for the test results are available in the Wellness and Counseling Center (MR 15). Candidates must make their own arrangements for the tuberculin test. They may be examined by their own private physician, by a physician on the staff of a hospital, or at the City College Wellness and Counseling Center. The completed form should then be brought to the Office of Clinical Practice, where the candidate will be given a copy if needed.

## Professional Dispositions

While physical fitness, knowledge of the subject area, and the ability to use English (and the second language, in the case of bilingual childhood education majors) skillfully in writing and speaking are important, there is another criterion for teaching which is probably the most difficult to evaluate: familiarity with professional dispositions expected of educators as delineated in professional, state and institutional standards. This is evaluated through personal interviews with the candidates throughout the progress toward the degree. Candidates who fail to meet this requirement may be subject to dismissal from the School of Education.

## Academic Average

The candidate's general average, as well as his or her status in the field of concentration and in education courses is considered. The special academic standards required vary somewhat for different fields. A declared major, a GPA of 2.5 (Childhood and Bilingual) and 2.7 (Secondary) and the recommendation of a faculty advisor are required for admission into student teaching. Candidates who fail to meet this requirement may be subject to dismissal from the School of Education.

## Advisory Interview

When the candidate is accepted for admission to the School of Education, an appointment with an advisor is made to assure that the candidate's program is properly planned. Candidates are required to see an advisor at least once every semester for continuous academic advisement. Advisory appointments are scheduled in the Office of Admissions & Student Services, NA 3/223A.

## Clinical Experiences

Candidates for secondary education, childhood education or bilingual childhood education certification are required to take one semester of student teaching. The Application for Student Teaching must be filed in the Office of Clinical Practice during the first ten weeks of the candidate's lower senior term. Since the New York City Department of Education needs information in advance for the placement of student teachers, late applications cannot be considered. Deadline dates should be verified in the Office of Clinical Practice, Fieldwork & Student Teaching, NA 6/207A, each semester or online at [https://www.cuny.edu/education/clinical\\_practice](https://www.cuny.edu/education/clinical_practice). The New York City Department of Education requires fingerprinting for fieldwork and student teaching placements.

## Admission Requirements for Student Teaching

To be admitted to student teaching, candidates must have:

1. A completed application submitted to the Office of Clinical Practice, Fieldwork & Student Teaching
2. A recommendation from their program advisor
3. Completed a successful interview with the Director of Clinical Practice, Fieldwork & Student Teaching (for programs that require such an interview)
4. Completed all liberal arts requirements, CLAS major and requisite education courses, with grades of "C" or higher
5. Maintained the required GPA of 2.5 or higher for childhood education and bilingual childhood education and 2.7 or higher for secondary education
6. Shown satisfactory results from the tuberculin (TB) test
7. Completed 100 hours of field experiences
8. Submitted and passed one NYSTCE test (Education All Students [EAS] or Content Specialty Test [CST]).\*
9. Declared a major or secondary education concentration.

Candidates who are admitted into student teaching but do not successfully complete the experience must reapply and successfully complete all admissions procedures.

Appeals may be made to the Committee on Course and Standing.

\*Candidates in Secondary Mathematics and Secondary Science must pass the CST.

## Academic/Professional Standards and Regulations

Each undergraduate program establishes the academic and professional standards expected of its candidates. Traditional professional standards conform to but are not limited to the codes of ethics of professional educational associations.

The right is reserved to ask for the withdrawal of any candidate who fails to meet professional standards and/or fails to maintain a satisfactory academic and professional record in courses.

### Jurisdiction over Academic and Professional Standards

Department chairs have jurisdiction over offenses regarding academic and professional standards for any candidate whose major field of interest is in their department.

### Appeals Procedures of Academic Judgments

The School of Education Committee on Course and Standing will only review appeals that pertain to the School of Education. Appeals relating to the college core must be submitted to the CLAS Committee on Course and Standing.

Candidates who wish to appeal academic judgments, including grades, begin by discussing the grades with the instructor as soon as possible after the grade is issued. Temporary grades in courses may not be changed after the first month of the following semester without approval of the department chair and the dean and no grade may be changed after a candidate has graduated.

If after discussing the grade or other academic judgment with the instructor, a candidate wishes to pursue an appeal, he or she must discuss it with the program director. The program director will make an independent recommendation and then forward it to the chair.

The candidate may pursue the appeal further to the Committee on Course and Standing, which has final jurisdiction. Such appeals are transmitted to the committee through the Office of Admissions & Student Services and, in general, candidates should discuss the appeal with the Assistant Dean of Enrollment and Student Services before submitting a formal appeal.

The Committee on Course and Standing considers appeals in writing and neither the candidate nor the instructor appears in person. The candidate's appeal should be in the form of a detailed letter, accompanied by any supporting evidence the candidate wishes to submit, including copies of the papers or letters from other candidates or instructors. Appeal forms are available online and in the Office of Admissions & Student Services.

The Committee normally asks the instructor, the program director, and the department chair to comment in writing on the candidate's appeal. On request, the Assistant Dean will discuss these responses with the candidate before the Committee meets. The Committee's decision is sent to the candidate in writing by the Assistant Dean. Other academic appeals, such as appeals from probation, academic dismissal and failures for poor attendance may be appealed directly to the Committee on Course and Standing. In addition, requests for waivers of degree requirements, extensions for incompletes, limitations on registration, and similar matters should be made to the committee.

### Licensing and Certification Requirements

For each field, an attempt is made in these paragraphs to summarize the requirements of New York State for certification. This is offered as a service only, for general information, and should not be construed as official; nor is it guaranteed to be the latest word, although it is abstracted from recent announcements. Each student is urged to obtain a copy of the requirements from the New York City Public Schools Office of Recruitment, Professional Advisement, and Licensing (ORPAL), 65 Court Street, Brooklyn, New York 11201, <http://schools.nyc.gov> and from the Office of Teaching Initiatives, New York State Education Department, 89 Washington Avenue, Albany New York 12234, [www.highered.nysed.gov/tcert](http://www.highered.nysed.gov/tcert).

## Certification Requirements of New York State

All those who complete one of the approved Education sequences may qualify for initial certification upon the award of the baccalaureate degree. However, the dean of the School of Education reserves the right to recommend for New York State certification only those candidates who have satisfied all additional requirements that are regarded by City College as important qualifications for teaching. Candidates completing degrees in Childhood Education and Bilingual Childhood Education must receive a minimum of a B grade in student teaching to be recommended to New York State for certification as a classroom teacher. In addition to the academic requirements of the education program, candidates must also pass the New York State Certification Examinations (NYSTCE) appropriate to the certificate they seek. The requirements for classroom teachers include a teacher performance assessment, the Educating All Students (EAS) test, and the Content Specialty Test(s) (CST). In addition, Bilingual Childhood Education candidates must also take the Bilingual Education Assessment (BEA). Information about exam requirements can be found on the Office of Teaching Initiative website, <https://www.highered.nysed.gov/tcert/home.html>

The State Department of Education requires all degree candidates seeking initial New York State certification to file an application for certification electronically, using the TEACH Online Services application system at <http://www.highered.nysed.gov/tcert/>. Instructions for using the system are available from the CCNY certification website at <https://www.cuny.cuny.edu/education/state-certification>. Candidates must apply for graduation in their last semester in order to receive a recommendation from the CCNY certification office. The recommendation will be submitted upon degree conferral.

---

## Initial Certificates

1. Indicate that the holder has satisfied the requirements for initial certification in the grade level/subject area identified;
2. Indicate to a prospective school employer that the holder is eligible for employment in the specified grade level/subject area identified;
3. Are valid for five years only, and may be extended once.

## Bilingual Extension Certificates

Those who teach children in a language other than English, bilingual teachers, must be certified in the area in which they are teaching (i.e., elementary education, special education, or a secondary subject area). They must also have a Bilingual Extension Certificate, which enables them to teach the area to a bilingual student population. The undergraduate Bilingual Childhood Education program at City College prepares students for both the initial teaching certificate and for the bilingual extension of that certificate. To qualify for New York State certification as a bilingual teacher, students must pass the required New York State examinations for the base certificate. They must also pass the Bilingual Education Assessment (BEA).

## Teaching Out of New York State

Candidates who have completed an undergraduate teacher education program at City College meet the educational requirements for certification in over 40 states through the Interstate Agreement on Qualification of Educational Personnel. Included among these are Connecticut, Delaware, Florida, Georgia, Maine, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, South Carolina, Vermont and Virginia. More information on teaching in other states is available through the SOE Certification Officer, NA 3/213.

## Student Life and Services

---

### Career Opportunities

The Office of Clinical Practice, Field Experiences, and Student Teaching regularly send emails with information about positions in local and out-of-town school systems.

### Student Advisory Committee

This committee provides the opportunity for candidates to participate in standing committees of the School of Education. Its expanded aims include the conscientious desire to represent the point of view of education candidates on curriculum, policy, development and other matters of candidates interest. Candidates who wish to serve on the committee should contact the Office of the Chairs (NA 6/207B).

### Advisory Services

Members of the faculty assist candidates in choosing an appropriate curriculum and planning a program of study. They also conduct evaluation interviews for admission to the School of Education and to advanced education courses. Advisors are available throughout the year, except for intersession, the first three weeks, and the final examination weeks of each term. During registration, only immediate problems can be considered, since individual advisors may not be present. During the Summer session, limited advisory service is available. Advisory appointments are scheduled in the Office of Admissions & Student Services (NA 3/223A).

### Education Club (Teachers for a Better Tomorrow)

Teachers for a Better Tomorrow offers candidates interested in teaching careers an opportunity to explore issues of common interest; to promote professional growth; to act as a service group to the School of Education, The City College, and the community; and to maintain dialogue with the faculty in matters relevant to teaching. Candidates who wish to join the club or serve as officers should contact the Director of the Learning and Technology Resource Center (NA 3/226).

## Department of Teaching and Learning

Prof. Laura Gellert, Chair • Department Office: NA 6/207B • Tel: 212-650-5796

### General Information

The Department of Teaching & Learning offers the following undergraduate degrees:

Childhood Education (B.S. Ed.)

Early Childhood Education (B.S.) (see Department of Interdisciplinary Arts and Sciences)

Science Learning and Public Engagement (B.S.)

## Advisement

The Office of Admissions and Student Services (NA 3/223A; 212-650-5316) or the Office of the Chair (NA 6/207B; 212-650-7262) will assist you in contacting the faculty member in charge of any of the programs above.

## Faculty

Megan Blumenreich, Professor

*B.A., Colby College; M.A., Ed.M., and Ed.D. Teachers College, Columbia Univ.*

Randy Brozen, Lecturer

*B.S., Empire State College, SUNY; M.F.A., The City College of the City University of New York*

Nancy Cardwell, Doctoral Lecturer

*B.A., St. John's University; M.S., Bank Street College of Education; Ed.M., Harvard University, Graduate School of Education; Ph.D., The Graduate Center of the City University of New York*

David Crismond, Associate Professor

*B.A. and Ed.M., Rutgers College; M.S., Massachusetts Institute of Technology; Ed.D., Harvard Univ., Graduate School of Education.*

Elizabeth Dunn-Ruiz, Lecturer

*B.A., Hunter College of the City University of New York; M.S., College of Mount Saint Vincent; M.F.A., The New School*

Shira Eve Epstein, Associate Professor

*B.A., Rutgers College, Rutgers Univ.; M.A. and Ed.D., Teachers College, Columbia Univ.*

Beverly Falk, Professor

*B.A., Sarah Lawrence College; M.S.Ed., The City College of the City University of New York; Ed.D., Teachers College, Columbia Univ.*

Catherine Franklin, Associate Professor

*B.A., Univ. of Rhode Island; M.A., Lesley Univ.; Ed.D., Teachers College, Columbia Univ.*

Laura Gellert, Associate Professor and Chair

*A.B., Bryn Mawr College; M.S., New York Univ.; Ph.D., The Graduate Center of the City University of New York*

Sobha Kavanakudiyil, Lecturer

*B.A., Fordham University; M.A., New York University*

Sohee Koo, Assistant Professor

*B.F.A., School of Visual Arts; M.F.A., School of Visual Arts; Ed.D., Teachers College, Columbia Univ.*

Francisco Salgado-Robles, Associate Professor

*B.A., Universidad de Sevilla; M.A., Univ. of Missouri; M.A.T., Universidad de Extremadura; M.Ed., Universidad Pablo de Olavide; Ph.D., Univ. of Florida*

Richard N. Steinberg, Professor

*B.S., SUNY Binghamton; M.S. and Ph.D., Yale University*

Despina A. Stylianou, Professor

*B.S. and M.Ed., Boston Univ.; M.A. and Ed.D., Univ. of Pittsburgh*

Jan Valle, Professor

*B.A. and M.A., Furman University; Ed.D., Teachers College, Columbia Univ.*

Anne Wilgus, Associate Professor

*B.L.A., Sarah Lawrence College; M.F.A., Univ. of North Carolina-Greensboro; M.S.Ed., Bank Street College; Ph.D., The Graduate Center of the City University of New York*

Yael Wyner, Associate Professor

*B.S., Yale Univ.; Ph.D., New York Univ./American Museum of Natural History*

## Affiliate Faculty

Marit Dewhurst, Associate Professor

*B.A., Univ. of Michigan; Ed.M. and Ed.D., Harvard University*

Issa Salame, Associate Professor

*B.S., The City College of the City University of New York; M.Ph. and Ph.D., The Graduate Center of the City University of New York*

## Department of Learning Leadership and Culture

---

**Prof. Christopher D. Yawn, Chair** • Department Office: NA 6/207B • Tel: 212-650-7085

The Department of Learning Leadership and Culture offers an undergraduate degree:

Bilingual Childhood Education (B.S. Ed.)

### Advisement

The School of Education Office of Admissions & Student Services (NA 3/223A; 212-650-5316) or the Office of the Chair (NA 6/207B; 212-650-7262) will assist you in contacting the faculty member in charge of any of the programs above.

### Faculty

Hazel Carter, Associate Professor

*B.A., Univ. of the West Indies (Trinidad), Graduate Diploma; M.S., New School Univ.; Ph.D., New York Univ.*

Yvel Crevecoeur, Associate Professor

*B.A., Central Connecticut State Univ.; M.S., Univ. of Bridgeport; C.A.S., C.A.S., Fairfield Univ.; Ph.D., Univ. of Connecticut*

Joseph Davis, Professor

*B.S. Wake Forest Univ.; M.S.Ph., Univ. of North Carolina; M.A., M.Phil., and Ph.D., Columbia Univ.*

Jesús Fraga, Lecturer

*B.S., The City College of the City University of New York; M.S., Bank Street College of Education; M.A., Adelphi University*

Armineh Hallaran, Assistant Professor

*B.S., Boston University; M.A., Teachers College, Columbia University; Ed.D., Hunter College of the City University of New York*

Carol Huang, Assistant Professor

*B.A., Tamkang Univ. (Taiwan); M.A., Michigan State Univ.; M.Ed., New York Univ.; Ph.D., Univ. of Illinois, Urbana-Champaign*

Tatyana Kleyn, Professor

*B.S. and M.Ed., Ohio State Univ.; Ed.D., Teachers College, Columbia Univ.*

Dina López, Associate Professor

*B.A., Brown University; M.S., Fordham University; Ed.D., Teachers College, Columbia Univ.*

Nadjwa Norton, Associate Professor

*B.A., Yale Univ.; M.Ed. snf Rf.F., Teachers College, Columbia Univ..*

Laura Rader, Assistant Professor

*B.A., Univ. of Connecticut; M.Ed., Univ. of Hartford; Ed.D., Teachers College, Columbia Univ.*

Nancy Stern, Professor

*B.A., The College of William and Mary; M.Phil. and Ph.D., The Graduate Center of the City University of New York*

Terri Watson, Associate Professor

*B.A., St. John's College, St. John's Univ.; M.A., Teachers College, Columbia Univ.; Ph.D., Florida Atlantic Univ.*

Christopher D. Yawn, Associate Professor and Chair

*B.A., Hampton Univ.; M.S., Mercy College; Ph.D., The Ohio State Univ.*

## The Grove School of Engineering

---

**Professor Alexander Couzis, Dean** • Office: ST 142 • Tel: 212-650-5435

**Professor Ardie D. Walsler, Associate Dean, Academic Affairs for Undergraduate and Graduate Studies** • ST-152, 212-650-8030

**Rawlins Beharry, Assistant Dean for Undergraduate Studies and Student Affairs** •ST-2M7, 212-650-8040

## The Profession of Engineering and Computer Science

Engineering, including Computer Science, is often described as “design under constraint.” Engineers and computer scientists design objects, from simple components to devices, to complex systems and structures that eventually bring about an improvement in our quality of life. Successful designs must, however, comply with many, sometimes conflicting, demands of a technical, political, social, economic, and ethical nature.

Student contemplating an engineering or computer science career will need a solid background in mathematics and the physical sciences. As engineering subdisciplines proliferate, however, and interdisciplinary approaches become more common, the modern engineer may also need grounding in other scientific fields, especially the biological sciences.

The Grove School of Engineering at City College provides a broad-based general education as well as professional training. It also prepares students for life-long learning. As scientific and engineering knowledge roughly doubles every 10 years, today’s engineering student can no longer expect to learn all that he or she will ever need to know simply by completing a bachelor’s degree program. Each of the eight degree programs offered by the Grove School of Engineering emphasizes in its curriculum the acquisition of learning skills necessary for the future engineer to continue learning throughout his or her professional career.

## Engineering and Computer Science Ethics

In order to maintain high standards of conduct and uphold and advance the dignity of the engineering and computer science profession, engineers and computer science profession, engineers, computer scientists are committed to the following: exercising integrity and impartiality in the service of employers, clients, and the public; striving to increase competence in engineering and computer science while enhancing the prestige of the profession; and using knowledge and skill for the betterment of human welfare. Statements of standards for relations with the public, clients, and employers are available from technical societies and from the Accreditation Board for Engineering and Technology (ABET). The Grove School of Engineering is also affiliated with the Order of the Engineer, a nationwide organization open to engineering seniors, who accept an obligation to maintain high ethical standards in their professional and personal behavior.

## History

The City College Grove School of Engineering is the sole entity for engineering education within The City University of New York. Its origins date from 1916, when the Board of Trustees authorized a curriculum leading to the Diploma of Junior Civil Engineer. In 1917, more extensive courses in chemical, civil, electrical, and mechanical engineering were established within the natural science curriculum of the College of Liberal Arts and Science. In 1919, the School of Technology was established with four engineering programs leading to the degrees of Chemical Engineer, Civil Engineer, Electrical Engineer, and Mechanical Engineer, as well as the degree of Bachelor of Science in Engineering. After 1936, the latter degree was replaced by the degrees of Bachelor of Chemical Engineering, Bachelor of Civil Engineering, Bachelor of Electrical Engineering, and Bachelor of Mechanical Engineering.

Effective September 1962, the Board of Higher Education approved a change in the name of the School of Technology to the School of Engineering and Architecture.

In December 1962, the Regents of the University of the State of New York reduced the number of degree designations authorized for engineering programs. The new degree designations for the School became Bachelor of Engineering and Master of Engineering. Authority was given to the College to indicate the branch of engineering in parentheses after the degree title, e.g. Bachelor of Engineering (Chemical Engineering), Master of Engineering (Civil Engineering). These designations have been in effect since September 1, 1963.

Effective July 1968, the Board of Higher Education approved the separation of the School of Engineering and the School of Architecture. The latter is now called the School of Architecture, Urban Design and Landscape Architecture.

Since September 1963, under the authority of The City University of New York (CUNY), the School of Engineering has offered advanced study leading to the degree of Doctor of Philosophy. The doctoral program is available to students from the Biomedical, Chemical, Civil, Electrical and Mechanical Engineering degree programs. In August 2008, The City College was granted the authority by the State of New York to offer Ph.D. degrees in Engineering.

Beginning September 1968, The City College has offered a four-year curriculum leading to a Bachelor of Science degree in Computer Science. Since September 1969, a Master of Science degree in Computer Science has also been offered. The Doctor of Philosophy degree in Computer Science is also available.

Since September 1999, the Doctor of Philosophy degree in Biomedical Engineering has been offered. Since September 2000 the degree of Master of Science (Biomedical Engineering) and the degree of Bachelor of Engineering (Computer Engineering) are available. Since September 2002 the degree of Bachelor of Engineering (Biomedical Engineering) has been offered.

In 2006, the School of Engineering was renamed The Grove School of Engineering in recognition of the generous support of its renowned alumnus, Dr. Andrew S. Grove ’60.

## Mission

The mission of the Grove School of Engineering is:

I.	To be a school of national preeminence among public schools of engineering and computer science, recognized for the excellence of its instructional and research programs;
II.	To provide readily accessible, quality undergraduate and graduate education in a broad range of fields to a highly diverse student body, including traditionally underrepresented minorities and women, working adults, and immigrants;
III.	To maintain and expand the program of fundamental and applied research in areas of national interest, particularly in technologies with relevance to New York City, its metropolitan region and New York State;
IV.	To provide public service and continuing professional education opportunities to New York City and State, the local community in which the institution resides, the engineering and computer science professions, and society at large.

## Goal Statement

The goals of the Grove School of Engineering are to:

1. Attract and maintain a world class faculty devoted to the synergistic activities of teaching and research;
2. Increase the competitive position of the school for attracting high achieving students;
3. Educate students to achieve the outcomes set forth by each program;
4. Continuously enhance the quality and technological relevance of graduate education and research programs;
5. Implement appropriate instructional delivery and support systems that facilitate access by a highly diverse student body;
6. Encourage multi-disciplinary approaches to both teaching and research in keeping with current technological progress in today's world;
7. Develop partnerships with industry, government, and other external organizations that will enhance the School's educational and research activities;
8. Attract the external resources necessary to support cutting-edge research;
9. Assist in the preparation of K-14 students for further education in engineering and computer science; and
10. Provide continuing education, technological expertise and public service to the engineering and computer science professions, the local community, and the state and city governments.

[The Grove School of Engineering](#)

## Accreditation

All undergraduate curricula leading to the baccalaureate degree in engineering are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012—telephone: (410) 347-7700. The Computer Science curriculum leading to the baccalaureate degree in science for computer science is accredited by the Computing Accreditation Commission (CAC) of ABET.

The undergraduate curricula leading to the bachelor's degree in engineering and the graduate curricula leading to the master's degree in engineering are registered by the New York State Department of Education as meeting educational requirements for the license of Professional Engineer in the State of New York. The City College is accredited by the New York State Department of Education and by the Middle States Association of Colleges and Secondary Schools.

The Grove School of Engineering is an institutional member of the American Society for Engineering Education. It participates in the Society's Engineering College Administrative Council and in its Engineering College Research Council. The School is also a member of the Association of Engineering Colleges of New York State.

[The Grove School of Engineering](#)

## Facilities and Services

David B. Steinman Hall is the primary engineering building. It houses the offices of the Dean, the associate and assistant deans, and the administrative offices and all laboratories, research facilities, computer rooms, and conference rooms of the Departments of Biomedical, Chemical, Civil, Electrical, and Mechanical Engineering. The administrative offices of the Computer Science Department are located in the North Academic Center (NAC building). The Computer Engineering Program is co-administered by the Departments of Computer Science and Electrical Engineering. Many of the actual classrooms for engineering subjects are found in various other buildings on the campus.

[The Grove School of Engineering](#)

## Office of Academic Affairs- Undergraduate Studies

Undergraduate Studies in the Office of Academic Affairs maintains academic standards by interpreting and enforcing the school's rules, regulations and procedures. Other responsibilities of the office include graduation certification; coordinating Bulletin information; initial advising of transfer and second-degree students; and participating in curriculum articulation and joint-dual programs with other institutions.

It advises all incoming GSoE students and helps them navigate the City College campus and Grove's academic curriculum to ensure a successful transition to college life and eventual graduation. To enhance students' college experience, Undergraduate Studies has a vibrant slate of student programming including academic, professional and leadership development initiatives.

It conducts orientation for new undergraduate entrants to the Grove School and facilitates workshops on effective study habits and academic expectations. Counselors work individually with each new undergraduate student, providing guidance and support and they assist Grove's lower-division students with their course selection, registration, and decision making on academic majors, as well as, provide Grove's undergrads with short-term personal counseling and wellness education. It also provides assistance to Grove's undergraduates with resume writing, interviewing strategies, and the opportunity search process.

Undergraduate Studies maintains Grove's study facility, its Tutoring Laboratory/Center and its Learning Resource Library. It manages the academic services in the Grove School including tutoring for the undergraduate population as well as academic counseling.

Other Undergraduate Studies initiatives include overseeing the Engineering Student Council of Presidents & Leaders (co-curricular life), select student diversity affairs, and specialized undergraduate recruitment initiatives. Undergraduate Studies also supports the needs of the Diversity in Engineering Advisory Board (DEAB), which provides guidance on student professional development.

Undergraduate Studies also works with faculty and staff in GSoE to conduct seminars and workshops to introduce research to the student population and provide advice and consultation for student participation in research and other experiential learning, and to help students be better prepared for graduate study. It assists students in identifying faculty mentors, projects, and departmental resources and .

The Office of Graduate Studies also administers all masters and Ph.D. pro-grams in the GSoE. Information on graduate studies is available at the Office of Academic Affairs. Undergraduates who are interested in taking graduate courses must obtain prior approval. Contact Undergraduate Studies (room ST-209; 212-650-8020) for more details.

[The Grove School of Engineering](#)

## Office of Student Development (OSD)

The Office of Student Development advises all GSoE students with less than 45 credits, and helps them navigate the City College campus and Grove's academic curriculum to ensure a successful transition to college life and eventual graduation. To enhance students' college experience, OSD has a vibrant slate of student programming including academic, professional and leadership development initiatives.

OSD conducts orientation for new undergraduate entrants to the Grove School and facilitates workshops on effective study habits and academic expectations. OSD counselors work individually with each new undergraduate student, providing guidance and support. OSD academic advisors assist Grove's lower-division students with their course selection, registration, and decision making on academic majors, as well as, provide Grove's undergrads with short-term personal counseling and wellness education. OSD also provides assistance to Grove's undergraduates with resume writing, interviewing strategies, and the opportunity search process.

OSD maintains Grove's study facility, its Tutoring Laboratory/Center and its Learning Resource Library. OSD manages the academic services in the Grove School including tutoring for the undergraduate population as well as academic counseling and the student educational affairs for Grove's lower division.

Other OSD initiatives include overseeing the Council of Engineering Student Organizations & Leaders (co-curricular life), student diversity affairs, and specialized undergraduate recruitment initiatives. OSD also supports the needs of the Diversity in Engineering Advisory Board (DEAB), which provides guidance on student professional development.

[The Grove School of Engineering](#)

## Office of Student Research And Scholarship (OSRS)

This office works with faculty and staff in GSoE to conduct seminars and workshops to introduce research methods and provide advice and consultation for student participation in research, to encourage undergraduate students to pursue career in technical fields, and to help students be better prepared for graduate study. OSRS staff assists students in identifying faculty mentors, projects, and departmental resources: publishes the GSoE Journal of Student Research, in bound form and online at [www.gsoejsr.org](http://www.gsoejsr.org); and maintains a list of fellowships and scholarships for students and faculty.

[The Grove School of Engineering](#)

## Office of Graduate Studies

This office administers all masters and Ph.D. programs in the GSoE. Information on graduate studies is available here. Undergraduates who are interested in taking graduate courses must obtain prior approval. Visit the OUA (room ST-209; 212-650-8020) or the Graduate Studies office (room ST-152; 212-650-8030) for more details.

## Undergraduate Admissions

Degree Programs

Currently, programs are offered leading to undergraduate degrees in the following majors:

### Bachelor of Engineering

- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Earth System Science and Environmental Engineering
- Electrical Engineering
- Mechanical Engineering

### Bachelor of Science

- Computer Science

Freshman Admission Requirements

For information about academic requirements, application procedures, placement examinations, and special admissions programs, consult the Admissions section (p. ) of this Bulletin.

Because mathematics and physics are of such great importance in engineering, it is recommended that students choose as many courses as possible in these subjects while still in high school. High school students should also concentrate on perfecting their use of English in reading and writing.

Transfer Students

Information about admission requirements, application procedures, placement examinations, and evaluation of transfer credits can be found in the Admissions section (p. ) of this Bulletin. For other questions, refer to the Office of Admissions, A-101, (212) 650-6977.

Changing majors, from another college or within CCNY, will usually delay graduation because not all prior courses will apply to the new degree.

### External Transfers

Transfer students are admitted to the Grove School of Engineering or directed to the College of Liberal Arts and Science on the basis of the math and science courses they have completed, the total number of credits completed, and their college (sometimes high school) GPA. Students who do not meet Grove School of Engineering criteria but who are otherwise eligible for admission to City College may enter the College of Liberal Arts and Science (CLAS).

Students pursuing a degree in Engineering Technology should note that no technical courses in the technology program are transferable to any engineering program. Many engineering courses in associate degree programs do not transfer because they are based on less prerequisite knowledge than GSoE courses with similar titles or descriptions. For more information about articulation with CUNY colleges call (212) 650-8020. All final decisions regarding the transferability of courses remain with the College and the School of Engineering.

Students at other colleges who eventually wish to continue in engineering are advised to select math and science courses such as calculus, calculus-based physics, and college chemistry.

In most cases, the credit structures at each college are different and students are likely to lose some credits in the transfer process. Because of this fact, and also because the adjustment process may be somewhat easier, students may find it advantageous to transfer at the earliest point allowed by regulations. The recommended alternative is to start at City College as a freshman.

#### Internal Transfers

Students at CCNY who initially pursue a degree other than those offered by the Grove School of Engineering must satisfy the same course and grade entrance criteria required of students transferring from other institutions, as described in the Admissions section. Contact Undergraduate Studies (ST 209/ST 2M7; 212-650-8020) for information about the application process.

Students without a major who do not qualify for internal transfer to GSoE may seek advising from the New Student Experience Center (MR 053, 212-650-8290) or Gateway Academic Center (NAC 1/219, 212-650-6115).

#### Transferring Between GSoE Programs

Students are strongly advised to consult with an advisor when contemplating a new major program. It is often possible to transfer from one field to another during the first few semesters with little or no loss of credit. Transferring to a new GSoE program requires prior approval of the program to which students wish to switch.

#### Second-Degree Students

Students holding a valid undergraduate (four-year) or graduate degree from an accredited college and wishing to obtain an undergraduate degree in engineering or computer science will be admitted to the Grove School of Engineering based on a transcript evaluation by the Assistant Dean for Undergraduate Studies. Second Degree students must fulfill all the same admission requirements as transfer students. Upon admission, the Assistant Dean for Undergraduate Studies will develop a suitable program for the student, which will generally waive some of the degree requirements satisfied during the attainment of the earlier degree. Students may not deviate from this program without the written approval of the Assistant Dean of Undergraduate Affairs. Students must apply for admission at least three months before the start of the semester they wish to enter. Students wishing to enter with second degree status should first visit the Admissions Office or website to obtain basic information as well as the proper forms. The second degree cannot be the same subject as the first. Students must meet the departmental residency requirements described below.

#### Joint/Dual Degree Students

The Grove School of Engineering has established several areas of study as jointly registered dual programs with Eugenio Maria De Hostos Community College (Hostos) and LaGuardia Community College. Students who are in these programs, and successfully attain the A.S. degree in engineering at either of the two schools, and fulfill the Grove School of Engineering's admission requirements for transfer students, are admitted to the Grove School of Engineering at the junior level, where they complete the additional course requirements for the Bachelor of Engineering degree.

The coursework necessary to earn the AS degree as part of a joint/dual degree program fulfills the course requirements of the corresponding courses in the Bachelors Degree programs at the Grove School of Engineering.

Note that the above applies only to the following two-year school engineering programs:

#### Maria De Hostos Community College

- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Mechanical Engineering

#### LaGuardia Community College

- Civil Engineering
- Electrical Engineering
- Mechanical Engineering
- For more information on the joint/dual degree engineering programs, please contact the Office of Undergraduate Studies (Steinman Hall Room 209, 212-650-8020).

#### Evening Students

The Grove School of Engineering offers some evening courses, but many major courses in all curricula are available only during the day.

#### Residency Requirements for Graduation

To obtain a degree, every transfer student and second-degree student at the Grove School of Engineering must satisfy the residency requirement of his or her chosen program. This specifies the minimum number of upper-level credits that a student must take at City College in the department(s) of the major, and must be met regardless of the number of major transfer credits the student may claim. Students applying for admission should be aware of this requirement, which is described fully in the upcoming section "Overview of the Curricula."

#### Transfer Credits

Transfer credit is given only for courses completed in properly accredited programs, if their material fully covers that of a similar City College course. Students must provide sufficiently detailed, authenticated curricular materials in order for course equivalency to be established. No credit will be applied for any course in which a grade lower than a "C" was obtained, and no credit will be given in which a pass/fail grading system was used.

Students should note that some transfer credits might not satisfy their particular degree requirements, but may instead be granted in the form of elective credits.

Foreign students may in some cases receive credit by examination. Before being allowed to take such an examination, the student must provide evidence that he or she has had similar courses.

The above notwithstanding, the Grove School of Engineering reserves the right to withhold transfer credit for any academic reason it considers justifiable.

#### Overview of the Undergraduate Curricula

The undergraduate curricula in engineering and computer science are designed to prepare the student for practice in the field of choice. Courses in the major provide a firm grounding in the principles of the various disciplines; these basic principles are applied and expanded in a series of design or similar courses. All of these courses emphasize the development of engineering viewpoints, attitudes, and methods of approach to problems.

The Undergraduate curricula offered by the Grove School of Engineering also provide a background in written and oral English and the humanities. The Grove School of Engineering offers programs that start from the freshman level and continue to the highest academic levels, up to and including the doctorate.

English and Liberal Arts Courses (General Education)

English and Liberal Arts (General Education) requirements for the Bachelor of Science degree in computer science and for the Bachelor of Engineering degrees in the engineering programs are listed below:

Writing Requirements

ENGL 11000	Freshman Composition	3
ENGL 21007	Writing for Engineering	3

FIQWS 10026 fulfills the English 11000 requirement, as well as any ENGR 10100 requirement

Foundational Courses

Foundational courses for all undergraduate programs in the Grove School of Engineering must be completed before embarking upon related courses in the major. Students with appropriate background as demonstrated by the College's Placement Exam may be exempted from some or all Foundational Courses. The foundational course for Calculus I (MATH 20100) is Pre-Calculus (MATH 19500), and this course must be passed with a grade of C or higher in order to proceed to the next level.

Pathways General Education Requirements

Grove School of Engineering students must take one course from each of the following Pathways categories: Creative Expression (CE), Individual and Society (IS), World Cultures and Global Issues (WCGI), and US in its Diversity (US)). (See General Education Requirement (Pathways) section in the Bulletin for more details). Each of Grove's academic programs may require additional General Education courses; some of which are specified while others can be selected from a list of approved courses that is posted on the Grove School of Engineering Web site and can be viewed at the Office of Undergraduate Studies (ST 209). These courses may not include courses in creativity, design, language skills, performance, professional, studio, and or technical courses such as statistics, neuroscience, experimental psychology, etc. This list is subject to periodic review and updates..

At least two of the courses must be at the 20000 level or higher. Upon being accepted into the Grove School of Engineering, transfer students should consult with an advisor in the Office of Undergraduate Studies for Pathways regulations based on the number of credits taken at the point of transfer.

**ChE, CE, CpE, and ME students** must take six approved courses (one from each of the 4 Pathways categories and two additional courses from the GSoE list).

**BME students** must take five approved courses (one from each of the 4 Pathways categories and one additional course from the GSoE list) and Engr 30000 (Social, Economic, and Cultural Impact of Biomedical Technology) for a total of six courses.

**CSC students** must take four approved courses (one from each of the 4 Pathways categories), and Speech 11100 (Foundations of Speech Communication) for a total of five courses. Students may be exempted from Speech 11100 by passing a speech proficiency examination, in which case they must take another speech course.

**ESE and EE students** must take five approved courses (one from each of the 4 Pathways categories and one additional course from the GSoE list) and Engr 27600 (Engineering Economics) for a total of six courses.

Credit Requirements

The Bachelor of Engineering degree and the Bachelor of Science in Computer Science degree require the satisfactory completion of 126–134 credits. In the School of Engineering, not all credits passed or transferred count toward the degree. Students with non-degree courses, whether remedial or otherwise, will accumulate more credits than students whose total credits count toward their degree.

Except for special cases, the maximum number of credits allowed per semester is eighteen. Students who wish to take more than eighteen credits in any one semester must obtain permission from the Office of Undergraduate Affairs (ST 209; 212-650-8020). If permission is granted, the student will not be allowed to drop any Grove School of Engineering courses.

Liberal Arts Credit Requirements

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student:

To obtain a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Engineering, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

Residency Requirement

Residency requirements specify the minimum number of credits that students must take at City College in the department(s) of their major to obtain a degree, and must be met regardless of the number of transfer credits that a student may claim in the major area. Only courses offered by the major department(s) and prefixed by the department initials (e.g., CHE, CE), and at the 30000 level or higher, count toward residency requirements.

Residency requirements are based on the total credit in major courses in the department's curriculum, excluding pilot and experimental courses, and are listed below.

Biomedical Engineering (BME)	30	Credits
Chemical Engineering (CHE)	33*	
Civil Engineering (CE)	33	
Computer Engineering (CPE)	30	
Computer Science (CSC)	33	
Earth System Science and Environmental Engineering (ESE)	33	
Electrical Engineering (EE)	36	
Mechanical Engineering (ME)	36	

\*A maximum of 6 credits may be in non-CHE technical elective courses.

**Academic Standards**

Grade Point Average (GPA)

Calculation of the GPA is described in the Academic Regulations section (p. ) of this Bulletin.

Quality Point Accumulation (QPA)

The Quality Point Accumulation (QPA) measures performance in the student’s major courses.

Unless stated otherwise, major courses include only courses offered by the student’s department. For example, computer science courses, although required for the civil, and electrical engineering degrees, are not included in QPA calculations for those majors. QPA calculation in the computer engineering degree counts all computer science and electrical engineering courses. Engr. 20400 is counted in the QPA for both computer engineering and electrical engineering.

Computing the QPA

In calculating QPA, the following weighting factors apply:

A+, A, A-	=	+2
B+, B, B-	=	+1
C+, C, C-	=	0
D	=	-1
F	=	-2

Pluses and minuses following the grade letter are ignored. F represents here all failing grades including F, FAB, FIN, FPN, WF, and WU. The weighting factors are multiplied by the number of credits for each applicable course, and the results of all multiplications are added together. A QPA of zero is equivalent to a C average in the major. The CUNY-wide “F” Repeat policy, described in the Academic Regulations section (p. ) of this *Bulletin*, by which certain failing grades are omitted from the GPA, does not apply to Engineering QPA calculations.

Use of Graduate Courses

Permission to substitute a graduate course for an undergraduate course requires senior status and a GPA of 2.75 or better plus the approval of the chair of the department in which the course resides, the Assistant Dean for Undergraduate Studies.

Retaking Engineering Courses

On application by the student, the Assistant Dean for Undergraduate Studies will allow students in their senior year to repeat courses in order to improve their major QPA. Only five such retakes will be allowed (not more than two per semester) and these must be courses for which the previous grade was D. No course, once passed with a grade of D, may be retaken more than once. If a student is permitted to retake a course, both the new grade and the original grade of D will be counted in the major QPA.

Pass-Fail Option

Students enrolled in the Grove School of Engineering must take all courses for a qualitative letter grade. That is, they are not allowed to take the pass-fail option except when it is the only grade option for a course.

College-Wide Examinations

**CUNY’s Skills Assessment Tests (CATs)**

All CCNY students are required to meet the University’s skills proficiency requirements based on SAT, ACT, or NY State Regents test scores. Students who do not achieve the required scores on SAT I or Regents Exams can satisfy the skills proficiency requirements by passing the CUNY Assessment Tests in Reading, Writing and Mathematics.

**MATH 3 Testing: Placement into Advanced Mathematics Courses**

All new students - whether or not they are math proficient-are required to take the CUNY Assessment Test in Mathematics (Math 3). Test results will be used to place students in the appropriate mathematics course at their college.

Probation and Dismissal

Students are considered to not be in good academic standing in the following cases:

- If they do not maintain a GPA of 2.0 (or 1.75 or 1.5 for students who have attempted fewer than 25 or 13 credits at CCNY, respectively);
- If they do not maintain a QPA of at least zero;
- If they need to take a course for a third time;
- If they have withdrawn from 12 credits in a two-year period.

Students that are not in good academic standing may be required to file an appeal with the GSoE Office of Undergraduate Studies to be allowed to remain in a GSoE degree program. If an appeal is granted, the student will be placed on academic probation.

As long as they are on academic probation, the students will be restricted to twelve, or fewer, credits per semester and/or the terms of an academic contract. Students on academic probation whose grades do not improve will be dismissed from the School of Engineering, unless another appeal is granted for the continuation of studies.

Definitions of probation and satisfactory academic progress are located in the Academic Regulations section of this Bulletin.

#### Committee on Course and Standing

The Committee enforces academic standards and graduation requirements. Its responsibilities are to

- Adjudicate student appeals of dismissal from the GSoE,
- Adjudicate variances in graduation requirements in individual cases,
- Adjudicate on change of grade appeals.

All requests to the Committee must be submitted in writing to the Office of Undergraduate Studies. The Committee is the final authority on questions of courses, probation, dismissals, and graduation.

The Grove School of Engineering

## Summary of Graduation Requirements

In order to be eligible for graduation, the student must meet the following criteria:

- Achieve a minimum overall average of C (GPA of 2.0).
- Achieve a minimum quality point accumulation (QPA) of zero.
- Obtain a grade of C or better in specified mathematics, science and major courses in the program.
- Satisfy the credit distribution requirements of the degree.
- Fulfill the residency and credit requirements of the degree.

#### Liberal Arts Credit Requirements

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student:

To obtain a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Engineering, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

The Grove School of Engineering

## Cooperative Education Plans in Engineering

Grove students are assisted with their professional development throughout their undergraduate studies and they can apply for competitive cooperative education positions including co-ops and summer internships. Assignment locations are not only in the New York metropolitan area, but throughout the nation. Students who participate in cooperative education can expect to benefit by the experience in many ways, among the more important of which are:

- Learning to put theory into practice.
- Earning financial support for college.
- Increasing motivation and stimulation to continue academic studies.
- Growing in maturity, practicality, and responsibility.
- Greatly enhancing job opportunities upon graduation.

In general, to participate in cooperative education the student must have completed at least 30 credits towards the degree and meet the required academic standards as stipulated by the cooperative education employer. It is important to note the following:

- No academic credits are given for cooperative education work experience; and participation in cooperative education normally extends the time needed to complete the degree requirements.
- Work periods are not just during the summers, although the summer may be included in a fall or spring work assignment.

Grove students have participated in cooperative education assignments with employers that have included governmental agencies such as Brookhaven National Laboratory and NASA, as well as large private corporations such as Merck, IBM, Toyota, Boeing, and GE. Students interested in cooperative education should consult with the Office of Undergraduate Studies in the Grove School of Engineering.

The Grove School of Engineering

## Student Responsibilities

For academic matters, students are responsible for the material covered in the Academic Regulations section of this *Bulletin*, in the introductory section of the Grove School of Engineering portion, and in their specific department write-ups. For matters related to conduct, students are responsible for the disciplinary material covered in Appendix B of this *Bulletin*.

The Grove School of Engineering

## Department Programs

Prescribed curricula for the eight Grove School of Engineering programs are presented in the following pages. Mathematics and science subjects upon which long sequences depend are of prime importance and should be taken as soon as the student is ready for them. If a section in one of these subjects is closed the student should, if possible, select a different section of the same subject and rearrange other subjects as necessary. Freshmen and sophomores should pay particular attention to early completion of the prescribed work in mathematics, physics, chemistry, and computer science.

It is the student's responsibility to meet with a Groveadvisor each semester for program planning and advisement. Students with specific problems may always consult with the Office of Undergraduate Studies, ST 209.

Students who are behind in completing prerequisite courses should consider attending one or more summer sessions. The math and basic science courses and many liberal arts non-science courses are generally offered during the summer, as are some Grove School of Engineering courses.

Curricula in engineering and computer science are designed so that the full-time day student, sustaining no failures, may complete the bachelor's curriculum in four calendar years. Often, however, because of the timing of courses or schedule conflicts, a student will have to attend one or two additional semesters. In addition, because certain courses in all curricula are considered difficult, students may elect to take fewer total credits during the semesters in which they take those courses. This might also lengthen their stay at the College. Finally, students who must hold a job, even a part-time job, should reduce their course loads below those recommended in the program descriptions. Most math, science, and engineering courses are sufficiently challenging to require a full measure of the student's energy and attention; the longer stay in the College that this delay entails is almost always compensated for by higher grades.

Evening students should select math and science courses in preference to humanities courses on beginning their college work, since the humanities courses will round out programs in later years when schedule difficulties might prevent the selection of a full program of technical courses.

Where courses have prerequisites, the prerequisite must be taken before registering for the desired course. Exceptions must be approved in writing by the department chair and approved by the Assistant Dean of Undergraduate Studies. Students who register without such permission risk being dropped from the course.

The Grove School of Engineering reserves the right to change curricular requirements for matriculated students at any time if such changes are necessary to remain in compliance with the guidelines of the Accreditation Board for Engineering and Technology. Also, courses will not be given unless warranted by enrollment levels.

Every effort has been made to ensure that the material in this section of the Bulletin is consistent with the material presented in the Academic Regulations section of the Bulletin and in the individual program sections. If there are inconsistencies, students are strongly advised not to attempt their own interpretation but to consult with the Office of Undergraduate Studies, ST 209. An erroneous interpretation of the requirements by a student may not be accepted by the College.

The Grove School of Engineering

## Laboratories and Research

### Biomedical Engineering

The Department of Biomedical Engineering's teaching laboratories provide students with hands-on experiences using state-of-the-art equipment. One laboratory is equipped to teach cell and molecular methods used in biomedical engineering, as well as a range of other analytical methods. The other major laboratory is equipped for teaching bio-electric circuits, transducers and measurements devices, data acquisition and clinical instrumentation, as well for the development of senior capstone design projects. Students also have access to computers and servers for continuous virtual access to a range of engineering and analytical software (Matlab, Mathematica, Python, Solidworks, various engineering modeling programs). Maker spaces for student use in Biomedical Engineering and in the Grove School of Engineering provide an array of 3D printers for plastic and metal printing, as well other manufacturing equipment. In addition to these teaching labs and manufacturing facilities, students have access to a wide variety of technical training opportunities through the nationally renowned research laboratories in the Department of Biomedical Engineering.

### Chemical Engineering

The Chemical Engineering Department provides six laboratories as part of its teaching facilities. These are the Chemical Engineering Science Laboratory, the Unit Operations and Control Laboratory, the Particulate Science Laboratory, the Interfacial Chemistry Laboratory, the Bioprocessing Laboratory, and the Computer Laboratory. Safety procedures and training are emphasized in all laboratories.

In the Chemical Engineering Science Laboratory students make measurements of various thermodynamic properties such as vapor pressure and of transport properties such as viscosity, thermal conductivity and gas diffusivities. The data is then used to estimate the parameters in the appropriate constitutive equations using the methods learned in the statistics course. Students also study the mechanism of conductive, convective, and thermal radiation heat transfer.

In the Unit Operations and Control Laboratory students get hands on experience operating and characterizing the behavior of a wide variety of the types of equipment used in chemical plants. Among these are several heat exchangers, pumps, a piping network for studying fluid flow, flow meter apparatus, a distillation column, a chemical reactor, a packed column, a fluidized bed, a mixing tank, a drying oven, and a gas membrane separator. Most equipment is of pilot plant scale. Many experiments have computer interfaces. The distillation column is equipped with a control module that gives the students experience with the use of feedback control in the operation of equipment. Students also learn how to use a process chromatograph in conjunction with some of the other experiments.

The Powder Science and Technology Laboratory is attached to the course with the same name (ChE 45200) and is given together with it as demonstration of theoretical principles presented in class. The students are first introduced to powder characterization such as particle size, size distribution (using standard sieves and a light scattering instrument) and shape and surface structure using optical and electron microscopes. Instruments to measure powder specific surface area and pore volume using gas adsorption (BET and gas pycnometry) and mercury intrusion are also presented. Characterization of bulk powders properties is achieved in the Jenike Shear Cell used to measure powder-yield loci at different initial compression levels. This is a special instrument, characteristic of powder engineering, used to determine powder flowability as well as for the design of powder storage vessels such as hoppers and bins. Finally, the MikroPul Hosokawa Micron Powder Characteristics Tester provides six mechanical measurements with one easy-to-use instrument, including 1) angle of repose, 2) compressibility, 3) angle of spatula, 4) cohesiveness, 5) angle of fall and 6) disperse-ability. Measuring such properties has great importance in the design of storage hoppers, feeders, conveyors and other powder processing equipment. The laboratory also has a significant research component dedicated to the measurement of dry powder flows in different geometries and the study of powder granulation (size-enlargement). Principles of these processes are also demonstrated to students using the existing research equipment.

The Interfacial Chemistry Laboratory provides students with exposure to some surface modification chemistry and the standard techniques used for the characterization of surface properties. Written and verbal reports are required. In addition to use of instrumentation, students will familiarize themselves with surface preparation and modification techniques, including self-assembly, evaporation, spin coating, and Langmuir-Blodgett techniques.

The Bioprocessing Laboratory is equipped with a bioprocess system that includes a fermentation bioreactor, an ultrasonic cell homogenizer, an isoelectric focusing prep cell, and, for final purification, a chromatographic separation system. Additional equipment includes Applikon 3 and 7 liter fermenters with an ultrasonic cell separator to permit cell recycle. On-line instrumentation includes an Aber Instruments live-cell probe and a methanol feed control system. All modules are computer accessible and capable of feedback control. This lab is used in conjunction with both the graduate and undergraduate courses in bioprocessing to provide hands on training. Typical experiments are introductory microbiology, bioreactor operation and control, and protein purification.

The computer laboratory provides students with access to approximately 24 PCs and two printers on a local area network. Applications software including the Aspen Engineering Suite, SuperPro Designer, Visio, Mathematica, and Matlab are available on these machines as well as E-mail and Internet access capability. The lab also provides workspace so that student design or study teams can work together. This lab is available from 9 AM to 9 PM weekdays and on weekends by previous arrangement.

### Civil Engineering

The Department of Civil Engineering has the following laboratories: Materials of Engineering, Soil Mechanics, Fluid Mechanics, Environmental Engineering, Highway and Airfield, and Traffic/Transportation Engineering.

The Materials of Engineering Laboratory houses an Instron 8500 Series Universal Testing Machine. This machine is digitally controlled and capable of applying 55 kips (250 kN) dynamic loads. Supporting electronic control, data acquisition and computer software systems are available. Additional equipment for the static, dynamic and fatigue testing of materials includes testing machines for tension, compression, transverse-bending and torsion investigation. The laboratory contains hardness testing machines, impact testers, electric strain gauge consoles, and assorted peripheral equipment. Facilities for casting, curing and testing concrete are also available and include the following: walk-in variable temperature and humidity control environmental chamber, diamond tipped saw for cutting concrete, computer controlled servo-hydraulic compression test machine for 600 kip load capacity, ultrasonic pulse-velocity meter, and maturity meters. Complete facilities for nondestructive evaluation of materials and structures are also available and include: ground-penetrating radar with 400 MHz antenna, ultrasonic transmitters, oscilloscopes, function generators and accelerometers.

The Soil Mechanics Laboratory is equipped to perform standard identification tests of soils, such as grain size distribution, liquid and plastic limits, shear strength, and compaction properties. In addition, facilities to perform detailed testing of undisturbed samples (consolidation and triaxial shear) are available and used regularly. A moist room is available for long-term sample storage.

The Fluid Mechanics Laboratory is equipped for studying both compressible and incompressible fluid media. Flow rates up to five cubic feet per second of water are provided by each of three independent high-pressure systems equipped with constant-head controls. Two low-constant-head supply tanks located in the laboratory provide lesser discharge capacities. The laboratory contains a 52-foot long tilting flume, a water tunnel, a subsonic wind tunnel, an air jet, pumps, turbines, a hydraulic bench, and various units for the study of frictional phenomena involving water and oil.

A one-dimensional Laser Doppler Anemometer (LDA) is used for the study of flow velocities in pipes and near the flow boundaries. In addition, the lab has a state-of-the-art wave tank, 6 ft. wide by 4 ft. high and 40 ft. long. It is equipped with a computer controlled five-paddle wave generator. This system can produce single waves, random waves, and angle waves. A two-dimensional Laser Doppler Velocimeter (LDV) equipped with computer controlled 3-D traverse and fully automated data acquisition system is used in the wave tank for studying beach hydraulics and off-shore similitudes. The lab is also equipped with a tilting sand flume for studying flow through highly porous media and groundwater contamination. A fully automated freeze and thaw machine is also available for graduate research work.

The Environmental Engineering Laboratory is equipped for experimental evaluation of unit processes and operations in water and wastewater treatment as well as analysis of all physical, chemical and microbiological water quality parameters. The experimental facilities include settling columns, suspended and attached growth biological reactors, computer-controlled bioreactor for kinetic studies, a bench scale UV chamber, a 12-gpm 15-foot bubble contactor for ozone studies complete with ozone generator, gas and liquid phase ozone residual monitors and off-gas destructor, a 1000-ft pipe loop system for water instability studies, and all conventional experimental devices used in determination of chemical dose requirements. An environmental chamber for temperature-controlled experiments is also available.

The analytical capabilities of the laboratory include gas chromatography-mass spectrometer with purge/trap, inductive-coupled plasma spectrometer (ICP) gas chromatograph with EC and FID detectors, total organic carbon analyzer, ion chromatograph, water quality autoanalyzer, UV-visible doublebeam spectrophotometer with stopped-flow device, and phase contrast/epifluorescence research microscope. Field monitoring equipment includes water quality monitors with multiple probes and fluorometers.

The Traffic/Transportation Engineering Laboratory has both personal computers and UNIX workstations with their peripherals to provide students opportunities to work with traffic and transportation software for course work and transportation research. The laboratory has a variety of software, including SOAP84, HCS, PASSER II-90, TRANSYT-7F, NETSIM, AAP, PRIMAVERA, AutoCAD, and software for GIS. The laboratory also contains basic equipment necessary to conduct traffic engineering studies such as traffic counters and measuring wheels.

The Highway and Airfield Laboratory offers facilities for investigating the properties of the basic materials and mixtures that comprise pavements. A variety of strength and stability equipment and other apparatus are available for determining rheological and physical properties and for experiments in designing and testing bituminous mixes. The additional facilities of the Soils and Materials Laboratories make possible the study of mineral aggregates and their blends, soil-stabilization phenomena, and mix-design and properties of Portland cement concrete. Other facilities in the Chemical Engineering Department's Materials Research Laboratory extend the capacity to conduct thermoanalytic studies on standard and composite materials.

#### Computer Engineering

The Computer Engineering Program shares laboratory facilities in the Departments of Computer Science and Electrical Engineering.

#### Computer Science

The Department of Computer Science has substantial computing facilities, including two student PC laboratories, large Linux labs, and specialized laboratories for computer architecture, image processing, network protocols, operating systems, and parallel programming. A computer vision lab is under construction. Wireless and high-speed Internet connections are provided. All labs are equipped with laser printers.

The Linux labs are equipped with state-of-the-art Dell workstations running Red Hat Enterprise Linux. These labs provide software for graphics, image processing, numerical computation and logic design, and a variety of programming languages (such as C/C++, Java, Fortran, Scheme, Assembly, Python and Perl). The labs also provide database development environments, such as Oracle and MySQL. The PC labs utilize the Microsoft Windows XP environment, and provide a wide range of software for both students and faculty. The Computer Architecture Lab is equipped with high-end IBM, Dell and Sun workstations. Students use VHDL to program reconfigurable boards supplied by Altera. The Operating Systems Lab is equipped with Sun Blade workstations.

The Image Processing Lab features dual-processor Dell workstations with high-end Nvidia Quadro 4 graphics boards, running Linux. The Network Protocol Lab is equipped with the latest networking devices, such as CISCO switches, routers, ATM switches and a network traffic simulator/analyzer. Also deployed are high-end Sun Ultra workstations and video capture capability for studying video multicasting. The Parallel Programming Lab provides a small Beowulf cluster based on Red Hat Enterprise Linux. This lab provides students and faculty with a prototyping environment for development and study of high performance computing.

#### Earth System Science and Environmental Engineering

ESE students take advantage of teaching laboratory facilities in the respective departments where the laboratory course is offered. These include such facilities as the Hydraulic and Environmental Labs in the CE Department, EAS Department Geoscience and Analytical labs, etc. The Remote Sensing/GIS computer laboratory facility is open to ESE students for Remote Sensing and GIS courses as well as to conduct the Senior Design project, independent study, or research. Faculty participating in the ESE program also have state-of-the-art laboratories that are utilized for student research and design projects. These include the EE Department Optical Remote Sensing Lab, the CE Department Hydrology Lab, the NOAA CREST Satellite Receiving Facility, and the Chemistry and Analytical Labs in the CCONY Science Division. In addition to the NOAA CREST Satellite facility, the Center also operates an air sampling shed on campus, and a number of local and regional networks including lidar and radiometer networks, and the New York City Meteorological Network for air dispersion and micro-climate studies. Additional field work is supported through a number of research projects (from Navy, NOAA, NASA, etc.) and include coastal water studies, snow and ice studies, soil moisture studies, etc. at various locations nationally and internationally.

## Electrical Engineering

The undergraduate EE laboratory facilities comprise the core teaching laboratories, advanced senior level design laboratories and computer support facilities.

The computer-controlled core laboratories are designed to give students hands-on experience on both analog and digital electronic circuits and in measurement devices currently used to characterize circuits and systems. Data acquisition using LabVIEW computer control software with GPIB interfaced measurement equipment is used to give the students hands-on experience in the fundamentals in communications, computer and control engineering.

The two introductory core labs consist of laboratory stations (2 students per station) which have the following computer and measurement equipment: personal computers running both LabVIEW and Electronics Workbench (analog and digital circuit simulation software); a GPIB plug and play controller card; a data acquisition-generation board with 8 analog input lines and 2 analog output lines, 24 digital scope with GPIB storage module; a Hewlett Packard GPIB and RS-232 interfaced Digital Multimeter; a Hewlett Packard Triple Output Power Supply, a Hewlett Packard GPIB and RS-232 interfaced 15 MHz function generator.

The Analog Communications Laboratory uses the Lab-Volt Company's signal generators, receivers, noise generators, and spectrum analyzer for the analysis of the performance of AM, SSB, DSB, and FM communication systems.

The Computer Engineering Laboratory is designed to give students the capacity to perform high-level microcontroller programming and virtual emulation. The laboratory consists of 5 stations (2 people per station) each with: a PC; a Motorola Microcontroller Development System, a Motorola Emulator and specialized assembler software and C Cross compilers. In addition, the laboratory has a Hewlett Packard 16-channel logic analyzer and assorted electronics components for laboratory exploration.

The advanced design laboratories include Local Area Network (LAN), Photonics Engineering, and Advanced Electronics. The LAN laboratory consists of IBM Multimedia PC's, Protocol Analyzers and several network design and simulation packages such as OPNET and COMNET. In addition, two ATM switches (2.4 Gbps) and a CISCO Router are available.

The Control Engineering Laboratory uses the Feedback Inc. analog servo-fundamentals trainer, which consists of an analog unit and a mechanical unit. The mechanical unit has a servomotor with position and velocity sensors. The analog unit allows students to wire the servomotor in a closed loop configuration and independently vary the position and velocity feedback gains. The trainer is interfaced to a PC running LabView software to acquire and display signals on a virtual oscilloscope. The six stations are networked to a printer to allow students to print the virtual oscilloscope display.

The Photonics Laboratory is designed to give a variety of laboratory experiences in optics, lasers, spectroscopy and fiber optics. Equipment includes laser diodes, HeNe lasers, a white light source, a fiber optic spectro-radiometry system, single and multimode fibers, laser power meters and a variety of optical components.

The NASA Remote Sensing Computer Laboratory is designed to provide computer resources to students involved in environmental engineering and remote sensing.

The laboratory facilities are supported by significant computer resources which include the Department network comprising over 120 workstations.

## Mechanical Engineering

The Department of Mechanical Engineering provides separate laboratories for the study of aero-thermal-fluid engineering, manufacturing, material science, mechatronics, dynamics and controls, and CAD. A Senior Design Projects Fabrication and Test Laboratory and a machine shop serve the entire department. A personal computer center, open all day, is available for the convenience of students. In the Aero-Thermal-Fluid Laboratory, major experiments involve a refrigeration unit, a water turbine unit, a wind tunnel unit, an air pipe flow unit, a fin heat transfer unit, and a heat exchanger.

The Engineering Materials Laboratory includes extensive facilities for the preparation of specimens for metallographic examination using modern digital imaging analysis system, testing machinery for tension, compression, hardness, impact, fracture, fatigue, stress relaxation, and ultrasound characterization; equipment for heat treatment; as well as recording and projection devices.

The Mechatronics Laboratory teaches the use of various electromechanical devices, sensors and actuators. The devices include strain gauges, thermocouples, piezoelectric accelerometers, LVDT's, instruments for signal generation, filtering and amplification, stepper and DC servo motors, linear slides, and assorted electromechanical items (such as solenoids, relays, micro-switches, infrared proximity sensors, piezoelectric buzzers, strobe lights, fans, blowers, etc.). All these devices are controlled by PC-based data acquisition, microcontrollers, and programmable logic controllers (PLCs).

The Dynamics and Controls Laboratory contains equipment for dynamic balancing, vibration testing, and various feedback control units for rectilinear and torsional mechanical systems, level and flow, thermal and pressure systems and digital and analog servo-motor systems.

The Computer Aided Design Laboratory facility has twenty-six Dell OptiPlex 960 computers, a Dell PowerEdge 2500 server, two HP Color LaserJet 4700dn printers, an HP LaserJet P4015dn printer, and an LCD projector. The Department also has a Multimedia Learning Facility which includes twenty-six Dell Dimension PC's, document camera, LCD projector, and whiteboard as well as a Nuclear Computation Lab with twenty Dell OptiPlex 960 computers running PCTTRAN software. In addition, the Department maintains eighteen Sun UNIX workstations and fifteen Dell OptiPlex 9010 PC's in its manufacturing laboratory. These systems are equipped with mechanism design, mathematics, finite element, boundary element and computer-aided manufacturing software, including Solid Works, LS-DYNA, ABAQUS, MathCAD, MATLAB, Mathematica, FLUENT; and NASTRAN-4D.

A modern Computer-Aided Manufacturing (CAM) Laboratory facility contains four CNC machining centers and a computer-integrated manufacturing (CIM) system, 3-D printer, together with industrial grade robots: two articulate arm types and one SCARA.

Somewhat more specialized laboratories, established to facilitate advanced experimental research work, provide specific concentrations of apparatus and equipment to allow the study of various phenomena in such fields as solid mechanics, composites, turbomachinery, environmental and fluid sciences, aero-sciences, and micro/nano manufacturing.

The machine shop is well equipped for fabricating and maintaining all experimental facilities, both undergraduate and research.

## Research

In recent years, several million dollars in grants per year have been awarded to City College Grove School of Engineering faculty for conducting research projects that have attracted international attention. These faculty members are an integral part of the undergraduate teaching team. The grant agencies include NSF, NASA, ONR, U.S. Army, AFOSR, EPA, USDOT, NYCDOT, DOE, ARPA, and NIH. City College is also connected to ARPANET.

A brief sampling of the ongoing research activities follows.

In the area of Electrical Engineering: digital slow-scan video, packet voice video systems, spread spectra, semiconductors, integrated circuits, digital signal processing, image processing, material characterization, digital optical computing, machine vision, identification and control, microwave engineering, parallel processing, knowledge-based engineering, robotics, computer communications, and local area networks.

In Biomedical Engineering: cardiovascular engineering, including fluid and mass transfer aspects of arterial disease and microcirculatory heat and mass transfer; neural engineering, including analysis of nervous system function at multiple levels (single channel, single cell, tissue, whole animal, and human cognitive levels) and development of stimulation protocols to treat brain disorders; musculoskeletal biomechanics, including understanding the mechanism of musculoskeletal maintenance and adaptation and characterization of bone properties using ultrasound; and tissue engineering, including use of micro- and nanotechnology along with cell and molecular biology to address issues related to disease progression (cancer metastasis), development of replacement tissues, and high throughput assessment of cell death mechanisms.

In the area of Chemical Engineering: turbulence, low Reynolds number hydrodynamics, two- and three-phase bubble flow in capillaries, arterial fluid flow, cholesterol metabolism models, drug release polymers, tissue engineering, fluidized and trickle beds, coal liquefaction, conversion catalysis and hydrolysis, low-temperature electromagnetic properties of semiconductors and coal chars, extraction with mixtures of critical solvents, dynamic process simulation systems, dynamic modeling and control of FCC, coal gasification, municipal waste incineration and power generation systems, control of complex processing systems.

In the area of Computer Science: computer graphics, image processing, multimedia, virtual reality, computational geometry, mathematics of computation, cryptography, artificial intelligence, neural networks, mathematical fluid dynamics and simulation, networks, distributed computing, information management and virtual organization, economics of information, and social issues in computing.

In the area of Mechanical Engineering: fracture mechanics and crack propagation, composite materials characterization and ultrasound microscopy, random vibrations, turbomachinery, aerodynamic turbulence, gas dynamics and shock waves, aerostructures, climate change, MEMs, smart materials and moving phase change boundaries.

In the area of Civil Engineering: earthquake effects of structures and soil/structure interaction, fracture mechanics, creep effects in concrete, probabilistic methods in structural design, seepage of pollutants through soil/water systems, solid waste disposal, modeling and simulation in travel demand forecasting, value capture financing techniques in transportation, highway maintenance systems and load analysis for highways.

The Grove School of Engineering

## Institutes and Centers

### Institutes and Centers

#### Institute for Biomedical Engineering

The Institute is a uniquely integrated endeavor dedicated to providing students with access to a diverse faculty, unique research opportunities, and encouragement to pursue graduate studies in biomedical engineering. It is part of the New York Center for Biomedical Engineering, NYCBE, a consortium of researchers in the Grove School of Engineering at City College, Albert Einstein College of Medicine, the Cardiovascular Research Foundation, Columbia College of Physicians and Surgeons, the Hospital for Special Surgery/Weill Medical College of Cornell University, Mount Sinai School of Medicine, and Memorial Sloan-Kettering Cancer Center. Since its founding in 1994, faculty and staff from more than a dozen health care institutions in the New York area have either taught courses in the center or have served as research advisors for student projects.

#### Benjamin Levich Institute for Physicochemical Hydrodynamics

The Benjamin Levich Institute is an internationally recognized research center for the study of fundamental problems of flow and transport in complex fluid, fluid-like media and interface systems. Faculty members participating in the Institute are from Chemical Engineering, Mechanical Engineering, and Physics. With the Institute's excellent laboratory and computational facilities, their current scope of research is in five major areas: granular flows, low Reynolds number hydrodynamics, non-Newtonian fluid mechanics, computational fluid mechanics, and transport along interfaces.

#### Institute for Municipal Waste Research

The principal objective of the Institute is to mobilize the excellent intellectual resources of the CUNY faculty to assist in solving the urgent problem of effective, economical, and efficient disposal of municipal waste in New York City. The research program entails development of innovative technologies to treat municipal wastewaters in order to safeguard the quality of the surrounding natural waters and new disinfection methods that will protect the quality of drinking water. The Institute's research is funded in part by New York City and State agencies.

#### Institute for Ultrafast Spectroscopy and Lasers (IUSL)

The IUSL is a multidisciplinary research laboratory devoted to conducting basic and applied research in the frontiers of photonic science and technology; to help develop a skilled workforce for academic and industrial sectors by providing unique educational and training opportunities for students and scholars; to provide a core for major photonic initiatives, as well as to identify and participate in the development of emerging technology areas. Faculty members, researchers and students from the Physics, Electrical Engineering, Earth and Atmospheric Sciences Departments of CCNY, and visiting scholars from abroad participate in various IUSL research projects.

#### CUNY Environmental Crossroads Initiative

Created in 2008, the CUNY Environmental Crossroads Initiative is an internationally recognized research center dedicated to the analysis of strategic local, regional, and global environmental challenges. As climate change and environmental problems gain a new sense of urgency around the globe, the collaboration of experts from various disciplines is the key to managing such diverse challenges as coping with climate extremes, feeding a population that continues to grow, establishing energy security while preserving ecosystem services and biodiversity, protecting human health, and sustaining economic development. For more information visit: <http://environment.asrc.cuny.edu/>.

#### CUNY Institute for Transportation Systems

The CUNY Institute for Transportation Systems has been established at The City College in cooperation with other units of the City University of New York. The mission of the Institute is to carry out interdisciplinary research on all modes of transportation and to train transportation professionals.

#### CUNY Institute for Urban Systems (CIUS)

CIUS is a multi-campus CUNY institute that investigates urban infrastructure using the themes of new technology, infrastructure, institutions and finance. The Institute combines engineering and social science research in addressing major problems of urban areas.

#### Center for Advanced Engineering Design and Development (CAEDD)

The primary mission of CAEDD is to conduct, coordinate, and promote design-oriented, applied research and development for industry. It also encourages and fosters interdisciplinary engineering design and manufacturing education by the academic departments in the School of Engineering. CAEDD is an interdepartmental unit which transfers faculty research and expertise in the Grove School of Engineering into advanced technology needed in industry. It also serves as an outreach and referral service for small and large industrial firms seeking assistance with technical problems.

#### CUNY Energy Institute

The Energy Institute was formed in 2008 to consider new approaches to large scale energy production and storage. It serves and comprises of researchers from all campuses of the City University of New York, with a mission to create, evaluate, and provide a seed for the implementation of advanced energy technologies. These technologies would provide low cost, sustainable energy solutions tailored for the various environs that make up New York State, from preserving the serenity of the Adirondack region to meeting challenges of powering New York City. The Energy Institute takes a comprehensive approach to this problem, combining fundamental studies of emission-free energy production and energy storage through new materials and mechanisms.

#### NOAA-Cooperative Remote Sensing Science and Technology Center (NOAA-CREST)

CUNY Remote Sensing of the Earth (CREST) Institute is a CUNY wide institute dedicated to conducting cutting edge research and education in monitoring and predicting the environmental condition of the Earth and help in protecting the Earth's eco-system. NOAA CREST Center is housed within the CUNY CREST Institute. Established in 2001, the NOAA-CREST Center is led by the City University of New York and brings together Hampton University, University of Puerto Rico at Mayaguez, Bowie State University, University of Maryland Baltimore County, and Columbia University and industrial partners like Raytheon & Northrop Grumman. The CREST vision is to contribute to the development of a world-class cadre of faculty, students, and researchers that will gain knowledge and expertise in cutting-edge research in science, engineering, and technology with special emphasis on satellites and remote sensing of the Earth. For more information visit: <http://crest.cuny.cuny.edu/>.

#### International Center for Environmental Resources and Development (ICERD)

This Center was established to bring together multidisciplinary teams of scientists and engineers to help tackle the diverse problems of water resources and environmental issues. It focuses on water resources and environmental research; air and water pollution crisis management; remote sensing and global change impact; environmental technology; and research, education and training programs.

#### University Transportation Research Center (UTRC)

UTRC is a federally supported center that conducts research, training and technology transfer on issues of surface transportation, including road systems, public transportation and multi-modal systems. It is a consortium of twelve major universities, with the lead at CCNY.

#### Center for Algorithms and Interactive Scientific Software (CAISS)

CAISS is a research center where mathematicians and computer scientists come together to collaborate on different projects. It grew out of work on a graphically driven, easy to use, software package called MAGNUS, designed to answer questions about and to carry out experiments with finitely presented groups. This work has led to the development of a general platform, which can house a host of zero learning curve software packages. The first of these packages, one for statistics called Caiss-Stat, is now nearing completion. This is only one of the many projects being undertaken by CAISS which include continued work on MAGNUS, new cryptographic protocols to ensure electronic security, work on a universal password, all of which make use of the complexity of finitely presented groups. In addition, CAISS is developing new games or puzzles, based on group theory. CAISS also manages the New York Group Theory Cooperative, which organizes the NY Group Theory Seminar at the Graduate Center. The facilities of CAISS include a 132 node Beowulf cluster, which is being used for work in computational biology and group theory and a small computer lab equipped with CAISS developed software.

#### Center for Water Resources and Environmental Research

The Center for Water Resources and Environmental Research (CWRER) was established in 1993 in order to meet the needs for interdisciplinary study and education in the area of the natural resources, waste, and environment. The Center's main objectives are: to conduct multi-disciplinary research on protection of the environment and minimization of pollution hazards to the water resources, hydrological, and ecological systems; to develop and demonstrate new technologies for the treatment and disposal of natural water supplies and wastewater; to cooperate on the global scale to protect the precious resources that sustain human life; to educate and train personnel for management, supervision, and operation of environmental and water resources management systems. For more information visit: <http://crest.cuny.cuny.edu/>.

The Grove School of Engineering

## Honors, Awards, and Professional Societies

### Awards and Prizes

Awards and prizes presented by the Grove School of Engineering are listed below. For detailed information on these and on other award opportunities, contact Assistant Dean Rawlins Beharry, 212-650-8040, Chair of the Honors and Awards Committee.

#### Association of Old Crows Award

#### Engineering Alumni Awards

#### Engineering SEEK Scholars Award

#### Engineering Student Support Award

#### Theodore Charros Scholarship

#### GEM Fellowships

#### Donald Griff Scholarships

#### Grove Foundation Scholarship

#### Paul A. Karmel Memorial Award in Electrical Engineering

#### Rose Lederman Scholarship

#### Sam and Clara Linder Scholarship

#### Patell Memorial Award in Chemical Engineering

#### Pope, Evans, and Robbins Scholarships

#### Judith Resnick Award

#### Society of Military Engineers (SAME) Scholarship

#### David B. Steinman Awards

#### Honor Societies

Tau Beta Pi is the United States Engineering Honor Society. Seniors and juniors in the top fifth and top eighth of their respective classes are eligible for election under rigorous standards of scholarship, character, leadership, and service to the School. Honor societies for individual disciplines have chapters in most of our Engineering departments.

Eta Kappa Nu is the national electrical engineering honor society, which has for its purpose the reward and stimulation of high scholarship and professional achievement. Outstanding senior and junior students are eligible for membership; election is based on unimpeachable character and undoubted ability, as evidenced by scholarship.

Chi Epsilon is the national civil engineering honor society. Juniors and seniors in the top third of their respective classes are eligible for membership; election is also based on character, practicality, and sociability.

Omega Chi Epsilon is the national chemical engineering honor society. Membership is limited to students who have completed a substantial number of chemical engineering credits and have demonstrated a high level of scholastic achievement and excellent character.

Golden Key International Honor Society is an academic honors organization recognizing scholastic achievement and excellence in all undergraduate fields of study.

#### Professional Societies and Organizations

Student chapters of the following societies have been formed: American Society of Civil Engineers (ASCE), American Institute of Chemical Engineers (AIChE), American Society of Mechanical Engineers (ASME), Biomedical Engineering Society (BMES), Institute of Electrical and Electronic Engineers (IEEE), Society of Automotive Engineers (SAE), Society of Manufacturing Engineers (SME), American Society of Heating, Refrigeration, and Air-conditioning Engineers (ASHRAE), American Institute of Aeronautics and Astronautics (AIAA), and Association for Computing Machinery (ACM). Broad-based engineering organizations on campus include the National Society of Black Engineers (NSBE), Latin American Engineering Student Association-Society of Hispanic Professional Engineers (LAESA-SHPE), Society of Women Engineers (SWE), and Korean-American Scientists and Engineers Association (KSEA). During each semester, lectures are delivered before these societies by prominent professionals; students are also encouraged to present their own papers. In addition to these professional and technical societies, the Grove School of Engineering sponsors a Concrete Canoe Club, open to all Grove students. For more information of these engineering student organizations, contact Assistant Dean Rawlins Beharry, 212-650-8040, Chair of the Engineering Students Council of Presidents and Leaders.

National engineering societies offer students substantial competitive awards for papers, oral and poster presentations, and design competitions on certain specified topics. Other competitive awards for research are offered to graduates by these societies.

## The Profession of Engineering and Computer Science

Engineering, including Computer Science, is often described as “design under constraint.” Engineers and computer scientists design objects, from simple components to devices, to complex systems and structures that eventually bring about an improvement in our quality of life. Successful designs must, however, comply with many, sometimes conflicting, demands of a technical, political, social, economic, and ethical nature.

Student contemplating an engineering or computer science career will need a solid background in mathematics and the physical sciences. As engineering subdisciplines proliferate, however, and interdisciplinary approaches become more common, the modern engineer may also need grounding in other scientific fields, especially the biological sciences.

The Grove School of Engineering at City College provides a broad-based general education as well as professional training. It also prepares students for life-long learning. As scientific and engineering knowledge roughly doubles every 10 years, today's engineering student can no longer expect to learn all that he or she will ever need to know simply by completing a bachelor's degree program. Each of the eight degree programs offered by the Grove School of Engineering emphasizes in its curriculum the acquisition of learning skills necessary for the future engineer to continue learning throughout his or her professional career.

## Engineering and Computer Science Ethics

In order to maintain high standards of conduct and uphold and advance the dignity of the engineering and computer science profession, engineers and computer science profession, engineers, computer scientists are committed to the following: exercising integrity and impartiality in the service of employers, clients, and the public; striving to increase competence in engineering and computer science while enhancing the prestige of the profession; and using knowledge and skill for the betterment of human welfare. Statements of standards for relations with the public, clients, and employers are available from technical societies and from the Accreditation Board for Engineering and Technology (ABET). The Grove School of Engineering is also affiliated with the Order of the Engineer, a nationwide organization open to engineering seniors, who accept an obligation to maintain high ethical standards in their professional and personal behavior.

## History

The City College Grove School of Engineering is the sole entity for engineering education within The City University of New York. Its origins date from 1916, when the Board of Trustees authorized a curriculum leading to the Diploma of Junior Civil Engineer. In 1917, more extensive courses in chemical, civil, electrical, and mechanical engineering were established within the natural science curriculum of the College of Liberal Arts and Science. In 1919, the School of Technology was established with four engineering programs leading to the degrees of Chemical Engineer, Civil Engineer, Electrical Engineer, and Mechanical Engineer, as well as the degree of Bachelor of Science in Engineering. After 1936, the latter degree was replaced by the degrees of Bachelor of Chemical Engineering, Bachelor of Civil Engineering, Bachelor of Electrical Engineering, and Bachelor of Mechanical Engineering.

Effective September 1962, the Board of Higher Education approved a change in the name of the School of Technology to the School of Engineering and Architecture.

In December 1962, the Regents of the University of the State of New York reduced the number of degree designations authorized for engineering programs. The new degree designations for the School became Bachelor of Engineering and Master of Engineering. Authority was given to the College to indicate the branch of engineering in parentheses after the degree title, e.g. Bachelor of Engineering (Chemical Engineering), Master of Engineering (Civil Engineering). These designations have been in effect since September 1, 1963.

Effective July 1968, the Board of Higher Education approved the separation of the School of Engineering and the School of Architecture. The latter is now called the School of Architecture, Urban Design and Landscape Architecture.

Since September 1963, under the authority of The City University of New York (CUNY), the School of Engineering has offered advanced study leading to the degree of Doctor of Philosophy. The doctoral program is available to students from the Biomedical, Chemical, Civil, Electrical and Mechanical Engineering degree programs. In August 2008, The City College was granted the authority by the State of New York to offer Ph.D. degrees in Engineering.

Beginning September 1968, The City College has offered a four-year curriculum leading to a Bachelor of Science degree in Computer Science. Since September 1969, a Master of Science degree in Computer Science has also been offered. The Doctor of Philosophy degree in Computer Science is also available.

Since September 1999, the Doctor of Philosophy degree in Biomedical Engineering has been offered. Since September 2000 the degree of Master of Science (Biomedical Engineering) and the degree of Bachelor of Engineering (Computer Engineering) are available. Since September 2002 the degree of Bachelor of Engineering (Biomedical Engineering) has been offered.

In 2006, the School of Engineering was renamed The Grove School of Engineering in recognition of the generous support of its renowned alumnus, Dr. Andrew S. Grove '60.

## Mission

The mission of the Grove School of Engineering is:

I.	To be a school of national preeminence among public schools of engineering and computer science, recognized for the excellence of its instructional and research programs;
II.	To provide readily accessible, quality undergraduate and graduate education in a broad range of fields to a highly diverse student body, including traditionally underrepresented minorities and women, working adults, and immigrants;
III.	To maintain and expand the program of fundamental and applied research in areas of national interest, particularly in technologies with relevance to New York City, its metropolitan region and New York State;
IV.	To provide public service and continuing professional education opportunities to New York City and State, the local community in which the institution resides, the engineering and computer science professions, and society at large.

## Goal Statement

The goals of the Grove School of Engineering are to:

1. Attract and maintain a world class faculty devoted to the synergistic activities of teaching and research;
2. Increase the competitive position of the school for attracting high achieving students;
3. Educate students to achieve the outcomes set forth by each program;
4. Continuously enhance the quality and technological relevance of graduate education and research programs;
5. Implement appropriate instructional delivery and support systems that facilitate access by a highly diverse student body;
6. Encourage multi-disciplinary approaches to both teaching and research in keeping with current technological progress in today's world;
7. Develop partnerships with industry, government, and other external organizations that will enhance the School's educational and research activities;
8. Attract the external resources necessary to support cutting-edge research;
9. Assist in the preparation of K-14 students for further education in engineering and computer science; and
10. Provide continuing education, technological expertise and public service to the engineering and computer science professions, the local community, and the state and city governments.

## Accreditation

All undergraduate curricula leading to the baccalaureate degree in engineering are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012—telephone: (410) 347-7700. The Computer Science curriculum leading to the baccalaureate degree in science for computer science is accredited by the Computing Accreditation Commission (CAC) of ABET.

The undergraduate curricula leading to the bachelor's degree in engineering and the graduate curricula leading to the master's degree in engineering are registered by the New York State Department of Education as meeting educational requirements for the license of Professional Engineer in the State of New York. The City College is accredited by the New York State Department of Education and by the Middle States Association of Colleges and Secondary Schools.

The Grove School of Engineering is an institutional member of the American Society for Engineering Education. It participates in the Society's Engineering College Administrative Council and in its Engineering College Research Council. The School is also a member of the Association of Engineering Colleges of New York State.

## Facilities and Services

David B. Steinman Hall is the primary engineering building. It houses the offices of the Dean, the associate and assistant deans, and the administrative offices and all laboratories, research facilities, computer rooms, and conference rooms of the Departments of Biomedical, Chemical, Civil, Electrical, and Mechanical Engineering. The administrative offices of the Computer Science Department are located in the North Academic Center (NAC building). The Computer Engineering Program is co-administered by the Departments of Computer Science and Electrical Engineering. Many of the actual classrooms for engineering subjects are found in various other buildings on the campus.

## Office of Academic Affairs- Undergraduate Studies

Undergraduate Studies in the Office of Academic Affairs maintains academic standards by interpreting and enforcing the school's rules, regulations and procedures. Other responsibilities of the office include graduation certification; coordinating Bulletin information; initial advising of transfer and second-degree students; and participating in curriculum articulation and joint-dual programs with other institutions.

It advises all incoming GSoE students and helps them navigate the City College campus and Grove's academic curriculum to ensure a successful transition to college life and eventual graduation. To enhance students' college experience, Undergraduate Studies has a vibrant slate of student programming including academic, professional and leadership development initiatives.

It conducts orientation for new undergraduate entrants to the Grove School and facilitates workshops on effective study habits and academic expectations. Counselors work individually with each new undergraduate student, providing guidance and support and they assist Grove's lower-division students with their course selection, registration, and decision making on academic majors, as well as, provide Grove's undergrads with short-term personal counseling and wellness education. It also provides assistance to Grove's undergraduates with resume writing, interviewing strategies, and the opportunity search process.

Undergraduate Studies maintains Grove's study facility, its Tutoring Laboratory/Center and its Learning Resource Library. It manages the academic services in the Grove School including tutoring for the undergraduate population as well as academic counseling.

Other Undergraduate Studies initiatives include overseeing the Engineering Student Council of Presidents & Leaders (co-curricular life), select student diversity affairs, and specialized undergraduate recruitment initiatives. Undergraduate Studies also supports the needs of the Diversity in Engineering Advisory Board (DEAB), which provides guidance on student professional development.

Undergraduate Studies also works with faculty and staff in GSoE to conduct seminars and workshops to introduce research to the student population and provide advice and consultation for student participation in research and other experiential learning, and to help students be better prepared for graduate study. It assists students in identifying faculty mentors, projects, and departmental resources and .

The Office of Graduate Studies also administers all masters and Ph.D. pro-grams in the GSoE. Information on graduate studies is available at the Office of Academic Affairs. Undergraduates who are interested in taking graduate courses must obtain prior approval. Contact Undergraduate Studies (room ST-209; 212-650-8020) for more details.

## Office of Student Development (OSD)

---

The Office of Student Development advises all GSoE students with less than 45 credits, and helps them navigate the City College campus and Grove's academic curriculum to ensure a successful transition to college life and eventual graduation. To enhance students' college experience, OSD has a vibrant slate of student programming including academic, professional and leadership development initiatives.

OSD conducts orientation for new undergraduate entrants to the Grove School and facilitates workshops on effective study habits and academic expectations. OSD counselors work individually with each new undergraduate student, providing guidance and support. OSD academic advisors assist Grove's lower-division students with their course selection, registration, and decision making on academic majors, as well as, provide Grove's undergrads with short-term personal counseling and wellness education. OSD also provides assistance to Grove's undergraduates with resume writing, interviewing strategies, and the opportunity search process.

OSD maintains Grove's study facility, its Tutoring Laboratory/Center and its Learning Resource Library. OSD manages the academic services in the Grove School including tutoring for the undergraduate population as well as academic counseling and the student educational affairs for Grove's lower division.

Other OSD initiatives include overseeing the Council of Engineering Student Organizations & Leaders (co-curricular life), student diversity affairs, and specialized undergraduate recruitment initiatives. OSD also supports the needs of the Diversity in Engineering Advisory Board (DEAB), which provides guidance on student professional development.

## Office of Graduate Studies

---

This office administers all masters and Ph.D. programs in the GSoE. Information on graduate studies is available here. Undergraduates who are interested in taking graduate courses must obtain prior approval. Visit the OUA (room ST-209; 212-650-8020) or the Graduate Studies office (room ST-152; 212-650-8030) for more details.

## Undergraduate Admissions

---

### Degree Programs

Currently, programs are offered leading to undergraduate degrees in the following majors:

#### Bachelor of Engineering

- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Earth System Science and Environmental Engineering
- Electrical Engineering
- Mechanical Engineering

#### Bachelor of Science

- Computer Science

### Freshman Admission Requirements

For information about academic requirements, application procedures, placement examinations, and special admissions programs, consult the [Admissions section](#) of this Bulletin.

Because mathematics and physics are of such great importance in engineering, it is recommended that students choose as many courses as possible in these subjects while still in high school. High school students should also concentrate on perfecting their use of English in reading and writing.

### Transfer Students

Information about admission requirements, application procedures, placement examinations, and evaluation of transfer credits can be found in the [Admissions section](#) of this Bulletin. For other questions, refer to the Office of Admissions, A-101, (212) 650-6977.

Changing majors, from another college or within CCNY, will usually delay graduation because not all prior courses will apply to the new degree.

## External Transfers

Transfer students are admitted to the Grove School of Engineering or directed to the College of Liberal Arts and Science on the basis of the math and science courses they have completed, the total number of credits completed, and their college (sometimes high school) GPA. Students who do not meet Grove School of Engineering criteria but who are otherwise eligible for admission to City College may enter the College of Liberal Arts and Science (CLAS).

Students pursuing a degree in Engineering Technology should note that no technical courses in the technology program are transferable to any engineering program. Many engineering courses in associate degree programs do not transfer because they are based on less prerequisite knowledge than GSoE courses with similar titles or descriptions. For more information about articulation with CUNY colleges call (212) 650-8020. All final decisions regarding the transferability of courses remain with the College and the School of Engineering.

Students at other colleges who eventually wish to continue in engineering are advised to select math and science courses such as calculus, calculus-based physics, and college chemistry.

In most cases, the credit structures at each college are different and students are likely to lose some credits in the transfer process. Because of this fact, and also because the adjustment process may be somewhat easier, students may find it advantageous to transfer at the earliest point allowed by regulations. The recommended alternative is to start at City College as a freshman.

## Internal Transfers

Students at CCNY who initially pursue a degree other than those offered by the Grove School of Engineering must satisfy the same course and grade entrance criteria required of students transferring from other institutions, as described in the Admissions section. Contact Undergraduate Studies (ST 209/ST 2M7; 212-650-8020) for information about the application process.

Students without a major who do not qualify for internal transfer to GSoE may seek advising from the New Student Experience Center (MR 053, 212-650-8290) or Gateway Academic Center (NAC 1/219, 212-650-6115).

## Transferring Between GSoE Programs

Students are strongly advised to consult with an advisor when contemplating a new major program. It is often possible to transfer from one field to another during the first few semesters with little or no loss of credit. Transferring to a new GSoE program requires prior approval of the program to which students wish to switch.

## Second-Degree Students

Students holding a valid undergraduate (four-year) or graduate degree from an accredited college and wishing to obtain an undergraduate degree in engineering or computer science will be admitted to the Grove School of Engineering based on a transcript evaluation by the Assistant Dean for Undergraduate Studies. Second Degree students must fulfill all the same admission requirements as transfer students. Upon admission, the Assistant Dean for Undergraduate Studies will develop a suitable program for the student, which will generally waive some of the degree requirements satisfied during the attainment of the earlier degree. Students may not deviate from this program without the written approval of the Assistant Dean of Undergraduate Affairs. Students must apply for admission at least three months before the start of the semester they wish to enter. Students wishing to enter with second degree status should first visit the Admissions Office or website to obtain basic information as well as the proper forms. The second degree cannot be the same subject as the first. Students must meet the departmental residency requirements described below.

## Joint/Dual Degree Students

The Grove School of Engineering has established several areas of study as jointly registered dual programs with Eugenio Maria De Hostos Community College (Hostos) and LaGuardia Community College. Students who are in these programs, and successfully attain the A.S. degree in engineering at either of the two schools, and fulfill the Grove School of Engineering's admission requirements for transfer students, are admitted to the Grove School of Engineering at the junior level, where they complete the additional course requirements for the Bachelor of Engineering degree.

The coursework necessary to earn the AS degree as part of a joint/dual degree program fulfills the course requirements of the corresponding courses in the Bachelors Degree programs at the Grove School of Engineering.

Note that the above applies only to the following two-year school engineering programs:

### Maria De Hostos Community College

- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Mechanical Engineering

### LaGuardia Community College

- Civil Engineering
- Electrical Engineering
- Mechanical Engineering
- For more information on the joint/dual degree engineering programs, please contact the Office of Undergraduate Studies (Steinman Hall Room 209, 212-650-8020).

## Evening Students

The Grove School of Engineering offers some evening courses, but many major courses in all curricula are available only during the day.

## Residency Requirements for Graduation

To obtain a degree, every transfer student and second-degree student at the Grove School of Engineering must satisfy the residency requirement of his or her chosen program. This specifies the minimum number of upper-level credits that a student must take at City College in the department(s) of the major, and must be met regardless of the number of major transfer credits the student may claim. Students applying for admission should be aware of this requirement, which is described fully in the upcoming section "Overview of the Curricula."

## Transfer Credits

Transfer credit is given only for courses completed in properly accredited programs, if their material fully covers that of a similar City College course. Students must provide sufficiently detailed, authenticated curricular materials in order for course equivalency to be established. No credit will be applied for any course in which a grade lower than a "C" was obtained, and no credit will be given in which a pass/fail grading system was used.

Students should note that some transfer credits might not satisfy their particular degree requirements, but may instead be granted in the form of elective credits.

Foreign students may in some cases receive credit by examination. Before being allowed to take such an examination, the student must provide evidence that he or she has had similar courses.

The above notwithstanding, the Grove School of Engineering reserves the right to withhold transfer credit for any academic reason it considers justifiable.

## Overview of the Undergraduate Curricula

The undergraduate curricula in engineering and computer science are designed to prepare the student for practice in the field of choice. Courses in the major provide a firm grounding in the principles of the various disciplines; these basic principles are applied and expanded in a series of design or similar courses. All of these courses emphasize the development of engineering viewpoints, attitudes, and methods of approach to problems.

The Undergraduate curricula offered by the Grove School of Engineering also provide a background in written and oral English and the humanities. The Grove School of Engineering offers programs that start from the freshman level and continue to the highest academic levels, up to and including the doctorate.

### English and Liberal Arts Courses (General Education)

English and Liberal Arts (General Education) requirements for the Bachelor of Science degree in computer science and for the Bachelor of Engineering degrees in the engineering programs are listed below:

#### Writing Requirements

ENGL 11000	Freshman Composition	3
ENGL 21007	Writing for Engineering	3

*FIQWS 10026 fulfills the English 11000 requirement, as well as any ENGR 10100 requirement*

### Foundational Courses

Foundational courses for all undergraduate programs in the Grove School of Engineering must be completed before embarking upon related courses in the major. Students with appropriate background as demonstrated by the College's Placement Exam may be exempted from some or all Foundational Courses. The foundational course for Calculus I (MATH 20100) is Pre-Calculus (MATH 19500), and this course must be passed with a grade of C or higher in order to proceed to the next level.

### Pathways General Education Requirements

Grove School of Engineering students must take one course from each of the following Pathways categories: Creative Expression (CE), Individual and Society (IS), World Cultures and Global Issues (WCGI), and US in its Diversity (US)). (See General Education Requirement (Pathways) section in the Bulletin for more details). Each of Grove's academic programs may require additional General Education courses; some of which are specified while others can be selected from a list of approved courses that is posted on the Grove School of Engineering Web site and can be viewed at the Office of Undergraduate Studies (ST 209). These courses may not include courses in creativity, design, language skills, performance, professional, studio, and/or technical courses such as statistics, neuroscience, experimental psychology, etc. This list is subject to periodic review and updates..

At least two of the courses must be at the 20000 level or higher. Upon being accepted into the Grove School of Engineering, transfer students should consult with an advisor in the Office of Undergraduate Studies for Pathways regulations based on the number of credits taken at the point of transfer.

**ChE, CE, CpE, and ME students** must take six approved courses (one from each of the 4 Pathways categories and two additional courses from the GSoE list).

**BME students** must take five approved courses (one from each of the 4 Pathways categories and one additional course from the GSoE list) and Engr 30000 (Social, Economic, and Cultural Impact of Biomedical Technology) for a total of six courses.

**CSC students** must take four approved courses (one from each of the 4 Pathways categories), and Speech 11100 (Foundations of Speech Communication) for a total of five courses. Students may be exempted from Speech 11100 by passing a speech proficiency examination, in which case they must take another speech course.

**ESE and EE students** must take five approved courses (one from each of the 4 Pathways categories and one additional course from the GSoE list) and Engr 27600 (Engineering Economics) for a total of six courses.

### Credit Requirements

The Bachelor of Engineering degree and the Bachelor of Science in Computer Science degree require the satisfactory completion of 126–134 credits. In the School of Engineering, not all credits passed or transferred count toward the degree. Students with non-degree courses, whether remedial or otherwise, will accumulate more credits than students whose total credits count toward their degree.

Except for special cases, the maximum number of credits allowed per semester is eighteen. Students who wish to take more than eighteen credits in any one semester must obtain permission from the Office of Undergraduate Affairs (ST 209; 212-650-8020). If permission is granted, the student will not be allowed to drop any Grove School of Engineering courses.

### Liberal Arts Credit Requirements

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student:

To obtain a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Engineering, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Residency Requirement

Residency requirements specify the minimum number of credits that students must take at City College in the department(s) of their major to obtain a degree, and must be met regardless of the number of transfer credits that a student may claim in the major area. Only courses offered by the major department(s) and prefixed by the department initials (e.g., CHE, CE), and at the 30000 level or higher, count toward residency requirements.

Residency requirements are based on the total credit in major courses in the department’s curriculum, excluding pilot and experimental courses, and are listed below.

	Credits
Biomedical Engineering (BME)	30
Chemical Engineering (CHE)	33*
Civil Engineering (CE)	33
Computer Engineering (CPE)	30
Computer Science (CSC)	33
Earth System Science and Environmental Engineering (ESE)	33
Electrical Engineering (EE)	36
Mechanical Engineering (ME)	36

\*A maximum of 6 credits may be in non-CHE technical elective courses.

## Advising

The goal of the academic advising process is to help students develop meaningful educational plans that are consistent with their academic, personal and professional goals.

Engineering majors with 0-44 credits receive academic advising from professional staff affiliated with the Office of Undergraduate Studies and the academic department. An academic advising session must be scheduled at least once per semester with a staff advisor (general advisor) from this office (ST 209, 212-650-8020).

### GENERAL (STAFF) ADVISORS

Biomedical Engineering - Phillip Payton (ST 403; 212-650-5283)

Chemical Engineering – Nick Cromie (ST 321; 212-650-5748)

Civil Engineering – Luis Alicea (ST 211; 212-650-8385)

Computer Engineering – Sam Fenster (ST 617; 212-650-6594)

Computer Science – Gulam Mustafa/Crystal Sawyer (ST 2M7/NAC 8/206; 212-650-8040/6137)

Earth System Science and Environmental Engineering – Liubov Kreminska (ST 421; 212-650-8299)

Electrical Engineering – Edward Baurin (ST 626; 212-650-8902)

Mechanical Engineering – Deborah Moore (ST 212; 212-650-8028)

Engineering majors who have earned 45 or more credits receive academic advising that must be scheduled at least once per semester with a faculty advisor from the department. To find the name of a faculty advisor, students should consult the list posted in the office of the department chair (e.g., CE, ChE, BME). Staff (general) advisors for each program assist students throughout the year in all other administrative procedures such as help with registration and academic difficulties, Pathways General Education requirements and academic/School policies.

Each semester, an engineering advisement hold is placed on the student’s record until the student has completed the required advising session. Students will then be permitted to register.

## Academic Standards

### Grade Point Average (GPA)

Calculation of the GPA is described in the [Academic Regulations section](#) of this Bulletin.

### Quality Point Accumulation (QPA)

The Quality Point Accumulation (QPA) measures performance in the student’s major courses.

Unless stated otherwise, major courses include only courses offered by the student’s department. For example, computer science courses, although required for the civil, and electrical engineering degrees, are not included in QPA calculations for those majors. QPA calculation in the computer engineering degree counts all computer science and electrical engineering courses. Engr. 20400 is counted in the QPA for both computer engineering and electrical engineering.

### Computing the QPA

In calculating QPA, the following weighting factors apply:

A+, A, A-	=	+2
B+, B, B-	=	+1
C+, C, C-	=	0
D	=	-1
F	=	-2

Pluses and minuses following the grade letter are ignored. F represents here all failing grades including F, FAB, FIN, FPN, WF, and WU. The weighting factors are multiplied by the number of credits for each applicable course, and the results of all multiplications are added together. A QPA of zero is equivalent to a C average in the major. The CUNY-wide "F" Repeat policy, described in the [Academic Regulations section](#) of this *Bulletin*, by which certain failing grades are omitted from the GPA, does not apply to Engineering QPA calculations.

## Use of Graduate Courses

Permission to substitute a graduate course for an undergraduate course requires senior status and a GPA of 2.75 or better plus the approval of the chair of the department in which the course resides, the Assistant Dean for Undergraduate Studies.

## Retaking Engineering Courses

On application by the student, the Assistant Dean for Undergraduate Studies will allow students in their senior year to repeat courses in order to improve their major QPA. Only five such retakes will be allowed (not more than two per semester) and these must be courses for which the previous grade was D. No course, once passed with a grade of D, may be retaken more than once. If a student is permitted to retake a course, both the new grade and the original grade of D will be counted in the major QPA.

## Pass-Fail Option

Students enrolled in the Grove School of Engineering must take all courses for a qualitative letter grade. That is, they are not allowed to take the pass-fail option except when it is the only grade option for a course.

## College-Wide Examinations

### CUNY's Skills Assessment Tests (CATs)

All CCNY students are required to meet the University's skills proficiency requirements based on SAT, ACT, or NY State Regents test scores. Students who do not achieve the required scores on SAT I or Regents Exams can satisfy the skills proficiency requirements by passing the CUNY Assessment Tests in Reading, Writing and Mathematics.

### MATH 3 Testing: Placement into Advanced Mathematics Courses

All new students - whether or not they are math proficient-are required to take the CUNY Assessment Test in Mathematics (Math 3). Test results will be used to place students in the appropriate mathematics course at their college.

## Probation and Dismissal

Students are considered to not be in good academic standing in the following cases:

- If they do not maintain a GPA of 2.0 (or 1.75 or 1.5 for students who have attempted fewer than 25 or 13 credits at CCNY, respectively);
- If they do not maintain a QPA of at least zero;
- If they need to take a course for a third time;
- If they have withdrawn from 12 credits in a two-year period.

Students that are not in good academic standing may be required to file an appeal with the GSoE Office of Undergraduate Studies to be allowed to remain in a GSoE degree program. If an appeal is granted, the student will be placed on academic probation.

As long as they are on academic probation, the students will be restricted to twelve, or fewer, credits per semester and/or the terms of an academic contract. Students on academic probation whose grades do not improve will be dismissed from the School of Engineering, unless another appeal is granted for the continuation of studies.

Definitions of probation and satisfactory academic progress are located in the Academic Regulations section of this Bulletin.

## Committee on Course and Standing

The Committee enforces academic standards and graduation requirements. Its responsibilities are to

- Adjudicate student appeals of dismissal from the GSoE,
- Adjudicate variances in graduation requirements in individual cases,
- Adjudicate on change of grade appeals.

All requests to the Committee must be submitted in writing to the Office of Undergraduate Studies. The Committee is the final authority on questions of courses, probation, dismissals, and graduation.

## Summary of Graduation Requirements

In order to be eligible for graduation, the student must meet the following criteria:

- Achieve a minimum overall average of C (GPA of 2.0).
- Achieve a minimum quality point accumulation (QPA) of zero.
- Obtain a grade of C or better in specified mathematics, science and major courses in the program.
- Satisfy the credit distribution requirements of the degree.
- Fulfill the residency and credit requirements of the degree.

## Liberal Arts Credit Requirements

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student:

To obtain a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Engineering, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Cooperative Education Plans in Engineering

Grove students are assisted with their professional development throughout their undergraduate studies and they can apply for competitive cooperative education positions including co-ops and summer internships. Assignment locations are not only in the New York metropolitan area, but throughout the nation. Students who participate in cooperative education can expect to benefit by the experience in many ways, among the more important of which are:

- Learning to put theory into practice.
- Earning financial support for college.
- Increasing motivation and stimulation to continue academic studies.
- Growing in maturity, practicality, and responsibility.
- Greatly enhancing job opportunities upon graduation.

In general, to participate in cooperative education the student must have completed at least 30 credits towards the degree and meet the required academic standards as stipulated by the cooperative education employer. It is important to note the following:

- No academic credits are given for cooperative education work experience; and participation in cooperative education normally extends the time needed to complete the degree requirements.
- Work periods are not just during the summers, although the summer may be included in a fall or spring work assignment.

Grove students have participated in cooperative education assignments with employers that have included governmental agencies such as Brookhaven National Laboratory and NASA, as well as large private corporations such as Merck, IBM, Toyota, Boeing, and GE. Students interested in cooperative education should consult with the Office of Undergraduate Studies in the Grove School of Engineering.

## Student Responsibilities

For academic matters, students are responsible for the material covered in the [Academic Regulations section](#) of this *Bulletin*, in the introductory section of the Grove School of Engineering portion, and in their specific department write-ups. For matters related to conduct, students are responsible for the disciplinary material covered in Appendix B of this *Bulletin*.

## Department Programs

Prescribed curricula for the eight Grove School of Engineering programs are presented in the following pages. Mathematics and science subjects upon which long sequences depend are of prime importance and should be taken as soon as the student is ready for them. If a section in one of these subjects is closed the student should, if possible, select a different section of the same subject and rearrange other subjects as necessary. Freshmen and sophomores should pay particular attention to early completion of the prescribed work in mathematics, physics, chemistry, and computer science.

It is the student's responsibility to meet with a Grove advisor each semester for program planning and advisement. Students with specific problems may always consult with the Office of Undergraduate Studies, ST 209.

Students who are behind in completing prerequisite courses should consider attending one or more summer sessions. The math and basic science courses and many liberal arts non-science courses are generally offered during the summer, as are some Grove School of Engineering courses.

Curricula in engineering and computer science are designed so that the full-time day student, sustaining no failures, may complete the bachelor's curriculum in four calendar years. Often, however, because of the timing of courses or schedule conflicts, a student will have to attend one or two additional semesters. In addition, because certain courses in all curricula are considered difficult, students may elect to take fewer total credits during the semesters in which they take those courses. This might also lengthen their stay at the College. Finally, students who must hold a job, even a part-time job, should reduce their course loads below those recommended in the program descriptions. Most math, science, and engineering courses are sufficiently challenging to require a full measure of the student's energy and attention; the longer stay in the College that this delay entails is almost always compensated for by higher grades.

Evening students should select math and science courses in preference to humanities courses on beginning their college work, since the humanities courses will round out programs in later years when schedule difficulties might prevent the selection of a full program of technical courses.

Where courses have prerequisites, the prerequisite must be taken before registering for the desired course. Exceptions must be approved in writing by the department chair and approved by the Assistant Dean of Undergraduate Studies. Students who register without such permission risk being dropped from the course.

The Grove School of Engineering reserves the right to change curricular requirements for matriculated students at any time if such changes are necessary to remain in compliance with the guidelines of the Accreditation Board for Engineering and Technology. Also, courses will not be given unless warranted by enrollment levels.

Every effort has been made to ensure that the material in this section of the *Bulletin* is consistent with the material presented in the Academic Regulations section of the *Bulletin* and in the individual program sections. If there are inconsistencies, students are strongly advised not to attempt their own interpretation but to consult with the Office of Undergraduate Studies, ST 209. An erroneous interpretation of the requirements by a student may not be accepted by the College.

## Laboratories and Research

### Biomedical Engineering

The Department of Biomedical Engineering's teaching laboratories provide students with hands-on experiences using state-of-the-art equipment. One laboratory is equipped to teach cell and molecular methods used in biomedical engineering, as well as a range of other analytical methods. The other major laboratory is equipped for teaching bio-electric circuits, transducers and measurements devices, data acquisition and clinical instrumentation, as well for the development of senior capstone design projects. Students also have access to computers and servers for continuous virtual access to a range of engineering and analytical software (Matlab, Mathematica, Python, Solidworks, various engineering modeling programs). Maker spaces for student use in Biomedical Engineering and in the Grove School of Engineering provide an array of 3D printers for plastic and metal printing, as well other manufacturing equipment. In addition to these teaching labs and manufacturing facilities, students have access to a wide variety of technical training opportunities through the nationally renowned research laboratories in the Department of Biomedical Engineering.

## Chemical Engineering

The Chemical Engineering Department provides six laboratories as part of its teaching facilities. These are the Chemical Engineering Science Laboratory, the Unit Operations and Control Laboratory, the Particulate Science Laboratory, the Interfacial Chemistry Laboratory, the Bioprocessing Laboratory, and the Computer Laboratory. Safety procedures and training are emphasized in all laboratories.

In the Chemical Engineering Science Laboratory students make measurements of various thermodynamic properties such as vapor pressure and of transport properties such as viscosity, thermal conductivity and gas diffusivities. The data is then used to estimate the parameters in the appropriate constitutive equations using the methods learned in the statistics course. Students also study the mechanism of conductive, convective, and thermal radiation heat transfer.

In the Unit Operations and Control Laboratory students get hands on experience operating and characterizing the behavior of a wide variety of the types of equipment used in chemical plants. Among these are several heat exchangers, pumps, a piping network for studying fluid flow, flow meter apparatus, a distillation column, a chemical reactor, a packed column, a fluidized bed, a mixing tank, a drying oven, and a gas membrane separator. Most equipment is of pilot plant scale. Many experiments have computer interfaces. The distillation column is equipped with a control module that gives the students experience with the use of feedback control in the operation of equipment. Students also learn how to use a process chromatograph in conjunction with some of the other experiments.

The Powder Science and Technology Laboratory is attached to the course with the same name (ChE 45200) and is given together with it as demonstration of theoretical principles presented in class. The students are first introduced to powder characterization such as particle size, size distribution (using standard sieves and a light scattering instrument) and shape and surface structure using optical and electron microscopes. Instruments to measure powder specific surface area and pore volume using gas adsorption (BET and gas pycnometry) and mercury intrusion are also presented. Characterization of bulk powders properties is achieved in the Jenike Shear Cell used to measure powder-yield loci at different initial compression levels. This is a special instrument, characteristic of powder engineering, used to determine powder flowability as well as for the design of powder storage vessels such as hoppers and bins. Finally, the MikroPul Hosokawa Micron Powder Characteristics Tester provides six mechanical measurements with one easy-to-use instrument, including 1) angle of repose, 2) compressibility, 3) angle of spatula, 4) cohesiveness, 5) angle of fall and 6) disperse-ability. Measuring such properties has great importance in the design of storage hoppers, feeders, conveyors and other powder processing equipment. The laboratory also has a significant research component dedicated to the measurement of dry powder flows in different geometries and the study of powder granulation (size-enlargement). Principles of these processes are also demonstrated to students using the existing research equipment.

The Interfacial Chemistry Laboratory provides students with exposure to some surface modification chemistry and the standard techniques used for the characterization of surface properties. Written and verbal reports are required. In addition to use of instrumentation, students will familiarize themselves with surface preparation and modification techniques, including self-assembly, evaporation, spin coating, and Langmuir-Blodgett techniques.

The Bioprocessing Laboratory is equipped with a bioprocess system that includes a fermentation bioreactor, an ultrasonic cell homogenizer, an isoelectric focusing prep cell, and, for final purification, a chromatographic separation system. Additional equipment includes Applikon 3 and 7 liter fermenters with an ultrasonic cell separator to permit cell recycle. On-line instrumentation includes an Aber Instruments live-cell probe and a methanol feed control system. All modules are computer accessible and capable of feedback control. This lab is used in conjunction with both the graduate and undergraduate courses in bioprocessing to provide hands on training. Typical experiments are introductory microbiology, bioreactor operation and control, and protein purification.

The computer laboratory provides students with access to approximately 24 PCs and two printers on a local area network. Applications software including the Aspen Engineering Suite, SuperPro Designer, Visio, Mathematica, and Matlab are available on these machines as well as E-mail and Internet access capability. The lab also provides workspace so that student design or study teams can work together. This lab is available from 9 AM to 9 PM weekdays and on weekends by previous arrangement.

## Civil Engineering

The Department of Civil Engineering has the following laboratories: Materials of Engineering, Soil Mechanics, Fluid Mechanics, Environmental Engineering, Highway and Airfield, and Traffic/Transportation Engineering.

The Materials of Engineering Laboratory houses an Instron 8500 Series Universal Testing Machine. This machine is digitally controlled and capable of applying 55 kips (250 kN) dynamic loads. Supporting electronic control, data acquisition and computer software systems are available. Additional equipment for the static, dynamic and fatigue testing of materials includes testing machines for tension, compression, transverse-bending and torsion investigation. The laboratory contains hardness testing machines, impact testers, electric strain gauge consoles, and assorted peripheral equipment. Facilities for casting, curing and testing concrete are also available and include the following: walk-in variable temperature and humidity control environmental chamber, diamond tipped saw for cutting concrete, computer controlled servo-hydraulic compression test machine for 600 kip load capacity, ultrasonic pulse-velocity meter, and maturity meters. Complete facilities for nondestructive evaluation of materials and structures are also available and include: ground-penetrating radar with 400 MHz antenna, ultrasonic transmitters, oscilloscopes, function generators and accelerometers.

The Soil Mechanics Laboratory is equipped to perform standard identification tests of soils, such as grain size distribution, liquid and plastic limits, shear strength, and compaction properties. In addition, facilities to perform detailed testing of undisturbed samples (consolidation and triaxial shear) are available and used regularly. A moist room is available for long-term sample storage.

The Fluid Mechanics Laboratory is equipped for studying both compressible and incompressible fluid media. Flow rates up to five cubic feet per second of water are provided by each of three independent high-pressure systems equipped with constant-head controls. Two low-constant-head supply tanks located in the laboratory provide lesser discharge capacities. The laboratory contains a 52-foot long tilting flume, a water tunnel, a subsonic wind tunnel, an air jet, pumps, turbines, a hydraulic bench, and various units for the study of frictional phenomena involving water and oil.

A one-dimensional Laser Doppler Anemometer (LDA) is used for the study of flow velocities in pipes and near the flow boundaries. In addition, the lab has a state-of-the-art wave tank, 6 ft. wide by 4 ft. high and 40 ft. long. It is equipped with a computer controlled five-paddle wave generator. This system can produce single waves, random waves, and angle waves. A two-dimensional Laser Doppler Velocimeter (LDV) equipped with computer controlled 3-D traverse and fully automated data acquisition system is used in the wave tank for studying beach hydraulics and off-shore similitudes. The lab is also equipped with a tilting sand flume for studying flow through highly porous media and groundwater contamination. A fully automated freeze and thaw machine is also available for graduate research work.

The Environmental Engineering Laboratory is equipped for experimental evaluation of unit processes and operations in water and wastewater treatment as well as analysis of all physical, chemical and microbiological water quality parameters. The experimental facilities include settling columns, suspended and attached growth biological reactors, computer-controlled bioreactor for kinetic studies, a bench scale UV chamber, a 12-gpm 15-foot bubble contactor for ozone studies complete with ozone generator, gas and liquid phase ozone residual monitors and off-gas destructor, a 1000-ft pipe loop system for water instability studies, and all conventional experimental devices used in determination of chemical dose requirements. An environmental chamber for temperature-controlled experiments is also available.

The analytical capabilities of the laboratory include gas chromatography-mass spectrometer with purge/trap, inductive-coupled plasma spectrometer (ICP) gas chromatograph with EC and FID detectors, total organic carbon analyzer, ion chromatograph, water quality autoanalyzer, UV-visible doublebeam spectrophotometer with stopped-flow device, and phase contrast/epifluorescence research microscope. Field monitoring equipment includes water quality monitors with multiple probes and fluorometers.

The Traffic/Transportation Engineering Laboratory has both personal computers and UNIX workstations with their peripherals to provide students opportunities to work with traffic and transportation software for course work and transportation research. The laboratory has a variety of software, including SOAP84, HCS, PASSER II-90, TRANSYT-7F, NETSIM, AAP, PRIMAVERA, AutoCAD, and software for GIS. The laboratory also contains basic equipment necessary to conduct traffic engineering studies such as traffic counters and measuring wheels.

The Highway and Airfield Laboratory offers facilities for investigating the properties of the basic materials and mixtures that comprise pavements. A variety of strength and stability equipment and other apparatus are available for determining rheological and physical properties and for experiments in designing and testing bituminous mixes. The additional facilities of the Soils and Materials Laboratories make possible the study of mineral aggregates and their blends, soil-stabilization phenomena, and mix-design and properties of Portland cement concrete. Other facilities in the Chemical Engineering Department's Materials Research Laboratory extend the capacity to conduct thermoanalytic studies on standard and composite materials.

## Computer Engineering

The Computer Engineering Program shares laboratory facilities in the Departments of Computer Science and Electrical Engineering.

## Computer Science

The Department of Computer Science has substantial computing facilities, including two student PC laboratories, large Linux labs, and specialized laboratories for computer architecture, image processing, network protocols, operating systems, and parallel programming. A computer vision lab is under construction. Wireless and high-speed Internet connections are provided. All labs are equipped with laser printers.

The Linux labs are equipped with state-of-the-art Dell workstations running Red Hat Enterprise Linux. These labs provide software for graphics, image processing, numerical computation and logic design, and a variety of programming languages (such as C/C++, Java, Fortran, Scheme, Assembly, Python and Perl). The labs also provide database development environments, such as Oracle and MySQL. The PC labs utilize the Microsoft Windows XP environment, and provide a wide range of software for both students and faculty. The Computer Architecture Lab is equipped with high-end IBM, Dell and Sun workstations. Students use VHDL to program reconfigurable boards supplied by Altera. The Operating Systems Lab is equipped with Sun Blade workstations.

The Image Processing Lab features dual-processor Dell workstations with high-end Nvidia Quadro 4 graphics boards, running Linux. The Network Protocol Lab is equipped with the latest networking devices, such as CISCO switches, routers, ATM switches and a network traffic simulator/analyzer. Also deployed are high-end Sun Ultra workstations and video capture capability for studying video multicasting. The Parallel Programming Lab provides a small Beowulf cluster based on Red Hat Enterprise Linux. This lab provides students and faculty with a prototyping environment for development and study of high performance computing.

## Earth System Science and Environmental Engineering

ESE students take advantage of teaching laboratory facilities in the respective departments where the laboratory course is offered. These include such facilities as the Hydraulic and Environmental Labs in the CE Department, EAS Department Geoscience and Analytical labs, etc. The Remote Sensing/GIS computer laboratory facility is open to ESE students for Remote Sensing and GIS courses as well as to conduct the Senior Design project, independent study, or research. Faculty participating in the ESE program also have state-of-the-art laboratories that are utilized for student research and design projects. These include the EE Department Optical Remote Sensing Lab, the CE Department Hydrology Lab, the NOAA CREST Satellite Receiving Facility, and the Chemistry and Analytical Labs in the CCNY Science Division. In addition to the NOAA CREST Satellite facility, the Center also operates an air sampling shed on campus, and a number of local and regional networks including lidar and radiometer networks, and the New York City Meteorological Network for air dispersion and micro-climate studies. Additional field work is supported through a number of research projects (from Navy, NOAA, NASA, etc.) and include coastal water studies, snow and ice studies, soil moisture studies, etc. at various locations nationally and internationally.

## Electrical Engineering

The undergraduate EE laboratory facilities comprise the core teaching laboratories, advanced senior level design laboratories and computer support facilities.

The computer-controlled core laboratories are designed to give students hands-on experience on both analog and digital electronic circuits and in measurement devices currently used to characterize circuits and systems. Data acquisition using LabVIEW computer control software with GPIB interfaced measurement equipment is used to give the students hands-on experience in the fundamentals in communications, computer and control engineering.

The two introductory core labs consist of laboratory stations (2 students per station) which have the following computer and measurement equipment: personal computers running both LabVIEW and Electronics Workbench (analog and digital circuit simulation software); a GPIB plug and play controller card; a data acquisition-generation board with 8 analog input lines and 2 analog output lines, 24 digital scope with GPIB storage module; a Hewlett Packard GPIB and RS-232 interfaced Digital Multimeter; a Hewlett Packard Triple Output Power Supply, a Hewlett Packard GPIB and RS-232 interfaced 15 MHz function generator.

The Analog Communications Laboratory uses the Lab-Volt Company's signal generators, receivers, noise generators, and spectrum analyzer for the analysis of the performance of AM, SSB, DSB, and FM communication systems.

The Computer Engineering Laboratory is designed to give students the capacity to perform high-level microcontroller programming and virtual emulation. The laboratory consists of 5 stations (2 people per station) each with: a PC; a Motorola Microcontroller Development System, a Motorola Emulator and specialized assembler software and C Cross compilers. In addition, the laboratory has a Hewlett Packard 16-channel logic analyzer and assorted electronics components for laboratory exploration.

The advanced design laboratories include Local Area Network (LAN), Photonics Engineering, and Advanced Electronics. The LAN laboratory consists of IBM Multimedia PC's, Protocol Analyzers and several network design and simulation packages such as OPNET and COMNET. In addition, two ATM switches (2.4 Gbps) and a CISCO Router are available.

The Control Engineering Laboratory uses the Feedback Inc. analog servo-fundamentals trainer, which consists of an analog unit and a mechanical unit. The mechanical unit has a servomotor with position and velocity sensors. The analog unit allows students to wire the servomotor in a closed loop configuration and independently vary the position and velocity feedback gains. The trainer is interfaced to a PC running LabView software to acquire and display signals on a virtual oscilloscope. The six stations are networked to a printer to allow students to print the virtual oscilloscope display.

The Photonics Laboratory is designed to give a variety of laboratory experiences in optics, lasers, spectroscopy and fiber optics. Equipment includes laser diodes, HeNe lasers, a white light source, a fiber optic spectro-radiometry system, single and multimode fibers, laser power meters and a variety of optical components.

The NASA Remote Sensing Computer Laboratory is designed to provide computer resources to students involved in environmental engineering and remote sensing.

The laboratory facilities are supported by significant computer resources which include the Department network comprising over 120 workstations.

## Mechanical Engineering

The Department of Mechanical Engineering provides separate laboratories for the study of aero-thermal-fluid engineering, manufacturing, material science, mechatronics, dynamics and controls, and CAD. A Senior Design Projects Fabrication and Test Laboratory and a machine shop serve the entire department. A personal computer center, open all day, is available for the convenience of students. In the Aero-Thermal-Fluid Laboratory, major experiments involve a refrigeration unit, a water turbine unit, a wind tunnel unit, an air pipe flow unit, a fin heat transfer unit, and a heat exchanger.

The Engineering Materials Laboratory includes extensive facilities for the preparation of specimens for metallographic examination using modern digital imaging analysis system, testing machinery for tension, compression, hardness, impact, fracture, fatigue, stress relaxation, and ultrasound characterization; equipment for heat treatment; as well as recording and projection devices.

The Mechatronics Laboratory teaches the use of various electromechanical devices, sensors and actuators. The devices include strain gauges, thermocouples, piezoelectric accelerometers, LVDT's, instruments for signal generation, filtering and amplification, stepper and DC servo motors, linear slides, and assorted electromechanical items (such as solenoids, relays, micro-switches, infrared proximity sensors, piezoelectric buzzers, strobe lights, fans, blowers, etc.). All these devices are controlled by PC-based data acquisition, microcontrollers, and programmable logic controllers (PLCs).

The Dynamics and Controls Laboratory contains equipment for dynamic balancing, vibration testing, and various feedback control units for rectilinear and torsional mechanical systems, level and flow, thermal and pressure systems and digital and analog servo-motor systems.

The Computer Aided Design Laboratory facility has twenty-six Dell OptiPlex 960 computers, a Dell PowerEdge 2500 server, two HP Color LaserJet 4700dn printers, an HP LaserJet P4015dn printer, and an LCD projector. The Department also has a Multimedia Learning Facility which includes twenty-six Dell Dimension PC's, document camera, LCD projector, and whiteboard as well as a Nuclear Computation Lab with twenty Dell OptiPlex 960 computers running PCTTRAN software. In addition, the Department maintains eighteen Sun UNIX workstations and fifteen Dell OptiPlex 9010 PC's in its manufacturing laboratory. These systems are equipped with mechanism design, mathematics, finite element, boundary element and computer-aided manufacturing software, including Solid Works, LS-DYNA, ABAQUS, MathCAD, MATLAB, Mathematica, FLUENT; and NASTRAN-4D.

A modern Computer-Aided Manufacturing (CAM) Laboratory facility contains four CNC machining centers and a computer-integrated manufacturing (CIM) system, 3-D printer, together with industrial grade robots: two articulate arm types and one SCARA.

Somewhat more specialized laboratories, established to facilitate advanced experimental research work, provide specific concentrations of apparatus and equipment to allow the study of various phenomena in such fields as solid mechanics, composites, turbomachinery, environmental and fluid sciences, aero-sciences, and micro/nano manufacturing.

The machine shop is well equipped for fabricating and maintaining all experimental facilities, both undergraduate and research.

## Research

In recent years, several million dollars in grants per year have been awarded to City College Grove School of Engineering faculty for conducting research projects that have attracted international attention. These faculty members are an integral part of the undergraduate teaching team. The grant agencies include NSF, NASA, ONR, U.S. Army, AFOSR, EPA, USDOT, NYCDOT, DOE, ARPA, and NIH. City College is also connected to ARPANET.

A brief sampling of the ongoing research activities follows.

In the area of Electrical Engineering: digital slow-scan video, packet voice video systems, spread spectra, semiconductors, integrated circuits, digital signal processing, image processing, material characterization, digital optical computing, machine vision, identification and control, microwave engineering, parallel processing, knowledge-based engineering, robotics, computer communications, and local area networks.

In Biomedical Engineering: cardiovascular engineering, including fluid and mass transfer aspects of arterial disease and microcirculatory heat and mass transfer; neural engineering, including analysis of nervous system function at multiple levels (single channel, single cell, tissue, whole animal, and human cognitive levels) and development of stimulation protocols to treat brain disorders; musculoskeletal biomechanics, including understanding the mechanism of musculoskeletal maintenance and adaptation and characterization of bone properties using ultrasound; and tissue engineering, including use of micro- and nanotechnology along with cell and molecular biology to address issues related to disease progression (cancer metastasis), development of replacement tissues, and high throughput assessment of cell death mechanisms.

In the area of Chemical Engineering: turbulence, low Reynolds number hydrodynamics, two- and three-phase bubble flow in capillaries, arterial fluid flow, cholesterol metabolism models, drug release polymers, tissue engineering, fluidized and trickle beds, coal liquefaction, conversion catalysis and hydrolysis, low-temperature electromagnetic properties of semiconductors and coal chars, extraction with mixtures of critical solvents, dynamic process simulation systems, dynamic modeling and control of FCC, coal gasification, municipal waste incineration and power generation systems, control of complex processing systems.

In the area of Computer Science: computer graphics, image processing, multimedia, virtual reality, computational geometry, mathematics of computation, cryptography, artificial intelligence, neural networks, mathematical fluid dynamics and simulation, networks, distributed computing, information management and virtual organization, economics of information, and social issues in computing.

In the area of Mechanical Engineering: fracture mechanics and crack propagation, composite materials characterization and ultrasound microscopy, random vibrations, turbomachinery, aerodynamic turbulence, gas dynamics and shock waves, aerostructures, climate change, MEMS, smart materials and moving phase change boundaries.

In the area of Civil Engineering: earthquake effects of structures and soil/structure interaction, fracture mechanics, creep effects in concrete, probabilistic methods in structural design, seepage of pollutants through soil/water systems, solid waste disposal, modeling and simulation in travel demand forecasting, value capture financing techniques in transportation, highway maintenance systems and load analysis for highways.

## Institutes and Centers

### Institute for Biomedical Engineering

The Institute is a uniquely integrated endeavor dedicated to providing students with access to a diverse faculty, unique research opportunities, and encouragement to pursue graduate studies in biomedical engineering. It is part of the New York Center for Biomedical Engineering, NYCBE, a consortium of researchers in the Grove School of Engineering at City College, Albert Einstein College of Medicine, the Cardiovascular Research Foundation, Columbia College of Physicians and Surgeons, the Hospital

for Special Surgery/Weill Medical College of Cornell University, Mount Sinai School of Medicine, and Memorial Sloan-Kettering Cancer Center. Since its founding in 1994, faculty and staff from more than a dozen health care institutions in the New York area have either taught courses in the center or have served as research advisors for student projects.

### **Benjamin Levich Institute for Physicochemical Hydrodynamics**

The Benjamin Levich Institute is an internationally recognized research center for the study of fundamental problems of flow and transport in complex fluid, fluid-like media and interface systems. Faculty members participating in the Institute are from Chemical Engineering, Mechanical Engineering, and Physics. With the Institute's excellent laboratory and computational facilities, their current scope of research is in five major areas: granular flows, low Reynolds number hydrodynamics, non-Newtonian fluid mechanics, computational fluid mechanics, and transport along interfaces.

### **Institute for Municipal Waste Research**

The principal objective of the Institute is to mobilize the excellent intellectual resources of the CUNY faculty to assist in solving the urgent problem of effective, economical, and efficient disposal of municipal waste in New York City. The research program entails development of innovative technologies to treat municipal wastewaters in order to safeguard the quality of the surrounding natural waters and new disinfection methods that will protect the quality of drinking water. The Institute's research is funded in part by New York City and State agencies.

### **Institute for Ultrafast Spectroscopy and Lasers (IUSL)**

The IUSL is a multidisciplinary research laboratory devoted to conducting basic and applied research in the frontiers of photonic science and technology; to help develop a skilled workforce for academic and industrial sectors by providing unique educational and training opportunities for students and scholars; to provide a core for major photonic initiatives, as well as to identify and participate in the development of emerging technology areas. Faculty members, researchers and students from the Physics, Electrical Engineering, Earth and Atmospheric Sciences Departments of CCNY, and visiting scholars from abroad participate in various IUSL research projects.

### **CUNY Environmental Crossroads Initiative**

Created in 2008, the CUNY Environmental Crossroads Initiative is an internationally recognized research center dedicated to the analysis of strategic local, regional, and global environmental challenges. As climate change and environmental problems gain a new sense of urgency around the globe, the collaboration of experts from various disciplines is the key to managing such diverse challenges as coping with climate extremes, feeding a population that continues to grow, establishing energy security while preserving ecosystem services and biodiversity, protecting human health, and sustaining economic development. For more information visit: <http://environment.asrc.cuny.edu/>.

### **CUNY Institute for Transportation Systems**

The CUNY Institute for Transportation Systems has been established at The City College in cooperation with other units of the City University of New York. The mission of the Institute is to carry out interdisciplinary research on all modes of transportation and to train transportation professionals.

### **CUNY Institute for Urban Systems (CIUS)**

CIUS is a multi-campus CUNY institute that investigates urban infrastructure using the themes of new technology, infrastructure, institutions and finance. The Institute combines engineering and social science research in addressing major problems of urban areas.

### **Center for Advanced Engineering Design and Development (CAEDD)**

The primary mission of CAEDD is to conduct, coordinate, and promote design-oriented, applied research and development for industry. It also encourages and fosters interdisciplinary engineering design and manufacturing education by the academic departments in the School of Engineering. CAEDD is an interdepartmental unit which transfers faculty research and expertise in the Grove School of Engineering into advanced technology needed in industry. It also serves as an outreach and referral service for small and large industrial firms seeking assistance with technical problems.

### **CUNY Energy Institute**

The Energy Institute was formed in 2008 to consider new approaches to large scale energy production and storage. It serves and comprises of researchers from all campuses of the City University of New York, with a mission to create, evaluate, and provide a seed for the implementation of advanced energy technologies. These technologies would provide low cost, sustainable energy solutions tailored for the various environs that make up New York State, from preserving the serenity of the Adirondack region to meeting challenges of powering New York City. The Energy Institute takes a comprehensive approach to this problem, combining fundamental studies of emission-free energy production and energy storage through new materials and mechanisms.

### **NOAA-Cooperative Remote Sensing Science and Technology Center (NOAA-CREST)**

CUNY Remote Sensing of the Earth (CREST) Institute is a CUNY wide institute dedicated to conducting cutting edge research and education in monitoring and predicting the environmental condition of the Earth and help in protecting the Earth's eco-system. NOAA CREST Center is housed within the CUNY CREST Institute. Established in 2001, the NOAA-CREST Center is led by the City University of New York and brings together Hampton University, University of Puerto Rico at Mayaguez, Bowie State University, University of Maryland Baltimore County, and Columbia University and industrial partners like Raytheon & Northrop Grumman. The CREST vision is to contribute to the development of a world-class cadre of faculty, students, and researchers that will gain knowledge and expertise in cutting-edge research in science, engineering, and technology with special emphasis on satellites and remote sensing of the Earth. For more information visit: <http://crest.cuny.cuny.edu/>.

### **International Center for Environmental Resources and Development (ICERD)**

This Center was established to bring together multidisciplinary teams of scientists and engineers to help tackle the diverse problems of water resources and environmental issues. It focuses on water resources and environmental research; air and water pollution crisis management; remote sensing and global change impact; environmental technology; and research, education and training programs.

### **University Transportation Research Center (UTRC)**

UTRC is a federally supported center that conducts research, training and technology transfer on issues of surface transportation, including road systems, public transportation and multi-modal systems. It is a consortium of twelve major universities, with the lead at CCNY.

## Center for Algorithms and Interactive Scientific Software (CAISS)

CAISS is a research center where mathematicians and computer scientists come together to collaborate on different projects. It grew out of work on a graphically driven, easy to use, software package called MAGNUS, designed to answer questions about and to carry out experiments with finitely presented groups. This work has led to the development of a general platform, which can house a host of zero learning curve software packages. The first of these packages, one for statistics called Caiss-Stat, is now nearing completion. This is only one of the many projects being undertaken by CAISS which include continued work on MAGNUS, new cryptographic protocols to ensure electronic security, work on a universal password, all of which make use of the complexity of finitely presented groups. In addition, CAISS is developing new games or puzzles, based on group theory. CAISS also manages the New York Group Theory Cooperative, which organizes the NY Group Theory Seminar at the Graduate Center. The facilities of CAISS include a 132 node Beowulf cluster, which is being used for work in computational biology and group theory and a small computer lab equipped with CAISS developed software.

## Center for Water Resources and Environmental Research

The Center for Water Resources and Environmental Research (CWRER) was established in 1993 in order to meet the needs for interdisciplinary study and education in the area of the natural resources, waste, and environment. The Center's main objectives are: to conduct multi-disciplinary research on protection of the environment and minimization of pollution hazards to the water resources, hydrological, and ecological systems; to develop and demonstrate new technologies for the treatment and disposal of natural water supplies and wastewater; to cooperate on the global scale to protect the precious resources that sustain human life; to educate and train personnel for management, supervision, and operation of environmental and water resources management systems. For more information visit: <http://crest.cuny.cuny.edu/>.

## Honors, Awards, and Professional Societies

---

### Awards and Prizes

Awards and prizes presented by the Grove School of Engineering are listed below. For detailed information on these and on other award opportunities, contact Assistant Dean Rawlins Beharry, 212-650-8040, Chair of the Honors and Awards Committee.

Association of Old Crows Award  
Engineering Alumni Awards  
Engineering SEEK Scholars Award  
Engineering Student Support Award  
Theodore Charros Scholarship  
GEM Fellowships  
Donald Griff Scholarships  
Grove Foundation Scholarship  
Paul A. Karmel Memorial Award in Electrical Engineering  
Rose Lederman Scholarship  
Sam and Clara Linder Scholarship  
Patell Memorial Award in Chemical Engineering  
Pope, Evans, and Robbins Scholarships  
Judith Resnick Award  
Society of Military Engineers (SAME) Scholarship  
David B. Steinman Awards

### Honor Societies

Tau Beta Pi is the United States Engineering Honor Society. Seniors and juniors in the top fifth and top eighth of their respective classes are eligible for election under rigorous standards of scholarship, character, leadership, and service to the School. Honor societies for individual disciplines have chapters in most of our Engineering departments.

Eta Kappa Nu is the national electrical engineering honor society, which has for its purpose the reward and stimulation of high scholarship and professional achievement. Outstanding senior and junior students are eligible for membership; election is based on unimpeachable character and undoubted ability, as evidenced by scholarship.

Chi Epsilon is the national civil engineering honor society. Juniors and seniors in the top third of their respective classes are eligible for membership; election is also based on character, practicality, and sociability.

Omega Chi Epsilon is the national chemical engineering honor society. Membership is limited to students who have completed a substantial number of chemical engineering credits and have demonstrated a high level of scholastic achievement and excellent character.

Golden Key International Honor Society is an academic honors organization recognizing scholastic achievement and excellence in all undergraduate fields of study.

### Professional Societies and Organizations

Student chapters of the following societies have been formed: American Society of Civil Engineers (ASCE), American Institute of Chemical Engineers (AIChE), American Society of Mechanical Engineers (ASME), Biomedical Engineering Society (BMES), Institute of Electrical and Electronic Engineers (IEEE), Society of Automotive Engineers (SAE), Society of Manufacturing Engineers (SME), American Society of Heating, Refrigeration, and Air-conditioning Engineers (ASHRAE), American Institute of Aeronautics and Astronautics (AIAA), and Association for Computing Machinery (ACM). Broad-based engineering organizations on campus include the National Society of Black Engineers (NSBE), Latin American Engineering Student Association-Society of Hispanic Professional Engineers (LAESA-SHPE), Society of Women Engineers (SWE), and Korean-American Scientists and Engineers Association (KSEA). During each semester, lectures are delivered before these societies by prominent professionals; students are also encouraged to present their own papers. In addition to these professional and technical societies, the Grove School of Engineering sponsors a Concrete Canoe Club, open to all Grove students. For more information of these engineering student organizations, contact Assistant Dean Rawlins Beharry, 212-650-8040, Chair of the Engineering Students Council of Presidents and Leaders.

National engineering societies offer students substantial competitive awards for papers, oral and poster presentations, and design competitions on certain specified topics. Other competitive awards for research are offered to graduates by these societies.

## The CUNY School of Medicine

---

Carmen Renee Green, Dean • HR Suite 107 • Tel: 212-650-5275

## Programs and Objectives

The CUNY School of Medicine (CSOM) is built on the legacy of the Sophie Davis Biomedical Education Program which began in 1973. Recently, the New York State Department of Education authorized the City College of New York to grant the MD degree making CSOM the only public medical school in the CUNY System. Its mission remains to serve the under-served and to address the national shortage of primary care physicians in this country. There is an urgent need for more family practitioners, general internists, pediatricians and obstetrician/gynecologists and physician assistants in many communities. The shortage of African-American, His-panic, and others underrepresented medical professionals in inner city areas is particularly acute.

The CSOM offers one of the most unique physician training programs in the nation. It recruits more underrepresented populations into medicine, increases medical services in under-served areas, and increases the availability of primary care physicians and physician assistants.

Additional information on the CUNY School of Medicine’s mission, vision, policies, program curricula and more, can be found on the school’s web-site at <https://medicine.cuny.edu/>

# Military Science - Army Senior Reserve Officers' Training Corps

Professor of Military Science LTC Matthew D. Pride • Office: MR 016A • Tel: 212-650-6478 [ROTC@cuny.edu](mailto:ROTC@cuny.edu)

## Programs and Objectives

Through its Military Science courses the Army Senior Reserve Officers' Training Corps program complements most academic programs. ROTC seeks to educate and equip leaders with to become critical thinkers, communicators and planners. Military Science courses teach leadership as a deliberate, continuous, sequential and progressive process to develop confident, competent, and adaptive leaders with a basic understanding of military decision-making. The ROTC program consists of eight 3-credit courses of Military Science taken in sequence, and a course in military history. The program seeks to commission Cadets as 2nd Lieutenants upon graduation.

## Requirements for Admissions

Army ROTC Basic Course sequence (Military Science [MSCI 10100](#), [MSCI 10200](#); [MSCI 20100](#), [MSCI 20200](#), the first 12 credits) are open to all students; no ROTC or military service commitment is required. Military Science courses are taught at CCNY and York College. Students from across CUNY can register through e-permit. Military Science courses are general electives that count towards full-time status with regard to academic load and financial aid.

Army ROTC Advanced Course sequence (Military Science [MSCI 30100](#), [MSCI 30200](#); [MSCI 40100](#), [MSCI 40200](#), totaling 12 credits) are restricted to eligible students who have contracted with the Army as ROTC Cadets. Cadets enrolled in the Advanced Course will have successfully completed the Basic Course or its equivalent. Contracted Cadets are effectively in the U.S. Army Reserve (ROTC) at the rank of Cadet and will commission into the U.S. Army as 2nd Lieutenants upon graduation. Contracted Cadets are required to attend ROTC training events and physical training. Earning a contract is a competitive process. Please see Contracting into ROTC and Army military service obligation below.

## Program Requirements

### Military Science Basic Course

Open to all CUNY students.

MSCI 10100	Introduction to Leadership I	3
MSCI 10200	Introduction to Leadership II	3
MSCI 20100	Foundations of Leadership I	3
MSCI 20200	Foundations of Leadership II	3

No military commitment is required. Participation in field trips and Leadership Labs are optional and encouraged. Attending Physical Training is encouraged.

### Military Science Advanced Course is restricted to contracted Cadets.

MSCI 30100	Adaptive Team Leadership I	3
MSCI 30200	Adaptive Team Leadership II	3
MSCI 40100	Adaptive Leadership I	3
MSCI 40200	Adaptive Leadership II	3

The minimum standards to be considered for contracting include:

- minimum GPA of 2.0 for non-scholarship Cadet
- minimum GPA of 2.5 for scholarship consideration
- ability to pass an Army Physical Fitness assessment test based on Cadet Command's guidance in order to contract
- academic alignment to complete the ROTC program and graduate college at the same time\*
- U.S. citizenship

\*Students who completed Junior ROTC in high school, have prior military service, or are in the Reserves or National Guard have options to waive some or all of the Basic Course. It is very difficult for a student without military service to join and complete the ROTC program with only two years of college remaining.

Contracting is a competitive process; and meeting only the minimum standards above does not guarantee that a contract will be offered. The Professor of Military Science and Senior Military Instructor will interview and assess all candidates to select those best qualified for service. Please see Contracting into ROTC below.

## Contracting into ROTC

All service obligations are 8 years, but are broken down according to what options you choose. There are three forms of service:

1. Active duty (a competitive process). Active duty means you are a full-time soldier. You work 5 days a week (sometimes more, sometimes less). Active duty soldiers live on or near a military base.

2. National Guard or Reserves. This is part-time. One weekend each month and two weeks out of the summer you will assemble with your unit and train. The rest of the time, you are a civilian. The vast majority of American companies have programs to accommodate service requirements of the National Guard and Reserves.
3. Inactive Ready Reserve(IRR). The IRR is the backfill and emergency force for the nation. While you are in the IRR you do not train at all, you do not have to report to anyone, but in the event of a major need for soldiers, you may be recalled to service.

A Cadet who earns Active duty, without a scholarship, will owe 3 years Active and 5 years in the IRR.

A Cadet who earns Active duty with a scholarship will owe 4 years Active and 4 IRR.

A Cadet who chooses Reserve duty will owe 6 years as a Reservist or National Guardsman, and 2 years IRR.

## General Education Requirements (Pathways)

---

In order to graduate, all students are required to complete the following:

1. General Education Requirements
2. Major-field courses
3. Free-elective courses

### General Education Requirements (Pathways)

All students entering City College, whether as freshmen or transfers, in Fall 2013 and later must meet Pathways General Education requirements to qualify for a degree.

Pathways General Education Requirements at City College consist of:

#### I. The Common Core (30 credits)

##### A. Required (Fixed) Common Core (12 credits / 4 courses)

1. English Composition (2 courses)  
English Composition 1  
English Composition 2
2. Mathematical and Quantitative Reasoning (1 course)
3. Life and Physical Sciences (1 course)

##### B. Flexible Common Core (18 credits / 6 courses)

Students will complete at least one course in each of the five Flexible Core areas and an additional sixth course in one of them. Students can complete no more than two courses from any one discipline or interdisciplinary field.

Flexible core areas are:

1. World Cultures and Global Issues
2. U.S. Experience in Its Diversity
3. Creative Expression
4. Individual and Society
5. Scientific World

Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution as appropriate.

#### II. Additional City College Requirements (College Option, 12 credits)

These requirements vary depending on the degree being pursued. See [section 1.B.](#) for more details. Transfer students need to take 6 to 12 College Option credits depending on how many credits they have at the time of transfer. See [section 1.C.](#) for more details.

## General Education Requirements (Pathways) for CLAS Students

---

## Bachelor of Arts (B.A.)

### I. Common Core

<b>Fixed Core</b>	<b>(12 crs )</b>
Engl Comp 1	3 crs
Engl Comp 2	3 crs
Math	3 crs
Life & Physical Sciences	3 crs
<b>Flexible Core</b>	<b>(18 crs )</b>
World Cultures & Global Issues: 2 courses:	
i) Literature ii) Global History & Culture	6 crs
U.S. Experience in its Diversity	3 crs
Creative Expression	3 crs
Individual & Society	3 crs
Scientific World	3 crs

### II. Additional City College Requirements (12 crs) (College Option)

Foreign Language	9 crs or demonstrated proficiency*
Philosophy	3 crs**

\*There are several ways to fulfill the language requirement: four years of the same foreign language in high school; exemption via placement exam; or AP exam/IB equivalencies. Check with your academic advisor and the Department of Classical and Modern Languages and Literatures' section in this bulletin.

\*\*Students are advised to complete this requirement after having completed 30 credits and before having completed 60.

## Bachelor of Fine Arts (B.F.A.)

### I. Common Core

<b>Fixed Core</b>	<b>(12 crs )</b>
Engl Comp 1	3 crs
Engl Comp 2	3 crs
Math	3 crs
Life & Physical Sciences	3 crs
<b>Flexible Core</b>	<b>(18 crs )</b>
World Cultures & Global Issues: 2 courses:	
i) Literature ii) Global History & Culture	6 crs
U.S. Experience it its Diversity	3 crs
Creative Expression	3 crs
Individual & Society	3 crs
Scientific World	3 crs

### II. Additional City College Requirements (12 crs) (College Option)

Foreign Language	6 crs or demonstrated proficiency *
Philosophy	3 crs**
Speech	3 crs or demonstrated proficiency

\*There are several ways to fulfill the language requirement: two years of the same foreign language in high school; exemption via placement exam; or AP exam/IB equivalencies. Check with your academic advisor and the Department of Classical and Modern Languages and Literatures' section in this bulletin.

\*\*Students are advised to complete this requirement after having completed 30 credits and before having completed 60.

## Bachelor of Science (B.S.)

### I. Common Core

<b>Fixed Core</b>	<b>(12 crs)</b>
Engl Comp 1	3 crs
Engl Comp 2	3 crs
Math	4 crs
Life & Physical Sciences	3-4 crs
<b>Flexible Core</b>	<b>(18 crs)</b>
(Science students must take at least one course in each area. They must choose a second course in the flexible core area of their choice)	
World Cultures & Global Issues:	
Literature & Global History & Culture	3-6 crs
U.S. Experience in its Diversity	3-6 crs
Creative Expression	3-6 crs
Individual & Society	3-6 crs
Scientific World	3-8 crs

### II. Additional City College Requirements (12 crs)

Foreign Language	6 crs or demonstrated proficiency *
Philosophy	3 crs**
Speech	3 crs or demonstrated proficiency

\*There are several ways to fulfill the language requirement. Check with your academic advisor: Two years of the same foreign language in high school; exemption via placement exam; or AP exam/IB equivalencies. Check with your academic advisor and the Department of Classical and Modern Languages and Literatures' section in this bulletin.

\*\*Students are advised to complete this requirement after having completed 30 credits and before having completed 60.

Because many Common Core and College Option courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind, should consult specific departmental pages of this bulletin and meet with an advisor to see which choices will help them complete their degrees most efficiently.

Students in the Spitzer School of Architecture, CUNY School of Medicine, the Grove School of Engineering, the School of Education, the Center for Worker Education, The Macaulay Honors College at City College, and the City College Honors Program should consult the relevant pages of this bulletin and see an academic advisor for specific Pathways coursework requirements and recommendations.

## General Education Requirements (Pathways) for Transfer Students

All transfer students are required to complete the 30-credit Common Core through coursework at City College, another college, or some combination of these.

In addition, all associate's degree students, including A.A.S. students, who transfer to baccalaureate programs will be required to complete additional General Education coursework at City College as follows:

1. Students who transfer with 30 or fewer total credits from any college will be required to earn 12 credits from City College's additional General Education requirements.
2. Students without an associate's degree who transfer with more than 30 credits from any college will be required to earn 9 credits from City College's additional General Education requirements.
3. Students who transfer with an associate's degree from any college will be required to earn 6 credits from City College's additional General Education requirements called College Option.

## The Major

Undergraduate majors are offered throughout the College in approximately fifty fields. They prepare students for a variety of careers as well as for professional and graduate schools. Advisors assist students in making their initial choice of major and, on occasion, in reconsidering chosen fields of study. Every student must complete an approved major. Each department or program sets specific course requirements for its majors, which are outlined in the departmental listings in this Bulletin. Students should consult their advisor periodically for updates on major requirements. While some courses in the major may be completed at other accredited colleges, at least 60% of the major must be taken at City College.

## Free Electives

Free electives are those courses taken in addition to required courses to bring the total to the minimum number of credits required for graduation. Students use free electives to take additional work in the major, concentrate in a second field, or to explore particular interests. Students may take almost any course for which they have the prerequisites in the College of Liberal Arts and Science as a free elective, and they are encouraged to take advantage of the wide range of offerings in the professional schools and special programs at the College. The Professional Schools control their own class registrations and students should consult with the advisors in these schools to see if space is available and if they have the prerequisites for the courses in which they are interested. In many cases the focused training of both professional and technical

personnel will be too highly specialized for inclusion in a broad liberal arts curriculum. A major department may approve courses in the professional schools for a given student's major program. Only a maximum of 30 credits of free electives from the professional schools will be granted toward the CLAS degree requirements. In some cases, students may be able to transfer into CLAS fewer than 30 credits in order to fulfill New York State requirements:

B.A.: Total Credit Hours Required for Graduation: 120, at least 90 of which must be in the Liberal Arts and Sciences (RLA).

B.S.: Total Credit Hours Required for Graduation: 120, at least 60 of which must be in the Liberal Arts and Sciences (RLA).

BFA/BM: Total Credit Hours Required for Graduation: 120, at least 30 of which must be in the Liberal Arts and Sciences (RLA).

## Speech

Students who have a speech requirement may satisfy it either by passing a Speech Proficiency Test or by passing Speech SPCH 11100 or SPCH 00308. The test, given by appointment, should be taken in the freshman or sophomore year or upon transfer to the College, so that any necessary improvement can be accomplished before graduation.

## Pathways Common Core Courses

### English Composition (EC)

ART 21000	Writing About Art	3
ENGL 11000	Freshman Composition	3
ENGL 21001	Writing for the Humanities and Arts	3
ENGL 21002	Writing for the Social Sciences	3
ENGL 21003	Writing for the Sciences	3
ENGL 21007	Writing for Engineering	3
ENGL 25000	Intro Literary Study	3
FIQWS 10103	Composition for WCGI History & Culture	3
	AND	
FIQWS 10105	Composition for WCGI Literature	3
FIQWS 10108	Composition of Individual & Society	3
FIQWS 10111	Composition for Scientific World	3
FIQWS 10113	Composition for Creative Expression	3
FIQWS 10115	Composition for US Experience	3
FIQWS 10145	Composition for Philosophy	3
IAS 10000	Lit-Art & Hum Exp 1	4
IAS 10100	Lit-Art & Hum Exp 2	4
MUS 21000	Writing About Music	3

IAS 10000, IAS 10100: IAS students only

**Mathematical and Quantitative Reasoning (MQR)**

CSC 10800	Foundations of Data Science	3
ECO 20150	Principles of Statistics	4
ECO 29000	Principles of Statistics	4
FQUAN 10050	Freshman Quantitative Analysis	3
MATH 15000	Mathematics for the Contemporary World	3
MATH 17300	Introduction to Probability and Statistics	4
MATH 18000	Quantitative Reasoning	3
MATH 18500	Basic Ideas in Mathematics	3
MATH 19000	College Algebra and Trigonometry	3
MATH 19500	Precalculus	3

## Pathways General Education Requirements for Honors Program and Macaulay Honors College Students at City

**(See also Honors Programs)**

Honors Program students have the same Pathways General Education requirements as other students pursuing the same majors. They will satisfy their Pathways requirements, however, by taking the equivalent general education courses in Honors.

This will simultaneously satisfy requirements for Honors and their majors. For further guidance, please be sure to consult with your advisor in the Honors Center.

## Pathways Course Descriptions

You will find descriptions of most Pathways offerings in the course listings for the departments or programs where they are offered. Pathways course descriptions not included in a particular department or program are below:

### FIQWS: Freshman Inquiry Writing Seminar

FIQWS is a six-credit course taught by two instructors that combines a specific topic and an intensive writing seminar. In any semester, an exciting variety of FIQWS sections are offered. In the topic component of FIQWS, a student might explore a famous writer or artist, a particular school of philosophy, a scientific discovery or key historical event. In the writing component of FIQWS, an instructor will guide a student in writing essays and research papers concerning the subject of the seminar. Students who fail FIQWS should use Engl. 11000 to use the F policy on the writing portion of FIQWS.

3 credits of each 6 credit FIQWS are allocated to an area of the Flexible Core (topic section) and 3 credits are allocated toward the English Composition requirement (writing section). The Flexible Core variations are:

FIQWS 10003 – World Cultures and Global Issues (Cultural/Historical Emphasis) taken with FIQWS 10103 – English Composition

FIQWS 10005 – World Cultures and Global Issues (Literary) taken with FIQWS 10105 – English Composition

FIQWS 10008 – Individual and Society taken with FIQWS 10108 – English Composition

FIQWS 10011 – Scientific World taken with FIQWS 10111 – English Composition

FIQWS 10013 – Creative Expression taken with FIQWS 10113 – English Composition

FIQWS 10015 – US Experience in its Diversity taken with FIQWS 10115 – English Composition

FIQWS 10045 – Philosophy, College Option taken with FIQWS 10145 – English Composition

### FQUAN: Freshman Quantitative Analysis

3 credit course that fulfills the basic quantitative requirement for CLAS students, but is usually taught in a department other than Math. It can examine the data and trends surrounding a specific issue, or look at quantitative applications in other fields such as a science, psychology, sociology, etc. FQUANS may be offered as smaller thematic courses or as large lectures that break down into recitation sections.

#### SCI 10001: Man and Nature: Life (Honors)

For students in the City College Honors Program and the Macaulay Honors College. An exploration of the biological basis of life on earth and the impact of man's activities on its quality and continued survival. Those enrolled will participate in a seminar designed to permit in-depth examination of important issues related to the course content. 3 lect., 2 rec./lab hr./wk.; 4 cr.

#### SCI 10101: The Physical Universe (Honors)

For students in the City College Honors Program and the Macaulay Honors College. A broad exposure to the physical sciences with heavy stress on the scientific method of inquiry and investigation. The basic principles of physics and chemistry; application to some phenomena of astronomy, geosciences, chemistry and physics. 3 lect., 2 rec./lab hr./wk.; 4 cr.

#### USSO 10100: Development of the U.S. and its People

Analysis of how a powerful nation-state evolved from a tiny offshoot of European colonial expansion. Elucidates major forces that have shaped the modern world: religion, land policies, technology, industrial capitalism, democracy, nationalism, socialism, racism, sexism, and imperialism. 3 hr./wk.; 3 cr.

#### USSO 10101: Development of the U.S. and its People (Honors)

For students in the City College Honors Program and the Macaulay Honors College. An alternative version of the introductory course designed to provide more student participation and writing. 3 cr.

#### WCIV 10100: Prehistory to 1500 A.D.

An examination of the civilizations of Asia, Africa, Europe and the Americas through a comparative study of selected places and themes. The dynamics of hunter/gatherer, pastoral and agrarian societies, urbanization, trade, imperialism, slavery, feudalism, the centralization of the state, religion and secular thought are among the topics discussed. 3 hr./wk.; 3 cr.

#### WCIV 10101: World Civilizations (Honors)

For students in the City College Honors Program and the Macaulay Honors College. A trans-cultural, geographically and regionally balanced study of specific themes found in both WCIV 10100 and WCIV 10200 courses. Emphasis on a theoretical perspective of the topics and their significance today. 3 hr./wk.; 3 cr.

#### WCIV 10200: 1500 A.D. to the Present

A study of the major forces that have shaped the modern world of Asia, Africa, Europe and the Americas. Selected themes include the interaction of the Western and non-Western world, the scientific revolution, capitalism, imperialism, industrialization, economic growth and stagnation, revolutions, counter-revolutions, modern political ideologies, the global crisis of the 20th century and emerging global interdependence. 3 hr./wk.; 3 cr.

#### WHUM 10100: World Humanities I

An introduction to world literature and its relationship to the traditions and societies from which it springs. Study of major works from antiquity to the seventeenth century. 3 cr.

#### WHUM 10101: Literature in the Human Experience (Honors)

For students in the City College Honors Program and the Macaulay Honors College. Defines what literature is and determines its relationship to human existence. The various types of literature and the role of form and structure in the meaning of the whole. Literature as a mirror of the variety and continuity of human experience. Extensive reading and individualized writing assignments. 3 hr./wk.; 3 cr.

#### WHUM 10200: World Humanities II

An introduction to world literature and its relationship to the traditions and societies which it springs. Study of major works from the eighteenth century to the contemporary period. 3hr./wk.; 3 cr.

### **WHUM 10201: World Humanities II (Honors)**

For students in the City College Honors Program and the Macaulay Honors College.

### **WHUM 10312: Modern World Literature**

Modern World Literature

### **WHUM 10321: Modern World Literature (Global English Literature, Honors)**

An enhanced version of WHUM 10312 for students in the Honors Program. A study of modern world literature through the works of contemporary Anglophone writers from Asia, Africa, the Caribbean, and Australia. Topics include the condition of post-colonialism as well as the more recent globalization of English and thus the globalization of literature in English.

### **PHIL 11250: Scientia: the Unity of Knowledge**

Is knowledge one type of thing, or a number of different things? Does it make sense to integrate scientific, mathematical, humanistic and artistic knowledge? If so, how do we do that while respecting the distinctive contributions of each field? We will explore what knowledge is and how we make sense of it.

### **PHIL 34905: Title: Biomedical Ethics**

Biomedical Ethics is a philosophical overview of leading theories, principles, and problems in the field of bioethics. Ethical theories and principles are examined to provide a theoretical structure for analysis of concrete ethical problems. The course considers the ethics of the doctor-patient relationship, including paternalism, informed consent, confidentiality, and truth telling, as well as larger systemic issues of social justice and access to health care. Topics in reproductive ethics, end-of-life ethics, and some of the newest developments in the field arising from genetics and neuroscience are also discussed. Extensive use is made of case studies.

### **MED 10000: Introduction to Drug Abuse**

Description: In this freshman undergraduate core course on drug abuse and addiction, the emphasis is to be on a broad acquaintance with the principles and systems involved in drug addiction and the mechanisms by which these issues may be ameliorated. The subject matter is sufficiently broad to elicit interest in undergraduate students, yet provides enough information, regarding the various major categories of abused substances, that a student interested in further pursuit of studies in this field will have a solid base upon which to build. This course will be particularly useful for students interested in physiological or clinical psychology and those considering careers such as medicine, law, education, public policy, law enforcement, social work, as well as to those who seek to learn about the impact of drug addiction on the individual and society. The course will define addiction and other terms used to describe drug abuse. It will address why individuals abuse drugs, consider the interactions between drug taking behavior of individuals with social and legal values of the community and the consequences of chemical dependency and treatment options. It will also explore the neurobiological and pharmacological basis for the actions of major drugs of abuse, animal models useful in understanding the basis of action of these drugs, and will address future directions in the field. The classes will be team-taught by a sociologist, an anthropologist and neuropharmacologists.

### **EAS 10000: The Dynamic Earth**

Basic concepts of geology. The materials, structures, and surface features of the earth, and the processes which have produced them. 3. hr./wk.; 3 cr.

## **Department of SEEK Counseling and Student Support Services/The Percy Ellis Sutton SEEK Program**

Sherri L. Rings, Associate Professor and, Chair/Director • Department Office: NA 5/226 • Tel: 212-650-5774

### **Programs and Objectives**

The Department administers the Percy Ellis Sutton SEEK (Search for Education, Elevation, and Knowledge) Program. Funded by New York State and available at each of the CUNY senior colleges, SEEK is a higher education opportunity program that provides a comprehensive array of services to promote and support the successful academic achievement of qualifying students. The major SEEK services consist of counseling, supplemental academic support, and additional financial assistance.

### **Admissions**

To qualify for admission to City College through SEEK, students must be New York State residents and meet specific income and academic criteria. The academic requirements vary among the college's different divisions and schools. Students are eligible for the SEEK Program only as first-time freshmen or as transfer students from another New York State higher educational opportunity program (i.e. CD, EOP, or HEOP).

Students who are interested in applying for the SEEK Program should complete the appropriate section of the CUNY Freshman application (or Transfer application). For further details regarding admission criteria and procedures, contact the City College Admissions Office.

### **Program Requirements**

To help prepare new students for college, all incoming SEEK freshmen are required to attend the summer program, which consists of academic workshops and a college orientation workshop. In their first and second semesters, Program freshmen are enrolled in the department's mandatory New Student Seminar, a semester-long college development course. Once enrolled, SEEK students must meet the college's general education requirements and those of their specific majors to earn a degree.

### **Counseling**

Extensive counseling is a major component of the Program's services and an important complement to instruction. Each student is assigned a counselor at the beginning of the first semester and continues to receive counseling support until graduation. Counselors work with students individually and in small groups. They address a broad range of issues that impact student success including personal and social concerns, academic planning, study strategies, career selection, and financial management. SEEK counselors also teach the department's New Student Seminar and conduct a variety of personal development workshops. They also consult with faculty and staff in other departments to develop special initiatives designed to improve student success.

### **Tutoring and Supplemental Instruction**

A range of tutorial and academic support services are offered to SEEK students through the program's Peer Academic Learning (PAL) Center. Specially-trained peer tutors and graduate students provide one-on-one tutoring in most subject areas and for a wide variety of specific courses. Tutor-facilitated study groups, skills workshops, supplemental instruction, and preview workshops are all offered to augment in-class instruction and enhance student learning. The SEEK Computer Lab, staffed by knowledgeable computer technicians and equipped with state-of-the-art hardware and software, is also available to Program students.

## Financial Aid

SEEK students typically are eligible for additional financial assistance in the form of a book stipend, college fees, and additional semesters of tuition support through Tuition Assistance Program (TAP). The amount of assistance provided is based on need, as determined by financial aid income guidelines.

## Departmental Activities

Each year the SEEK department holds several student events. The major ones are the SEEK Awards Program and Salute to Graduating Seniors, the New Student Assembly, Transfer Students' workshops, Chi Alpha Epsilon National Honor Society induction, and the SEEK Scholars reception. In addition, the SEEK Club, which is open to all Program students, sponsors a variety of activities throughout the academic year.

## Departmental Awards

Several awards are presented annually, including the top three departmental awards: Outstanding SEEK Graduate of the Year, Outstanding Scholastic Achievement, and the Exemplary Freshman of the Year. Students may be nominated for an award by any SEEK faculty or staff member, and selections are made by the SEEK Awards Committee.

## Faculty/Staff

Debra Kennedy, Lecturer

*B.S., Hunter College; M.A., New York Univ.*

Marie C. Nazon, Lecturer and Acting Program Director

# Student Support Services Program

**Dr. Elizabeth Thangaraj, PI/Program Director** Program Office: SSSP NA6/148 Tel 212-650-6825

The Student Support Services Program (SSSP) is funded by the US Department of Education, for low-income, first-generation and students with special needs, who are US citizens or permanent residents. The goal of the program is to provide those services that will improve student chances for success at CCNY. There are Six components to the Program: (1) Counseling (2) Tutoring, (3) Financial aid and Grant aid services, (4) Mentoring (5) Major Events and (6) Extra-curricular programs. The Program is listed on the CCNY website [www.ccnycunyu.edu/sssp](http://www.ccnycunyu.edu/sssp).

## Eligibility

**Freshmen, continuing and transfer** students who are in **any one or more** of the following groups are eligible for SSSP. Entering freshmen with low SAT scores, those from TRIO programs in middle or high school, transfer students who were members of special programs such as ASAP, EOP, SEEK, or SSSP in their prior college; students who are undecided about their majors or those in demanding disciplines needing counseling or tutoring to improve grades and academic standing. Students with GPA's below 2.5, and those moving from a STEM to a humanities or social science discipline, are placed on a waiting list for one year before being formally admitted to the program. Those interested, in enrolling in SSSP, complete an on-line application at the SSSP website.

## Counseling Academic Advising

Upon entering SSSP students connect with an individual counselor who provides personal, academic, and professional counseling for the duration of their college program. SSSP counselors support the rich development of their students' lives so they excel in their studies and are prepared for graduate and professional opportunities. The SSSP counselor initiates for the student an academic program plan which over the course of four years entails choosing a major and minor, course selection, registration problem-solving, tutor referrals, letters of recommendation, monitoring academic progress, financial aid counseling on eligibility requirements and factors that affect financial awards, career exploration, the graduate and professional program application process, connecting the student to CUNY services and resources, and encouraging students to apply for the prestigious Zitrin Scholarship, Zitrin Scholar & Mentor Tutor award, SSSP's Scholars Showcase research exhibit, Cultural diversity program, SSSP Grant Aid, and to become integral members of the program, its activities and services. The SSSP counselor commemorates this enduring relationship alongside the student at SSSP's May Awards celebration

## Tutoring

SSSP's Academic Resource Center (Marshak 1104) is a unique study space that offers students free specialized tutoring across the disciplines, a venue for student events, a computer lab and a reference library. One-on-one, scheduled tutoring is our mainstay, though we do accommodate drop-ins, set up group-tutoring sessions, create a platform for student activities, and produce the only remote writing review service on campus, SSSP E-Tutoring, which now offers reviews of resumes as well as essays. Our in-person

tutoring comprehends STEM subjects, social sciences, humanities and writing. Our basic tutoring model is a weekly, 50-minute session with the same tutor, who grows familiar with each student's learning process. In ARC training sessions, a guiding principle is "meeting the tutee half-way," which means avoiding a lecture format in which the tutor leads and the tutee passively accepts knowledge. Instead, tutees are encouraged to be active learners and tutors to see themselves not as instructors, but as learning coaches. ARC hosts the annual SSSP Scholars Showcase poster presentation every March. We have also hosted many exam review sessions, academic workshops and a 12-week creative writing seminar. As part of our collaboration with CCNY's Accessibility Office, ARC sponsors intensive tutoring programs for students with special learning challenges.

## Financial Aid and Grant Aid

Students have four avenues for receiving financial assistance at SSSP. (1) Through **Grant Aid** for those receiving PELL financial aid. Priority is given to students entering the program and those who have not received Grant aid in the past. (2) Students also serve as **paid tutors** (@ \$13/hr) and **Zitrin mentors** (\$250 for the semester); **Zitrin Peer Mentors/ Tutors** (\$500 per semester). (3) An alumni scholarship (**Zitrin Peer Mentoring and Tutoring**) of \$5,000 is offered to four students selected on the basis of academic excellence and community service. (4) Students are encouraged to use SSSP as site for **Federal Work Study**. A financial aid workshop is held to inform students of Federal and State financial aid policies and available loans and scholarships. A session on budgeting is also held for students

## Mentoring Program

The purpose of the program is to provide SSSP entering students contact with an upper division student at CCNY. It also ensures that all students are participating in the various services of the program. Mentors are trained by academic advisors/counselors who have received training through the CCNY Peer Mentor training Consortium.

## Events

SSSP holds three major events during the academic year.

The Cultural Diversity Program brings students together for an appreciation of culture through presentations on cultural topics by students of different backgrounds. Students are encouraged to present a topic in art, food, literature or music that they identify with. The **Faculty-led session** is led by a professor of Psychology and touches upon American culture and experience.

Scholar Showcase is a showcase of students research and academic projects across disciplines is held in March. Poster presentations of academic research in the field of social sciences, computer science, biology, chemistry, education and engineering are presented. Students are also encouraged to present a poster on a topic of interest, or a study abroad experience.

Annual Awards Ceremony The purpose of the awards ceremony is to recognize students for their achievements; to motivate students to strive for excellence; allowing student's time for reflection to see a broader picture of their progression and future education. It also serves to bring to surface outstanding students for the college community to become aware of and to provide further opportunities for accomplishments. CCNY divisions of Social Sciences, Science, and Engineering present divisional awards to outstanding SSSP students. Graduating seniors and students with outstanding records are recognized with trophies and medals. Tutors, Mentors, Federal Work Study students and Student aides receive certificates of appreciation for their contributions to the program.

## Extra Curricular Programs

Information and developmental workshops are held each week to help students be aware of academic and career opportunities. Workshops include: Career Development in collaboration with the Career and Professional Development Institute; Academic Policies and Program Planning; Study abroad information session and student presentations; Financial aid policies and academic eligibility requirements; Financial Literacy, Leadership Opportunities and Service Learning programs and Graduate schools and Professional School Programs.

### **The Gateway Academic Center (GAC)**

The GAC provides ongoing advising and mentoring; as well as an array of services to ensure that students establish themselves securely in The City College environment and determine a degree plan that reflects both their professional and personal goals. Freshmen, transfer and continuing students who have not yet declared a major; or who are working to fulfill eligibility requirements to apply to the professional school of their choice, receive advising in the Gateway Academic Center (GAC).

Each student is assigned to a GAC advisor with whom he or she meets at least once each semester to review academic progress and to discuss any other related concerns. The advisor mentors the student in his selection of coursework before the registration period and ensures that prerequisites have been met. The advisor's approval is required in order to register.

The GAC aims to provide its students with accurate and individualized advising, as well as to link them with all the resources the school has available to ensure their academic success.

## **Tutoring Services**

Many programs and departments in the College offer tutoring services to students. Information on the major tutoring programs is provided below. Students should ask their instructors or academic advisors about other services.

### **Biology Resource Center**

The Biology Resource Center, located in the Marshak Science building room 502, is a drop-in facility designed to allow students to supplement classroom and laboratory instruction individually or with study-groups. Computers offering access to the internet and software packages featuring practice problems, self-tests, models and slides are available for student use, as well as hardcopy textbooks.

### **Math Physics Tutoring Center**

The Math Physics Tutoring Center, located in MR-418S, is staffed by tutors who are advanced undergraduate and recent graduate students. Drop-in tutoring services are available for Physics PHYS 20300, PHYS 20400, PHYS 20700 and PHYS 20800 and MATH 19000, MATH 19500, MATH 20100, MATH 20200, MATH 20300, MATH 20500, MATH 20900, and all 300 level courses.

### **City College Academy for Professional Preparation (CCAPP) Tutoring**

CCAPP offers tutoring in the following courses: BIO 10100, BIO 10200, BIO 20600, BIO 20700, BIO 22900, CHEM 10301, CHEM 10401, CHEM 26100, and CHEM 26300. Workshops for additional courses are offered based on student demand. Tutoring takes place in the CCAPP Student Center, MR-1005.

### **Language Tutoring**

The Department of Classical and Modern Languages (CMLL) and Literatures offers free tutoring to any student enrolled in courses who needs additional help. Tutors are advanced students who have been recommended by the faculty and who have been tested by our department. Tutoring takes place in our department on a regular basis. The schedule is posted outside the department office, NA 5/223. For information call Mrs. Nancy Gutierrez or Ms. Rosa Martínez 212.650.6731.

CMLL also houses the French and Spanish Writing Center, which is a free service intended to help all students taking any French or Spanish course with their writing in the target languages. For information, contact Prof. Regina Castro-McGowan 212.650.6731.

### **The Writing Center at The Samuel Rudin Academic Resource Center**

The City College Writing Center offers one-on-one assistance for students working on writing assignments and projects from any discipline. Visit us whenever you need someone to listen to your ideas, discuss your topics or assignments, and read your drafts. Writing consultants will work with you in person on planning, drafting, and revising – all of the important steps in your writing process.

## Special COVID-19 Flexible Grading Policy for the Spring 2020 Semester

As part of The City University of New York's response to the COVID-19 pandemic, during the Spring 2020 semester, all students shall have the option to convert any or all of the (A-F) letter grades they earn in their classes, to Credit/No Credit (CR/NC) grading.

1. During the Spring 2020 semester, all students shall have the option to convert any or all of the (A-F) letter grades, including plus or minus variations, they earn in their classes, to Credit/No Credit grading.
2. Students shall be able to make this decision up to 20 business days after the University's final grade submission deadline. Once selected, the Credit/No Credit option cannot be reversed.
3. If a student chooses to exercise this option, a passing letter grade (A, B, C, or D including +/-) will convert to 'CR' with credit for the class being awarded, while a failing grade (F) will convert to 'NC', with no credit awarded. Credit/No Credit grades will not impact the student's GPA.
4. Courses taken for a letter grade will continue to be included in the semester and general GPA, while courses taken for a Credit/Non-credit grade will be excluded, just as is the case with such courses taken at a student's home institution.
5. If a student exercises the option of Credit/No Credit, the Credit (CR) grade will not negatively impact the student's satisfactory progress toward degree completion.
6. Students with Credit/No Credit grades will be able to transfer those courses across colleges within CUNY, per current CUNY policy.
7. The Special COVID-19 Flexible Grading Policy shall apply to coursework completed on Permit and will not affect Board of Trustees Policy 1.14 – Policy on Coursework Completed on Permit.
8. Students placed on academic probation by their institution at the start of the Spring 2020 semester shall not be penalized with academic dismissal based upon their grades earned this semester.
9. The Special COVID-19 Flexible Grading Policy shall not affect the University standards of student retention and progress in accordance with Board of Trustees Policy 1.26.
10. Before choosing this grading option for one or more of their classes, students shall consult with their academic and financial aid advisors regarding potential impact to their financial aid, licensure requirements, and graduate school admissions.
11. The Special COVID-19 Flexible Grading Policy shall supersede and override all undergraduate and graduate program-level grading policies currently in effect at CUNY colleges and schools, including those related to required and elective courses within the major, minor, general education (Pathways), pre-requisite courses, honors courses, courses taken on permit and maximum number of credits that a student can earn with Credit/No Credit grades.
12. The grade glossary, attached to each transcript, will be updated to include a notation denoting that all Spring 2020 grades, including CR or NC, were earned during a major disruption to instruction as a result of the COVID-19 pandemic.
13. The Special COVID-19 Flexible Grading Policy shall apply to all CUNY colleges and schools, except the School of Law and the School of Medicine, which may develop their own Pass/Fail policies, subject to approval of the Board of Trustees, to conform to norms in legal and medical education.
14. The Special COVID-19 Flexible Grading Policy, which shall be effective April 1, 2020, applies to the Spring 2020 semester only and that the Chancellor, may, in his discretion, to meet public health emergency policies and practices, extend this policy to future semesters, if necessary and report such extension to the Board of Trustees immediately.
15. The Special COVID-19 Flexible Grading Policy shall be codified in the Manual of General Policy as Policy 1.4. and cannot be overwritten by any individual units of the University, including presidents, provosts, or college councils.
16. The policy will remain in effect for the Spring 2020 semester and will be reviewed by the Chancellor and extended as necessary to meet public health emergency policies and practices.

## Academic Integrity Policy

Academic dishonesty is prohibited in The City University of New York. Penalties for academic dishonesty include academic sanctions, such as failing or otherwise reduced grades, and/or disciplinary sanctions, including suspension or expulsion.

1. Definitions and Examples of Academic Dishonesty.

**1.1 Cheating** is the unauthorized use or attempted use of material, information, notes, study aids, devices or communication during an academic exercise. Example of cheating include:

- Copying from another student during an examination or allowing another to copy your work.
- Unauthorized collaboration on a take home assignment or examination.
- Using notes during a closed book examination.
- Taking an examination for another student, or asking or allowing another student to take an examination for you.
- Changing a graded exam and returning it for more credit.
- Submitting substantial portions of the same paper to more than one course without consulting with each instructor.
- Preparing answers or writing notes in a blue book (exam booklet) before an examination.
- Allowing others to research and write assigned papers or do assigned projects, including using commercial term paper services.
- Giving assistance to acts of academic misconduct/ dishonesty.
  
- Fabricating data (in whole or in part).
- Falsifying data (in whole or in part).
- Submitting someone else's work as your own.
- Unauthorized use during an examination of any electronic devices such as cell phones, computers or other technologies to retrieve or send information.

**1.2 Plagiarism** is the act of presenting another person's ideas, research or writing as your own. Examples of plagiarism include:

- Copying another person's actual words or images without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

- Internet plagiarism, including submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, or “cutting & pasting” from various sources without proper attribution.

**1.3. Obtaining Unfair Advantage** is any action taken by a student that gives that student an unfair advantage in his/her academic work over another student, or an action taken by a student through which a student attempts to gain an unfair advantage in his or her academic work over another student. Examples of obtaining unfair advantage include:

- Stealing, reproducing, circulating or otherwise gaining advance access to examination materials.
- Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.
- Retaining, using or circulating examination materials which clearly indicate that they should be returned at the end of the exam.

Intentionally obstructing or interfering with another student’s work

#### **1.4. Falsification of Records and Official Documents**

Examples of falsification include:

- Forging signatures of authorization.
- Falsifying information on an official academic record.
- Falsifying information on an official document such as a grade report, letter of permission, drop/add form, ID card or other college document

## **2. Methods for Promoting Academic Integrity**

**2.1.** Packets containing a copy of the CUNY Policy on Academic Integrity and, if applicable, the college’s procedures implementing the Policy, and information explaining the Policy and procedures shall be distributed to all current faculty and, on an annual basis to all new faculty (full and part time). These packets also shall be posted on each college’s website. Orientation sessions for all new faculty (full and part time) and students shall incorporate a discussion of academic integrity.

**2.2.** All college catalogs, student handbooks, faculty handbooks, and college websites shall include the CUNY Policy on Academic Integrity and, if applicable, college procedures implementing the policy and the consequences of not adhering to the Policy.

**2.3.** Each college shall subscribe to an electronic plagiarism detection service and shall notify students of the fact that such a service is available for use by the faculty. Colleges shall encourage faculty members to use such services and to inform students of their use of such services.

## **3. Reporting**

**3.1.** Each college’s president shall appoint an Academic Integrity Officer in consultation with the elected faculty governance leader. The Academic Integrity Officer shall serve as the initial contact person with faculty members when they report incidents of suspected academic dishonesty. The Academic Integrity Officer may be the college’s Student Conduct Officer, another student affairs official, an academic affairs official, or a tenured faculty member. Additional duties of the Academic Integrity Officer are described in Sections 4.1., 4.2.1., 4.2.2., 4.3 and 4.4.

**3.2.** A faculty member who suspects that a student has committed a violation of the CUNY Academic Integrity Policy shall review with the student the facts and circumstances of the suspected violation whenever feasible. Thereafter, a faculty member who concludes that there has been an incident of academic dishonesty sufficient to affect the student’s final course grade shall report such incident on a Faculty Report Form in substantially the same format as the sample annexed to this Policy and shall submit the Form to the college’s Academic Integrity Officer. Each college shall use a uniform form throughout the college, which shall contain, at a minimum, the name of the instructor, the name of the student, the course name and number, the date of the incident, an explanation of the incident and the instructor’s contact information.

**3.3.** The Academic Integrity Officer shall update the Faculty Report Form after a suspected incident has been resolved to reflect that resolution. Unless the resolution exonerates the student, as described in Section 4.4, the Academic Integrity Officer of each college shall place the Form in a confidential academic integrity file created for each student alleged to have violated the Academic Integrity Policy and shall retain each Form for the purposes of identifying repeat offenders, gathering data, and assessing and reviewing policies. Unless they exonerate the student, written decisions on academic integrity matters after adjudication also shall be placed in the student’s academic integrity file. The Academic Integrity Officer shall be responsible for maintaining students’ academic integrity files.

## **4. Procedures for Imposition of Sanctions**

### **4.1. Determination on academic vs. disciplinary sanction.**

The Academic Integrity Officer shall determine whether to seek a disciplinary sanction in addition to an academic sanction. In making this determination, the Academic Integrity Officer shall consult with the faculty member who initiated the case and may consult with student affairs and/or academic affairs administrators as needed. Before determining which sanction(s) to seek, the Academic Integrity Officer also shall consult the student’s confidential academic integrity file, if any, to determine whether the student has been found to have previously committed a violation of the Academic Integrity Policy, the nature of the infraction, and the sanction imposed or action taken. Prior violations include both violations at the student’s current college and violations that occurred at any other CUNY college. In making the determination on prior violations, the Academic Integrity Officer shall determine whether the student previously attended any other CUNY college and, if so, shall request and be given access to the academic integrity file, if any, at such other CUNY college.

The Academic Integrity Officer should seek disciplinary sanctions only if (i) there is a substantial violation; (ii) the student has previously violated the Policy; or (iii) academic sanctions may not be imposed because the student has timely withdrawn from the applicable course. Examples of substantial violations include but are not limited to forging a grade form or a transcript; stealing an examination from a professor or a university office; having a substitute take an examination or taking an examination for someone else; having someone else write a paper for the student or writing a paper for another student; sabotaging another student’s work through actions that prevent or impede the other student from successfully completing an assignment; and violations committed by a graduate or professional student or a student who will seek professional licensure. The college also should consider any mitigating circumstances in making this determination.

### **4.2. Procedures in Cases Involving Only Academic Sanctions.**

#### **4.2.1. Student Admits to the Academic Dishonesty and Does Not Contest the Academic Sanction.**

If a faculty member wishes to seek only an academic sanction (i.e., a reduced grade) and the student does not contest either his/her guilt or the particular reduced grade the faculty member has chosen, then the student shall be given the reduced grade, unless the Academic Integrity Officer decides to seek a disciplinary sanction. The reduced grade may apply to the particular assignment as to which the violation occurred or to the course grade, at the faculty member’s discretion. A reduced grade may be an “F” or another grade that is lower than the grade that the student would have earned but for the violation. The faculty member shall inform the Academic Integrity Officer of the resolution via email and the Officer shall update the applicable Faculty Report Form to reflect that resolution.

#### **4.2.2 Student Admits to the Academic Dishonesty but Contests the Academic Sanction.**

In a case where a student admits to the alleged academic dishonesty but contests the particular academic sanction imposed, the student may appeal the academic sanction through the college's grade appeal process. The student shall be allowed, at a minimum, an opportunity to present a written position with supporting evidence. The committee reviewing the appeal shall issue a written decision explaining the justification for the academic sanction imposed.

#### 4.2.3. Student Denies the Academic Dishonesty

In a case where a student denies the academic dishonesty, a fact-finding determination shall be made, at each college's option, by an Academic Integrity Committee established by the College's governance body or by the Student-Faculty Disciplinary Committee established under Article XV of the CUNY Bylaws. Each college's Academic Integrity Committee shall adopt procedures for hearing cases. (If a college opts to use its Student-Faculty Disciplinary Committee for this purpose, that Committee shall use Article IX procedures.) These procedures, at a minimum, shall provide a student with (i) written notice of the charges against him or her; (ii) the right to appear before the Committee; and (iii) the right to present witness statements and/or to call witnesses. Those procedures also shall provide the faculty member with the right to make an appearance before the Committee. The Committee may request the testimony of any witness and may permit any such witness to be questioned by the student and by the administrator presenting the case. Academic Integrity Committees and Student-Faculty Disciplinary Committees, as applicable, shall issue written decisions and send copies of their decisions to the college's Academic Integrity Officer. The Academic Integrity Officer may not serve on a college's Academic Integrity Committee.

#### 4.3. Procedures in Cases Involving Disciplinary Sanctions.

If the college decides to seek a disciplinary sanction, the case shall be processed under Article XV of the CUNY Bylaws. If the case is not resolved through mediation under Article XV, it shall be heard by the college's Faculty-Student Disciplinary Committee.

If the college seeks to have both a disciplinary and an academic sanction imposed, the college shall proceed first with the disciplinary proceeding and await its outcome before addressing the academic sanction. The student's grade shall be held in abeyance by using the PEN grade established for this purpose, pending the Committee's action. If the Faculty-Student Disciplinary Committee finds that the alleged violation occurred, then the faculty member may reflect that finding in the student's grade. The student may appeal the finding in accordance with Article XV procedures and/or may appeal the grade imposed by the faculty member in accordance with section 4.2.2. If the Faculty-Student Disciplinary Committee finds that the alleged violation did not occur, then no sanction of any kind may be imposed.

Where a matter proceeds to the Faculty-Student Disciplinary Committee, the Academic Integrity Officer shall promptly report its resolution to the faculty member and file a record of the resolution in the student's confidential academic integrity file, unless, as explained below, the suspected violation was held to be unfounded.

#### 4.4. Required Action in Cases of No Violation

If either the Academic Integrity Committee or the Faculty- Student Disciplinary Committee finds that no violation occurred, the Academic Integrity Officer shall remove all material relating to that incident from the student's confidential academic integrity file and destroy the material.

#### 5. Implementation

Each college shall implement this Policy and may adopt its own more specific procedures to implement the Policy. Colleges' procedures must be consistent with the policy and procedures described in the Policy.

CUNY BOT adopted a revised "Policy on Academic Integrity" on June 27, 2011, which went into effect on July 1, 2011 (6.27.2011.Cal.5.L).

## Academic Integrity/Academic Standards

---

### Committees that Enforce Academic Standards

#### Undergraduate Committees on Course and Standing

The College of Liberal Arts and Science and each Professional School at City College has its own Committee on Course and Standing (CCS). Committees hear appeals on a range of issues including requests for grade changes, reinstatement, course substitution, and retroactive withdrawal. Students must present appeals in writing (see section on preparing appeals). Appeals are brought to the Chair of the CCS who is authorized to grant or deny appeals. When the chair considers that an appeal warrants further review, it is presented to the faculty committee. The CCS's decisions are final. [Click here for information on Academic Standards.](#)

#### The College-wide Academic Integrity Committee (AIC)

Within the school community one of the most serious offenses you can commit is to pass off someone else's intellectual work as your own. Therefore instances of Academic Dishonesty are taken very seriously. The AIC addresses faculty reports of student cheating, plagiarism, and any other form of Academic Dishonesty (for a full description see the [CUNY Policy on Academic Integrity](#)). Students who dispute an allegation of academic dishonesty in a course will be assigned the temporary grade of "PEN." This grade will be changed after the student has an opportunity to be heard, and a final decision on the situation is made by the AIC or the Director of Academic Standards. Each incident is judged based on the seriousness of the offense. If it is deemed appropriate for the student to be suspended or expelled, the case is referred to the Student Affairs Disciplinary Committee.

#### CCNY Academic Integrity Officer:

Richard Steinberg

#### CCNY Academic Integrity Committee Members:

**Chair:** Nadjwa Norton, School of Education

**Architecture:** Cesare Birignani

**CWE:** Justin Williams

## Academic Integrity Policy

---

Academic dishonesty is prohibited in The City University of New York. Penalties for academic dishonesty include academic sanctions, such as failing or otherwise reduced grades, and/or disciplinary sanctions, including suspension or expulsion.

1. Definitions and Examples of Academic Dishonesty.

1.1 **Cheating** is the unauthorized use or attempted use of material, information, notes, study aids, devices or communication during an academic exercise. Example of cheating include:

- Copying from another student during an examination or allowing another to copy your work.
- Unauthorized collaboration on a take home assignment or examination.
- Using notes during a closed book examination.
- Taking an examination for another student, or asking or allowing another student to take an examination for you.
- Changing a graded exam and returning it for more credit.
- Submitting substantial portions of the same paper to more than one course without consulting with each instructor.
- Preparing answers or writing notes in a blue book (exam booklet) before an examination.
- Allowing others to research and write assigned papers or do assigned projects, including using commercial term paper services.
- Giving assistance to acts of academic misconduct/ dishonesty.
  
- Fabricating data (in whole or in part).
- Falsifying data (in whole or in part).
- Submitting someone else's work as your own.
- Unauthorized use during an examination of any electronic devices such as cell phones, computers or other technologies to retrieve or send information.

1.2. **Plagiarism** is the act of presenting another person's ideas, research or writing as your own. Examples of plagiarism include:

- Copying another person's actual words or images without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.
- Internet plagiarism, including submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, or "cutting & pasting" from various sources without proper attribution.

1.3. **Obtaining Unfair Advantage** is any action taken by a student that gives that student an unfair advantage in his/her academic work over another student, or an action taken by a student through which a student attempts to gain an unfair advantage in his or her academic work over another student. Examples of obtaining unfair advantage include:

- Stealing, reproducing, circulating or otherwise gaining advance access to examination materials.
- Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.
- Retaining, using or circulating examination materials which clearly indicate that they should be returned at the end of the exam.

Intentionally obstructing or interfering with another student's work

1.4. **Falsification of Records and Official Documents**

Examples of falsification include:

- Forging signatures of authorization.
- Falsifying information on an official academic record.
- Falsifying information on an official document such as a grade report, letter of permission, drop/add form, ID card or other college document

2. Methods for Promoting Academic Integrity

2.1. Packets containing a copy of the CUNY Policy on Academic Integrity and, if applicable, the college's procedures implementing the Policy, and information explaining the Policy and procedures shall be distributed to all current faculty and, on an annual basis to all new faculty (full and part time). These packets also shall be posted on each college's website. Orientation sessions for all new faculty (full and part time) and students shall incorporate a discussion of academic integrity.

2.2. All college catalogs, student handbooks, faculty handbooks, and college websites shall include the CUNY Policy on Academic Integrity and, if applicable, college procedures implementing the policy and the consequences of not adhering to the Policy.

2.3. Each college shall subscribe to an electronic plagiarism detection service and shall notify students of the fact that such a service is available for use by the faculty. Colleges shall encourage faculty members to use such services and to inform students of their use of such services.

3. Reporting

3.1. Each college's president shall appoint an Academic Integrity Officer in consultation with the elected faculty governance leader. The Academic Integrity Officer shall serve as the initial contact person with faculty members when they report incidents of suspected academic dishonesty. The Academic Integrity Officer may be the college's Student Conduct Officer, another student affairs official, an academic affairs official, or a tenured faculty member. Additional duties of the Academic Integrity Officer are described in Sections 4.1., 4.2.1., 4.2.2., 4.3 and 4.4.

3.2. A faculty member who suspects that a student has committed a violation of the CUNY Academic Integrity Policy shall review with the student the facts and circumstances of the suspected violation whenever feasible. Thereafter, a faculty member who concludes that there has been an incident of academic dishonesty sufficient to affect the student's final course grade shall report such incident on a Faculty Report Form in substantially the same format as the sample annexed to this Policy and shall submit the Form to the college's Academic Integrity Officer. Each college shall use a uniform form throughout the college, which shall contain, at a minimum, the name of the instructor, the name of the student, the course name and number, the date of the incident, an explanation of the incident and the instructor's contact information.

3.3. The Academic Integrity Officer shall update the Faculty Report Form after a suspected incident has been resolved to reflect that resolution. Unless the resolution exonerates the student, as described in Section 4.4, the Academic Integrity Officer of each college shall place the Form in a confidential academic integrity file created for each student alleged to have violated the Academic Integrity Policy and shall retain each Form for the purposes of identifying repeat offenders, gathering data, and assessing and reviewing policies. Unless they exonerate the student, written decisions on academic integrity matters after adjudication also shall be placed in the student's academic integrity file. The Academic Integrity Officer shall be responsible for maintaining students' academic integrity files.

#### 4. Procedures for Imposition of Sanctions

##### 4.1. Determination on academic vs. disciplinary sanction.

The Academic Integrity Officer shall determine whether to seek a disciplinary sanction in addition to an academic sanction. In making this determination, the Academic Integrity Officer shall consult with the faculty member who initiated the case and may consult with student affairs and/or academic affairs administrators as needed. Before determining which sanction(s) to seek, the Academic Integrity Officer also shall consult the student's confidential academic integrity file, if any, to determine whether the student has been found to have previously committed a violation of the Academic Integrity Policy, the nature of the infraction, and the sanction imposed or action taken. Prior violations include both violations at the student's current college and violations that occurred at any other CUNY college. In making the determination on prior violations, the Academic Integrity Officer shall determine whether the student previously attended any other CUNY college and, if so, shall request and be given access to the academic integrity file, if any, at such other CUNY college.

The Academic Integrity Officer should seek disciplinary sanctions only if (i) there is a substantial violation; (ii) the student has previously violated the Policy; or (iii) academic sanctions may not be imposed because the student has timely withdrawn from the applicable course. Examples of substantial violations include but are not limited to forging a grade form or a transcript; stealing an examination from a professor or a university office; having a substitute take an examination or taking an examination for someone else; having someone else write a paper for the student or writing a paper for another student; sabotaging another student's work through actions that prevent or impede the other student from successfully completing an assignment; and violations committed by a graduate or professional student or a student who will seek professional licensure. The college also should consider any mitigating circumstances in making this determination.

##### 4.2. Procedures in Cases Involving Only Academic Sanctions.

###### 4.2.1. Student Admits to the Academic Dishonesty and Does Not Contest the Academic Sanction.

If a faculty member wishes to seek only an academic sanction (i.e., a reduced grade) and the student does not contest either his/her guilt or the particular reduced grade the faculty member has chosen, then the student shall be given the reduced grade, unless the Academic Integrity Officer decides to seek a disciplinary sanction. The reduced grade may apply to the particular assignment as to which the violation occurred or to the course grade, at the faculty member's discretion. A reduced grade may be an "F" or another grade that is lower than the grade that the student would have earned but for the violation. The faculty member shall inform the Academic Integrity Officer of the resolution via email and the Officer shall update the applicable Faculty Report Form to reflect that resolution.

###### 4.2.2 Student Admits to the Academic Dishonesty but Contests the Academic Sanction.

In a case where a student admits to the alleged academic dishonesty but contests the particular academic sanction imposed, the student may appeal the academic sanction through the college's grade appeal process. The student shall be allowed, at a minimum, an opportunity to present a written position with supporting evidence. The committee reviewing the appeal shall issue a written decision explaining the justification for the academic sanction imposed.

###### 4.2.3. Student Denies the Academic Dishonesty

In a case where a student denies the academic dishonesty, a fact-finding determination shall be made, at each college's option, by an Academic Integrity Committee established by the College's governance body or by the Student-Faculty Disciplinary Committee established under Article XV of the CUNY Bylaws. Each college's Academic Integrity Committee shall adopt procedures for hearing cases. (If a college opts to use its Student-Faculty Disciplinary Committee for this purpose, that Committee shall use Article IX procedures.) These procedures, at a minimum, shall provide a student with (i) written notice of the charges against him or her; (ii) the right to appear before the Committee; and (iii) the right to present witness statements and/or to call witnesses. Those procedures also shall provide the faculty member with the right to make an appearance before the Committee. The Committee may request the testimony of any witness and may permit any such witness to be questioned by the student and by the administrator presenting the case. Academic Integrity Committees and Student-Faculty Disciplinary Committees, as applicable, shall issue written decisions and send copies of their decisions to the college's Academic Integrity Officer. The Academic Integrity Officer may not serve on a college's Academic Integrity Committee.

##### 4.3. Procedures in Cases Involving Disciplinary Sanctions.

If the college decides to seek a disciplinary sanction, the case shall be processed under Article XV of the CUNY Bylaws. If the case is not resolved through mediation under Article XV, it shall be heard by the college's Faculty-Student Disciplinary Committee.

If the college seeks to have both a disciplinary and an academic sanction imposed, the college shall proceed first with the disciplinary proceeding and await its outcome before addressing the academic sanction. The student's grade shall be held in abeyance by using the PEN grade established for this purpose, pending the Committee's action. If the Faculty-Student Disciplinary Committee finds that the alleged violation occurred, then the faculty member may reflect that finding in the student's grade. The student may appeal the finding in accordance with Article XV procedures and/or may appeal the grade imposed by the faculty member in accordance with section 4.2.2. If the Faculty-Student Disciplinary Committee finds that the alleged violation did not occur, then no sanction of any kind may be imposed.

Where a matter proceeds to the Faculty-Student Disciplinary Committee, the Academic Integrity Officer shall promptly report its resolution to the faculty member and file a record of the resolution in the student's confidential academic integrity file, unless, as explained below, the suspected violation was held to be unfounded.

##### 4.4. Required Action in Cases of No Violation

If either the Academic Integrity Committee or the Faculty- Student Disciplinary Committee finds that no violation occurred, the Academic Integrity Officer shall remove all material relating to that incident from the student's confidential academic integrity file and destroy the material.

#### 5. Implementation

Each college shall implement this Policy and may adopt its own more specific procedures to implement the Policy. Colleges' procedures must be consistent with the policy and procedures described in the Policy.

CUNY BOT adopted a revised "Policy on Academic Integrity" on June 27, 2011, which went into effect on July 1, 2011 (6.27.2011.Cal.5.L).

## The Faculty Senate The City College of New York

Proposed: March 19, 2015

Adopted: March 19, 2015

Vote: Unanimously

## Resolution on Reform of the City College Academic Integrity Committee

**Whereas**, City College of New York (CCNY) is mandated by the City University of New York (CUNY) to have an Academic Integrity Committee to decide on cases of plagiarism, cheating, and other issues related to academic integrity;

**Whereas**, the existing structure of Academic Integrity Committee is no longer acceptable to CUNY Central in that the Chair of the Academic Integrity Committee cannot also be the Chair of a Committee on Course and Standards;

**Whereas**, the paperwork for this committee must be maintained in perpetuity;

**Whereas**, the Academic Integrity Committee is not mentioned in the College Governance plan,

**Therefore, we resolve** that the structure of the Committee should consist of a Chair appointed by the President in consultation with the Faculty Senate, plus eight additional members of faculty rank, each appointed by the Dean of their School or division for three year terms, and that these members should be ratified by the Faculty Senate Executive Committee. Members may be reappointed for additional terms. The initial appointees to this committee shall be assigned terms of different durations so that the committee, in the end, consists of members with staggered three-year terms.

**We further resolve** that the files of the Academic Integrity Committee will be maintained by the CLAS Academic Standards Office and that the Coordinator of Academic Standards shall serve as the Secretary of this Committee.

## Academic Appeals

The faculty of each of the Schools defines the degree requirements, academic standards, and rules, and in general has jurisdiction over all of the courses offered by that School. (For more information, please see the [Academic Standards](#) section of this Bulletin). Each of the Schools has a Committee on Course and Standing charged with oversight and enforcement of these matters and dealing with special cases and appeals. Students have the right to appeal to the appropriate Committee on Course and Standing any decision made by individual faculty members or administrators about these academic matters. Students must consult with their academic advisor for the appropriate appeals procedure. The Committee on Course and Standing is the final authority on enforcement of curriculum, degree requirements, academic standards, grades and academic rules.

### Grade Appeals

Students who wish to dispute their final grades in a course must first contact the instructor who will provide a breakdown of the calculation of the grade in writing. If the student is still not satisfied, he or she can appeal to the Chair of the department and must provide a copy of the instructor's response in their appeal. If the student is still not satisfied, they can then appeal to the Dean for their ruling. Finally, if the student is still not satisfied, then they can appeal to the appropriate Committee on Course and Standing. Copies of all of the previous rulings must be included in the appeal. Students should be aware that the Committee will not regrade their work, but at most will offer the student a W grade for the course if the appeal is approved.

### Academic Dismissal Appeals

Students who have been dismissed from City College after the Fall or Spring semester are notified by the City College Registrar by email. This notification includes a deadline for appeals of this decision.

Students who are being dismissed for the first time may appeal the dismissal directly to the principal advisor in the Divisions of Science and Humanities and Arts, the Colin Powell School or the Center for Worker Education, as appropriate. Students who have previously been reinstated must appeal to the [Office of Academic Standards](#).

Students in the Sophie Davis School of Biomedical Education, the School of Education, the Grove School of Engineering and the Bernard and Anne Spitzer School of Architecture may appeal to their school's Committee on Course and Standing.

## CCNY Contacts for Academic Standards Information by School/Division

You may see the following advisors for information on how to appeal dismissal. Please contact only your division/school/program. Others will not be able to help you.

### ARCHITECTURE

**Mr. Arnaldo Melendez**

**Admissions and Academic Advisor**

Spitzer School of Architecture Room 132

(212) 650-7307

amelendez@ccny.cuny.edu

### CENTER FOR WORKER EDUCATION

**Jason Chapell**

**Advisor/Admissions Coordinator, Dean of InterDisc Studies**

Phone - 2129256625 / Ext. 236 Fax - 2129250963

Location - 25 BROADWAY

jchappell@ccny.cuny.edu

### COLIN POWELL

**Dean Kevin Foster**

NAC Room 6/141

(212) 650-6201

kfoster@ccny.cuny.edu

**Mr. Garri Rivkin**

**Program Director, Academic Support**

Shepard Hall Room 548  
(212) 650-5848  
grivkin@ccny.cuny.edu

## EDUCATION

**Ms. Stacia Pusey**  
**Assistant Dean SOE Enrollment & Student Services**  
NAC Room 223A  
(212) 650-5345  
spusey@ccny.cuny.edu

## ENGINEERING

**Mr. Rawlins Beharry**  
**Assistant Dean for Undergraduate Affairs**  
Steinman Hall Room 2M-7  
(212) 650-8040  
osd@ccny.cuny.edu

## HUMANITIES AND THE ARTS

**Ms. Melissa Oden**  
**Director of Undergraduate Student Advising**  
NAC Room 5/225  
(212) 650-7379  
moden@ccny.cuny.edu

## SCIENCE

**Dr. Millicent Roth, Professor**  
**Deputy Dean of Science for Undergraduates**  
Marshak Room 108  
(212) 650-6768  
mroth@ccny.cuny.edu

## SOPHIE DAVIS / CUNY SCHOOL OF MEDICINE

**Dr. Dani McBeth**  
**Associate Medical Professor and Associate Dean for Student Affairs**  
Harris Hall Room 113  
(212) 650-7727 / 8485  
dmcbeth@med.cuny.edu

## UNDECLARED FIRST-YEAR FRESHMEN

**New Student Experience Center (NSEC)**  
Marshak Hall  
Room 053  
(212) 650-8290  
nsec@ccny.cuny.edu

## UNDECLARED CONTINUING AND TRANSFER STUDENTS

**Gateway Academic Center**  
North Academic Center  
Room 1/220  
(212) 650-6115  
gac@ccny.cuny.edu

# Majors, Minors, Concentrations and Dual Degrees

---

To declare or change an academic plan, sub-plan or minor, students can submit the request electronically to the Office of the Registrar. By going to the following link <https://www.ccny.cuny.edu/registrar/request-forms>, the student will be able to initiate a request via i-Declare by logging into their MyCity page. This electronic form will be routed to faculty and/or advisor for approval. It is highly recommended that the student submit the electronic form 3 business days prior to the deadline published in the Academic Calendar for processing. Plan declarations and changes processed after this date will be effective for the subsequent semester.

### The Academic Plan (Major)

All students must complete the requirements of their approved major in order to obtain a degree. Each department or program sets specific course requirements for its academic plans. These requirements are outlined in the departmental listings in this Bulletin; students should consult with an appropriate advisor before declaring a major. Students must declare an academic plan, including a subplan (concentration), if needed, upon completion of 60 credits or risk losing eligibility for NYS financial aid.

## Dual Academic Plans (Majors)

Students who wish to major in two fields should file a Declaration of Plan, Subplan and Concentration form, which must be approved by the appropriate department advisors and by the divisional dean(s). The requirements of both declared academic plans must be completed. Students wishing to complete two academic plans should discuss it at an early stage of their college career with an advisor in each of the two departments. No more than three courses may be credited to both academic plans

## Dual Degrees

If a student wishes to obtain two separate degrees across different degree types such as a BS or BA, the student should declare the first major and complete those requirements. The student should then apply for admission as a second degree student. Ninety credits from the first degree will be counted toward the second degree. To obtain the second degree, an additional 30 credits and the requirements for the second major **must** be completed.

## Minors

A number of departments offer a minor; which is a program of study of approximately 15 credits which can be taken in conjunction with the major. It should be noted that all degree candidates must have a major. The minor however is optional. Students declaring a minor in College of Liberal Arts and Sciences can have only one course overlap between the CLAS major and minor courses unless otherwise specified by the department or program of the minor.

## Subplan (Concentrations)

Some academic plans require students to choose among subplans (concentrations) offered for the degree. Students should follow the courses recommended by their advisor to ensure that they complete the appropriate subplan. Students should include the subplan on the Declaration of Plan and Subplan Form when they file for a plan (major).

# Academic Standards

Students are expected to maintain minimum G.P.A. requirements both overall and in major courses; not to withdraw from twelve credits during any two consecutive academic years; and pass all required courses in sequence. All new students-whether or not they are Math-proficient-are required to take the CUNY Assessment Test in Mathematics (Math 3). Test results will be used to place student in the appropriate Mathematics course. ESL and SEEK students should consult with their advisors regarding compliance with these requirements.

## Academic Warning, Probation and Dismissal

Students who fail to meet the College's academic standards listed below are placed on probation, a warning that unless academic performance improves the student will be subject to dismissal. A student is placed on academic probation when he or she fails to achieve the required standards whether or not notification has been received from the College. Students must make satisfactory progress toward the degree. They should be aware that poor academic performance threatens their financial aid and scholarship eligibility. During this probationary period, students who make satisfactory academic progress will continue to maintain their academic standing in the College but may lose their eligibility for financial aid.

Total Credits Attempted	Minimum Cumulative G.P.A.
0-12	1.5
13-24	1.75
25 and over	2.0

Academic standards are enforced by each School's Committee on Course and Standing, which acts through a dean or director. The Committee may restrict the number of courses for which a student can register, require that a student take certain courses, or prohibit a student from taking certain courses.

Students who have been placed on probation will not be permitted to participate in intercollegiate athletics; serve as officers of student government; serve as editor of a student newspaper; serve as manager, producer or editor of a student radio or TV facility; or take part (in a principal role) in a College-sponsored theater, dance, music or film production unless doing so as part of a specific College course.

Students who fail to achieve the above academic averages while on probation will be dismissed from the College.

The professional schools may have additional or modified academic standards; students enrolled in the professional schools are advised to consult their advisors and appropriate sections of this *Bulletin*.

## Appeals

Students may appeal an academic warning, probation or dismissal decisions by writing to the Committee on Course and Standing of the School in which they are enrolled. Please see the [Academic Appeals](#) page for more information.

## ESL Dismissal

CUNY policy stipulates that all senior college students may not repeat an ESL course more than once after September 1996. ESL students have four (4) semesters to pass the CUNY reading and writing proficiency tests.

# Application for Graduation

Degrees are conferred four times each year: January, February, May/June and September. Candidates who are eligible for graduation must file an Application for Degree Form online by the specified deadline. Candidates who do not comply with deadlines will not graduate on time. Please consult the academic calendar published online for the application deadlines.

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student: To obtain a Bachelor of Arts degree, students must have a minimum of ninety (90) credits in courses that are classified as Liberal Arts & Sciences courses. For a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Architecture, Bachelor of Fine Arts, Bachelor of Engineering and Bachelor of Music degrees, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Auditing

---

Students wishing to audit a course must select audit at the time of registration. Auditors must register using the Audit Form and pay the required tuition and fees. No credit or grade will be given for audited classes. Auditor status cannot be changed to credit status after the closing date of the change of program period. Likewise, credit status cannot be changed to auditor status after the change of program period. The Audit Form can be either accessed online through the following link <https://www.cuny.cuny.edu/registrar/request-forms> or it may be picked up at the Office of the Registrar, in the Wille Administration Building, Room A-102.

## College of Liberal Arts and Science 10-Year Forgiveness Policy

---

A CCNY undergraduate student who applies for re-entry to the college after an absence of at least 10 years is eligible to make use of the CCNY Forgiveness Policy. The student may apply to the CLAS Committee on Course and Standards for re-entry with forgiveness of prior grades, and if approved, will be granted re-entry and placed on probation until they have completed 12-24 consecutive credits with a cumulative G.P.A. of 2.0 or better. Once this condition is met, the Committee on Course and Standing will review their record and convert just enough of the old failing and D grades to W in order to raise the overall GPA and the GPA in their major to 2.0. In removing grades preference will be given to grades no longer in use at the College, e.g. FAB and WF and administrative failing grades, e.g. WU and FIN. The student must maintain a 2.0 in both their major and overall in order to be eligible for graduation. If the student fails to meet the conditions of probation, the student will be subject to final academic dismissal. A student whose transcript has been treated in this manner will not be eligible for Latin Honors.

## College of Liberal Arts and Science - First and Second Semester Grading

---

All grades of F submitted by an instructor for first- and second-semester freshmen in selected College of Liberal Arts and Science (CLAS) courses determined by each department will be converted to NC by the Registrar. An NC will count towards determining the number of limited repeats students are allowed for each course. The grade of WU will remain on the student's record. If a grade of INC is not resolved, it will convert to FIN, and remain on the student's record. Note that English 11000 and the Pathways English Composition portion of FIQWS are not eligible for this policy.

For the purpose of the conversion of an earned F to the NC grade, a first-semester freshman is defined as a student who is:

- a full-time student in his or her first semester at City College with fewer than 12 credits from any institution of higher learning; AP and College Now credits do not count in this tally. For first-time fall semester entrants who attended the Summer Session immediately preceding their entry, an NC will cover all F grades submitted by an instructor both for that Summer Session and the immediately following Fall semester. Early College students with 12 or less credits will also be considered first-semester freshmen; or
- a part-time student in which his or her first 12 credits are attempted at City College, and who has fewer than 12 credits from any institution of higher learning; AP and College Now credits do not count in this tally. A second semester freshmen for this policy is defined as: a full-time or part-time student who has completed at least 12 credits of courses at City College, but has less than 24 completed credits at City College.

Students should be aware that a freshman must earn at least 6 credits in the first semester with an overall GPA of 1.5 and at least 15 credits by the end of the second semester with an overall GPA of 1.8 or their financial aid may be affected.

## First and Second Semester Grading List

<b>Courses</b>		
<b>Course Number</b>	<b>Course Title</b>	<b>Credits</b>

Hist 20601: Honors

Updated on 9/5/2024, Since the original link was broken

## Course Loads for Full-Time Students

An average student program consists of twelve to fifteen credits. Students who are not on academic probation may take as many as eighteen credits. Students who wish to take more than eighteen credits must request permission from the dean of the school or division. Permission is granted only to students with outstanding records who have compelling reasons for making the request.

Students on probation must limit their programs to twelve credits or less if required by their program. Many forms of financial aid are contingent on full-time student attendance. Ordinarily, a student must register for at least twelve credits to be full-time. Students receiving financial aid should verify their full-time status with the Financial Aid Office, particularly when changing majors.

## Course Numbering

As a general rule, course numbers reflect the level of difficulty of the course content. For a variety of reasons, some course numbers may not adhere to the description below. If in doubt about the level of a particular course, consult a departmental advisor.

10000-19900:	introductory courses for lower division students
20000-29900:	beginning major courses intended for sophomores and juniors
30000-39900:	first level upper division courses; intermediate major courses
40000-49900:	advanced undergraduate courses intended for juniors and seniors
50000-59900:	advanced undergraduate courses

## Graduate Course Numbering

All graduate courses will contain a letter either before or after the course number.

Exception: Spitzer School of Architecture – Graduate courses are numbered 60000 and above.

## Cross-listing of Undergraduate Courses Among Departments and Programs

Courses may be assigned two numbers in two different departments or programs in order to foster interdisciplinary study only upon approval of the Chairs and/or relevant Curriculum Committees of the program. Cross-listed courses must be at the same course level (unless approved by the Dean). No special topics courses may be cross-listed unless a course description has been filed with the Office of Scheduling and Workload.

## Dean's List

Full-time students are eligible for the Dean's List in any Fall or Spring term in which they have completed a minimum of 12 credits, provided they have achieved a grade point average (GPA) of 3.5 or higher for coursework for that semester, and received no incomplete grades.

Part-time students are eligible for the Dean's List in the Spring semester in the Academic Year in which they have completed a minimum of 12 credits, provided they have achieved a grade point average (GPA) of 3.5 or higher for coursework for that Academic Year, and received no incomplete grades.

For the purposes of this policy, Academic Year is defined to include only the Fall and Spring semesters.

Eligibility for the "Dean's List" shall be computed only once per relevant term; eligibility shall not be re-calculated in the event of a subsequent change in a grade, except in the event of a successful appeal to the Chair of Course and Standing.

Students are placed on the Dean's List for a particular year if they meet the following criteria:

1. A 3.5 grade point average.
2. Completed a minimum of 12 credits at City College.

## Degree Progress-Online Advisement

DegreeWorks is an easy-to-use software application that gives students access to their degree progress via the web on the CUNY Portal. It allows a student to view the courses required to complete the general education requirements, major and degree. Courses required for minors and concentrations also appear in DegreeWorks. A student can also conduct "What-If" audits to see the courses required to change the major.

## Drop/Withdrawal from Courses

**During the Change of Program period** which is the first week of classes, students may make program changes. Students are now able to drop a course online until the last day of the term (this will be a withdrawal from the course). The student can drop the course(s) online until the end of the third week of classes. There will be a transaction fee applied if a student adds or drops the course(s) once the semester begins; please refer to [www.cuny.edu/bursar](http://www.cuny.edu/bursar) for fee information. Refer to the academic calendar posted on the College's website ([www.cuny.edu](http://www.cuny.edu)) for pertinent dates. The Add/Drop form is only required when special permission is required. The form must be signed by an academic advisor and returned to the Registrar's Office.

**After the Change of Program period**, and prior to the tenth week of classes, students may officially drop courses using CUNY First. Some divisions require that students obtain advisement before dropping a course. A grade of "WN" is assigned by the Instructor to students who never attended and did not officially withdraw. Students should be aware that dropping a course may affect their financial aid. All students receiving aid should consult with the Financial Aid office before dropping. The grade of "W" is assigned only when the student has officially withdrawn from the course.

*Note: A student who withdraws from 12 credits or more within two academic years may be placed on academic warning; a student who drops 18 or more credits will be subject to dismissal. Dropping courses may cause a student to become ineligible for financial aid.*

## "F" Repeat Policy

The "F" Repeat Policy only applies to courses taken after 1990. The number of failing credits that can be deleted from the G.P.A. shall be limited to sixteen for the duration of the student's undergraduate enrollment in institutions of the University. If the second grade is C or higher (C- does not qualify) the original grade of "F" will not be used in the calculation of the G.P.A. (although the course and grade remain on the record). The revised G.P.A. will be used for academic progress and graduation minimum standards. However, the "F" grades apply to graduation honors and can affect other requirements for progress in the major. The implementation of the "F" Repeat Policy varies in some of the Professional Schools.

## Grade Point Average (G.P.A.)

A student's overall academic performance is measured by calculating the grade point average (G.P.A.). This average is found by using grades from each course on the student's record except those that have one of the following grades assigned: P, INC, W, WA, WN, PEN, AUD, NC.

Each grade received is assigned a numerical value called Quality Points, as described in the Grading System Chart. The number of Quality Points multiplied by the number of credits the course carries is the total for the course. The G.P.A. is found by adding these totals and dividing this amount by the total number of credits attempted.

## Grading System and Glossary

Grade	Explanation	Quality Points
A+	Exceptional	4.00
A	Excellent	4.00
A-		3.70
B+		3.30
B	Good	3.00
B-		2.70
C+		2.30
C	Satisfactory	2.00
C-		1.70
D	Passing	1.00
F	Failure/Unsuccessful completion	0.00
P	Pass	--
W	Withdrew	--
WA	Administrative withdrawal-applied to registered students lacking proof of immunization	--
WN	Never attended	--
WU	Withdrew unofficially (student attended at least one class)	--
INC	Incomplete	--
FIN	F due to incomplete	0.00
PEN	Grade pending-usually used for issues of academic integrity	--
Y	Year or longer course of study	--
AUD	Auditor	--
NC	No Credit	--

## Incomplete (INC) Grades

The grade of "INC" is given by the instructor in consultation with the student, with the following guidelines:

1. when the student has been doing passing work and the instructor believes the student can successfully complete the requirements of the course no later than the last day of the eighth week of the following semester, or its equivalent in calendar time, exclusive of Summer Session. The student must provide an acceptable and documented reason for not completing the course on time.
2. when a student has been absent from the final exam and a make-up exam is scheduled no later than the last day of the eighth week of the following semester, or its equivalent in calendar time, exclusive of Summer Session. Students must pay the make-up exam fee to the Bursar before taking the make-up exam. Extensions may be granted only by the Committee on Course and Standing of the School offering the course.
3. temporary grade awarded when the disposition of the final grade requires further evaluation for reasons other than the Procedures for Imposition of Sanctions related to the Board's Academic Integrity Policy.

When applying for an "INC" grade, an Incomplete Agreement Form may be required by the instructor and/or the department. The instructor may insist that the student obtain the permission of the Committee on Course and Standing (of the School offering the course) to complete the course.

The Registrar's Office will change the temporary grade of "INC" to failure "FIN" by the tenth week of the following semester unless the instructor has submitted a passing grade.

## Pass/No Credit Option

Students in the professional schools, except for the School of Education, may not take courses on a pass/no credit basis, even if the courses are being taken as free electives. Students in the College of Liberal Arts and Science and in the School of Education may take certain courses on a pass/no credit basis, subject to the following restrictions:

1. The student may only elect up to twelve (12) credits of Pass/NC Courses (in addition to courses officially graded as Pass/NC).
2. The student must have completed at least 28 credits.
3. A student may take only one course per semester on a Pass/No Credit basis.
4. Required courses in the academic plan (major) and minor may not be taken for Pass/No Credit. Courses in the Pathways English composition I and II cannot be taken for Pass/No Credit.
5. The deadline for students to apply for P/NC option is listed in the academic calendar, which can be found at the following link: <https://www.cuny.cuny.edu/registrar/academic-calendar>.

\*Eligibility for some financial aid grants may be affected by use of "P/NC" grades. Students are responsible for checking if this applies to them before the Pass/No Credit option is taken.

## Policy on Lateness and Absence

Students are expected to attend every class session of each course in which they are enrolled and to be on time. A WU grade will be assigned to a student by the instructor for excessive absence. Students are advised to determine the instructor's policy at the first class session. They should note that an instructor may treat lateness as equivalent to absence. No distinction is made between excused and unexcused absences. Each instructor retains the right to establish his or her own policy, but students should be guided by the following general College policy:

In courses designated as clinical, performance, laboratory or field work courses, the limit on absences is established by the individual instructor. For all other courses, the number of hours absent may not exceed twice the number of contact hours the course meets per week.

## Refund Policy

Tuition refunds are calculated in accordance with the Tuition Refund Policy for those students who officially drop a class or classes during the first three weeks of the semester. **Fees are not refundable.**

### Fall & Spring Semesters Only

Drop Period	Tuition Refund	Tuition Obligation
Drops prior to the first day of the semester	100%	-0-
Drops during the first calendar week of the semester	75%	25%
Drops during the second calendar week of the semester	50%	50%
Drops during the third calendar week of the semester	25%	75%
Withdrawal after the third calendar week of the semester	-0-	100%

\*For Summer and Winter session refund schedules, please refer to: [Academic calendar](#)

The percentage of refund is determined by the date the course(s) is dropped in CUNYfirst.

Tuition will be refunded 100 percent for those courses which, at any time, are cancelled by the College. Failure to attend class, merely giving notice to the instructor, or stopping payment on a check is not considered an official drop or withdrawal.

Students who pay their tuition bill in full and subsequently drop will have their refund calculated according to the above Tuition Refund schedule. For further information on refund options, and information on financial aid refunds, go to:

Students who made a partial payment on their bill will have their tuition liability calculated according to the above Tuition Obligation schedule. A reduction in tuition charges may not necessarily result in a refund and, in some instances, a tuition balance may still be due. **Fees are not refundable.**

## Regulations for Public Order Pursuant to Article 129-A of the Education Law

### ARTICLE I MEETINGS OF THE BOARD

#### SECTION 1.1. REGULAR MEETINGS.

- a. Regular meetings of the board of trustees shall be held in accordance with a schedule disseminated no later than August 1 of each year. Regular meetings shall be open to the general public
- b. Notice of the hour, place, and agenda for each regular meeting shall be mailed to the usual address of every trustee of the board by the secretary at least seven days before the meeting. All regular meetings shall be held at such place and time as shall be determined by the chairperson or by the board
- c. Public notice of the hour, place, and agenda of each regular meeting of the board shall be given at least seven days before the meeting to the respective colleges, to the news media, and to such educational and civic organizations as may request the same, as well as to any duly authorized collective negotiation representative. The agendas for such meetings shall be available electronically on the city university of New York website three days prior to the meeting
- d. A summary of resolutions and board actions for each regular meeting shall be electronically available on the city university of New York website no later than seven days after the meeting. The approved minutes, attendance, voting record, and video record for each regular meeting shall be posted on the website no later than seven days following their approval by the board. Information posted on the city university of New York website regarding board of trustees' meetings shall remain on the site as archived data for a minimum of ten years

#### SECTION 1.2. SPECIAL MEETINGS.

- a. The chairperson, the vice chairperson, or any five trustees acting by petition, may at any time call a special meeting of the board and fix the date, time, and place therefor. Special meetings shall be open to the general public
- b. Notice of the date, hour, and place of every special meeting shall be by written or telephonic notice to each trustee from the secretary or the designee of the secretary at least twenty-four hours before the meeting
- c. Public notice of the date, hour, and place of a special meeting scheduled at least one week prior thereto shall be given to the respective colleges, to the news media, and to such educational and civic organizations as may request the same, as well as to any duly authorized collective negotiation representative, at least seventy-two hours before such meeting. Such notice of a special meeting scheduled less than one week prior thereto shall be given, to the extent practicable, at a reasonable time prior thereto. The agenda for such special meetings shall be available electronically on the city university of New York website twenty-four hours prior to the special meeting
- d. A summary of the resolutions and board actions for any special meeting shall be electronically available on the city university of New York website no later than seven days after the meeting. The approved minutes, attendance, voting record, and video record for each special meeting shall be posted on the website no later than seven days following their approval by the board

#### SECTION 1.3. EXECUTIVE SESSIONS.

The board may conduct executive sessions, with attendance limited to members and invitees, as follows: Upon a vote taken at a regular or special meeting pursuant to a motion identifying the general area or areas of the subject or subjects to be considered, the board may conduct an executive session for the below enumerated purposes either forthwith or at a date, time, and place to be determined by the chairperson of which the board members shall be notified in advance unless such notice be waived in writing

1. Matters which will imperil the public safety if disclosed
2. Any matter which may disclose the identity of a law enforcement agent or informer
3. Information relating to current or future investigation or prosecution of a criminal offense which would imperil effective law enforcement if disclosed
4. Discussions regarding proposed, pending, or current litigation
5. Collective negotiations pursuant to article fourteen of the civil service law
6. The medical, financial, credit, or employment history of any person or corporation, or matters leading to the appointment, employment, promotion, demotion, discipline suspension, dismissal, or removal of any person
7. The preparation, grading, or administration of examinations
8. The proposed acquisition, sale, or lease of real property, but only when publicity would substantially affect the value of the property

#### SECTION 1.4. MINUTES.

- a. Minutes shall be taken at all regular and special meetings of the board, which shall consist of a record or summary of all motions, proposals, resolutions, and any other matters formally voted upon, and the vote thereon
- b. Minutes shall be taken at executive sessions of any action that is taken by formal vote which shall consist of a record or summary of the final determination of such action, and the date and vote thereon; provided, however, that such summary shall not include any matter which is not required to be made public by the freedom of information law of the State of New York
- c. Minutes of executive sessions shall be made available for inspection and copying within one week from the date of the executive session

#### SECTION 1.5. QUORUM OF THE BOARD.

Nine trustees of the board shall constitute a quorum

## **SECTION 1.6. PRESIDING OFFICER.**

If the chairperson does not attend a meeting at which a quorum is present, the vice chairperson may call the meeting to order and preside. In the event that neither the chairperson nor the vice chairperson will be present, the chairperson shall designate another trustee to call the meeting to order and preside

## **SECTION 1.7. ORDER OF BUSINESS.**

The calendar of the board shall be prepared in such form as the board may determine from time to time. The order of business may be determined by resolution of the board

## **SECTION 1.8. PARLIAMENTARY PROCEDURE.**

Except as herein otherwise specifically provided, the board shall be governed in its procedure by parliamentary rules and usage as set forth in the most recent edition of Robert's Rules of Order

## **SECTION 1.9. PUBLIC HEARINGS.**

a. The board shall schedule public hearings on the adoption of its expense budget, capital budget, and master plan. The board in the exercise of its judgment may schedule such other hearings as it may determine

b. The board shall hold a public hearing on the agenda of a regular meeting no less than three days before the meeting. Upon notification received by the secretary one day in advance of the hearing, persons will be permitted to speak to items on the agenda and to submit written statements relating thereto. The chairperson, or the vice chairperson in the chairperson's absence, shall assign one or more board trustees to conduct such hearing. A substantive summary of written statements received at such hearings shall be distributed to the trustees of the board prior to the regular meeting

## **SECTION 1.10. BOROUGH PUBLIC HEARINGS.**

a. The board shall hold at least one public hearing each year in each of the five boroughs of the city of New York to receive testimony and statements from concerned individuals about City University issues

b. The time, place, duration, and format of each hearing shall be determined by the board

c. Notice of the hearing shall be given by the chairperson of the board, not less than thirty days before each hearing, to all the trustees, to all presidents of educational units, to the chairpersons of faculty senate bodies of educational units, to all student government presidents of educational units, to the borough presidents, to the members of the city council, to the local community boards of the borough where the hearing is to be held, and to the news media. The notice shall contain the time, place, and date of the public hearing

d. At least three trustees shall attend each hearing

## **ARTICLE II OFFICERS OF THE BOARD**

### **SECTION 2.1. OFFICERS.**

The officers of the board shall be the chairperson, the vice chairperson, the general counsel, and the secretary

### **SECTION 2.2. TERM OF OFFICE.**

a. The term and manner of selection of the trustees of the board shall be as provided for in section 6204 of the education law

b. A chairperson and a vice chairperson shall be appointed and shall serve as provided for in section 6204(2)(d) of the education law

c. The general counsel and the secretary shall serve at the pleasure of the board

### **SECTION 2.3. DUTIES OF THE CHAIRPERSON.**

a. The chairperson shall preside at all meetings of the board, shall be a member ex officio of all committees, and shall be entitled to vote at all meetings of the board and of all its committees. Unless otherwise provided herein or otherwise determined by the board, the chairperson shall name the members and designate the chairperson of all standing and special committees. The chairperson is hereby empowered to execute all documents, receipts, releases, or other instruments requiring the signature of an authorized representative of the board

b. By virtue of his/her office, the chairperson is the spokesperson through whom the board announces and publicizes board actions or decisions primarily within the board's statutory fields of governance and policy-making; and within those fields he/she has the principal (but not exclusive) responsibility for board communications and board dealings with the mayor of the city, the governor of the state, the executive department of the United States, legislators, and governmental departments of the city, state, and nation

c. In his/her capacity as chairperson he/she will receive and may answer communications addressed to the board or to himself/herself in his/her official capacity

d. Where a board committee has in hand matters connected with a governmental department, the committee's chairperson may, for the purposes of the committee, confer with such department, after first notifying the chairperson of the board of the circumstances

### **SECTION 2.4. DUTIES OF THE VICE CHAIRPERSON.**

The vice chairperson shall preside, in the absence of the chairperson of the board, at all meetings of the board; shall be a member ex officio of all standing committees of the board; and shall be entitled to vote at all meetings of all such standing committees unless the chairperson of the board be present and voting. If the position of chairperson of the board is vacant, the vice chairperson shall exercise all the duties of the chairperson

### **SECTION 2.5. DUTIES OF THE GENERAL COUNSEL.**

The general counsel shall direct a centralized legal office, with an appropriate staff under the general counsel's supervision, rendering legal services to the board and to the City University of New York. The general counsel shall report to the chairperson of the board and to the chancellor of the university. The general counsel and his/her designees are authorized to verify pleadings and to sign affidavits and other documents in connection with legal proceedings in which the board and its interests are involved. The general counsel is also authorized and empowered to execute all contracts and agreements on behalf of the board

## **SECTION 2.6. DUTIES OF THE SECRETARY.**

The secretary of the board shall prepare the agenda of all meetings of the board, attend the meetings thereof and prepare the minutes of such meetings. The secretary shall have charge of all board records, files, minutes, official documents, and the seal of the board. The secretary shall cause a copy of the minutes of each meeting of the board to be forwarded promptly to its members and shall certify the same as a true copy when necessary. The secretary shall notify appropriate agencies and persons of the board's actions and shall send notices of board and committee meetings to the members of the board; shall maintain a central calendar for meetings; and shall perform related duties assigned to him/her by the chairperson of the board. The secretary is authorized and empowered to sign communications, receipts, or other instruments requiring the signature of an authorized representative of the board, and to affix the seal of the board thereto, which documents reflect or effectuate prior action adopted or authorized by the board. In the event of the illness or absence of the secretary, the chairperson of the board is authorized to designate a member of the board's staff to serve as acting secretary of the board

## **ARTICLE III COMMITTEES OF THE BOARD**

### **SECTION 3.1. STANDING AND SPECIAL COMMITTEES.**

- a. The board shall have standing committees on academic policy, programs and research, faculty staff and administration, fiscal affairs, audit, facilities planning and management, and student affairs and special programs, as well as any other special committees and subcommittees that the board may establish by resolution. The membership of standing and special committees of the board shall be determined by the chairperson
- b. The procedures for providing notice of the meetings of all standing and special committees and subcommittees, and for making the agenda, summary of resolutions and minutes for such meetings available on the city university of New York website, shall be the same as they are for regular board meetings

### **SECTION 3.2. EXECUTIVE COMMITTEE.**

- a. The board shall also have an executive committee, which shall consist of the chair of the board, the vice chair of the board, the chair of the committee on academic policy, program, and research, the chair of the committee on faculty, staff and administration, the chair of the committee on fiscal affairs, the chair of the committee on audit, the chair of the committee on facilities planning, and management and the chair of the committee on student affairs and special programs. A majority of the individual members shall constitute a quorum for the transaction of business
- b. The executive committee may meet in intervals between meetings of the board and at such times that the chairperson of the board may convene it, upon the request of the chancellor or his/her designee. The agenda for any executive committee meeting must be made available electronically on the city university of New York website twenty-four hours in advance. The executive committee may take any actions that could have been taken by the board of trustees, except to grant degrees, to make removals from office or to amend these bylaws, upon the determination that it would be detrimental to the University to delay the advancement of the matter until the next regularly scheduled meeting of the Board of Trustees
- c. Certification of such determination and all actions of the executive committee shall be reported to all members of the board no later than the next scheduled meeting. Notice of such actions shall also be placed on the agenda of the next scheduled meeting of the board
- d. A summary of the resolutions for any executive committee meeting shall be electronically available on the city university of New York website no later than seven days after the meeting. The approved minutes, attendance, voting record, and video record for each executive meeting shall be posted on the website no later than seven days following their approval by the board
- e. Notice of executive committee meetings shall be given in the same manner as it is given for special meetings of the board

## **ARTICLE IV THE COUNCIL OF PRESIDENTS**

### **SECTION 4.1. THE COUNCIL OF PRESIDENTS.**

There shall be a council of presidents composed of the chancellor, as its permanent chairperson, the presidents, and such senior university staff as the chancellor may designate

### **SECTION 4.2. FUNCTIONS OF THE COUNCIL OF PRESIDENTS.**

To ensure unified and cooperative leadership in the city university, it shall be the function of the council

- a. To advise the chancellor with respect to the formulation and periodic revision of a coordinated master plan for a system of public higher education for the city of New York and to indicate for each constituent institution its specific functions in this plan
- b. To recommend to the chancellor procedures and policies that affect more than one of the constituent colleges
- c. To recommend to the chancellor plans for the development of physical properties which will further the general educational program of the university
- d. To advise the chancellor concerning the operating and capital budgets of the entire university system. The presidents are specifically charged with the administration of their respective institutions and in this capacity they are responsible directly to the chancellor and through the chancellor to the board

## **ARTICLE V MISCELLANEOUS PROVISIONS**

### **SECTION 5.1. AMENDMENTS TO BYLAWS.**

An amendment to the bylaws may be adopted at any regular or special meeting of the board succeeding the regular or special meeting at which it was proposed. Copies of the proposed amendment must be mailed to each trustee of the board at least ten days before it is voted upon, together with a statement of the name of the introducer and of the meeting at which it is to be acted upon. Copies of the proposed amendments shall be delivered to the collective negotiation representative if required by a contract entered into with such representative. No proposed amendment shall be adopted except upon the affirmative vote of nine trustees of the board

The above provision insofar as it requires that amendments to the bylaws be proposed at a meeting preceding the meeting at which a vote is taken may be waived by the unanimous consent of the trustees of the board present

### **SECTION 5.2. WAIVER OF THE BYLAWS.**

Any other provision of these bylaws may be waived for a particular purpose at any meeting of the board by the affirmative vote of nine trustees of the board

## ARTICLE VI INSTRUCTIONAL STAFF

### SECTION 6.1. INSTRUCTIONAL STAFF.

The board hereby establishes the following instructional staff titles:

Chancellor  
Chancellor emeritus  
Executive vice chancellor  
Chief operating officer  
Senior vice chancellor  
Vice chancellor  
Associate vice chancellor  
University provost  
Secretary of the board  
University administrator  
University associate administrator  
University assistant administrator  
President  
Dean of the City University School of Law  
Dean of the Graduate School of Journalism  
Dean of the Sophie Davis School of Biomedical Education  
Senior vice president  
Vice president  
Assistant vice president  
Senior University dean  
University dean  
University associate dean  
University assistant dean  
Dean  
Associate dean  
Assistant dean  
Administrator  
Associate administrator  
Assistant administrator  
Distinguished professor  
University professor  
Professor  
Associate professor  
Assistant professor  
Research Professor  
Research Associate Professor  
Research Assistant Professor  
Einstein professor  
Visiting distinguished professor  
Clinical Professor  
Distinguished lecturer  
Distinguished lecturer – medical series  
Distinguished lecturer – law school series  
Medical professor (basic sciences)  
Associate medical professor (basic sciences)  
Assistant medical professor (basic sciences)  
Medical lecturer  
Adjunct medical professor (basic sciences)  
Adjunct associate medical professor (basic sciences)  
Adjunct assistant medical professor (basic sciences)  
Adjunct medical lecturer  
Medical professor (clinical)  
Associate medical professor (clinical)  
Assistant medical professor (clinical)  
Adjunct medical professor (clinical)  
Adjunct associate medical professor (clinical)  
Adjunct assistant medical professor (clinical)  
Law school distinguished professor  
Law school University professor  
Law school non-teaching adjunct  
Law school professor  
Law school associate professor  
Law school assistant professor

City College

Law school instructor  
Law school library professor  
Law school library associate professor  
Law school library assistant professor  
Law school adjunct professor  
Law school adjunct associate professor  
Law school adjunct assistant professor  
Law school adjunct instructor  
Law school lecturer Visiting professor  
Visiting associate professor  
Visiting assistant professor  
Adjunct professor  
Adjunct associate professor  
Adjunct assistant professor  
Adjunct lecturer  
Adjunct lecturer (doctoral student)  
Lecturer (full-time)  
Lecturer (part-time)  
Visiting lecturer  
Instructor  
Instructor (nursing science)  
Research associate  
Research assistant  
Graduate assistant (a-d)  
Senior registrar  
Associate registrar  
Chief college laboratory technician  
Adjunct chief college laboratory technician  
Senior college laboratory technician  
Adjunct senior college laboratory technician  
College laboratory technician  
Adjunct college laboratory technician  
College physician  
Higher education officer  
Higher education associate  
Higher education assistant  
Assistant to higher education officer  
Continuing education teacher  
Non-teaching adjunct (I-V)  
Non-teaching adjunct (doctoral student)  
Affiliated professional  
Professor of Military Science  
Affiliated medical professor  
Associate affiliated medical professor  
Assistant affiliated medical professor  
Affiliated medical lecturer  
Affiliated medical teacher Clinical  
professor—medical series CLIP  
instructor  
CUNY Start instructor  
Postdoctoral fellow  
Head Athletics Coach (full-time)  
Head Athletics Coach (part-time)  
Assistant Athletics Coach (full-time)  
Assistant Athletics Coach (part-time)  
and in the Hunter College Elementary School and Hunter College High School:  
Principal  
Chairperson of department  
Assistant principal  
Teacher  
Assistant Teacher  
Temporary teacher  
Campus schools college laboratory technician  
Campus schools senior college laboratory technician  
Guidance counselor  
Placement director  
Education and vocational counselor

Librarian

Substitute teacher

Occasional per diem substitute teacher

and in the childhood centers:

Teacher

Assistant teacher

And in the educational opportunity centers (EOC)

Educational opportunity center adjunct lecturer

Educational opportunity center adjunct college laboratory technician

Educational opportunity center college laboratory technician

Educational opportunity center higher education officer

Educational opportunity center higher education associate

Educational opportunity center higher education assistant

Educational opportunity center assistant to higher education officer

Educational opportunity center lecturer

\*and in the School of Journalism and in the Executive MBA Programs of the Zicklin School of Business at Baruch College:

Professional programs adjunct professor

Professional programs adjunct associate professor

Professional programs adjunct assistant professor

Professional programs adjunct lecturer

Professional programs professor (H)

Professional programs associate professor (H)

Professional programs assistant professor (H)

Professional programs lecturer (H)

Professional programs Non-Teaching Adjunct 1

Professional programs Non-Teaching Adjunct 2

Professional programs Non-Teaching Adjunct 3

(Amended: Board of Trustees Minutes, 2019, 03-18, 7.C.)

## SECTION 6.2. PERMANENT INSTRUCTIONAL STAFF -TENURE.

The permanent instructional staff shall consist of those persons who have been granted tenure under any of the provisions enumerated in subds. a through e below.

a. (1) Appointments before September 1, 2006 – A person employed before September 1, 2006 full-time on an annual salary in the title of professor, associate professor, assistant professor, medical professor (basic sciences), associate medical professor (basic sciences), assistant medical professor (basic sciences), medical professor (clinical), associate medical professor (clinical), assistant medical professor (clinical), law school professor, law school associate professor, law school assistant professor, law school library professor, law school library associate professor, law school library assistant professor, instructor (nursing science), senior registrar, registrar, associate registrar, assistant registrar, chief college laboratory technician, senior college laboratory technician, college laboratory technician, and in the hunter college high school and hunter college elementary school (but not in the early childhood center program), principal, chairperson of department, teacher, guidance counselor, and librarian, or in any grade or position which the board in its discretion may add hereto, who after serving on an annual salary in any of the above titles for five full years continuously, has been appointed or shall be appointed for a sixth full year, shall have tenure effective on the first day of September following his/her reappointment for the sixth full year.

(2) Appointments on or after September 1, 2006

a) A person employed on or after September 1, 2006 full-time on an annual salary in the title of professor, associate professor, assistant professor, medical professor (basic sciences), associate medical professor (basic sciences), assistant medical professor (basic sciences), medical professor (clinical), associate medical professor (clinical), assistant medical professor (clinical), law school professor, law school associate professor, law school assistant professor, law school library professor, law school library associate professor, law school library assistant professor or in any grade or position which the board in its discretion may add hereto, who after serving on an annual salary in any of the above titles for seven full years continuously, has been appointed or shall be appointed for an eighth full year, shall have tenure effective on the first day of September following his/her reappointment for the eighth full year.

b) A person employed on or after September 1, 2006 full-time on an annual salary in the title of chief college laboratory technician, senior college laboratory technician, college laboratory technician, and in the hunter college high school and hunter college elementary school (but not in the early childhood center program), chairperson of department, teacher, guidance counselor, librarian, campus schools college laboratory technician, and campus schools senior college laboratory technician, and in the educational opportunity centers, educational opportunity center college laboratory technician, or in any grade or position which the board in its discretion may add hereto, who after serving on an annual salary in any of the above titles for five full years continuously, has been appointed or shall be appointed for a sixth full year, shall have tenure effective on the first day of September following his/her reappointment for the sixth full year.

b. A distinguished person of proven record appointed to the title of associate professor or the title of professor, who had tenure in another accredited institution of higher learning, may be appointed with immediate tenure by the board in its discretion.

c. (1) Appointments before September 1, 2006 – A person appointed to the title of professor, associate professor, or assistant professor may be granted early tenure by the board in its discretion, under these bylaws, after not less than one nor more than five years of continuous satisfactory service on an annual salary basis, when such service is interrupted by the period of a fellowship deemed by the college valuable to it, when for a very substantial reason the college would be well served by such early grant of tenure or when the person has had tenure in another accredited institution of higher learning.

(2) Appointments on or after September 1, 2006 – A person appointed to the title of professor, associate professor, or assistant professor may be granted early tenure by the board in its discretion, under these bylaws, after not less than one nor more than seven years of continuous satisfactory service on an annual salary basis, when such service is interrupted by the period of a fellowship deemed by the college valuable to it, when for a very substantial reason the college would be well served by such early grant of tenure or when the person has had tenure in another accredited institution of higher learning.

d. A person who has attained tenure under the provisions of section 6.2 of these bylaws in an educational unit under the jurisdiction of the board of trustees, and who is subsequently appointed to a comparable position on an annual salary basis in another education unit under the jurisdiction of the board, shall retain his/her tenure.

e. Where an appointee begins his/her service after September thirtieth the tenure period shall not begin until the succeeding September first, and when an appointment is made during the month of September, the appointment shall date as of September first of that year for the purposes of tenure.

### **SECTION 6.3. APPOINTMENTS WITHOUT TENURE.**

Nothing contained in this article shall be construed as conferring or permitting tenure, or service credit toward the achievement of tenure, in any instructional staff position other than those listed in Section 6.2 above. However, appointment to any non-tenurable position, or removal therefrom, shall not deprive the person so appointed or removed of tenure in the highest position on the staff held with tenure prior to his/her appointment to such office, or conjointly with such office, nor shall such appointment or removal deprive any person of service credit toward the achievement of tenure under the provisions of this article.

### **SECTION 6.4. APPOINTMENTS TO THE INSTRUCTIONAL STAFF – NOTICES.**

- a. All full-time appointments to the instructional staff, except as otherwise provided, shall be made by the board upon the recommendation of the chancellor.
- b. Except for the appointment of persons whose sole educational duties shall be administrative, all original appointments to the instructional staff shall be made to a department. All appointments shall be for one year or less except that the board may, in appropriate instances, make appointments for a period not exceeding two years.
- c. In the case of the appointment or removal of a chancellor, the affirmative vote of a majority of all members of the board shall be required.
- d. Each appointment, other than appointments in the executive compensation plan, shall terminate at the terminal date specified in the appointment. There shall be a university standard letter of appointment. The notice shall state specifically that the appointment is of a temporary nature; that it is subject to financial ability; shall give the terminal date of the appointment, and shall add that services beyond the period indicated in the notice of appointment are possible only if the board takes affirmative action to that effect.
- e. In the position of instructor, there shall be no more than four successive annual reappointments.
- f. Appointments and reappointments to a full-time position on the instructional staff shall be considered final when formally approved by the board.

### **SECTION 6.5. TRANSFERS, REASSIGNMENTS, PROMOTIONS.**

- a. Neither tenure nor the period requisite for the achievement of tenure shall be affected by transfer within the city university or by promotion or change of title, except that a person upon whom tenure has been conferred and who may be transferred or promoted to any position in the city university, or whose title may be changed, shall have tenure in his/her new position, provided such position is on the permanent instructional staff, and further provided that the transfer does not involve a change from the administrative staff to the instructional staff.
- b. Nothing herein contained shall be construed to prevent the board from assigning any person having tenure to any appropriate position on the staff, but no such assignment shall carry with it a reduction in rank or a reduction in salary other than the elimination of any additional emolument provided for administrative positions.

## **ARTICLE VII ACADEMIC DUE PROCESS**

### **SECTION 7.1. DISCIPLINARY PROCEDURE FOR INSTRUCTIONAL STAFF COVERED BY A COLLECTIVE BARGAINING AGREEMENT**

All instructional staff members whose employment is governed by a collective bargaining agreement shall be subject to the disciplinary process set forth in that agreement

### **SECTION 7.2. DISCIPLINARY PROCEDURE FOR INSTRUCTIONAL STAFF NOT COVERED BY A COLLECTIVE BARGAINING AGREEMENT**

All instructional staff members other than members of the executive compensation plan who are not covered by any collective bargaining agreement, or who are represented by a union at such time that an expired collective bargaining agreement has not been continued by operation of law, shall be subject to disciplinary procedures established by chancellor or his/her designee, except that in cases involving the removal of tenured faculty, the procedures shall be those set forth in section 6212(9) of the education law

## **ARTICLE VIII ORGANIZATION AND DUTIES OF THE FACULTY**

### **SECTION 8.1. DEFINITION OF FACULTY RANK.**

The presidents, vice presidents, deans, associate and assistant deans with underlying professorial appointments, and all persons who are employed full-time on an annual salary basis in titles on the permanent instructional staff, except college laboratory technicians, shall have faculty rank. All persons having faculty rank shall have the right to vote both in the faculty of which they are members and in their respective departments provided, however, that they have not received notice of non-reappointment, or submitted a resignation. A person with faculty rank who is retiring shall retain his/her voting rights during his/her last year of active service, except while on Travia leave. Members with faculty rank in the Hunter College High School and the Hunter College Elementary School shall be subject to the limitations in section 8.3. which refer to them

### **SECTION 8.2. DEFINITION OF FACULTY STATUS.**

Persons employed full-time in the titles of instructor, lecturer (full time), distinguished lecturer or clinical professor, shall have faculty status. All persons having faculty status shall have such voting rights as they are entitled, provided, however, that they have not received notice of non-reappointment, or submitted a resignation. A person with faculty status who is retiring shall retain his/her voting rights during his/her last year of active service, except while on Travia leave

### **SECTION 8.3. THE FACULTY, EXCEPT IN THE GRADUATE SCHOOL.**

The faculty (except in the graduate school) shall consist of all persons having faculty rank or faculty status and such other individual members of the instructional staff as the faculty may add based on their educational responsibilities except that members with faculty rank in the Hunter College High School and the Hunter College Elementary School shall have membership in the faculties of their respective schools, and shall have membership in the faculty of hunter college only if they have faculty rank or status concurrently in the faculty of hunter college

### **SECTION 8.4. THE FACULTY OF THE GRADUATE SCHOOL.**

The faculty of the graduate school shall include the president of the graduate school, the provost or vice president of academic affairs, vice presidents and deans of the graduate school with underlying faculty appointments, and the members of the faculty in each doctoral and master's program, as defined in the governance plan, and such other individual members of the instructional staff as the faculty may add because of their educational responsibilities

## **SECTION 8.5. DUTIES OF FACULTY.**

The faculty shall meet at least once in each semester, or oftener, upon call by the president or by petition of ten per cent of its members. The faculty shall be responsible, subject to guidelines, if any, as established by the board, for the formulation of policy relating to the admission and retention of students including health and scholarship standards therefor, student attendance including leaves of absence, curriculum, awarding of college credit, granting of degrees. It shall make its own bylaws, consistent with these bylaws, and conduct the educational affairs customarily cared for by a college faculty. The president shall preside at its meetings, or in his/her absence, the dean of faculty or a dean designated by the president.

## **SECTION 8.6. FACULTY/ACADEMIC COUNCILS.**

Each college shall have a faculty or academic council, which shall be the primary body responsible for formulating policy on academic matters. The composition of a college's faculty or academic council shall be set forth in its governance plan approved by the board of trustees.

## **SECTION 8.7. COMMITTEE ON FACULTY PERSONNEL AND BUDGET.**

a. There shall be in each college a committee on faculty personnel and budget or equivalent committee. The chairperson of this committee shall be the president. The members of the committee may include the department chairs, the vice president of academic affairs and one or more deans designated by the president.

b. This committee shall receive from the several departments all recommendations for annual appointments to full-time faculty titles, including annual appointments to the titles distinguished lecturer, clinical professor, lecturer and instructor as well as titles in the college laboratory technician series, reappointments thereto, with or without tenure, and promotions therein, together with compensation; it shall recommend action thereon to the president. The committee may also recommend to the president special salary increments. The president shall consider such recommendations in making his/her recommendations on such matters to the chancellor.

c. Within the period prescribed by the chancellor, the president shall prepare the annual tentative budget and submit it to the committee for its recommendations. The committee shall make its recommendations within the period prescribed by the chancellor and submit them to the president. The president shall submit to the chancellor, within the period prescribed by the chancellor, such tentative annual budget, together with his/her comments and recommendations and any comments and recommendations of the committee.

## **SECTION 8.8. APPOINTMENTS AND PROMOTIONS IN THE GRADUATE SCHOOL.**

a. For faculty positions at the graduate school in a doctoral program, the appointment, reappointment, promotion, and tenure shall be processed in accordance with procedures in the graduate school's governance plan.

b. The president, pursuant to his/her responsibility for conserving and enhancing the educational standards of the graduate school, may recommend an appointment to any professorial rank and upon such appointment may designate such person as executive officer for the program. Before recommending such original appointment or designation, the president shall confer with members of the program.

## **SECTION 8.9. PROCEDURE FOR COLLEGE COMMITTEES ON FACULTY PERSONNEL AND BUDGET OR THEIR EQUIVALENT.**

Each college committee on faculty personnel and budget or its equivalent shall keep minutes of its proceedings conforming insofar as is practicable to the most recent edition of Robert's Rules of Order. The actions of the committee shall be by secret ballot and the results of the balloting shall be duly recorded in its minutes. All records of the proceedings with respect to a candidate shall be filed in the candidate's administration file, available only to the committees and individuals responsible for the review and recommendation of appointments, reappointments, promotions, and tenure. It shall be the duty and responsibility of the president, or his/her designee, to communicate to the candidate the action of the committee but no reason shall be assigned for the action taken. The affirmative recommendation of the committee shall be submitted to the president. A negative recommendation of the committee shall be final unless an appeal filed by the employee is successful.

## **SECTION 8.10. UNIVERSITY FACULTY SENATE.**

There shall be a university faculty senate, responsible, subject to the board, for the formulation of policy relating to the academic status, role, rights, and freedoms of the faculty, university level educational and instructional matters, and research and scholarly activities of university-wide import. The powers and duties of the university faculty senate shall not extend to areas or interests which fall exclusively within the domain of the faculty councils of the constituent units of the university. Consistent with the powers of the board in accordance with the education law and the bylaws of the board, the university faculty senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures for the election of senators, for its internal administration and for such other matters as is necessary for its continuing operations.

## **SECTION 8.11. COLLEGE GOVERNANCE PLANS.**

The provisions in duly adopted college governance plans shall supersede any inconsistent provisions contained in this article.

# **ARTICLE IX ORGANIZATION AND DUTIES OF FACULTY DEPARTMENTS**

## **SECTION 9.1. DEPARTMENT ORGANIZATION.**

a. Each department, subject to the approval of the faculty or faculty council, where existent, and subject to the provisions of other sections of these bylaws, shall have control of the educational policies of the department through the vote of all of its members who have faculty rank or faculty status; and if it may also choose to permit a vote on departmental matters by persons in visiting professorial titles and other members who have been appointed on an annual salary basis for a first or second year of full-time service. The right to vote for the election of department chairpersons and the departmental committee on personnel and budget, referred to in some colleges as the departmental committee on appointments, shall be reserved to those with faculty rank.

b. The executive officer of the department shall be the department chairperson who shall be a professor, associate professor or assistant professor elected by secret ballot for a term of three years, except as provided below, by a majority vote of all the members of the instructional staff of the department who have faculty rank. Proxy or mail voting shall not be permitted. The department chairperson must be tenured or have been approved by the board for tenure at the time of his/her election, except in departments less than seven years old. Such elections shall be subject to the subsequent approval of the president and the board. The present system of staggered departmental elections shall be continued. The successors of department chairpersons shall be elected during the first full week in May at the expiration of the respective terms of office to take office as of July first of the year in which they are elected and at the three year intervals thereafter. Vacancies shall be filled by election for the unexpired term. Notwithstanding anything in the foregoing to the contrary, in the library department, the president of the college shall from time to time recommend a member of the department to the board for designation as chairperson.

c. In any case where the president does not approve the election of a department chairperson, or at such other time as the interests of the college may require the removal of a chairperson and the appointment of a new one, he/she shall confer with the department and thereafter shall report to the board, through the chancellor any subsequent action by the department with respect thereto, together with his/her own recommendation for a chairperson. The recommendation by the president to the board, through the chancellor, for the designation of the department chairperson should take place only after careful consideration by the president of the qualifications of those selected by the respective departments. The president shall base his/her recommendation on the capacity of the individual selected to act effectively as the departmental administrator and spokesperson and as a participant in the formation, development, and interpretation of college-wide interest and policy.

d. Where there are fewer than three tenured professors, associate professors, and assistant professors in a department, the president may, except where the department has been in existence for less than seven years, after consultation with the departmental faculty, recommend the appointment of a chairperson to the board from among the members of the department holding professorial rank. Where the department chairperson is recommended by the president pursuant to this subdivision, subdivision "c" of this section, or subdivision "a" of section 9.5, the chairperson need not be tenured.

e. Each department shall operate as follows, unless the governance plan provides otherwise: There shall be in each department a department committee on personnel and budget, referred to in some colleges as a department committee on appointments, consisting of the department chairperson and where possible, of four other members who must have faculty rank. The number of members of faculty rank shall not affect provision for student membership, if a college governance plan so provides. Four of the faculty members of the committee must be tenured, except if the department has fewer than four tenured faculty members. The department chairperson shall be the chairperson of the committee. The four faculty members shall be elected by a majority vote of those persons in the department having faculty rank. Election shall be held at the same time that the department chairperson is elected. A vacancy in the office of the chairperson prior to expiration of his/her term when such vacancy necessitates an election for a new chairperson shall not affect the term of the committee. A president may remove a member of the personnel and budget committee, for good cause, at the request of a majority of the members of such committee. Such request shall be in writing, and the member whose removal is sought shall have an opportunity to respond. If a member of the personnel and budget committee is removed by the President, an election shall be held to fill the vacancy.

In departments with fewer than four tenured faculty members, the president after consultation with the departmental faculty, shall appoint an ad hoc committee to make recommendations on appointments with tenure in lieu of a committee on appointments or a departmental committee on personnel and budget.

f. There shall be a committee on personnel and budget for the Hunter College Elementary School and a committee on personnel and budget for the Hunter College High School. The committee in each school shall consist of the principal, as chairperson, a designee of the provost of hunter college, and three members of the instructional staff of the school who are tenured or will have tenure by the time of service, elected for a term of three years by members of the permanent instructional staff of the school. These committees shall have in each school, insofar as practicable, the same functions as are assigned by these bylaws to a departmental committee on personnel and budget in a college.

g. Each department may name such other committees as it chooses and shall have the fullest measure of autonomy consistent with the maintenance of general educational policy.

## **SECTION 9.2. PROCEDURES FOR DEPARTMENT COMMITTEES.**

Each department committee shall keep minutes of its proceedings conforming insofar as is practicable to the most recent edition of Robert's Rules of Order. It is the responsibility of the department chairperson, except as specified below, to circulate the minutes of each departmental committee to all members of the department.

The actions of the appropriate committee concerned with instructional staff appointments, reappointments, reappointments with tenure, and promotion shall be by secret ballot, and the result of the balloting shall be duly recorded in its minutes. All records of the proceedings with respect to a candidate shall be filed in the candidate's administration file, available only to the committees and individuals responsible for the review and recommendation of appointments, promotion, and tenure. It shall be the duty and responsibility of the department chairperson to communicate to the candidate the action of the committee, but no reason shall be assigned for the action taken. The affirmative recommendations of the committee shall be submitted by the department chairperson to the president and appropriate college committee on personnel and budget in accordance with procedures set forth in the bylaws of the board.

## **SECTION 9.3. DUTIES OF DEPARTMENT CHAIRPERSON.**

a. The department chairperson shall be the executive officer of his/her department and shall carry out the department's policies, as well as those of the faculty and the board which are related to it. He/she shall

1. Be responsible for departmental records
2. Assign courses to and arrange programs of instructional staff members of the department
3. Initiate policy and action concerning the recruitment of faculty and other departmental affairs subject to the powers delegated by these bylaws to the staff of the department in regard to educational policy, and to the appropriate departmental committees in the matter of promotions and appointments.
4. Represent the department before the faculty council or faculty senate, the faculty, and the board.
5. Preside at meetings of the department.
6. Be responsible for the work of the department's committee on appointments or the department's committee on personnel and budget which he/she chairs.
7. Prepare the tentative departmental budget, subject to the approval by the department's committee on appointments or the department's committee on personnel and budget.
8. Transmit the tentative departmental budget with his/her own recommendations to the president or the dean or provost as the president may designate.
9. Arrange for careful observation and guidance of the department's instructional staff members.
10. Make a full report to the president and to the college committee on faculty personnel and budget of the action taken by the department committee on personnel and budget or department committee on appointments when recommending an appointee for tenure on the following, as well as any other criteria set forth in university policies.
  - a. Teaching qualifications and classroom work.
  - b. Relationship of the appointee with his/her students and colleagues.
  - c. Appointee's professional and creative work.
11. Hold an annual evaluation conference with every member of the department after observation and prepare a memorandum thereof.
12. Generally supervise and administer the department.

- b. Each library, where size makes it practicable, shall constitute an instructional department of the college. The chairperson thereof shall be designated by the president. Such chairperson, in addition to the duties of department chairperson as enumerated in paragraph "a" of this section, shall be charged with the administration of the library facilities of his/her college and shall perform such other duties as the president may assign. Such chairperson is hereby authorized to use the additional title of "chief librarian."
- c. Where student personnel services are constituted an instructional department of the college, the dean of students shall be the department chairperson.

#### **SECTION 9.4. PROGRAM STRUCTURE IN THE GRADUATE SCHOOL AND UNIVERSITY CENTER.**

a. The faculty of each doctoral program shall meet at least once each year. A quorum shall consist of 25 people or 50% of the faculty, whichever is smaller. The faculty shall have overall responsibility for establishing policies for the program. It shall make recommendations to the graduate council with respect to curriculum, and to the president with respect to special program requirements for the admission and retention of students and for the granting of doctoral degrees, the awarding of university grants and fellowships, and any other matters affecting the welfare of the program. It shall be responsible for the policies governing the various qualifying examinations for the doctoral degree.

b. Each doctoral program shall have an executive officer responsible for administering the affairs of the program in accordance with the policies established by the program faculty, the graduate council, and the board of trustees. The executive officer shall be appointed by the president for a term not exceeding three years taking into account nominations received from the faculty and students of the program. The executive officer may be reappointed. The executive officer is subject to removal by the president, prior to which the president shall confer with members of the program.

c. There shall be established in each doctoral program an executive committee to be composed of at least five members. The structure and membership of each executive committee is to be determined by the program's faculty subject to approval by the president. It shall include at least one faculty member from each senior college substantially participating in the program ("substantially participating" shall be defined as having six members on the faculty of the program).

The executive committee shall have the authority for the operation of the program between the stated meetings of the program's faculty subject to the policies established by the faculty. It shall meet at least once a semester with the students matriculated in the program.

The executive officer shall serve as chairperson of the executive committee.

d. The students of each doctoral program shall have responsibility through student representatives to the executive committee and the standing committees to make known their views on the policies of the program.

#### **SECTION 9.5. APPOINTMENTS.**

a. Recommendations for full-time appointments in a department shall be initiated (1) by the department or (2) to a professorial title by the president pursuant to his/her responsibilities in accordance with section 11.4. of these bylaws. The president may recommend that such appointee be designated as department chairperson. Such recommendation by the president for appointment and designation as department chairperson may be made either at the time of election of department chairperson or at such other time as the educational interests of the college may require. Before recommending such appointment or designation, the president shall confer with the members of the department and with the college committee on faculty personnel and budget.

b. All full-time appointments, reappointments, and reappointments with tenure to a department, except as above specified, shall be recommended to the college committee on faculty personnel and budget or its equivalent by the chairperson of the department after consultation with the president in accordance with the vote of the majority of the members of the department's committee on personnel and budget, save that a minority of any committee on appointments or departmental committee on personnel and budget shall have power to submit a minority recommendation to the college committee on faculty personnel and budget.

#### **SECTION 9.6. PROMOTIONS.**

a. Each college shall select one of the following plans for promotions

PLAN NO. ONE. Promotions to the rank of associate professor shall be recommended only after an affirmative vote of a majority of all associate professors and professors in the department. In departments where every professorial rank is not represented, recommendations for promotion shall be initiated by the department personnel and budget committee. This plan shall not apply in the case of promotion to a professorship. No faculty member shall vote on his/her own promotion. A minority of any departmental committee on personnel and budget or any committee under this plan shall have the power to submit a minority recommendation to the college committee on faculty personnel and budget.

PLAN NO. TWO. All promotions to the rank of associate professor shall be recommended to the college committee on faculty personnel and budget by the chairperson of the department only after a majority affirmative vote of the departmental committee on personnel and budget; provided, however, that no member of such committee shall vote on his/her own promotion. This plan shall not apply in the case of promotion to a professorship.

b. Promotion to the rank of professor shall be recommended by the faculty committee on personnel and budget only after an affirmative vote of a majority of all associate professors and professors on the committee.

c. The president shall have the power to make an independent recommendation for promotion in any rank to the board, after consultation with the appropriate departmental committee and with the faculty committee on personnel and budget. In all instances no final action of departmental committees with regard to promotions shall be taken without consultation with the president.

#### **SECTION 9.7. TIE VOTES.**

A tie vote in a case affecting an appointment, a reappointment, or a promotion shall be considered as a failure of the motion to prevail. Tie votes in the election of a department chairperson or for representation on departmental committees on personnel and budget or committees on appointments or on the faculty council or faculty senate shall be resolved by action of the president.

#### **SECTION 9.8. NEW COLLEGES OR NEW SCHOOLS.**

Unless otherwise provided, the provisions of this article, insofar as they specify certain organizational duties and responsibilities of the instructional staff, shall not apply to a newly-created college or a newly-created school in a college until five years after its establishment unless the president, prior thereto, notifies the board of its desire to be governed by these bylaws. However, insofar as practicable, the spirit of these bylaws shall be observed in the organization and operation of such new college or school.

#### **SECTION 9.9. COLLEGE GOVERNANCE PLANS.**

The provisions in a duly adopted college governance plan shall supersede any inconsistent provisions contained in this article.

## ARTICLE X THE CENTRAL OFFICE

### SECTION 10.1. THE CENTRAL OFFICE.

There is hereby established as an educational unit under the board that portion of the city university of New York which is administered centrally by the chancellor, either directly or through staff designated by and directly responsible to him/her. Such educational unit shall be known as the "central office" and shall consist of the central office staff and the staff of such other programs as are not otherwise provided for and which are not part of any of the existing senior or community colleges under the jurisdiction of the board. Persons holding central office positions shall be deemed to hold positions in the city university of New York.

## ARTICLE XI DUTIES AND QUALIFICATIONS OF TITLES IN THE INSTRUCTIONAL STAFF

### SECTION 11.1. CONDITIONS AND QUALIFICATIONS FOR APPOINTMENT AND PROMOTION.

The minimum qualifications and duties for all titles in the instructional staff (referred to herein as "title descriptions"), other than those of chancellor, senior university staff and president, shall be established by the chancellor or his/her designee. For titles with faculty rank, any revisions to the title descriptions shall be approved by the board as a policy item. The chancellor or his/her designee shall establish a procedure for the approval of waivers of the minimum qualifications for titles in the instructional staff, with the exception of waivers of the minimum qualifications for faculty rank titles, which shall be approved by the board. All instructional staff title descriptions established by the Chancellor or his/her designee shall be deemed board policies for the sole purpose of the grievance procedure contained in the collective bargaining agreement between the university and the union representing the instructional staff and only in grievances brought pursuant to that grievance procedure by or on behalf of an instructional staff member represented by said union and only for the purpose of determining whether the instructional staff member is performing duties substantially different from those stated in the title description for his/her appointed title.

### SECTION 11.2. CHANCELLOR.

#### A. Position Definition:

The chancellor shall be appointed by and report to the board. He/she shall be the chief executive, educational and administrative officer of the city university of New York and the chief educational and administrative officer of the senior and community colleges and other educational units and divisions for which the board acts as trustees. He/she shall be the chief administrative officer for the board and shall implement its policies and be the permanent chairperson of the council of presidents with the right and duty of exercising leadership in the work of the council. The chancellor shall have the following duties and responsibilities.

- a. To initiate, plan, develop and implement institutional strategy and policy on all educational and administrative issues affecting the university, including to prepare a comprehensive overall academic plan for the university, subject to the board's approval; and to supervise a staff to conduct research, coordinate data, and make analyses and reports on a university-wide basis.
- b. To unify and coordinate college educational planning, operating systems, business and financial procedures and management.
- c. As to each educational unit
  1. To oversee and hold accountable campus leadership, including by setting goals and academic and financial performance standards for each campus.
  2. To recommend to the board the appointment of the college president and senior campus staff.
  3. To recommend directly to the board the underlying academic appointment of any president, with tenure, notwithstanding any other provisions in these Bylaws.
  4. Periodically, but no less than every five years, review the performance of each college.
  5. Present to the board all important reports, recommendations, and plans submitted by a college president, faculty or governance body with his/her recommendations, if any.
- d. To prepare, with the advice of the council of presidents, the operating budget and the capital budget for consideration by the board and presentation to the state and the city.
- e. To act as the representative of the university and its colleges with outside agencies and particularly to promote the interest and welfare of the university and its colleges with city, state and federal officials.
- f. To promote a positive image of the university and to develop and enhance public and private sources of funding for the university.
- g. To attend meetings of the board and its committees and to advise on all matters related to his/her duties and responsibilities.
- h. To live in a residence provided for him/her by the board.
- i. Nothing in this enumeration shall compromise or detract from the powers and duties of the board of trustees as defined in the state education law.

#### B. Qualifications:

He/she shall have an outstanding reputation as an educational administrator, executive, and scholar, and such personal qualities as will be conducive to success as a leader of scholars and teachers and as the chief executive officer and public representative of the university.

### SECTION 11.3. SENIOR UNIVERSITY STAFF

#### A.

The senior university staff shall include persons in the titles of executive vice chancellor, chief operating officer, senior vice chancellor, university provost, secretary to the board, vice chancellor, university administrator, university associate administrator, university assistant administrator, university dean, university associate dean, university assistant dean, and such other titles as the chancellor, with the approval of the board, may designate.

#### B. Position Definition:

The duties and responsibilities of the senior university staff shall be to assist the chancellor in designated areas of university operations and to represent him/her when so authorized.

### SECTION 11.4. THE PRESIDENT.

#### A. Position Definition:

The president, with respect to his/her educational unit, shall

- a. Have the affirmative responsibility of conserving and enhancing the educational standards and general academic excellence of the college under his/her jurisdiction. Such responsibility shall include but not be limited to the duty to recommend to the chancellor for appointment, promotion, and the granting of tenure only those persons who he/she is reasonably certain will contribute to the improvement of academic excellence at the college. These recommendations shall be consistent with the immediate and long range objectives of the college.
- b. Have the power (1) to remove a department chairperson in accordance with section 9.1.c., and (2) to initiate recommendations for appointment in a department to a professorial title in accordance with section 9.5.a
- c. Be an advisor and executive agent of the chancellor and have the immediate supervision with full discretionary power to carry into effect the bylaws, resolutions, and policies of the board, the lawful resolutions of any board committees, and policies, programs, and lawful resolutions of the several faculties and students where appropriate.
- d. Exercise general superintendence over the facilities, concerns, officers, employees, and students of his/her college; in consultation with the chancellor, prepare and implement the college master plan, which shall be subject to the approval of the chancellor and the board.
- e. Act as chairperson of the faculty, faculty council, and the committee on faculty personnel and budget, or of equivalent bodies as established.
- f. Attend meetings of the board and advise the chancellor and the board on all matters related to educational policy and practice.
- g. Transmit to the chancellor recommendations of his/her faculty or faculty council on matters of curriculum and other matters falling under faculty jurisdiction.
- h. Consult with the appropriate departmental and faculty committees on matters of appointments, reappointments, and promotions; take student evaluations into account in making recommendations thereon; present to the chancellor his/her recommendations thereon; notify the appropriate faculty committees of his/her recommendations to the chancellor.
- i. Recommend to the chancellor an annual college budget.
- j. Consult with and make recommendations to the chancellor concerning all matters of significant academic, administrative or budgetary consequence affecting the college and/or the university.
- k. Present to the chancellor communications from faculties, officers, employees, or students together with any advice or recommendations of his/her own concerning the subject of such recommendations or communications.
- l. Between meetings of the board, be authorized in an emergency to fill temporary vacancies in the instructional staff below the rank of professor in accordance with the method of appointment herein provided and to make such administrative arrangements and appointments as cannot well await the action of the board or its appropriate committees.
- m. Report annually to the chancellor and the board, on or before December thirty-first, concerning the affairs of his/her college during the preceding academic year.
- n. Live in a residence provided for him/her by the board.
- o. Have such additional specific duties as the chancellor shall designate.

**B. Qualifications:**

He/she shall have an outstanding reputation as an educational administrator; personal qualities conducive to success as a leader of scholars and teachers, and as an executive.

**SECTION 11.5. EQUIVALENCIES.**

1.
  - a. For appointment as an assistant professor, associate professor, or full professor in a field in which there is a research PhD in general use., no other degree shall be accepted as equivalent to the PhD. unless there is also a professional doctorate in general use available in the field, in which case a college may declare either the PhD. or the relevant professional doctorate to be "preferred" for a specific appointment, or it could designate them as equally acceptable.
  - b. For appointment as an assistant professor, associate professor, or full professor in fields in which the PhD. is not the terminal degree in the field, the executive vice chancellor and university provost shall prepare and make available to the colleges a list of credentials that may be accepted in lieu of the PhD. degree.
2. In the evaluation and interpretation of equivalencies there must be a direct and specific relationship between the discipline represented and the field in which the candidate is to serve.

**ARTICLE XII SALARY SCHEDULE CONDITIONS**

**SECTION 12.1. SALARY SCHEDULE CONDITIONS.**

The salary of the persons employed by the board on the instructional staff shall be not less than those prescribed in the schedules approved in an agreement entered into after collective negotiations. Where a title is not covered by any collective negotiation agreement, but is payable from the city expense budget for the City University of New York, the schedule shall be as approved by the board and consented to by the city office of labor relations and the city office of management and budget. All salaries shall be subject to the following conditions.

- a. The annual increments for all positions on the instructional staff shall be added on January first of each succeeding year following completion of at least ten full months of service, except that in the higher education officer series, the annual increments shall be added on January first or July first of each succeeding year following at least eleven months of service.
- b. In schedules where annual increments are specified, the board nevertheless reserves the right to assign fixed salaries to appointees in special cases, to vote larger increments in special cases, when in its judgment the nature of the duties or the character of the services renders such action just, or to withhold annual increments from any members of the staff whose services for any year are unsatisfactory.
- c. In schedules where no annual increments are specified, the specific salary of an incumbent shall be fixed at the minimum rate, or the maximum rate, or between, by resolution of the board, action being taken with due consideration for the duties to be discharged, prevailing rates of compensation for one discharging such duties, and the qualifications, training and experience of the incumbent.

**SECTION 12.2.**

Whenever any compensation, in addition to the regular annual salary, is authorized to be paid to a member of any college, university, or board staff from enterprises in any way connected with the college or university, such compensation shall not be paid or accepted unless reported to and specifically authorized by the chancellor, except for compensation being paid to the chancellor, which must be specifically authorized by the board.

## **SECTION 12.3.**

The compensation of temporary and other employees not on the instructional staff shall be fixed at such salaries as the board may determine except that with respect to positions for which salary schedules have heretofore been established by the board, such salaries shall be in accordance with such salary schedules as the board may establish with the approval of the mayor, or in accordance with such salary allocations as are appropriate under the career and salary plan. The board may make appointments to any position on a part-time basis with corresponding fractional salary or compensation except where prohibited by existing collective bargaining agreements.

## **ARTICLE XIII INSTRUCTIONAL STAFF – MISCELLANEOUS PROVISIONS**

### **SECTION 13.1. TEMPORARY DISABILITY LEAVE.**

a. Members of the instructional staff who are absent because of temporary disability for more than five consecutive working days may be required to submit a medical certificate from their personal physician upon their return to work.

Where any absence because of temporary disability exceeds thirty consecutive working days, the absentee shall present a statement from his/her physician explaining the nature or his/her temporary disability and certifying that he/she is fully capable of returning to work. In the case of any such absence the college may also require an examination by a physician in its employ, or appointed by it, who shall be required to certify that the absentee is fully capable of returning to work. In cases where there is a conflict of opinion, a third physician, acceptable to the absentee and to the president of the college, shall be called in and his/her judgment shall be accepted as conclusive. In the event that it is found that the condition of such person is such that he/she is incapable of resuming his/her normal duties, such person shall apply for such additional period of leave of absence as may be necessary. Failure to make such application for an additional period of leave of absence shall be deemed neglect of duty.

b. Leaves of absence without pay for temporary disability for periods of less than one year may be recommended by the board to the appropriate retirement system for credit as service for retirement. Increments may be recommended by the board for the period during which an employee is on leave of absence without pay for temporary disability for periods of less than one year.

### **SECTION 13.2. RETIREMENT LEAVES.**

Members of the New York City teachers' retirement system and members of the permanent instructional staff and lecturers (full-time) with administrative certificates of continuous employment and persons with titles in the higher education officer series who are members of any other retirement system who announce their bona fide intention to retire shall be granted a retirement leave of absence with full pay consisting of one-half of their accumulated unused temporary disability leave up to a maximum of one semester, or the equivalent number of school days. Terms and conditions relating to such retirement leave shall be governed by section 3107 of the state education law.

### **SECTION 13.3. LEAVES FOR SPECIAL PURPOSES.**

a. Special leaves may be granted to members of the instructional staff for personal emergencies of not more than ten working days may be granted with pay by the president at his/her discretion

b. On the recommendation of the relevant departmental committee concerned with appointments, the relevant college committee and the president, the board may grant to members of the instructional staff special leaves of absence without pay for purposes such as study, writing, research, the carrying out of a creative project or public service of reasonable duration. Where a special leave without pay is for one year or longer, it shall not be credited for purposes of increment, except that increment credit may be granted when the president certifies that the leave is being taken for a project of academic, scholarly or public importance that brings honor and recognition to the college.

## **ARTICLE XIV THE NON-INSTRUCTIONAL STAFF**

### **SECTION 14.1. NON-INSTRUCTIONAL STAFF – DEFINITION AND DUTIES.**

The non-instructional staff shall consist of all positions in the classified civil service of the city university of New York, classified under one of the four jurisdictional classes – exempt, competitive, non-competitive, and labor.

### **SECTION 14.2. TERMS AND CONDITIONS OF EMPLOYMENT OF NON-INSTRUCTIONAL STAFF.**

Hours of employment, vacations, leaves of absence and other terms and conditions of employment for members of the non-instructional staff shall be those established by law or by resolution of the board, or by appropriate collective bargaining agreements or determinations of the comptroller of the city of New York in appropriate cases.

### **SECTION 14.3. NON-INSTRUCTIONAL STAFF POSITIONS.**

The qualification requirements for non-instructional staff positions shall be those established by the appropriate position specification or civil service examination announcement, or standards established by the CUNY civil service commission.

### **SECTION 14.4. NON-INSTRUCTIONAL STAFF DISCIPLINARY PROCEDURES.**

All non-instructional staff members whose employment is governed by a collective bargaining agreement are subject to discipline in accordance with the disciplinary procedures set forth in that agreement, as are members who are represented by a union that has agreed to use those disciplinary procedures. All other non-instructional staff members are subject to discipline in accordance with the provisions in the CUNY Personnel Rules and Regulations.

## **ARTICLE XV STUDENTS**

### **SECTION 15.0. PREAMBLE.**

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Student participation, responsibility, academic freedom, and due process are essential to the operation of the academic enterprise. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to learn and to explore major social, political, and economic issues are necessary adjuncts to student academic freedom, as is freedom from discrimination, as set forth in the university's non-discrimination policy.

Freedom to learn and freedom to teach are inseparable facets of academic freedom. The concomitant of this freedom is responsibility. If members of the academic community are to develop positively in their freedom; if these rights are to be secure, then students should exercise their freedom with responsibility.

## **SECTION 15.1. CONDUCT STANDARD DEFINED.**

Each student enrolled or in attendance in any college, school or unit under the control of the board and every student organization, association, publication, club or chapter shall obey (1) the laws of the city, state and nation; (2) the bylaws and resolutions of the board, including the rules and regulations for the maintenance of public order pursuant to article 129-a of the education law ("Henderson rules"); and (3) the governance plan, policies, regulations, and orders of the college.

Such laws, bylaws, resolutions, policies, rules, regulations and orders shall, of course, be limited by the right of students to the freedoms of speech, press, assembly and petition as construed by the courts.

## **SECTION 15.2. STUDENT ORGANIZATIONS.**

a. Any group of students may form a team (excluding intercollegiate athletics), student media/publications, organization, association, club or chapter by filing with the duly elected student government organization of the college or school at which they are enrolled or in attendance and with an officer to be designated by the chief student affairs officer of the college or school at which they are enrolled or in attendance (1) the name and purposes of the organization, association, club or chapter, (2) the names and addresses of its president and secretary or other officers corresponding in function to president and secretary.

The board recognizes that students have rights to free expression and association. At the same time, the board strongly believes that respect for all members of the university's diverse community is an essential attribute of a great university and requires viewpoint neutrality in the recognition of student teams, student media/publications, organizations, associations, clubs or chapters.

Each student leader and officer of student organizations recognized by or registered with the institution, as well as those seeking recognition by the institution, must complete training on domestic violence, dating violence, stalking, and sexual assault prevention and on CUNY's Policy on Sexual Misconduct prior to the organization receiving recognition or registration.

b. Extra-curricular activities at each college or school shall be regulated by the duly elected student government organization to insure the effective conduct of such college or school as an institution of higher learning and for the prevention of activities which are hereafter proscribed or which violate the standards of conduct of the character set forth in bylaw 15.1. Such powers shall include:

1. i. The power to charter or otherwise authorize teams (excluding intercollegiate athletics), student media/publications, organizations, associations, clubs or chapters, and, when appropriate in the exercise of such regulatory power, the power to refuse, suspend or revoke any charter or other authorization for cause after hearing on notice. All such decisions must be based upon viewpoint neutral criteria as detailed in the Fiscal Accountability Handbook and must be based upon the written submissions of the student team, publication, organization, association, club or chapter, which will describe its intent to conduct activities for the benefit of students. ii. All decisions declining a charter or authorization must be in writing and are appealable to the college or school's chief student affairs officer or designee, who shall render a final written decision on the appeal. iii. Appeals must be based upon one or both of the following two grounds: the denial was arbitrary and capricious or discriminated against the applicant based upon viewpoint.

2. The power to delegate responsibility for the effective implementation of its regulatory functions hereunder to any officer or committee which it may appoint.

c.

1. Any person or organization affiliated with the college may file a complaint with the chief student affairs officer if there is reason to believe that a student organization has violated any of the standards of conduct set forth in section 15.1 above. The chief student affairs officer shall promptly notify the affected organization, investigate any complaint and report the results of that investigation along with a recommendation for appropriate action to the complainant and the student government which shall take action as it deems appropriate, except that in the case of a complaint against the student government itself, the chief student affairs officer shall report the results of the investigation and the recommendation for appropriate action directly to the president.

2. The complainant or any student organization adversely affected pursuant to paragraph C (1) above may appeal to the president. The president may take such action as he or she deems appropriate, and such action shall be final.

d. Each college shall establish a student elections review committee in consultation with the various student governments. The student elections review committee shall approve the election procedures and certify the results of elections for student governments, and student body referenda. Decisions of the student elections review committee may be appealed to the college president, whose decision shall be final. An appeal from the decision of the student elections review committee must be made in writing to the President within ten (10) calendar days of the decision. The President shall consult with the student elections review committee and render a decision as expeditiously as possible which may affirm, reverse, or modify the decision of the student elections review committee.

e. Student government elections shall be scheduled and conducted, and newly elected student governments shall take office, in accordance with policies of the board, and implementing regulations.

## **SECTION 15.3. THE UNIVERSITY STUDENT SENATE.**

There shall be a university student senate responsible, subject to the board of trustees, for the formulation of university-wide student policy relating to the academic status, role, rights and freedoms of the student. The authority and duties of the university student senate shall not extend to areas of interest which fall exclusively within the domain of the student governments of the constituent units of the university. Consistent with the authority of the board of trustees in accordance with the education law and the bylaws of the board of trustees, the university student senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures, for its internal administration and for such other matters as is necessary for its existence. The university student senate shall have the full rights and responsibilities accorded student organizations as provided in these bylaws. The delegates and alternate delegates to the university student senate shall be elected by their respective constituencies or by their student governments from the elected members of the respective student governments.

## **SECTION 15.4. STUDENT DISCIPLINARY PROCEDURES.**

Complaint Procedures:

a. A University student, employee, organization, department or visitor who believes she or he is the victim of a student's misconduct (hereinafter "complainant") may make a charge, accusation, or allegation against a student (hereinafter "respondent") which if proved, may subject the respondent to disciplinary action. Such charge, accusation, or

allegation must be communicated to the chief student affairs officer of the college the respondent attends.

b. The chief student affairs officer of the college or her or his designee shall conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or her or his designee shall advise the respondent of the allegation against her or him, explain to the respondent and the complainant their rights, consult with other parties who may be involved or who have information regarding the incident, and review other relevant evidence. The preliminary investigation shall be concluded within thirty (30) calendar days of the filing of the complaint, unless: (i) said complaint involves two or more complainants or respondents; or (ii) said complaint involves a matter that is also under investigation by law enforcement authorities. In those cases, the preliminary investigation shall be completed within sixty (60) calendar days.

Further, if the matter has been previously investigated pursuant to the CUNY Policy on Sexual Misconduct, the chief student affairs officer shall dispense with a preliminary investigation and rely on the report completed by the Title IX Coordinator. Following the completion of the preliminary investigation, the chief student affairs officer or designee shall take one of the following actions:

1. Dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary action. The individuals involved shall be notified that the complaint has been dismissed;
2. Refer the matter to mediation (except in cases involving allegations of sexual assault, stalking or other forms of sexual violence); or
3. Prefer formal disciplinary charges.

c. In cases involving the CUNY Policy on Sexual Misconduct, both the Complainant and Respondent may be accompanied by an advisor of their choice (including an attorney) who may assist and advise throughout the entire process, including all meetings and hearings. Advisors may represent a party and fully participate at a hearing, but may not give testimony as a witness.

d. In the event that a respondent withdraws from the college after a charge, accusation or allegation against a respondent has been made, and the college prefers formal disciplinary charges, the respondent is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made or the charges are otherwise resolved. Immediately following the respondent's withdrawal, the college must place a notation on her/his transcript that she/he "withdrew with conduct charges pending." If the respondent fails to appear, the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding, and the transcript notation, if any, resulting from that decision and penalty shall replace the notation referred to above.

Mediation Conference:

e. The college may offer the respondent and the complainant the opportunity to participate in a mediation conference prior to the time the disciplinary hearing takes place in an effort to resolve the matter by mutual agreement (except in cases involving sexual assault, stalking and other forms of sexual violence). The conference shall be conducted by a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:

1. An effort shall be made to resolve the matter by mutual agreement through such process as the mediator deems most appropriate; provided, however, that the complainant must be notified of her/his right to end the mediation at any time.
2. If an agreement is reached, the faculty or staff member conducting the conference shall report her/his recommendation to the chief student affairs officer for approval and, if approved, the complainant and the respondent shall be notified, and a written memorandum shall be created memorializing the resolution and any consequences for non-compliance.
3. If no agreement is reached within a reasonable time, or if the respondent fails to appear, the faculty or staff member conducting the conference shall refer the matter back to the chief student affairs officer who may prefer disciplinary charges, or, if charges have been preferred, proceed to a disciplinary hearing.
4. The faculty or staff member conducting the mediation conference is precluded from testifying at a college hearing regarding information received during the mediation conference, or presenting the case on behalf of the college.

Notice of Charges and Hearing:

f. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered to the respondent, or sent by certified or overnight mail and email to the address appearing on the records of the college. Notice shall also be sent in a similar manner to the complainant to the extent the charges relate to her/him. The chief student affairs officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent and the complainant. The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment as of right. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the faculty-student disciplinary committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed in absentia, and any decision and sanction shall be binding.

g. The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the rule, bylaw or regulation she/he is charged with violating, and the possible penalties for such violation.
2. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:
  - (i) to present their side of the story;
  - (ii) to present witnesses and evidence on their behalf;
  - (iii) to cross-examine witnesses presenting evidence;
  - (iv) to remain silent without assumption of guilt; and
  - (v) to be assisted or represented by an advisor or legal counsel at their expense; if the respondent or the complainant requests it, the college shall assist in finding a legal counsel or advisor.
3. A warning that anything the respondent says may be used against her/him at a non-college hearing.

Pre-Hearing Document Inspection:

h. At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review any documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by Family Education Rights and Privacy Act ("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during, or some time prior to, the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the additional documents or tangible evidence. If during the hearing the complainant or the respondent submits documentary evidence, the chairperson may, at the request of any other party grant an adjournment of the hearing as may be necessary in the interest of fairness to permit the requesting party time to review the newly produced evidence.

Admission and Acceptance of Penalty Without Hearing:

i. At any time after receiving the notice of charges and hearing but prior to the commencement of a disciplinary hearing, the respondent may admit to the charges and accept the penalty that the chief student affairs officer or designee determines to be appropriate to address the misconduct. This agreed upon penalty shall be placed on the respondent's transcript consistent with subparagraphs q(19) and (20) herein. Before resolving a complaint in this manner, the chief student affairs officer must first

consult with the complainant and provide the complainant an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant's objection, the chief student affairs officer or designee shall provide the complainant with a written statement of the reasons supporting such resolution, and the complainant may appeal the decision to enter into the resolution to the president.

Emergency Suspension:

j. The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing as provided in this bylaw section 15.4. to take place within not more than twelve (12) calendar days, unless the student requests an adjournment. Such suspension shall be for conduct which impedes, obstructs, impairs or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution. Prior to the commencement of a temporary suspension of a student, the college shall give the student oral notice (which shall be confirmed via email to the address appearing on the records of the college) or written notice of the charges against her/him and, if she/he denies them, the college shall forthwith give the student an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter. When a student's presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter. The complainant shall be notified in the event that an emergency suspension is imposed against a student, and/or when the suspension is subsequently lifted to the extent that the suspension involves the complainant in the same manner notice is given to the student.

Faculty-Student Disciplinary Committee Structure:

k. Each faculty-student disciplinary committee shall consist of two (2) faculty members or one

(1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

l. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training upon appointment and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons: CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

m. The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEOs appointed biennially by the president. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEOs. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than four (4) consecutive years. Notwithstanding the above, in cases of sexual assault, stalking and other forms of sexual violence, the president shall designate from the panels one (1) chairperson, two (2) faculty/HEO members, and two (2) students, who shall be specially trained on an annual basis, and who shall constitute the faculty-student disciplinary committee in all such cases.

n. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery.

o. Each academic year, the chief student affairs officer, or her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

p. Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Faculty-Student Disciplinary Committee Procedures:

q. The following procedures shall apply to faculty-student disciplinary proceedings:

Hearing:

1. The chairperson shall preside at the hearing. The chairperson shall inform the respondent of the charges, the hearing procedures and her or his rights.

2. All faculty student disciplinary committee hearings are closed hearings unless the respondent requests an open public hearing. Notwithstanding such requests, the chairperson shall not permit an open hearing in cases involving allegations of sexual assault, stalking, or other forms of sexual violence. Furthermore, the chairperson has the right to deny the request and hold a closed hearing when an open public hearing would adversely affect and be disruptive to the committee's normal operations. In the event of an open hearing, the respondent must sign a written waiver acknowledging that those present will hear the evidence introduced at the hearing.

3. After informing the respondent of the charges, the hearing procedures, and her or his rights, the chairperson shall ask the respondent to respond. If the respondent admits the conduct charged, the respondent shall be given an opportunity to explain her/his actions before the committee and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its case. At the conclusion of the college's case, the respondent may move to dismiss the charges. If the motion is denied by the committee, the respondent shall be given an opportunity to present her or his defense.

4. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may rule on the admissibility of the evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. In addition, if any party wishes to question the impartiality of a committee member on the basis of evidence which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

5. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. The college must assign a staff member for each hearing, with the sole responsibility of ensuring that the hearing is recorded in its entirety. No other recording of the proceedings may be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's representative or attorney. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their representatives or attorneys.

6. The college bears the burden of proving the charge(s) by a preponderance of the evidence.

7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and render a determination. In the event the respondent is found to have committed the conduct charged, the committee shall

then determine the penalty to be imposed.

8. The college, the respondent and the complainant are permitted to have lawyers or other representatives or advisors act on their behalf during the pendency of a disciplinary action, which shall include the calling and examining of witnesses, and presenting other evidence. Any party intending to appear with an attorney shall give the other party 5 (five) calendar days' notice of such representation.

9. The chairperson of the faculty-student disciplinary committee retains discretion to limit the number of witnesses and the time of testimony for the presentations by any party and/or their representative.

10. In the event that the respondent is charged with a sexual assault, stalking or other forms of sexual misconduct, neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they wish to, the respondent and the complainant may cross-examine each other only through a representative. If either or both of them do not have a representative, the college shall work with them to find a representative to conduct such cross-examination. In the alternative, the complainant and respondent may provide written questions to the chairperson to be posed to the witness.

11. In a case involving the CUNY Policy on Sexual Misconduct:

a) Evidence of the mental health diagnosis and/or treatment of a party may not be introduced.

b) Evidence of either party's prior sexual history may not be introduced except that (i) evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing, and (ii) past findings of domestic violence, dating violence, stalking, or sexual assault may be admissible in the stage of that hearing related to penalty Penalty Phase:

12. If the respondent has been found responsible, then all parties may introduce evidence related to the respondent's character including any past findings of a respondents' responsibility for domestic violence, stalking, or sexual assault or any other sexual violence. The College may introduce a copy of the respondent's previous disciplinary record; including records from any CUNY institution the respondent has attended, where applicable, provided the respondent was shown a copy of the record prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the committee in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found to have committed the conduct charged. The previous disciplinary records, as well as documents and character evidence introduced by the respondent, the complainant, and the college shall be opened and used by the committee for dispositional purposes, i.e., to determine an appropriate penalty if the charges are sustained. The complainant and respondent may also provide or make an impact statement. Such evidence and impact statements shall be used by the committee only for the purpose of determining an appropriate penalty if the charges are sustained.

Decision:

13. The committee shall deliberate in closed session. The committee shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing and the papers filed by the parties.

14. The respondent shall be sent a copy of the faculty-student disciplinary committee's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the respondent shall be sent a copy of faculty-student disciplinary committee's decision within fourteen (14) calendar days of the conclusion of the hearing. The chief student affairs officer is also encouraged to send the decision to any other e-mail address that he or she may have for the respondent. The decision shall be final subject to any appeal. In cases involving a crime of violence or a non-forcible sex offense, as set forth in FERPA, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

15. When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a university-wide penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

Appeals:

16. A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii)

the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee. If the penalty after appeal to the president is one of dismissal for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

17. An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the non-appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

18. The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

Notations on Transcripts:

19. In cases in which a respondent has been found responsible for a Clery Act reportable crime of violence, the college must place a notation on her/his transcript stating that she/he was suspended or expelled after a finding of responsibility for a code of conduct violation. In all other cases, the college must place a notation of the findings and penalty on a respondent's transcript unless a mediation agreement, under subparagraph e(2) herein, the determination of the chief student affairs officer or designee under subparagraph l herein, the committee's decision under subparagraph q(13) herein, or the decision on any appeal under subparagraphs q(16)-(18) herein expressly indicate otherwise.

20. A notation of expulsion after a respondent has been found responsible for a Clery Act reportable crime of violence shall not be removed. In all other cases, a notation of expulsion, suspension or any lesser disciplinary penalty shall be removed, as a matter of right, upon the request of the respondent to the Chief Student Affairs Officer made, four years after the conclusion of the disciplinary proceeding or one year after the conclusion of any suspension, whichever is longer. If a finding of responsibility for any violation is vacated for any reason, any such notation shall be removed.

## **SECTION 15.5. ACTION BY THE BOARD OF TRUSTEES.**

Notwithstanding the foregoing provisions of this article, the board of trustees reserves full power to suspend or take other appropriate action against a student or a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or units of the university in the use of its facilities or in the achievement of its purposes as an educational institution in accordance with procedures established by the board of trustees.

## **SECTION 15.6. COLLEGE GOVERNANCE PLANS.**

The provisions in a duly adopted college governance plan shall not be inconsistent with the provisions contained in this article.

## **ARTICLE XVI STUDENT ACTIVITY FEES AND AUXILIARY ENTERPRISES**

### **SECTION 16.1. STUDENT ACTIVITY FEE.**

The student activity fee is the total of the fees for student government and other student activities. Student activity fees, including student government fees collected by a college of the university shall be deposited in a college central depository and, except where earmarked by the board, allocated by a college association budget committee subject to review by the college association as required in these bylaws

### **SECTION 16.2. STUDENT ACTIVITY FEES USE – EXPENDITURE CATEGORIES.**

Student activity fee funds shall be allocated and expended only for the following purposes

1. Extracurricular educational programs;
2. Cultural and social activities
3. Recreational and athletic programs
4. Student government
5. Publications and other media
6. Assistance to registered student organizations
7. Community service programs
8. Enhancement of the college and university environment
9. Transportation, administration and insurance related to the implementation of these activities
10. Student services to supplement or add to those provided by the university
11. Stipends to student leaders

### **SECTION 16.3. STUDENT GOVERNMENT FEE.**

The student government fee is that portion of the student activity fee levied by resolution of the board which has been established for the support of student government activities. The existing student government fees now in effect shall continue until changed. Student government fees shall be allocated by the duly elected student government, or each student government where more than one duly elected student government exists, for its own use and for the use of student organizations, as specified in section 15.2. of these bylaws, provided, however, that the allocation is based on a budget approved by the duly elected student government after notice and hearing, subject to the review of the college association. Where more than one duly elected student government exists, the college association shall apportion the student government fees to each student government in direct proportion to the amount collected from members of each student government

### **SECTION 16.4. STUDENT GOVERNMENT ACTIVITY DEFINED.**

a. A student government activity is any activity operated by and for the students enrolled at any unit of the university provided, (1) such activity is for the direct benefit of students enrolled at the college, (2) that participation in the activity and the benefit thereof is available to all students enrolled in the unit or student government thereof, and (3) that the activity does not contravene the laws of the city, state or nation, or the published rules, regulations, and orders of the university or the duly established college authorities

### **SECTION 16.5. COLLEGE ASSOCIATION.**

a. The college association shall have responsibility for the supervision and review over college student activity fee supported budgets. All budgets of college student activity fees, except where earmarked by the board to be allocated by another body, should be developed by a college association budget committee and recommended to the college association for review by the college association prior to expenditure. The college association shall review all college student activity fee, including student government fee allocations and expenditures for conformance with the expenditure categories defined in Section 16.2. of this article and the college association shall disapprove any allocation or expenditure it finds does not so conform, or is inappropriate, improper, or inequitable

b. A college association shall be considered approved for purposes of this article if it consists of thirteen (13) regular, voting members and up to six (6) alternates, its governing documents are approved by the college president and the below requirements are met. Notwithstanding the foregoing, a college association that is not separately-incorporated may have a governing board of thirteen (13) members consisting of the individuals listed in 1(i) through 1(iv) below, plus one additional administrative member and one additional faculty member, and is not required to have the audit committee referenced in 3 below

1. The governing board of the college association is composed of

(i) The college president or his/her designee as chair

(ii) Two administrative members and one administrative alternate, appointed by the college president

(iii) Two faculty members and up to two faculty alternates appointed by the college president from a panel whose size is twice the number of seats (including the alternates) to be filled and the panel is elected by the appropriate college faculty governance body

(iv) Six student members and up to three student alternates comprised of the student government president(s) and other elected students with the student seats allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable in proportion to the student activity fees provided by the students from the respective constituencies

(v) Two independent directors appointed by the college president. An independent director shall be a former employee of the college or the association, a college alum, a community member, or any other individual, who, pursuant to Section 102 of the Not-for-Profit Corporations Law: (A) has not been within three years of his or her appointment to the governing board of the association, an employee of the association, CUNY or the Research Foundation of CUNY; and (B) does not have a relative who is, or has been within three years of the individual's appointment to the governing board, a key employee of the association, CUNY or the Research Foundation of CUNY; and (C) has not received, and does not have a relative who has received, in any of the three fiscal years prior to the individual's appointment to the governing board, more

than \$10,000 in direct compensation from the association, CUNY or the Research Foundation of CUNY (other than reimbursement for expenses reasonably incurred as a director or reasonable compensation for service as a director as permitted by the Not-for-Profit Corporations Law); and (D) is not a current employee of or does not have a substantial financial interest in, and does not have relative who is a current officer of or has a substantial financial interest in, any entity that has made payments to, or received payments from, the association, CUNY or the Research Foundation of CUNY for property or services in an amount which, in any of the three fiscal years prior to the individual's appointment to the governing board, exceeds the lesser of \$25,000 or 2% of such entity's consolidated gross revenues. For purposes of this definition, "payment" does not include charitable contributions

(vi) The alternates may attend meetings of the governing board, and each shall be entitled to vote on such matters that come before the governing board to the extent that the alternate is substituting for an absent member of the same constituency

2. The college association structure provides a budget committee composed of members of the governing board, at least a majority of whom are students selected in accordance with section 16.5.(b) (1)(iv) of these bylaws. The budget committee shall be empowered to receive and review student activity fee budget requests and to develop a budget subject to the review of the college association. The college association may choose to not approve the budget or portions of the budget if in their opinion such items are inappropriate, improper, or inequitable. The budget shall be returned to the budget committee with the specific concerns of the college association noted for further deliberation by the budget committee and subsequent resubmittal to the college association. If the budget is not approved within thirty (30) days those portions of the budget voted upon and approved by the college association board will be allocated. The remainder shall be held until the college association and the budget committee agree

3. Every separately-incorporated college association shall have an audit committee consisting of the two independent directors and one student member elected by the governing board who meets the criteria for independence set forth in 16.5.(b)(1)(v)(A) through (D). The audit committee shall oversee the accounting and financial reporting processes of the association and the audit of the association's financial statements and shall have such other duties as set forth in Section 712-a of the Not-for-Profit Corporations Law

4. The governing documents of the college association have been reviewed by the board's general counsel and approved by the board

## **SECTION 16.6. MANAGEMENT AND DISBURSEMENT OF FUNDS.**

The college and all student activity fee allocating bodies shall employ generally accepted accounting and investment procedures in the management of all funds. All funds for the support of student activities are to be disbursed only in accordance with approved budgets and be based on written documentation. A requisition for disbursement of funds must contain two signatures; one, the signature of a person with responsibility for the program; the other the signature of an approved representative of the allocating body

## **SECTION 16.7. REVENUES.**

All revenues generated by student activities funded through student activity fees shall be placed in a college central depository subject to the control of the allocating body. The application of such revenues to the account of the income generating organization shall require the specific authorization of the allocating body

## **SECTION 16.8. FISCAL ACCOUNTABILITY HANDBOOK.**

The chancellor or his/her designee shall promulgate regulations in a fiscal accountability handbook, to regulate all aspects of the collection, deposit, financial disclosure, accounting procedures, financial payments, documentation, contracts, travel vouchers, investments and surpluses of student activity fees and all other procedural and documentary aspects necessary, as determined by the chancellor or his/her designee to protect the integrity and accountability of all student activity fee funds

## **SECTION 16.9. COLLEGE PURPOSES FUND.**

a. A college purposes fund may be established at each college and shall be allocated by the college president. This fund may have up to twenty-five (25) percent of the unearmarked portion of the student activity fee earmarked to it by resolution of the board, upon the presentation to the board of a list of activities that may be properly funded by student activity fees that are deemed essential by the college president

b. Expenditures from the college purposes fund shall be subject to full disclosure under section 16.13. of these bylaws

c. Referenda of the student body with respect to the use and amount of the college purposes fund shall be permitted under the procedures and requirements of section 16.12. of these bylaws

## **SECTION 16.10. AUXILIARY ENTERPRISE CORPORATION.**

a. The auxiliary enterprise corporation shall have responsibility for the oversight, supervision and review over college auxiliary enterprises. All budgets of auxiliary enterprise funds and all contracts for auxiliary enterprises shall be reviewed by the auxiliary enterprise corporation prior to expenditure or execution

b. The auxiliary enterprise corporation shall be considered approved for the purposes of this article if it consists of at least eleven (11) members, its governing documents are approved by the college president and the following requirements are met

1. The governing board is composed of the college president or his/her designee as chair, plus an equal number of students and the combined total of faculty and administrative members, and two independent directors

2. The administrative members are appointed by the college president

3. The faculty members are appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body

4. The student members are the student government president(s) and other elected students and the student seats are allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable, in proportion to the student enrollment by headcount from the respective constituencies

5. The independent directors are appointed by the college president. An independent director shall be a former employee of the college or the auxiliary enterprises corporation, a college alum, a community member, or any other individual, who, pursuant to Section 102 of the Not-for-Profit Corporations Law: (A) has not been within three years of his or her appointment to the governing board of the auxiliary enterprises corporation, an employee of the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY; and (B) does not have a relative who is, or has been within three years of the individual's appointment to the governing board, a key employee of the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY; and (C) has not received, and does not have a relative who has received, in any of the three fiscal years prior to the individual's appointment to the governing board, more than \$10,000 in direct compensation from the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY (other than reimbursement for expenses reasonably incurred as a director or reasonable compensation for service as a director as permitted by the Not-for-Profit Corporations Law); and (D) is not a current employee of or does not have a substantial financial interest in, and does not have relative who is

a current officer of or has a substantial financial interest in, any entity that has made payments to, or received payments from, the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY for property or services in an amount which, in any of the three fiscal years prior to the individual's appointment to the governing board, exceeds the lesser of \$25,000 or 2% of such entity's consolidated gross revenues. For purposes of this definition, "payment" does not include charitable contributions

6. The auxiliary enterprises corporation shall have an audit committee consisting of the two independent directors and one student member elected by the governing board who meets the criteria for independence set forth in 16.10.(b)(5)(A) through (D). The audit committee shall oversee the accounting and financial reporting processes of the auxiliary enterprises corporation and the audit of the auxiliary enterprises corporation's financial statements and shall have such other duties as set forth in Section 712-a of the Not-for-Profit Corporations Law

7. The governing documents of the auxiliary enterprise corporation have been reviewed by the board's general counsel and approved by the board

## **SECTION 16.11. THE REVIEW AUTHORITY OF COLLEGE PRESIDENTS OVER STUDENT ACTIVITY FEE ALLOCATING BODIES AND AUXILIARY ENTERPRISE CORPORATIONS.**

a. The president of the college shall have the authority to disapprove any student activity fee, including student government fee, or auxiliary enterprise allocation or expenditure, which in his or her opinion contravenes the laws of the city, state, or nation or any bylaw or policy of the university or any policy, regulation, or order of the college. If the college president chooses to disapprove an allocation or expenditure, he or she shall consult with the general counsel and vice chancellor for legal affairs and thereafter communicate his/her decision to the allocating body or auxiliary enterprise board

b. The president of the college shall have the authority to suspend and send back for further review any student activity fee, including student government fee, allocation or expenditure which in his or her opinion is not within the expenditure categories defined in section 16.2. of this article. The college association shall, within ten (10) days of receiving a proposed allocation or expenditure for further review, study it and make a recommendation to the president with respect to it. The college president shall thereafter consider the recommendation, shall consult with the general counsel and vice chancellor for legal affairs, and thereafter communicate his/her final decision to the allocating body as to whether the allocation or expenditure is disapproved

c. The chancellor or his/her designee shall have the same review authority with respect to university student activity fees that the college president has with respect to college student activity fees

d. All disapprovals exercised under this section shall be filed with the general counsel and vice chancellor for legal affairs

e. Recipients of extramural student activity fees shall present an annual report to the chancellor for the appropriate board committee detailing the activities, benefits and finances of the extramural body as they pertain to the colleges where students are paying an extramural fee

## **SECTION 16.12. REFERENDA.**

A referendum proposing changes in the student activity fee shall be initiated by a petition of at least ten (10) percent of the appropriate student body and voted upon in conjunction with student government elections

a. Where a referendum seeks to earmark student activity fees for a specific purpose or organization without changing the total student activity fee, the results of the referendum shall be sent to the college association for implementation

b. Where a referendum seeks to earmark student activity fees for a specific purpose or organization by changing the total student activity fee, the results of such referendum shall be sent to the board by the president of the college together with his/her recommendation

c. At the initiation of a petition of at least ten (10) percent of the appropriate student body, the college president may schedule a student referendum at a convenient time other than in conjunction with student government elections

d. Where the referendum seeks to affect the use or amount of student activity fees in the college purposes fund, the results of the referendum shall be sent to the board by the college president together with his/her recommendation

## **SECTION 16.13. DISCLOSURE.**

a. The college president shall be responsible for the full disclosure to each of the student governments of the college of all financial information with respect to student activity fees

b. The student governments shall be responsible for the full disclosure to their constituents of all financial information with respect to student government fees

c. The student activity fee allocating bodies shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to all of its activities

d. The auxiliary enterprise corporation shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to auxiliary enterprises

e. For purposes of the foregoing paragraphs, full disclosure shall mean the presentation each semester of written financial statements which shall include, but need not be limited to, the source of all fee income by constituency, income from other sources creditable to student activity fee accounts, disbursements, transfers, past reserves, surplus accounts, contingency and stabilization funds. Certified independent audits performed by a public auditing firm shall be conducted at least once each year

## **SECTION 16.14. STIPENDS.**

The payment of stipends to student leaders is permitted only within those time limits and amounts authorized by the board

## **ARTICLE XVII DEFINITIONS**

### **SECTION 17.1.**

The following definitions shall apply in these bylaws

a. "Board" means the board of trustees of the city university of New York

b. "Department" means an instructional department of a college or a Ph.D. program in the graduate school and university center; if the instructional work of the college is organized into divisions or programs, it shall mean a division or program

c. "Department chairperson" means a department head as such title is used in a community college, a program director as such title is used in the school of professional studies or a community college, or an executive officer as such title is used in the graduate school

- d. "Tenure" is the right of a person to hold his/her position during good behavior and efficient and competent service; and not to be removed therefrom except in accordance with applicable contractual provisions and law
- e. "Senior college" means a four-year college, the graduate school and university center (and all components thereof), and the law school
- f. "Community college" means a two-year college offering associate degrees
- g. "College" or "Educational unit" shall mean a senior college or a community college
- h. "President" includes the president of a college, or anyone acting in such capacity as the sense of the provision may be appropriate, including the deans of the law school, the school of professional studies and the graduate school of journalism
- i. "Promotion" is the advancement from a title on the permanent instructional staff to another title on the permanent instructional staff

## Repeating Courses

---

Students may not repeat a course they have already passed unless that course has been designated as repeatable in this Bulletin. In instances in which a course is repeated, the repeated course does not confer additional credit, and the average of the two passing grades is included in the G.P.A. calculation. This limitation applies to courses taken at City College, courses taken at other colleges for credits that are transferred into CCNY, and to courses for which credit is granted by exemption, examination or advanced placement examination. Courses designated as repeatable may confer additional credit, up to the maximum number of allowable credits, as stated in this Bulletin. Students are ultimately responsible for determining if the coursework they select is a repeat of prior coursework.

Students who do not successfully complete a course (grades of W, WU, F, FIN) may re-enroll for the course only ONCE without seeking advice from an Advisor. The absolute maximum number of times that a student may enroll in the same course is three. If the course is required for their major and if they do not pass after three tries, they must change majors or leave the College. The Committees of Course and Standing will rule on appeals to this policy.

## Requirements for Graduation

---

Students who entered City College as first-time freshmen before September 1996 may be required to complete 128 credits.

Students who enrolled thereafter will be required to complete a total of 120 credits, to include major and general education/core requirements. Exceptions are the degree programs in Architecture, Engineering and the Sophie Davis School of Biomedical Education, which require more than 120 credits.

Students are expected to be familiar with the requirements of their degree programs. All requirements for the degree must be met before the date of graduation. The temporary grade of INC (including those assigned in the final semester of attendance) must be resolved prior to the date of graduation.

In addition, all "stops" must be cleared by the date of graduation. Failure to clear "stops" will result in the delay of the distribution of diplomas and the processing of requests for transcripts.

Upper-division students should have a preliminary graduation check conducted two semesters before the anticipated date of graduation by an advisor in their department or division. The final graduation check and certification is conducted in the appropriate Dean's Office.

The following applies to all students who enter The City College of New York either as a freshmen or a transfer student:

To obtain a Bachelor of Arts degree, students must have a minimum of ninety (90) credits in courses that are classified as Liberal Arts & Sciences courses. For a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For Bachelor of Architecture, Bachelor of Fine Arts, Bachelor of Engineering and Bachelor of Music degrees, a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Residency Requirement for the CLAS Divisions as of Fall 2023

To be eligible for a degree, a student at the City College of New York, must complete 30 credits of their degree at City College. In addition, at least 60% of the major (50% required for a minor) must be completed in residency at City College. All transfer students and second degree students (including those who are graduates of City College) are subject to the residency requirement. Graduates of City College who return for a second degree may not use coursework completed under the first degree to meet the residency requirement for a second degree from City College.

## Student Complaints

---

### Discrimination

The City College and The City University of New York are committed to addressing discrimination complaints promptly, consistently and fairly. Any City College employee, student, applicant for admission or employment or other participant in the College's programs or activities who believes they have been unlawfully discriminated against on the basis of age, color, disability, national or ethnic origin, race, religion, sex, sexual orientation, or veteran status may file a complaint in writing with the [Office of Diversity and Compliance](#) using the Discrimination Complaint Form by e-mail to the Interim Title XIX Coordinator, Ms. Diana Cuzzo, at [dcuzzo@ccny.cuny.edu](mailto:dcuzzo@ccny.cuny.edu) or by stopping in the Diversity and Compliance Office in Shepard Hall, Room 109 A-D.

### Sexual Assault

Please consult the [Office of Affirmative Action, Compliance and Diversity Title IX Sexual Assault Policy web page](#).

### Grade and other Academic Appeals

See [Academic Appeals](#).

## Other Complaints

Students with grievances concerning matters other than grades should first attempt to resolve the grievance at the department level through discussion with the faculty member(s) or department chair. If the matter is not resolved, the student or department may refer the problem to the appropriate academic dean, the Ombudsman, or the Vice President for Student Affairs, via the [Student Complaint Procedure Form](#), who shall, if necessary, refer it to the Office of the Provost for further consideration and possible action. See also [Procedures For Handling Student Complaints About Faculty Conduct In Academic Settings](#).

## Undergraduate Graduation Honors (Latin Honors)

For students admitted to the College prior to Fall 2014 the graduation honors policy is as follows:

At graduation, there are three categories of honors for baccalaureate candidates.

- A degree summa cum laude is granted to students whose average in all subjects is at least 3.8.
- A degree magna cum laude is granted to students whose average in all subjects is at least 3.5.
- A degree cum laude is granted to students whose average in all subjects is at least 3.2.

Students who entered in August, 2014, or later, must have completed at least 50 credits in residence at City College and the G.P.A. calculations for Latin Honors will be based solely on coursework taken at CCNY.

For students who entered prior to August 2014, the G.P.A. computation of graduation honors will be based on all college work taken by students at institutions other than the City College. This course work is taken into account even if some of the course work is not transferred.

A student may not obtain a higher honor (i.e. magna cum laude instead of cum laude) than their City College index indicates. Thus, if a student achieves a 3.3 index at the City College and has a combined index of 3.5, the honor of cum laude is awarded.

Second degree Students are not eligible for graduation honors.

For students admitted to the College in Fall 2014 and after the graduation honors policy is as follows:

At graduation, there are three categories of honors for baccalaureate candidates.

- A degree summa cum laude is granted to students whose average in all subjects is at least 3.8.
- A degree magna cum laude is granted to students whose average in all subjects is at least 3.5.
- A degree cum laude is granted to students whose average in all subjects is at least 3.2.

Students must complete a minimum of 50 credits at City College to be eligible for Latin honors.

Only coursework completed at City College is taken into account in the computation of graduation honors.

Second degree students are not eligible for graduation honors.

## The City University of New York Campus and Workplace Violence Policy

### POLICY STATEMENT \*\*1

The City University of New York (the "University" or "CUNY") is committed to the prevention of workplace violence and will respond promptly to any threats and/or acts of violence. For purposes of this Policy, Workplace Violence is defined as any physical assault or acts of aggressive behavior occurring where an employee performs any workrelated duty in the course of his or her employment, including but not limited to:

- (i) An attempt or threat, whether verbal or physical, to inflict physical injury upon an employee;
- (ii) Any intentional display of force which would give an employee reason to fear or expect bodily harm;
- (iii) Intentional and wrongful physical contact with an employee without his or her consent that entails some injury;
- (iv) Stalking an employee in a manner which may cause the employee to fear for his or her physical safety and health when such stalking has arisen through and in the course of employment.

Workplace Violence presents a serious occupational safety hazard to CUNY and its employees. The University will respond promptly to threats and/or acts of violence. All employees are responsible for helping to create an environment of mutual respect and for assisting in maintaining a safe and secure work environment and will participate in the annual Workplace Violence Prevention Training Program. Individuals who violate this Policy may be removed from University property and are subject to disciplinary and/or personnel action up to and including termination, consistent with University policies, rules and collective bargaining agreements, and/or referral to law enforcement authorities for criminal prosecution

Incidents involving Workplace Violence will be given the serious attention they deserve. \*\*2 Employees are responsible for reporting any incidents of Workplace Violence of which they become aware. The procedure for reporting incidents of suspected or alleged Workplace Violence can be found in the campus specific Workplace Violence Programs at Paragraph 7. The procedure for reporting complaints of a potential violation of the CUNY Workplace Violence Policy and Programs can be found in the campus specific Workplace Violence Programs at Paragraph 9.

The University, at the request of an employee or student, or at its own discretion, may prohibit members of the public, including family members, from seeing an employee or student on University property unless necessary to transact University-related business. This policy particularly applies when an employee or student anticipates that an act of violence may result from an encounter with said individual(s). \*\*3

Employee participation in the implementation of this Policy will be provided through their authorized employee representatives, who will be invited to participate in: (1) scheduled physical risk assessment site evaluation(s) to determine the presence of risk factors which may place employees at risk of workplace violence; (2) the development and annual review of a Workplace Violence Prevention Program promulgated by each College for the implementation of the Policy; (3) the annual review of the Campus Workplace Violence Incidents Report prepared annually by each College; and (4) as appropriate, following a serious incident of Workplace Violence.

\*\*1 This document supersedes and replaces The City University of New York Campus and Workplace Violence Policy approved by The City University of New York Board of Trustees on February 28, 2011,

\*\*2 Complaints of sexual harassment are covered under the University's Policy Against Sexual Harassment.

\*\*3 Students are not directly covered by this Policy, but they should contact the Department of Public Safety to report concerns about workplace violence.

# CUNY Board of Trustees By-Laws

---

## ARTICLE I MEETINGS OF THE BOARD

### SECTION 1.1. REGULAR MEETINGS.

- a. Regular meetings of the board of trustees shall be held in accordance with a schedule disseminated no later than August 1 of each year. Regular meetings shall be open to the general public
- b. Notice of the hour, place, and agenda for each regular meeting shall be mailed to the usual address of every trustee of the board by the secretary at least seven days before the meeting. All regular meetings shall be held at such place and time as shall be determined by the chairperson or by the board
- c. Public notice of the hour, place, and agenda of each regular meeting of the board shall be given at least seven days before the meeting to the respective colleges, to the news media, and to such educational and civic organizations as may request the same, as well as to any duly authorized collective negotiation representative. The agendas for such meetings shall be available electronically on the city university of New York website three days prior to the meeting
- d. A summary of resolutions and board actions for each regular meeting shall be electronically available on the city university of New York website no later than seven days after the meeting. The approved minutes, attendance, voting record, and video record for each regular meeting shall be posted on the website no later than seven days following their approval by the board. Information posted on the city university of New York website regarding board of trustees' meetings shall remain on the site as archived data for a minimum of ten years

### SECTION 1.2. SPECIAL MEETINGS.

- a. The chairperson, the vice chairperson, or any five trustees acting by petition, may at any time call a special meeting of the board and fix the date, time, and place therefor. Special meetings shall be open to the general public
- b. Notice of the date, hour, and place of every special meeting shall be by written or telephonic notice to each trustee from the secretary or the designee of the secretary at least twenty-four hours before the meeting
- c. Public notice of the date, hour, and place of a special meeting scheduled at least one week prior thereto shall be given to the respective colleges, to the news media, and to such educational and civic organizations as may request the same, as well as to any duly authorized collective negotiation representative, at least seventy-two hours before such meeting. Such notice of a special meeting scheduled less than one week prior thereto shall be given, to the extent practicable, at a reasonable time prior thereto. The agenda for such special meetings shall be available electronically on the city university of New York website twenty-four hours prior to the special meeting
- d. A summary of the resolutions and board actions for any special meeting shall be electronically available on the city university of New York website no later than seven days after the meeting. The approved minutes, attendance, voting record, and video record for each special meeting shall be posted on the website no later than seven days following their approval by the board

### SECTION 1.3. EXECUTIVE SESSIONS.

The board may conduct executive sessions, with attendance limited to members and invitees, as follows: Upon a vote taken at a regular or special meeting pursuant to a motion identifying the general area or areas of the subject or subjects to be considered, the board may conduct an executive session for the below enumerated purposes either forthwith or at a date, time, and place to be determined by the chairperson of which the board members shall be notified in advance unless such notice be waived in writing

1. Matters which will imperil the public safety if disclosed
2. Any matter which may disclose the identity of a law enforcement agent or informer
3. Information relating to current or future investigation or prosecution of a criminal offense which would imperil effective law enforcement if disclosed
4. Discussions regarding proposed, pending, or current litigation
5. Collective negotiations pursuant to article fourteen of the civil service law
6. The medical, financial, credit, or employment history of any person or corporation, or matters leading to the appointment, employment, promotion, demotion, discipline suspension, dismissal, or removal of any person
7. The preparation, grading, or administration of examinations
8. The proposed acquisition, sale, or lease of real property, but only when publicity would substantially affect the value of the property

### SECTION 1.4. MINUTES.

- a. Minutes shall be taken at all regular and special meetings of the board, which shall consist of a record or summary of all motions, proposals, resolutions, and any other matters formally voted upon, and the vote thereon
- b. Minutes shall be taken at executive sessions of any action that is taken by formal vote which shall consist of a record or summary of the final determination of such action, and the date and vote thereon; provided, however, that such summary shall not include any matter which is not required to be made public by the freedom of information law of the State of New York
- c. Minutes of executive sessions shall be made available for inspection and copying within one week from the date of the executive session

### SECTION 1.5. QUORUM OF THE BOARD.

Nine trustees of the board shall constitute a quorum

### SECTION 1.6. PRESIDING OFFICER.

If the chairperson does not attend a meeting at which a quorum is present, the vice chairperson may call the meeting to order and preside. In the event that neither the chairperson nor the vice chairperson will be present, the chairperson shall designate another trustee to call the meeting to order and preside

## **SECTION 1.7. ORDER OF BUSINESS.**

The calendar of the board shall be prepared in such form as the board may determine from time to time. The order of business may be determined by resolution of the board

## **SECTION 1.8. PARLIAMENTARY PROCEDURE.**

Except as herein otherwise specifically provided, the board shall be governed in its procedure by parliamentary rules and usage as set forth in the most recent edition of Robert's Rules of Order

## **SECTION 1.9. PUBLIC HEARINGS.**

a. The board shall schedule public hearings on the adoption of its expense budget, capital budget, and master plan. The board in the exercise of its judgment may schedule such other hearings as it may determine

b. The board shall hold a public hearing on the agenda of a regular meeting no less than three days before the meeting. Upon notification received by the secretary one day in advance of the hearing, persons will be permitted to speak to items on the agenda and to submit written statements relating thereto. The chairperson, or the vice chairperson in the chairperson's absence, shall assign one or more board trustees to conduct such hearing. A substantive summary of written statements received at such hearings shall be distributed to the trustees of the board prior to the regular meeting

## **SECTION 1.10. BOROUGH PUBLIC HEARINGS.**

a. The board shall hold at least one public hearing each year in each of the five boroughs of the city of New York to receive testimony and statements from concerned individuals about City University issues

b. The time, place, duration, and format of each hearing shall be determined by the board

c. Notice of the hearing shall be given by the chairperson of the board, not less than thirty days before each hearing, to all the trustees, to all presidents of educational units, to the chairpersons of faculty senate bodies of educational units, to all student government presidents of educational units, to the borough presidents, to the members of the city council, to the local community boards of the borough where the hearing is to be held, and to the news media. The notice shall contain the time, place, and date of the public hearing

d. At least three trustees shall attend each hearing

## **ARTICLE II OFFICERS OF THE BOARD**

### **SECTION 2.1. OFFICERS.**

The officers of the board shall be the chairperson, the vice chairperson, the general counsel, and the secretary

### **SECTION 2.2. TERM OF OFFICE.**

a. The term and manner of selection of the trustees of the board shall be as provided for in section 6204 of the education law

b. A chairperson and a vice chairperson shall be appointed and shall serve as provided for in section 6204(2)(d) of the education law

c. The general counsel and the secretary shall serve at the pleasure of the board

### **SECTION 2.3. DUTIES OF THE CHAIRPERSON.**

a. The chairperson shall preside at all meetings of the board, shall be a member ex officio of all committees, and shall be entitled to vote at all meetings of the board and of all its committees. Unless otherwise provided herein or otherwise determined by the board, the chairperson shall name the members and designate the chairperson of all standing and special committees. The chairperson is hereby empowered to execute all documents, receipts, releases, or other instruments requiring the signature of an authorized representative of the board

b. By virtue of his/her office, the chairperson is the spokesperson through whom the board announces and publicizes board actions or decisions primarily within the board's statutory fields of governance and policy-making; and within those fields he/she has the principal (but not exclusive) responsibility for board communications and board dealings with the mayor of the city, the governor of the state, the executive department of the United States, legislators, and governmental departments of the city, state, and nation

c. In his/her capacity as chairperson he/she will receive and may answer communications addressed to the board or to himself/herself in his/her official capacity

d. Where a board committee has in hand matters connected with a governmental department, the committee's chairperson may, for the purposes of the committee, confer with such department, after first notifying the chairperson of the board of the circumstances

### **SECTION 2.4. DUTIES OF THE VICE CHAIRPERSON.**

The vice chairperson shall preside, in the absence of the chairperson of the board, at all meetings of the board; shall be a member ex officio of all standing committees of the board; and shall be entitled to vote at all meetings of all such standing committees unless the chairperson of the board be present and voting. If the position of chairperson of the board is vacant, the vice chairperson shall exercise all the duties of the chairperson

### **SECTION 2.5. DUTIES OF THE GENERAL COUNSEL.**

The general counsel shall direct a centralized legal office, with an appropriate staff under the general counsel's supervision, rendering legal services to the board and to the City University of New York. The general counsel shall report to the chairperson of the board and to the chancellor of the university. The general counsel and his/her designees are authorized to verify pleadings and to sign affidavits and other documents in connection with legal proceedings in which the board and its interests are involved. The general counsel is also authorized and empowered to execute all contracts and agreements on behalf of the board

### **SECTION 2.6. DUTIES OF THE SECRETARY.**

The secretary of the board shall prepare the agenda of all meetings of the board, attend the meetings thereof and prepare the minutes of such meetings. The secretary shall have charge of all board records, files, minutes, official documents, and the seal of the board. The secretary shall cause a copy of the minutes of each meeting of the board to be forwarded promptly to its members and shall certify the same as a true copy when necessary. The secretary shall notify appropriate agencies and persons of the board's actions and shall send notices of board and committee meetings to the members of the board; shall maintain a central calendar for meetings; and shall perform related duties assigned to him/her by the chairperson of the board. The secretary is authorized and empowered to sign communications, receipts, or other instruments requiring the

signature of an authorized representative of the board, and to affix the seal of the board thereto, which documents reflect or effectuate prior action adopted or authorized by the board. In the event of the illness or absence of the secretary, the chairperson of the board is authorized to designate a member of the board's staff to serve as acting secretary of the board

## **ARTICLE III COMMITTEES OF THE BOARD**

### **SECTION 3.1. STANDING AND SPECIAL COMMITTEES.**

a. The board shall have standing committees on academic policy, programs and research, faculty staff and administration, fiscal affairs, audit, facilities planning and management, and student affairs and special programs, as well as any other special committees and subcommittees that the board may establish by resolution. The membership of standing and special committees of the board shall be determined by the chairperson

b. The procedures for providing notice of the meetings of all standing and special committees and subcommittees, and for making the agenda, summary of resolutions and minutes for such meetings available on the city university of New York website, shall be the same as they are for regular board meetings

### **SECTION 3.2. EXECUTIVE COMMITTEE.**

a. The board shall also have an executive committee, which shall consist of the chair of the board, the vice chair of the board, the chair of the committee on academic policy, program, and research, the chair of the committee on faculty, staff and administration, the chair of the committee on fiscal affairs, the chair of the committee on audit, the chair of the committee on facilities planning, and management and the chair of the committee on student affairs and special programs. A majority of the individual members shall constitute a quorum for the transaction of business

b. The executive committee may meet in intervals between meetings of the board and at such times that the chairperson of the board may convene it, upon the request of the chancellor or his/her designee. The agenda for any executive committee meeting must be made available electronically on the city university of New York website twenty-four hours in advance. The executive committee may take any actions that could have been taken by the board of trustees, except to grant degrees, to make removals from office or to amend these bylaws, upon the determination that it would be detrimental to the University to delay the advancement of the matter until the next regularly scheduled meeting of the Board of Trustees

c. Certification of such determination and all actions of the executive committee shall be reported to all members of the board no later than the next scheduled meeting. Notice of such actions shall also be placed on the agenda of the next scheduled meeting of the board

d. A summary of the resolutions for any executive committee meeting shall be electronically available on the city university of New York website no later than seven days after the meeting. The approved minutes, attendance, voting record, and video record for each executive meeting shall be posted on the website no later than seven days following their approval by the board

e. Notice of executive committee meetings shall be given in the same manner as it is given for special meetings of the board

## **ARTICLE IV THE COUNCIL OF PRESIDENTS**

### **SECTION 4.1. THE COUNCIL OF PRESIDENTS.**

There shall be a council of presidents composed of the chancellor, as its permanent chairperson, the presidents, and such senior university staff as the chancellor may designate

### **SECTION 4.2. FUNCTIONS OF THE COUNCIL OF PRESIDENTS.**

To ensure unified and cooperative leadership in the city university, it shall be the function of the council

a. To advise the chancellor with respect to the formulation and periodic revision of a coordinated master plan for a system of public higher education for the city of New York and to indicate for each constituent institution its specific functions in this plan

b. To recommend to the chancellor procedures and policies that affect more than one of the constituent colleges

c. To recommend to the chancellor plans for the development of physical properties which will further the general educational program of the university

d. To advise the chancellor concerning the operating and capital budgets of the entire university system. The presidents are specifically charged with the administration of their respective institutions and in this capacity they are responsible directly to the chancellor and through the chancellor to the board

## **ARTICLE V MISCELLANEOUS PROVISIONS**

### **SECTION 5.1. AMENDMENTS TO BYLAWS.**

An amendment to the bylaws may be adopted at any regular or special meeting of the board succeeding the regular or special meeting at which it was proposed. Copies of the proposed amendment must be mailed to each trustee of the board at least ten days before it is voted upon, together with a statement of the name of the introducer and of the meeting at which it is to be acted upon. Copies of the proposed amendments shall be delivered to the collective negotiation representative if required by a contract entered into with such representative. No proposed amendment shall be adopted except upon the affirmative vote of nine trustees of the board

The above provision insofar as it requires that amendments to the bylaws be proposed at a meeting preceding the meeting at which a vote is taken may be waived by the unanimous consent of the trustees of the board present

### **SECTION 5.2. WAIVER OF THE BYLAWS.**

Any other provision of these bylaws may be waived for a particular purpose at any meeting of the board by the affirmative vote of nine trustees of the board

## **ARTICLE VI INSTRUCTIONAL STAFF**

### **SECTION 6.1. INSTRUCTIONAL STAFF.**

The board hereby establishes the following instructional staff titles:

Chancellor

Chancellor emeritus

Executive vice chancellor

Chief operating officer

Senior vice chancellor

City College

Vice chancellor  
Associate vice chancellor  
University provost  
Secretary of the board  
University administrator  
University associate administrator  
University assistant administrator  
President  
Dean of the City University School of Law  
Dean of the Graduate School of Journalism  
Dean of the Sophie Davis School of Biomedical Education  
Senior vice president  
Vice president  
Assistant vice president  
Senior University dean  
University dean  
University associate dean  
University assistant dean  
Dean  
Associate dean  
Assistant dean  
Administrator  
Associate administrator  
Assistant administrator  
Distinguished professor  
University professor  
Professor  
Associate professor  
Assistant professor  
Research Professor  
Research Associate Professor  
Research Assistant Professor  
Einstein professor  
Visiting distinguished professor  
Clinical Professor  
Distinguished lecturer  
Distinguished lecturer – medical series  
Distinguished lecturer – law school series  
Medical professor (basic sciences)  
Associate medical professor (basic sciences)  
Assistant medical professor (basic sciences)  
Medical lecturer  
Adjunct medical professor (basic sciences)  
Adjunct associate medical professor (basic sciences)  
Adjunct assistant medical professor (basic sciences)  
Adjunct medical lecturer  
Medical professor (clinical)  
Associate medical professor (clinical)  
Assistant medical professor (clinical)  
Adjunct medical professor (clinical)  
Adjunct associate medical professor (clinical)  
Adjunct assistant medical professor (clinical)  
Law school distinguished professor  
Law school University professor  
Law school non-teaching adjunct  
Law school professor  
Law school associate professor  
Law school assistant professor  
Law school instructor  
Law school library professor  
Law school library associate professor  
Law school library assistant professor  
Law school adjunct professor  
Law school adjunct associate professor  
Law school adjunct assistant professor  
Law school adjunct instructor  
Law school lecturer Visiting professor

City College

Visiting associate professor  
Visiting assistant professor  
Adjunct professor  
Adjunct associate professor  
Adjunct assistant professor  
Adjunct lecturer  
Adjunct lecturer (doctoral student)  
Lecturer (full-time)  
Lecturer (part-time)  
Visiting lecturer  
Instructor  
Instructor (nursing science)  
Research associate  
Research assistant  
Graduate assistant (a-d)  
Senior registrar  
Associate registrar  
Chief college laboratory technician  
Adjunct chief college laboratory technician  
Senior college laboratory technician  
Adjunct senior college laboratory technician  
College laboratory technician  
Adjunct college laboratory technician  
College physician  
Higher education officer  
Higher education associate  
Higher education assistant  
Assistant to higher education officer  
Continuing education teacher  
Non-teaching adjunct (I-V)  
Non-teaching adjunct (doctoral student)  
Affiliated professional  
Professor of Military Science  
Affiliated medical professor  
Associate affiliated medical professor  
Assistant affiliated medical professor  
Affiliated medical lecturer  
Affiliated medical teacher Clinical  
professor—medical series CLIP  
instructor  
CUNY Start instructor  
Postdoctoral fellow  
Head Athletics Coach (full-time)  
Head Athletics Coach (part-time)  
Assistant Athletics Coach (full-time)  
Assistant Athletics Coach (part-time)  
and in the Hunter College Elementary School and Hunter College High School:  
Principal  
Chairperson of department  
Assistant principal  
Teacher  
Assistant Teacher  
Temporary teacher  
Campus schools college laboratory technician  
Campus schools senior college laboratory technician  
Guidance counselor  
Placement director  
Education and vocational counselor  
Librarian  
Substitute teacher  
Occasional per diem substitute teacher  
and in the childhood centers:  
Teacher  
Assistant teacher  
And in the educational opportunity centers (EOC)  
Educational opportunity center adjunct lecturer  
Educational opportunity center adjunct college laboratory technician

Educational opportunity center college laboratory technician  
Educational opportunity center higher education officer  
Educational opportunity center higher education associate  
Educational opportunity center higher education assistant  
Educational opportunity center assistant to higher education officer  
Educational opportunity center lecturer

\*and in the School of Journalism and in the Executive MBA Programs of the Zicklin School of Business at Baruch College:

Professional programs adjunct professor  
Professional programs adjunct associate professor  
Professional programs adjunct assistant professor  
Professional programs adjunct lecturer  
Professional programs professor (H)  
Professional programs associate professor (H)  
Professional programs assistant professor (H)  
Professional programs lecturer (H)  
Professional programs Non-Teaching Adjunct 1  
Professional programs Non-Teaching Adjunct 2  
Professional programs Non-Teaching Adjunct 3

(Amended: Board of Trustees Minutes, 2019, 03-18, 7.C.)

## SECTION 6.2. PERMANENT INSTRUCTIONAL STAFF -TENURE.

The permanent instructional staff shall consist of those persons who have been granted tenure under any of the provisions enumerated in subds. a through e below.

a. (1) Appointments before September 1, 2006 – A person employed before September 1, 2006 full-time on an annual salary in the title of professor, associate professor, assistant professor, medical professor (basic sciences), associate medical professor (basic sciences), assistant medical professor (basic sciences), medical professor (clinical), associate medical professor (clinical), assistant medical professor (clinical), law school professor, law school associate professor, law school assistant professor, law school library professor, law school library associate professor, law school library assistant professor, instructor (nursing science), senior registrar, registrar, associate registrar, assistant registrar, chief college laboratory technician, senior college laboratory technician, college laboratory technician, and in the hunter college high school and hunter college elementary school (but not in the early childhood center program), principal, chairperson of department, teacher, guidance counselor, and librarian, or in any grade or position which the board in its discretion may add hereto, who after serving on an annual salary in any of the above titles for five full years continuously, has been appointed or shall be appointed for a sixth full year, shall have tenure effective on the first day of September following his/her reappointment for the sixth full year.

(2) Appointments on or after September 1, 2006

a) A person employed on or after September 1, 2006 full-time on an annual salary in the title of professor, associate professor, assistant professor, medical professor (basic sciences), associate medical professor (basic sciences), assistant medical professor (basic sciences), medical professor (clinical), associate medical professor (clinical), assistant medical professor (clinical), law school professor, law school associate professor, law school assistant professor, law school library professor, law school library associate professor, law school library assistant professor, or in any grade or position which the board in its discretion may add hereto, who after serving on an annual salary in any of the above titles for seven full years continuously, has been appointed or shall be appointed for an eighth full year, shall have tenure effective on the first day of September following his/her reappointment for the eighth full year.

b) A person employed on or after September 1, 2006 full-time on an annual salary in the title of chief college laboratory technician, senior college laboratory technician, college laboratory technician, and in the hunter college high school and hunter college elementary school (but not in the early childhood center program), chairperson of department, teacher, guidance counselor, librarian, campus schools college laboratory technician, and campus schools senior college laboratory technician, and in the educational opportunity centers, educational opportunity center college laboratory technician, or in any grade or position which the board in its discretion may add hereto, who after serving on an annual salary in any of the above titles for five full years continuously, has been appointed or shall be appointed for a sixth full year, shall have tenure effective on the first day of September following his/her reappointment for the sixth full year.

b. A distinguished person of proven record appointed to the title of associate professor or the title of professor, who had tenure in another accredited institution of higher learning, may be appointed with immediate tenure by the board in its discretion.

c. (1) Appointments before September 1, 2006 – A person appointed to the title of professor, associate professor, or assistant professor may be granted early tenure by the board in its discretion, under these bylaws, after not less than one nor more than five years of continuous satisfactory service on an annual salary basis, when such service is interrupted by the period of a fellowship deemed by the college valuable to it, when for a very substantial reason the college would be well served by such early grant of tenure or when the person has had tenure in another accredited institution of higher learning.

(2) Appointments on or after September 1, 2006 – A person appointed to the title of professor, associate professor, or assistant professor may be granted early tenure by the board in its discretion, under these bylaws, after not less than one nor more than seven years of continuous satisfactory service on an annual salary basis, when such service is interrupted by the period of a fellowship deemed by the college valuable to it, when for a very substantial reason the college would be well served by such early grant of tenure or when the person has had tenure in another accredited institution of higher learning.

d. A person who has attained tenure under the provisions of section 6.2 of these bylaws in an educational unit under the jurisdiction of the board of trustees, and who is subsequently appointed to a comparable position on an annual salary basis in another education unit under the jurisdiction of the board, shall retain his/her tenure.

e. Where an appointee begins his/her service after September thirtieth the tenure period shall not begin until the succeeding September first, and when an appointment is made during the month of September, the appointment shall date as of September first of that year for the purposes of tenure.

## SECTION 6.3. APPOINTMENTS WITHOUT TENURE.

Nothing contained in this article shall be construed as conferring or permitting tenure, or service credit toward the achievement of tenure, in any instructional staff position other than those listed in Section 6.2 above. However, appointment to any non-tenurable position, or removal therefrom, shall not deprive the person so appointed or removed of tenure in the highest position on the staff held with tenure prior to his/her appointment to such office, or conjointly with such office, nor shall such appointment or removal deprive any person of service credit toward the achievement of tenure under the provisions of this article.

## **SECTION 6.4. APPOINTMENTS TO THE INSTRUCTIONAL STAFF – NOTICES.**

- a. All full-time appointments to the instructional staff, except as otherwise provided, shall be made by the board upon the recommendation of the chancellor.
- b. Except for the appointment of persons whose sole educational duties shall be administrative, all original appointments to the instructional staff shall be made to a department. All appointments shall be for one year or less except that the board may, in appropriate instances, make appointments for a period not exceeding two years.
- c. In the case of the appointment or removal of a chancellor, the affirmative vote of a majority of all members of the board shall be required.
- d. Each appointment, other than appointments in the executive compensation plan, shall terminate at the terminal date specified in the appointment. There shall be a university standard letter of appointment. The notice shall state specifically that the appointment is of a temporary nature; that it is subject to financial ability; shall give the terminal date of the appointment, and shall add that services beyond the period indicated in the notice of appointment are possible only if the board takes affirmative action to that effect.
- e. In the position of instructor, there shall be no more than four successive annual reappointments.
- f. Appointments and reappointments to a full-time position on the instructional staff shall be considered final when formally approved by the board.

## **SECTION 6.5. TRANSFERS, REASSIGNMENTS, PROMOTIONS.**

- a. Neither tenure nor the period requisite for the achievement of tenure shall be affected by transfer within the city university or by promotion or change of title, except that a person upon whom tenure has been conferred and who may be transferred or promoted to any position in the city university, or whose title may be changed, shall have tenure in his/her new position, provided such position is on the permanent instructional staff, and further provided that the transfer does not involve a change from the administrative staff to the instructional staff.
- b. Nothing herein contained shall be construed to prevent the board from assigning any person having tenure to any appropriate position on the staff, but no such assignment shall carry with it a reduction in rank or a reduction in salary other than the elimination of any additional emolument provided for administrative positions.

## **ARTICLE VII ACADEMIC DUE PROCESS**

### **SECTION 7.1. DISCIPLINARY PROCEDURE FOR INSTRUCTIONAL STAFF COVERED BY A COLLECTIVE BARGAINING AGREEMENT**

All instructional staff members whose employment is governed by a collective bargaining agreement shall be subject to the disciplinary process set forth in that agreement

### **SECTION 7.2. DISCIPLINARY PROCEDURE FOR INSTRUCTIONAL STAFF NOT COVERED BY A COLLECTIVE BARGAINING AGREEMENT**

All instructional staff members other than members of the executive compensation plan who are not covered by any collective bargaining agreement, or who are represented by a union at such time that an expired collective bargaining agreement has not been continued by operation of law, shall be subject to disciplinary procedures established by chancellor or his/her designee, except that in cases involving the removal of tenured faculty, the procedures shall be those set forth in section 6212(9) of the education law

## **ARTICLE VIII ORGANIZATION AND DUTIES OF THE FACULTY**

### **SECTION 8.1. DEFINITION OF FACULTY RANK.**

The presidents, vice presidents, deans, associate and assistant deans with underlying professorial appointments, and all persons who are employed full-time on an annual salary basis in titles on the permanent instructional staff, except college laboratory technicians, shall have faculty rank. All persons having faculty rank shall have the right to vote both in the faculty of which they are members and in their respective departments provided, however, that they have not received notice of non-reappointment, or submitted a resignation. A person with faculty rank who is retiring shall retain his/her voting rights during his/her last year of active service, except while on Travia leave. Members with faculty rank in the Hunter College High School and the Hunter College Elementary School shall be subject to the limitations in section 8.3. which refer to them

### **SECTION 8.2. DEFINITION OF FACULTY STATUS.**

Persons employed full-time in the titles of instructor, lecturer (full time), distinguished lecturer or clinical professor, shall have faculty status. All persons having faculty status shall have such voting rights as they are entitled, provided, however, that they have not received notice of non-reappointment, or submitted a resignation. A person with faculty status who is retiring shall retain his/her voting rights during his/her last year of active service, except while on Travia leave

### **SECTION 8.3. THE FACULTY, EXCEPT IN THE GRADUATE SCHOOL.**

The faculty (except in the graduate school) shall consist of all persons having faculty rank or faculty status and such other individual members of the instructional staff as the faculty may add based on their educational responsibilities except that members with faculty rank in the Hunter College High School and the Hunter College Elementary School shall have membership in the faculties of their respective schools, and shall have membership in the faculty of hunter college only if they have faculty rank or status concurrently in the faculty of hunter college

### **SECTION 8.4. THE FACULTY OF THE GRADUATE SCHOOL.**

The faculty of the graduate school shall include the president of the graduate school, the provost or vice president of academic affairs, vice presidents and deans of the graduate school with underlying faculty appointments, and the members of the faculty in each doctoral and master's program, as defined in the governance plan, and such other individual members of the instructional staff as the faculty may add because of their educational responsibilities

### **SECTION 8.5. DUTIES OF FACULTY.**

The faculty shall meet at least once in each semester, or oftener, upon call by the president or by petition of ten per cent of its members. The faculty shall be responsible, subject to guidelines, if any, as established by the board, for the formulation of policy relating to the admission and retention of students including health and scholarship standards therefor, student attendance including leaves of absence, curriculum, awarding of college credit, granting of degrees. It shall make its own bylaws, consistent with these bylaws, and conduct the educational affairs customarily cared for by a college faculty. The president shall preside at its meetings, or in his/her absence, the dean of faculty or a dean designated by the president.

### **SECTION 8.6. FACULTY/ACADEMIC COUNCILS.**

Each college shall have a faculty or academic council, which shall be the primary body responsible for formulating policy on academic matters. The composition of a college's faculty or academic council shall be set forth in its governance plan approved by the board of trustees.

## **SECTION 8.7. COMMITTEE ON FACULTY PERSONNEL AND BUDGET.**

- a. There shall be in each college a committee on faculty personnel and budget or equivalent committee. The chairperson of this committee shall be the president. The members of the committee may include the department chairs, the vice president of academic affairs and one or more deans designated by the president.
- b. This committee shall receive from the several departments all recommendations for annual appointments to full-time faculty titles, including annual appointments to the titles distinguished lecturer, clinical professor, lecturer and instructor as well as titles in the college laboratory technician series, reappointments thereto, with or without tenure, and promotions therein, together with compensation; it shall recommend action thereon to the president. The committee may also recommend to the president special salary increments. The president shall consider such recommendations in making his/her recommendations on such matters to the chancellor.
- c. Within the period prescribed by the chancellor, the president shall prepare the annual tentative budget and submit it to the committee for its recommendations. The committee shall make its recommendations within the period prescribed by the chancellor and submit them to the president. The president shall submit to the chancellor, within the period prescribed by the chancellor, such tentative annual budget, together with his/her comments and recommendations and any comments and recommendations of the committee.

## **SECTION 8.8. APPOINTMENTS AND PROMOTIONS IN THE GRADUATE SCHOOL.**

- a. For faculty positions at the graduate school in a doctoral program, the appointment, reappointment, promotion, and tenure shall be processed in accordance with procedures in the graduate school's governance plan.
- b. The president, pursuant to his/her responsibility for conserving and enhancing the educational standards of the graduate school, may recommend an appointment to any professorial rank and upon such appointment may designate such person as executive officer for the program. Before recommending such original appointment or designation, the president shall confer with members of the program.

## **SECTION 8.9. PROCEDURE FOR COLLEGE COMMITTEES ON FACULTY PERSONNEL AND BUDGET OR THEIR EQUIVALENT.**

Each college committee on faculty personnel and budget or its equivalent shall keep minutes of its proceedings conforming insofar as is practicable to the most recent edition of Robert's Rules of Order. The actions of the committee shall be by secret ballot and the results of the balloting shall be duly recorded in its minutes. All records of the proceedings with respect to a candidate shall be filed in the candidate's administration file, available only to the committees and individuals responsible for the review and recommendation of appointments, reappointments, promotions, and tenure. It shall be the duty and responsibility of the president, or his/her designee, to communicate to the candidate the action of the committee but no reason shall be assigned for the action taken. The affirmative recommendation of the committee shall be submitted to the president. A negative recommendation of the committee shall be final unless an appeal filed by the employee is successful.

## **SECTION 8.10. UNIVERSITY FACULTY SENATE.**

There shall be a university faculty senate, responsible, subject to the board, for the formulation of policy relating to the academic status, role, rights, and freedoms of the faculty, university level educational and instructional matters, and research and scholarly activities of university-wide import. The powers and duties of the university faculty senate shall not extend to areas or interests which fall exclusively within the domain of the faculty councils of the constituent units of the university. Consistent with the powers of the board in accordance with the education law and the bylaws of the board, the university faculty senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures for the election of senators, for its internal administration and for such other matters as is necessary for its continuing operations.

## **SECTION 8.11. COLLEGE GOVERNANCE PLANS.**

The provisions in duly adopted college governance plans shall supersede any inconsistent provisions contained in this article.

## **ARTICLE IX ORGANIZATION AND DUTIES OF FACULTY DEPARTMENTS**

### **SECTION 9.1. DEPARTMENT ORGANIZATION.**

- a. Each department, subject to the approval of the faculty or faculty council, where existent, and subject to the provisions of other sections of these bylaws, shall have control of the educational policies of the department through the vote of all of its members who have faculty rank or faculty status; and if it may also choose to permit a vote on departmental matters by persons in visiting professorial titles and other members who have been appointed on an annual salary basis for a first or second year of full-time service. The right to vote for the election of department chairpersons and the departmental committee on personnel and budget, referred to in some colleges as the departmental committee on appointments, shall be reserved to those with faculty rank.
- b. The executive officer of the department shall be the department chairperson who shall be a professor, associate professor or assistant professor elected by secret ballot for a term of three years, except as provided below, by a majority vote of all the members of the instructional staff of the department who have faculty rank. Proxy or mail voting shall not be permitted. The department chairperson must be tenured or have been approved by the board for tenure at the time of his/her election, except in departments less than seven years old. Such elections shall be subject to the subsequent approval of the president and the board. The present system of staggered departmental elections shall be continued. The successors of department chairpersons shall be elected during the first full week in May at the expiration of the respective terms of office to take office as of July first of the year in which they are elected and at the three year intervals thereafter. Vacancies shall be filled by election for the unexpired term. Notwithstanding anything in the foregoing to the contrary, in the library department, the president of the college shall from time to time recommend a member of the department to the board for designation as chairperson.
- c. In any case where the president does not approve the election of a department chairperson, or at such other time as the interests of the college may require the removal of a chairperson and the appointment of a new one, he/she shall confer with the department and thereafter shall report to the board, through the chancellor any subsequent action by the department with respect thereto, together with his/her own recommendation for a chairperson. The recommendation by the president to the board, through the chancellor, for the designation of the department chairperson should take place only after careful consideration by the president of the qualifications of those selected by the respective departments. The president shall base his/her recommendation on the capacity of the individual selected to act effectively as the departmental administrator and spokesperson and as a participant in the formation, development, and interpretation of college-wide interest and policy.
- d. Where there are fewer than three tenured professors, associate professors, and assistant professors in a department, the president may, except where the department has been in existence for less than seven years, after consultation with the departmental faculty, recommend the appointment of a chairperson to the board from among the members of the department holding professorial rank. Where the department chairperson is recommended by the president pursuant to this subdivision, subdivision "c" of this section, or subdivision "a" of section 9.5, the chairperson need not be tenured.

e. Each department shall operate as follows, unless the governance plan provides otherwise: There shall be in each department a department committee on personnel and budget, referred to in some colleges as a department committee on appointments, consisting of the department chairperson and where possible, of four other members who must have faculty rank. The number of members of faculty rank shall not affect provision for student membership, if a college governance plan so provides. Four of the faculty members of the committee must be tenured, except if the department has fewer than four tenured faculty members. The department chairperson shall be the chairperson of the committee. The four faculty members shall be elected by a majority vote of those persons in the department having faculty rank. Election shall be held at the same time that the department chairperson is elected. A vacancy in the office of the chairperson prior to expiration of his/her term when such vacancy necessitates an election for a new chairperson shall not affect the term of the committee. A president may remove a member of the personnel and budget committee, for good cause, at the request of a majority of the members of such committee. Such request shall be in writing, and the member whose removal is sought shall have an opportunity to respond. If a member of the personnel and budget committee is removed by the President, an election shall be held to fill the vacancy.

In departments with fewer than four tenured faculty members, the president after consultation with the departmental faculty, shall appoint an ad hoc committee to make recommendations on appointments with tenure in lieu of a committee on appointments or a departmental committee on personnel and budget.

f. There shall be a committee on personnel and budget for the Hunter College Elementary School and a committee on personnel and budget for the Hunter College High School. The committee in each school shall consist of the principal, as chairperson, a designee of the provost of hunter college, and three members of the instructional staff of the school who are tenured or will have tenure by the time of service, elected for a term of three years by members of the permanent instructional staff of the school. These committees shall have in each school, insofar as practicable, the same functions as are assigned by these bylaws to a departmental committee on personnel and budget in a college.

g. Each department may name such other committees as it chooses and shall have the fullest measure of autonomy consistent with the maintenance of general educational policy.

## **SECTION 9.2. PROCEDURES FOR DEPARTMENT COMMITTEES.**

Each department committee shall keep minutes of its proceedings conforming insofar as is practicable to the most recent edition of Robert's Rules of Order. It is the responsibility of the department chairperson, except as specified below, to circulate the minutes of each departmental committee to all members of the department.

The actions of the appropriate committee concerned with instructional staff appointments, reappointments, reappointments with tenure, and promotion shall be by secret ballot, and the result of the balloting shall be duly recorded in its minutes. All records of the proceedings with respect to a candidate shall be filed in the candidate's administration file, available only to the committees and individuals responsible for the review and recommendation of appointments, promotion, and tenure. It shall be the duty and responsibility of the department chairperson to communicate to the candidate the action of the committee, but no reason shall be assigned for the action taken. The affirmative recommendations of the committee shall be submitted by the department chairperson to the president and appropriate college committee on personnel and budget in accordance with procedures set forth in the bylaws of the board.

## **SECTION 9.3. DUTIES OF DEPARTMENT CHAIRPERSON.**

a. The department chairperson shall be the executive officer of his/her department and shall carry out the department's policies, as well as those of the faculty and the board which are related to it. He/she shall

1. Be responsible for departmental records
2. Assign courses to and arrange programs of instructional staff members of the department
3. Initiate policy and action concerning the recruitment of faculty and other departmental affairs subject to the powers delegated by these bylaws to the staff of the department in regard to educational policy, and to the appropriate departmental committees in the matter of promotions and appointments.
4. Represent the department before the faculty council or faculty senate, the faculty, and the board.
5. Preside at meetings of the department.
6. Be responsible for the work of the department's committee on appointments or the department's committee on personnel and budget which he/she chairs.
7. Prepare the tentative departmental budget, subject to the approval by the department's committee on appointments or the department's committee on personnel and budget.
8. Transmit the tentative departmental budget with his/her own recommendations to the president or the dean or provost as the president may designate.
9. Arrange for careful observation and guidance of the department's instructional staff members.
10. Make a full report to the president and to the college committee on faculty personnel and budget of the action taken by the department committee on personnel and budget or department committee on appointments when recommending an appointee for tenure on the following, as well as any other criteria set forth in university policies.
  - a. Teaching qualifications and classroom work.
  - b. Relationship of the appointee with his/her students and colleagues.
  - c. Appointee's professional and creative work.
11. Hold an annual evaluation conference with every member of the department after observation and prepare a memorandum thereof.
12. Generally supervise and administer the department.

b. Each library, where size makes it practicable, shall constitute an instructional department of the college. The chairperson thereof shall be designated by the president. Such chairperson, in addition to the duties of department chairperson as enumerated in paragraph "a" of this section, shall be charged with the administration of the library facilities of his/her college and shall perform such other duties as the president may assign. Such chairperson is hereby authorized to use the additional title of "chief librarian."

c. Where student personnel services are constituted an instructional department of the college, the dean of students shall be the department chairperson.

## **SECTION 9.4. PROGRAM STRUCTURE IN THE GRADUATE SCHOOL AND UNIVERSITY CENTER.**

a. The faculty of each doctoral program shall meet at least once each year. A quorum shall consist of 25 people or 50% of the faculty, whichever is smaller. The faculty shall have overall responsibility for establishing policies for the program. It shall make recommendations to the graduate council with respect to curriculum, and to the president with respect to special program requirements for the admission and retention of students and for the granting of doctoral degrees, the awarding of university grants and fellowships, and any other matters affecting the welfare of the program. It shall be responsible for the policies governing the various qualifying examinations for the doctoral degree.

b. Each doctoral program shall have an executive officer responsible for administering the affairs of the program in accordance with the policies established by the program faculty, the graduate council, and the board of trustees. The executive officer shall be appointed by the president for a term not exceeding three years taking into account nominations received from the faculty and students of the program. The executive officer may be reappointed. The executive officer is subject to removal by the president, prior to which the president shall confer with members of the program.

c. There shall be established in each doctoral program an executive committee to be composed of at least five members. The structure and membership of each executive committee is to be determined by the program's faculty subject to approval by the president. It shall include at least one faculty member from each senior college substantially participating in the program ("substantially participating" shall be defined as having six members on the faculty of the program).

The executive committee shall have the authority for the operation of the program between the stated meetings of the program's faculty subject to the policies established by the faculty. It shall meet at least once a semester with the students matriculated in the program.

The executive officer shall serve as chairperson of the executive committee.

d. The students of each doctoral program shall have responsibility through student representatives to the executive committee and the standing committees to make known their views on the policies of the program.

## **SECTION 9.5. APPOINTMENTS.**

a. Recommendations for full-time appointments in a department shall be initiated (1) by the department or (2) to a professorial title by the president pursuant to his/her responsibilities in accordance with section 11.4. of these bylaws. The president may recommend that such appointee be designated as department chairperson. Such recommendation by the president for appointment and designation as department chairperson may be made either at the time of election of department chairperson or at such other time as the educational interests of the college may require. Before recommending such appointment or designation, the president shall confer with the members of the department and with the college committee on faculty personnel and budget.

b. All full-time appointments, reappointments, and reappointments with tenure to a department, except as above specified, shall be recommended to the college committee on faculty personnel and budget or its equivalent by the chairperson of the department after consultation with the president in accordance with the vote of the majority of the members of the department's committee on personnel and budget, save that a minority of any committee on appointments or departmental committee on personnel and budget shall have power to submit a minority recommendation to the college committee on faculty personnel and budget.

## **SECTION 9.6. PROMOTIONS.**

a. Each college shall select one of the following plans for promotions

PLAN NO. ONE. Promotions to the rank of associate professor shall be recommended only after an affirmative vote of a majority of all associate professors and professors in the department. In departments where every professorial rank is not represented, recommendations for promotion shall be initiated by the department personnel and budget committee. This plan shall not apply in the case of promotion to a professorship. No faculty member shall vote on his/her own promotion. A minority of any departmental committee on personnel and budget or any committee under this plan shall have the power to submit a minority recommendation to the college committee on faculty personnel and budget.

PLAN NO. TWO. All promotions to the rank of associate professor shall be recommended to the college committee on faculty personnel and budget by the chairperson of the department only after a majority affirmative vote of the departmental committee on personnel and budget; provided, however, that no member of such committee shall vote on his/her own promotion. This plan shall not apply in the case of promotion to a professorship.

b. Promotion to the rank of professor shall be recommended by the faculty committee on personnel and budget only after an affirmative vote of a majority of all associate professors and professors on the committee.

c. The president shall have the power to make an independent recommendation for promotion in any rank to the board, after consultation with the appropriate departmental committee and with the faculty committee on personnel and budget. In all instances no final action of departmental committees with regard to promotions shall be taken without consultation with the president.

## **SECTION 9.7. TIE VOTES.**

A tie vote in a case affecting an appointment, a reappointment, or a promotion shall be considered as a failure of the motion to prevail. Tie votes in the election of a department chairperson or for representation on departmental committees on personnel and budget or committees on appointments or on the faculty council or faculty senate shall be resolved by action of the president.

## **SECTION 9.8. NEW COLLEGES OR NEW SCHOOLS.**

Unless otherwise provided, the provisions of this article, insofar as they specify certain organizational duties and responsibilities of the instructional staff, shall not apply to a newly-created college or a newly-created school in a college until five years after its establishment unless the president, prior thereto, notifies the board of its desire to be governed by these bylaws. However, insofar as practicable, the spirit of these bylaws shall be observed in the organization and operation of such new college or school.

## **SECTION 9.9. COLLEGE GOVERNANCE PLANS.**

The provisions in a duly adopted college governance plan shall supersede any inconsistent provisions contained in this article.

# **ARTICLE X THE CENTRAL OFFICE**

## **SECTION 10.1. THE CENTRAL OFFICE.**

There is hereby established as an educational unit under the board that portion of the city university of New York which is administered centrally by the chancellor, either directly or through staff designated by and directly responsible to him/her. Such educational unit shall be known as the "central office" and shall consist of the central office staff and the staff of such other programs as are not otherwise provided for and which are not part of any of the existing senior or community colleges under the jurisdiction of the board. Persons holding central office positions shall be deemed to hold positions in the city university of New York.

## ARTICLE XI DUTIES AND QUALIFICATIONS OF TITLES IN THE INSTRUCTIONAL STAFF

### SECTION 11.1. CONDITIONS AND QUALIFICATIONS FOR APPOINTMENT AND PROMOTION.

The minimum qualifications and duties for all titles in the instructional staff (referred to herein as "title descriptions"), other than those of chancellor, senior university staff and president, shall be established by the chancellor or his/her designee. For titles with faculty rank, any revisions to the title descriptions shall be approved by the board as a policy item. The chancellor or his/her designee shall establish a procedure for the approval of waivers of the minimum qualifications for titles in the instructional staff, with the exception of waivers of the minimum qualifications for faculty rank titles, which shall be approved by the board. All instructional staff title descriptions established by the Chancellor or his/her designee shall be deemed board policies for the sole purpose of the grievance procedure contained in the collective bargaining agreement between the university and the union representing the instructional staff and only in grievances brought pursuant to that grievance procedure by or on behalf of an instructional staff member represented by said union and only for the purpose of determining whether the instructional staff member is performing duties substantially different from those stated in the title description for his/her appointed title.

### SECTION 11.2. CHANCELLOR.

#### A. Position Definition:

The chancellor shall be appointed by and report to the board. He/she shall be the chief executive, educational and administrative officer of the city university of New York and the chief educational and administrative officer of the senior and community colleges and other educational units and divisions for which the board acts as trustees. He/she shall be the chief administrative officer for the board and shall implement its policies and be the permanent chairperson of the council of presidents with the right and duty of exercising leadership in the work of the council. The chancellor shall have the following duties and responsibilities.

- a. To initiate, plan, develop and implement institutional strategy and policy on all educational and administrative issues affecting the university, including to prepare a comprehensive overall academic plan for the university, subject to the board's approval; and to supervise a staff to conduct research, coordinate data, and make analyses and reports on a university-wide basis.
- b. To unify and coordinate college educational planning, operating systems, business and financial procedures and management.
- c. As to each educational unit
  1. To oversee and hold accountable campus leadership, including by setting goals and academic and financial performance standards for each campus.
  2. To recommend to the board the appointment of the college president and senior campus staff.
  3. To recommend directly to the board the underlying academic appointment of any president, with tenure, notwithstanding any other provisions in these Bylaws.
  4. Periodically, but no less than every five years, review the performance of each college.
  5. Present to the board all important reports, recommendations, and plans submitted by a college president, faculty or governance body with his/her recommendations, if any.
- d. To prepare, with the advice of the council of presidents, the operating budget and the capital budget for consideration by the board and presentation to the state and the city.
- e. To act as the representative of the university and its colleges with outside agencies and particularly to promote the interest and welfare of the university and its colleges with city, state and federal officials.
- f. To promote a positive image of the university and to develop and enhance public and private sources of funding for the university.
- g. To attend meetings of the board and its committees and to advise on all matters related to his/her duties and responsibilities.
- h. To live in a residence provided for him/her by the board.
- i. Nothing in this enumeration shall compromise or detract from the powers and duties of the board of trustees as defined in the state education law.

#### B. Qualifications:

He/she shall have an outstanding reputation as an educational administrator, executive, and scholar, and such personal qualities as will be conducive to success as a leader of scholars and teachers and as the chief executive officer and public representative of the university.

### SECTION 11.3. SENIOR UNIVERSITY STAFF

#### A.

The senior university staff shall include persons in the titles of executive vice chancellor, chief operating officer, senior vice chancellor, university provost, secretary to the board, vice chancellor, university administrator, university associate administrator, university assistant administrator, university dean, university associate dean, university assistant dean, and such other titles as the chancellor, with the approval of the board, may designate.

#### B. Position Definition:

The duties and responsibilities of the senior university staff shall be to assist the chancellor in designated areas of university operations and to represent him/her when so authorized.

### SECTION 11.4. THE PRESIDENT.

#### A. Position Definition:

The president, with respect to his/her educational unit, shall

- a. Have the affirmative responsibility of conserving and enhancing the educational standards and general academic excellence of the college under his/her jurisdiction. Such responsibility shall include but not be limited to the duty to recommend to the chancellor for appointment, promotion, and the granting of tenure only those persons who he/she is reasonably certain will contribute to the improvement of academic excellence at the college. These recommendations shall be consistent with the immediate and long range objectives of the college.
- b. Have the power (1) to remove a department chairperson in accordance with section 9.1.c., and (2) to initiate recommendations for appointment in a department to a professorial title in accordance with section 9.5.a
- c. Be an advisor and executive agent of the chancellor and have the immediate supervision with full discretionary power to carry into effect the bylaws, resolutions, and policies of the board, the lawful resolutions of any board committees, and policies, programs, and lawful resolutions of the several faculties and students where appropriate.

- d. Exercise general superintendence over the facilities, concerns, officers, employees, and students of his/her college; in consultation with the chancellor, prepare and implement the college master plan, which shall be subject to the approval of the chancellor and the board.
- e. Act as chairperson of the faculty, faculty council, and the committee on faculty personnel and budget, or of equivalent bodies as established.
- f. Attend meetings of the board and advise the chancellor and the board on all matters related to educational policy and practice.
- g. Transmit to the chancellor recommendations of his/her faculty or faculty council on matters of curriculum and other matters falling under faculty jurisdiction.
- h. Consult with the appropriate departmental and faculty committees on matters of appointments, reappointments, and promotions; take student evaluations into account in making recommendations thereon; present to the chancellor his/her recommendations thereon; notify the appropriate faculty committees of his/her recommendations to the chancellor.
- i. Recommend to the chancellor an annual college budget.
- j. Consult with and make recommendations to the chancellor concerning all matters of significant academic, administrative or budgetary consequence affecting the college and/or the university.
- k. Present to the chancellor communications from faculties, officers, employees, or students together with any advice or recommendations of his/her own concerning the subject of such recommendations or communications.
- l. Between meetings of the board, be authorized in an emergency to fill temporary vacancies in the instructional staff below the rank of professor in accordance with the method of appointment herein provided and to make such administrative arrangements and appointments as cannot well await the action of the board or its appropriate committees.
- m. Report annually to the chancellor and the board, on or before December thirty-first, concerning the affairs of his/her college during the preceding academic year.
- n. Live in a residence provided for him/her by the board.
- o. Have such additional specific duties as the chancellor shall designate.

**B. Qualifications:**

He/she shall have an outstanding reputation as an educational administrator; personal qualities conducive to success as a leader of scholars and teachers, and as an executive.

**SECTION 11.5. EQUIVALENCIES.**

1.

- a. For appointment as an assistant professor, associate professor, or full professor in a field in which there is a research PhD in general use., no other degree shall be accepted as equivalent to the PhD. unless there is also a professional doctorate in general use available in the field, in which case a college may declare either the PhD. or the relevant professional doctorate to be "preferred" for a specific appointment, or it could designate them as equally acceptable.
  - b. For appointment as an assistant professor, associate professor, or full professor in fields in which the PhD. is not the terminal degree in the field, the executive vice chancellor and university provost shall prepare and make available to the colleges a list of credentials that may be accepted in lieu of the PhD. degree.
2. In the evaluation and interpretation of equivalencies there must be a direct and specific relationship between the discipline represented and the field in which the candidate is to serve.

**ARTICLE XII SALARY SCHEDULE CONDITIONS**

**SECTION 12.1. SALARY SCHEDULE CONDITIONS.**

The salary of the persons employed by the board on the instructional staff shall be not less than those prescribed in the schedules approved in an agreement entered into after collective negotiations. Where a title is not covered by any collective negotiation agreement, but is payable from the city expense budget for the City University of New York, the schedule shall be as approved by the board and consented to by the city office of labor relations and the city office of management and budget. All salaries shall be subject to the following conditions.

- a. The annual increments for all positions on the instructional staff shall be added on January first of each succeeding year following completion of at least ten full months of service, except that in the higher education officer series, the annual increments shall be added on January first or July first of each succeeding year following at least eleven months of service.
- b. In schedules where annual increments are specified, the board nevertheless reserves the right to assign fixed salaries to appointees in special cases, to vote larger increments in special cases, when in its judgment the nature of the duties or the character of the services renders such action just, or to withhold annual increments from any members of the staff whose services for any year are unsatisfactory.
- c. In schedules where no annual increments are specified, the specific salary of an incumbent shall be fixed at the minimum rate, or the maximum rate, or between, by resolution of the board, action being taken with due consideration for the duties to be discharged, prevailing rates of compensation for one discharging such duties, and the qualifications, training and experience of the incumbent.

**SECTION 12.2.**

Whenever any compensation, in addition to the regular annual salary, is authorized to be paid to a member of any college, university, or board staff from enterprises in any way connected with the college or university, such compensation shall not be paid or accepted unless reported to and specifically authorized by the chancellor, except for compensation being paid to the chancellor, which must be specifically authorized by the board.

**SECTION 12.3.**

The compensation of temporary and other employees not on the instructional staff shall be fixed at such salaries as the board may determine except that with respect to positions for which salary schedules have heretofore been established by the board, such salaries shall be in accordance with such salary schedules as the board may establish with the approval of the mayor, or in accordance with such salary allocations as are appropriate under the career and salary plan. The board may make appointments to any position on a part-time basis with corresponding fractional salary or compensation except where prohibited by existing collective bargaining agreements.

## **ARTICLE XIII INSTRUCTIONAL STAFF – MISCELLANEOUS PROVISIONS**

### **SECTION 13.1. TEMPORARY DISABILITY LEAVE.**

a. Members of the instructional staff who are absent because of temporary disability for more than five consecutive working days may be required to submit a medical certificate from their personal physician upon their return to work.

Where any absence because of temporary disability exceeds thirty consecutive working days, the absentee shall present a statement from his/her physician explaining the nature or his/her temporary disability and certifying that he/she is fully capable of returning to work. In the case of any such absence the college may also require an examination by a physician in its employ, or appointed by it, who shall be required to certify that the absentee is fully capable of returning to work. In cases where there is a conflict of opinion, a third physician, acceptable to the absentee and to the president of the college, shall be called in and his/her judgment shall be accepted as conclusive. In the event that it is found that the condition of such person is such that he/she is incapable of resuming his/her normal duties, such person shall apply for such additional period of leave of absence as may be necessary. Failure to make such application for an additional period of leave of absence shall be deemed neglect of duty.

b. Leaves of absence without pay for temporary disability for periods of less than one year may be recommended by the board to the appropriate retirement system for credit as service for retirement. Increments may be recommended by the board for the period during which an employee is on leave of absence without pay for temporary disability for periods of less than one year.

### **SECTION 13.2. RETIREMENT LEAVES.**

Members of the New York City teachers' retirement system and members of the permanent instructional staff and lecturers (full-time) with administrative certificates of continuous employment and persons with titles in the higher education officer series who are members of any other retirement system who announce their bona fide intention to retire shall be granted a retirement leave of absence with full pay consisting of one-half of their accumulated unused temporary disability leave up to a maximum of one semester, or the equivalent number of school days. Terms and conditions relating to such retirement leave shall be governed by section 3107 of the state education law.

### **SECTION 13.3. LEAVES FOR SPECIAL PURPOSES.**

a. Special leaves may be granted to members of the instructional staff for personal emergencies of not more than ten working days may be granted with pay by the president at his/her discretion

b. On the recommendation of the relevant departmental committee concerned with appointments, the relevant college committee and the president, the board may grant to members of the instructional staff special leaves of absence without pay for purposes such as study, writing, research, the carrying out of a creative project or public service of reasonable duration. Where a special leave without pay is for one year or longer, it shall not be credited for purposes of increment, except that increment credit may be granted when the president certifies that the leave is being taken for a project of academic, scholarly or public importance that brings honor and recognition to the college.

## **ARTICLE XIV THE NON-INSTRUCTIONAL STAFF**

### **SECTION 14.1. NON-INSTRUCTIONAL STAFF – DEFINITION AND DUTIES.**

The non-instructional staff shall consist of all positions in the classified civil service of the city university of New York, classified under one of the four jurisdictional classes – exempt, competitive, non-competitive, and labor.

### **SECTION 14.2. TERMS AND CONDITIONS OF EMPLOYMENT OF NON-INSTRUCTIONAL STAFF.**

Hours of employment, vacations, leaves of absence and other terms and conditions of employment for members of the non-instructional staff shall be those established by law or by resolution of the board, or by appropriate collective bargaining agreements or determinations of the comptroller of the city of New York in appropriate cases.

### **SECTION 14.3. NON-INSTRUCTIONAL STAFF POSITIONS.**

The qualification requirements for non-instructional staff positions shall be those established by the appropriate position specification or civil service examination announcement, or standards established by the CUNY civil service commission.

### **SECTION 14.4. NON-INSTRUCTIONAL STAFF DISCIPLINARY PROCEDURES.**

All non-instructional staff members whose employment is governed by a collective bargaining agreement are subject to discipline in accordance with the disciplinary procedures set forth in that agreement, as are members who are represented by a union that has agreed to use those disciplinary procedures. All other non-instructional staff members are subject to discipline in accordance with the provisions in the CUNY Personnel Rules and Regulations.

## **ARTICLE XV STUDENTS**

### **SECTION 15.0. PREAMBLE.**

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Student participation, responsibility, academic freedom, and due process are essential to the operation of the academic enterprise. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to learn and to explore major social, political, and economic issues are necessary adjuncts to student academic freedom, as is freedom from discrimination, as set forth in the university's non-discrimination policy.

Freedom to learn and freedom to teach are inseparable facets of academic freedom. The concomitant of this freedom is responsibility. If members of the academic community are to develop positively in their freedom; if these rights are to be secure, then students should exercise their freedom with responsibility.

### **SECTION 15.1. CONDUCT STANDARD DEFINED.**

Each student enrolled or in attendance in any college, school or unit under the control of the board and every student organization, association, publication, club or chapter shall obey (1) the laws of the city, state and nation; (2) the bylaws and resolutions of the board, including the rules and regulations for the maintenance of public order pursuant

to article 129-a of the education law ("Henderson rules"); and (3) the governance plan, policies, regulations, and orders of the college.

Such laws, bylaws, resolutions, policies, rules, regulations and orders shall, of course, be limited by the right of students to the freedoms of speech, press, assembly and petition as construed by the courts.

## SECTION 15.2. STUDENT ORGANIZATIONS.

a. Any group of students may form a team (excluding intercollegiate athletics), student media/publications, organization, association, club or chapter by filing with the duly elected student government organization of the college or school at which they are enrolled or in attendance and with an officer to be designated by the chief student affairs officer of the college or school at which they are enrolled or in attendance (1) the name and purposes of the organization, association, club or chapter, (2) the names and addresses of its president and secretary or other officers corresponding in function to president and secretary.

The board recognizes that students have rights to free expression and association. At the same time, the board strongly believes that respect for all members of the university's diverse community is an essential attribute of a great university and requires viewpoint neutrality in the recognition of student teams, student media/publications, organizations, associations, clubs or chapters.

Each student leader and officer of student organizations recognized by or registered with the institution, as well as those seeking recognition by the institution, must complete training on domestic violence, dating violence, stalking, and sexual assault prevention and on CUNY's Policy on Sexual Misconduct prior to the organization receiving recognition or registration.

b. Extra-curricular activities at each college or school shall be regulated by the duly elected student government organization to insure the effective conduct of such college or school as an institution of higher learning and for the prevention of activities which are hereafter proscribed or which violate the standards of conduct of the character set forth in bylaw 15.1. Such powers shall include:

1. i. The power to charter or otherwise authorize teams (excluding intercollegiate athletics), student media/publications, organizations, associations, clubs or chapters, and, when appropriate in the exercise of such regulatory power, the power to refuse, suspend or revoke any charter or other authorization for cause after hearing on notice. All such decisions must be based upon viewpoint neutral criteria as detailed in the Fiscal Accountability Handbook and must be based upon the written submissions of the student team, publication, organization, association, club or chapter, which will describe its intent to conduct activities for the benefit of students. ii. All decisions declining a charter or authorization must be in writing and are appealable to the college or school's chief student affairs officer or designee, who shall render a final written decision on the appeal. iii. Appeals must be based upon one or both of the following two grounds: the denial was arbitrary and capricious or discriminated against the applicant based upon viewpoint.

2. The power to delegate responsibility for the effective implementation of its regulatory functions hereunder to any officer or committee which it may appoint.

c.

1. Any person or organization affiliated with the college may file a complaint with the chief student affairs officer if there is reason to believe that a student organization has violated any of the standards of conduct set forth in section 15.1 above. The chief student affairs officer shall promptly notify the affected organization, investigate any complaint and report the results of that investigation along with a recommendation for appropriate action to the complainant and the student government which shall take action as it deems appropriate, except that in the case of a complaint against the student government itself, the chief student affairs officer shall report the results of the investigation and the recommendation for appropriate action directly to the president.

2. The complainant or any student organization adversely affected pursuant to paragraph C (1) above may appeal to the president. The president may take such action as he or she deems appropriate, and such action shall be final.

d. Each college shall establish a student elections review committee in consultation with the various student governments. The student elections review committee shall approve the election procedures and certify the results of elections for student governments, and student body referenda. Decisions of the student elections review committee may be appealed to the college president, whose decision shall be final. An appeal from the decision of the student elections review committee must be made in writing to the President within ten (10) calendar days of the decision. The President shall consult with the student elections review committee and render a decision as expeditiously as possible which may affirm, reverse, or modify the decision of the student elections review committee.

e. Student government elections shall be scheduled and conducted, and newly elected student governments shall take office, in accordance with policies of the board, and implementing regulations.

### SECTION 15.3. THE UNIVERSITY STUDENT SENATE.

There shall be a university student senate responsible, subject to the board of trustees, for the formulation of university-wide student policy relating to the academic status, role, rights and freedoms of the student. The authority and duties of the university student senate shall not extend to areas of interest which fall exclusively within the domain of the student governments of the constituent units of the university. Consistent with the authority of the board of trustees in accordance with the education law and the bylaws of the board of trustees, the university student senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures, for its internal administration and for such other matters as is necessary for its existence. The university student senate shall have the full rights and responsibilities accorded student organizations as provided in these bylaws. The delegates and alternate delegates to the university student senate shall be elected by their respective constituencies or by their student governments from the elected members of the respective student governments.

## SECTION 15.4. STUDENT DISCIPLINARY PROCEDURES.

### Complaint Procedures:

a. A University student, employee, organization, department or visitor who believes she or he is the victim of a student's misconduct (hereinafter "complainant") may make a charge, accusation, or allegation against a student (hereinafter "respondent") which if proved, may subject the respondent to disciplinary action. Such charge, accusation, or allegation must be communicated to the chief student affairs officer of the college the respondent attends.

b. The chief student affairs officer of the college or her or his designee shall conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or her or his designee shall advise the respondent of the allegation against her or him, explain to the respondent and the complainant their rights, consult with other parties who may be involved or who have information regarding the incident, and review other relevant evidence. The preliminary investigation shall be concluded within thirty (30) calendar days of the filing of the complaint, unless: (i) said complaint involves two or more complainants or respondents; or (ii) said complaint involves a matter that is also under investigation by law enforcement authorities. In those cases, the preliminary investigation shall be completed within sixty (60) calendar days.

Further, if the matter has been previously investigated pursuant to the CUNY Policy on Sexual Misconduct, the chief student affairs officer shall dispense with a preliminary

investigation and rely on the report completed by the Title IX Coordinator. Following the completion of the preliminary investigation, the chief student affairs officer or designee shall take one of the following actions:

1. Dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary action. The individuals involved shall be notified that the complaint has been dismissed;
2. Refer the matter to mediation (except in cases involving allegations of sexual assault, stalking or other forms of sexual violence); or
3. Prefer formal disciplinary charges.

c. In cases involving the CUNY Policy on Sexual Misconduct, both the Complainant and Respondent may be accompanied by an advisor of their choice (including an attorney) who may assist and advise throughout the entire process, including all meetings and hearings. Advisors may represent a party and fully participate at a hearing, but may not give testimony as a witness.

d. In the event that a respondent withdraws from the college after a charge, accusation or allegation against a respondent has been made, and the college prefers formal disciplinary charges, the respondent is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made or the charges are otherwise resolved. Immediately following the respondent's withdrawal, the college must place a notation on her/his transcript that she/he "withdrew with conduct charges pending." If the respondent fails to appear, the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding, and the transcript notation, if any, resulting from that decision and penalty shall replace the notation referred to above.

Mediation Conference:

e. The college may offer the respondent and the complainant the opportunity to participate in a mediation conference prior to the time the disciplinary hearing takes place in an effort to resolve the matter by mutual agreement (except in cases involving sexual assault, stalking and other forms of sexual violence). The conference shall be conducted by a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:

1. An effort shall be made to resolve the matter by mutual agreement through such process as the mediator deems most appropriate; provided, however, that the complainant must be notified of her/his right to end the mediation at any time.
2. If an agreement is reached, the faculty or staff member conducting the conference shall report her/his recommendation to the chief student affairs officer for approval and, if approved, the complainant and the respondent shall be notified, and a written memorandum shall be created memorializing the resolution and any consequences for non-compliance.
3. If no agreement is reached within a reasonable time, or if the respondent fails to appear, the faculty or staff member conducting the conference shall refer the matter back to the chief student affairs officer who may prefer disciplinary charges, or, if charges have been preferred, proceed to a disciplinary hearing.
4. The faculty or staff member conducting the mediation conference is precluded from testifying at a college hearing regarding information received during the mediation conference, or presenting the case on behalf of the college.

Notice of Charges and Hearing:

f. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered to the respondent, or sent by certified or overnight mail and email to the address appearing on the records of the college. Notice shall also be sent in a similar manner to the complainant to the extent the charges relate to her/him. The chief student affairs officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent and the complainant. The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment as of right. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the faculty-student disciplinary committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed in absentia, and any decision and sanction shall be binding.

g. The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the rule, bylaw or regulation she/he is charged with violating, and the possible penalties for such violation.
2. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:
  - (i) to present their side of the story;
  - (ii) to present witnesses and evidence on their behalf;
  - (iii) to cross-examine witnesses presenting evidence;
  - (iv) to remain silent without assumption of guilt; and
  - (v) to be assisted or represented by an advisor or legal counsel at their expense; if the respondent or the complainant requests it, the college shall assist in finding a legal counsel or advisor.
3. A warning that anything the respondent says may be used against her/him at a non- college hearing.

Pre-Hearing Document Inspection:

h. At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review any documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by Family Education Rights and Privacy Act ("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during, or some time prior to, the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the additional documents or tangible evidence. If during the hearing the complainant or the respondent submits documentary evidence, the chairperson may, at the request of any other party grant an adjournment of the hearing as may be necessary in the interest of fairness to permit the requesting party time to review the newly produced evidence.

Admission and Acceptance of Penalty Without Hearing:

i. At any time after receiving the notice of charges and hearing but prior to the commencement of a disciplinary hearing, the respondent may admit to the charges and accept the penalty that the chief student affairs officer or designee determines to be appropriate to address the misconduct. This agreed upon penalty shall be placed on the respondent's transcript consistent with subparagraphs q(19) and (20) herein. Before resolving a complaint in this manner, the chief student affairs officer must first consult with the complainant and provide the complainant an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant's objection, the chief student affairs officer or designee shall provide the complainant with a written statement of the reasons supporting such resolution, and the complainant may appeal the decision to enter into the resolution to the president.

Emergency Suspension:

j. The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing as provided in this bylaw section 15.4. to take place within not more than twelve (12) calendar days, unless the student requests an adjournment. Such suspension shall be for conduct which impedes, obstructs, impairs or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution. Prior to the commencement of a temporary suspension of a student, the college shall give the student oral

notice (which shall be confirmed via email to the address appearing on the records of the college) or written notice of the charges against her/him and, if she/he denies them, the college shall forthwith give the student an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter. When a student's presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter. The complainant shall be notified in the event that an emergency suspension is imposed against a student, and/or when the suspension is subsequently lifted to the extent that the suspension involves the complainant in the same manner notice is given to the student.

Faculty-Student Disciplinary Committee Structure:

k. Each faculty-student disciplinary committee shall consist of two (2) faculty members or one

(1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

l. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training upon appointment and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons: CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

m. The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEOs appointed biennially by the president. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEOs. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than four (4) consecutive years. Notwithstanding the above, in cases of sexual assault, stalking and other forms of sexual violence, the president shall designate from the panels one (1) chairperson, two (2) faculty/HEO members, and two (2) students, who shall be specially trained on an annual basis, and who shall constitute the faculty-student disciplinary committee in all such cases.

n. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery.

o. Each academic year, the chief student affairs officer, or her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

p. Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Faculty-Student Disciplinary Committee Procedures:

q. The following procedures shall apply to faculty-student disciplinary proceedings:

Hearing:

1. The chairperson shall preside at the hearing. The chairperson shall inform the respondent of the charges, the hearing procedures and her or his rights.
2. All faculty student disciplinary committee hearings are closed hearings unless the respondent requests an open public hearing. Notwithstanding such requests, the chairperson shall not permit an open hearing in cases involving allegations of sexual assault, stalking, or other forms of sexual violence. Furthermore, the chairperson has the right to deny the request and hold a closed hearing when an open public hearing would adversely affect and be disruptive to the committee's normal operations. In the event of an open hearing, the respondent must sign a written waiver acknowledging that those present will hear the evidence introduced at the hearing.
3. After informing the respondent of the charges, the hearing procedures, and her or his rights, the chairperson shall ask the respondent to respond. If the respondent admits the conduct charged, the respondent shall be given an opportunity to explain her/his actions before the committee and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its case. At the conclusion of the college's case, the respondent may move to dismiss the charges. If the motion is denied by the committee, the respondent shall be given an opportunity to present her or his defense.
4. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may rule on the admissibility of the evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. In addition, if any party wishes to question the impartiality of a committee member on the basis of evidence which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.
5. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. The college must assign a staff member for each hearing, with the sole responsibility of ensuring that the hearing is recorded in its entirety. No other recording of the proceedings may be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's representative or attorney. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their representatives or attorneys.
6. The college bears the burden of proving the charge(s) by a preponderance of the evidence.
7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and render a determination. In the event the respondent is found to have committed the conduct charged, the committee shall then determine the penalty to be imposed.
8. The college, the respondent and the complainant are permitted to have lawyers or other representatives or advisors act on their behalf during the pendency of a disciplinary action, which shall include the calling and examining of witnesses, and presenting other evidence. Any party intending to appear with an attorney shall give the other party 5 (five) calendar days' notice of such representation.
9. The chairperson of the faculty-student disciplinary committee retains discretion to limit the number of witnesses and the time of testimony for the presentations by any party and/or their representative.
10. In the event that the respondent is charged with a sexual assault, stalking or other forms of sexual misconduct, neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they wish to, the respondent and the complainant may cross-examine each other only through a representative.

If either or both of them do not have a representative, the college shall work with them to find a representative to conduct such cross-examination. In the alternative, the complainant and respondent may provide written questions to the chairperson to be posed to the witness.

11. In a case involving the CUNY Policy on Sexual Misconduct:

a) Evidence of the mental health diagnosis and/or treatment of a party may not be introduced.

b) Evidence of either party's prior sexual history may not be introduced except that (i) evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing, and (ii) past findings of domestic violence, dating violence, stalking, or sexual assault may be admissible in the stage of that hearing related to penalty Penalty Phase:

12. If the respondent has been found responsible, then all parties may introduce evidence related to the respondent's character including any past findings of a respondents' responsibility for domestic violence, stalking, or sexual assault or any other sexual violence. The College may introduce a copy of the respondent's previous disciplinary record; including records from any CUNY institution the respondent has attended, where applicable, provided the respondent was shown a copy of the record prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the committee in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found to have committed the conduct charged. The previous disciplinary records, as well as documents and character evidence introduced by the respondent, the complainant, and the college shall be opened and used by the committee for dispositional purposes, i.e., to determine an appropriate penalty if the charges are sustained. The complainant and respondent may also provide or make an impact statement. Such evidence and impact statements shall be used by the committee only for the purpose of determining an appropriate penalty if the charges are sustained.

Decision:

13. The committee shall deliberate in closed session. The committee shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing and the papers filed by the parties.

14. The respondent shall be sent a copy of the faculty-student disciplinary committee's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the respondent shall be sent a copy of faculty-student disciplinary committee's decision within fourteen (14) calendar days of the conclusion of the hearing. The chief student affairs officer is also encouraged to send the decision to any other e-mail address that he or she may have for the respondent. The decision shall be final subject to any appeal. In cases involving a crime of violence or a non-forcible sex offense, as set forth in FERPA, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

15. When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a university-wide penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

Appeals:

16. A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii)

the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee. If the penalty after appeal to the president is one of dismissal for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

17. An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the non-appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

18. The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

Notations on Transcripts:

19. In cases in which a respondent has been found responsible for a Clery Act reportable crime of violence, the college must place a notation on her/his transcript stating that she/he was suspended or expelled after a finding of responsibility for a code of conduct violation. In all other cases, the college must place a notation of the findings and penalty on a respondent's transcript unless a mediation agreement, under subparagraph e(2) herein, the determination of the chief student affairs officer or designee under subparagraph l herein, the committee's decision under subparagraph q(13) herein, or the decision on any appeal under subparagraphs q(16)-(18) herein expressly indicate otherwise.

20. A notation of expulsion after a respondent has been found responsible for a Clery Act reportable crime of violence shall not be removed. In all other cases, a notation of expulsion, suspension or any lesser disciplinary penalty shall be removed, as a matter of right, upon the request of the respondent to the Chief Student Affairs Officer made, four years after the conclusion of the disciplinary proceeding or one year after the conclusion of any suspension, whichever is longer. If a finding of responsibility for any violation is vacated for any reason, any such notation shall be removed.

## **SECTION 15.5. ACTION BY THE BOARD OF TRUSTEES.**

Notwithstanding the foregoing provisions of this article, the board of trustees reserves full power to suspend or take other appropriate action against a student or a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or units of the university in the use of its facilities or in the achievement of its purposes as an educational institution in accordance with procedures established by the board of trustees.

## **SECTION 15.6. COLLEGE GOVERNANCE PLANS.**

The provisions in a duly adopted college governance plan shall not be inconsistent with the provisions contained in this article.

## **ARTICLE XVI STUDENT ACTIVITY FEES AND AUXILIARY ENTERPRISES**

### **SECTION 16.1. STUDENT ACTIVITY FEE.**

The student activity fee is the total of the fees for student government and other student activities. Student activity fees, including student government fees collected by a college of the university shall be deposited in a college central depository and, except where earmarked by the board, allocated by a college association budget committee subject to review by the college association as required in these bylaws

### **SECTION 16.2. STUDENT ACTIVITY FEES USE – EXPENDITURE CATEGORIES.**

Student activity fee funds shall be allocated and expended only for the following purposes

1. Extracurricular educational programs;
2. Cultural and social activities
3. Recreational and athletic programs
4. Student government
5. Publications and other media
6. Assistance to registered student organizations
7. Community service programs
8. Enhancement of the college and university environment
9. Transportation, administration and insurance related to the implementation of these activities
10. Student services to supplement or add to those provided by the university
11. Stipends to student leaders

### **SECTION 16.3. STUDENT GOVERNMENT FEE.**

The student government fee is that portion of the student activity fee levied by resolution of the board which has been established for the support of student government activities. The existing student government fees now in effect shall continue until changed. Student government fees shall be allocated by the duly elected student government, or each student government where more than one duly elected student government exists, for its own use and for the use of student organizations, as specified in section 15.2. of these bylaws, provided, however, that the allocation is based on a budget approved by the duly elected student government after notice and hearing, subject to the review of the college association. Where more than one duly elected student government exists, the college association shall apportion the student government fees to each student government in direct proportion to the amount collected from members of each student government

### **SECTION 16.4. STUDENT GOVERNMENT ACTIVITY DEFINED.**

a. A student government activity is any activity operated by and for the students enrolled at any unit of the university provided, (1) such activity is for the direct benefit of students enrolled at the college, (2) that participation in the activity and the benefit thereof is available to all students enrolled in the unit or student government thereof, and (3) that the activity does not contravene the laws of the city, state or nation, or the published rules, regulations, and orders of the university or the duly established college authorities

### **SECTION 16.5. COLLEGE ASSOCIATION.**

a. The college association shall have responsibility for the supervision and review over college student activity fee supported budgets. All budgets of college student activity fees, except where earmarked by the board to be allocated by another body, should be developed by a college association budget committee and recommended to the college association for review by the college association prior to expenditure. The college association shall review all college student activity fee, including student government fee allocations and expenditures for conformance with the expenditure categories defined in Section 16.2. of this article and the college association shall disapprove any allocation or expenditure it finds does not so conform, or is inappropriate, improper, or inequitable

b. A college association shall be considered approved for purposes of this article if it consists of thirteen (13) regular, voting members and up to six (6) alternates, its governing documents are approved by the college president and the below requirements are met. Notwithstanding the foregoing, a college association that is not separately incorporated may have a governing board of thirteen (13) members consisting of the individuals listed in 1(i) through 1(iv) below, plus one additional administrative member and one additional faculty member, and is not required to have the audit committee referenced in 3 below

1. The governing board of the college association is composed of

(i) The college president or his/her designee as chair

(ii) Two administrative members and one administrative alternate, appointed by the college president

(iii) Two faculty members and up to two faculty alternates appointed by the college president from a panel whose size is twice the number of seats (including the alternates) to be filled and the panel is elected by the appropriate college faculty governance body

(iv) Six student members and up to three student alternates comprised of the student government president(s) and other elected students with the student seats allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable in proportion to the student activity fees provided by the students from the respective constituencies

(v) Two independent directors appointed by the college president. An independent director shall be a former employee of the college or the association, a college alum, a community member, or any other individual, who, pursuant to Section 102 of the Not-for-Profit Corporations Law: (A) has not been within three years of his or her appointment to the governing board of the association, an employee of the association, CUNY or the Research Foundation of CUNY; and (B) does not have a relative who is, or has been within three years of the individual's appointment to the governing board, a key employee of the association, CUNY or the Research Foundation of CUNY; and (C) has not received, and does not have a relative who has received, in any of the three fiscal years prior to the individual's appointment to the governing board, more than \$10,000 in direct compensation from the association, CUNY or the Research Foundation of CUNY (other than reimbursement for expenses reasonably incurred as a director or reasonable compensation for service as a director as permitted by the Not-for-Profit Corporations Law); and (D) is not a current employee of or does not have a substantial financial interest in, and does not have relative who is a current officer of or has a substantial financial interest in, any entity that has made payments to, or

received payments from, the association, CUNY or the Research Foundation of CUNY for property or services in an amount which, in any of the three fiscal years prior to the individual's appointment to the governing board, exceeds the lesser of \$25,000 or 2% of such entity's consolidated gross revenues. For purposes of this definition, "payment" does not include charitable contributions

(vi) The alternates may attend meetings of the governing board, and each shall be entitled to vote on such matters that come before the governing board to the extent that the alternate is substituting for an absent member of the same constituency

2. The college association structure provides a budget committee composed of members of the governing board, at least a majority of whom are students selected in accordance with section 16.5.(b) (1)(iv) of these bylaws. The budget committee shall be empowered to receive and review student activity fee budget requests and to develop a budget subject to the review of the college association. The college association may choose to not approve the budget or portions of the budget if in their opinion such items are inappropriate, improper, or inequitable. The budget shall be returned to the budget committee with the specific concerns of the college association noted for further deliberation by the budget committee and subsequent resubmittal to the college association. If the budget is not approved within thirty (30) days those portions of the budget voted upon and approved by the college association board will be allocated. The remainder shall be held until the college association and the budget committee agree

3. Every separately-incorporated college association shall have an audit committee consisting of the two independent directors and one student member elected by the governing board who meets the criteria for independence set forth in 16.5.(b)(1)(v)(A) through (D). The audit committee shall oversee the accounting and financial reporting processes of the association and the audit of the association's financial statements and shall have such other duties as set forth in Section 712-a of the Not-for-Profit Corporations Law

4. The governing documents of the college association have been reviewed by the board's general counsel and approved by the board

## **SECTION 16.6. MANAGEMENT AND DISBURSEMENT OF FUNDS.**

The college and all student activity fee allocating bodies shall employ generally accepted accounting and investment procedures in the management of all funds. All funds for the support of student activities are to be disbursed only in accordance with approved budgets and be based on written documentation. A requisition for disbursement of funds must contain two signatures; one, the signature of a person with responsibility for the program; the other the signature of an approved representative of the allocating body

## **SECTION 16.7. REVENUES.**

All revenues generated by student activities funded through student activity fees shall be placed in a college central depository subject to the control of the allocating body. The application of such revenues to the account of the income generating organization shall require the specific authorization of the allocating body

## **SECTION 16.8. FISCAL ACCOUNTABILITY HANDBOOK.**

The chancellor or his/her designee shall promulgate regulations in a fiscal accountability handbook, to regulate all aspects of the collection, deposit, financial disclosure, accounting procedures, financial payments, documentation, contracts, travel vouchers, investments and surpluses of student activity fees and all other procedural and documentary aspects necessary, as determined by the chancellor or his/her designee to protect the integrity and accountability of all student activity fee funds

## **SECTION 16.9. COLLEGE PURPOSES FUND.**

a. A college purposes fund may be established at each college and shall be allocated by the college president. This fund may have up to twenty-five (25) percent of the unearmarked portion of the student activity fee earmarked to it by resolution of the board, upon the presentation to the board of a list of activities that may be properly funded by student activity fees that are deemed essential by the college president

b. Expenditures from the college purposes fund shall be subject to full disclosure under section 16.13. of these bylaws

c. Referenda of the student body with respect to the use and amount of the college purposes fund shall be permitted under the procedures and requirements of section 16.12. of these bylaws

## **SECTION 16.10. AUXILIARY ENTERPRISE CORPORATION.**

a. The auxiliary enterprise corporation shall have responsibility for the oversight, supervision and review over college auxiliary enterprises. All budgets of auxiliary enterprise funds and all contracts for auxiliary enterprises shall be reviewed by the auxiliary enterprise corporation prior to expenditure or execution

b. The auxiliary enterprise corporation shall be considered approved for the purposes of this article if it consists of at least eleven (11) members, its governing documents are approved by the college president and the following requirements are met

1. The governing board is composed of the college president or his/her designee as chair, plus an equal number of students and the combined total of faculty and administrative members, and two independent directors

2. The administrative members are appointed by the college president

3. The faculty members are appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body

4. The student members are the student government president(s) and other elected students and the student seats are allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable, in proportion to the student enrollment by headcount from the respective constituencies

5. The independent directors are appointed by the college president. An independent director shall be a former employee of the college or the auxiliary enterprises corporation, a college alum, a community member, or any other individual, who, pursuant to Section 102 of the Not-for-Profit Corporations Law: (A) has not been within three years of his or her appointment to the governing board of the auxiliary enterprises corporation, an employee of the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY; and (B) does not have a relative who is, or has been within three years of the individual's appointment to the governing board, a key employee of the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY; and (C) has not received, and does not have a relative who has received, in any of the three fiscal years prior to the individual's appointment to the governing board, more than \$10,000 in direct compensation from the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY (other than reimbursement for expenses reasonably incurred as a director or reasonable compensation for service as a director as permitted by the Not-for-Profit Corporations Law); and (D) is not a current employee of or does not have a substantial financial interest in, and does not have relative who is a current officer of or has a substantial financial interest in, any entity that has made payments to, or received payments from, the auxiliary enterprises corporation, CUNY or the Research Foundation of CUNY for property or services in an amount which, in any of the three fiscal years prior to the individual's appointment to the governing board, exceeds the lesser of \$25,000 or 2% of such entity's consolidated gross revenues. For purposes of this definition, "payment" does not include charitable contributions

6. The auxiliary enterprises corporation shall have an audit committee consisting of the two independent directors and one student member elected by the governing board who meets the criteria for independence set forth in 16.10.(b)(5)(A) through (D). The audit committee shall oversee the accounting and financial reporting processes of the auxiliary enterprises corporation and the audit of the auxiliary enterprises corporation's financial statements and shall have such other duties as set forth in Section 712-a of the Not-for-Profit Corporations Law

7. The governing documents of the auxiliary enterprise corporation have been reviewed by the board's general counsel and approved by the board

### **SECTION 16.11. THE REVIEW AUTHORITY OF COLLEGE PRESIDENTS OVER STUDENT ACTIVITY FEE ALLOCATING BODIES AND AUXILIARY ENTERPRISE CORPORATIONS.**

a. The president of the college shall have the authority to disapprove any student activity fee, including student government fee, or auxiliary enterprise allocation or expenditure, which in his or her opinion contravenes the laws of the city, state, or nation or any bylaw or policy of the university or any policy, regulation, or order of the college. If the college president chooses to disapprove an allocation or expenditure, he or she shall consult with the general counsel and vice chancellor for legal affairs and thereafter communicate his/her decision to the allocating body or auxiliary enterprise board

b. The president of the college shall have the authority to suspend and send back for further review any student activity fee, including student government fee, allocation or expenditure which in his or her opinion is not within the expenditure categories defined in section 16.2. of this article. The college association shall, within ten (10) days of receiving a proposed allocation or expenditure for further review, study it and make a recommendation to the president with respect to it. The college president shall thereafter consider the recommendation, shall consult with the general counsel and vice chancellor for legal affairs, and thereafter communicate his/her final decision to the allocating body as to whether the allocation or expenditure is disapproved

c. The chancellor or his/her designee shall have the same review authority with respect to university student activity fees that the college president has with respect to college student activity fees

d. All disapprovals exercised under this section shall be filed with the general counsel and vice chancellor for legal affairs

e. Recipients of extramural student activity fees shall present an annual report to the chancellor for the appropriate board committee detailing the activities, benefits and finances of the extramural body as they pertain to the colleges where students are paying an extramural fee

### **SECTION 16.12. REFERENDA.**

A referendum proposing changes in the student activity fee shall be initiated by a petition of at least ten (10) percent of the appropriate student body and voted upon in conjunction with student government elections

a. Where a referendum seeks to earmark student activity fees for a specific purpose or organization without changing the total student activity fee, the results of the referendum shall be sent to the college association for implementation

b. Where a referendum seeks to earmark student activity fees for a specific purpose or organization by changing the total student activity fee, the results of such referendum shall be sent to the board by the president of the college together with his/her recommendation

c. At the initiation of a petition of at least ten (10) percent of the appropriate student body, the college president may schedule a student referendum at a convenient time other than in conjunction with student government elections

d. Where the referendum seeks to affect the use or amount of student activity fees in the college purposes fund, the results of the referendum shall be sent to the board by the college president together with his/her recommendation

### **SECTION 16.13. DISCLOSURE.**

a. The college president shall be responsible for the full disclosure to each of the student governments of the college of all financial information with respect to student activity fees

b. The student governments shall be responsible for the full disclosure to their constituents of all financial information with respect to student government fees

c. The student activity fee allocating bodies shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to all of its activities

d. The auxiliary enterprise corporation shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to auxiliary enterprises

e. For purposes of the foregoing paragraphs, full disclosure shall mean the presentation each semester of written financial statements which shall include, but need not be limited to, the source of all fee income by constituency, income from other sources creditable to student activity fee accounts, disbursements, transfers, past reserves, surplus accounts, contingency and stabilization funds. Certified independent audits performed by a public auditing firm shall be conducted at least once each year

### **SECTION 16.14. STIPENDS.**

The payment of stipends to student leaders is permitted only within those time limits and amounts authorized by the board

## **ARTICLE XVII DEFINITIONS**

### **SECTION 17.1.**

The following definitions shall apply in these bylaws

a. "Board" means the board of trustees of the city university of New York

b. "Department" means an instructional department of a college or a Ph.D. program in the graduate school and university center; if the instructional work of the college is organized into divisions or programs, it shall mean a division or program

c. "Department chairperson" means a department head as such title is used in a community college, a program director as such title is used in the school of professional studies or a community college, or an executive officer as such title is used in the graduate school

d. "Tenure" is the right of a person to hold his/her position during good behavior and efficient and competent service; and not to be removed therefrom except in accordance with applicable contractual provisions and law

e. "Senior college" means a four-year college, the graduate school and university center (and all components thereof), and the law school

f. "Community college" means a two-year college offering associate degrees

g. "College" or "Educational unit" shall mean a senior college or a community college

h. "President" includes the president of a college, or anyone acting in such capacity as the sense of the provision may be appropriate, including the deans of the law school, the school of professional studies and the graduate school of journalism

i. "Promotion" is the advancement from a title on the permanent instructional staff to another title on the permanent instructional staff

## CUNY Policy on Admission of Students Who May Pose a Risk to the College

The college reserves the right to deny admission to any student if in its judgment, the presence of that student on campus poses an undue risk to the safety or security of the college or the college community. That judgment will be based on an individualized determination taking into account any information the college has about the crime committed by the student and the particular circumstances of the college, including the presence of a child care center, summer camp, public school or public school students on the campus. In addition, the college may consider factors such as the amount of time since the crime was committed, the amount of jail time served by the student, the number of years the student was on probation or parole, whether the student has satisfied probation or parole requirements at the time of the student's application, whether the student has completed drug, alcohol, sex offender or other treatment, and what work or educational experience the student has had after the conviction. Finally, if the student is known to have been assisted by CUNY-sponsored or other re-entry program or initiative, the college will consult with a counselor or representative from said program.

## CUNY Policy on Sexual Misconduct

### I. POLICY STATEMENT

Every member of The City University of New York ("CUNY") community, including students, employees and visitors, deserves the opportunity to live, learn and work free from Sexual Misconduct (sexual harassment, gender-based harassment and sexual violence). Accordingly, CUNY is committed to:

- 1) Defining conduct that constitutes prohibited Sexual Misconduct;
- 2) Providing clear guidelines for students, employees and visitors on how to report incidents of Sexual Misconduct and a commitment that any complaints will be handled respectfully;
- 3) Promptly responding to and investigating allegations of Sexual Misconduct, pursuing disciplinary action when appropriate, referring the incident to local law enforcement when appropriate, and taking action to investigate and address any allegations of retaliation;
- 4) Providing ongoing assistance and support to students and employees who make allegations of Sexual Misconduct;
- 5) Providing awareness and prevention information on Sexual Misconduct, including widely disseminating this policy, as well as a "students' bill of rights" and implementing training and educational programs on Sexual Misconduct to college constituencies; and
- 6) Gathering and analyzing information and data that will be reviewed in order to improve safety, reporting, responsiveness and the resolution of incidents.

This is the sole policy at CUNY addressing Sexual Misconduct and is applicable at all college and units at the University. It will be interpreted in accordance with the principles of academic freedom adopted by CUNY's Board of Trustees.

The CUNY community should also be aware of the following CUNY policies:

- [The CUNY Policy on Equal Opportunity and Nondiscrimination](#) prohibits discrimination on the basis of numerous protected characteristics in accordance with federal, state and local law. That policy addresses sex discrimination other than Sexual Misconduct covered by this policy.
- [The CUNY Campus and Workplace Violence Prevention Policy](#) addresses workplace violence.
- [The CUNY Domestic Violence and the Workplace Policy](#) addresses domestic violence in or affecting employees in the workplace.
- [The CUNY Procedures for Implementing Reasonable Accommodations and Academic Adjustments](#) addresses the procedures CUNY will follow when there is a request for a reasonable accommodation and or academic adjustment.

In addition, campus crime statistics, including statistics relating to sexual violence, which CUNY is required to report under the Jeanne Clery Act, are available from the Office of Public Safety at each college and/or on its Public Safety website.

### II. SCOPE OF THIS POLICY

This policy governs the conduct of (i) all the members of CUNY's community, including employees and students, and (ii) non-members of CUNY's community who interact with members of the CUNY community (hereinafter "visitors"). Visitors are both protected by and subject to this policy. A non-member may make a complaint of or report a violation of this policy committed by a member of CUNY's community. A non-member may also be subject to restrictions for failing to comply with this policy. This policy applies to conduct that occurs on and off CUNY property.

### III. DEFINITIONS

a. Affirmative Consent is a knowing, voluntary and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of resistance, in and of itself, does not demonstrate consent. The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity or gender expression.

Consent to any sexual act or prior consensual sexual activity between or with any party does not necessarily constitute consent to any other sexual act.

In order to give consent, one must be of legal age (17 years or older).

Consent is required regardless of whether the person initiating the act is under the influence of drugs and/or alcohol. Consent cannot be given when a person is incapacitated, which occurs when an individual lacks the ability to knowingly choose to participate in sexual activity. Incapacitation may be caused by lack of consciousness or being asleep, being involuntarily restrained, or if the individual otherwise cannot consent. Depending on the degree of intoxication, someone who is under the influence of alcohol, drugs, or other intoxicants may be incapacitated and therefore unable to consent.

Consent cannot be given when it is the result of any coercion, intimidation, force, or threat of harm.

Consent may be initially given but withdrawn at any time. When consent is withdrawn or no can longer be given, sexual activity must stop.

- b. Complainant refers to the individual who alleges that she/he has been the subject of Sexual Misconduct, and can be a CUNY student, employee (including all full-time and part-time faculty and staff), or visitor. Under this policy, the alleged incident(s) may have been brought to the college's attention by someone other than the complainant.
- c. Complaint is an allegation of Sexual Misconduct made under this policy.
- d. Confidentiality is the commitment not to share any identifying information with others, except as required by law in emergency circumstances (such as risk of death or serious bodily harm). Confidentiality may only be offered by individuals who are not legally required to report known incidents of Sexual Misconduct to college officials. Licensed mental health counselors, medical providers & pastoral counselors may offer confidentiality.
- e. Dating Violence is violence or sexual assault committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship is determined based on the reporting party's statement and with consideration of the length of the relationship and the frequency of the interaction between the persons involved in the relationship. Dating violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct. A relationship may be romantic or intimate regardless of whether the relationship was sexual in nature. Dating violence includes the threat of sexual or physical abuse.
- f. Domestic Violence is any violence or sexual assault committed by (i) a current or former spouse or intimate partner of the victim; (ii) a person with whom the victim shares a child; (iii) a person who cohabits or cohabited with the victim as a spouse or intimate partner; or (iv) anyone else covered by applicable domestic violence laws. Domestic violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct.
- g. Forcible Touching/Fondling is intentionally touching the sexual or other intimate parts of another person without the latter's consent for the purpose of degrading or abusing such person, or for the purpose of gratifying the actor's sexual desire.
- h. Gender-Based Harassment is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities. The effect will be evaluated based on the perspective of a reasonable person in the position of the complainant. An example of gender-based harassment would be persistent mocking or disparagement of a person based on a perceived lack of stereotypical masculinity or femininity.
- i. Intimate Partner Violence ("IPV") includes both Domestic Violence and Dating Violence.
- j. Managers are employees who have authority to make tangible employment decisions with regard to other employees, including the authority to hire, fire, promote, compensate or assign significantly different responsibilities.
- k. Pastoral counselor. A person who is associated with a religious order or denomination, recognized by that order or denomination as someone who provides confidential counseling, and functioning within the scope of that recognition.
- l. Privacy is the assurance that the college will only reveal information about a report of Sexual Misconduct to those who need to know the information in order to carry out their duties or responsibilities or as otherwise required by law. Individuals who are unable to offer the higher standard of confidentiality under law, but who are still committed to not disclose information more than necessary, may offer privacy.
- m. Rape and Attempted Rape is the penetration or attempted penetration, no matter how slight, of any body part by a sex organ of another person, without the consent of that person.
- n. Respondent refers to the individual who is alleged to have committed Sexual Misconduct against a CUNY student, employee, or visitor.
- o. Retaliation is adverse treatment of an individual as a result of that individual's reporting Sexual Misconduct, assisting someone with a report of Sexual Misconduct, opposing in a reasonable manner an act or policy believed to constitute Sexual Misconduct, or participating in any manner in an investigation or resolution of a Sexual Misconduct report. Adverse treatment includes threats, intimidation and reprisals by either a complainant or respondent or by others such as friends or relatives of either a complainant or respondent.
- p. Sexual Activity is:
- contact between the penis and the vulva or the penis and the anus;
  - contact between the mouth and the penis, the mouth and the vulva, or the mouth and the anus;
  - penetration, however slight, of the anal or genital opening of another by a hand or finger or by any object, with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person; or intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person.
- q. Sexual Assault is any form of sexual activity that occurs without consent.
- r. Sex Discrimination is treating an individual differently or less favorably because of sex, including sexual orientation, gender or gender identity (including transgender status), as well as pregnancy, childbirth and related medical conditions. Examples of sex discrimination include giving a student a lower grade, or failing to hire or promote an employee, based on their sex.
- s. Sexual Harassment is unwelcome conduct of a sexual nature, including but not limited to unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, graphic and electronic communications or physical conduct of a sexual nature when:
- i. submission to or rejection of such conduct is made either explicitly or implicitly a condition of an individual's employment or academic standing or is used as the basis for employment decisions or for academic evaluation, grades, or advancement (quid pro quo); or
  - ii. such conduct is sufficiently serious that it alters the conditions of, or has the effect of substantially interfering with, an individual's educational or work experience by creating an intimidating, hostile, or offensive environment (hostile environment). The effect will be evaluated based on the perspective of a reasonable person in the position of a complainant.
- Conduct is considered "unwelcome" if the individual did not request or invite it and considered the conduct to be undesirable or offensive.
- While it is not possible to list all circumstances that might constitute sexual harassment, the following are some examples of conduct that might constitute sexual harassment depending on the totality of the circumstances:
- i. Inappropriate or unwelcome physical contact or suggestive body language, such as touching, groping, patting, pinching, hugging, kissing, or brushing against an individual's body;
  - ii. Verbal abuse or offensive comments of a sexual nature, including sexual slurs, persistent or pervasive sexually explicit statements, questions, jokes or anecdotes, degrading words regarding sexuality or gender, suggestive or obscene letters, notes, or invitations;
  - iii. Visual displays or distribution of sexually explicit drawings, pictures, or written materials; or
  - iv. Undue and unwanted attention, such as repeated inappropriate flirting, staring, or making sexually suggestive gestures.

t. Sexual Misconduct is sexual harassment, gender-based harassment or sexual violence, as defined in this policy.

u. Sexual Violence includes:

- (1) sexual activity without affirmative consent, such as sexual assault rape/attempted rape, and forcible touching/fondling;
- (2) dating, domestic and intimate partner violence;
- (3) stalking as defined below; and
- (4) voyeurism, as defined below.

v. Stalking is intentionally engaging in a course of conduct directed at a specific person that:

1. is likely to cause reasonable fear of material harm to the physical health, safety or property of such person, a member of such person's immediate family or a third party with whom such person is acquainted; or causes material harm to the mental or emotional health of such person, where such conduct consists of following, telephoning or initiating communication or contact with such person, a member of such person's immediate family or a third party with whom such person is acquainted; or 8
2. is likely to cause such person to reasonably fear that her/his employment, business or career is threatened, where such conduct consists of appearing, telephoning or initiating communication or contact at such person's place of employment or business, and the actor was previously clearly informed to cease that conduct.

Where stalking is directed at an individual with whom the perpetrator has, had, or sought some form of sexual or romantic relationship, it will be addressed under this Policy. Stalking that lacks a sexual or gender-based nexus may be addressed under the Code of Conduct.

w. Supervisors are employees who are not managers, but have a sufficient degree of control over the working conditions of one or more employees, which might include evaluating their performance and making recommendations for changes in employment status that are given particular weight.

x. Visitor is an individual who is present at a CUNY campus or unit but is not a student or an employee.

y. Voyeurism is unlawful surveillance and includes acts that violate an individual's right to privacy in connection with her/his body and/or sexual activity such as:

- i. Viewing another person's sexual activity, intimate body parts, or nakedness in a place where that person would have a reasonable expectation of privacy, without that person's consent.
  - ii. Recording images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness without that person's consent;
  - iii. Disseminating images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness, if the individual distributing the images or audio knows or should have known that the person depicted in the images or audio did not consent to such disclosure;
  - iv. Using or installing, or permitting the use or installation of a device for the purpose of recording another person's sexual activity, intimate body parts or nakedness in a place where the person would have a reasonable expectation of privacy without that person's consent.
- z. Writing. Whenever this policy requires in "writing," electronic mail satisfies the writing requirement.

## IV. PROHIBITED CONDUCT

### A. Sexual Harassment, Gender-Based Harassment and Sexual Violence

This policy prohibits sexual harassment, gender-based harassment and sexual violence (together "Sexual Misconduct") against any CUNY student, employee or visitor.

Sexual harassment includes unwelcome conduct of a sexual nature, such as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, graphic and electronic communications or physical conduct that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities.

Sexual harassment is considered a form of employee misconduct and an employee who engages in such conduct, or, managerial and supervisory personnel who knowingly allow such behavior to continue, shall be subject to discipline in accordance with applicable rules, policies and collective bargaining agreements.

Gender-based harassment is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities.

Sexual violence is an umbrella term that includes: (1) sexual activity without affirmative consent, sexual assault, rape/attempted rape, and forcible touching/fondling; (2) dating, domestic and intimate partner violence; (3) stalking/cyberstalking ("stalking"), and (4) voyeurism.

The complete definitions of these terms, as well as other key terms used in this policy, are in Section III above.

### B. Retaliation

This policy prohibits retaliation against any person who reports Sexual Misconduct, assists someone making such a report, participates in any manner in an investigation or resolution of a Sexual Misconduct complaint, including testifying or assisting in a legal proceeding, or opposes in a reasonable manner an act or policy believed to constitute Sexual Misconduct. Federal, state, and local laws also prohibit retaliation.

C. Certain Intimate Relationships This policy also prohibits certain intimate relationships when they occur between a faculty member or employee and any student for whom he or she has a professional responsibility as set forth in Section XIII below.

## V. TITLE IX COORDINATOR

Each college or unit of CUNY has an employee who has been designated as the Title IX Coordinator. This employee is responsible for compliance with Title IX of the Education Amendments of 1972, which prohibits sex discrimination, including Sexual Misconduct, in education programs, and with New York State Law Article 129B, commonly referred to as Enough is Enough, Combating Sexual Assault and Domestic Violence on College Campuses (hereafter "Enough is Enough"). The Title IX Coordinator has overall responsibility for implementing this policy, including overseeing the investigation of complaints at her/his college or unit and carrying out the other functions of that position set forth in this policy. All Title IX Coordinators shall receive annual training on Sexual Misconduct as required by Title IX, the Clery Act, Enough is 10 Enough, and other civil rights law. The name and contact information for all Title IX Coordinators at CUNY can be found on the university's dedicated Title IX website.

## VI. ASSISTANCE IN CASES OF SEXUAL VIOLENCE

### A. Reporting to Law Enforcement

Students, employees and other community members who experience any form of sexual violence on or off-campus (including CUNY-sponsored trips and events) and visitors who experience sexual violence on a CUNY campus may, but are not required to, report to local law enforcement, and/or state police. CUNY does not require a complainant to report sexual misconduct to law enforcement; however, if a student, employee, or other community member does wish to report to law enforcement, CUNY will provide

assistance. Each college public safety office shall have an appropriately trained employee available at all times to provide the complainant with information regarding options to proceed, including information regarding the criminal justice process and the preservation of evidence. Campus public safety officers can also assist the complainant with filing a complaint both on and off-campus, and in obtaining immediate medical attention and other services.

Additional information is available on the university's Title IX website.

#### B. Relationship of CUNY's Investigation to the Action of Outside Law Enforcement

In cases where the complainant files a complaint with outside law enforcement authorities as well as with the college, the college shall determine what actions to take based on its own investigation. The college may coordinate with outside law enforcement authorities in order to avoid interfering with their activities and, where possible, to obtain information regarding their investigation. Neither a law enforcement determination whether to prosecute a respondent, nor the outcome of any criminal prosecution, is dispositive of whether the respondent has committed a violation of this policy.

Students, employees and other community members should be aware that CUNY procedures and standards differ from those of criminal procedures. When CUNY investigates allegations of sexual misconduct or brings disciplinary proceedings for violations of this policy, the issue is whether the respondent violated CUNY policy. The standard applied in making this determination is whether the preponderance of the evidence substantiates the complaint, or, stated another way, whether it is more likely than not that the alleged conduct occurred. An individual found to have violated this policy may be sanctioned by the college and CUNY. In the criminal justice system, on the other hand, the issue is whether the accused violated state criminal law. The standard applied is proof beyond a reasonable doubt and an individual found guilty of a crime is subject to criminal penalties, such as incarceration, probation and fines. More information about relevant criminal laws is available in '[A Plain Language Explanation of Distinction Between the New York Penal Law and the College Disciplinary Processes](#)'.

#### C. Obtaining Immediate Medical Attention and Emotional Support

CUNY encourages anyone who has experienced sexual assault or domestic, dating or intimate partner violence to seek medical attention as soon as possible. Medical resources can provide treatment for injuries, preventative treatment for sexually transmitted diseases, emergency contraception, and other health services. They can also assist in preserving evidence or documenting any injuries. Taking these steps promptly after an incident can be very helpful if an individual later decides to seek criminal proceedings or a protective order.

Individuals who have experienced or witnessed sexual violence are also encouraged to seek emotional support, either on or off-campus.

#### D. On-campus resources

On campus resources include nurses and/or nurse practitioners at campus health offices and counselors at campus counseling centers. Counselors are trained to provide crisis intervention and provide referrals for longer-term care as necessary.

CUNY also maintains a list of off-campus emergency contacts and resources, including rape crisis centers, available throughout New York City on its dedicated web page. This includes a list of local hospitals designated as SAFE (Sexual Assault Forensic Examiner) hospitals, which are specially equipped to handle sexual assaults and trained to gather evidence from such assaults.

### VII. IMPORTANT INFORMATION ABOUT CONFIDENTIALITY, PRIVACY and REQUIRED REFERRALS

CUNY values the privacy of its students, employees, and visitors. They should be able to seek the assistance they need without fear that the information they provide will be shared more broadly. Some individuals who serve as resources on campus are confidential resources and will not share any identifying information with others, except as required by law in emergency circumstances. Other individuals are not permitted to maintain confidentiality but will protect privacy to the greatest extent possible and share information with other staff only on a need-to-know basis.

**Confidential resources.** Individuals considered confidential resources include counselors and health care providers at the college counseling centers and health offices, pastoral counselors, and designated staff members at women's or men's centers, if they exist on campus. Students may use these resources even if they decide not to make a report or participate in University disciplinary proceedings or the criminal justice process.

**Private but non-confidential resources.** Many college employees are required by federal and state law to provide information about possible sexual misconduct to the Title IX Coordinator. Individuals designated as non-confidential but private resources will protect privacy to the greatest extent possible, but must share relevant information about sexual misconduct with the Title IX Coordinator.

More information about confidential and private but non-confidential resources is provided in Section IX, below.

Under the Clery Act, the College is required to maintain records, advise the government about reports of certain crimes, and issue timely warnings when there is a serious, continuing threat to the community. Such reports and warnings do not disclose the names of reporting individuals.

## VIII. REPORTING SEXUAL MISCONDUCT TO THE COLLEGE

In order for the University to address allegations of sexual misconduct, it has to learn about them. Accordingly, CUNY strongly encourages individuals who have experienced sexual misconduct to file a complaint with a designated campus official, as outlined below. The designated officials are trained to accept complaints, to ensure they are investigated in accordance with this policy, and to help complainants get necessary assistance.

Students, faculty, staff and visitors are encouraged to report incidents of sexual misconduct to campus officials, even if they have reported the incident to outside law enforcement authorities, and regardless of whether the incident took place on or off-campus (including "study abroad" programs). Such reporting will enable complainants to get the support they need and provide the college with the information it needs to take appropriate action.

#### A. Complainant's Rights

Individuals who have experienced sexual misconduct have the right to file a complaint with the college or to decide not to do so. (The decision on whether to bring disciplinary charges, however, rests with the campus.) Students who report sexual misconduct have all of the rights contained in the Students Bill of Rights (copy attached).

Complainants also have these rights:

- To notify campus public safety, local law enforcement, and/or the state police; or to choose not to report.
- To have emergency access to a college official trained to interview victims of sexual assault and able to provide certain information, including reporting options and information about confidentiality and privacy. The official will, where appropriate, advise the reporting individual about the importance of preserving evidence and obtaining a sexual assault forensic examination ("SAFE") as soon as possible. The official will also explain that the criminal process uses different standards of proof, evidence, and that any questions about whether an incident violated criminal law should be addressed to a law enforcement official or a district attorney's office.
- To disclose the incident to a college representative who can offer confidentiality or privacy and assist in obtaining services for reporting individuals. See Section IX, below.
- To describe the incident only to those campus officials who need the information in order to properly respond and to repeat the description as few times as practicable.

- To have complaints investigated in accordance with CUNY policy.
- To have privacy preserved to the extent possible.
- To receive assistance and resources on campus, including confidential and free on-campus counseling, and to be notified of other services available on- and off-campus, including the New York State Office of Victim Services.
- To disclose the incident to the college's Human Resources Director or designee (if the accused is a college employee) or request that a confidential or private resource assist in doing so.
- To disclose the incident confidentially and obtain services from state and local governments.
- To receive assistance from the campus or others in filing a criminal complaint, initiating legal proceedings in family court or civil court, and /or seeking an Order of Protection or the equivalent. In New York City, this assistance is provided by Family Justice Centers located in each borough: <http://www1.nyc.gov/site/ocdv/programs/family-justicecenters.page>.
- To receive assistance with effecting an arrest when an individual violates an Order of Protection, which may be provided by assisting local law enforcement in effecting such an arrest.
- To withdraw a complaint or involvement from the process at any time. Students can speak with confidential resources on a strictly confidential basis before determining whether to make a report to college authorities. See Section IX, below. Students also have the right to consult confidentially with state, local and private resources who can provide other assistance.

#### B. Where to File a Complaint on Campus

Students, employees and visitors who experience sexual misconduct should bring their complaints to one of these campus officials/offices:

- Title IX Coordinator;
- Office of Public Safety;
- Office of Vice President for Student Affairs or Dean of Students (students only);
- Residence Life staff in CUNY owned or operated housing (students and residence visitors only); and
- Human Resources Director (employees only).

Contact information for these officials can be found at <https://www1.cuny.edu/sites/titleix/campus-websites/>.

There is no prescribed method for filing a complaint of sexual misconduct and the college will respond to complaints whether they are oral or written. Complainants may, but are not required to, fill out the CUNY Sexual Misconduct Complaint form (see page 38). After the form is filled out, it should be brought to one of the offices listed above.

Once any of the officials or offices above is notified of an incident of sexual misconduct, she/he will provide a copy of this Policy to the Complainant and coordinate with appropriate college offices to address the matter in accordance with this policy, including taking appropriate interim and supportive measures. These officials and offices will maintain a complainant's privacy to the greatest extent possible, and all information in connection with the complaint, including the identities of the complainant and the respondent, will be shared only with those who have a legitimate need for the information.

Visitors: CUNY strongly encourages visitors to report all incidents of sexual misconduct that they observe or experience while on a CUNY campus or at a CUNY sponsored event to the Office of Public Safety, Residence Life staff, or other appropriate college officials listed above. In certain instances, CUNY may be able to offer those visitors who have experienced sexual misconduct with resources and assistance. For more information on such assistance, please visit <http://www1.cuny.edu/sites/title-ix/>.

#### C. Request that the College Maintain a Complainant's Confidentiality or Not Conduct an Investigation

After a report of an alleged incident of sexual misconduct is made to the Title IX Coordinator, a complainant may request (a) that the matter be investigated only to the extent possible without further revealing her/his identity or any details regarding the incident being divulged further (b) that no investigation into a particular incident be conducted, or (c) that an incident not be reported to outside law enforcement.

In all such cases, the Title IX Coordinator will weigh the complainant's request against the college's obligation to provide a safe, non-discriminatory environment for all students, employees and visitors, including the complainant. Factors used to determine whether to honor such a request include, but are not limited to: (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation of unlawful conduct by the accused from previously noted behavior; (c) any increased risk that the accused will commit additional acts of violence, (d) whether the accused used a weapon or force; (e) whether the complainant is a minor; (f) whether the college possesses other means to obtain evidence such as security footage; and (g) whether available information reveals pattern of misconduct at a given location or by particular group.

A decision to maintain confidentiality does not mean that confidentiality can be absolutely guaranteed in all circumstances, but that reasonable efforts will be made to keep information confidential consistent with law. Notwithstanding the decision of the Title IX Coordinator regarding the scope of any investigation, the college will provide the complainant with ongoing assistance and support, including, where appropriate, the interim and supportive measures set forth in Section X of this policy.

If the Title IX Coordinator determines that the college may maintain confidentiality as requested by the complainant, the college will, if possible, take reasonable steps to investigate the incident consistent with the request for confidentiality. However, a college's ability to meaningfully investigate the incident and pursue disciplinary action may be limited by such a request for confidentiality.

#### D. Filing External Complaints

Complainants who feel that they have been subjected to unlawful sexual harassment and/or violence have the right to avail themselves of any and all of their rights under law, including but not limited to filing complaints with one or more of the outside agencies listed below. - U.S. Department of Education,

Office for Civil Rights

<http://www2.ed.gov/about/offices/list/ocr/complaintprocess.html> -

U.S. Equal Employment Opportunity Commission [https://www.eeoc.gov/federal/fed\\_employees/filing\\_complaint.cfm](https://www.eeoc.gov/federal/fed_employees/filing_complaint.cfm) -

New York State Division of Human Rights -

<https://dhr.ny.gov/complaint> -

New York City Commission on Human Rights

<http://www1.nyc.gov/site/cchr/about/resources.page>

#### E. Action by Bystanders and Other Community Members

While only employees designated as “responsible” employees are required reporters as set forth in Section IX below, CUNY encourages all other community members, including faculty, students and visitors, to take reasonable and prudent actions to prevent or stop an act of sexual misconduct that they may witness. Although these actions will depend on the circumstances, they may include direct intervention, calling law enforcement, or seeking assistance from a person in authority.

In addition, CUNY encourages all community members to report any incident of sexual misconduct that they observe or become aware of to the Title IX Coordinator, or the offices of Public Safety, Vice President of Students Affairs (students), Dean of Students (students) or Human Resources (employees) at their college. Community members who take action in accordance with this paragraph will be supported by the college, and anyone who retaliates against them will be subject to disciplinary charges.

#### F. Amnesty for Drug and Alcohol Use

The health and safety of every student at CUNY is of the utmost importance. CUNY recognizes that students who have been drinking and/or using drugs (whether such use is voluntary or involuntary) at a time that violence (including but not limited to sexual violence) occurs may be hesitant to report such incidents due to fear of potential consequences for their own conduct. CUNY strongly encourages students to report sexual violence to college officials. A bystander or complainant acting in good faith who discloses any incident of sexual violence to college officials or law enforcement will not be subject to discipline under CUNY’s Policy Against Drugs and Alcohol for violations of alcohol and/or drug use policies occurring at or near the time of the commission of the sexual violence.

This policy does not provide amnesty for drug dealers or those who use drugs or alcohol as a weapon or to facilitate assault. Under CUNY’s Amnesty for Drug and Alcohol Policy, personal drug use and possession, whether it is intentional or accidental, will not form the basis of faculty student disciplinary charges.

#### G. Reporting Suspected Child Abuse

Certain members of the CUNY community who interact with, supervise, chaperone, or otherwise oversee minors in programs or activities at CUNY or sponsored by CUNY are required to report immediately to the New York State Maltreatment Hotline if they have reasonable cause to suspect abuse or maltreatment of individuals under the age of 18. Information regarding mandated child abuse reporting is available on the Office of the General Counsel web page. If anyone other than New York State mandated reporters has reasonable cause to believe that a minor is being or has been abused or maltreated on campus, she/he should notify either the Title IX Coordinator or Director of Public Safety. If any CUNY community member witnesses child abuse while it is happening, she/he should immediately call 911.

H. Reporting Retaliation An individual may file a complaint with the Title IX Coordinator if the individual has been retaliated against for reporting sexual misconduct, opposing in a reasonable manner an act or policy believed to constitute sexual misconduct, assisting someone making such a report, or participating in any manner in an investigation or resolution of a sexual misconduct complaint. All retaliation complaints will be investigated in accordance with the investigation procedures set forth in Section XI of this policy, and individuals who are found to have engaged in retaliation will be subject to disciplinary action.

## IX. REPORTING/CONFIDENTIALITY OBLIGATIONS OF COLLEGE AND UNIVERSITY EMPLOYEES

An individual who speaks to a college or CUNY employee about sexual misconduct should be aware that employees fall into three categories:

- “confidential” employees, who have an obligation to maintain a complainant’s confidentiality regarding the incident(s);
- “responsible” employees, who are required to report the incident(s) to the Title IX Coordinator
- all other employees, who are strongly encouraged but not required to report the incident(s).

#### A. Confidential Employees

i. For Students. Students at CUNY who wish to speak to someone who will keep all of the communications confidential should speak to one of the following:

- Counselor or other staff member at their college counseling center;
- Nurse, nurse practitioner or other college health office staff member;
- Pastoral counselor, if available at the college; or
- Designated staff member in a women’s or men’s center, if one exists at their college.

These individuals will not report information about an incident to the college’s Title IX Coordinator or other college employees without the student’s permission. The only exception is in the case where there is an imminent threat of serious harm to the complainant or any other person.

If a student speaks solely to a “confidential” employee, the college will rarely be able to conduct an investigation into the particular incident or pursue disciplinary action against the alleged perpetrator. Confidential employees will assist students in obtaining other necessary support. A student who first requests confidentiality may later decide to file a complaint with the college or with local law enforcement.

ii. For Employees.

Although CUNY does not directly employ individuals to whom CUNY employees can speak on a confidential basis regarding sexual misconduct, free confidential support services are available through CUNY’s Work/Life Program, which is administered by an outside company. Confidential community counseling resources are also available throughout New York City.

#### B. “Responsible” Employees – Private, but not confidential.

“Responsible” employees have a duty to report incidents of sexual misconduct, including all relevant details, to the Title IX Coordinator. Such employees are not permitted to maintain a complainant’s confidentiality, except that the Title IX Coordinator may honor a request for confidentiality under the circumstances described in Section VII above. However, these employees will maintain a complainant’s privacy to the greatest extent possible, and information reported to them will be shared only with the Title IX Coordinator and other people responsible for handling the college’s response to the report.

To the extent possible, before a complainant reveals any information to a responsible employee, the employee shall advise the complainant of the employee’s reporting obligations—and if the complainant wants to maintain confidentiality, direct the complainant to confidential resources identified above.

CUNY has designated the following individuals as “responsible” employees. Complainants who wish to report sexual violence are encouraged to speak with one of the responsible employees marked: \*

- Title IX Coordinator and her/his staff
- \* Office of Public Safety employees (all)
- \* Vice President for Student Affairs or Dean of Students and all staff housed in those offices
- \* Residence Life staff in CUNY owned or operated housing, including Resident Assistants (all) (for students and housing visitors)
- \* Human Resources staff (all) (for employees)
- College President, Vice Presidents and Deans

vii. Athletics Staff (all)

viii. Faculty Athletics Representatives ix. Department Chairpersons/Executive Officers

x. University Office of the General Counsel employees (all)

xi. College/unit attorney and her/his staff xii. College/unit labor designee and her/his staff

xiii. International Education Liaisons/Study Abroad Campus Directors and Field Directors

xiv. Faculty and staff members at times when they are leading or supervising student on off-campus trips xv. Faculty or staff advisors to student groups

xvi. Employees who are Managers or Supervisors (all)

xvii. SEEK/College Discovery staff (all) xviii. College Childcare Center staff (all)

xix. Directors of "Educational Opportunity Centers" affiliated with CUNY colleges

xx. Faculty or staff academic advisors

C. All Other Employees

Employees other than those identified in subsections "A" and "B" above are strongly encouraged but not required to report any possible sexual misconduct to the Title IX Coordinator. They are also strongly encouraged to maintain individual privacy to the greatest extent possible by sharing information, including the identities of the complainant and the respondent, only with the Title IX coordinator.

It is important to emphasize that faculty members other than those specifically identified in sub Section "B" above have not been designated as "responsible" employees and do not have an obligation to report the matter to the Title IX Coordinator, although they are strongly encouraged to do so. An individual who wishes to ensure that the Title IX Coordinator is notified of an incident is strongly encouraged to speak with the Title IX Coordinator or one of the other individuals identified above.

D. Special Rules Concerning Public Awareness and Advocacy Events CUNY supports public awareness events that help provide its community with information about sexual misconduct and how it can be addressed and prevented. In order to preserve the ability to participate freely in public awareness and advocacy events, if an individual discloses information about sexual misconduct at such event (for example, Take Back the Night gatherings, candlelight vigils, or protests) the college will not treat the disclosure as triggering an obligation to commence an investigation based on that information. Such individuals are encouraged to report sexual misconduct to college officials so that the college can provide resources and assistance.

## **X. NO CONTACT ORDERS AND OTHER INTERIM AND SUPPORTIVE MEASURES**

When a college becomes aware of an allegation of sexual misconduct and the complainant or other affected parties request interim or supportive measures, the college will take appropriate interim and supportive measures to protect the complainant and other affected parties, to assist the parties, and to protect against retaliation. Appropriate interim and supportive measures may also be available to respondents. The college may also take interim measures to protect the college community at large. 19

The college's Title IX Coordinator is responsible for coordinating interim and supportive measures, which are available even if the complainant chooses not to file or continue to pursue a complaint. Requests for interim and supportive measures should be made to the Title IX Coordinator.

The Title IX Coordinator will work with the Chief Student Affairs Officer to identify a trained staff member to assist students to obtain interim and supporting measures. The Title IX Coordinator will work with the Human Resources Director to assist employee complainants to obtain interim and supporting measures.

A. No Contact Orders

When respondent is a student, the complainant has the right to a college-issued "no contact order" under which continued intentional contact with the complainant would violate this policy. No contact orders may be issued for both the complainant and the respondent, as well as other individuals as appropriate.

B. Types of Interim and Supportive Measures

Possible interim and supportive measures include:

i. Making appropriate changes to academic programs, including changes in class schedule, accommodations to permit the complainant to take an incomplete or drop a course or courses without penalty, permitting complainant or respondent to attend a class via skype or other alternative means, providing an academic tutor, or extending deadlines for assignments;

ii. Making appropriate changes to residential housing situations or providing assistance in finding alternate housing;

iii. Changing an employee's work assignment or schedule;

iv. Providing the complainant with an escort to and from class or campus work location;

v. Arranging appropriate transportation services to ensure safety;

vi. Offering counseling services through the college Counseling Center or other appropriate office, or referral to an off-campus agency;

vii. Assisting the complainant in obtaining medical and other services, including access to rape crisis centers;

viii. Assisting the complainant with filing a criminal complaint and/or seeking an order of protection;

ix. Enforcing an order of protection;

x. Obtaining a copy and/or explaining the terms of an order of protection and the consequences of violating it;

xi. Addressing situations in which it appears that a complainant's academic progress is affected by the alleged incident;

xii. In exceptional circumstances, where a respondent is determined to present a continuing threat to the health and safety of the community, the college may seek an emergency interim suspension of a student or take similar emergency measures against an employee, consistent with applicable CUNY Bylaws, rules, policies and collective bargaining agreements. The Office of Public Safety will, in cooperation with the Title IX Coordinator 20 and appropriate other campus officials, determine whether a respondent presents a continuing threat to the health and safety of the campus, including (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation in unlawful conduct by the accused; and (c) any increased risk that the accused will commit additional acts of violence.

C. Interim Emergency Student Suspensions

The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing for not more than twelve (12) calendar days, unless the student requests an adjournment. See Section B above.

Prior to the commencement of a temporary suspension of a student, the college shall give the student respondent oral notice (which shall be confirmed via email to the address appearing on the records of the college) or written notice of the charges. If the respondent denies them, the college shall forthwith give the respondent an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter.

Both complainant and the respondent will be notified of the suspension and if or when it the suspension is lifted at the same time and in the same manner.

D. Process for Review of Interim Measures, including "No Contact" Orders and Interim Suspensions.

Upon request, the complainant and the respondent shall each be afforded a prompt review of the need for and terms of restrictive interim measures, including "no contact" orders and interim suspensions. Issues that may be raised include possible modification or discontinuance of a "no contact" order. Complainants and respondents shall be allowed to submit evidence to support their request. The request shall be made to the college's Chief Student Affairs Officer, if either the complainant or the respondent is a student, or to the college's Human Resources Director, if neither the complainant nor the respondent are students. If a request is made in a case involving both a student and an employee, the Chief Student Affairs Officer shall consult with the Human Resources Director. The Chief Student Affairs Officer or Human Resources Director may consult with the Title IX Coordinator and other relevant officials regarding the request. If appropriate and possible, the college may establish an appropriate schedule for the complainant and the respondent to access college facilities when they are not being used by the other party to enable both parties to use college facilities to the maximum extent feasible, without violation of the "no contact" order.

Requests for accommodations that were made under CUNY's Procedures for Implementing Reasonable Accommodations and Academic Adjustments and do not directly affect the other party are governed by the appeals provisions set forth in those Procedures.

## XI. INVESTIGATING COMPLAINTS OF SEXUAL MISCONDUCT

The college will conduct an investigation when it becomes aware, from any source (including third-parties not connected to the college or university), that sexual misconduct may have been committed against a student, employee or visitor, unless the information provided is insufficient to permit an investigation or the complainant has requested that the college refrain from such an investigation and the college has determined that refraining from an investigation will not result in a continuing threat to the college community. See Section VIII, above.

A. Rights of the Complainant and Respondent.

Whenever an investigation takes place, the complainant and respondent shall have these rights:

- to an investigation and process that is fair, impartial, timely and thorough and provides a meaningful opportunity to be heard;
- to have the complaint investigated and/or adjudicated by individuals who receive annual training in conducting investigations of sexual violence, the effects of trauma, impartiality, and the rights of the respondent, including the right to a presumption that the respondent is "not responsible" until any finding of responsibility;
- to have the college's judicial or conduct process run concurrently with any criminal justice investigation and proceeding, except for temporary delays requested by external municipal entities while law enforcement gathers evidence;
- to receive reasonable advance written or electronic notice of any meeting they are required to or eligible to attend, of the specific rule or law alleged to have been violated and in what manner;
- to exclude their own prior sexual history with persons other than the other party in the conduct process or their own mental health diagnosis and/or treatment from admittance in the stage that determines responsibility. (Past findings of sexual misconduct may be admissible in the stage that determines sanction.)
- to offer evidence during the investigation;
- to review documents and tangible evidence, consistent with FERPA and other law;
- to be accompanied by an attorney or other advisor of their choice, who may assist and advise the complainant or respondent throughout the process including during all related meetings and hearings. Such attorneys or advisors must comply with the CUNY policies and procedures; and
- to simultaneous notice of the outcome of proceedings.

B. The Investigation

The college Title IX Coordinator is responsible for conducting any investigation in a prompt, thorough, and impartial manner and may designate another appropriately trained administrator to conduct all or part of the investigation. Whenever an investigation is conducted, the Title IX Coordinator shall:

- coordinate investigative efforts with other appropriate offices;
- inform the complainant that an investigation is being commenced and that the respondent will receive a written summary of the allegations;
- inform the respondent that an investigation is being commenced and provide the respondent with a written summary of the allegations of the complaint. A respondent employee who is covered by a collective bargaining agreement may consult with and have a union representative present at any interview of that employee conducted as part of such investigation;
- interview witnesses who might reasonably be expected to provide information relevant to the allegations, and review relevant documents and evidence. Both the complainant and respondent shall be informed that they have the right to provide relevant documents and to propose for interview witnesses whom they reasonably believe can provide relevant information.

Neither the complainant nor the respondent is restricted from discussing and sharing information related to the complaint with others who may support or assist them. This does not, however, permit unreasonable sharing of private information in a manner intended to harm or embarrass another, or in a manner that would recklessly do so regardless of intention. Such unreasonable sharing may constitute retaliation under this Policy.

The college Title IX Coordinator shall maintain all documents of the investigation in accordance with the [CUNY Records Retention and Disposition Policy](#).

The college shall make reasonable efforts to ensure that the investigation and resolution of a complaint are carried out as timely and efficiently as possible. However, the college may need to temporarily delay the fact-finding portion of its investigation during the evidence-gathering phase of a law enforcement investigation. Temporary delays will generally not last more than ten days except when law enforcement specifically requests and justifies a longer delay. While some complaints may require more extensive investigation, when possible, the investigation of complaints should be completed within sixty (60) calendar days of the receipt of the complaint. If there is a delay in completing the investigation, the Title IX Coordinator shall notify the complainant and the respondent in writing.

i. Role of the Advisor

In cases involving this Policy, both the complainant and respondent may be accompanied by an advisor of their choice (including an attorney) who may advise throughout the entire process, including all meetings and hearings. While advisors may represent a party and fully participate at a hearing, they may not speak during the meetings that proceed the hearing nor give testimony as a witness at the hearing.

### C. Conflicts

If a complainant or respondent believes that any individual involved in the investigatory or adjudication process has a conflict of interest, he or she may make a request to the Chief Student Affairs Officer (or, if no students are involved, to the Legal or Labor Designee) to have that conflicted individual removed from the process. The request for removal must be in writing within five days of the complaint or respondent's notification that the individual is to be involved and include a detailed description of the conflict. If the Chief Student Affairs Officer (or Legal or Labor Designee) determines that a conflict does exist, he or she will take immediate steps to address the conflict in order to ensure an impartial and fair process.

If any administrator designated by this policy to participate in the investigation or resolution of a complaint (including but not limited to the Title IX Coordinator) is the respondent, the College President will appoint another college administrator to perform such person's duties under this policy. If the President is the respondent, the investigation will be handled by the University Title IX Coordinator or her/his designee.

### D. Informal Resolution

Except in instances involving sexual assault, the Title IX Coordinator, in his or her discretion, may offer the respondent and the complainant the opportunity to participate in the informal resolution process. Informal resolution may take place after the Title IX Coordinator has completed the investigation, but before the Title IX report has been completed, in an effort to resolve the matter by mutual agreement. The informal resolution process shall be conducted by the Title IX Coordinator, or by a qualified staff or faculty member designated by Title IX Coordinator, in coordination with the Chief Student Affairs Officer.

Both the complainant and the respondent have the right to end the informal resolution process at any time. Any informal resolution must be acceptable to the complainant, the respondent, and the Title IX Coordinator. Even if both the respondent and complainant agree to a resolution, the Title IX Coordinator must also agree with the resolution for it to be final.

If a resolution is reached, the complainant and the respondent shall be notified in writing, and the Title IX Coordinator will confer with the Chief Student Affairs Officer when creating a written memorandum memorializing the agreed upon resolution and consequences for non-compliance. This memorandum will be included in the respondent's student record.

If no agreement is reached within a reasonable time, the Title IX Coordinator shall complete the Title IX report and take action in accordance with subsection E below. Information learned during and directly from the informal resolution process will not be documented in the Title IX report.

### E. Action Following the Investigation or Closure of a Complaint.

i. Within 30 days following the completion of an investigation, the Title IX Coordinator shall report her/his findings to the College President in writing ("Report of Findings"). In the event the complainant or the respondent is a student, the report shall also be sent to the 24 Chief Student Affairs Officer. A copy of the report shall be maintained in the files of the Title IX Coordinator.

ii. In making findings regarding the allegations, the Title IX Coordinator shall use the "preponderance of the evidence" standard.

iii. Following receipt of the Report of Findings, the College President shall, when warranted by the facts, authorize such action as she/he deems necessary to address the issues raised in the Report of Findings, including action to correct the effects of the conduct investigated or prevent further harm to an affected party or others similarly situated. This may include a recommendation that disciplinary action be commenced against a respondent, as set forth in Section XII below.

iv. Within 30 calendar days following the termination of an investigation that has not been completed (for example, because it was resolved by informal resolution or the complainant withdrew cooperation); the Title IX Coordinator will summarize for the file the actions taken in response to the complaint and the basis on which the investigation was closed.

### F. Malicious Allegations

Members of the CUNY community who make false and malicious complaints of violations of this policy or as opposed to complaints which, even if erroneous, are made in good faith, may be subject to disciplinary action.

## XII. DISCIPLINARY PROCESS AND PROCEDURES

### A. Disciplinary Action

If the College President recommends that disciplinary action be commenced against a respondent student or employee for violations of this Policy, the following procedures shall apply:

#### Discipline Against Students:

a. In cases where a College President recommends discipline against a student for violations of this Policy, the matter shall be referred to the college's Office of Student Affairs and action shall be taken in accordance with Section 11.A-C of this Policy, below. This Section provides for, among other things, a Faculty-Student Disciplinary Committee consisting of faculty members, students and in some cases staff members specially trained to hear and decide charges of violation of this Policy.

b. As described in Sections XI above, complainants have the same rights as respondents:

- to receive notice of the charges, including the date, time, location and factual allegations, concerning alleged violation of this Policy;
- to receive notice of the specific provisions alleged to have been violated and possible sanctions; • to present evidence and testimony at any hearing, where appropriate;
- to be represented by an attorney or advisor of their choice;
- to receive access to a full and fair record of any hearing;
- to receive written notice of the decision of the faculty-student disciplinary committee, specifically whether the allegations were substantiated and what, if any, penalty was imposed;
- to make an impact statement at the point when the decision maker is deliberating on appropriate sanctions;
- To written notice of findings of fact, decisions and sanctions if any, as well as the rationale for the decision and any sanction;
- to choose whether to or discuss the outcome of a conduct or judicial process;
- to appeal to a decision maker that is fair and impartial and does not include individuals with conflicts of interest;
- to have all information obtained during the conduct process protected from public release until a decision maker on appeal makes a final determination, unless otherwise required by law.

c. Penalties for students instituted after a hearing before the faculty-student disciplinary committee range from a warning to suspension or expulsion from the University. Students accused of crimes of violence are also subject to the university's policy on transcript notations which is discussed in this Section below.

#### Discipline Against Employees

In cases where the college President recommends discipline against an employee, the matter shall be referred for disciplinary action in accordance with the applicable CUNY policies, rules and collective bargaining agreements. Penalties for employees include, depending on the employee's title, reprimand, suspension, demotion, fine, or termination of employment following applicable disciplinary procedures. For many respondent employees, these procedures may include a hearing before a non-CUNY fact-finder, as required by the particular collective bargaining agreement.

For additional information on the disciplinary process in specific cases, complainants should consult their campus Title IX Coordinator, who will work with campus Human Resources Director to provide information. Respondents should consult their union representative, if any, or campus Human Resources Director.

#### Action Against Visitors

In cases where the person accused of sexual misconduct is not a CUNY student or employee, the college's ability to take action against the accused is usually extremely limited. However, the college shall take all appropriate actions within its control, such as restricting the visitor's access to campus. In addition, subject to Section VI, above, the matter may be referred to local law enforcement for legal action, including seeking Orders of Protection and/or reporting to local law enforcement, where appropriate. College Public Safety will assist both students and employees in enforcing Orders of Protection on the campus.

#### No Disciplinary Action

In cases where a determination is made not to bring disciplinary action, the Title IX Coordinator shall inform the complainant and respondent of that decision at the same time, in writing, and shall offer any appropriate support services, including counseling, to both.

### B. Student Disciplinary Procedures

#### Referral of Violation for Disciplinary Action

If the President decides that discipline is warranted, the President will refer the matter to the Chief Student Affairs Officer for further action. The chief student affairs officer may rely on the investigation and determination of the Title IX Coordinator and prefer disciplinary charges.

In instances where a respondent is alleged to have violated this Policy as well as other CUNY policies, rules or bylaws, the entire matter will be heard before the Faculty Student Disciplinary Committee and will follow the rules and procedures outlined in this Policy.

#### Respondent Withdrawal Before Completion of the Process

In the event that a respondent withdraws from the college before a decision is rendered on the charges, the respondent is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made, or the charges are otherwise resolved.

Immediately following such withdrawal, the college shall place a notation on the respondent's transcript that the respondent "withdrew with conduct charges pending." If the respondent fails to appear, the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding, and the transcript notation, if any, resulting from that decision and penalty shall replace the notation.

#### Issuance of Charges & Notice of Hearing

Notice of the charge(s) and of the time and place of the hearing shall be sent to the respondent by both first-class mail and email to the address appearing on the records of the college. Notice shall also be sent in a similar manner to the complainant to the extent that charges relate to the complainant. The Chief Student Affairs Officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent and the complainant.

The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment, for a reasonable amount of time under the circumstances, without specifying a reason. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the Faculty Student Disciplinary Committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed without the respondent present, and any decision and sanction shall be binding.

#### Content of Notice of Charges and Hearing

The notice shall contain the following:

- A. A complete and itemized statement of the charge(s) being brought against the respondent including the policy, rule and/or bylaw the respondent is charged with violating, and the possible penalties for such violation.
- B. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:
  - i. to present their side of the story;
  - ii. to present witnesses and evidence on their behalf;
  - iii. to cross-examine witnesses presenting evidence, the exception being that the complainant and respondent may not cross-examine each other as discussed below;
  - iv. for the respondent to remain silent without assumption of guilt; and
  - v. to be represented by an advisor or legal counsel at their expense; if the respondent or the complainant requests it, the college shall assist in finding a legal counsel or advisor.
  - vi. A warning that anything the respondent says may be used against the respondent at a non-college hearing.

#### Review of Evidence before Hearing:

At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by the Family Educational Rights and Privacy Act ("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the additional documents or tangible evidence. If during the hearing the complainant or the respondent submits documentary evidence, the chairperson may, at the request of any other party grant, adjournment of the hearing as necessary in the interest of fairness, to permit the requesting party time to review the newly produced evidence.

#### Admission & Acceptance of Penalty

After the charges have been preferred by the chief student affairs officer, but prior to the commencement of a disciplinary hearing, the respondent may admit to the charges and accept the penalty that the chief student affairs officer or designee determines to be appropriate to address the misconduct. If required by this Policy, the agreed-upon penalty shall be placed on the respondent's transcript consistent with CUNY's policy on Transcript Notations (see below). Before resolving a complaint in this manner, the

chief student affairs officer, or designee, shall first consult with the complainant and provide the complainant with an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant's objection, the chief student affairs officer or designee shall provide the complainant with a statement of the reasons supporting such resolution, and the complainant may appeal the resolution to the college President.

C. Faculty Student Disciplinary Committee Structure:

Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training upon appointment and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons: CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. Members of the panel shall be trained on an annual basis in compliance with the law and this Policy. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEO's. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected.

In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to 29 continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery

Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year

Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee

Roles and Responsibilities of Individuals during the Hearing

a. Role and Responsibilities of Panel Chairperson:

The chairperson shall preside at the hearing. The parties to the hearing are the college, the respondent, and if the complainant chooses to participate, the complainant. At the commencement of the hearing, the chairperson shall inform the respondent of the charges, the hearing procedures, and her or his rights. After informing the respondent of the charges, the hearing procedures, and respondent's rights, the chairperson shall ask the respondent to state whether he or she is responsible or not responsible for the conduct. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson shall rule on any motions regarding the admissibility of evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

The chairperson shall preside at all hearing sessions and meetings and make all rulings for the panel. The chairperson has discretion to limit the number of witnesses and the length of testimony for the presentations by any party and/or their representative. All hearings pursuant to this Policy shall be closed hearings. The chairperson shall not be a voting member of the panel but shall vote in the event of a tie. In the event that the chairperson cannot continue, the President, or his or his designee, shall appoint another chairperson from the committee. In the event that a seat on the panel becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student committee members by lot.

b. Presenters:

Each academic year, the chief student affairs officer at each College or designee shall identify one or more college employees to serve as presenters for the hearings. This list will be forwarded to the Offices of the Vice Chancellor for Student Affairs and General Counsel and Vice Chancellor for Legal Affairs prior to the first day of the academic year. The employee who serves as presenter during the hearing shall be from the same institution as the respondent.

c. Recording of Proceeding

The college shall make a recording of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. No other recording of the proceedings shall be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's advisor. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their advisors.

Basic Hearing Rules:

If, at the commencement of the hearing, the respondent admits the conduct charged, the respondent shall be given an opportunity to explain her/his actions before the hearing panel and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its evidence. At the conclusion of the college's presentation, the respondent may move to dismiss the charges. If the motion is denied by the committee, the complainant, if the complainant chooses to participate, shall be given an opportunity to make a presentation. After the college's, and, if complainant chooses to participate, complainant's presentation, the Respondent shall be given an opportunity to make a presentation.

The college bears the burden of proving the charge(s) by a preponderance of the evidence. The role of the hearing panel is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and make a decision as to responsibility. In the event the respondent is found responsible for the conduct, the committee shall then determine the penalty to be imposed.

The college, the respondent and the complainant are permitted to have advisors act on their behalf during the pendency of a hearing, which shall include the calling and examining of witnesses, and presenting evidence. Any party intending to appear with an attorney shall give the other party five (5) calendar days' notice of such representation.

Neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they choose to, the respondent and the complainant shall cross-examine each other only through an advisor. If either or both of them do not have an advisor, the college shall assist them to find an advisor to conduct such cross-examination. In the alternative, the complainant and respondent may provide written questions to the chairperson to be posed to the witness, in the chairperson's discretion.

#### Responsibility Phase

The following rules apply to the introduction of evidence at the hearing:

Evidence of the mental health diagnosis and/or treatment of a complainant, respondent, or witness may not be introduced; and b) evidence of either party's prior sexual history may not be introduced except that (i) evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing, and (ii) past findings of domestic violence, dating violence, stalking, or sexual assault may be admissible in the stage of that hearing related to penalty.

#### Penalty Phase

If the panel has found the Respondent responsible for the conduct, then the complainant, respondent, and college, will have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be. The complainant, respondent and college will also have the opportunity to introduce evidence of and comment on the respondent's character, including any past findings of a respondent's responsibility for domestic violence, stalking, or sexual assault or any other sexual misconduct, and submit a statement regarding the impact of the conduct.

The College may also introduce a copy of the respondent's previous disciplinary records, if any, from any CUNY institution the respondent has attended, provided the respondent was shown a copy of the records prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the panel in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found responsible for the conduct charged. The hearing panel, to determine an appropriate penalty, shall use the disciplinary records, as well as any documents or character evidence introduced by the respondent, the complainant, or the college.

If either the complainant or the respondent chose not to participate in the hearing, they still have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be and to provide or make an impact statement.

#### ii. Decision

The panel shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing, including the penalty phase. The college shall send to the respondent a copy of the panel's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the college has fourteen (14) calendar days of the conclusion of the hearing to send the panel's decision. The college is also encouraged to send the decision to any other e-mail address that it may have for the respondent. The decision shall be final subject to any appeal.

In cases involving a crime of violence or a non-forcible sex offense, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a faculty-student disciplinary committee penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

#### iii. Appeals/Review

A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii) the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee.

If the penalty after appeal to the president is one of dismissal or suspension for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president. An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the non-appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

#### iv. Transcript Notation(s)

In cases in which the panel finds the respondent responsible and the penalty is either suspension or expulsion, the college shall place a notation on the respondent's transcript stating that respondent was suspended or expelled after a finding of responsibility for a code of conduct violation. In cases where a student has been expelled as a result of a Clery Act crime of violence, the notation will not be removed.

For all other cases, after four years from the date of the conclusion of the disciplinary proceeding, or one year after the conclusion of any suspension, whichever is later, the Respondent has the right to request that a transcript notation from a finding of responsibility be removed. If a finding of responsibility for any violation is vacated for any reason, the notation shall be removed.

### **XIII. COLLEGE OBLIGATIONS UNDER THIS POLICY**

In addition to addressing possible violations of this policy, colleges/units of CUNY have the following obligations:

#### a. Dissemination of Policies, Procedures and Notices

The college Title IX Coordinator, in coordination with the Office of Student Affairs, Office of Public Safety, Human Resources Department and other appropriate offices, is responsible for the wide dissemination of the following on her/his campus: (i) this Policy; (ii) CUNY's Notice of NonDiscrimination; (iii) the Title IX Coordinator's name, phone number, office location, and email address; and (iv) contact information for the campus Public Safety Office. Such dissemination shall include posting the documents

and information on the college website, and including it in residence life materials and training and educational materials. In addition, the Students' Bill of Rights, which is appended to and made a part of this policy, must be distributed to any individual reporting an incident of sexual misconduct at the time the report is made. It must also be distributed annually to all students, made available on the college's website and posted in college campus centers and in CUNY owned and operated housing.

b. Training and Educational Programming

CUNY is responsible for providing training to college Title IX Coordinators and others who may serve as investigators. The college Title IX Coordinator, in coordination with other applicable offices, including Public Safety, Human Resources and Student Affairs, is responsible for ensuring that the college provides training to college employees on their obligations under this policy; provides education on this policy and on sexual misconduct (including domestic violence, dating violence, stalking and sexual assault) to new and continuing students; and promotes awareness and prevention of sexual misconduct among all students and employees. Specific required trainings include the following:

i. Training For Responsible and Confidential Employees The college shall provide training to all employees who are required to report incidents of sexual misconduct under this policy, as well as those employees who have been designated as confidential employees.

ii. Training For Title IX Coordinator and other investigators CUNY shall provide at least annual training to Title IX Coordinators and other investigators in conducting investigations of sexual misconduct, including

- the effects of trauma;
- impartiality;
- the rights of the respondent, include the right to a presumption that the respondent is "not responsible" until any finding of responsibility is made;
- relevant CUNY policies and procedures; and • other issues including what constitutes crimes of sexual misconduct.

iii. Student Onboarding and Ongoing Education

Each college shall adopt a comprehensive student onboarding and ongoing education campaign to educate students about sexual misconduct, including domestic violence, dating violence, stalking, and sexual assault. During the student onboarding process, all new first-year and transfer students shall receive training on this policy and on a variety of topics relating to sexual misconduct. In addition, each college shall offer and administer appropriate educational programming to residence hall students, athletes, and student leaders. Each college shall also provide such educational programming to any other student groups which the college determines could benefit from education in the area of sexual misconduct. The college shall also share information on domestic violence, dating violence, stalking and sexual assault prevention with parents of enrolling students. This may be done by linking to <http://www1.cuny.edu/sites/title-ix/information-for-parents-andfamilies/campus/university/>

c. Campus Climate Assessment

Each college of the University shall conduct, no less than every other year, a climate assessment using an assessment instrument provided by the University central office, to ascertain its students' general awareness and knowledge of the University's policy and procedures regarding sexual misconduct, including but not limited to student experiences with and knowledge of reporting, investigation and disciplinary processes. The assessment instrument shall include all topics required to be included under applicable law, including Section 129-B of the New York State Education Law. The University shall publish the results of the surveys on its Title IX web page. The published results shall not contain any information which would enable a reader to identify any individual who responded to the climate assessment.

## **XIV. Rules Regarding Intimate Relationships**

d. Relationships between Faculty or Employees and Students

Amorous, dating or sexual activity or relationships ("intimate relationships"), even when apparently consensual, are inappropriate when they occur between a faculty member or employee and any student for whom he or she has a professional responsibility. Those relationships are inappropriate because of the unequal power dynamic between students and faculty members and between students and employees who advise or evaluate them, such as athletic coaches or workplace supervisors. Such relationships necessarily involve issues of student vulnerability and have the potential for coercion. In addition, conflicts of interest or perceived conflicts of interest may arise when a faculty member or employee is required to evaluate the work or make personnel or academic decisions with respect to a student with whom he or she is having an intimate relationship. Finally, if the relationship ends in a way that is not amicable, the relationship may lead to charges of and possible liability for sexual misconduct.

Therefore, faculty members and other employees are prohibited from engaging in intimate relationships with students for whom they have a professional responsibility, including undergraduates, graduate and professional students and postdoctoral fellows.

For purposes of this Section, professional responsibility for a student means responsibility over any academic matters, including teaching, counseling, grading, advising for a formal project such as a thesis or research, evaluating, hiring, supervising, coaching, making decisions or recommendations that confer benefits such as admissions, registration, financial aid, other awards, remuneration, or fellowships, or performing any other function that might affect teaching, research, or other academic opportunities.

e. Relationships between Supervisors and Employees

Many of the concerns about intimate relationships between faculty members or employees and students also apply to relationships between supervisors and employees they supervise. Those relationships therefore are strongly discouraged. Supervisors shall disclose any such relationships to their supervisors in order to avoid or mitigate conflicts of interest in connection with the supervision and evaluation of the employees with whom they have an intimate relationship. Mitigation may involve the transfer of either the supervisor or employee, reassigning the responsibility to evaluate the employee to a different supervisor, or other appropriate action.

For purposes of this Section, supervising an employee means supervising in an employment setting, including hiring, evaluating, assigning work, or making decisions or recommendations that confer benefits such as promotions, raises or other remuneration, or performing any other function that might affect employment opportunities.

The City University of New York

Students' Bill of Rights

For CUNY students who experience Sexual Violence, including sexual assault; domestic, dating or, intimate partner violence, stalking or voyeurism

All students have the right to 1

1. Make a report to local law enforcement and/or state police;
2. Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously; 3. Make a decision about whether or not to disclose a crime or violation and participate in the judicial or conduct process and/or criminal justice process free from pressure by the institution;
4. Participate in a process that is fair, impartial, and provides adequate notice and a meaningful opportunity to be heard;
5. Be treated with dignity and to receive from the institution courteous, fair, and respectful health care and counseling services, where available;

6. Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such crimes or violations;
7. Describe the incident to as few institutional representatives as practicable and not be required to unnecessarily repeat a description of the incident;
8. Be protected from retaliation by the institution, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the institution;
9. Have access to at least one level of appeal of a determination;
10. Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent throughout the judicial or conduct process including during all meetings and hearings related to such process; and
11. Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the institution.

This Student Bill of Rights was established by the "Enough is Enough" Law, New York State Education Law Article 129-B, effective October 7, 2015.

For more information about preventing and addressing Sexual Violence at CUNY see <http://www1.cuny.edu/sites/title-ix/campus-websites>.

Information about filing a report, seeking a response, and options for confidential disclosure is available also available CUNY's Title IX web page.

Questions about CUNY's Sexual Misconduct policy and procedures may be directed to your campus Title IX Coordinator.

Policy adopted by the Board of Trustees on 12/1/2014 Cal. 4.C., with effective date of 1/1/2015. Amended by the Board of Trustees on 10/1/2015. Cal. 6.B. Adopted as revised by BOT on 6/25/2018. Cal.9.A

## Drug/Alcohol Use - Amnesty Policy

### THE CITY UNIVERSITY OF NEW YORK DRUG/ALCOHOL USE AMNESTY POLICY

The City University of New York's ("CUNY's") Drug/Alcohol Use Amnesty Policy has two principal purposes. First, it is intended to encourage students to seek medical assistance related to drug and/or alcohol use without fear of being disciplined for such use. Because the use of drugs or alcohol may be life-threatening, CUNY wishes to reduce barriers to seeking and receiving medical help in those situations. Second, CUNY wishes to encourage students under the influence of drugs and/or alcohol who may be the victims of, witnesses to, or otherwise become aware of violence (including but not limited to domestic violence, dating violence, stalking, or sexual assault) or sexual harassment or gender-based harassment to report that violence or harassment. Toward that end, CUNY's Policy is that students who seek medical assistance either for themselves or others and/or are reporting violence or harassment will not be subject to discipline under the circumstances described below.

I. Students who in good faith call for medical assistance for themselves or others and/or who receive medical assistance as a result of a call will not be disciplined for the consumption of alcohol (either if underage or if consumed in a CUNY-owned or operated residence hall or facility where alcohol consumption is prohibited) or drugs as long as there are no other violations that ordinarily would subject the student to disciplinary action. Similarly, students who may be the victims of, witnesses to, or otherwise become aware of violence or sexual harassment or gender-based harassment and who report such violence or harassment will not be disciplined for the consumption of alcohol or drugs in the absence of other violations that ordinarily would subject the student to disciplinary action. Other violations that would invoke discipline include but are not limited to (i) unlawful distribution of alcohol or drugs; (ii) sexual misconduct, as defined in CUNY's Policy on Sexual Misconduct; (iii) causing or threatening physical harm; (iv) causing damage to property; (v) hazing.

II. The students involved will be encouraged to complete alcohol and/or drug education activities, assessment, and/or treatment, to be determined by the individual campuses or units of CUNY with which the students are affiliated. If repeated incidents of alcohol or drug use are involved, there may be issues of medical concern, which may result in parental notification, medical withdrawal, and/or other non-disciplinary responses.

III. CUNY's Policy is intended both to implement Article 129-B of the Education Law (which mandates drug and alcohol amnesty for reporters of violence) and to complement New York State's Good Samaritan Law, which is designed to encourage individuals to call 911 in the event of an alcohol or drug-related emergency. Generally, the Good Samaritan Law protects persons who witness or suffer from a medical emergency involving drugs or alcohol from being arrested or prosecuted for drug or underage alcohol possession after they call 911. It does not protect against arrest or prosecution for other offenses, such as the sale of drugs. Approved by the Board of Trustees on 6/30/2014, Cal. No. 7D and effective date of 7/1/2014 as 'Medical Amnesty-Good Samaritan Policy'. Amended and changed to 'Drug and Alcohol Use Amnesty Policy' on 10/1/2015. Cal. No. 6D.

## Equal Opportunity and Non-Discrimination Policy

### THE CITY UNIVERSITY OF NEW YORK POLICY ON EQUAL OPPORTUNITY AND NON-DISCRIMINATION

#### I. Policy on Equal Opportunity and Non-Discrimination

The City University of New York ("University" or "CUNY"), located in a historically diverse municipality, is committed to a policy of equal employment and equal access in its educational programs and activities. Diversity, inclusion, and an environment free from discrimination are central to the mission of the University.

It is the policy of the University—applicable to all colleges and units—to recruit, employ, retain, promote, and provide benefits to employees (including paid and unpaid interns) and to admit and provide services for students without regard to race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including pregnancy, childbirth and related conditions), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, status as a victim of domestic violence/stalking/sex offenses, unemployment status, or any other legally prohibited basis in accordance with federal, state and city laws.<sup>[1]</sup>

It is also the University's policy to provide reasonable accommodations when appropriate to individuals with disabilities, individuals observing religious practices, employees who have pregnancy or childbirth-related medical conditions, or employees who are victims of domestic violence/stalking/sex offenses.

This Policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.

#### Prohibited Conduct Defined

**Discrimination** is treating an individual differently or less favorably because of his or her protected characteristics—such as race, color, religion, sex, gender, national origin, or any of the other bases prohibited by this Policy.

**Harassment** is a form of discrimination that consists of unwelcome conduct based on a protected characteristic that has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile or abusive work or academic environment. Such conduct can be spoken, written, visual, and/or physical. This policy covers prohibited harassment based on all protected characteristics other than sex. Sex-based harassment and sexual violence are covered by [CUNY's Policy on Sexual Misconduct](#).

## II. Discrimination and Retaliation Complaints

The City University of New York is committed to addressing discrimination and retaliation complaints promptly, consistently and fairly. There shall be a Chief Diversity Officer at every college or unit of the University, who shall be responsible for, among other things, addressing discrimination and retaliation complaints under this Policy. There shall be procedures for making and investigating such complaints, which shall be applicable at each unit of the University.

## III. Academic Freedom

This policy shall not be interpreted so as to constitute interference with academic freedom.

## IV. Responsibility for Compliance

The President of each college of the University, the CUNY Executive Vice Chancellor and Chief Operating Officer, and the Deans of the Law School, Graduate School of Journalism, School of Public Health and School of Professional Studies and Macaulay Honors College, have ultimate responsibility for overseeing compliance with these policies at their respective units of the University. In addition, each vice president, dean, director, or other person with managerial responsibility, including department chairpersons and executive officers, must promptly consult with the Chief Diversity Officer at his or her college or unit if he or she becomes aware of conduct or allegations of conduct that may violate this policy. All members of the University community are required to cooperate in any investigation of a discrimination or retaliation complaint.

[1] *As a public university system, CUNY adheres to federal, state and city laws and regulations regarding non-discrimination and affirmative action. Should any federal, state or city law or regulation be adopted that prohibits discrimination based on grounds or characteristics not included in this Policy, discrimination on those additional bases will also be prohibited by this Policy.*

**\*Part of Policies and Procedures adopted and approved effective November 27, 2012, Cal.No.4; and revised policy amended and adopted December 1, 2014, Cal. No. C., with effective date of January 1, 2015; Cal. Item C.\***

## COMPLAINT PROCEDURES UNDER CUNY'S POLICY ON EQUAL OPPORTUNITY AND NON-DISCRIMINATION

### 1. Reporting Discrimination and/or Retaliation

The University is committed to addressing discrimination and/or retaliation complaints promptly, consistently and fairly.

Members of the University community, as well as visitors, may promptly report any allegations of discrimination or retaliation to the individuals set forth below:

- A. Applicants, employees, visitors and students with discrimination complaints should raise their concerns with the Chief Diversity Officer at their location.
- B. Applicants, employees, visitors and students with complaints of sexual harassment or sexual violence, including sexual assault, stalking, domestic and intimate violence, should follow the process outlined in [CUNY's Policy on Sexual Misconduct](#).
- C. There are separate procedures under which applicants, employees, visitors and students may request and seek review of a decision concerning reasonable accommodations for a disability, which are set forth in CUNY's [Procedures on Reasonable Accommodation](#).

### 2. Preliminary Review of Employee, Student, or Visitor Concerns

### 3. Filing a Complaint

### 4. Informal Resolution

### 5. Investigation

### 6. Withdrawing a Complaint

### 7. Timeframe

### 8. Action Following Investigation of a Complaint

### 9. Immediate Prevention Action

### 10. False and Malicious Accusations

### 11. Anonymous Complaints

### 12. Responsibilities

### Some Relevant Laws Concerning Non-Discrimination and Equal Opportunity

## Guidelines for the Implementation of the Student Records Access Policy and the Family Educational Rights and Privacy Act (FERPA)

The Student Records Access Policy of the Board of Trustees of The City University of New York (CUNY) provides that the University and its colleges shall be in full compliance with the Family Educational Rights and Privacy Act (FERPA), 20 U.S. §1232g, and its implementing regulations, 34 CFR Part 99.

Under FERPA, students generally have the right to review their education records and must consent in writing before certain personally identifiable information is disclosed to third parties. These guidelines contain information about these requirements and important exceptions, as well as definitions, procedures, and the annual notification of student rights.

### I. Definitions

### II. Student's Right to Review Education Records

#### A. Procedures for Review and Inspection

#### B. Records Not Subject to Mandatory Access

C. Procedures for Amending or Correcting Records

III. Disclosure of Education Records

A. Student Consent Required

B. Directory Information

C. Disclosure of Education Records without Prior Consent

D. Recordkeeping Requirements

E. Limits on Redisclosure

IV. Procedural Requirements

A. Annual Notification of Rights

B. Appeal Rights

V. Forms

A. Notification of Student Rights Concerning Education Records and Directory Information (required annual notice)

B. FERPA Release Form (for students who want records disclosed)

C. Directory Information Non-Disclosure Form (for students who wish to object to the disclosure of directory information)

D. College Denial of Appeal for Access to Records E. Student Appeal Form I.

DEFINITIONS used in this Guidance and attachments:

A. Student. A current or former student at a college, including a student in an on-line course or program, who has actually attended a class. An applicant is not a Student until the applicant has begun attending class at a college or 2 other CUNY program. An individual who is a Student at one CUNY college is not a Student at another CUNY college unless he or she also attends classes at that other college. An individual remains a Student while working under a work-study program.

B. Directory Information. Directory information is information in a student's education record not generally considered harmful or an invasion of privacy under FERPA. It may be disclosed to others without a student's prior written consent, subject to certain exceptions. Information that is considered directory information at CUNY are listed in section III.B, below.

C. Education Records. Data or information which directly relates to a student and is maintained by a college or the University Central Office. Education Records may be created or recorded in any way, including, but not limited to, handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche. Information about a student that is maintained by an educational institution in a computer data base is part of a student's education record and thus protected by FERPA. Unless an exception applies, access to such information is limited to individuals who are School Officials with a legitimate educational interest in the information. Exceptions to the term Education Record are discussed below.

D. Personally identifiable information (PII). Information that makes an education record "personally identifiable" to a particular student, including but not limited to:

a. The student's name or preferred name

b. The name of the student's parent or other family member

c. The address of the student or other family member.

d. Personal identifiers, such as the student's social security number or biometric record

e. Other indirect identifiers, such as the student's date of birth, place of birth, or mother's maiden name

f. Other information that, alone or in combination, is linked or linkable to a specific student, and which would allow a reasonable person in the school community to identify the student

g. Information requested by a person who the college reasonably believes knows the identity of the student to whom the education record relates.

E. School Official. A person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement and health services staff); a person or company with whom the 1 A biometric record means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual, such as fingerprints, voiceprints, or facial characteristics. 3 college or University has contracted as its agent to provide a service instead of using University employees or officials; a student serving on an official college or University-wide committee, such as a disciplinary committee; or an individual assisting another School Official in performing his or her tasks. Members of the Board of Trustees are also School Officials. A contractor, consultant, volunteer or other party (collectively "contractor") to whom a college or the University has outsourced institutional services or functions may be a School Official so long as the contractor is performing services that would otherwise be performed by employees, is under the direct control of the college or the University with respect to the use and maintenance of education records, and is subject to the requirements on use and re-disclosure of PII set out below. The State Comptroller, and his or her agents and representatives, are also School Officials for the purposes of auditing CUNY's educational programs.

F. Legitimate Educational Interest. A School Official has a legitimate educational interest in obtaining access to a particular record if access is reasonably necessary in order to fulfill his or her professional responsibilities for the college or University. \

G. FERPA Appeals Officer. College official or employee designated by the President to hear student appeals from denials of access to records, requests to correct records, or other rights under FERPA.

H. General Counsel and Vice Chancellor for Legal Affairs. The General Counsel and Vice Chancellor for Legal Affairs ("General Counsel") is charged with hearing appeals concerning failures by any college to comply with FERPA. The Office of the General Counsel and Vice Chancellor for Legal Affairs ("OGC") is also responsible for issuing advisory memoranda on FERPA.

II. STUDENT'S RIGHT TO REVIEW EDUCATION RECORDS. A student generally has the right to review his or her own education records.

A. Procedures for Review and Inspection.

1. A college must permit a student to inspect and review his/her education records within 45 days of the college's receipt of a request for access, subject to the exceptions below. Such request shall be made to the college's Registrar. Although an initial request may be oral, the college should require the student to put the request in writing and identify the records the student wishes to inspect. A school official may be present when the student inspects and reviews education records; this is advisable if the student is inspecting original records. FERPA provides a right to inspect and review; it generally does not require the college to provide copies of records to the student or to allow the student to make copies on their own electronic device.

2. If the request is denied or not responded to within 45 days of receipt, the student may appeal to the College's FERPA Appeals Officer. The appeal must be in writing and should identify the particular records to which access was requested, the date of the original request for access, the person to whom the request was made, and the reasons why the student believes that the student has a right of access to the record. The FERPA Appeals Officer should render a decision on the appeal no later than 30 days after receipt of the appeal. Denial of an appeal for access must be in writing and contain the reasons for the denial and a statement that the student has a further right to appeal. Attachment D is a suggested form for a college's denial of an appeal. The student who wishes to appeal must, within 30 days, send the appeal to OGC at 205 East 42nd Street, 11th Floor, New York, New York, 10017. Attachment E is a suggested form for a student's appeal.

B. Records Not Subject to Mandatory Access. A student has no right to review, and the College need not permit inspection of, the following types of records. (Please note that other laws, such as state medical privacy laws or the New York State Freedom of Information Law (FOIL), may relate to some of these categories).

1. *Confidential letters and confidential statements of recommendations* placed in the education records before 1975, or after January 1, 1975, if the student (1) has waived the right to inspect and review those letters and statements, and (2) those letters and statements are related to the student's (a) admission to an educational institution, (b) application for employment, or (c) receipt of an honor or honorary recognition; and (3) the waiver is not required as a condition of admission to or receipt of another service or benefit from the college.

2. *Financial records of the student's parents*, and any information those records contain.

3. *Records that are in the sole possession of the maker*, are used as a personal memory aid and are not accessible or revealed to another person except a temporary substitute for the maker of the record.

4. *Records maintained on behalf of a college by its law enforcement unit* (i.e. Public Safety Department or equivalent), or by a contract guard service, provided that such records are: (1) created and maintained by the law enforcement unit; and (2) created for a law enforcement purpose. This law enforcement unit exception does not apply to copies of law enforcement unit records in the possession of another office within the college or to records created and maintained by the law enforcement unit exclusively for a non-law enforcement purpose.

5. *Employment records of a college employee who is also a student* provided that: (a) such records are normally maintained by the college; (b) such records relate exclusively to the individual's employment; (c) such records are used only for employment purposes; and (d) such employment is not the result of student status (e.g., work study, graduate assistants).

6. *Records made by a health care provider*—a physician, psychiatrist, psychologist, or other recognized professional/paraprofessional acting or assisting in his or her professional or paraprofessional capacity, which: (a) are created, maintained, or used only in connection with the provision of treatment of the student, and (b) are not disclosed to anyone other than the individuals providing the treatment.

7. Records which pertain to a student but were generated after the student is no longer in attendance and not directly related to attendance as a student (for example, alumni records created after the student's graduation.)

8. Grades on peer-graded papers before they are recorded by a teacher.

9. Any other record, which, pursuant to any other law or regulation, is privileged, or which is otherwise inaccessible to the student.

C. Procedures for Amending or Correcting Records.

1. If a student believes that his/her education records contain information that is inaccurate, misleading, or in violation of the student's rights of privacy, he or she may ask the college to amend the record. The college shall decide whether to amend within a reasonable time after receiving the request. If the college denies the student's request, it shall inform the student of its decision and of the student's right to appeal to the FERPA Appeals Officer. A student may not contest the assignment of a grade through this procedure, but may contest whether the assigned grade was recorded accurately.

2. The FERPA Appeals Officer shall hold a hearing within a reasonable time after receipt of the appeal; reasonable notice of the date, time and place of the hearing shall be given to the student. The student shall be given a full and fair opportunity to present relevant evidence. The student may be assisted or represented by one or more individuals of his/her choice. The decision must be based solely on the evidence presented at the hearing. The FERPA Appeals Officer shall within a reasonable time after the hearing issue a decision in writing and include a summary of the evidence and the reasons for the decision.

3. If as a result of the hearing, the FERPA Appeals Officer decides that the information is inaccurate, misleading or otherwise in violation of the student's privacy rights, the college shall: (a) amend the record accordingly; and (b) inform the student of the amendment in writing. If, on the other hand, the college decides that the information is correct and not in violation of the student's privacy rights, it shall inform the student of his/her right to place a statement in the record commenting on the contested information or stating why he or she disagrees with the decision of the college. If a statement is placed in the education records of the student, the college shall maintain the statement with the contested part of the record for as long as the record is maintained and disclose the statement whenever it discloses the portion of the record to which the statement relates.

### III. DISCLOSURE OF EDUCATION RECORDS.

A. Student Consent Required. A student's written consent is required to disclose personally identifiable information (PII) contained in education records to someone other than the student, unless the information disclosed is Directory Information (Section III.B) or another specific exception (including the exemption for disclosure to School Officials) applies (Section III.C).

1. The consent must be signed and must: (1) specify the records that may be disclosed; (2) state the purpose of the disclosure; and (3) identify the party or class of parties to whom the disclosure may be made. Attachment B is a FERPA Release Form that complies with these requirements.

2. Students and alumni requesting disclosures must provide proof of identity.

B. Directory Information. A college may disclose "directory information" to someone other than the student without a student's written consent. One of the primary purposes of directory information is to allow the college to include this type of information from the student's education records in certain school publications, such as on-line directories, yearbooks, Dean's list and other recognition lists, commencement programs, and sports activity materials.

1. Directory information consists of a student's:

a. Name

b. Address (to limited recipients set forth below)\*

c. Email address (to limited recipients set forth below)\*

d. Telephone number (to limited recipients set forth below)\*

e. Attendance dates (semesters and sessions, not daily records)

f. Photograph

- g. 8-digit student ID number (but only if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity)
- h. Enrollment status (full or part-time, undergraduate or graduate, etc.)
- i. Level of education (credits completed)
- j. Degree enrolled for and major field of study
- k. Participation in officially recognized activities and sports (teams)
- l. For members of athletic teams only, height and weight
- m. Degrees, honors and awards received. \*Address, email address and telephone number may be released only to employees of the University and its constituent colleges for the purpose of conducting legitimate University business. They may not be shared with individuals and organizations outside the University.

2. Directory information does not include a student's social security number, race, ethnicity, gender or immigration status.

3. Each college must notify its students about directory information and allow them to request that the college not disclose such information. A student may request that directory information not be released without prior written consent by completing a form to be made available on the college's web site as well as in the Registrar's office of each college during regular business hours. Attachment C is a Directory Information Non-Disclosure Form. Students may not block release of their names, identifiers, or email addresses in classes in which the students are enrolled, and may not refuse to display student ID cards or badges.

C. Disclosure of Education Records without Prior Consent. A college may (and sometimes must) disclose personally identifiable information from an education record of a student without prior consent under the following circumstances:

1. *Health and Safety Emergencies.* The disclosure is to appropriate parties (including the student's parents) in an emergency if the information is necessary to protect the health or safety of the student or other individuals. This exception applies where a college, taking into account the totality of the circumstances, is able to articulate a significant threat to the health or safety of a student or other individual and discloses information to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals. OGC should be consulted, if possible, prior to the release of information under this emergency provision.

2. *To School Officials.* The disclosure is to a School Official, as defined above, who has a legitimate educational interest in the record. The College must use reasonable methods to ensure that School Officials have access only to those records in which they have legitimate educational interest. A legitimate educational interest includes the need for one college to access student records maintained by another college in connection with the investigation or potential discipline of the student for alleged misconduct.

3. *Enrollment or Transfer.* The disclosure is to an official or employee of another college or institution of postsecondary education where the student seeks or intends to enroll or where the student is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer, provided that the college also gives the student written notice of such disclosure, and upon request, a copy of the record that was disclosed.

4. *Designated Governmental Authorities.* The disclosure is to authorized representatives of the United States Comptroller General, Secretary of Education, or Attorney General or to State or local educational authorities, in connection with an audit or evaluation of Federal or State supported education programs or for the enforcement of or compliance with Federal legal requirements which relate to those programs.

5. *Financial Aid.* The disclosure is in connection with financial aid for which the student has applied or which the student has received, if the information is necessary for purposes such as the determination of eligibility, amount or conditions, or enforcement of the terms and conditions of the aid.

6. *Court Order or Subpoena.* The disclosure is to comply with a judicial order or lawfully issued subpoena. Before complying with an order or subpoena, the college must notify the student so that the student may seek protective action and do so by mail five business days in advance of compliance, unless a shorter period has been authorized by OGC. The notice should be sent to the last known address for the student and may also be sent to the student's last known email address.

There is an important exception to the requirement that students be notified in advance of compliance with a subpoena, if a subpoena is (a) a Federal grand jury subpoena and the court has ordered that the existence or the contents of the subpoena or the information furnished in response not be disclosed; (b) any other subpoena issued for a law enforcement purpose and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed; or (c) an ex parte court order obtained by the 2 Providing PII from an education record to a party identified as having provided or created the record is not a "disclosure," and a student's consent is not required to do so. This exception covers situations in which a student submits a transcript, letter of recommendation or similar document which the college believes may be fraudulent. FERPA permits the college to show the document to the purported creator to verify authenticity. United States Attorney General or appropriate designee concerning investigations or prosecution of certain federal crimes relating to domestic or international terrorism.

7. *Studies Exception.* The disclosure is to an organization conducting a study for or on behalf of the college, pursuant to a written agreement, to (a) develop, validate, or administer predictive tests, (b) administer student aid programs, or (c) improve instruction, so long as the study does not permit personal identification of parents and students by those other than representatives of the organization with legitimate educational interests, and so long as the information is destroyed or returned to the educational institution after the study is over.

8. *Accrediting Organizations.* The disclosure is to accrediting organizations to carry out their accrediting functions.

9. *Disciplinary Proceedings arising from alleged crimes of violence or nonforcible sex offenses.* The final results of such proceeding may be disclosed only in these circumstances:

a. The disclosure is of the final results of a disciplinary proceeding against a student whom the college has determined violated an institutional rule or policy in connection with alleged acts that would, if proven, also constitute a crime of violence or nonforcible sex offense. Only the disciplined student's name, the violation committed (including rules violated and essential finding of fact supporting the determination), and the sanction imposed may be disclosed. This applies only if the final results were reached after October 6, 1998. The release may not include the name of any other student, such as a victim or witness, absent that student's consent.

b. The disclosure is of the final results of a disciplinary proceeding and made to the victim of an alleged perpetrator of a crime of violence or non-forcible sex offense, even if the institution concluded that no violation was committed.

10. *To parents or guardians of financially dependent students.* The disclosure is to a parent or legal guardian and the student is a dependent of the parent or legal guardian as defined in the Internal Revenue Code Section 152. A copy of the parent's or guardian's latest tax return may be requested as documentation.

11. *Alcohol or substance use by those under 21.* The disclosure is to inform a parent or legal guardian of a student under the age of 21 at the time of the disclosure that the student has committed a disciplinary violation with respect to the use or possession of alcohol or a controlled substance. The determination may be made other than through a disciplinary proceeding.

12. *Litigation and administrative proceedings.* The disclosure is made in litigation brought by the student against CUNY, or litigation by CUNY against the student and the records are relevant to that litigation. Similar disclosures are permissible where the institution must defend itself against a complaint made by the student to a government entity or an accreditation or licensing organization.

13. *Registered Sex Offenders.* The disclosure concerns sex offenders or other individuals required to register under Section 170101 of the Violent Crime Control and Law Enforcement Act of 1994 (Wetterling Act), 42 U.S.C. 14071, and the information was provided to the college under that statute and applicable federal guidelines.

14. *Foreign Students with F or J visas.* The Department of Homeland Security Office of Immigration and Customs Enforcement ("ICE") is entitled to specified PII about foreign students with F or J visas: the student's name, date and place of birth, country of citizenship, student identification number, physical and mailing addresses, current academic status, date of commencement of studies, degree program and field of study, course titles and grades, grade point average for each term, information about certification for practical training, statement of graduation or termination date and reason, number of credits completed each semester and the student's I-20 ID. ICE representatives do not need a subpoena to obtain this information and notice to the student is not required. Upon request (which the college may obtain in writing), the school has three work days to respond to any request for information concerning an individual student. If the request concerns a student who is being held in custody, the college must respond orally on the same day. The college is allowed ten work days to respond to information about a class of students.

15. *Students in the Foster Care System.* The disclosure concerns a student who is in a foster care placement, and the disclosure is to a representative of a child welfare agency legally responsible for the care and protection of the student such as the New York City Administration for Children's Services.

16. *De-identified records and information.* The disclosure is of de-identified records and information and the College has reasonably determined that the student is not personally identifiable, taking into account other reasonably available information.

17. *To Military Recruiters (Solomon Amendment).* In accordance with federal law, educational institutions are required to disclose student recruitment information to U.S. military recruiters. This information consists of a student's name, addresses, telephone listings, date and place of birth, level of education, academic major, degrees received and educational institution in which the student was most recently enrolled.

D. *Recordkeeping Requirements.* The Registrar's office of each college shall maintain a record of each request for and disclosure of a student education record, other than directory information. For each disclosure, the record must include the parties who have requested and received personally identifiable information from the education records and the basis for obtaining the information, including, in the case of a health or safety emergency, the "articulable and significant threat" to health and safety of a student or other individuals.

E. *Redisclosure of PII.* A college may disclose PII from the education records of a student only on the condition that the party to whom the information is disclosed will not disclose the information to any other party without the prior consent of the student or the college's authorization. Personally identifiable information which is disclosed to an institution, agency or organization, however, may be used by its officers, employees and agents, but only for the purposes for which the disclosure was made. The party to whom the disclosure is made shall be informed in writing of this requirement.

#### IV. PROCEDURAL REQUIREMENTS.

##### A. Annual Notification of Rights.

1. Each college must annually inform its current students of their rights under FERPA. While this notification does not need to be made to students individually, it must be by a means likely to inform students of their rights, such as: in a schedule of classes, student handbook or calendar of school events, or posted at the Registrar's office at the school. This notice should also be placed on the college's web site.

2. Attachment A is a model Notification of Student Rights Concerning Education Records and Directory Information, which includes (a) a statement of the procedures for inspection and review and amendment of education records, (b) the procedure for requesting amendment of records, the criteria for determining who is a School Official, and what is a legitimate educational interest, (c) rights of appeal, and (d) directory information and how to request non-disclosure.

##### B. Appeal Rights.

1. A student may appeal an alleged failure by any college to comply with the 12 requirements of FERPA to the College's FERPA Appeals Officer, and may appeal the decision of that college officer to the General Counsel within 30 days of the decision of the FERPA Appeals Officer. Attachment E is a form for appeals to OGC. It must be completed in writing and submitted with a copy of the determination of the FERPA Appeals Officer and the reasons why the student disagrees with the determination. If the FERPA Appeals Officer does not issue a decision within 30 days of an appeal or the holding of a hearing thereon, whichever is later, the student may also file with OGC.

2. The General Counsel shall render a decision no later than 30 days after the receipt of the appeal. Decisions of the General Counsel shall be submitted to the Board Committee on Student Affairs and Special Programs for its approval, and the student may submit a response.

3. Students are also entitled to file grievances about violations of FERPA with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave, SW, Washington, DC 20202-8520. Office of the General Counsel July 2019

## Freedom of Information Law (FOIL)

### PROCEDURES FOR PUBLIC ACCESS TO RECORDS OF THE CITY UNIVERSITY OF NEW YORK UNDER THE FREEDOM OF INFORMATION LAW

#### 1. Designation of Records Access Officer.

(a) Each college and unit of The City University of New York (referred to herein as a "college") shall designate one or more persons as Records Access Officers by name or specific job title and location, who shall have the duty of coordinating the response of the college to public requests for access in accordance with the Freedom of Information Law ("FOIL"), Public Officers Law §§ 84 et seq.

(b) The Records Access Officer shall be responsible for assuring that the college:

(1) Maintains a reasonably detailed current list, by subject matter, of all records in the possession of the college or unit;

(2) Assists persons seeking records to identify the records sought, if necessary.

(3) Upon locating the records, takes one of the following actions:

(i) Makes records available for inspection, or

(ii) Denies access to the records in whole or in part and explains in writing the reasons therefore.

(4) Upon request for copies of records that are being made available:

(i) Provides copies of the records on the medium requested, if the college can reasonably make such copy or have such copy made by engaging an outside professional service, provided that the requester pays or agrees to pay established fees, if any, in accordance with Section 5 of these Procedures, or,

(ii) Permits the requester to copy those records.

(5) Upon request, certifies that a record is a true copy.

(6) Upon failure to locate records, certifies in writing that:

(i) the college is not the custodian for such records, or that

(ii) the records cannot be found after diligent search.

2. Procedure for Public Inspection. Each college shall establish a written procedure by which a person may arrange an appointment to inspect and copy records. Such procedure shall include the name, position, address and phone number of the party to be contacted for the purpose of making an appointment.

3. Requests for Public Access to Records.

(a) The college may accept requests for records orally, but may also require requests for records to be in writing. Colleges are required to accept requests for records by electronic mail and to respond to such requests by electronic mail unless the request seeks a response in some other form.

(b) The Records Access Officer shall respond to a request within five business days of receipt by:

(1) granting or denying access to records in whole or in part; or

(2) acknowledging the receipt of a request in writing, including an approximate date when the request will be granted or denied in whole or in part, which shall be reasonable under the circumstances of the request and shall not be more than twenty business days after the date of the acknowledgment. If it is known that circumstances prevent disclosure within twenty business days from the date of such acknowledgment, the Records Access Officer shall provide a statement in writing indicating the reason for the college's inability to grant the request within that time and a date certain, within a reasonable period under the circumstances of the request, when the request will be granted in whole or in part; or

(3) if the receipt of request was acknowledged in writing and included an approximate date when the request would be granted in whole or in part within twenty business days of such acknowledgment, but circumstances prevent disclosure within that time, providing a statement in writing within twenty business days of such acknowledgment specifying the reason for the inability to do so and a date certain, within a reasonable period under the circumstances of the request, when the request will be granted in whole or in part.

(c) In determining a reasonable time for granting or denying a request under the circumstances of a request, the Records Access Officer shall consider the volume of a request, the ease or difficulty in locating, retrieving or generating records, the complexity of the request, the need to review records to determine the extent to which they must be disclosed, the number of requests received by the college and similar factors that bear on the ability to grant access to records promptly and within a reasonable time frame.

(d) A failure to comply with the time limitations set forth in Section 3(b) above constitutes a denial of a request that may be appealed.

4. Denial of access to records.

(a) Denial of access to records shall be in writing stating the reason therefore and advising the requester of the right to appeal to the General Counsel and Vice Chancellor for Legal Affairs, 535 East 80th Street, New York, New York 10075.

(b) If a college fails to comply with the time limitations set forth in Section 3 of these Procedures, such failure shall also be deemed a denial of access effective on the date of non-compliance.

(c) Any person denied access to records may appeal within thirty days of the date the college denies the request.

(d) The General Counsel and Vice Chancellor for Legal Affairs shall inform the requester of its decision on the appeal, in writing, within 10 business days after of the receipt of an appeal.

(e) A failure to determine an appeal within ten business days of its receipt by granting access to the records sought or fully explaining the reasons for further denial in writing shall constitute a denial of the appeal.

(g) The General Counsel and Vice Chancellor for Legal Affairs shall transmit to the Committee on Open Government copies of all appeals upon receipt of those appeals, and shall send the Committee on Open Government copies of all its decisions at the same time that those decisions are sent to the appellant.

5. Fees. (a) There shall be no fee charged for

(1) inspection of records;

(2) search for records or administrative costs; or

(3) any certification pursuant to this part.

(b) Fees for photocopies may be charged, which shall not exceed 25 cents per page for photocopies not exceeding 9 by 14 inches.

(c) The actual cost for copying other records, such as electronic records, may be charged, which may include only:

(i) an amount equal to the hourly salary attributed to the lowest paid employee who has the necessary skill required to prepare a copy of the requested record, except that no fee shall be charged unless at least two hours of a college employee's time is needed to prepare the copy;

(ii) the actual cost of the storage devices or media (such as a computer disk) provided to the person making the request;

(iii) if the college's information technology equipment is inadequate to prepare a copy of the record, or if the college for some other reason is unable to prepare a copy of the record itself, the actual cost to the college of engaging an outside professional service to prepare a copy.

(d) If, as is set forth in (c) above, more than two hours of an employee's time is needed to prepare a copy of a record or the college is using an outside professional service, the requester must be informed of the fee in advance.

(e) The foregoing provisions regarding fees do not apply when a different fee is otherwise prescribed by statute.

6. Public Notice. Each college must posts information on its website concerning how college records can be accessed under FOIL, including, at a minimum

(a) the name of the Records Access Officer to whom requests shall be directed;

(b) the times and places, if any, that public records are available for inspection and copying;

(c) information on how to request records in person, by mail, or by e-mail; and

(d) a link to the website of the committee on open government. Office of the General Counsel March 11, 2009 4

## Health Statement and Immunization Requirement

---

New York State Public Health Law 2165 requires proof of immunity to measles, mumps and rubella (MMR) as a condition for attendance. The College reserves the right to prevent the registration of any applicant who fails to provide a record of immunization or who otherwise provides a health risk to the College community. It is University policy that all students who register for six or more credits/equivalent credits and were born after December 31, 1956 must provide proof of their immunity to measles, mumps and rubella. Students may fax their immunization records and the forms to 212-650-8227.

New York State passed Public Health Law (PHL) 2167, addressing meningococcal meningitis. In compliance with PHL 2167, all New York State students, regardless of how many credits they take in college, must fill out a Meningococcal Meningitis Response form within 30 days of registration or at the same time they send in their MMR compliance document.

Students may download forms at [http://origin.admin.cuny.cuny.edu/student\\_affairs/wellness/default.asp](http://origin.admin.cuny.cuny.edu/student_affairs/wellness/default.asp). If submitting the forms by fax, be sure to include the name, social security number (or assigned City College identification number) and birth date. Applicants are advised to confirm the receipt of the fax by calling 212-650-8222.

## Immunization Requirements For Post-secondary Admission

---

**New York State Public Health Law 2165** requires all students entering a post-secondary institution to provide their health services center with immunity to Measles, Mumps and Rubella. This law applies to students born on or after January 1, 1957, who are registered for 6 or more credits at a CUNY campus. Proof of immunity must be documented by a health care practitioner or other acceptable evidence in the following ways:

**Measles**, otherwise known as rubeola – 2 doses live measles vaccine administered after 12 months of age and at least 30 days apart (exact dates of vaccinations are required);

**Mumps**, 1 live dose mumps vaccine administered after 12 months of age (exact dates of vaccination is required);

**Rubella**, also known as German measles – 1 live dose mumps vaccine administered after 12 months of age (exact dates of vaccination is required);

**Serology** (lab) report showing immunity to measles, mumps and rubella. The lab report must be an actual copy showing your immunity to MMR's.

We will accept any one of the following documentation for your MMR vaccinations:

1. A copy of your immunizations (including actual dates) on an official government/ school letterhead – the simplest place to obtain this may be from your most recently attended high school or college; OR
2. A copy of your immunizations (including actual dates) on physician's letterhead, which includes printed name, address and telephone number; OR
3. Have a blood test to confirm immunity. Please note: a copy of the lab report must accompany your campus immunization form for acceptance.

**New York State Public Health Law 2167** requires all post-secondary institutions to provide information on Meningitis and the Meningitis vaccine to all students registering for six credits or more (or its equivalent). In addition, each institution is required to maintain a record of the following for each student:

- had meningococcal immunization within the past 5 years. The vaccine record is attached.[**Note:** The Advisory Committee on Immunization Practices recommends that all first-year college students up to age 21 years should have at least 1 dose of Meningococcal ACWY vaccine not more than 5 years before enrollment, preferably on or after their 16th birthday, and that young adults aged 16 through 23 years may choose to receive the Meningococcal B vaccine series. College and university students should discuss the Meningococcal B vaccine with a healthcare provider.]

OR

- read, or have had explained to me, the information regarding meningococcal disease. I (my child) will obtain immunization against meningococcal disease within 30 days from my private health care provider or my local health care facility.

OR

- read, or have had explained to me, the information regarding meningococcal disease. I understand the risks of not receiving the vaccine. I have decided that I (my child) will not obtain immunization against meningococcal disease.

**These laws apply to students taking six credits or more regardless if the student is in a degree seeking program or not.**

## Policy Against Drugs and Alcohol

---

The City University of New York Policy on Drugs and Alcohol

The City University of New York ("CUNY") is an institution committed to promoting the physical, intellectual, and social development of all individuals. As such, CUNY seeks to prevent the abuse of drugs and alcohol, which can adversely impact performance and threaten the health and safety of students, employees, their families, and the general public. CUNY complies with all federal, state, and local laws concerning the unlawful possession, use, and distribution of drugs and alcohol.

Federal law requires that CUNY adopt and implement a program to prevent the use of illicit drugs and abuse of alcohol by students and employees. As part of its program, CUNY has adopted this policy, which sets forth (1) the standards of conduct that students and employees are expected to follow; (2) CUNY sanctions for the violation of this policy; and (3) responsibilities of the CUNY colleges/units in enforcing this policy. CUNY's policy also (1) sets forth the procedures for disseminating the policy, as well as information about the health risks of illegal drug and alcohol use, criminal sanctions for such use, and available counseling, treatment, or rehabilitation programs, to students and employees; and (2) requires each college to conduct a biennial review of drug and alcohol use and prevention on its campus.

This policy applies to all CUNY students, employees and visitors when they are on CUNY property, including CUNY residence halls, as well as when they are engaged in any CUNY sponsored activities off campus.

## CUNY Standards of Conduct

The unlawful manufacture, distribution, dispensation, possession, or use of drugs or alcohol by anyone, on CUNY property (including CUNY residence halls), in CUNY buses or vans, or at CUNY-sponsored activities, is prohibited. In addition, CUNY employees are prohibited from illegally providing drugs or alcohol to CUNY students. Finally, no student may possess or consume alcoholic beverages in any CUNY residence hall, regardless of whether the student is of lawful age, except for students living in the Graduate School and University Center's graduate housing facilities who may lawfully possess and consume alcoholic beverages. For purposes of this policy, a CUNY residence hall means a residence hall owned and/or operated by CUNY, or operated by a private management company on CUNY's behalf.

In order to make informed choices about the use of drugs and alcohol, CUNY students and employees are expected to familiarize themselves with the information provided by CUNY about the physiological, psychological, and social consequences of substance abuse.

## CUNY Sanctions

Employees and students who violate this policy are subject to sanctions under University policies, procedures and collective bargaining agreements, as described below. Employees and students should be aware that, in addition to these CUNY sanctions, the University will contact appropriate law enforcement agencies if they believe that a violation of the policy should also be treated as a criminal matter.

### Students

Students are expected to comply with the CUNY and college policies with respect to drugs and alcohol. Any student found in violation may be subject to disciplinary action under Article 15 of the Bylaws of the Board of Trustees, which may result in sanctions up to and including expulsion from the University.

In addition, any student who resides in a CUNY residence hall and who is found to have violated any CUNY or college policy with respect to drugs and alcohol may be subject to sanctions under the CUNY Residence Hall Disciplinary Procedures, up to and including expulsion from the residence hall.

In lieu of formal disciplinary action, CUNY may, in appropriate cases, seek to resolve the matter through an agreement pursuant to which the student must see a counselor or successfully participate in a drug and alcohol treatment program.

In accordance with the Federal Educational Rights and Privacy Act ("FERPA"), CUNY may also choose - when appropriate - to contact parents or legal guardians of students who have violated the CUNY policy on drugs and alcohol.

### Employees

Any employee found to have violated this CUNY policy may be subject to disciplinary action, in accordance with the procedures set forth in applicable CUNY policies, rules, regulations, and collective bargaining agreements. Sanctions may include a reprimand, suspension without pay, or termination of employment. In lieu of formal disciplinary action, CUNY may, in appropriate cases, seek to resolve the matter through an agreement pursuant to which the employee must successfully participate in a drug or alcohol treatment program.

## Responsibilities of Colleges/Units

Each college or unit of the University should make its best efforts to educate employees and students about this policy and the risks associated with the unlawful possession, use, or distribution of illegal drugs and alcohol. The President of each college or unit may choose to ban alcohol at on-campus functions or at any particular function. This policy, together with information about the health risks of illegal drug and alcohol use, criminal sanctions for such use, and counseling, treatment, or rehabilitation programs available to employees or students, must be distributed annually to all employees and students. The Chief Student Affairs Officer shall be responsible for the distribution of this material to students, and the Director of Human Resources shall be responsible for the distribution of the material to employees.

The Vice President for Administration, or person performing the equivalent function at each college or unit of CUNY, shall be responsible for conducting a biennial review to determine the effectiveness of CUNY's drug and alcohol program at its college or unit, and to ensure that sanctions for drug and alcohol violations are consistently enforced. Upon completion, the biennial review must be sent to the University's Executive Vice Chancellor and Chief Operating Officer. This biennial review must include the number of drug and alcohol-related violations and fatalities that occur on the college's campus or as part of the college's activities, as well as the number and type of sanctions imposed as a result of drug and alcohol-related violations and fatalities that occur at the college as part of its activities.

*Adopted by CUNY Board of Trustees: June 22, 2009 and amended on May 2, 2011. (Bot May 2, 2011, Calendar Item#5A).*

## Reasonable Accommodations and Academic Adjustments

### [I. Policy Statement](#)

### [II. Definitions](#)

### [III. Requesting a Disability Accommodation or Academic Adjustment](#)

### [IV. Appeal of Disability Accommodation and Academic Adjustment Decisions](#)

### [V. Accommodations based on Pregnancy, Childbirth or a Related Medical Condition.](#)

### [VI. Religious Accommodations](#)

### [VII. Accommodations based on Status as a Victim of Domestic Violence, Sex Offense, or Stalking.](#)

### [VIII. Filing Complaints with Outside Agencies](#)

CUNY "Procedures for Implementing Reasonable Accommodations and Academic Adjustments" dated 9/21/2016 supersedes the Procedures for Implementing Reasonable Accommodations at CUNY (effective 6/1/2005).

## Returning from/Leaving for Active Duty

## Mobilization/Activation/Deployment

CUNY supports students who, in the current environment, are called away to duty during their college career. The Chancellor has communicated his desire that deployed students be given as wide a latitude as possible to enable them to seamlessly resume their studies as soon as they are able to do so. Each college's registrar is the initial point of contact for a military-related interruption of attendance. Students may also seek the help of the [veterans affairs representative](#) on their campus, the Student Services Office, or the campus Ombudsman. For information from the VA regarding transitioning back, visit the [VA Seamless Transition page](#).

## Grades

A student who is called to active duty in the armed forces of the United States after having attended regularly for 13 or more weeks or having completed 85% of the term's work through acceleration may be given full credit for each course in which he or she has a grade of C or better.

The student must follow their college's policy on incomplete, and sign an incomplete contract with the instructor. The normal regulations apply, and grades will be recorded as failures if courses are not completed.

## Refunds

Students called to active duty who do not meet attendance requirements sufficient to earn a grade are entitled to a 100% refund of tuition and fees, except application fees. For students who enlist in the military, the amount of the refund depends upon whether the withdrawal is before the 5th week of classes. Students withdrawing prior to the beginning of the 5th week (3rd week in the Summer Session/Winter Session) are entitled to 100% refund of tuition and all fees except application fees. Students withdrawing after the 5th week (or the 3rd week for Summer Session/Winter Session) are entitled to a 50% refund of tuition and fees.

## Re-Enrollment of Veterans

Veterans that are returning students are given preference in the following ways:

- Readmission in a probationary or non-degree status will be granted to the veteran who is a former student with an unsatisfactory academic record.
- Upon their return from active duty, veterans may register even after normal registration periods end, without late fees or other penalties.
- Veterans who are matriculating students may apply to earn up to 18 credits for United States Armed Forces Institute courses in which they have passed final exams, and for other military education and training.
- Veterans returning too late to register may audit classes without charge.

## Late Admissions

Veterans with no previous college experience are permitted to file applications up to the end of registration, and are allowed to begin classes pending completion of their application and provision of supporting documents.

## Readmission Fee

Upon return from military service, a student will not be charged a readmission fee to register at the same college.

## Special or Continuing Problems

If students are unable to resolve their issues at their home campus; contact Lisa Beatha, The University Director of Veterans' Affairs at 646-664-8835 or [Lisa.Beatha@CUNY.edu](mailto:Lisa.Beatha@CUNY.edu)

# Rules and Regulations for the Maintenance of Public Order Pursuant to Article 129-A of the Educational Law

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedom: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Higher Education.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board of Higher Education provide that:

"THE PRESIDENT. The president, with respect to his education unit, shall:

1. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;
2. Be the advisor and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of the several faculties;
3. Exercise general superintendence over the concerns, officers, employees, and students of his educational unit."

## 1. RULES

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.
2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.
3. Unauthorized occupancy of University/college facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University/college equipment and/or supplies.
4. Theft from, or damage to University/college premises or property, or theft of or damage to property of any person on University/college premises is prohibited.
5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise, from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.
6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of the rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.
7. Disorderly or indecent conduct on University/college-owned or controlled property is prohibited.
8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used and is intended to inflict bodily harm on any individual or damage upon a building or the grounds of the University/college.
9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.
10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.
11. The unlawful possession, use, or distribution of alcohol by students or employees on University/college premises or as part of any University/college activities is prohibited.

## 2. PENALTIES

1. Any student engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsions, ejection, and/or arrest by the civil authorities.
2. Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection, and/or arrest by the civil authorities, and, for engaging in any manner in conduct prohibited under substantive rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff charged with engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.
3. Any visitor, licensee, or invitee, engaging in any manner in conduct prohibited under substantive Rules 1-11, shall be subject to ejection, and/or arrest by the civil authorities.
4. Any organization which authorized the conduct prohibited under substantive rules 1-11 shall have its permission to operate on campus rescinded.

Penalties 1-4 shall be in addition to any other penalty provided by law or The City University Trustees.

## APPENDIX

### SANCTIONS DEFINED:

A. Admonition.

An oral statement to the offender that he has violated university rules.

B. Warning.

Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may cause far more severe disciplinary action.

C. Censure.

Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.

D. Disciplinary Probation.

Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.

E. Restitution.

Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

F. Suspension.

Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

G. Expulsion.

Termination of student status for an indefinite period. The conditions of readmission, if any is permitted, shall be stated in the order of expulsion.

H. Complaint to Civil Authorities.

I. Ejection.

Adopted by the Board of Trustees of the City University of New York on June 23, 1969 as amended on October 27, 1980, May 22, 1989 and June 25, 1990.

## Student Complaints about Faculty Conduct in Academic Settings

### PROCEDURES FOR HANDLING STUDENT COMPLAINTS ABOUT FACULTY CONDUCT IN ACADEMIC SETTINGS

I. Introduction. The University and its Colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The University respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the University recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include incompetent or inefficient service, neglect of duty, physical or mental incapacity and conduct unbecoming a member of the staff.

II. Determination of Appropriate Procedure. If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.

III. Informal Resolution. Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.

IV. Formal Complaint. If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the Fact Finder.). Only students in a faculty member's class or present in another academic setting where the alleged conduct occurred may file complaints against that faculty member.

A. The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.

B. The Fact Finder shall promptly send a copy to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder. The chairperson may also submit a written request for recusal for good cause to the academic dean or senior faculty member designated by the college president to review such requests. If a recusal request is granted, a different department chairperson shall conduct the investigation, or, if no other chairperson is available, an administrator designated by the college president shall serve in the chairperson's stead. Further, the college president may re-assign investigations as necessary, including but not limited to situations in which a Fact Finder has not completed an investigation in a timely manner. In addition, during any time that no department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

C. The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.

D. If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member and other persons with relevant knowledge and information and shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with

the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative or attorney) present during the initial meeting, the interview and any post-investigation meeting.

E. In cases where there is strong preliminary evidence that a student's complaint is meritorious and that the student may suffer immediate and irreparable harm, the Fact Finder may provide appropriate interim relief to the complaining student pending the completion of the investigation. The affected faculty member may appeal such interim relief to the chief academic officer.

F. At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.

V. Appeals Procedure. If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report, which time period may be extended for good cause shown. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate and one student elected annually by the student senate. The Appeals Committee shall review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson and the president.

VI. Subsequent Action. Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college, whether interim or final, must comply with the bylaws of the University and the collective bargaining agreement between the University and the Professional Staff Congress.

VII. Campus Implementation. Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college website.

## Students' Bill of Rights

The City University of New York Students' Bill of Rights

For CUNY students who experience Sexual Violence, including sexual assault; domestic, dating or intimate partner violence, stalking or voyeurism All students have the right to

1. Make a report to local law enforcement and/or state police;
2. Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously;
3. Make a decision about whether or not to disclose a crime or violation and participate in the judicial or conduct process and/or criminal justice process free from pressure by the institution;
4. Participate in a process that is fair, impartial, and provides adequate notice and a meaningful opportunity to be heard;
5. Be treated with dignity and to receive from the institution courteous, fair, and respectful health care and counseling services, where available;
6. Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such crimes or violations;
7. Describe the incident to as few institutional representatives as practicable and not be required to unnecessarily repeat a description of the incident;
8. Be protected from retaliation by the institution, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the institution;
9. Have access to at least one level of appeal of a determination;
10. Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent throughout the judicial or conduct process including during all meetings and hearings related to such process; and
11. Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the institution.

This Student Bill of Rights was established by the "Enough is Enough" Law, New York State Education Law Article 129-B, effective October 7, 2015.

For more information about preventing and addressing Sexual Violence at CUNY see <http://www1.cuny.edu/sites/title-ix/campus-websites>.

Information about filing a report, seeking a response, and options for confidential disclosure is available also available CUNY's Title IX web page.

Questions about CUNY's Sexual Misconduct policy and procedures may be directed to your campus Title IX Coordinator.

## Directions to the City College Campus

<http://www.cuny.edu/about/directions.cfm>

### By Train

Take the IRT #1 local to 137th Street and Broadway. Walk up 138th Street three blocks to Convent Avenue.

Take the IND "A" or "D" express or "B" or "C" local to 145th Street and St. Nicholas Avenue, walk west one block to 145th Street and Convent Avenue, then south to 138th Street. The CCNY shuttle bus makes regular stops to this subway during the day.

Take the IRT #4 or #5 express or #6 local to 125th Street and Lexington Avenue. Change there for the M-100 or M-101 bus to Amsterdam Avenue and 138th Street. Walk east one block to Convent Avenue.

Take the Metro North to 125th Street and Park Avenue. Change there for the M-100 or M-101 bus to Amsterdam Avenue and 138th Street, walk east one block to Convent Avenue.

### By Bus

Take the M-4 or M-5 to Broadway and 137th Street. Walk up 138th Street three blocks to Convent Avenue.

Take the M-100 or M-101 to Amsterdam Avenue and 138th Street, walk east one block to Convent Avenue.

Take the M-101 to 135th Street and Amsterdam Avenue and walk north to 138th Street, then east one block to Convent Avenue.

Take the BX-19 to 145th Street and Convent Avenue, walk south on Convent Avenue to 138th Street.

### By Car

**From the West Side Highway:** Exit at 125th Street. Cross Broadway and turn left onto Amsterdam Avenue. The College is at 138th Street and Amsterdam Avenue.

**From the East Side:** Take the FDR or the RFK (Triborough) Bridge to Harlem River Drive. Exit at 135th Street. Continue to St. Nicholas Avenue and turn right, then left onto 141st Street. Turn left onto Convent Avenue. The campus begins at 140th Street and Convent Avenue.

Please note that visitor parking on campus is extremely limited and must be arranged in advance through the Office of Public Safety, (212-650-6911) or the City College Office organizing the public event. Parking is available in the neighborhood.

## Shuttle Bus Service

### CCNY SHUTTLE BUS ROUTE

The shuttle will now make a stop at the South Campus Parking lot located at 133rd Street and Convent Avenue. The Shuttle will stop on its current route traveling north to campus from 125th Street. There is a gated entrance to campus at this location with a Public Safety Officer and a paved path that leads directly to South Campus buildings. From there, students will be able to safely walk on campus property to the Towers Residence.

Be assured that the current evening shuttle run that stops at the Towers Residence from 11:00 PM to 6:45 AM will continue.

### Track the shuttle route using NEXTBUS @ CCNY!

NextBus @ CCNY is a new information system to track and report on the current positions and arrival predictions of City College shuttle buses. With the new NextBus information system, students, faculty and staff will be able to know when the next shuttle bus will arrive. Our CCNY buses are now equipped with GPS devices that will allow for real-time tracking for both of the bus routes: the 145th Street Loop and the 125th Street Loop.

City College is committed to your safety and convenience. We urge students, faculty and staff, and Towers Residents, to utilize our transportation services, to avoid subway stops not serviced by our escort vehicles, and to be particularly vigilant on all pathways.

Please consult the [Academic Calendar](#) for all college holidays to familiarize yourself with days when the campus shuttle bus service will not run.

Please call the Office of Facilities at 212-650-8675 if you have any questions regarding the shuttle service

## MSCI 20100 - Foundations Of Leadership 1

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
MSCI	20100

**Course Title**  
Foundations Of Leadership 1

**Department(s)**  
Administration

**Description**  
This is an entry-level survey course to introduce students to leadership theory and skills at the small group / unit level. Course expands on small unit leadership but increases the leader's extent of control from a 9-person squad to a 40-person platoon. It requires students to exercise effective communication skills by placing them in situational leadership positions. Different military scenarios (offense, defense, reconnaissance) are employed where students can pick from different leadership techniques to make decisions. Open to all students and does not include an obligation to the U.S. Army. . Participation in the Leadership Lab and field trips are optional but encouraged.

## MSCI 30100 - Adaptive Team Leadership 1

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
MSCI	30100

Course Title  
Adaptive Team Leadership 1

Department(s)  
Administration

**Description**  
This is a closed course for students in their third year of the Military Science program. Students apply Army leadership methods to situational training exercises in order to develop their own effective leadership styles. Students will exercise Army values and ethical decision-making at the squad and platoon levels. At the conclusion of the course, students will possess the required leadership skills to plan and issue orders necessary to lead a small unit. MSci 300 and 400 courses are only open to those students who are contracted with the U.S. Army ROTC. Participation in the Leadership Lab, Physical Training, and field trips are required.

CTY01

Subject area	Catalog Number
MSCI	40100

Course Title  
Adaptive Leadership 1

Department(s)  
Administration

**Description**  
This is a closed course for students in their final year of ROTC training. The course trains college seniors in the skills needed for success as a 2nd Lieutenant in the U.S. Army. Topics covered include non-commissioned officer relationships, effective military writing and speaking, joint ethics regulations, and the code of conduct. Students are given instruction in the theory behind Army training methods and then apply these techniques through individual or group projects aimed at providing training for the lower level ROTC students. Students will plan, and conduct the laboratory training component attended by the first through third students as practical exercises to their classroom instruction. Participation in the Physical Training, Leadership Lab and field trips are required.

**NSS 11000 - Creativity, Community, and Change****Overview**

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
NSS	11000

**Course Title**  
Creativity, Community, and Change

**Department(s)**  
Administration

**Description**  
Creativity, Community, and Change is a seminar for students in their first year at City College. The College has a distinguished history of student activism, from fighting fascism in Europe to demanding more inclusive approaches to knowledge. This course aims to empower a new generation of CCNY students as changemakers. Focused on a different problem each semester, the course consists of small discussion sections that pursue inquiry in specific disciplines. A weekly plenary meeting of all discussion sections provides a broader perspective and allows for interdisciplinary problem-solving. The topic for Fall 2020 is: Voice and Vote: Developing an Inclusive Society

**Anthropology and Interdisciplinary Programs Department**

(The Colin Powell School for Civic and Global Leadership, formerly the Division of Social Sciences)

**Professor Irina Carlota (Lotti) Silber, Chair** • Department Office: NA 7/112 • Tel: 212-650-7350

The City College offers the following undergraduate degree in Anthropology:

**B.A. in Anthropology**

Programs and Objectives

Within the Department students may focus specifically on Anthropology, the holistic study of people across time and space. Studying humans as both biological and cultural beings affected by their environment, anthropology is inherently interdisciplinary, bridging the humanities, arts, natural sciences, and social sciences. Within this wider field, Anthropology at The City College of New York has refined its focus to specialize in the study of inequality and social justice within urban contexts and rural divides and through time. Focusing on migration, diasporas, transnationalism, global racial patterns, refugees in the world system, colonialism, whiteness, debt, and political economy, Anthropology at CCNY is concerned with issues of representation, identity, citizenship and exclusion, as well as race, ethnicity, class, religion, and gender.

With this focus, the study of Anthropology plays a vital role within the College. It can provide a theoretical and methodological center for various interdisciplinary programs at the College, such as Black Studies, Asian Studies, Middle East and North Africa Studies, Latin American and Latino Studies, and International Studies. It can also provide the cross-cultural perspective necessary for students planning careers in other fields, including engineering, architecture, education, heritage management (i.e. museums and public archaeology), international development and international relations, journalism, medicine and public health, social work, and allied professions. All of these fields require knowledge of social interaction, a respect for cultural difference and histories, and a commitment to public and community engagement. This focus also serves majors and minors well, providing a firm foundation for graduate work for those who choose to go on in the field. Most importantly, it provides all students with a framework for understanding themselves in the context of their community, nation, and world.

**Anthropology Minor**

Requirements for Minors

Fifteen (15) credits of anthropology courses, including ANTH 10100. It is recommended that the minor include at least one course from each of the four subfields of anthropology.

Total Credit Hours: 15

## Advisement

### General Advisors

Students seeking information on Anthropology courses, the major, or the minor should contact the Department of Anthropology, Gender Studies, and International Studies, NA 7/112, 212-650-7350, where they will be directed to a current schedule for the Anthropology Advisor.

### Honors Advisor

Please consult the department office.

## Facilities and Activities

### The Anthropology Student Association

The Anthropology Student Association is a student-run organization that utilizes the four fields of Anthropology to create a platform for open minds; collaboration; and world understanding. They seek to provide a space that gives students a holistic view on Anthropology; helps to build leadership skills; allows room for creativity; and ensures preparation for the next stages in life. In this capacity they sponsor programs of anthropological interest.

## Awards

### The Ward Medal

The College gives the Ward Medal annually to the graduating senior demonstrating the greatest proficiency in the field of Anthropology.

### St. Clair Drake Award

The Department of Anthropology, Gender Studies, and International Studies gives this award annually to a student in recognition of community service.

### Audre Lorde Award

The Department of Anthropology, Gender Studies, and International Studies gives this award annually to a student in recognition of service to the Anthropology Student Association.

Degree Designation  
BA - Bachelor of Arts

### Requirements

#### Simple Requisites

#### Degree Requirements - Bachelor of Arts

Type  
Completion Requirement

#### Fulfill ALL of the following requirements:

Earn at least 120 credits

AND

Earn at least 30 credits  
The last 30 credits must be taken at The City College.

AND

Earn a minimum GPA of 2.0  
Some majors may require a higher GPA

AND

Earn at least 90 credits  
At least 90 in the Liberal Arts and Sciences

#### Additional Comments:

#### General Education Requirements - Required (Fixed) Common Core

Type  
Completion Requirement

#### Fulfill ALL of the following requirements:

- Complete at least 2 courses in the following course sets:
- Required Core English Composition
  - English Composition I (usually FIQWS)
  - English Composition II (usually ENGL21000 Intro To Academic Writing, depends on major; refer to your advisor for the appropriate course)

AND

#### Complete at least 1 courses in the following course sets:

- Required Core Mathematical and Quantitative Reasoning
- Depends on major (refer to your advisor for the appropriate course)

AND

#### Complete at least 1 courses in the following course sets:

- Required Core Life and Physical Sciences
- Depends on major (refer to your advisor for the appropriate course)

12 credits / 4 courses

#### Additional Comments:

Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.

Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

#### General Education Requirements - Flexible Common Core

Type  
Completion Requirement

#### Fulfill ALL of the following requirements:

- Complete at least 2 courses in the following course sets:
- Flexible Core World Cultures and Global Issues

One from each subgroup

- Literature
- Global History and Culture

AND

- Complete at least 1 courses in the following course sets:
- Flexible Core U.S. Experience in Its Diversity

AND

- Complete at least 1 courses in the following course sets:
- Flexible Core Creative Expression

AND

- Complete at least 1 courses in the following course sets:
- Flexible Core Individual and Society

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Scientific World

**Additional Comments:**

18 credits / 6 courses

Students will complete at least one course in each of the five Flexible Core areas and an additional sixth course in one of them. Students can complete no more than two courses from any one discipline or interdisciplinary field. The list of courses that satisfy this requirement changes from semester to semester - check our checklist to see what alternatives are available next semester.

Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. **General Education Requirements - College Option**

**Type**

Completion Requirement

Complete at least 1 of the following:

College of Liberal Arts and Sciences : BA candidates

Philosophy, 3 crs.; Foreign Language, 9 crs. in a single language, or exemption on the basis of [demonstrated proficiency](#).

12 credits / 4 courses

Students at City College are required to take 12 additional credits of General Education. Transfer students will need to take 6 to 12 College Option credits depending on (a) whether they are transferring from a four-year or a two-year degree program, (b) whether they have completed an A.S. or A.A. (c) how many credits they had at the time of transfer, and (d) whether they have coursework that counted towards the completion of the College Option at their previous institution. Visit: <http://www.cuny.edu/academics/initiatives/pathways/gened/college-option.html> for more details on the College Option requirement for transfer students and consult an advisor.

**Additional Comments:**

**Major Requirements - Overall**

**Type**

Completion Requirement

Earn at least 30 credits

Earn an average GPA of 2.0

- The GPA in the major is calculated from courses in the major based in the major department only, and that have been taken at City College or through ePermit, including all courses in excess of the minimum required for the degree.

**Additional Comments:**

**Major Requirements - Required Courses**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ANTH 20000 - Archaeology: The Past in the Present
- ANTH 20100 - Cross-Cultural Perspectives
- ANTH 20200 - Language in Cross-Cultural Perspective
- ANTH 20300 - Human Origins

— AND —

Complete at least 1 courses in the following course sets:

- Anthropology Upper Level Electives
- 30000-level course

**Additional Comments:**

**Major Requirements - Electives**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 9 credits from the following:

- Anthropology Electives

— AND —

Earn at least 6 credits

As many as 6 of the 15 elective credits may be related courses outside the Department of Anthropology from the following programs, departments and schools: Asian, Black, Latin American and Latino, and Jewish Studies programs; the departments of Sociology, Economics, Psychology, Political Science, Biology; and the Schools of Architecture, Biomedical Education and Education. These courses must be chosen in consultation with a departmental advisor.

Program Resources

Type

Completion Requirement

All IS majors receive individual advising from the Program Director each semester prior to registration and as opportunities develop for participation in study abroad, national seminars, fellowships and scholarships.

International Studies Majors are eligible for fellowships administered by the Program to support study abroad.

The Model United Nations Program is popular among IS majors who constitute the majority of its participants; students also participate in other Model United Nations simulations.

The Students Association of International Studies (SAIS), run by students in the Program (but open to non-majors as well), organizes guest lectures, international crisis simulations, cultural fairs, publishes a blog and other social media resources, and offers opportunities for leadership among students.

Students also participate in other IS-affiliated clubs, including the Model United Nations Club and the United Nations Association Club, as well as in the CCNY-NGO UNDPI, in which City College students serve as youth representatives to international NGOs.

International Studies majors also benefit from the experience of CCNY's Diplomat-in-Residence, who advises students on U.S. State Department internships and entry to the U.S. Foreign Service.

### ANTH 10100 - Introduction to Anthropology

#### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	10100

**Course Title**  
Introduction to Anthropology

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class provides a general overview of the field of anthropology. As it is a four sub-field discipline providing a holistic understanding of human life, the class will delve into each sub-field. Students are expected to leave with a fuller appreciation of Anthropology and with knowledge of linguistic anthropology, biological anthropology, archaeology, and socio-cultural anthropology. Through such an approach, students will have a deeper and more expansive understanding of human history and contemporary matters. One of the goals of this class is to better our grasp of anthropology and thus give us a socio-scientific toolkit to interpret our social worlds and thus prepare students for advanced classes in the major and in other social science fields.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	20100

**Course Title**  
Cross-Cultural Perspectives

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class provides a general overview of the field of socio-cultural anthropology. As this class is an excursion into the field of socio-cultural anthropology, our main goal will be to understand, complicate, and theorize "culture." Students are expected to leave with a fuller understanding of socio-cultural anthropology, ethnographic method, and the complexities of cultural life. The main questions in this class will be: What is culture? How do cultural practices vary across social contexts? How can culture be multiple and contradictory? What does ethnographic method look like to study culture? Students will leave this class with a greater grasp of the "culture" concept and ethnographic methodologies. 3 hr./wk.; 3 cr.

## ANTH 21505 - Narrative Power in the Black Radical Tradition

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	21505

Course Title  
Narrative Power in the Black Radical Tradition

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
For over 250 years, against all odds and in the face of extreme genocidal violence, Black people in the United States have persevered and "have countered vicious dehumanization with determined and successful re-humanization." Central to the struggle for Black liberation is the use of symbolic resources. Such resources include "words, signs, images, music and even bodies [which] shape our perceptions of reality and invite us to act accordingly." From the abolitionist movement to end slavery to the Civil Rights Movement of the mid-20th century to today's Movement for Black Lives, Black organizers, activists, and allies use symbolic resources to resist and inspire a new vision of society. By taking advantage of political opportunities and disrupting hegemonic thinking, Black insurgent social movements expand collective perceptions of what is socially, economically, and politically possible. The hashtag #BlackLivesMatter is a symbolic resource, as was Emmitt Till's open casket, both exposing that which is often concealed—the ghoulis manifestations of white supremacy. Social movements use these symbolic resources to reveal patterns, cultivate compassion, recruit members, inspire collective action, and build public will for sweeping social changes. In this course, we will explore the role of narrative power and rhetoric in the Black Radical Tradition, what political theorists Cedric Robinson describes as the collection of cultural, intellectual, action-oriented labor aimed at disrupting social, political, economic, and cultural norms originating in anti-colonial and antislavery efforts. This tradition is not only one of resistance against oppressive forces but also of joy, embodiment, and love. Through readings, podcasts, special guests, and discussions, we will explore how Black movement workers have used narrative, story, and other symbolic resources to build narrative power for radical notions of liberation and freedom.

## ANTH 23600 - Anthropology of Gender & Sexuality

### Overview

Academic Institution

CTY01

Subject area

ANTH

Catalog Number

23600

Course Title

Anthropology of Gender & Sexuality

Department(s)

Anthropology and Interdisciplinary Programs

Description

This course explores how gender and secuality are iterated, performed, challenged, and managed. Instead of seeing gender and secuality as coherent and easily quantifiable categories, this class delves into the many contradictions in the categories of gender and secuality in order to unpack everyday taken for granted assumptions. Furthermore, students will examine how these categories intersect, how they inform each other, and how they gain raction with race, class, and ethnicity.

Subject area	Catalog Number
ANTH	25301

Course Title  
Gender and Social Policy

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores how gender relations shape, and are shaped by, social policies. Course material will bring comparative and historical approaches to examine the relationships between social policies and gender over time, across space, and in the context of different social, economic, cultural, and political systems. We will also draw on critical, feminist, anti-racist, and anti-colonial perspectives to study interactions between policies, gender, race, ethnicity, class, nationality and age, and to imagine transformative actions to bring policy change and to promote gender equality.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	25401

**Course Title**  
Politics of Violence

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class offers an analysis of the role of the state in perpetuating, legitimizing, and facilitating political, racial, and gender-based violence worldwide. We will explore the connections and effects of nationalism, militarism, and heteropatriarchy (as structural and ideological elements of the state) as well as neoliberal assaults and practices in the normalization of violence against dissidents, incarcerated populations, refugees, workers, and indigenous communities. We will engage in a theoretical discussion on the salience of particular ideational and material experiences of race, ethnicity, indigeneity, gender and queer identities, and political affiliation in rendering state-sponsored violence and torture thinkable.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	26500

Course Title  
Language and Power

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class examines the politics of language--how people use language as a political tool and how language can become the object of political struggle. Politicians, activists, citizens, journalists, diplomats, pundits, and celebrities all use language to pursue political goals. We will explore these uses as well as the ways that language can itself become the topic of political concern, as in debates over what counts as hate speech or in struggles for the recognition of certain dialects as legitimate.

## ANTH 28000 - Latin American progress? Ethnographies of economic growth and technology.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	28000

**Course Title**  
Latin American progress? Ethnographies of economic growth and technology.

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Why do some nations get rich very quickly—and then get poor again? And what does it mean to say that a nation is rich or poor? These questions have special importance in Latin America, where people have lived through five hundred years of economic booms and busts. In this class, we ask fundamental questions about Latin American economic life—which turn out to be fundamental questions about economic growth itself. What is GDP? Does economic growth make people happier? Is technology the secret to more growth? Our primary texts are ethnographies – the stories of people who are living through growth – but we also read works of economists and other thinkers. We consider the economic effects of Latin American conquest, enslavement, liberalism, ISI, and export-oriented models. We engage with ecological approaches, feminist critiques, the happiness paradox, and de-growth. We try to think carefully about the possible roads toward a better world economy.

## ANTH 29607 - Undocumented, Unafraid, Unashamed: The Power of the Immigrant Youth Movement

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	29607

Course Title  
Undocumented, Unafraid, Unashamed: The Power of the Immigrant Youth Movement

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class will explore how undocumented young people organized themselves, built a movement, disrupted immigration politics, and won policy change that changed the lives of thousands of people. The class is designed to look at the origins of the movement, the political conditions that shaped it, and the social justice movement lineages that inspired its leaders. With immigrant and refugee communities facing greater attacks and scapegoating this class will also explore the movement's present strategies and its future.

## ANTH 30500 - Global Social Theory

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
ANTH                                      30500

Course Title  
Global Social Theory

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course is designed to introduce Anthropology students to key questions and concepts in the social sciences. Over the semester, students engage with the wide variety of texts—by authors from around the world—that together comprise global social theory. The focus is on learning how to read these texts carefully with an eye toward using them to analyze the contemporary world. In particular, the class asks students to explore the following questions: What does it mean to understand humans as thoroughly social, cultural, and historical creatures? How do humans create, maintain, and transform their social worlds? How are forms of social difference (e.g. race, class, ethnicity, language, citizenship, gender, sexuality, etc.) produced and how do they shape our experiences? In what sense is the contemporary world shaped by particular pasts? What historical transformations lie on the horizon?. Enrollment Requirements: ANTH 20100, Cross-Cultural Perspectives

## ANTH 31013 - Disaster Capitalism and Creative Community Resistance

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31013

**Course Title**  
Disaster Capitalism and Creative Community Resistance

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
"Disasters" often have their roots in miscalculations or mismanagement of governments (or banks), the exploitation of the planet, or the mistreatment of impoverished communities. In a disaster's aftermath long standing social inequalities highlight how the greatest burden of recovery rests disproportionately on poor communities of color. "Disaster capitalism" is a practice of taking advantage of social and economic instability to centralize policies that under "normal" times communities—what is known as the "State of Exception"—would cause concern. This course will explore the role of states and societies living through natural and human-made disasters. We will draw on insights from global and local communities that have survived disasters and are resisting historical and economic trauma. We will focus in on the creative activism of colonized, racialized, sexually marginalized and displaced peoples.

### Overview

Academic Institution

CTY01

Subject area

ANTH

Catalog Number

31123

Course Title

Anthropology of Popular Culture

Department(s)

Anthropology and Interdisciplinary Programs

Description

Anthropology of Popular Culture delves into the various realms of popular culture. These forms of popular culture range from cinema to TV to sport. Through an anthropological investigation of popular culture, the class will explore how identities and worldviews are negotiated, challenged, and managed through consumption. In the process, the class will analyze the many practices of appropriation, consumption, reception, and cultural production. In this class, you will engage with larger debates about popular culture while testing out whether we are victims to mass production or whether we appropriate in many contradictory ways. This class will involve critical analysis of ethnographies on popular culture in order to understand the workings of race, gender, sexuality, and class.

Course Title

Women of Color and the Politics of Experience

Department(s)

Anthropology and Interdisciplinary Programs

Description

This course explores the critical and artistic work of women of color about the complex politics of race, class, citizenship, gender, sexuality, and other categories of power in the lives of women of color in the U.S. and globally. The readings in this course will critically examine "experience" as an aspect in shaping theory, history, politics and culture. We will cover women of color feminist critiques of such issues as poverty and capitalism, nationalism as well as the politics of representation, location and coalition/community building.

ANTH	31127

Course Title  
Global Lockdown: Gender, Race and Prisons

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course critically examines the situations, conditions and impact of the Global Prison Industrial Complex. We pay careful attention to incarcerated populations, particularly focusing on race, gender, immigration and religious affiliations and study the intersections, or convergences, of prison, imprisonment, and confinement with policing, immigration policies and private prison industries. While we will explore the structural questions that shape mass incarceration, we will also address to the everyday experiences of people and families held captive within the system.

## ANTH 31131 - The Archaeology of Race and Slavery: Memory, Monuments, and Memorialization

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31131

Course Title  
The Archaeology of Race and Slavery: Memory, Monuments, and Memorialization

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
What does the recent controversy surrounding monuments to the Civil War tell us about race in the past and present? How is slavery remembered, and how can archaeology contribute to our understandings of the experiences of enslavement and freedom? This course will address these questions and others to investigate the archaeological intersections between race, slavery, freedom, memory-making, and memorialization. Using the removal of Confederate monuments as a point of departure, the course seeks to explore how archaeologists study race and slavery through the material record, treating monuments, memorials, and the material traces of slavery as archaeological artifacts that are informative of broader social attitudes concerning race, memory, and nation building.

## ANTH 31132 - Women Writing Culture

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31132

Course Title  
Women Writing Culture

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course seeks to place feminist research and women's writing center stage. We will explore through theory and practice how, for whom, and to what end cultural representations have been presented in written form. We will interrogate the processes behind producing ethnographic and other nonfiction writing, looking at methods, as well as ethical considerations. Guided by recent decolonial feminist scholarship and queer of color critique, our aim will be to build on a variety of anti-oppressive methodologies such as research-based performed ethnographies, digital storytelling, and other forms.

## ANTH 31133 - Pirates of the Caribbean: Scalawags, Sailors, and Slaves

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31133

Course Title  
Pirates of the Caribbean: Scalawags, Sailors, and Slaves

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Avast ye matey! This course is designed to be an in-depth analysis of the legendary bandits, mischievous scalawags, and barbarous buccaneers that roved the high seas from the sixteenth to the eighteenth century. Students will be introduced to the anthropological and archaeological methods that have been utilized to study these legendary bandits from a perspective different from what's portrayed on the big screen. Through analysis of archaeological and historical sources, the course explores the seas of the Caribbean, where pirates struck fear into the hearts of mariners, traders, merchants, planters, and colonial authorities for centuries. The simultaneous rise of piracy and capitalism in the region is not coincidental, and we explore the strong, and often contentious, relationship between the two, including how the transatlantic slave trade played a vital role in the rise of piracy. We'll confront the legends and myths surrounding infamous pirates like Blackbeard, "Black Sam" Bellamy, Captain Morgan, and some lesser known bandits to separate fact from fiction. Despite the popularity of these larger than life figures, we spend far more time discussing the thousands of individuals who comprised the motley crew of Caribbean pirates and unpack how piracy was perceived by throughout the Atlantic world. Archaeological and historical scholarship will touch on multiple facets of the lives of pirates on the high seas from their ships, their everyday belongings, the goods they plundered, the hideaways they called home, the people they forged relationships with, the havoc they caused, and the legends they left behind.

## ANTH 31134 - Sacred Objects: Gateways to Holiness

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31134

Course Title  
Sacred Objects: Gateways to Holiness

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores the ways in which material objects become vessels that create, express, embody, and reflect sacredness. Topics of study include God, good and evil, covenant, death and the afterlife, individual and community, tradition and innovation, familiarity and difference, materiality and social justice. Emphasizes the relationship between texts, rituals, art, and objects across history and gauge the complex and changing relationship between Judaism and materiality.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31140

**Course Title**  
Birthing Justice/ Birth Injustice

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores how Birthing Justice is both an analytic framework and a social movement within the US. By focusing on the intersectional nature of oppression, students will learn how and why racial disparities in maternal health persist in the US. Lastly, and most importantly, the lives and voices of women of color who both advocate for Birthing Justice and who also experience Birth Injustice will be central to the course.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31150

**Course Title**  
Anthropology of Masculinity

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Anthropology of Masculinity- instead of taking masculinity as a natural practice and associated with certain bodies and sexes, the class looks at the many social practices of masculinity across the globe. In the process, the class explores the many politics within the category of masculinity while engaging with the multiplicity of masculinity. Finally, instead of isolating masculinity in a vacuum, the class will engage with ethnographies that illustrate how masculinity is confirmed through the categories of race, sexuality, class, nation, and ability. In the process, we will also have insight on the many ethnographic ways to explore masculinity.

## ANTH 31160 - Leadership in Health Equity

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31160

**Course Title**  
Leadership in Health Equity

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This is a course about moving from theory to practice with respect to advancing health equity. It will draw from the real-world public health experience of the course director as well as other leaders and practitioners. Course modules will span public health, healthcare, and social services; each will center on a specific health equity gap or problem, with a focus on implementation considerations. Case studies?particularly open-ended cases that lend themselves to problem-solving and contending with obstacles and failure?will be a principal didactic method. Topics include anti-racist practice in public health; addressing patients' health-related social needs; COVID-19 vaccine equity; and the intersection of health and economic equity.

## ANTH 31161 - Environmental & Climate Justice

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31161

**Course Title**  
Environmental & Climate Justice

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores the origins of environmental racism and the pursuit for solutions toward environmental and climate justice. In particular, students examine the continuing legacy of institutionalized racism and the political economy of environmental injustice that contribute to the degradation of environmental conditions in low income and BIPOC communities in North America and around the world. By discussing local and global case studies of environmental injustice and by taking virtual toxic tours students think through possibilities in the Environmental Justice movement for resistance and explore avenues for civic leadership. The course materials and instruction draw from Native American and Indigenous studies, Black studies, biocultural anthropology, abolition geographies, and feminist theory to provide interdisciplinary perspectives on the ongoing project for justice.

## ANTH 31164 - Modern Israeli Culture

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31164

Course Title  
Modern Israeli Culture

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course approaches modern Israel as a case study in creating a new national culture in relation to ancient history and culture and a longstanding diaspora. It explores the evolution of Israeli culture between the 1930s to the 2000s from an interdisciplinary perspective, examining various aspects of Israeli life and distinct cultural forms. Probing the continuing tensions underlying a national culture of a society comprised of multiple ethnic, social, and religious minorities, we will look into recent changes in Israeli culture including the impact of consumerism and globalization, the return to the diasporic past and traditions, and the nostalgia toward early Israeli culture. Readings (in English), draw on historical, sociological, and anthropological studies as well as on literature, art, and film.

## ANTH 31191 - Autoethnography: Cultural Analysis, Social Change, and Introspection

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31191

Course Title  
Autoethnography: Cultural Analysis, Social Change, and Introspection

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
How can researchers understand cultural change in society alongside their own experience in it? In this course, students will gain an understanding of autoethnography, anthropological research, writing, and storytelling that connects the autobiographical and personal to the cultural, social, and political (Ellis, 2004: xix). Students will learn how to develop their own authentic ethnographic perspectives while exploring the implications of societal change on them - finding their own voices through better understanding of the intersections between participant-observation and self-observation. They will gain a better understanding of their relationship to the cultural forces which are rapidly changing society (political campaigns, social movements like BLM, the COVID-19 Pandemic, etc.). This will be a highly interactive and collaborative course guided by writing assignments alongside cultural analyses of current events.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31210

Course Title  
Gender, Race, & Latinidad

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course will explore the concepts of identity and subjectivity as Latinidad. Topics will include post-colonialism and practices of resistance, transnationalism and migration, gender and sexuality, language and bilingualism, media representation and art production. Drawing on a variety of interdisciplinary sources we examine how racial definitions, gender and national belonging have historically and in recent times-- through critical world events-- intersected in the production and representation of Latinidad.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31256

Course Title  
Masculinity and Latinidad: Redefining Masculinities in the U.S.

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
The concept of hegemonic masculinity has been used to explain societal behaviors in terms of men's power over women. In this course, we will analyze the connection to the marginalization of Latinx communities in mainstream U.S. culture, and the way stereotypical cultural attitudes are too easily attributed to machismo and stagnant characterizations of Latinx men, i.e., behaviors that conform to racist expectations of men of color. We will also explore how Latinx men break with tradition in the arts, literature, and popular culture.

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31350

**Course Title**  
Black Power Women: Autobiography and Biography

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course will examine the issues of race, politics, and gender through the narratives of Assata Shakur, Angela Davis, and Afeni Shakur. The exploration of each woman's lived experiences illuminate the culture in which they made their choices to become political activists and in which their trials took place. We will also dissect the biases and prejudices of the larger culture, and the implications this held for each woman. We will supplement our readings of their autobiographies/ biographies with womanist and feminist writings. Students will critically examine each narrative and supporting documents through class discussions and essays.

## ANTH 31503 - HIP HOP & POLITICS

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31503

Course Title  
HIP HOP & POLITICS

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
From the political theory of Adolph Reed to the comedy of Bill Cosby we find a critique of the "hip hop generation" so dismissive it might be a useful point of departure for further historical and theoretical inquiry. In realizing the worst fears of a previous generation that has placed its hopes in the aspirations of 60s-era social movements, does this new generation's fashion sensibilities, technological savvy, and strategies for commodifying blackness suggest a demographic now more concerned with the economics of globalization than the political economy of race? To explore this question, we consider a diverse set of readings, and music, and film clips, to interrogate the generational tensions that structure popular and intellectual discourses concerning the "hip-hop generation" and the perceived demise of black politics. ?

## ANTH 31685 - LGTBQ World History

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31685

**Course Title**  
LGTBQ World History

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course focuses on the history, contributions, and experiences of gender and sexually-diverse individuals throughout world history, with particular emphasis on nonwestern cultures. It broadly explores changes and debates within the field of history as a whole and the stakes of centering historical analysis on individuals often overlooked or erased by mainstream history writing. The course will balance big-picture discussions with case studies drawn from the instructor's geographic expertise. These will include examples of precolonial LGBTQ history, how nonwestern cultures conceptualized gender and sexual diversity, the fraught imperial and colonial periods, and contemporary historians' efforts to diversify curriculums and public knowledge. Students will research a related topic of their choice and develop a final project that can take the form of a research proposal, a teaching unit, or a presentation for the public (such as a film proposal, informative website, podcast series, etc).

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31704

**Course Title**  
Anthropology of the Climate Crisis

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Human societies have always had a dynamic relationship with their environments. However, in the last century that this relationship has transformed drastically. This course examines the relationship between humans and their environments, focusing on recent planetary trends that have been identified as a Climate Crisis. From the melting of ice caps to the loss of biodiversity and to the pollution of our soil and water, human societies are confronted with challenges that threaten our continued existence. This class surveys anthropological and archaeological cases to examine how societies around the world are confronting these problems today, as well as how past populations failed or succeeded in adapting to changing climates.

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31706

Course Title  
Musical Cultures of the Caribbean: Sonic Reverberations of the Atlantic World

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Over the past two decades, the study of Caribbean music has become increasingly crucial to discussions of diaspora, modernity, race, gender, sexuality, and identity politics in the Atlantic World. This course addresses these topics by surveying major Caribbean musical genres in relation to their historical development and social contexts, including aspects of globalization, digital media, and popular culture. Students will develop skills to listen to, identify, describe, and discuss various Caribbean musical styles and performance techniques. The topics and readings will raise important questions about how sonic practices articulate, challenge, and/or transform diverse notions and imaginaries about the American landscape as well as forms of belonging with African, South Asian, and other diasporas.

ANTH	31860

**Course Title**  
Braven Leadership Accelerator

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
The Braven Leadership Accelerator is a foundational course designed to begin preparing students to become leaders in an increasingly competitive, globalized career marketplace. Students examine how social constructs impact our notion of what leadership is, recognizing that the playing field in graduate school and the professional world is uneven. Knowing this, students define their own leadership by leveraging and highlighting their identity, values, strengths, talents and experiences via multiple formats of communication, networking, project-managing, and teamwork activities. This course is ideal for students who seek to attain a strong post-baccalaureate leadership opportunity, whether that be in graduate school or as they launch their professional careers. Undergraduates of all levels and majors can participate. There are no prerequisites to enroll in this course

## ANTH 31906 - Archaeology of Democracy and Despotism

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31906

Course Title  
Archaeology of Democracy and Despotism

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class will explore the wide range of political systems that existed in the ancient world – from egalitarian and representative formats to highly centralized, and even despotic, ones. We will draw on archaeological and historic case studies from East Asia, the Mediterranean, North America, the Andes, and more to provide us with a long-term view of how political systems develop and dissolve. How did political players encourage cooperation, hierarchy, authority, or inequality, and how were these practices institutionalized? How can we identify these practices in the past? By focusing on the deep history of political systems in the ancient world, we will ultimately seek to address one of the most important questions challenging the modern world: are hierarchy and inequality inevitable parts of human society?

ANTH	31908

Course Title  
Anthropology Beyond Academia

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
From tech to television, anthropologists have been called to offer their perspective in spaces beyond academia. But how does one actually make the leap from the academic world to the applied world of anthropologists? In this interactive course, students will dive into solving real world scenarios using research skills and frameworks from anthropology. Some scenarios include: how can anthropologists help a finance corporation become more socially conscious? How can anthropologists help resolve clashing objectives within a large non-profit? Students will develop the skills necessary to translate their academic backgrounds to speak to the values of business, non-profit, etc. and be able to better navigate the job opportunities within the world of applied anthropology.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31918

Course Title  
Anthropological Perspectives on U.S. Foreign Policy

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course uses a range of anthropological perspectives to examine different topics in U.S. foreign policy during and after the Cold War. Topics include the nuclear missile crisis, the Vietnam War, the war in Afghanistan, the invasion of Iraq, the U.S. "war on terror," humanitarian interventions, and various interventions in Latin America. The class will both contextualize these topics and offer insight into how specific policies shape the lives of everyday people. The overall aim of the course is to explore the possibilities anthropology offers for understanding foreign policy from the ground-up.

Anthropology and Interdisciplinary Programs

**Description**  
In this course, students examine media forms and technologies in a cross-cultural context by drawing on concepts from critical theory, poststructuralism, post-colonial theory, feminism, and other interdisciplinary theoretical frameworks. Over the semester, students will explore how culture, media, and globalization can be understood in a constantly changing media context.

**ANTH 31954 - Nonviolent Communication****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31954

**Course Title**  
Nonviolent Communication

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Expressions of judgment, blame, anger, disappointment, aggression, denial - many of us have experienced or used them in social interactions. It is likely that our needs are not met through hurtful exchanges, which eventually leads to further conflict. If you are interested in overcoming these negative tendencies and would like to learn how to resolve conflict situations in a peaceful manner, this course is for you. You will be introduced to the method of Nonviolent Communication (NVC), a pragmatic approach designed to help people connect more compassionately with themselves and others. The method was developed by psychologist Marshall Rosenberg and is rooted in humanistic psychology as well as the Hindu principle of nonviolence (ahimsa). It has been used to effectively settle conflicts and disputes at all levels of society, such as personal relationships, the workplace, and international peace negotiations. With practice, the tool of NVC will help you reframe how you express yourselves and how you hear others by focusing your consciousness on what you are observing, feeling, needing, and requesting. Ultimately, the skills you will acquire in this course should contribute to personal growth, greater self-awareness, and stronger professional and personal relationships.

**ANTH 31955 - Anthropology of Masculinities****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31955

**Course Title**  
Anthropology of Masculinities

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Instead of studying "masculinity" as singular gendered identity, the class delves into theories of gender, sex, race, ethnicity, religion, and ability to look at masculinities across a wide spectrum of power. The class will look at ethnographic detailing of masculinities and its difference across categories and social contexts. In addition, looking at the relationality and intersectionality of masculinities is crucial to understanding how meanings, social patterns of relations, and hierarchies then emerge from practices of masculinities. These are some guiding questions: What are racialized masculinities? What are the gender politics within masculinity?

## ANTH 31956 - Politics and Society in the Middle East

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31956

Course Title  
Politics and Society in the Middle East

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This class introduces students to core topics in the study of the Middle East and North Africa (MENA): (post-) colonialism, modernity, nationalism, state formation, economic development, democratization, gender, religion, and the politics of daily life. Students will also examine the ways the region has been shaped by many waves of social movements, including nationalism, Marxism, feminism, and Islamism. The class introduces students to theoretical concepts and historical contexts for approaching the region in an informed manner and for reflecting on preconceived notions about the region.

## ANTH 31957 - Latin American Cultures of Music, Literature, and Film

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31957

Course Title  
Latin American Cultures of Music, Literature, and Film

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course examines sociocultural and political dimensions of contemporary Latin America by tracing a history of power struggles through the lenses of music, literature, and film. We will explore some of the most important historical events that from the colonial encounter to the present have shaped the region as a geopolitical entity--e.g. the independence movements, the emergence of neocolonial regimes, revolutionary movements, the mass violence of the long Cold War, and the ongoing neoliberal restructuring of economics, politics, and society. Throughout, we will examine these events by focusing on diverse cultural expressions of music, literature, and film.

ANTH	31958

Course Title  
Minorities and Sociocultural Change in Western China

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course will introduce students to a range of issues relating to minority nationalities (ethnic minorities) in western China in the late twentieth century until the present. We will focus on six main themes: identity and culture; religion (Tibetan Buddhism and Islam); households and livelihoods; development and modernization; education and social exclusion; and protest and conflict.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31960

Course Title  
Archaeology of Displacement and Migration

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Mobility is a deeply material process that affects how humans interact with landscapes, things, socio-political structures, and each other. While migration and displacement are not new phenomena, the current crisis raises urgent questions concerning how we understand the human experience of migration and the social and political processes that weigh on that experience. Using an archaeological framework, this course will analyze migration and displacement from the ancient past to the present through the lens of material culture. Part of this course will also include the installation of the global pop-up art exhibition, Hostile Terrain 94, which materially engages with the ongoing crisis unfolding at the US/Mexico border.

### Overview

Academic Institution

CTY01

Subject area

ANTH

Catalog Number

31961

Course Title

Environmental Inequality

Department(s)

Anthropology and Interdisciplinary Programs

Description

This course explores the relationship between humans and their environments, with an emphasis on issues of power and inequality. Not limiting our understanding of the environment to "nature", readings cover the environmental politics of workplaces and homes, cities and rural areas, and global issues such as climate change and infectious disease pandemics. The course centers decolonial, indigenous, critical race, and feminist perspectives on the environment, while engaging topics such as extractive economies, conservation, toxicity, and multispecies relations.

31962

Course Title

Environmental Justice: Anthropological Perspectives

Department(s)

Anthropology and Interdisciplinary Programs

Description

This course aims to explore the foundations of environmental justice (EJ) as a discipline. It will investigate domestic and international socio-environmental issues from a global south perspective. The field of EJ asks for equitable treatment of all people regardless of race, ethnicity, gender, economic capacity, national origin, and education level concerning environmental policies and their implementation.

## ANTH 31964 - DECOLONIZING EDUCATION

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31964

Course Title  
DECOLONIZING EDUCATION

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Schooling has proved one of the most powerful modern technologies for socializing and enculturating successive generations of students. This course engages with the problems the Anthropology of Education has posed since its formalization in 1950s and 1960s for schooling, learning, and the reproduction of inequality. Utilizing readings, films, and discussions we investigate the "hidden curriculum" schools, the distance between the official goals of educators and actual effects on students and we will ask why education, so often posed as remedy to society's problems, seems to instead perpetuate failure for many of its students. Exploring decolonizing, structural, informal, and other anthropological approaches, we will examine the rich ethnographies that have challenged assumptions about schooling and provided surprising and insightful nuance to how students learn, resist, and experience education."

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31965

**Course Title**  
MUSEUMS & ANTHROPOLOGY

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
What does it mean to preserve, display, and remember culture? Though museums were foundational institutions for anthropologists to display and interpret culture, in recent decades critical questions of ownership, voice, and decolonization have become forefront for museum studies. Through a series of readings, films and discussions this course will critically engage with anthropological concepts and entanglements with museums in our historical and contemporary world. We will explore issues of diversity and inclusion, colonialism and ownership, and voice and representation. We will critically assess major museum institutions, community museums, experimental museums as well as monuments and ask what it means to represent, negotiate and contest human material and visual culture.

## ANTH 31966 - Counterinsurgency and the Social Sciences

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31966

**Course Title**  
Counterinsurgency and the Social Sciences

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
According to the U.S. Army/Marine Corps Counterinsurgency Field Manual No. 3-24, published in 2007, “counterinsurgency is not just the thinking man’s warfare—it is the graduate level of war.” Against this background, this course provides historical, cultural, and intellectual perspectives on counterinsurgencies. The focus is less on specific battles than on the following: the historical and geographical contexts of counterinsurgency; how its doctrine and practice have drawn on methods and concepts more traditionally associated with social sciences including anthropology; the ethical and political issues and debates this has raised within the discipline and academia generally; how media representations have worked to gain public approval for counterinsurgency campaigns; and how societies have dealt with their aftermath. Course materials include cultural, political economic, and historical approaches and focus on different eras and areas of the globe.

## ANTH 31967 - Hip Hop & the Global South

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31967

Course Title  
Hip Hop & the Global South

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Once a localized activity designed to provide a refuge for Black and Latino youth in places like New York City, Hip-Hop became a global brand that impacted youth's cultural, political, and economic realities across the world. This course focuses on hip hop in the Global South in places like Brazil, Cuba and Puerto Rico. We aim to deconstruct stereotypes and propose a more in-depth view of hip-hop in everyday life and in identity politics. Through scholarship and analysis of popular culture this course investigates the role gender, class, and race performs in the use of hip-hop as a tool for social change while simultaneously acting as a corporate marketing device.

ANTH	31968

Course Title  
Language and Gender

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores how language, gender, sexuality, power and identity are interwoven. Drawing on linguistic anthropology, critical sociolinguistics, feminist and queer theories, and ethnographic case studies, we'll focus on topics such as gender identity, performativity and language use, ideologies of gender and language, sexual orientation, and processes of nationalism and globalization that are interwoven with gender and sexuality. The course will take an intersectional approach to all these topics, with a particular focus on intersectionality and Black feminism in week 11. The aim of this course is to think, reflect, and learn about ourselves as socio-historical and cultural beings permeated by linguistic interactions that reinforce and/or resist gender normativity.???

## ANTH 31969 - Human Variation

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31969

Course Title  
Human Variation

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Humans vary in many important and interesting ways. Unfortunately, this variation is frequently misunderstood and used to classify, divide, and justify the oppression of minority groups. We will explore the basics of evolutionary biology so we can understand how humans vary biologically and why. We will discuss topics such as sex and gender, skin color, and racism to better understand how evolution impacted our biology and deconstruct harmful stereotypes about sex and race. By doing so, the course will attend to anthropology's role in scientific racism and the faulty notions of human variation that still need to be dismantled in society at large.

ANTH	31977

Course Title  
Picturing Development

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
How do images--in photographs, paintings, film, and more--shape the way people think about international development? In this class, we will explore how visual materials both construct knowledge and raise ethical concerns. We will also examine the origins of visual anthropology, depictions of "exotic" peoples and places in publications such as National Geographic, tourist and travel photography, and the use of visual materials by international development NGOs. While primarily devoted to reading and writing about these issues, the course will also include a practical element, including experimenting with the creation of visual materials.

CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ANTH	31979

**Course Title**  
Decolonizing the Witch

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
There is a current reclamation of the "witch" or the "bruja" as a source of socio-psychological resistance. The resurgence of Goddess-basedancestral practices across the world is a testament to a deep-seated need to transform existing oppressive structures. In this multidisciplinary course students will learn about the historical trajectory of the "witch" as a source of feminist and feminine political resistance. Moreover, the course's focus on critical race theory will center witches of color as a way to disrupt the potential white-centric cooptation of the present resurgence of the Bruja.

## ANTH 31981 - Environmental Racism

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31981

Course Title  
Environmental Racism

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
While Environmental Justice as a field encompasses most of the Environmental Racism discussion, the last notion is still in dispute. It is a concept born in the United States and abroad throughout the 1970s and 1980s and coined by Benjamin F. Chavis, Jr. In the context of the United States, Environmental Racism often emphasizes the inequalities between urban and nonurban areas in terms of racialized communities. Internationally, Environmental Racism can refer to the effects of the global waste trade, like the negative health impact due to the export of electronic waste from the wealthiest states to the so-called developing countries, as well as the particular vulnerability of indigenous groups to environmental pollution. Environmental Racism is a term that entitles a fair understanding of environmental injustices within racialized groups. Why have we continued to use Justice instead of Racism? Why keep using climate change if it does not impact people equally? As its ultimate goal, this course endeavors to address this issue using Critical Race Theory in socio-environmental case studies.

ANTH	31982

Course Title  
Humans and Animals: Companions, Monsters, Food and More

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Our histories, religions, rituals, ideas of nature, and the very concept of what it means to be human are punctuated at every step by multi-species relationships. Through the lens of cultural anthropology we will explore the intimate relationship between humans and other animals that characterize our everyday lives. This course will range over a broad scope of these past, present, and future shared interactions with animals including domestication, art, companionship, hunting, sacrifice, myth, ethics, wealth, and more. We will draw on ethnographic literature, archeology, folklore, representative art, and other contemporary and past case studies of human and animal interactions from around the globe to build a rich discussion of the current and future approaches to living with animals.

## ANTH 31983 - Muslims & Jews in Morocco

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ANTH	31983

Course Title  
Muslims & Jews in Morocco

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
There has been a flourishing Jewish presence in Morocco for at least two millennia. Just ten years ago the Moroccan government updated its constitution to proclaim that Jewish tradition is a core element in its national heritage. And just a few months ago the Moroccan government went further, announcing that it's adding Jewish history and culture to the school curriculum. This course will be an introduction to how Jews and Muslims have lived and interacted together in recent times using Morocco as a case study. Much of the material in this course will be based on current survey research carried out by CCNY faculty on the ground in Casablanca and Marrakech.

ANTH	32600

Course Title  
Anthropology of Disability: From Memoir to Ethnography

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course is one of the Department's 300-level offerings and can fulfill the major requirement for one 300 level elective. It speaks to the Department's commitment to addressing pressing issues and pursuing a public anthropology in its curriculum and also further develops the curriculum in medical anthropology because of the attention to trauma. It expands the Department's cross-cultural offerings and addresses critical contemporary issues from an ethnographic and theoretical perspective that can have policy implications. It may be of particular interest to students looking toward careers in international contexts in fields such as development, humanitarianism, human rights or who wish to pursue professional work in the U.S. with populations fleeing from war and other contexts of violence.

Anthropological Genomics

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
The goal of the course is to explore how genes can inform us about human history, ancestry and evolution while allowing students the option to participate by collecting genetic data from their own genome. Understanding how genetic data can be combined with independent information to become a powerful and fascinating tool for uncovering events in human history, reconstructing human ancestry, and understanding human evolution will be the focus of the course. The genetic data collected from students who volunteer (the normal fee will be waived) will also personalize the concepts in genetics, human history, anthropology, ethics, bioinformatics, quantitative reasoning and information literacy. Typically, there are two exams and weekly hands-on in class assignments.

## BLST 30786 - Gender and Religion in the Black Atlantic

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BLST	30786

Course Title  
Gender and Religion in the Black Atlantic

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course examines the role and place of religion in the formation of Black Atlantic communities. From the 15th century to the contemporary period, we will look at the religious experiences of Africans and Afro-descendants in the Atlantic world (West and West-Central Africa, Europe, and the Americas). We will consider how the historical legacy of racism, slavery, patriarchy, colonialism, and imperialism, as well as Black agency, resistance, and ingenuity, has set the contours for defining and characterizing Black religions across time, space, and geographies. The course offers explorations of distinct traditions such as Orisha-lfa (Yoruba), Vodun (Fon) or Vodou, Palo (Bakongo), Obeah, Hoodoo, Afro-Catholicism, Afro-Protestantism, Islam, and Espiritismo to inform us of the centrality of Black worship and religiosity in the study of Black Atlantic social, cultural, political, and intellectual history and contemporary life.

CTY01

Subject area	Catalog Number
BLST	31136

Course Title  
Race and Reporting in America: Diversity and the Media

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course will explore issues facing the U.S. media as it struggles to understand and cover an increasingly diverse society. Through discussion, critical readings and debate, students will examine the media's role in shaping perceptions about social groups and the inequities that trouble our nation, their root causes, and potential solutions. The course will identify stereotypes and bias in media coverage and look at how communities are using digital and social media to fight back. It will also examine community and ethnic media, its past and future, strengths and weaknesses.

**BLST 31973 - African Animated Film and Series****Overview**

Academic Institution  
CTY01

Subject area	Catalog Number
BLST	31973

Course Title  
African Animated Film and Series

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Animation is one of the fastest growing mediums in African screen media productions today. Driven by young creators who have for the most part learned the art of animation from online tutorials as well as being inspired by the manga culture, these animators enjoy more freedom in exploring topics and artistic expression than their live-action cinema counterparts. African animation is diverse and exciting: From shorts to feature animated films, documentary and fiction, commissioned and non-commissioned productions, television animation series and adult content, and experimental and mainstream, or using animation techniques of stop-motion, 2D, and 3D. To study African animation is to look at Africa through new lenses, examine the continent's relation to the world, technological development in film and media, and questions of racial and minority representations. Animation like gaming, virtual and augmented reality are ever present and defining our today's mediated experience through screens and relationships to others. The course takes you on a discovery journey, from Moustapha Alassane, the father of African animation, the Congolese Jean Michel Kibushi, the South African William Kentridge, to the talent of the current generation whose work features in Kizazi Moto: Generation Fire (2023), an anthology of Africanfuturist animated short film series distributed Disney+ and was produced by South Africa-based Triggerfish studios.

**BLST 31974 - Witches, Brujas, & Voudou Queens: Exhuming The History of African-Based Religions in the Americas****Overview**

Academic Institution  
CTY01

Subject area	Catalog Number
BLST	31974

Course Title  
Witches, Brujas, & Voudou Queens: Exhuming The History of African-Based Religions in the Americas

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
In 2016, Puerto Rican rapper and Santería priestess Princess Nokia (Destiny Frasqueri) released the song "Brujas" capturing the spirit of a generation looking to exalt and reclaim the historically maligned spiritual legacies of African and indigenous women. Drawing on anthropology of religion texts as well as historical case--ranging from Tituba, the enslaved Native American women targeted in the Salem Witch Trials of 1692; the little known "Vodou Trials" of 1850's New Orleans where Voudou priestesses publicly protested and fought the NOLA Police Department; the witch-hunts and yellow press in early 1900's post-independence Cuba; to the 1993 U.S. Supreme Court Case Church of the Lukumi Babaluaye, Inc. v. City of Hialeah, Florida; M̩e Stella de Oxossi's induction into the Bahian Academy of Letters; and Beyoncé's Lemonade--this course will look at the ways African-based spiritual systems have been preserved, recreated, criminalized and re-legitimized within the context of enslavement, postcolonial nation building, contemporary race relations, and pop culture movements. We will explore how these processes have particularly impacted notions of feminine agency and gender roles within marginalized religious communities. Students will gain an introduction to various African-based religious systems including but not limited to Santería (Lukumi), Haitian Vodou, Brazilian Candomblé, and Jamaican Obeah, and to the extent time allows, allied indigenous religions such as Curanderismo. (BLST 10200: African Heritage in the Caribbean & Brazil not required for enrollment, but is a suggested prerequisite to this course.)

## BLST 33256 - Black Woman Creating and Inventing Home

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BLST	33256

Course Title  
Black Woman Creating and Inventing Home

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
The course will draw upon U.S. Census records of black households, lynching numbers, property and educational records of black females, black women's political and social organizing and family structures after slavery and the early 20th Century. With more than 90% of the black population living in the Cotton Belt it will be interesting to see the possibilities of enlarging one's agency in Border states as well as its isolation, elusiveness and lack of black tradition and social networks.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	21001

Course Title  
Media, Democracy, and Authoritarianism

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Democracies rely on people being able to access reliable sources of information, to recognize those sources, and to use that information to make informed political decisions. In this course, we will study the role of the media in its intersection with democracy and with authoritarian movements in contexts around the world. We will explore how democratic and authoritarian politics are reflected in newspapers, television and radio, and social media and how these media communicate the development of recent political events.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	21003

**Course Title**  
Religion and Global Politics

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Religion affects national and global politics, even in places where there is supposedly a division between church and state. It is therefore important to understand what "religion" is when trying to analyze things like authority, group belonging, and the goals of life. To that end, this course examines ways that different understandings of religion can influence how people engage the world on multiple scales, ranging from personal interactions to global empires.

**INTL 21005 - Human Rights: Theory and Practice****Overview**

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	21005

Course Title  
Human Rights: Theory and Practice

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Over the past 60 years, we have seen “human rights” evolve from an abstract philosophical discourse to an increasingly robust realm of international law and transnational activism. Yet numerous challenging questions remain: what specific claims deserve to be placed within the all-important category of human rights? If we assign this status to many rights (for example economic, environmental, or social rights), do we minimize the overall power of the discourse of human rights? What, if any, are the proper rational foundations for human rights? Are human rights a subtle cover for Western domination and do they supplant alternative, non-Western cultural and legal traditions? How are human rights to be enforced, given the absence of a world government or military force? What is the best strategy for vulnerable populations to seek and secure human rights? This course begins at the most fundamental level, examining what we tend to mean when we say “human rights” and aims at exploring some of the cultural, legal, and political debates central to the discourse of human rights (“human rights in theory”). At the same time, we will go beyond the theoretical level by examining contemporary cases and events which bring these questions into greater focus (“human rights in practice”). To this end, the course materials will include a number of films, documentaries, and artistic productions that make evident the dramatic complexities that characterize the conversation concerning “human rights.” You will be expected to watch the assigned films and clips in preparation for class discussions.

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	21006

Course Title  
Human Rights and Foreign Policy

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Human rights has evolved as a field over the years, with a body of international law, UN committees and human rights NGOs. While international commitments are universal in theory, the practical tools for truly protecting human rights are complex and costly. This class will review case studies representing US legal and policy tools that have been used to protect human rights and analyze how impactful they have been.

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	21013

Course Title  
Women's Movements in Latin America: The Struggle for Human Rights

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class explores twentieth and twenty-first century Latin American thinkers and activists who forged a dynamic, cross-hemispheric feminist movement. In particular, we will engage with the ideas of feminist leaders from Argentina, Brazil, Chile, Cuba, Panama, and Uruguay. We will learn about their fights and demands concerning suffrage, nationality, and reproductive rights, equal pay for equal work, and broader possibilities for self-determination, while considering how their painstaking efforts led to the enshrinement of women's rights in the United Nations Charter and the development of a framework for international human rights ("human rights for all"). At the same time, we will also examine deep divides within the movement, especially concerning imperialist and colonialist presumptions concerning who should lead.

## INTL 29500 - Brown Lives Matters: The Long History of Police Violence against Latino/a/x People

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	29500

Course Title  
Brown Lives Matters: The Long History of Police Violence against Latino/a/x People

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course examines three main social processes in the history of oppression and violence as well as resistance Latino/a/x People in the US: namely, (1) how national and local organizations -such as the immigration apparatus, law enforcement agencies, the criminal justice system, and the Media – have historically criminalized Latino/a/x communities; (2) how processes of racialization - and the conflation of structural and cultural characteristics to specific groups – have been historically used to manufacture recognizable social forms of identities to justify the criminalization, detention, killing, search, surveillance, and sterilization of brown and black bodies; and (3) the ways in which Latino/a/x communities have organized to contest these practices and ideologies. To examine these historical dynamics, this course review theories of policing, power, oppression and resistance case studies, and peer review articles.

## INTL 30500 - Global Social Theory

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	30500

**Course Title**  
Global Social Theory

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course is designed to introduce International Studies majors to key questions and concepts in the social sciences. Over the semester, students engage with the wide variety of texts—by authors from around the world—that together comprise global social theory. The focus is on learning how to read these texts carefully with an eye toward using them to analyze the contemporary world. In particular, the class asks students to explore the following questions: What does it mean to understand humans as thoroughly social, cultural, and historical creatures? How do humans create, maintain, and transform their social worlds? How are forms of social difference (e.g. race, class, ethnicity, language, citizenship, gender, sexuality, etc.) produced and how do they shape our experiences? In what sense is the contemporary world shaped by particular pasts? What historical transformations lie on the horizon?

## INTL 31100 - Senior Seminar in International Studies

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31100

Course Title  
Senior Seminar in International Studies

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This seminar has two purposes. First, it is the capstone of the International Studies major. It brings to bear on one or more major international or global problems the approaches and insights of the several disciplines that comprise the major. Second, students will also begin the preparation of their senior thesis under the supervision of the instructor and, in some cases, a faculty mentor with particular expertise in the student's area of inquiry.

## INTL 31117 - Internship Seminar: Public Affairs

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31117

**Course Title**  
Internship Seminar: Public Affairs

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
In this seminar students will explore issues and challenges faced by leaders in the varying contexts of public service be they non-profit, private for-profit, philanthropic, government or faith-based institutions. Students will be introduced to the concepts and tools of public sector management, planning and evaluation such theory of change, logic modeling, service blueprinting and performance rubrics. Over the course of the semester students will apply what they have learned to construct an organizational profile of their internship site that will serve to answer some of the following questions: How do leaders make decisions in the face of uncertainty, when action is required without adequate information? How do leaders measure performance to ensure that their programs and services are working? How do leaders involve diverse stakeholders and constituencies- with varying expectations and ideas- in co-creating, implementing and evaluating program strategy? To whom or what are public service leaders accountable? How do leaders of public sector organizations ensure the delivery of high quality, high impact services in the face of resource constraints? The requirements for this three-credit seminar include: 30 hours of internship service at a public service organization, weekly class meetings, readings and short reflection assignments

## INTL 31129 - Language and Power

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31129

**Course Title**  
Language and Power

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class examines the politics of language—how people use language as a political tool and how language can become the object of political struggle. Politicians, activists, citizens, journalists, diplomats, pundits, and celebrities all use language to pursue political goals. We will explore this use as well as the ways that language can itself become the topic of political concern, as in debates over what counts as hate speech or in struggles for the recognition of certain dialects as legitimate. The course is hybrid: half on-line and half in-class.

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31138

Course Title  
Rethinking US Foreign Aid Practicum

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course provides a bridge between the academics of US foreign aid and the practical world of development work on the ground. Students will build on the substantive and methodological knowledge they acquired during the first semester of this graduate program. The Professor will arrange with selected development professionals in USAID headquarters in Washington, D.C. to become clients with real world problems they want solved. Students will become consultants who will work with the clients to solve their problem. The first phase of the practicum will focus on defining the problem to be resolved and signing a Scope of Work (SOW) between the clients and consultants during student visits to USAID/Washington. The SOW will break down the work into manageable tasks that fully involve all team members and meet the needs of the client. During the second phase of the course teams of student consultants will conduct research at City College and research and interviews with Professional USAID staff in Washington, D.C. During the third and final phase of the course Practica team meetings will be held with the Professor and other student teams to informally review results, and make an oral presentation at a Colin Powell Practica Symposium. Each team will then return to Washington give a final oral presentation to their client and will present the client with their final written report. During classes students will meet with the Professor to review progress to date, to identify key issues and problems, and to seek guidance. During classes, the Colin Powell School will provide guidance sessions on how to be a consultant. This may include how to do professional research, how to make presentations, how to handle complicated data in research and presentations, how to get along with negative clients, how to prepare useful PowerPoints, how to modify final reports based on client suggestions, how to dress, how to carry out interviews and discussions, how to carry out evaluation, etc. Students registering for this class who were not in the Fall 2015 first stage of this course will do additional readings on international developed assigned by the Professor and prepare one page weekly summaries of the readings.

## INTL 31164 - Modern Israeli Culture

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31164

Course Title  
Modern Israeli Culture

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course approaches modern Israel as a case study in creating a new national culture in relation to ancient history and culture and a longstanding diaspora. It explores the evolution of Israeli culture between the 1930s to the 2000s from an interdisciplinary perspective, examining various aspects of Israeli life and distinct cultural forms. Probing the continuing tensions underlying a national culture of a society comprised of multiple ethnic, social, and religious minorities, we will look into recent changes in Israeli culture including the impact of consumerism and globalization, the return to the diasporic past and traditions, and the nostalgia toward early Israeli culture. Readings (in English), draw on historical, sociological, and anthropological studies as well as on literature, art, and film.

## INTL 31180 - Immigration and Refugee Movements

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31180

**Course Title**  
Immigration and Refugee Movements

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course covers the main issues, causes, and effects of mass population movements. It is a comparative study of selected recent and current immigrant and refugee groups, their origins, cultures, and current socioeconomic situations. It covers their strengths, challenges, and contributions to their new societies. The realities of particular class, ethnic, gender, generation, and political groups will be analyzed. Refugee and immigrant groups within communities of North America and other areas will be studied.

## INTL 31191 - Autoethnography: Cultural Analysis, Social Change, and Introspection

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31191

Course Title  
Autoethnography: Cultural Analysis, Social Change, and Introspection

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
How can researchers understand cultural change in society alongside their own experience in it? In this course, students will gain an understanding of autoethnography, anthropological research, writing, and storytelling that connects the autobiographical and personal to the cultural, social, and political (Ellis, 2004: xix). Students will learn how to develop their own authentic ethnographic perspectives while exploring the implications of societal change on them - finding their own voices through better understanding of the intersections between participant-observation and self-observation. They will gain a better understanding of their relationship to the cultural forces which are rapidly changing society (political campaigns, social movements like BLM, the COVID-19 Pandemic, etc.). This will be a highly interactive and collaborative course guided by writing assignments alongside cultural analyses of current events.

## INTL 31196 - When God was a Woman

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31196

Course Title  
When God was a Woman

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Long before humans adopted the belief in one male god, they worshipped many gods and goddesses. Throughout most of the world, for much of human history, the goddess reigned supreme. Even the early Israelites--the original monotheists-- worshipped the divine feminine for centuries. In this course, we will explore the saga of the goddess, from her ancient roots to her demise at the hands of the biblical prophets and scribes. We will consider how her legacy lives on today, from secrets hidden within the pages of the Bible to divine feminine echoes found in figures such as Mother Mary.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31210

Course Title  
Gender, Race, & Latinidad

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course will explore the concepts of identity and subjectivity as Latinidad. Topics will include post-colonialism and practices of resistance, transnationalism and migration, gender and sexuality, language and bilingualism, media representation and art production. Drawing on a variety of interdisciplinary sources we examine how racial definitions, gender and national belonging have historically and in recent times-- through critical world events-- intersected in the production and representation of Latinidad.

## INTL 31221 - Legacies of Inequalities: Understanding Divergent Socioeconomic Developments in the Americas

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31221

#### Course Title

Legacies of Inequalities: Understanding Divergent Socioeconomic Developments in the Americas

#### Department(s)

Anthropology and Interdisciplinary Programs

#### Description

Why have some countries in the Americas struggled economically while others have thrived? What has been the impact of European colonization, the decimation of the aboriginal populations, and the arrival of millions of enslaved African Black people? This socio-historical survey course contrasts the differential socioeconomic developments of Latin America, the Caribbean, and the U.S. using writings from Dominican sociologist Pedro Francisco Bonó, Peruvian economist José Carlos Mariátegui, Cuban humanist José Martí, Puerto Rican humanist Luis Llorens Torres, Argentinian economist Raul Prebisch, U.S. sociologist Immanuel Wallerstein, and other scholars. In addition, we delve into the influences of foundational, widely translated texts such as *Black Skin, White Masks* by Martinican psychologist Franz Fanon, *Pedagogy of the Oppressed* by Brazilian philosopher Paulo Freire, and *Open Veins of Latin America* by Uruguayan journalist Eduardo Galeano.

## INTL 31400 - A Cross-cultural Perspective

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31400

Course Title  
A Cross-cultural Perspective

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
The focus of this course is the cultural interaction among diverse groups in the world. Intercultural relations are examined through key themes such as religion and value systems, racial and ethnic relations, cultural identity, women's experience in different cultural settings, intercultural communication and forms of contemporary artistic expression. Students seeking a concentration in Culture and Communication, Comparative Civilizations, Area Studies and Education may substitute this course for the core course 20200: Comparative Political Economy.

## INTL 31603 - Global Game: Sports and Globalization

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31603

**Course Title**  
Global Game: Sports and Globalization

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course will discuss how sports exemplify most of the contemporary phenomena associated with globalization. The course will deal with these areas: sporting event; athletes as stars, migrants and guest workers; the distinction between professionals and amateurs; the politics of international sports organizations; the impact of mega events such as the Olympics on cities and the relation between sports and development. Students will learn to analyze sports as social phenomena that illuminate contemporary situations and problems in the international arena. This course will appeal to students interested in urban studies, contemporary debates about nationality, double citizenship and naturalization, North-South immigration, and issues of commodification and commercialization.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31606

Course Title  
Human Rights, Humanitarianism, and Identity

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class explores the ways in which the human rights framework produces, reproduces, and makes legible identities. Specifically, we will focus on themes such as race, gender/sexuality, and religion. Along the way, the class will examine the power dynamics that get formed between people and states and the ways in which various forms of identification are transformed by state policies and political practices, especially in postcolonial contexts.

## INTL 31703 - Global Histories of Capitalism

### Overview

Academic Institution

CTY01

Subject area

INTL

Catalog Number

31703

Course Title

Global Histories of Capitalism

Department(s)

Anthropology and Interdisciplinary Programs

Description

In this course, we will explore how people decide what they owe to each other, whether in the context of property, physical injuries, or fatal accidents. We will also examine how people determine who is authorized to engage in diplomatic agreements and to conduct economic exchanges. In studying how technologies for regimenting and inscribing difference shape social mobility and access to capital, we will consider how the individual profile functions as a credit profile as well as a forensic profile. We will ask if the same is true of nation-states, as we explore the role of patient profiles and health indices in measuring social standing.

### Overview

Academic Institution

CTY01

Subject area

INTL

Catalog Number

31704

Course Title

Politics and Society in the Middle East and North Africa

Department(s)

Anthropology and Interdisciplinary Programs

Description

This class introduces students to core topics in the study of the Middle East and North Africa: (post-) colonialism, modernity, nationalism, state formation, economic development, democratization, gender, religion, and the politics of daily life. Students will also examine the ways the region has been shaped by many waves of social movements, including nationalism, Marxism, feminism, and Islamism. The class introduces students to theoretical concepts and historical context for approaching the region in an informed manner and for reflecting on their own preconceived notions about the region.

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31705

**Course Title**  
Entering Europe/Exiting Europe: Brexit, Secession, and Other Issues

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course will take a look at contemporary issues in Europe, especially those that have to do with nationalism, secession, exiting Europe, among others. Even though we will give a historical background on 20thcentury Europe, the course focus will be contemporary. Some of the main issues discussed will be: BREXIT, secession movements in Catalonia and Scotland, accession process in Turkey, rise of xenophobic parties and movements, new nationalisms, among other. This course will appeal to student of nationalism, Europe, history, international relations.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31860

Course Title  
Braven Leadership Accelerator

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
The Braven Leadership Accelerator is a foundational course designed to begin preparing students to become leaders in an increasingly competitive, globalized career marketplace. Students examine how social constructs impact our notion of what leadership is, recognizing that the playing field in graduate school and the professional world is uneven. Knowing this, students define their own leadership by leveraging and highlighting their identity, values, strengths, talents and experiences via multiple formats of communication, networking, project-managing, and teamwork activities. This course is ideal for students who seek to attain a strong post-baccalaureate leadership opportunity, whether that be in graduate school or as they launch their professional careers. Undergraduates of all levels and majors can participate. There are no prerequisites to enroll in this

CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31916

**Course Title**  
Multilateral Responses to the Refugee Crisis

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This hybrid course combines classroom-based cognitive learning with experiential learning activities to examine multilateral actions taken by governmental and non-governmental global actors in response to the current refugee and migrant crisis. Capitalizing on CCNY's status as an NGO affiliated with the UN, students will attend meetings of UN bodies and agencies, advocate at global forums, and interact with other NGOs and nonprofits engaged in refugee work, from advocacy to resettlement.

CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31917

**Course Title**  
Sustainable Development and the Ecovillage Movement in Senegal

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
The three-week January Term course in "International Service Learning in Senegal: Sustainable Development and the Ecovillage Movement" is offered collaboratively by The City College of New York, in partnership with REDES (Network for Ecovillage Emergence and Development in the Sahel), the University of Cheikh Anta Diop in Dakar, Sustainable Neighbors Network, and other local and international NGOs. The course engages students in understanding and enhancing concepts of sustainable development in West Africa where ancient heritage and community values are still intact to a degree rarely found elsewhere. Students live with host families. The course also will offer field trips, other excursions, drumming and dance festivities and other leisure activities. The program starts and finishes in Dakar, the capital of Senegal, spending most of the session in the eco-commune of Bambey Serere and the other project sites near Dakar. In Bambey Serere, American and Senegalese student partners, form teams with community members working in various community projects. Over the course of the 3 weeks, students participate in several classroom sessions interspersed with participatory team-based guided practice in action-research and service learning, as each team work on their project, meeting needs expressed by the community. Senegalese students make this teamwork possible by translating between English and the local language for their American and community work partners.

## INTL 31918 - Anthropological Perspectives on U.S. Foreign Policy

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31918

Course Title  
Anthropological Perspectives on U.S. Foreign Policy

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course uses a range of anthropological perspectives to examine different topics in U.S. foreign policy during and after the Cold War. Topics include the nuclear missile crisis, the Vietnam War, the war in Afghanistan, the invasion of Iraq, the U.S. "war on terror," humanitarian interventions, and various interventions in Latin America. The class will both contextualize these topics and offer insight into how specific policies shape the lives of everyday people. The overall aim of the course is to explore the possibilities anthropology offers for understanding foreign policy from the ground-up.

## INTL 31919 - Rethinking Development

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31919

Course Title  
Rethinking Development

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course will introduce students to a range of perspectives on the discourses and practices of "development" in relation to issues of culture, gender, race, ethnicity, education, and politics. Three case studies will anchor the course. The first concerns China's ethnic minority theories and policies in the context of development practices in Yunnan Province, southwest China. The second focuses on the international development agenda, the development industry in Africa, and China's emerging presence on the African continent. The third case study addresses the political consequences of the fight against AIDS in Lesotho, southern Africa.

## INTL 31957 - Politics and Society in the Middle East

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31957

Course Title  
Politics and Society in the Middle East

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class introduces students to core topics in the study of the Middle East and North Africa (MENA): (post-) colonialism, modernity, nationalism, state formation, economic development, democratization, gender, religion, and the politics of daily life. Students will also examine the ways the region has been shaped by many waves of social movements, including nationalism, Marxism, feminism, and Islamism. The class introduces students to theoretical concepts and historical contexts for approaching the region in an informed manner and for reflecting on preconceived notions about the region.

## INTL 31961 - Environmental Inequality

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31961

Course Title  
Environmental Inequality

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course explores the relationship between humans and their environments, with an emphasis on issues of power and inequality. Not limiting our understanding of the environment to "nature", readings cover the environmental politics of workplaces and homes, cities and rural areas, and global issues such as climate change and infectious disease pandemics. The course centers decolonial, indigenous, critical race, and feminist perspectives on the environment, while engaging topics such as extractive economies, conservation, toxicity, and multispecies relations.

## INTL 31962 - Political Ecology, Development and Sustainability in Latin America Political Ecology, Development

### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31962

**Course Title**  
Political Ecology, Development and Sustainability in Latin America Political Ecology, Development

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This interdisciplinary course focuses on contemporary challenges to development and sustainability in Latin America. Grounded in political ecology (the interdisciplinary study of the relationships between people and the environment), the course draws on fundamental concepts and theories from anthropology, economics, history, sociology, geography, and political science, as well as interdisciplinary research in the areas of environmental justice, gender studies, development studies, environmental history, and action-based research. Using an historical and geographic (place-based) understanding of development and sustainability in Latin America, the course evaluates different possibilities for improving livelihoods and promoting more just and sustainable societies. Topics include access to land and natural resources, ethno-ecological practices, traditional knowledge and food production, environmental politics, deforestation, natural hazards and climate change, water governance and policy, and conservation and biodiversity.

## INTL 31963 - Professionalization in International Studies

### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31963

**Course Title**  
Professionalization in International Studies

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class offers a practical hands-on approach for addressing the main challenges faced by people who study International Studies when they try to enter the job market of international relations. It will provide an introduction to the main management practices, tools, and routines adopted by the institutions that populate the world of international relations, the skills that they seek in their analysts and specialists, and their recruitment processes. It will also focus on the conditions for successful job searches in the environment of international relations. The seminar will also include some meetings with professionals who work in the world of international relations. It will build the capacities of participants in relation to such tasks as analyzing a vacancy notice, writing motivation letters, writing resumes, completing written tests and preparing job interviews.'

## INTL 31964 - United Nations and Democracy Building

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31964

**Course Title**  
United Nations and Democracy Building

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class deals with the work of the United Nations system in support of democracy, through initiatives in the fields of electoral assistance, the promotion of gender equality, parliamentary support, the strengthening of civil society and citizens' engagement, human rights protection, education for democracy, constitution making, access to justice and the rule of law, and political participation through the consolidation of multi-party systems. The class will assess how the UN addresses democracy building within the three pillars of its work: peace & security, sustainable development and human rights. By analyzing case studies and by meeting with UN practitioners and experts, students will gain a first-hand knowledge of the main democracy-related policy issues emerging in current UN programs and policy fora.

## INTL 31965 - Decolonizing the Witch

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31965

**Course Title**  
Decolonizing the Witch

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
There is a current reclamation of the "witch" or the "bruja" as a source of socio-psychological resistance. The resurgence of Goddess-based ancestral practices across the world is a testament to a deep-seated need to transform existing oppressive structures. In this multidisciplinary course students will learn about the historical trajectory of the "witch" as a source of feminist and feminine political resistance. Moreover, the course's focus on critical race theory will center witches of color as a way to disrupt the potential white-centric cooptation of the present resurgence of the Bruja.

## INTL 31966 - United Nations and International Organizations

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31966

**Course Title**  
United Nations and International Organizations

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores the United Nations and other international, regional, and nongovernmental organizations within the context of the dynamics of world politics. It asks: why were these organizations created, how are they organized, and what they try accomplish? Addressing these questions, we will (a) look at the historical antecedents of modern global organizations and consider how various theoretical approaches explain their activities. We will (b) then analyze the structures and actions of states and international organizations, giving a specific attention to the role of the United Nations and the United States on a number of issues such as peace and security, humanitarian intervention, sanctions and nuclear proliferation. The third section (c) will delve into nongovernmental organizations including human rights, women's rights, development, climate change and, multinational corporations. How global organizations approach future challenges and how they may achieve global justice will be our continued interest. By the end of the semester, students should be familiar with the role and activities of international organizations as well as the analytical tools used to critically understand and analyze them.

## INTL 31968 - Media and Democracy

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31968

Course Title  
Media and Democracy

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Communication technologies are changing the way we think and see democracy and popular agency. This course will cover some of the main themes and concerns driven by today's changing media structure and landscape, including the proliferation of late-night shows as options for news information, the blending of fake and real news, the ability of citizens to become content producers (prosumers), and the role that social media play in exposure to information. This course will be specifically focused on the role of audience within the media landscape. We will seek possible answers to questions such as: How do people select and process different types of media content? What are the norms of political discussion that develop in these spheres? What are the opportunities for social movements and mobilizations to arise? How does the interaction between the media and the public affect democratic functioning?

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31970

Course Title  
Forced Migration and the Contemporary "Crisis" in Europe

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course will critically explore the contemporary debates in Europe on forced migration from an anthropological lens. We will approach the ideological construction of Europe through analyzing the relation of its (post-) colonial history to present discussions and policies related to migration, securitization, and citizenship. The themes we will cover include, but are not limited to, the "crisis", the refugee camp, borders, race, gender, and sexuality.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31972

Course Title  
Transportation Policy Around the World Transportation Policy Around t

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Transportation makes the world function: it's how goods get around, how we access opportunities, and meet friends and family. And it often determines when life can't function---and for whom. This course will provide an overview to transportation planning and policy-making, using case studies from the United States and around the world. Why does the NYC subway work (or not work) the way it does? How did bus routes in Colombia start to connect the rest of the world? How have Chinese cities been able to create full subway systems from scratch in just 15 years, while NYC's Second Avenue Subway languished for nearly a century? How does your Amazon delivery get to your door so quickly? What is the role of bicycles in an automated future? These are just a few of the questions this course will explore.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31977

Course Title  
Picturing Development

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
How do images--in photographs, paintings, film, and more--shape the way people think about international development? In this class, we will explore how visual materials both construct knowledge and raise ethical concerns. We will also examine the origins of visual anthropology, depictions of "exotic" peoples and places in publications such as National Geographic, tourist and travel photography, and the use of visual materials by international development NGOs. While primarily devoted to reading and writing about these issues, the course will also include a practical element, including experimenting with the creation of visual materials.

## INTL 31978 - Borders & Belonging in Europe

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31978

Course Title  
Borders & Belonging in Europe

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Borders are the ultimate markers of territorial sovereignty, separating “inside” from “outside”, and “us” from “them.” For centuries, they have been central to the articulation of space and identity in Europe. However, since the late 1990’s, borders in Europe have become not stable geopolitical lines, but practices that are dispersed across local, national, and transnational settings. This course investigates the power relations, political economy, and cultural logic of this European border regime, including the subjectivities it constitutes and the ways it is challenged.

## INTL 31979 - The Middle East in Global Affairs

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31979

Course Title  
The Middle East in Global Affairs

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course provides a critical understanding of changes in the Middle East within the context of global affairs. Major themes include the rise and expansion of Islam, the rise and fall of the Ottoman and Safavid Empires, the impact of colonialism and imperialism, anti-colonialism and nationalism, the emergence of the contemporary state system, the Palestinian-Israeli conflicts, the Iranian Revolution, Iraq wars, American sanctions, and the rise of the Islamic State (ISIS). It concludes by discussing the important events of today and offering insights into the chances for peace in the Middle East.

## INTL 31980 - Counterinsurgency and the Social Sciences

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31980

**Course Title**  
Counterinsurgency and the Social Sciences

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
According to the U.S. Army/Marine Corps Counterinsurgency Field Manual No. 3-24, published in 2007, "counterinsurgency is not just the thinking man's warfare it is the graduate level of war." Against this background, this course provides historical, cultural, and intellectual perspectives on counterinsurgencies. The focus is less on specific battles than on the following: the historical and geographical contexts of counterinsurgency; how its doctrine and practice have drawn on methods and concepts more traditionally associated with social sciences including anthropology; the ethical and political issues and debates this has raised within the discipline and academia generally; how media representations have worked to gain public approval for counterinsurgency campaigns; and how societies have dealt with their aftermath. Course materials include cultural, political economic, and historical approaches and focus on different eras and areas of the globe.

## INTL 31981 - Women and the Holocaust

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31981

**Course Title**  
Women and the Holocaust

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores topics related to women's experiences during the Holocaust from an interdisciplinary approach. Through the study of primary sources, online archives, literary texts, and artistic representations, students will gain a multifaceted perspective of this topic. This course aims to present the diverse experiences of women's lives in the ghettos, concentration camps, death camps, in hiding, and in resistance. Students will gain a broader understanding of the Holocaust and mass killings by learning about the first-hand experiences of Jewish, Roma-Sinti, and other "undesirable" women. The aim of this course is to address deeper questions of how the Third Reich, the war, and the Holocaust affected the lives of women differently from the lives of men.

## INTL 31982 - Jewish Literature under Latin American Dictatorships

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31982

Course Title  
Jewish Literature under Latin American Dictatorships

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course explores twentieth-century literature that deals with Jewish experience during and after military dictatorships in Argentina, Brazil, Chile, Guatemala, and Uruguay. Focusing specifically on works written by authors whose families were directly impacted by state-sanctioned violence, students will learn about issues of Jewish memory, representation of atrocity, and quest for justice. Students will examine writings about the historical and social-political aspects of Latin American dictatorships, and how these texts intertwine Holocaust memory and Jewish life and culture in Latin America. This course will take an interdisciplinary and comparative approach by examining Jewish responses to dictatorship in relation to those of contemporary black and indigenous writers in Latin America.

## INTL 31983 - Disaster Capitalism

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31983

Course Title  
Disaster Capitalism

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
When disasters happen, people come to help. However, such a relationship between calamity and care is not as simple as it may seem: When there is so much death and suffering in the world, what counts as a disaster? Who comes to help and why? And what are the effects of such help? In this course, we look at the complex ways that care during and after disasters mixes with money, social and historical inequalities, and neglect to profit some people at the expense of others. More broadly, we consider how capitalism is produced in the time, space, and "nature" of disasters.

## INTL 31984 - Human Rights in Latin America

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31984

Course Title  
Human Rights in Latin America

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course develops a critical perspective on human rights issues in Latin America, with a particular focus on how Cold War-era military dictatorships and other authoritarian mechanisms have created challenges that the young democracies of the region are now facing. Students will interrogate both political and corporate violence, learn how elite sectors of society benefit from that violence, and explore the ways that human rights movements have attempted to pursue justice and democracy in the region.?

## INTL 31985 - Reproductive Justice in Latin America

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31985

Course Title  
Reproductive Justice in Latin America

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores the movement for reproductive justice throughout Latin America since the 1970s, and focuses on the international and interregional cooperation among non-state actors to decriminalize abortion and end violence against women. Topics include reproductive rights versus reproductive justice, obstetric violence, 'la ola verde', and post-dictatorship political dynamics. Special emphasis is placed on engaging with the work of scholars and activists from the region.

## INTL 31996 - Gender and Politics Through Iranian Cinema

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31996

**Course Title**  
Gender and Politics Through Iranian Cinema

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Many have little knowledge about Iran of over 80 million women and men, its culture and political dynamism and its more 3000 years of history and civilization. Unlike other Middle Eastern countries, Iran has never been colonized, although political challenges often have disrupted lives. How women have responded to these challenges and how women's lives are intersected with politics and political economy is the central focus of this course through cinema and cultural productions.

## INTL 31997 - Politics of Sex & Gender

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	31997

**Course Title**  
Politics of Sex & Gender

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
What is the relation between the categories of identification we know as "sex" and "gender"? Can the relation be effectively explained in terms of the natural-cultural, or biological-social divisions we generally use as explanation? This course will not only address these questions, but it will also explore how the classification "sex/gender" is sustained by, and deployed for, political motivations, and how it results in specific meanings and uses.

## INTL 31998 - Biopolitics: Meanings and Effects

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31998

Course Title  
Biopolitics: Meanings and Effects

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
In this course, we will analyze the significance of the notion of “biopolitics”--a label that refers to the institutional “administration of life” and aims to articulate the way political power translates into governmental efforts to control and regulate what populations can and should do with their bodies. We will consider the place of biopolitics within the broader genealogy of political thought and interrogate the theoretical and practical basis of its emergence and proliferation.

## INTL 31999 - Muslims & Jews in Morocco

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	31999

Course Title  
Muslims & Jews in Morocco

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
There has been a flourishing Jewish presence in Morocco for at least two millennia. Just ten years ago the Moroccan government updated its constitution to proclaim that Jewish tradition is a core element in its national heritage. And just a few months ago the Moroccan government went further, announcing that it is adding Jewish history and culture to the school curriculum. This course will be an introduction to how Jews and Muslims have lived and interacted together in recent times using Morocco as a case study. Much of the material in this course will be based on current survey research carried out by CCNY faculty on the ground in Casablanca and Marrakech.

## INTL 32100 - Senior Seminar in International Studies

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	32100

Course Title  
Senior Seminar in International Studies

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This seminar is the capstone of the International Studies major. It brings to bear on one or more major international or global problems the approaches and insights of the several disciplines that comprise the major. The course consists of a community-based research project, which emphasizes the five primary learning competencies required of all INTL students (but in an applied, small group context). This seminar requires students to develop a professional portfolio of their knowledge and skills, which is to be presented as the final graduation requirement.

## INTL 32101 - International Human Rights Law: Theory and Practice

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
INTL	32101

Course Title  
International Human Rights Law: Theory and Practice

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course aims to explore key concepts, approaches and norms which guide the work of human rights lawyers and advocates for vulnerable groups around the world. Through case studies, we critically examine how human rights narratives are mobilized in international courts and United Nations treaty bodies. Particular attention is paid to the role of civil society and marginalized groups in shaping the law and the limits of legal discourse to bring about social justice. THIS CLASS COUNTS AS SENIOR SEMINAR (INTL 32100) FOR INTERNATIONAL STUDIES MAJORS.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	32500

**Course Title**  
Professionalization in International Studies

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This class offers a practical hands-on approach for addressing the main challenges faced by people who study International Studies when they try to enter the job market of international relations. It will provide an introduction to the main management practices, tools, and routines adopted by the institutions that populate the world of international relations, the skills that they seek in their analysts and specialists, and their recruitment processes. It will also focus on the conditions for successful job searches in the environment of international relations. The seminar will also include some meetings with professionals who work in the world of international relations. It will build the capacities of participants in relation to such tasks as analyzing a vacancy notice, writing motivation letters, writing resumes, completing written tests and preparing job interviews.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
INTL	32560

**Course Title**  
Food and Farming

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course introduces students to the history and historiography of food and farming, including the role of agricultural producers in advanced and pre-industrial societies. Central are the historical trajectories certain foodstuffs have taken--why they are produced and where, how they have been integrated into socio-economic and cultural environments, and how culture, politics and policies affected and are affected by them. Our focus will be on the European experience liberally construed and in comparison. Sources draw from classic economic and peasant studies, latter commodity studies and monographs, reports, and archives.

Anthropology and Interdisciplinary Programs

Description  
How do people find assistance with major life challenges? Can a society overcome inequality? This course considers the solutions developed by Latin American nations, comparing these to the US welfare state. We study social programs and helping relationships in Latin America and the US, and we think about how to be of service across borders

## LALS 28000 - Latin American progress? Ethnographies of economic growth and technology.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	28000

Course Title  
Latin American progress? Ethnographies of economic growth and technology.

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Why do some nations get rich very quickly—and then get poor again? And what does it mean to say that a nation is rich or poor? These questions have special importance in Latin America, where people have lived through five hundred years of economic booms and busts. In this class, we ask fundamental questions about Latin American economic life—which turn out to be fundamental questions about economic growth itself. What is GDP? Does economic growth make people happier? Is technology the secret to more growth? Our primary texts are ethnographies – the stories of people who are living through growth – but we also read works of economists and other thinkers. We consider the economic effects of Latin American conquest, enslavement, liberalism, ISI, and export-oriented models. We engage with ecological approaches, feminist critiques, the happiness paradox, and de-growth. We try to think carefully about the possible roads toward a better world economy.

## LALS 29101 - Latinx and Radical Queerness of Color

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
LALS	29101

**Course Title**  
Latinx and Radical Queerness of Color

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores how Latin American and Caribbean queer diasporic cultures have assimilated, challenged, influenced, deconstructed, and/or transformed gender and sexual categories. We will review a constellation of case studies such as the San Francisco Gay Latino Alliance, the Young Lord Movement, the queer subversion in Mexican Chican@ art activism, and Latinx support for rights movements in the Trump era. To this end, Latinx and Radical Queerness reviews critical theoretical selections, monographs, fictional accounts, visual art, and oral history.

## LALS 29300 - Education, Technology, and the Future Pedagogy of Latino/a/x Students.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	29300

Course Title  
Education, Technology, and the Future Pedagogy of Latino/a/x Students.

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course explores three main questions involved in the education of Latino/a/x and other nonwhite youths in the US; namely, (1) how do immigration and technological innovation affect the education of students within majority-minority schools in the U.S.? 2) How does the emergence of new technological innovations affect the development of pedagogical practices for teachers and administrators within these schools? and 3) what is the role of technology in both the creation of new forms of educational pedagogies, future careers and opportunities as well as new forms of less overt inequality, exclusion and racialization in schools concentrating Latino/a/x youth and historically racialized students? The course will draw on interdisciplinary theories within Latino/a/x Studies, De-colonization theories; Critical Pedagogies, Racialization, Intercultural education, Immigration, Inequality and Social Mobility, to examine the role of education and technology in the emergence of new forms of pedagogies, inequality as well as opportunities for social mobility among historically excluded school youths.

CTY01

Subject area	Catalog Number
LALS	29500

Course Title  
Brown Lives Matters: The Long History of Police Violence against Latino/a/x People

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course examines three main social processes in the history of oppression and violence as well as resistance Latino/a/x People in the US: namely, (1) how national and local organizations -such as the immigration apparatus, law enforcement agencies, the criminal justice system, and the Media - have historically criminalized Latino/a/x communities; (2) how processes of racialization - and the conflation of structural and cultural characteristics to specific groups - have been historically used to manufacture recognizable social forms of identities to justify the criminalization, detention, killing, search, surveillance, and sterilization of brown and black bodies; and (3) the ways in which Latino/a/x communities have organized to contest these practices and ideologies. To examine these historical dynamics, this course review theories of policing, power, oppression and resistance case studies, and peer review articles.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	29607

Course Title  
Undocumented, Unafraid, Unashamed: The Power of the Immigrant Youth Movement

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This class will explore how undocumented young people organized themselves, built a movement, disrupted immigration politics, and won policy change that changed the lives of thousands of people. The class is designed to look at the origins of the movement, the political conditions that shaped it, and the social justice movement lineages that inspired its leaders. With immigrant and refugee communities facing greater attacks and scapegoating this class will also explore the movement's present strategies and its future.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31102

Course Title  
Magic, Spirits, and Religion in the Caribbean

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course will examine the history and role of the diverse religious components of the Caribbean, with a particular emphasis on the emergence and development of African Creole religions, belief systems and practices such as Santeria, Espiritismo, Vodou and Candomblé. This exploration of Caribbean magic, spirits, and religions will engage the intercultural and interreligious conflicts and convergences that occurred throughout the Caribbean from the colonial to the post-colonial periods. We will focus on themes that pervade Caribbean religion, such as race, kinship, exile, diaspora, ritual and resistance. Some areas for consideration are: the power of African Creole religions in the Caribbean socio-political sphere, music as a subversive space, the place of animal sacrifice in religious ritual, and the transformation of racial identity based on religious affiliation

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31103

Course Title  
Decolonizing Dominican Identity

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course approaches decolonialization through the lens of Dominican Identity from the perspectives of anthropology, sociology, cultural, historical, philosophical, and literary studies. The course explores how (de)colonial identities, whether of individuals or groups, are produced, maintained, and transformed. Students will be introduced to various theoretical perspectives and empirically grounded data that deal with identity formation, nationalism, postcoloniality, and decolonization. We will explore the utility of these perspectives for understanding identity components such as gender, sexual orientation, race, ethnicity, religion, language, social class, and bodily difference. By semester's end, students will understand better how an individual can be at once cause and consequence of history and society, a unique agent of social action as well as a social product.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31118

Course Title  
Racialization: Single Mothers, Sexual and Religious Minorities

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course offers an introduction to the study of minority and majority group relations in the United States with a comparative focus drawing from examples in Latin America and Europe. We examine the historical factors that have led to the creation of a white majority and a black minority in America and other national contexts; how a minority or majority status is created and internalized by individuals and their youth. We pay close attention to how increasing economic and wealth inequality, globalization and immigration affects the formation of new, minority groups and statuses drawing on the example of growing share of working poor or 'missing class' individuals in America; the life chances of the undocumented, and those of single migrant mothers, religious minorities such as Muslim youth and the networks of sexual minorities that help them integrate in society and cope with glaring discrimination and exclusion. Students will be able to engage in informed debates about how increases in family, ethnic, racial and sexual diversity in the US and other nations will help close the historical divides between white and black groups in America. They will also master new knowledge on how race and racialization processes take place in Latin America or in nations such as Brazil and the Dominican Republic where efforts have been made to alleviate racial inequality and tensions, but where blacks and mulattoes have historically make up the majority of the poor and whites and light-skin people still make up the ruling elite.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31136

Course Title  
Migration, Gender and Health in Latinx Communities

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Through an interdisciplinary feminist approach, this course explores how women, men, and youth experience health problems related to migration and social inequality. We will place health risks within a transnational context, examining the socio-economic, political, and cultural influences on particular social problems and health outcomes and critique the political discourse on health and how they construct racialized, sexualized others. We examine health promotion and other programs that aim to design culturally sensitive interventions about health problems by migrants and how communities and individuals work toward alleviating their own health risks. Some familiarity with Spanish is helpful.

## LALS 31140 - Social Justice and Latinx Communities

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31140

Course Title  
Social Justice and Latinx Communities

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
What is social justice? What does social justice (and injustice) mean in the context of a diverse, global city like New York? We will address these questions by examining how our ideas about justice and injustice measure up against the everyday experiences of people from different social groups in urban contexts from the U.S. and around the world. The course will provide a survey of classic and contemporary ethnographies of urban life (qualitative case studies relying primarily on observation), with an emphasis on relationships of power, privilege, and inequality, and a special focus on Latinx communities and the immigrant experience.

## LALS 31165 - The-Afro Latina/o/x Literature

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
LALS	31165

**Course Title**  
The-Afro Latina/o/x Literature

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course is an examination of AfroLatina/o Literature. We will look closely at the immense contributions of Black Latina/o writers throughout the hemisphere. The course is organized around readings that have been central to the development of Afro Latin@/x Literature: poetry, prose, fiction, memoir, literary criticism, plays, solo performance art and spoken word. We will also examine primary documents such as speeches, diaries, letters, narratives and testimonios, as well as other ethnographic materials. Through close reading, core lectures and dialectical discussion we will survey the literary universe of AfroLatina/os and intersections of gender, Blackness, sexuality, class, Latinidad, and queerness. The goal of the course is to contribute to the development of literary appreciation and a confident and coherent understanding of major currents and themes in Afro Latin@/x Literature and to encourage further study, and promote future cultural and literary production. The course is a writing intensive, designed to elevate the ability to translate and synthesize ideas in writing, both academically and creatively and to provide a "brave space" (to borrow a term coined by bell hooks) where creative writers can experiment and grow in the craft of writing. Students will be assigned critical papers, creative projects and will do in-class workshop writing

## LALS 31168 - Latino/a/x Politics: Dominicans in the U.S. and in the D.R

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
LALS	31168

**Course Title**  
Latino/a/x Politics: Dominicans in the U.S. and in the D.R

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
\*Description:"Latinx Politics: Dominicans in the U.S. and DR" The surge of immigration from Latin America and the Spanish Caribbean over the past fifty years has had profound consequences on electoral politics in the U.S. On the one hand, people of Latin American and the Spanish Caribbean, are increasingly becoming American citizens, growing their share of all eligible voters in the U.S., and electing people of their own to office in the U.S. On the other hand, Latino/a/x voters often hold double citizenship and are increasingly participating in electoral politics in their (or their family's) country of origin. The class will examine the electoral behavior of people of Dominican descent both in the U.S. and in the Dominican Republic. The course will examine the issues they care about and partisanship within both in the U.S. and in the sending society. How do they participate in both, in the U.S. and in their ancestral land politics? How do their interests match or not in these societies? What kind of candidates attract them? The class will seek to provide answer to these and other questions during the semester.

## LALS 31176 - Cuban & Afro-Caribbean Cultures: Gender, Power, and Race

### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
LALS	31176

**Course Title**  
Cuban & Afro-Caribbean Cultures: Gender, Power, and Race

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
With a focus on the intersection of gender, power, and race as essential dimensions of cultural and societal experience, this interdisciplinary course explores the cultural, historical, and social aspects of Cuba and other Afro-Caribbean societies. The course begins with the historical roots of Cuban and Afro-Caribbean cultures, exploring the impact of colonialism, slavery, racial discrimination, and independence on the region and how cultural traditions have been used to resist and challenge these forces. Topics include the impact of revolutionary movements, the role of the state in shaping artistic expression, the influence of political ideologies on the cultural landscape of these spaces, and how broader historical and political events have influenced these cultural experiences. Students will engage with various sources, including historical documents, social science studies, literature, music, film, and visual art. Designed for students interested in interdisciplinary approaches to studying culture, history, and society, as well as students interested in Latin America and the Caribbean, gender and women's studies, African diaspora studies, and cultural anthropology, the course will challenge students to think critically about how gender, power, and race intersect in shaping cultural experiences and to develop their analytical and interpretive skills.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31179

Course Title  
Between El Barrio and the Academic: The Struggle for the Academic Space

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Between El Barrio and the Academic: The Struggle for the Academic Space examines how public education has been historically used to assimilate Latin American diasporas to mainstream America culture, and how, in response, educators from different intellectual traditions have resisted these neocolonial and homogenizing impulses. To chronicle the class between assimilationist and anti-assimilationist forces, *Between El Barrio and the Academic* reviews the passing of critical legislation such as the Arizona's 2010 Ban on Ethnic Studies (HB 2281), as well as the work of Chican@ and Mexican American activists, Latinx intellectuals, and postcolonial educators and artists.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31201

Course Title  
Language, Race, and Society in Latinx Communities

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
In this course we will reflect on the role of language in the construction of identity of Latinx in the United States. We will discuss how Spanish is used as a subordinate language in the US, and how this affects the ways in which Latinx see themselves and are discriminated and marginalized. Based on the concepts of race, identity, and symbolic capital, and the use of 'glottopolitics,' the politics of language, we will analyze how language is not only a means an instrument of power over a minoritized group but also how Latinx use language to resist discrimination and empower themselves. ¿

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	31202

Course Title  
Masculinity and Latinidad: Redefining Masculinities in the U.S.

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
The concept of hegemonic masculinity has been used to explain societal behaviors in terms of men's power over women. In this course, we will analyze the connection to the marginalization of Latinx communities in mainstream U.S. culture, and the way stereotypical cultural attitudes are too easily attributed to machismo and stagnant characterizations of Latinx men, i.e., behaviors that conform to racist expectations of men of color. We will also explore how Latinx men break with tradition in the arts, literature, and popular culture.

Course Title  
Power, Resistance, and Popular Protest: Social Movements in Latin American

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course explores several key social movements that during the last decades have shocked the political, economic, and social foundations of countries such as Argentina, Bolivia, Brazil, Chile, and Mexico. Using social movements theories, this course delves into the roots, development, and implications of popular mobilization to resist neoliberalism and global capitalism.

CTY01

<b>Subject area</b>	<b>Catalog Number</b>
LALS	31313

**Course Title**  
Caribbean Sexualities: Power and Privilege

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course examines Caribbean sexualities—identity, desire, interaction, and structure—with a particular emphasis on the Spanish Caribbean, allowing students to explore themes useful for them in developing a broad comparative perspective on the region. The course takes as a fundamental premise that since the first moments of “contact” with Europeans, the insertion of the Caribbean into the global economy has been crucially marked by relations of inequality. This inequality is negotiated through the representation and commoditization of bodies and desires. The readings and discussions will focus on finding ways to account for the agency of Caribbean peoples while remaining aware of the power dynamics within which their bodies become legible within and outside of the region.

Course Title  
Brown Lives Matters: Racialization, Police Violence and the US Latino/a/x Community

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course examines three main social processes: (1) how national and local organizations -such as the immigration apparatus, law enforcement agencies, the criminal justice system, and the Media have historically criminalized Latinx communities; (2) how processes of racialization have been used to manufacture and target specific social groups and identities to justify the killing, detention, search, surveillance, and sterilization of black and brown bodies; and (3) the ways in which Latino/a//x communities have organized to contest these forms of oppressions, ideologies and practices. To examine these historical dynamics, this course review theories of policing, power, oppression and resistance case studies, and peer review articles

Academic Institution  
CTY01

Subject area Catalog Number  
LALS 31957

Course Title  
Latin American Cultures of Music, Literature, and Film

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course examines sociocultural and political dimensions of contemporary Latin America by tracing a history of power struggles through the lenses of music, literature, and film. We will explore some of the most important historical events that from the colonial encounter to the present have shaped the region as a geopolitical entity--e.g. the independence movements, the emergence of neocolonial regimes, revolutionary movements, the mass violence of the long Cold War, and the ongoing neoliberal restructuring of economics, politics, and society. Throughout, we will examine these events by focusing on diverse cultural expressions of music, literature, and film.

### Overview

Academic Institution

CTY01

Subject area

LALS

Catalog Number

31962

Course Title

Political Ecology, Development and Sustainability in Latin America Political Ecology, Development

Department(s)

Anthropology and Interdisciplinary Programs

Description

This interdisciplinary course focuses on contemporary challenges to development and sustainability in Latin America. Grounded in political ecology (the interdisciplinary study of the relationships between people and the environment), the course draws on fundamental concepts and theories from anthropology, economics, history, sociology, geography, and political science, as well as interdisciplinary research in the areas of environmental justice, gender studies, development studies, environmental history, and action-based research. Using an historical and geographic (place-based) understanding of development and sustainability in Latin America, the course evaluates different possibilities for improving livelihoods and promoting more just and sustainable societies. Topics include access to land and natural resources, ethno-ecological practices, traditional knowledge and food production, environmental politics, deforestation, natural hazards and climate change, water governance and policy, and conservation and biodiversity.

## LALS 32001 - Human Rights in Latin America

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	32001

Course Title  
Human Rights in Latin America

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course develops a critical perspective on human rights issues in Latin America, with a particular focus on how Cold War-era military dictatorships and other authoritarian mechanisms have created challenges that the young democracies of the region are now facing. Students will interrogate both political and corporate violence, learn how elite sectors of society benefit from that violence, and explore the ways that human rights movements have attempted to pursue justice and democracy in the region.?

## LALS 40100 - Selected Topics in Luso-Brazilian Literatures and Cultures

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
LALS	40100

Course Title  
Selected Topics in Luso-Brazilian Literatures and Cultures

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Offers an overview of the development of Luso-Brazilian literature from its origins to contemporary times. Includes a study of the social, cultural, and political developments of Brazil and Portugal. The study of literature written in Portuguese acquaints students with the influential role played by Portugal during the Age of Discovery. It deepens the students' appreciation and enjoyment of fine literature in Portuguese through reading selections by leading authors. Studies the contribution of Native, Iberian and African cultures, the development of the arts, the impact of revolutionary movements, and the place of minorities today.

## WS 24563 - Women's Lives in Global Crisis

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	24563

**Course Title**  
Women's Lives in Global Crisis

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course will examine the roles women are expected to embody during times of societal stress and conflict versus the actual roles they inhabit. This exploration will be enhanced by the course's multimedia approach which allows us to see the shared commonalities and threads of resistance and affirmation that occur across political, cultural, and global spheres. Poetry, plays, novels, and memoir will be used alongside peer reviewed articles, historical accounts, and both documentary and narrative film. Global Crisis is defined, for this course, as violence - both traditional state waged war and communal conflict, migration - forced and ?voluntary?, environmental crisis, genocide, human rights violations, and political repression/upheaval/etc. Women often simultaneously embody roles of resistance to and in support of societal needs, forging new identities along the way. The study of what appears to be a contradiction leads to a more nuanced understanding of the intersection of power and the lived realities of women. This exploration affords an opportunity to expand ideas around what it means to be a woman living in times of crisis. Importantly, it demands we address what the larger societal implications and benefits are when we consider women's voices in working to address and remedy crisis and conflict.

Catalog Number

25441

Course Title

Gender and Sexuality in NY Politics

Department(s)

Anthropology and Interdisciplinary Programs

Description

In recent years, several new policies, political figures, and organizing efforts focused on women and LGBTQ communities have sprouted across New York. While New York City failed to elect its first female Mayor in 2021, it did elect a majority-women City Council. Governor Cuomo resigned in disgrace, elevating his Lieutenant Governor Kathy Hochul to the state's highest post. What difference, if any, has this representation made? The state repealed a "walking while trans" ban that advocates argued led to discrimination against the LGBTQ community. How did they win this fight, and what has happened since? What are communities and organizers fighting for now? This class will look at these questions and more to understand the roles women and LGBTQ New Yorkers currently hold in our political landscape. It will evaluate how mainstream issues like housing, environmental justice, and labor affect women and queer people, and will dive into the policy issues specific to these communities.

The Enslavement of Women: The relevance of the past

Department(s)

Anthropology and Interdisciplinary Programs

Description

The Enslavement of Women: the relevance of the past! For over 400 years, the barbaric institution of slavery and its legacies of forced and bonded labor, trafficking, racism, and discrimination has impounded and impacted black people, especially black women. This course will look at the history of generational harm and systemic chains of the enslavement of women through a modern-day lens.

**Course Title**  
Language and Gender

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course explores how language, gender, sexuality, power and identity are interwoven. Drawing on linguistic anthropology, critical sociolinguistics, feminist and queer theories, and ethnographic case studies, we'll focus on topics such as gender identity, performativity and language use, ideologies of gender and language, sexual orientation, and processes of nationalism and globalization that are interwoven with gender and sexuality. The course will take an intersectional approach to all these topics, with a particular focus on intersectionality and Black feminism in week 11. The aim of this course is to think, reflect, and learn about ourselves as socio-historical and cultural beings permeated by linguistic interactions that reinforce and/or resist gender normativity.???

## WS 30786 - Gender and Religion in the Black Atlantic

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	30786

**Course Title**  
Gender and Religion in the Black Atlantic

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course examines the role and place of religion in the formation of Black Atlantic communities. From the 15th century to the contemporary period, we will look at the religious experiences of Africans and Afro-descendants in the Atlantic world (West and West-Central Africa, Europe, and the Americas). We will consider how the historical legacy of racism, slavery, patriarchy, colonialism, and imperialism, as well as Black agency, resistance, and ingenuity, has set the contours for defining and characterizing Black religions across time, space, and geographies. The course offers explorations of distinct traditions such as Orisha-Ifa (Yoruba), Vodun (Fon) or Vodou, Palo (Bakongo), Obeah, Hoodoo, Afro-Catholicism, Afro-Protestantism, Islam, and Espiritismo to inform us of the centrality of Black worship and religiosity in the study of Black Atlantic social, cultural, political, and intellectual history and contemporary life.

## WS 31005 - Guerilla Feminism and War by Counter-Narrative

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31005

Course Title  
Guerilla Feminism and War by Counter-Narrative

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
The constrictions imposed by whiteness on ideas of women and women's empowerment are by now routine subjects of critique and discussion. There is however little effort in pedagogy to place the "other" woman at the center of discussions of empowerment and develop subversive counter narratives that intentionally dis-locate whiteness. I envision this course as an exercise in just this sort of activist feminist inversion; one that centers on critiquing the omniscience of white feminist voices and developing individual narratives that counter them. Divided into four or five components, course discussions will focus on how white womens' voices dominate discussions of a) war reporting b) travel c) illness d) sexual awakening e) human rights and f) work. The workshop component of this course will focus on developing guerilla counter-narratives in each of these realms with students working on writing their own experiences and developing them for publication. Beyond discussing how structural forces prevent the proliferation of these narratives we will discuss strategies that can be deployed to push more of these stories into the public realm and how this push represents the doing aspect of an active and engaged guerilla feminism. Class discussions will also work on constructing a genealogy for guerilla feminism via the works of other anti-imperialist and radical feminists of color. Guest speakers who have engaged in activism around each of these realms of feminist experience will provide further insight into how these strategies of guerilla feminist counter narratives can be deployed.

WS	31006

Course Title  
The Female Fighter: Understanding Gender & Violence

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This seminar is designed to produce critical thinking and analytical writing on the intersections of Gender & Violence. The increased presence of women in groups like the Kurdistan Worker's Party (PKK) and the Islamic State, as well as the expanded role of women in the United States military raises new questions about women's political agency, both on, and off, the battlefield.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31012

Course Title  
LGBTQ History, Culture and Movements

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course traces the history of LGBTQ people as well as struggles for recognition and acceptance both in the US and globally. With attention to how sexual identity intersects with race, class and gender, the course will examine how LGBTQ people can be placed within historical and political contexts. We will question how and why homosexuality became criminalized and the movements that led to decriminalization. We will spend a significant portion of time on the USA and Western Europe in the 19th and 20th century and the development of a contemporary LGBTQ movement. We will also look at how people of various gender identities and sexualities lived before and outside of European colonial context and explore how European colonization influenced changes in perception of people with gender variant identities as well as people outside of heteronormative sexual practices in their local communities.

## WS 31013 - Disaster Capitalism and Creative Community Resistance

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31013

Course Title  
Disaster Capitalism and Creative Community Resistance

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
“Disasters” often have their roots in miscalculations or mismanagement of governments (or banks), the exploitation of the planet, or the mistreatment of impoverished communities. In a disaster’s aftermath long standing social inequalities highlight how the greatest burden of recovery rests disproportionately on poor communities of color. “Disaster capitalism” is a practice of taking advantage of social and economic instability to centralize policies that under “normal” times communities—what is known as the “State of Exception”—would cause concern. This course will explore the role of states and societies living through natural and human-made disasters. We will draw on insights from global and local communities that have survived disasters and are resisting historical and economic trauma. We will focus in on the creative activism of colonized, racialized, sexually marginalized and displaced peoples.

## WS 31117 - Performing Queerness

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	31117

**Course Title**  
Performing Queerness

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Performing Queerness course will examine how we develop and question different meanings around queer bodies through performance practices in everyday life and on stage. We will analyze how queer identities are regulated, reinforced, recreated, and subverted through embodied modes of performance. Some of the questions we will discuss are: What is queer performance? Is queer performance a matter of identity or aesthetics? Spatial and temporal influences on our understanding of queer performance? Does queer necessarily mean radical? What are some examples of international queer performance? Does queer performance change based on a culture or is there a shared sense of what it is? What is the connection between queerness and globalization? In countries with high levels of homophobia queerness is often seen as a Western import – how much are artists contributing to cultural colonialism? Does audience affect our understanding of the performance? What is the relationship between class and performance? What is the connection between the gender identity in performance and queerness? We will look at a brief history of LGBTQ performance and its current connection to mass media. We will look at a variety of performances – in mass media, through social networks as well as live performances – theater, drag, burlesque, poetry and more.

## WS 31121 - Racialization: Single Mothers, Sexual and Religious Minorities

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31121

Course Title  
Racialization: Single Mothers, Sexual and Religious Minorities

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course offers an introduction to the study of minority and majority group relations in the United States with a comparative focus drawing from examples in Latin America and Europe. We examine the historical factors that have led to the creation of a white majority and a black minority in America and other national contexts; how a minority or majority status is created and internalized by individuals and their youth. We pay close attention to how increasing economic and wealth inequality, globalization and immigration affects the formation of new, minority groups and statuses drawing on the example of growing share of working poor or "missing class" individuals in America; the life chances of the undocumented, and those of single migrant mothers, religious minorities such as Muslim youth and the networks of sexual minorities that help them integrate in society and cope with glaring discrimination and exclusion. Students will be able to engage in informed debates about how increases in family, ethnic, racial and sexual diversity in the US and other nations will help close the historical divides between white and black groups in America. They will also master new knowledge on how race and racialization processes take place in Latin America or in nations such as Brazil and the Dominican Republic where efforts have been made to alleviate racial inequality and tensions, but where blacks and mulattoes have historically make up the majority of the poor and whites and light-skin people still make up the ruling elite.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31126

Course Title  
Women Writing Culture

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
This course seeks to place feminist research and women's writing center stage. We will explore through theory and practice how, for whom, and to what end cultural representations have been presented in written form. We will interrogate the processes behind producing ethnographic and other nonfiction writing, looking at methods, as well as ethical considerations. Guided by recent decolonial feminist scholarship and queer of color critique, our aim will be to build on a variety of anti-oppressive methodologies such as research-based performed ethnographies, digital storytelling, and other forms.

## WS 31129 - Queer of Color Critique towards Utopia

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31129

Course Title  
Queer of Color Critique towards Utopia

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
In What's Queer About Queer Studies, editors say that queerness can never be presumed in advance. Queerness is not a cohere term, rather they would say, it is always in flux, reinventing itself as a process and identity. In this course, we will examine this assertion and ask, who is queer? Why are they queer? When are they queer? Beginning with Cathy Cohen and Roderick Furgeson we will learn the connections between the process of racialization and queerness. We will then move to theorists such as Jasbir Puar who examines the relationship between the Racial State and queerness. Finally, we will interrogate the relationship queer studies, and queer of color critique has with antiblackness and settler colonialism. We will end this course drawing on Jose Munoz's theories on utopia in order to discuss the future of queer theory and its usefulness in the project of abolition, and in reimagining the world as we know it.

## WS 31130 - Out of the Closets, Into the Streets: LGBTQ+ Activism in U.S. History

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	31130

**Course Title**  
Out of the Closets, Into the Streets: LGBTQ+ Activism in U.S. History

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course will focus on the history of lesbian, gay, bisexual, transgender, and queer (LGBTQ+) social movements in the U.S. We will examine why the movement emerged in the middle of the 20th century and track the changing goals and strategies activists adopted over time. We will pay close attention to persistent conflicts over issues like revolution vs. reform; coalition vs. single-issue politics; difference vs. assimilation; and grassroots vs. professional organizations. Finally, we will look at the connection between LGBTQ+ movements and other movements on the left and right. In particular, we will trace the LGBTQ+ movement's relationship with movements for racial, gender, and economic justice as well as the ways LGBTQ+ activism shaped and was shaped by anti-gay and anti-feminist movements. We will end by thinking about the future of LGBTQ+ movements in our current moment of backlash.

<b>Subject area</b>	<b>Catalog Number</b>
WS	31191

**Course Title**  
Autoethnography: Cultural Analysis, Social Change, and Introspection

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
How can researchers understand cultural change in society alongside their own experience in it? In this course, students will gain an understanding of autoethnography, anthropological research, writing, and storytelling that connects the autobiographical and personal to the cultural, social, and political (Ellis, 2004: xix). Students will learn how to develop their own authentic ethnographic perspectives while exploring the implications of societal change on them - finding their own voices through better understanding of the intersections between participant-observation and self-observation. They will gain a better understanding of their relationship to the cultural forces which are rapidly changing society (political campaigns, social movements like BLM, the COVID-19 Pandemic, etc.). This will be a highly interactive and collaborative course guided by writing assignments alongside cultural analyses of current events.

## WS 31210 - Order in the Courtroom: Law and Narrative Power

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	31210

**Course Title**  
Order in the Courtroom: Law and Narrative Power

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Whose story is Adjudicator Collins telling here? Would Samuel Jonathan Ramirez Perez, the detainee, tell the story different? How about the passengers? The pilot? If this were enacted as play or film, who would play the part of Canada? "Narrative is radical," said Toni Morrison when accepting her Nobel Prize for Literature in 1993, "creating us at the very moment it is being created." Three years later, James Baldwin wrote: "The law is meant to be my servant and not my master, still less my torturer and my murderer." Courtrooms are often portrayed as uniquely powerful places for disenfranchised individuals and peoples to "tell their story." In this course, we will consider how law, legal venues, and legal workers are represented in literary and cultural texts. We will also examine how we can read critical and literary theory into legal analysis. This course aims to further a social justice politic by helping us think through the law, to see both the stories it tells and the stories it hides.

WS	31256

Course Title  
Masculinity and Latinidad: Redefining Masculinities in the U.S.

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
The concept of hegemonic masculinity has been used to explain societal behaviors in terms of men's power over women. In this course, we will analyze the connection to the marginalization of Latinx communities in mainstream U.S. culture, and the way stereotypical cultural attitudes are too easily attributed to machismo and stagnant characterizations of Latinx men, i.e., behaviors that conform to racist expectations of men of color. We will also explore how Latinx men break with tradition in the arts, literature, and popular culture.

### Overview

Academic Institution

CTY01

Subject area

WS

Catalog Number

31340

Course Title

Witches and Other Dangerous Women

Department(s)

Anthropology and Interdisciplinary Programs

Description

This course will adopt an interdisciplinary, intersectional, and transnational approach to the historical study of female subversion and insubordination. From the sirens of Greek mythology to the witches of 15th-17th century Europe, from prostitutes in Victorian London to female suicide bombers in Palestine, from the Malinche in colonial Mexico to the young Iranian vampire in *A Girl Walks Home Alone at Night*, from the hysterical woman to the infanticidal mother, we will engage historical and literary texts, art, films, and other media to examine the processes through which these real and imaginary figures became objects of fear and came to be perceived as a threat to the social order.

### Overview

Academic Institution

CTY01

Subject area

WS

Catalog Number

31350

Course Title

Black Power Women: Autobiography and Biography

Department(s)

Anthropology and Interdisciplinary Programs

Description

This course will examine the issues of race, politics, and gender through the narratives of Assata Shakur, Angela Davis, and Afeni Shakur. The exploration of each woman's lived experiences illuminate the culture in which they made their choices to become political activists and in which their trials took place. We will also dissect the biases and prejudices of the larger culture, and the implications this held for each woman. We will supplement our readings of their autobiographies/biographies with womanist and feminist writings. Students will critically examine each narrative and supporting documents through class discussions and essays.

Anthropology and Interdisciplinary Programs

**Description**  
Ball/House Culture or "Ballroom" is a Black and Latino LGBTQ subculture rooted in New York City that is a celebration of fashion, language, music and dance. Ballroom has enjoyed many mainstream moments, most notably in the late 1980s with music videos like Madonna's "Vogue" as well as the 1989 documentary film, Paris is Burning. Today, many are familiar with the culture through shows like Pose and My House. Ballroom culture has an extensive history with multiple genesis points that include drag ball culture during The Harlem Renaissance, 19th century charity balls in New York City as well as Antebellum Slavery plantation practices, West African dance traditions and Medieval European court systems. To understand the complexity of this culture and its relationship to a uniquely "Black Atlantic" experience, this course will examine Ballroom Culture by homing in on its unique aesthetics, language, musical production, customs related to kinship and family, as well as its most well-known dance form, "voguing."

## WS 31401 - From the Harem to the Midan: (Counter-)Spaces of Gender and Sexuality in the Arab Region

### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	31401

**Course Title**  
From the Harem to the Midan: (Counter-)Spaces of Gender and Sexuality in the Arab Region

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
From the Harem to the Midan: (Counter-)Spaces of Gender and Sexuality in the Arab Region This course applies a spatial lens to the study of gender and sexuality in the Arab region. Drawing upon feminist and queer theory, feminist geography, and critical urban studies, we will focus on a number of spaces to examine how, through their inhabitation, people throughout North Africa, the Middle East, and the Gulf conform to, reproduce, resist, and subvert dominant norms about gender and sexuality. The harem, the hammam (the public bathhouse), the café, the public garden, the shopping mall, the gym, the midan (the public square), the prison, and the Internet are some of the spaces through which we will explore the production of (counter-)spaces for self-expression, leisure, romance, (homo-)erotic desire, sociability, and politics. The course adopts an intersectional approach to analyze how gender inflects upon and is inflected by race, class, sexuality, religion/sect, and nationality in the production of space from a multi-scalar perspective that considers the home in relation to the neighborhood, the city, and the state. We will engage memoirs, fiction, historical texts, academic articles, art, films, and other media to complicate notions of public and private, consider questions of embodiment and agency, and discuss the transformation of these spaces and of people's inhabitation of them over time and across borders.

## WS 31685 - LGBTQ World History

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	31685

**Course Title**  
LGTBQ World History

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
This course focuses on the history, contributions, and experiences of gender and sexually-diverse individuals throughout world history, with particular emphasis on nonwestern cultures. It broadly explores changes and debates within the field of history as a whole and the stakes of centering historical analysis on individuals often overlooked or erased by mainstream history writing. The course will balance big-picture discussions with case studies drawn from the instructor’s geographic expertise. These will include examples of precolonial LGBTQ history, how nonwestern cultures conceptualized gender and sexual diversity, the fraught imperial and colonial periods, and contemporary historians’ efforts to diversify curriculums and public knowledge. Students will research a related topic of their choice and develop a final project that can take the form of a research proposal, a teaching unit, or a presentation for the public (such as a film proposal, informative website, podcast series, etc).

Course Title  
Introduction to Women of Color Eco-Feminisms: Feminist Intersections with Other

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course is designed to familiarize you with the major concepts at the intersection of environmental studies, animal studies, and food politics particularly as they are troubled by racialization, capitalism, colonialism, and sexism. We will survey contemporary and classic texts from a wide array of disciplinary, political, and personal perspectives. Through readings and discussions, you will be introduced to key theoretical concepts such as, environmental racism, slow violence, racial ecologies, total liberation, settler colonialism and racial capitalism. These topics will allow for critical examination of the connection?s human, non-human animals, and the earth have with various struggles.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	31715

Course Title  
Black Art In Aids Age

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course will examine African American history, literature, art, theater, performance, film and fashion. This interdisciplinary approach will examine, in particular, black gay men and the distinct creative and political identity they have created about race and sexuality. After the discovery of AIDS in 1981, gay men faced a great deal of prejudice, discrimination and isolation. One way they countered the exclusion, silence and hate, was through artistic mediums. Their creative responses to the dual prejudices of racism and homophobia will be discussed and analyzed with visits from men who created during the 80's and 90's and by viewing performances.

## WS 31895 - Witches and Brujas: Exhuming the Voices & Histories of African-Based Religions

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
WS	31895

**Course Title**  
Witches and Brujas: Exhuming the Voices & Histories of African-Based Religions

**Department(s)**  
Anthropology and Interdisciplinary Programs

**Description**  
Witches and Brujas: Exhuming the Voices & Histories of African-Based Religions In 2016, Puerto Rican rapper and Santeria priestess Princess Nokia (Destiny Frasqueri) released the song "Brujas" capturing the spirit of a generation looking to exalt and reclaim the historically maligned spiritual legacies of African and indigenous women. Drawing on anthropology of religion texts as well as historical examples--ranging from Tituba, the enslaved Native American women targeted in the Salem Witch Trials of 1692, the Code Noir 1685 (Haiti) and 1724 (Louisiana) to the witch-hunts and yellow press in post-independence Cuba, the 1993 U.S. Supreme Court Case Church of the Lukumi Babalu Aye v City of Hialeah, Florida, and Beyonce's Lemonade-- this course will look at the ways African-based spiritual systems has been apprehended, criminalized, legalized, and re-legitimized within the context of modernity, nation building, contemporary racial formations, and pop culture movements. We will explore how these processes have particularly impacted notions of feminine agency and gender roles within marginalized religious communities. Students will gain an introduction to various African-based religions including but not limited to Santeria, Vodou, Candomble, and Kumina, and to the extent time allows, allied indigenous-based religions such as Curanderismo.

CTY01

Subject area	Catalog Number
WS	31996

Course Title  
When God was a Woman

Department(s)  
Anthropology and Interdisciplinary Programs

**Description**  
Long before humans adopted the belief in one male god, they worshipped many gods and goddesses. Throughout most of the world, for much of human history, the goddess reigned supreme. Even the early Israelites--the original monotheists--worshipped the divine feminine for centuries. In this course, we will explore the saga of the goddess, from her ancient roots to her demise at the hands of the biblical prophets and scribes. We will consider how her legacy lives on today, from secrets hidden within the pages of the Bible to divine feminine echoes found in figures such as Mother Mary.

## WS 32463 - Sociology and Queer of Color Critique

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	32463

Course Title  
Sociology and Queer of Color Critique

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
Why are mainstream LGBTQ+ studies and queer theories so white-centered, while theorizations of race and ethnicity pose heterosexuality as the norm? Using the interdisciplinary framework of Queer of Color Critique, we explore how to expand and challenge the heterosexual and white-centered assumptions of sociology of sexualities, gender, and race through the perspectives and experiences of LGBTQ+ people of color. To examine how such social constructions of sexualities and gender intersect with race, ethnicity, class, ability, and other social identity categories, we examine macro level issues of colonialism, imperialism, immigration and migration, mass incarceration and policing as they pertain to racial and sexual/gender minorities. We will also cover immediate and ongoing issues, such as transphobia, drag queen phobia, activism/social movements, media representation, homelessness, and book banning that impact the everyday experiences of LGBTQ+ people, especially queer youth.

## WS 34150 - Entrepreneurship: Women & Diversity

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
WS	34150

Course Title  
Entrepreneurship: Women & Diversity

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
This course provides an overall historical context for women as entrepreneurs and recognizes ethnic, racial, religious and socio-economic diversity of women entrepreneurs. Our definition of who is an entrepreneur continues to change and what skills will be needed to make an impact. In the past entrepreneurs were seen as lone visionaries; today, teams, divisions and large enterprises are striving to be more entrepreneurial. Connecting theory with practice, we infuse entrepreneurship throughout this curricular while asking how gender difference impacts the experiences of women entrepreneurs versus their male counterparts. Discussions will include raising capital, developing a viable business model and product, strategies to grow a company, leadership skills, startup successes and failures will be studied to glean lessons learned and innovation. This course will explore how women are positioned to create more businesses, jobs and stimulate the economy. The course is to provide participants with the tools, strategies, and confidence needed in order to assess, determine feasibility of, and launch and grow new businesses or reinvigorate existing businesses. This is the place where education and imagination meet, spurring the creation of innovative companies.

WS	35616

Course Title  
The Practice of Witness/Writing Resistance

Department(s)  
Anthropology and Interdisciplinary Programs

Description  
To witness is to see as much as it is to be seen, to listen, to hold, and to be held. In this class we will consider the practice/praxis of witness as, poet Ross Gay reminds us, a "generative act" that "makes the world." Over the course of this semester we will critically examine the ways in which writers bear witness to both manifestations of brutality as well as beauty as an act of resistance. Expect to write, read and listen across genre, disciplines and forms. Selected works will include, but are not limited to, Gayl Jones, Audre Lorde, Anna Akhmatova, James Baldwin, Natalie Diaz, Naja Marie Aidt and Dave Chappelle.

## Architecture Department

### Programs and Objectives

The Bernard and Anne Spitzer School of Architecture is deeply committed to creating a just, sustainable, and imaginative future for a rapidly urbanizing planet. Through innovative research and interdisciplinary collaboration, the degree programs in Architecture, Landscape Architecture, Urban Design, and Sustainability in the Urban Environment seek to educate a diverse student body to become engaged professionals, both reflecting and enriching the complex communities of local and global environments. The School acts in the spirit of the City College of New York's historic Ephebic Oath: "To transmit the city, not only not less, but greater, better and more beautiful than it was transmitted to us."

The Architecture program empowers students to design for the betterment of our shared global community. At the School, the only public school of architecture in New York City, our professional B.Arch. program is shaped by the diversity of our students, the inventive research of our faculty, and by multidisciplinary collaborations. We prepare students to become engaged designers and to deploy an expansive set of skills to address pressing social, cultural, environmental, and professional challenges. With a rigorous foundation in the core competencies of building design, history, theory, and technologies, and with an emphasis on agile thinking, the Architecture programs aim to educate the next generation of innovators redefining the role of the architect in the twenty-first century.

The Architecture program leads students through the artistic, technical, intellectual and social process of designing buildings, communities and open spaces. All students are enrolled in this course of study, which leads to the Bachelor of Architecture (the professional degree for licensure) in five years.

A student may elect to obtain the B.S. in Architectural Studies after four years of study. An individual who obtains the 4-year B.S. in Architectural Studies degree at City College may not obtain a Bachelor of Architecture degree at City College.

### History

The program in architecture leading to the professional degree was initiated in September 1961, within the School of Engineering and Architecture. In July 1968, a separate School of Architecture and Environmental Studies was created. In September 1971, the Urban Landscape and Urban Design options were added to the programs of the School. The J. Max Bond Center for Urban Futures evolved from the City College Architectural Center, which was founded in 1980. With the inauguration of our current building, in 2009 the School was renamed The Bernard and Anne Spitzer School of Architecture.

### Curriculum

The educational program of the School is separated into two interdependent phases. Each phase has a specific emphasis.

In Phase 1 (first, second, and third years), the student is offered a general education in liberal arts and sciences as well as a core curriculum within the School; the core curriculum is comprised of architectural design, history of architecture, architectural technology & structures, visual and computational studies. Together, these courses provide essential and varied core competencies that empower the student to deploy an expansive set of skills to address pressing social, cultural, environmental, and professional challenges.

Phase 2 (fourth and fifth years) is devoted to advanced studies in architecture along with the development of the student's independent thinking and interests. Along with electives in and outside of the School, the student participates in Advanced Studios. These are design and research laboratories that seek – through specific proposals – to address a range of discreet pressing topics and interests.

## Liberal Arts Credit Requirements

The following applies to all students who enter The City College of New York either as a first year or a transfer student: To obtain a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts and Science courses. For a Bachelor of Architecture a minimum of thirty (30) credits must be earned in courses that are classified as Liberal Arts and Sciences courses. Credits taken at or transferred into City College are subject to this requirement based on New York State Regulations.

## Research

The J. Max Bond Center is founded on the legacy of architect and former Dean J. Max Bond, Jr. (1935-2009) and the City College Architecture Center (CCAC), which operated in the 1980s and 1990s as an influential pro bono architecture and planning service for underserved communities throughout New York City.

To architect J. Max Bond, Jr. (1935-2009), social equity was a core value, as was design integrity. Founded in 2011 and through 2015 The J. Max Bond Center for the Just City at CCNY advanced Max's vision through collaborative faculty research projects, urban design advocacy and projects, leadership development, and educational programs at its home within the Spitzer School of Architecture.

The center was re-established and renamed The J. Max Bond Center for Urban Futures in 2018. The Center honors its past with its mission to advance our collective urban futures toward greater social equity and cultural cohesion. Our methodology and belief is that social impact and innovation are both achievable and actionable through applied research and design.

The center offers research opportunities for students including independent study for credit.

## Selected Awards, Scholarships and Honors

Alumni Association Scholarships

Architecture Alumni Group Scholarship

Most Outstanding Student Awards: Years 1 – 5

Faculty History and Theory Award

Bernard L. Spanier Memorial Scholarship Fund

Ecole D'Art de Fontainebleau Scholarship

AIA/New York Chapter Eleanor Allwork Scholarship

AIA Bronx Empowerment Scholarship Award

AIA/Certificate of Merit

Carol J. Weissman Kurth Women in Architecture Scholarship

AIA Medal of Academic Excellence

Henry Adams Award

Alpha Rho Chi Bronze Medal

Academic Excellence in Core Medal

J. Max Bond, Jr. Award

FX Collaborative Diversity

FX Collaborative Scholarship

Gerner, Kronick & Valcarcel Art of Architecture Scholarship

HOK NY x CCNY Diversity Scholarship

Joseph L. Fleischer, FAIA, Scholarship for Design Excellence Scholarship

WX Women in Real Estate Scholarships

Bernard and Anne Spitzer Tuition Scholarships

Frank J. Sciame Jr Design Scholarship

Castagna Scholarships

## Accreditation

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The City College of the City University of New York, Bernard and Anne Spitzer School of Architecture offers the following NAAB-accredited degree programs:

B. Arch. (160 undergraduate credits)

M. Arch. (non-professional degree + 108 credits)

Next accreditation visit for all NAAB-accredited programs: 2026 (postponed from 2025 by NAAB due to COVID-19).

The five-year professional degree (Bachelor of Architecture) is registered by the New York State Education Department.

## Admissions

### Freshmen

For information about academic requirements, application procedures, placement examinations and special admissions programs, consult the front of this *Bulletin*.

### Changing Majors within the College

Students at City College who want to change their major to architecture must apply to the School of Architecture. A limited number of applicants may be accepted each year.

### Transfer and Previous Degree Students

Students with previous college course work or degrees may be exempted from some of the required and elective general education courses. An evaluation of a student's transfer credits is made by the Spitzer School advisement. Those wishing to apply must complete a CUNY Transfer Application. Once accepted students are individually evaluated on the basis of past academic work. A portfolio is required only for those who previously studied architecture.

### Applicants from Other Institutions

Applicants who have earned a B.S. degree in Architecture at another institution should submit a transfer student application. Accepted applicants will be asked to present a portfolio containing examples of their work. Placement in studio is based on portfolio evaluation.

## Registration and Advisement

### Pre-Registration

All Architecture students must see an academic advisor before registration. At these times, advisors will consult on matters of registration, program, credits, academic standing, or personal problems related to the student's professional career.

### Program Planning Procedures

Entering freshmen are advised by an advisor in the School of Architecture. At the advisement session, they prepare a program for the coming semester. The approval of an advisor is required for any change in an approved curricular program.

Most courses offered by the School are part of a sequence. Since every course in this Bulletin is not offered every semester, students should be careful to plan programs that can be completed in the required number of semesters.

Depending on prior coursework and or math placement, a student may be required to complete the prerequisite sequence Math 19000 to Math 19500.

Most courses offered by the School have prerequisites, which are listed immediately after the course descriptions. The prerequisites must be successfully completed before the course that requires them can be taken.

Students may not register for two sequential courses simultaneously in Architectural Studio, History/Theory, or Construction Technology, unless they have been granted permission by an Academic Advisor in consultation with course faculty.

If the student wishes to drop a course that is a corequisite of another course, both must be dropped.

During Phase 1, students with an overall average of 2.33 and a 2.33 in professional courses and a successful portfolio review are permitted to proceed from second year to third year. During Phase 2, all students are required to submit an acceptable portfolio at the beginning of the second semester of fourth year.

Students who have earned a B average in the preceding term, and who have no grade below a C in any subject studied that term, may be permitted to take more than 17 credits.

Students are expected to attend the School full-time and carry a minimum of 12 credits.

Students are responsible for seeing that they complete all requirements necessary for graduation. Students are also responsible for informing the Office of the Registrar if at any time they have reason to believe their records are incorrect.

Students who suspend their studies must apply for re-entry.

## Advisement

### Director of Undergraduate Affairs

Ms. Amy Daniel  
SSA 133; 650-8748

### Senior Academic Advisor

Mr. Tony Bowles  
SSA 131; 650-5406

## Facilities

### The Architecture Library

The Architecture Library contains more than 30,000 volumes related to the programs of the School. It currently receives 70 periodicals, and has a collection of 11,000 pamphlets and pictures. Public workstations in the library offer web access. The Morris Raphael Cohen Library and the Science/Engineering Library are also available for student use. Professor Nilda Sanchez-Rodriguez is the Chief Librarian of the Architectural Library.

### The Fabrication Shops

Students use the shop to make models that enable them to study design solutions in three dimensions and to analyze construction details and methods. The shop is equipped with laser cutter, 3d printers and CNC equipment as well as hand and power tools for wood and plastic. Instruction is provided in the use of equipment. Use of the shop is integral to the design curriculum, beginning with the first year studio.

#### The Digital Labs

The Digital Labs, housed in large central spaces in the School, provide students with a variety of networked computer equipment for carrying out graphic and design and building modeling projects. Advanced software for drafting, drawing, mapping and rendering as well as other applications are available. The labs are also used for teaching the various computer courses offered in the School.

## Faculty

Ahu Aydogan, Associate Professor

*B.Arch., Uludag University, M.Arch., M.S. Izmir Institute of Technology; M.S., Ph.D. Rensselaer Polytechnic Institute*

Nandini Bagchee, Associate Professor

*B.Arch., Cooper Union; S.M.Arch.S, M.I.T; R.A.*

Cesare Birignani, Assistant Professor

*Ph.D., Columbia University*

Mohammad Bolhassani, Assistant Professor

*B.Sc. K.N. Toosi Univ. of Tech. (Iran); M.S., Drexel Univ., Ph.D.*

Mi-Tsung Chang, Assistant Professor

*B.Arch., Pratt Institute, M.Arch.; Ph.D., Union Institute*

Jeremy Edmiston, Associate Professor

*B. Arch., Univ. of Technology (Australia); M.S., Columbia Univ.; R.A.*

Gordon A. Gebert, Professor

## Programs

## ARCH-BARCH - Architecture

### Overview

Institution Code

CTY01

Official Name of Program

Architecture

Plan Code

ARCH-BARCH

Department(s) Sponsoring Program

Architecture

Career

Undergraduate

Degree Designation

BARCH - Bachelor of Architecture

### Requirements

#### Simple Requisites

#### Degree Requirements - Bachelor of Architecture

Type

Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 160 credits

AND

Earn at least 30 credits

The last 30 credits must be taken at The City College.

AND

Earn a minimum GPA of 2.0

Some majors may require a higher GPA

AND

Earn at least 40 credits

At least 40 credits must be in the Liberal Arts and Sciences

#### Additional Comments:

*Note on electives: In order to complete the Bachelor of Architecture a student must successfully complete all required Architecture courses as well as a remainder 35 credits of General Education Requirement "Pathways" and 29 credits of electives; consisting of 17 credits of architecture electives and 12 credits of non-architecture electives in any area of study at advanced level (20000 or above), with the exception of foreign language courses which can be taken at the introductory level. Prior to fourth year, at least two of the four elective courses are to be completed within the undergraduate offerings of the Spitzer School of Architecture.*

#### General Education Requirements - Required (Fixed) Common Core

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 2 courses in the following course sets:

- Required Core English Composition
- English Composition I: FIQWS (WCGI with Literary emphasis)

- English Composition II: ENGL 21001 or 21002 or 21003 or ART 21000

AND

Complete at least 1 courses in the following course sets:

- Required Core Mathematical and Quantitative Reasoning
- Mathematical and Quantitative Reasoning: [MATH19500 Precalculus](#)

AND

Complete at least 1 courses in the following course sets:

- Required Core Life and Physical Sciences
- Life and Physical Sciences: [EAS10600 Earth Systems Science](#)

12 credits / 4 courses

#### Additional Comments:

Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.

Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

#### General Education Requirements - Flexible Common Core

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 2 courses in the following course sets:

- Flexible Core World Cultures and Global Issues
- World Cultures and Global Issues: any of CLAS offerings in WCGI with Cultural/Historical emphasis
- World Cultures and Global Issues: topic section of WCGI FIQWS with Literary emphasis

AND

Complete at least 1 courses in the following course sets:

- Flexible Core U.S. Experience in Its Diversity
- Individual and Society: any of CLAS offerings in this category

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Creative Expression
- Creative Expression: any of CLAS ART offerings

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Individual and Society
- Individual and Society: any of CLAS offerings in this category

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Scientific World
- Scientific World: [PHYS21900 Physics for Architect Students](#)

**Additional Comments:**

18 credits / 6 courses

Students will complete at least one course in each of the five Flexible Core areas and an additional sixth course in one of them. Students can complete no more than two courses from any one discipline or interdisciplinary field. The list of courses that satisfy this requirement changes from semester to semester – check our checklist to see what alternatives are available next semester.

Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.

Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

**General Education Requirements - College Option**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Philosophy, 3 crs; Speech, 3 crs., or exemption on the basis of demonstrated proficiency

- Speech 11100, 00380 or exemption on the basis of demonstrated proficiency
- Philosophy 10200

AND

Complete ALL of the following Courses:

- AES 23202 - Survey of World Architecture I
- AES 24202 - Survey of World Architecture II

12 credits / 4 courses

Students at City College are required to take 12 additional credits of General Education. Transfer students will need to take 6 to 12 College Option credits depending on (a) whether they are transferring from a four-year or a two-year degree program, (b) whether they have completed an A.S. or A.A. (c) how many credits they had at the time of transfer, and (d) whether they have coursework that counted towards the completion of the College Option at

their previous institution. Visit: <http://www.cuny.edu/academics/initiatives/pathways/gened/college-option.html> for more details on the College Option requirement for transfer students and consult an advisor.

**Additional Comments:**

**Major Requirements - Overall**

**Type**

Completion Requirement

Earn at least 118 credits

**Additional Comments:**

**Major Requirements - Required Courses**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Phase I

Complete ALL of the following Courses:

- ARCH 11100 - Core Studio I
- ARCH 12000 - Core Studio 2
- ARCH 23000 - Core Studio III
- ARCH 24000 - Core Studio 4
- ARCH 35101 - Core Studio 5
- ARCH 36101 - Core Studio VI
- AES 21200 - The Built Environment of New York City
- AES 23202 - Survey of World Architecture I
- AES 24202 - Survey of World Architecture II
- ARCH 35202 - Survey World Arch 3
- ARCH 47202 - Survey of World Architecture 4
- ARCH 36102 - Portfolio Review
- AES 24303 - Structures 1 - Introduction to Structures
- AES 11300 - Visual Studies I
- AES 12300 - Visual Studies 2
- ARCH 35302 - Site Technology
- ARCH 36402 - Structures III – Behavior of Structural Systems
- ARCH 24501 - Construction Technology I
- ARCH 35501 - Construction Technology II
- ARCH 36501 - Construction Tech 3
- EAS 10600 - Earth Systems Science
- MATH 19500 - Precalculus
- PHYS 21900 - Physics for Architecture Students

AND

Complete ALL of the following Courses:

- ARCH 51000 - Advanced Studio
- ARCH 45501 - Computation and Design
- ARCH 51200 - Architectural Management
- [ARCH51000 Advanced Studio](#) is taken 4 times

**Additional Comments:**

To proceed from the third to the fourth year, a student must satisfactorily complete all required courses listed and electives for a minimum of 90 credits (exclusive of all ESL); have a minimum cumulative G.P.A. of 2.33, a minimum G.P.A. of 2.33 in all AES and ARCH courses, complete [SPCH 11100](#) or pass the Speech Exemption Exam, and pass a portfolio review (ARCH 36102). See advisor for any changes in curriculum.

**Major Requirements - Elective Courses**

Type

Completion Requirement

Fulfill ALL of the following requirements:

Architecture Electives

Earn at least 2 credits

AND

Non-Architecture Advanced Electives

Earn at least 12 credits

AND

Complete a concentration.

Additional Comments:

**Major Requirements - Concentration in General Architecture**

Type

Completion Requirement

Architecture Electives

Earn at least 15 credits

Additional Comments:

**Major Requirements - Concentration in Architectural History and Theory**

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ARCH 51510 - Topics in the History of Architecture and Society
- ARCH 51520 - Topics in Architecture and the City
- ARCH 51530 - Topics in the History of Landscape, Infrastructure, and the Environment
- ARCH 51540 - Topics in the History of World Architecture

AND

- Plus additional 'special topics' courses when offered

Additional Comments:

**Major Requirements - Concentration in Architectural Technology and Sustainability**

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ARCH 51600 - Topics in Sustainability

- ARCH 51560 - Topics in Technology

AND

Earn at least 9 credits

- Additional cross-disciplinary electives within the SUS program
- Plus additional specific electives and Special Topics courses when offered
- Graduate Electives open to qualified undergraduates

Additional Comments:

## ARCH-BS - Architecture

### Overview

### AES 11300 - Visual Studies I

#### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
AES	11300

**Course Title**  
Visual Studies I

**Department(s)**  
Architecture

**Description**  
Visual Studies 1 is an introductory course that focuses on the topics of analog and digital drawing and modeling in architectural design. The course emphasizes how the computer can be engaged in architectural design and visualization methods, and introduces students to operative procedures, techniques and technologies for constructing drawings and models that support and promote formal and spatial discoveries. Principles in descriptive geometry will provide the underpinnings for creating visual expressions of shapes and volumes that explore the relationship between analog/digital and two-dimensional/three-dimensional information. The communication of design intent will be established through the understanding of line work, tone, color and other drawing conventions rooted in historical and contemporary modes of architectural representation.

**Academic Career**  
Undergraduate

## AES 20000 - Intro to Building Architecture

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
AES                                      20000

Course Title  
Intro to Building Architecture

Department(s)  
Architecture

Description  
What is building architecture and what do architects do? This course is an introduction to the art and science of designing buildings and structures. Through lectures, readings, essay assignments, and simple design exercises, students will survey foundational topics: formal composition and craft, environmental factors, architectural and urban histories, and the assembly of systems and materials into buildings.

## AES 20100 - Architectural Freehand Drawing

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
AES	20100

**Course Title**  
Architectural Freehand Drawing

**Department(s)**  
Architecture

**Description**  
In this course the students are led to see architectural space and to understand and draw the elements that define it. Objects are seen and drawn relative to the greater spaces which they are part of. Line drawing is the principle technique employed in this course.

**Academic Career**

## AES 23202 - Survey of World Architecture I

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
AES	23202

**Course Title**  
Survey of World Architecture I

**Department(s)**  
Architecture

**Description**  
This is the first of a four-semester sequence that examines the physical forms of world architecture and related arts. It analyzes the built environment in response to place, politics, culture, and the people who use it. This semester students will study architecture from the Neolithic period to the 14th century in Europe, Asia, Africa, and the Americas. Two lectures and a recitation section are required weekly.

**Academic Career**  
Undergraduate

## AES 21200 - The Built Environment of New York City

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
AES	21200

**Course Title**  
The Built Environment of New York City

**Department(s)**  
Architecture

**Description**  
Exploring the conditions and factors that have led to the development of New York City and its world renowned architecture and open spaces. Field trips, papers and investigation on the creation of New York.

**Academic Career**  
Undergraduate

**Liberal Arts**

## AES 29903 - Introduction to Landscape Architecture

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
AES	29903

**Course Title**  
Introduction to Landscape Architecture

**Department(s)**  
Architecture

**Description**  
What is landscape architecture? This undergraduate, liberal arts course introduces the foundations of this multi-faceted profession to students with no prior background in landscape architecture or the design professions. The course includes lectures and class discussions about fundamental topics of landscape architecture addressing: the social, cultural, and design theories of landscape architecture; the history of important designed landscapes in New York City; and types of professional public and private practice as well as their histories. These lectures will be paired with simple studio exercises that introduce students to measuring, mapping, and sculpting terrain. Students will write summaries to assigned readings, learn to make drawings (plan, section, perspective, and collages), and even fabricate small 3-D study models.

## ARCH 24501 - Construction Technology I

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	24501

Course Title  
Construction Technology I

Department(s)  
Architecture

**Description**  
An introduction to building systems, including simple wood and masonry construction. Assemblies of various building components will be studied. Concepts of energy conservation will be related to building construction. In the studio sections students will develop construction drawings and large-scale models of simple building assemblies based on case study analysis. Prereq.: entry to fourth semester. 3hr./wk.; 3 cr.

## ARCH 26400 - How To Succeed in Architectural School

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	26400

Course Title  
How To Succeed in Architectural School

Department(s)  
Architecture

**Description**  
This course is intended to help students bridge the gap between high school and college. Learning about student support, setting expectations, clarifying responsibilities as well as major-specific aspects of a professional program will be explored. Three frames/questions are used to structure the course so that personal, social, and professional topics are studied and goals are achieved. Students will be exposed to CCNY's rich history and its intersection with the built environment. Professional topics and resources will be studied and created - particularly, tools & skills like resumes, work samples, cover letters, and public speaking. This course is intended for first-year students, transfer students, or others who might benefit.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	35101

**Course Title**  
Core Studio 5

**Department(s)**  
Architecture

**Description**  
In this core architectural design studio, students engage a range of exercises crucial to the formation of an architect, from developing inspiring and appropriate design concepts to the exploration of building assemblies and materials, and how to integrate this knowledge into design for diverse contexts.

**Academic Career**  
Undergraduate

## ARCH 36301 - Construction Technology III

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	36301

Course Title  
Construction Technology III

Department(s)  
Architecture

**Description**  
This course will focus on the performance of buildings relative to environmental impact and operational response. Starting with the building's skin, systems will be understood as being in contact and in manipulated exchange with the thermal, luminous and acoustic environment surrounding them, to serve the ambience and comfort of the interior. Basic knowledge of exchange, distribution and regulation will be related to construction and mechanical systems. The goal is to integrate structural, mechanical and spatial requirements to make appropriate choices during the design phase, allowing students to understand the building as a holistic regulated environment.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	45501

Course Title  
Computation and Design

Department(s)  
Architecture

Description  
Advanced computing course that focuses on the utilization of digital design and fabrication processes in architecture. The course emphasizes how computational tools have evolved and impacted architectural design through methodologies in scripting, simulation, fabrication, and robotics. Students will be introduced to nascent technologies and techniques that encourage and promote computational design thinking. Principles such as algorithmic design, data management, and digital workflows will provide the underpinnings for creating drawings, models, and visualizations.

Course Title  
Survey of World Architecture 4

Department(s)  
Architecture

Description  
This is the fourth in a four-semester sequence that examines the physical forms of world architecture and related arts. It analyzes the built environment in response to place, politics, culture, and the people who use it. This semester students will study architecture in the 20th and 21st centuries in Europe, Asia, Africa, the Americas, and Oceania. Two lectures and a recitation section are required weekly.

Course Title  
Construction Technology IV

Department(s)  
Architecture

**Description**  
This course will focus on the performance of buildings relative to environmental impact and operational response. Starting with the building's skin, systems will be understood as being in contact and in manipulated exchange with the thermal, luminous and acoustic environment surrounding them, to serve the ambience and comfort of the interior. Basic knowledge of exchange, distribution and regulation will be related to construction systems. The goal is to integrate structural, mechanical and spatial requirements to make appropriate choices during the design phase.

Subject area	Catalog Number
ARCH	50001

Course Title  
Finding a Job/ Internship for Architecture Students

Department(s)  
Architecture

**Description**  
Focused on third, fourth, and fifth-year architecture students, the class will provide the students with a complete understanding of the job/internship search process relating to the field of architecture. Students will create winning resumes, become strong interviewees, explore the different opportunities within architecture and understand the industry trends. The class will also touch on making the transition to the world of work and life after college.

## ARCH 51013 - Modern Housing and Urbanism in Brazil

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	51013

Course Title  
Modern Housing and Urbanism in Brazil

Department(s)  
Architecture

**Description**  
This course examines modern housing and urbanism in Brazil, one of the great centers of architectural innovation in the twentieth century. Students will study architects, planners, and their visions for beautiful, affordable, state-sponsored housing, for making new cities, and for improving existing ones. Ties to global modernism will be discussed, and new construction will be compared to favelas and other kinds of settlement. Race, racism, public policy will also be addressed and contextualized within the changing political scenarios in Brazil (democracy to dictatorship).

## ARCH 51014 - Digital Constructs

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51014

**Course Title**  
Digital Constructs

**Department(s)**  
Architecture

**Description**  
The architectural (re)presentation or the architectural diagram-be it photo real, abstract or analytical, captures the energy of an idea about space and the forces that act within it. The challenge is to convey that dynamism-whether it is the movement of a set of bodies, a change in lighting and material qualities, or any other dynamic quality of architecture-with a set of static images or animation. Digital Constructs investigates the concepts, techniques, and working methods of computer aided 'drawing' and representation in architecture. Students will study the operative relationship between 2d and 3d data, exploring the reaches of their analytical and (re)presentational potential. While the class is a foundational course in architectural computing, it will build on the student's advanced ability to question, shape, and interrogate space and time

## ARCH 51016 - Race, Space, and Architecture in the United States

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51016

**Course Title**  
Race, Space, and Architecture in the United States

**Department(s)**  
Architecture

**Description**  
In 1902, W.E.B. DuBois wrote these telling words in The Souls of Black Folk: "The problem of the Twentieth Century is the problem of the color-line,—the relation of the darker to the lighter races of men in Asia and Africa, in America and the islands of the sea (9)." This semester we will take up DuBois's claim and examine it in relationship to architecture in the United States. The focus will be largely on the twentieth century and buildings, landscapes, and places in cities although we will take some excursions to other places and periods in world history. By dissecting the race in concert with the constructed environment in the U.S. we will expose how Americans have used space to condition understandings of race, to reinforce racial and ethnic hierarchies, to perform identities, which are in flux, and to contest egregious and enduring inequalities. The goal is to understand that there is a dynamic rather than a static relationship between a physical place, its social make-up, and race as an ideal or imagined condition.

## ARCH 51017 - Housing Projects and Urban Challenges in the Americas - A North-South Historical Analysis

### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51017

**Course Title**  
Housing Projects and Urban Challenges in the Americas - A North-South Historical Analysis

**Department(s)**  
Architecture

**Description**  
The physical production of housing is partially responsible for the development of social dynamics like urban inclusion and mobility, segregation and informality. While developmentalist theories commonly consider the Global North and South as essentially different realities, urban social problems are increasingly global and underline the historical deployment of a planetary form of urbanization. This is especially true in the case of Latin American architecture, epitomized as “exotic” or “underdeveloped” in popular culture, and which historically shares challenges like explosive population growth, suburbanization and urban decay with the Western hemisphere. To open, thus, architectural historical analysis to a global sphere of reflection, this seminar presents an overview of urban problems common to the North and South of the Americas between 1945-2000 – a period of unprecedented internationalization of urban politics, from the creation of the United Nations Charter to the Millenium Declaration. The seminar also explores how architectural housing projects that contain design and planning components have addressed urban challenges, and assesses how the physical solutions given to these problems fit the goals established by these urban programs. Through a comparative analysis of Latin American and North American cases, the seminar seeks to evaluate if urban policy outcomes are successful, vis-à-vis their architectural outputs. The ultimate goal of the course is to understand the role of housing projects as catalyzers of social reform, and to learn the lessons that these projects may bring to an urban and policy context.

## ARCH 51018 - Modern Landscapes of the 20th Century

### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51018

**Course Title**  
Modern Landscapes of the 20th Century

**Department(s)**  
Architecture

**Description**  
The course starts with a review of 20th Century garden precedents; establishing the aesthetic and cultural motivations that informed early expressions of the modern landscape garden, open space and urban development. The coverage then turns to a survey of various styles and theoretical underpinnings that have influenced a wide spectrum of contemporary landscapes and their designers, including the design of specialized urban and suburban open spaces, ecologically determined plant community restorations, corporate headquarters campuses, vest pocket parks, theme gardens and new city forms. The course ends with a discussion on possible future directions for landscape design and the current forces influencing them.

**ARCH 51019 - Applied Resilience by Design****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51019

**Course Title**  
Applied Resilience by Design

**Department(s)**  
Architecture

**Description**  
Communities continue to experience "shocks" such as extreme weather events that suddenly affect critical systems, as well as "stressors" such as rising sea levels and aging infrastructure that gradually increase vulnerability over the long-term. Designers are being tapped to propose innovative solutions that respond to changing climactic conditions, and reduce the severity or longevity of disasters and disruptions in both the natural and built environment. These proposed solutions must also provide the necessary requirements to meet vital human needs while respecting natural systems limitations and complying with rigorous local, state or federal standards. This requires the collaboration of government, philanthropic organizations, academic institutions, and most importantly, local stakeholders to solve some of the most complex and intractable issues of our time. This course will discuss the range of issues facing engineers, architects, scientists, and planners by exploring the seven Rebuild by Design (RBD) projects underway in the Sandy affected region. It will also analyze trends in resiliency through illustrative examples from the National Disaster Resilience Competition (NDRC), and the 100 Resilient Cities program. Students will be asked to research existing project concepts not advanced through Rebuild by Design (RBD) and develop communication techniques to assist in the practical completion of the original designer's vision. The course will culminate in the presentation of a group project designed to advance elements of the RBD projects and identify creative next steps.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51020

**Course Title**  
Geospatial Analysis

**Department(s)**  
Architecture

**Description**  
This course will explore analysis of spatial information, Geographic Information Systems (GIS) technology, and real-world applications to a broad range of fields: architecture, planning, earth and atmospheric sciences, engineering and social sciences. Students will develop a solid, hands-on understanding of the use and application of geographic information systems, acquire qualitative and quantitative skills for working with data, perform spatial calculations, and present their results. Students will investigate the potential of GIS technologies in several scenario-based settings and real-world applications. Emphasis will be placed on the use and analysis of GIS models, remote sensing and satellite imagery to quantify changes in landscape, environment, and social dynamics and how they support decision-making and design.

## ARCH 51021 - Theory and Methods for Research

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51021

**Course Title**  
Theory and Methods for Research

**Department(s)**  
Architecture

**Description**  
This seminar provides the theoretical and methodological foundation necessary for accomplishing advanced independent study research in Architecture. Over the semester, students will formulate a detailed, cohesive and well researched proposal. In the course, students will identify and refine a topic of interest, solidify a body of critically pertinent research methods and referents, and incrementally develop an intellectually interesting and tractable independent design research project. This seminar is autonomous from the process of the Independent Study track as part of the Advanced Studio Sequence. Nonetheless, it is meant to aid those students seeking entrance into said program as well of any student seeking to produce advance research in Architecture.

## ARCH 51022 - Compositions

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	51022

**Course Title**  
Compositions

**Department(s)**  
Architecture

**Description**  
To understand the ingredients of an artifact like architectural construct is to know the intrinsic behaviors of the materials used and the formations that can be adapted to them. Traditionally, architects envision the use of materials provided to them. In this course, we will experiment with designing a material. Focusing on composites, binders and fibers can be selectively mixed and calibrated to create the material behaviors corresponding to the specifics of a design sensibility. Concrete, resin, bioplastics, silicone, glues along with a range fibrous materials and fillers would be the subject of material research. The course is consisted of parallel development of advanced computational modeling, material experimentation and fabrication concluding with a group project of a pavilion/large furniture scale construct.

## ARCH 51023 - Retrofitting Suburbia

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	51023

Course Title  
Retrofitting Suburbia

Department(s)  
Architecture

**Description**  
In this design research seminar, we will be immersed in the growing discourse on the retrofitting of suburbia. We will examine the excessive, wasteful, sprawling-and-now-failing real estate products of the long period of mass suburbanization that spans from the second half of the 20th century to today. This is a design research seminar; the ambition is to prepare graphics suitable for publication.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	51026

Course Title  
BIOREMEDIATION: Leveraging Biology in Addressing Toxic Legacies

Department(s)  
Architecture

**Description**  
As the built--and increasingly unbuilt--environments exhibit detrimental concentrations of toxicity as a result of anthropogenic forces, this class will look to biological components and processes as remediation tools in the design of cities, landscapes, and communities. Phytoremediation, mycoremediation, and microbial bioremediation are some of the processes by which living organisms act to degrade or transform hazardous contaminants and that will be engaged with respect to sustainability, urban design, and nature-culture constructs.

## ARCH 51027 - Le Corbusier: Architecture, Urbanism, Politics

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	51027

Course Title  
Le Corbusier: Architecture, Urbanism, Politics

Department(s)  
Architecture

**Description**  
Whether extolled as the greatest architect of the twentieth century or reviled as the century's greatest scourge, Le Corbusier, more than five decades after his death, remains a fundamental reference for the disciplines of architecture and urban planning. Over the course a long and preternaturally productive career (some 400 projects, more than 70 built works, about 50 books) Le Corbusier essentially reshaped the way we think and design our buildings and cities. This seminar aims to unravel Le Corbusier's lifelong project through an in-depth study of his seminal writings and his most significant architectural and urban designs. In exploring modernism's most emblematic figure, the seminar ultimately aims to reconsider the contested legacy of modernism and its continuing relevance in contemporary architecture and urbanism.

## ARCH 51413 - Imagining Manhattan: building the island and its discourses, 1811-present

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	51413

Course Title  
Imagining Manhattan: building the island and its discourses, 1811-present

Department(s)  
Architecture

Description  
For more than two centuries Manhattan has been both the object of urban thinkers' fantasies and a laboratory for urban movements and design strategies. Architects and urbanists in the 19th and 20th centuries imagined idealistic and dystopian plans for the great city, with roadways stacked five or ten stories high, aerial avenues of commuter airplanes, or uncontrolled speculative skyscrapers turning the city into a bleak lattice of canyons. But the island's realized dreams were often even more audacious; among the grandest of these was the 1811 legislation of the city's Cartesian block grid at a moment when most of the island was farmland and forest. But no more timid are a town made from towers (Rockefeller Center), a neighborhood where the Hudson recently flowed (Battery Park City), and an 800-acre populist artificial garden made from the most valuable land in the world (Central Park). This course considers the movements, ideologies, and theoretical frameworks that transformed Manhattan into the island as it continues to rise today. Field visits will supplement in-depth analysis of the city's architecture and urban designs. In the course's hybrid component, students will investigate collectively and individually, the history of a particular site of their choice, engaging not only with its original design, subsequent modifications, and present state, but also with the unrealized architectural and urban fantasies to which it has played host.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	51500

Course Title  
Intro to Ecology and GIS

Department(s)  
Architecture

Description  
This course provides an introduction to ecological theory and physical geography used as a basis for understanding ecological systems. The interrelationships of geophysical form, climate, surface and subsurface hydrology, and soils are communicated to enable students to understand the complexity of design intervention in natural processes. GIS instruction is incorporated into this class so that students cement their understanding of the system dynamics through data analysis and geospatial mapping.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	52300

Course Title  
The Making of Contemporary Architecture: Thinking and Practice since 1960

Department(s)  
Architecture

Description  
This seminar offers an introduction to the theory and practice of architecture from the 1960s to the present. In tracing the transformation of architectural discourse during the past five decades, we will explore the dialectic between theory and practice both by studying a series of seminal late-modern and contemporary theoretical texts and by analyzing a number of paradigmatic projects that informed, challenged, and reshaped the architectural debate.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ARCH	52700

Course Title  
Field Ecology

Department(s)  
Architecture

Description  
The course examines the functions within and the structures of ecological systems, leading to an understanding of the effects of human activity on the biotic and abiotic component of these systems. The ecological and ethical ramifications of global or local alteration of natural systems are explored to present the larger context in which landscape design is practiced. Special emphasis is placed on the impacts of urbanization on regional ecologies through studying plant communities. The course focus is on an array of field trips to urban landscapes that are emblematic of the confluence of social, cultural, and environmental forces in the city. Prerequisite: 61500 Introduction to Ecology and GIS.

## ARCH 54005 - GLASS TECHNOLOGIES

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	54005

**Course Title**  
GLASS TECHNOLOGIES

**Department(s)**  
Architecture

**Description**  
Glass has become one of the favored envelope materials of contemporary architecture. The latest thin-film coatings reduce emission and control the amount of solar radiation transmitted indoors. Other technologies make glass translucent or transparent in seconds or allow to generate energy. However, in most projects the environment of a building is not properly taken into account and it has come short to harmonize material based performance criteria such as visible light transmission, heat gain/loss and ventilation and to connect them to the appearance of the building. Changes are required not just in technology, but also in people's behavior. Incentives such as Building LEED certifications certainly help but a more significant impact can be achieved through policy changes that require a more energy efficient way of designing a building. During this Semester, the students will learn about innovative glass technologies and internalize this knowledge when analyzing and critically discussing case studies of real buildings. They will learn to use this knowledge to improve the glass façade of an existing buildings (three buildings will be given as choice). The students will be asked to improve the current design while focusing on appearance, interior heat gain, enhance natural light quality for vital space interaction and comfort and maintain regulated air flow. The final results shall be showcased on a Poster (size 24" x 36"). The progress of the project will be enhanced throughout weekly assignments.

## ARCH 55160 - Urban Plants/Plant Identification

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ARCH	55160

**Course Title**  
Urban Plants/Plant Identification

**Department(s)**  
Architecture

**Description**  
This course uses the environs of New York City as a living laboratory for the study and investigation of plant material. Students identify and observe local flora, seeking to understand function in natural systems and the potential for growth and propagation. Plants in native communities – as components of natural systems are compared with plants in the designed landscape to ascertain functional changes in habitat and in soil/ hydrology systems. The class work is augmented by field trips to botanical gardens and arboreta.

## Art Department

Professor Tom Thayer, Chair • Department Office: Compton-Goethals 109 • Tel: 212-650-7420

The City College offers the following undergraduate degrees in art:

B.A. in Art

B.F.A. in Electronic Design & Multimedia

### Programs and Objectives

Study in New York City offers an unparalleled opportunity to absorb not only the range and excitement of the current art scene, but also the riches of the past, through cultural resources of exceptional quality. The programs of the Art Department provide both the general student and the pre-professional with a solid foundation in studio art and art history, as well as advanced work in several specialized fields. Formal course work is reinforced with visits to museums, galleries, and artists' studios; guest lectures and critiques; and exhibitions in the Art Department Gallery.

### B.A. Program Concentrations

#### Studio Art

For Studio Art students, general instruction in the theory and practice of the visual arts is provided along with training that may include a focus in one or more of the following areas: drawing, painting, electronic design and multimedia, printmaking, photography, sculpture, or ceramic design. This focused study may be either broad or narrow, allowing students to build their skills in one or more areas after receiving foundation training in design. Studio Art students also take art history courses.

#### Art History

Art History students take introductory survey courses that are multicultural in focus. Advanced courses provide a grounding in historical and current visual culture traditions. Special topic courses are often linked to current museum exhibitions, and professional internships are open to qualified students. This concentration prepares students for career paths in museums and galleries, art publishing, auction houses, art appraisal, teaching art history, archaeology, and other art-related fields. Art History students also take studio art courses.

#### Digital Design [DGTLDNSN]

The Digital Design concentration offers art students the opportunity of working in a range of digital media that includes: graphic design for print and electronic publications; imaging and illustration; web development and programming; video; 3D modeling and animation. These media courses are taken after students complete department foundation requirements in design. Students in Digital Design work on technical and creative projects in print- and screen-based media and focus on conceptualization, visual problem-solving, and production skills to build a professional design/media portfolio. Digital Design students also take art history courses. Students electing the Digital

## URB 99902 - Elective Credit Liberal Arts

### Overview

Academic Institution

Design Concentration will choose 9 credits of coursework from a range of elective courses, 9 credits of 30000-level EDM electives, plus the 3 credit EDM capstone course (ART 49590 (p.) Digital Design Portfolio). Depending on the courses selected, students may also need to complete foundational coursework (ART 29500 Typography 1, ART 29510 Graphic Design Concepts, ART 29520 Illustration and/or ART 29526 2D Imaging) that is prerequisite to some of the 3/30000-level EDM courses. See the Advising/Grad Check Sheet for more detail.

### Photography

Photography students take courses that provide foundational materials and methods for lens-based art practices; these students choose from mid and upper level courses that provide advanced study in various aspects of photography as an art form. This includes advanced techniques, professional practices, and theory. Special topic and elective courses are offered that engage with the expanded field of photography in New York City and provide portfolio-building opportunities. Students electing the Photography Concentration also take foundation Studio Art and Art History courses. Students choose 9 credits of coursework from a range of elective courses, 9 credits from among the 30000-level Photography courses\*, plus the 3 credit Photography Portfolio capstone course. Depending on the courses selected, a student may also need to complete foundational coursework that is the prerequisite for some of the 3/30000-level Photography courses. See the Advising/Grad Check Sheet for more detail.

### Teaching Art K-12

Students interested in teaching in schools, community centers, and/or museums pursue coursework in three main areas: studio art, art history, and education. Building on a solid foundation in the theory, history, and practice of creating and analyzing art, students also learn how to create culturally-relevant lesson plans, build community with diverse populations, and teach the arts in multiple settings. Students in this concentration can elect to pursue Initial Certification with the New York State Department of Education that enables them to teach in the public school system in New York. Students seeking their Initial Certification in Art K-12, must complete student teaching requirements via the School of Education. Alternatively, students may opt to teach in out-of-school settings via the non-certification track.

## Facilities

### Art Gallery

The Art Department's gallery space displays work of undergraduates, graduate students, and professional artists, as well as specially curated exhibitions. Approximately 2000 sq. ft. in size, the gallery accommodates two- and three-dimensional art.

### Ceramic Design

The facilities include a large open work area with 18 pottery wheels and a slab roller, extruder, and a kiln room with three electric kilns. There is a plaster studio where students learn mold-making. Various clay bodies are used for utilitarian, sculptural and architectural ceramics, with equal emphasis on clay's multicultural traditions (e.g., Egyptian paste and majolica).

### Electronic Design & Multimedia

The electronic design studio incorporates four dedicated computer classrooms/labs, a Digital Output Center, and a design studio classroom, facilitating interaction between traditional and digital design production. The computer labs are configured with industry-standard computers configured with hardware and software for a complete range of print and digital applications, including: design, illustration and imaging, print and electronic publishing, animation, video, 3D modeling and animation, web design and web programming and other applications that integrate digital media design and art. Labs provide access to color laser printing and scanning and patch station for audio output and digital video projection. Students have access to medium and large-format archival inkjet printing and checkout of cameras and other media equipment through the Digital Output Center. Payment for printing is through lab fees or credit card. With an open studio policy for currently enrolled students, the lab is available over 60 hrs./wk. under the supervision of the lab manager, faculty, and lab assistants. This facility mirrors the real-world graphics environments found in industry in order to better prepare students for positions in the field.

### Painting and Drawing

The painting and drawing rooms are equipped with architectural-quality drafting tables and large easels. Each studio has wall space for critiques and large-scale projects. Model platforms, mat cutters, props and tools for the construction of painting supports are available. The Art Visual Resource Library maintains a collection of slides of student work for reference.

### Photography

The photography facilities include a black & white darkroom, a conventional color darkroom, a color processing lab, and an advanced digital lab. Facilities also include shooting studios/classrooms. Equipment includes: Speedotron, Bowens Calumet Travelite, and Interfit flash systems, as well as Smith Victor, Arri and Lowell hot lights, Sekonic light meters, Manfrotto and Oben tripods, large-format Omega enlargers, a 30" Colenta processor, and a NuArc mercury exposure unit. Cameras available for student use include: Hasselblad H5D DSLR, Mamiya 7 and RZ medium format systems, Cambo, Chamonix, and Toyo 4x5 field cameras. A five station advanced digital lab is equipped with iMac stations, Imacon Flextight X1 scanners, a Nikon 5000EDLS scanner, Epson XL10000 and, Epson 750 scanners, and Epson 3880 and 4880 printers. The David and Lenore Levy Collection of Contemporary Photography is available for student and faculty study in all areas of the Art Department.

### Printmaking

The studio is equipped for the teaching of intaglio, lithography, relief processes including woodcut and lino-cut, collagraph, carborundum aquatint, water-based silk-screen, photo-printmaking in etching, silkscreen, lithography, and combinations of all the print media. The Printshop houses three etching, one relief and two lithography presses. There is a 62" x 62" Duhit plate maker with a deep well blanket, a plate cutter, large hot plate, aquatint box, large aluminum bed for lithographic plates, lithographic stones in a full range of sizes, a queen size drying rack, numerous rollers of various durometers and dimensions, a hydrobooth and hydroblaster for silk screen, a large format ink jet printer to facilitate the production of oversized images and a Universal laser cutter with a 12" x 24" cutting bed. The integration of equipment for digital and photographic processes with conventional printmaking equipment allows for the full range of printmaking experiences.

### Sculpture

The sculpture studio facility is amply equipped for the creation of traditional and non-traditional three-dimensional art. It accommodates various techniques including wood assemblage, construction, woodcarving, plaster, clay, and stone carving. There is a small efficient area for metal fabrication with metal working tools including mig welders and plasma cutters. The studio also houses a basic wood design shop with a table saw, jointer, surfacing tools, hand tools, and several band saws.

## Visual Media Lab

Located in the Compton-Goethals building in Room 245A, the Visual Media Lab is a facility that offers digital media resources to students and faculty in the Art Department at CCNY. Fostering community between the labs in the EDM and Photography programs and building on the model of the former slide library, the VML serves as a supplemental facility that provides technology and image resources in a welcoming learning-based setting. By providing various workshops, the VML offers students and faculty access to tools to work on their class projects and the confidence to apply those tools successfully and creatively.

---

### Art Department

The Art Department sponsors exhibitions, guest lectures and appearances by visiting artists throughout the academic year. Student exhibitions are organized each year in the Art Gallery.

### Student Art Societies

Student organizations have been formed around topics of art history, electronic design and multimedia and photography. These groups are open to all students and generally promote and stimulate various forms of art at the college.

## Awards and Scholarships

---

The Art Department grants the following annual awards, including:

#### **Fitzgerald Bynoe Scholarship**

For a male student in his junior year who is concentrating in painting or drawing and has a GPA above 3.0.

#### **The Therese McCabe Ralston Connor Awards**

For art majors with promise of outstanding achievement.

#### **The Dean's Prize in Art**

Provides framing for a student work selected for a year-long loan to the Dean's office.

#### **The George William Eggers Art Alumni Achievement Award**

For excellence in a specific field of art.

#### **Nancy and Lawrence Greengrass Scholarship**

For a sophomore or junior with a 3.0 GPA or higher.

#### **The Joe Harris Scholarship for Excellence in Photography**

An annual award of excellence for one or two students of color who are pursuing studies in photography.

#### **Adelaide Jablonsky Award**

For a promising sophomore or junior in the area of three-dimensional design. For a sophomore or junior with a 3.0 GPA or higher.

#### **The Joe Harris Scholarship for Excellence in Photography**

An annual award of excellence for one or two students of color who are pursuing studies in photography.

#### **The Joe Harris Scholarship**

An annual award of excellence for one or two students of color who are pursuing studies in photography.

#### **Seymour Peck Awards in the Arts**

For a sophomore or junior demonstrating an overall proficiency in art.

#### **The Holly T. Popper Art Scholarship**

For an outstanding graduating female City College art major to study in an M.F.A. program in the Art Department.

#### **The Provost's Prize in Art**

Provides framing for a student work selected for a year-long loan to the Provost's office.

#### **The Jacob Rothenberg Award for Excellence in Art**

For an outstanding student who has demonstrated excellence in all courses.

#### **The James R. Steers Prize**

For general excellence in art.

## Faculty

Molly Aitken, Associate Professor

*B.A., Harvard Univ.; M.A., Columbia Univ., M.Phil., Ph.D.*

Becca Albee, Professor

*B.A., Evergreen State College; M.F.A., Univ. of North Carolina at Chapel Hill*

Patterson Beckwith, Lecturer

*B.F.A, Cooper Union; M.F.A., Univ. of California (Los Angeles)*

Joshua Cohen, Associate Professor

*B.A., Vassar College; Ph.D. Columbia Univ.*

## City College

Jayne Cole, Lecturer

*B.A., Luther College; M.A., University of St. Thomas; Ph.D., University of Oregon*

Marit Dewhurst, Professor

*B.A., Univ. of Michigan; Ed.M., Harvard University, Ed.D.*

Carl Fudge, Assistant Professor

*B.F.A., Brighton University; M.F.A., Tyler School of Art*

Leopoldo Fuentes, Assistant Professor

*B.F.A., California State Univ. (Los Angeles); M.F.A., Northwestern Univ.*

Ellen Handy, Associate Professor

*B.A., Barnard College; Ph.D., Princeton Univ.*

Sherry Muyuan He, Assistant Professor

*B.A., Macalester College; M.F.A., Minneapolis College of Art and Design*

Craig Houser, Lecturer

*B.A., Carleton College; M.A., Hunter College; M. Phil., CUNY Graduate Center, Ph.D.*

Anna Indych-López, Professor

*B.A., New York Univ., M.A., Ph.D.*

Lise Kjaer, Lecturer

*M.F.A., Academy of Fine Arts (Poland); M. Phil., CUNY Graduate Center, Ph.D.*

Abby Kornfeld, Assistant Professor

*B.A., Cornell University; M.A. New York Univ., Ph.D.*

Hajoe Moderegger, Professor

*M.F.A. Bauhaus-University Weimar (Germany)*

Sylvia Netzer, Professor

*B.A., City College; M.F.A., Columbia Univ.*

Pilar Newton, Assistant Professor

*B.F.A., Rhode Island School of Design; M.F.A., School of Visual Arts*

Mark Smith, Associate Professor

*B.F.A., Georgia State Univ.; M.F.A., School of the Art Institute of Chicago*

Tom Thayer, Professor

*B.F.A., Northern Illinois Univ., M.F.A.*

## Programs

## ART-BA - Art

### Overview

Institution Code  
CTY01

Official Name of Program  
Art

Plan Code Department(s) Sponsoring Program  
ART-BA Art

Career Degree Designation  
Undergraduate BA - Bachelor of Arts

### Requirements

#### Simple Requisites

**Degree Requirements - Bachelor of Arts**  
Type  
Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 120 credits

AND

Earn at least 30 credits  
30 credits must be taken at The City College.

AND

Earn a minimum GPA of 2.0

- Some majors may require a higher GPA

Earn at least 90 credits

- Minimum amount of liberal arts content required for Bachelor of Arts.

**Additional Comments:**

**General Education Requirements - Required (Fixed) Common Core**  
Type  
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 2 courses in the following course sets:

- Required Core English Composition
- English Composition I (usually FIQWS)
- English Composition II (usually ENGL21000 Intro To Academic Writing, depends on major; refer to your advisor for the appropriate course)

AND

Complete at least 1 courses in the following course sets:

- Required Core Mathematical and Quantitative

Reasoning

- Depends on major (refer to your advisor for the appropriate course)

AND

Complete at least 1 courses in the following course sets:

- Required Core Life and Physical Sciences
- Depends on major (refer to your advisor for the appropriate course)

12 credits / 4 courses

**Additional Comments:**  
Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.  
  
Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

**General Education Requirements - Flexible Common Core**  
Type  
Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 of the following:

BA/BFA majors

Complete at least 2 courses in the following course sets:

- Flexible Core World Cultures and Global Issues

One from each subgroup

- Literature
- Global History and Culture

AND

Complete at least 1 courses in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Scientific World

**Additional Comments:**

18 credits / 6 courses

Students will complete at least one course in each of the five Flexible Core areas and an additional sixth course in one of them. Students can complete no more than two courses from any one discipline or interdisciplinary field. The list of courses that satisfy this requirement changes from semester to semester - check our checklist to see what alternatives are available next semester.

Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.

Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

**General Education Requirements - College Option**

**Type**

Completion Requirement

**Philosophy, 3 crs.; Foreign Language, 9 crs. in a single language, or exemption on the basis of demonstrated proficiency.**

12 credits / 4 courses

Students at City College are required to take 12 additional credits of General Education. Transfer students will need to take 6 to 12 College Option credits depending on (a) whether they are transferring from a four-year or a two-year degree program, (b) whether they have completed an A.S. or A.A. (c) how many credits they had at the time of transfer, and (d) whether they have coursework that counted towards the completion of the College Option at their previous institution. Visit: <http://www.cuny.edu/academics/initiatives/pathways/gened/college-option.html> for more details on the College Option requirement for transfer students and consult an advisor.

**Additional Comments:**

**Major Requirements - Overall**

**Type**

Completion Requirement

Requirements for Art Majors

Earn at least 44 credits

Earn a minimum GPA of 2.5

- Students are required to have a GPA of 2.5 in order to declare a B.A. or B.F.A. Art major and must maintain that GPA in order to remain in the program.

**Additional Comments:**

**Major Requirements - Core Courses**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ART 10000 - Introduction to the Visual Arts of the World
- ART 21000 - Writing About Art

AND

Courses required for all majors

Complete ALL of the following Courses:

- ART 10100 - Two-Dimensional Design.

AND

One course from the following 2-Dimensional Group: (3 credits)

Complete at least 1 of the following courses:

- ART 10100 - Two-Dimensional Design.
- ART 10200 - Introduction to Drawing
- ART 10300 - Intro To Woodcut
- ART 10310 - Etching/Bookbinding
- ART 10400 - Introduction to Photography
- ART 10410 - Photography and Visual Perception
- ART 10500 - Introduction to Painting

AND

One course from the following 3-Dimensional Group: (3 credits)

Complete at least 1 of the following courses:

- ART 10600 - Introduction to Sculpture
- ART 10700 - Introduction to Ceramic Design
- ART 10800 - Introduction to Wood Design
- ART 10900 - 3-D Design

**Additional Comments:**

**Major Requirements - Studio Art Concentration**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 courses in the following course sets:

- Art History Group I

AND

Complete at least 2 courses in the following course sets:

- Art History Group II

AND

Complete at least 1 courses in the following course sets:

- Art History Group I
- Art History Group II

AND

Earn at least 9 credits

- Studio Art electives

AND

Earn at least 12 credits

- Studio Art electives at the 20000-level or above

Additional Comments:

**Major Requirements - Art History Concentration**

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 2 courses in the following course sets:

- Art History Group I

AND

Complete at least 4 courses in the following course sets:

- Art History Group II

AND

Complete at least 2 courses in the following course sets:

- Art History Group I
- Art History Group II

AND

Earn at least 6 credits

- Studio Art electives

AND

Complete ALL of the following Courses:

- ART 21090 - Research Methods in Art History

Additional Comments:

**Major Requirements - Digital Design Concentration**

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ART 21067 - History of Design  
OR ART 21068 - History of Graphic Design

AND

Complete at least 1 courses in the following course sets:

- Art History Group I

AND

Complete at least 2 courses in the following course sets:

- Art History Group II

AND

Earn at least 9 credits

- EDM electives at the 30000-level or above, with prerequisites

AND

Complete ALL of the following Courses:

- ART 49590 - Digital Design Portfolio

Additional Comments:

**Major Requirements - Photography Concentration**

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ART 31534 - History of Photography
- or any Photography Art History course

AND

Complete at least 1 courses in the following course sets:

- Art History Group I

AND

Complete at least 1 courses in the following course sets:

- Art History Group II

AND

Complete at least 1 courses in the following course sets:

- Art History Group I
- Art History Group II

AND

Earn at least 9 credits

- Studio Art or Photography electives

AND

Earn at least 9 credits

- Photography electives at the 30000-level, with prerequisites

————— AND —————

**Complete ALL of the following Courses:**

- ART 34000 - Photo Portfolio and Projects

**Additional Comments:**

**Major Requirements - Teaching Art K-12 Concentration**  
 Type  
 Completion Requirement

**Fulfill ALL of the following requirements:**

**Complete at least 1 courses in the following course sets:**

- Art History Group I

————— AND —————

**Complete at least 1 courses in the following course sets:**

- Art History Group II

————— AND —————

**Earn at least 9 credits**

- Any three additional studio courses, including at least one 20000-level, and one 30000-level

————— AND —————

**Complete ALL of the following Courses:**

- ART 15500 - Introduction to Art Education
- ART 25500 - Identity and Culture in Art Education

**Additional Comments:**

## EDM-BFA - Electronic Design and Multimedia

### Overview

**Institution Code**  
CTY01

**Official Name of Program**  
Electronic Design and Multimedia

**Plan Code**  
EDM-BFA

**Department(s) Sponsoring Program**  
Art

**Career**  
Undergraduate

**Degree Designation**  
BFA - Bachelor of Fine Arts

### Requirements

#### Simple Requisites

#### B.F.A. Prerequisites for Admission

**Type**  
Prerequisite

Students seeking admission must present a portfolio for review to the EDM admissions committee. The portfolio should demonstrate aptitude; finished, professional work is not a criterion. The committee is looking for raw ability, talent, and motivation. Students lacking a portfolio may enter the college in the B.A. program, and may apply to the B.F.A. after completing level 10000 and 20000 courses in the major. Transfer students in art must apply before completing 72 credits. Transfer students in other majors are also subject to the 72 credit rule. These students will submit a portfolio of work from those classes and be evaluated by the program's instructors. A GPA of 2.5 will be required for all students to be accepted into the B.F.A. in Electronic Design & Multimedia.

Additional Comments:

#### B.F.A. Program Requirements

**Type**  
Completion Requirement

The B.F.A. Program in Electronic Design and Multimedia requires a total of 75 credits in the major, plus the college core for the B.F.A. of 42 credits, with additional credits in Liberal Arts electives making up the total of 120 credits toward the degree. Students must also fulfill the City College foreign language requirement. These requirements may raise the total credits needed for completion above 120.

Additional Comments:

#### B.F.A. Graduation Requirements

**Type**  
Completion Requirement

B.F.A. students are required to take Senior Thesis and complete a one-semester creative project under faculty supervision. Thesis students mount an exhibition of their projects and prepare a book that includes their thesis and also documents the process of their project in print and digital media. A copy of the book is retained by the department and kept on file with the EDM Program. Additionally, students may be required to complete an internship in an area related to their major concentration.

Additional Comments:

Degree Requirements - Bachelor of Fine Arts

**Type**  
Completion Requirement

**Fulfill ALL of the following requirements:**

Earn at least 120 credits  
The last 30 credits must be taken at The City College.

AND

Earn at least 30 credits  
Earned a minimum of 30 credits in liberal arts content.

AND

Earn a minimum GPA of 2.5  
Students are required to have an overall GPA of 2.5 in order to declare a BFA Electronic Design & Multimedia major and must maintain that GPA in order to remain in the program.

**Additional Comments:**

**General Education Requirements - Required (Fixed) Common Core**

**Type**  
Completion Requirement

**Fulfill ALL of the following requirements:**

Complete at least 2 courses in the following course sets:

- Required Core English Composition
- English Composition I (usually FIQWS)
- English Composition II (usually ENGL21000 Intro To Academic Writing, depends on major; refer to your advisor for the appropriate course)

**General Education Requirements - College Option**

**Type**

Completion Requirement

Complete at least 1 of the following:

College of Liberal Arts and Sciences : BA candidates

Philosophy, 3 crs.; Foreign Language, 9 crs. in a single language, or exemption on the basis of demonstrated proficiency.

OR

College of Liberal Arts and Sciences : BS and BFA

Philosophy, 3 crs.; Speech, 3 crs. or exemption on the basis of demonstrated proficiency; Foreign Language, 6 credits in a single language, or exemption on the basis of demonstrated proficiency

OR

School of Education : Childhood

Fulfill ALL of the following requirements:

Speech, 3 crs. or exemption on the basis of demonstrated proficiency

AND

Complete ALL of the following Courses:

- EDCE 20000 - Inquiry in Education
- EDCE 20600 - Observing Children and Their Development
- EDCE 22200 - Schl Amer Soc BlnG  
OR EDUC 22100 - Urban Schools in a Diverse American Society

OR

School of Education : Bilingual Childhood Ed

Fulfill ALL of the following requirements:

Speech, 3 crs. or exemption on the basis of demonstrated proficiency

AND

Complete ALL of the following Courses:

- EDCE 20000 - Inquiry in Education
- EDCE 20600 - Observing Children and Their Development
- EDCE 22200 - Schl Amer Soc BlnG

OR

School of Education : Secondary Education

Per the College Option of the student's content area major

OR

Grove School of Engineering : Chemical, Civil, Computer, Mechanical, and Earth System Science & Environmental Engineering majors

Fulfill ALL of the following requirements:

Two liberal arts courses to be chosen from the list of Grove School of Engineering-approved liberal arts courses

AND

Complete ALL of the following Courses:

- MATH 20200 - Calculus II
- MATH 39100 - Methods of Differential Equations

OR

Grove School of Engineering : Biomedical Engineering majors

Fulfill ALL of the following requirements:

One liberal arts course to be chosen from the list of Grove School of Engineering-approved liberal arts courses

AND

Complete ALL of the following Courses:

- MATH 20200 - Calculus II
- MATH 39100 - Methods of Differential Equations
- MATH 39200 - Linear Algebra and Vector Analysis for Engineers

OR

Grove School of Engineering : Electrical Engineering majors

Fulfill ALL of the following requirements:

One liberal arts course to be chosen from the list of Grove School of Engineering-approved liberal arts courses

AND

Complete ALL of the following Courses:

- ENGR 27600 - Engineering Economics

AND

Complete ALL of the following Courses:

- MATH 20200 - Calculus II
- MATH 39100 - Methods of Differential Equations

OR

Grove School of Engineering : Computer Science majors

Complete ALL of the following Courses:

- MATH 20200 - Calculus II
  - MATH 34600 - Elements of Linear Algebra
  - SPCH 11100 - Foundations of Speech Communication
  - ENGR 27600 - Engineering Economics
- OR ECO 10400 - Introduction to Quantitative Economics

OR

Spitzer School of Architecture

Fulfill ALL of the following requirements:

Philosophy, 3 crs; Speech, 3 crs., or exemption on the basis of demonstrated proficiency

AND

Complete ALL of the following Courses:

- AES 23202 - Survey of World Architecture I
- AES 24202 - Survey of World Architecture II

OR

Sophie Davis School of Biomedical Education : BS/MD

Complete ALL of the following Courses:

- PHYS 20300 - General Physics I
- PHYS 20400 - General Physics II
- MED 20400 - Molecules To Cells I

OR

Sophie Davis School of Biomedical Education : Physician's Assistant B.S.

Complete ALL of the following Courses:

- PA 39100 - Microbiology
- PA 38100 - Physiology 1
- PA 38200 - Physiology 2
- PA 30400 - Obstetrics and Gynecology
- PSY 32400 - Psychologies of People in Place: From Climate Change to Gentrification

OR

Center for Worker Education

Please contact the Center for specific information.

12 credits / 4 courses

Students at City College are required to take 12 additional credits of General Education. Transfer students will need to take 6 to 12 College Option credits depending on (a) whether they are transferring from a four-year or a two-year degree program, (b) whether they have completed an A.S. or A.A. (c) how many credits they had at the time of transfer, and (d) whether they have coursework that counted towards the completion of the College Option at their previous institution. Visit: <http://www.cuny.edu/academics/initiatives/pathways/gened/college-option.html> for more details on the College Option requirement for transfer students and consult an advisor.

Additional Comments:

Major Requirements - Program Core

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- ART 10000 - Introduction to the Visual Arts of the World
- ART 10100 - Two-Dimensional Design.
- ART 21000 - Writing About Art
- ART10100 Two-Dimensional Design, required for all majors.

AND

2-D Group

Complete at least 1 of the following courses:

- ART 10200 - Introduction to Drawing
- ART 10300 - Intro To Woodcut
- ART 10310 - Etching/Bookbinding
- ART 10400 - Introduction to Photography
- ART 10410 - Photography and Visual Perception
- ART 10500 - Introduction to Painting

One course from the following 2-Dimensional Group: (3 credits)

AND

3-D Group

Complete at least 1 of the following courses:

- ART 10600 - Introduction to Sculpture
- ART 10700 - Introduction to Ceramic Design
- ART 10800 - Introduction to Wood Design
- ART 10900 - 3-D Design

One course from the following 3-Dimensional Group: (3 credits)

AND

Required EDM Courses

Complete ALL of the following Courses:

- ART 29500 - Typography I
- ART 29510 - Graphic Design Concepts
- ART 29520 - Illustration
- ART 29526 - 2D Imaging and Illustration
- ART 39510 - Electronic Design I
- ART 39512 - Production for Digital Media
- ART 39540 - Web Design I
- ART 39552 - Programming for Artists
- ART 39560 - Digital Video 1
- ART 39590 - Crit Iss:Des-Tec-Med
- ART 49590 - Digital Design Portfolio
- ART 49598 - Senior Thesis

Additional Comments:

#### Major Requirements - Studio Electives

Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 courses in the following course sets:

- Art 40000 Series

AND

Complete at least 3 courses in the following course sets:

- Art History Group I
- Art History Group II
- One of these courses must be from **Art History Group I** (Visual Arts of the Ancient to Early Modern Worlds), and **two** courses must be from **Art History Group II** (Visual Arts of the Modern World) (9 credits)

AND

Complete at least 1 of the following courses:

- ART 21067 - History of Design
- ART 21068 - History of Graphic Design

Additional Comments:

Of the five required elective courses (15 cr.) for the B.F.A., a minimum of two (6cr.) must be selected from Art courses at the 400-level. (15 credits)

Total B.F.A. Credits (including department core) 75

#### Honors and Research

Qualified students may be approved for honors work in studio projects ([ART31591 Honors-Studio Art-31593](#)) or art historical research ([ART31094 Honors In Art History I-31096](#)).

## Courses

### ART 10000 - Introduction to the Visual Arts of the World

#### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	10000

**Course Title**  
Introduction to the Visual Arts of the World

**Department(s)**  
Art

**Description**  
Concepts underlying content, formal structure and historical development of the visual arts; art as a global phenomenon from prehistory to the present; relationship of art to the natural world, the built environment, political and other human institutions, and the realm of spirituality.

**Academic Career**  
Undergraduate

<b>Liberal Arts</b>	<b>Requirement Designation</b>
Yes	FCE - Flexible Core - Creative Expression

**Permission Type**  
No Special Consent Required

#### Credits

<b>Minimum Units</b>	<b>Maximum Units</b>
3	3

### ART 10001 - Introduction To Art For Honors Students

#### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	10001

**Course Title**  
Introduction To Art For Honors Students

**Department(s)**  
Art

**Description**  
This course will introduce the students to World Art through a study of painting, sculpture and architecture made in Europe, America, Africa, and Asia. We will analyze a number of key works from prehistoric times to the present day, as we view them in relation to their social and historical context. Additionally to the chronological approach, we will also discuss a number of questions and issues pertaining to art throughout the ages, including issues of cultural property, gender and cultural identity, orientalism, colonialism, primitivism, and postcolonialism.

## ART 10100 - Two-Dimensional Design.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	10100

Course Title  
Two-Dimensional Design.

Department(s)  
Art

Description  
Introduction to the principles of two-dimensional concepts to explore visual vocabulary in design. Particular emphasis is made on representational and abstract aspects of composition to describe shape, structure, and space. Other design issues focus on the application of pictorial elements through pattern, texture, rhythm, balance, gravity, line, and the illusion of three-dimensional effects on two-dimensional surfaces. Color principles, the interaction of color, color phenomena, and the function of color in design are closely examined.

## ART 10200 - Introduction to Drawing

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	10200

Course Title  
Introduction to Drawing

Department(s)  
Art

Description  
Drawing emphasizing fundamentals of visual perception, representation, abstraction, and pictorial organization. Introduction to the practice and articulation of elements of drawing involving composition, armature, structure, form, volume, line, texture, value, and space. Observation and specific problems stress experimentation with a variety of drawing materials including dry and aqueous media. Various papers and drawing surfaces are also examined during the course.

## ART 10300 - Intro To Woodcut

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	10300

**Course Title**  
Intro To Woodcut

**Department(s)**  
Art

**Description**  
This course will explore the fundamentals of woodblock printing. Projects presented in class will introduce students to a wide range of woodblock printing techniques: chiaroscuro, reduction printing, and multicolor printing. Woodblock printing will be discussed in relation to the history of printmaking and its relevance in contemporary art making practices. Students will examine the interrelated nature of form, process, expression, and meaning.

## ART 10303 - Introduction to Printmaking methods

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	10303

**Course Title**  
Introduction to Printmaking methods

**Department(s)**  
Art

**Description**  
This course will explore the fundamentals of three of the most common types of printmaking; Relief (linoleum), Intaglio, and Screen-printing. The class will be separated into four quarters, three will be focusing on each of the aforementioned techniques. The concluding segment will have students choose from the three disciplines for their final project. Projects presented in class will introduce students to the basics of each technique and the aesthetic, conceptual, and technical aspects behind them. The history of printmaking will be discussed in relation to its relevance in contemporary art making practices. Students will examine the interrelated nature of idea, form, process, personal expression. No printmaking experience is required.

## ART 10305 - Introduction to Etching

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	10305

Course Title  
Introduction to Etching

Department(s)  
Art

**Description**  
This course will examine the methods and materials of etching. Projects presented in class will introduce students to the breadth of the etching process. Techniques such as dry point, hard ground, soft ground and aquatint will be explored. A series of small editions will be made with each medium. The class will expand the student's approach and understanding of aesthetics and technologies within contemporary printmaking and will instill safe and productive work habits for an ongoing studio practice. Work will be assessed with individual and group critique throughout the semester. Individual assignments may also be given to direct/affect personal research.

## ART 10306 - Introduction to Monoprints: development of serial imagery using intaglio techniques

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	10306

Course Title  
Introduction to Monoprints: development of serial imagery using intaglio techniques

Department(s)  
Art

**Description**  
With this course students will explore the varied processes of intaglio to make unique prints that explore an image serially. Methods of intaglio; dry point, hard ground, soft ground, chine collé and aquatint will be used in developing matrices on zinc or plexiglass plates. Demonstrations of the various intaglio techniques will take place during the semester. Students will be encouraged to create several series using multiple plates, each exploring distinct technical and stylistic approaches. The class will expand the student's approach and understanding of aesthetics and technologies within contemporary printmaking and will instill safe and productive work habits for an ongoing studio practice. Work will be assessed with individual and group critique throughout the semester. Individual assignments may also be given to direct/affect personal research.

## ART 10310 - Etching/Bookbindng

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	10310

**Course Title**  
Etching/Bookbindng

**Department(s)**  
Art

**Description**  
This course will explore fundamental etching techniques such as hard ground, aquatint and spit bite. Projects presented in class will introduce students to a wide range of mark marking and imagery. Combining different techniques will be emphasized. Some prints will be formatted for traditional and non-traditional books. Bookbinding will be introduced and various techniques will be demonstrated.

## ART 10710 - Architectural Ceramics

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	10710

Course Title  
Architectural Ceramics

Department(s)  
Art

Description  
Architectural ceramics is the use of clay to make structural and decorative elements for the built environment. This course is an introduction to basic skills and techniques of ceramics' pinchpot, coil, and slab as taught through the prism of architectural tiles and decorative units. There are field and museum trips to see firsthand the rich multicultural history of ceramic tile and ornament. Provides students with hands-on experience making single and multiple forms. Learn how to make and use plaster press molds, plaster slipcasting molds, and the extruder. Form making, kiln firing, and glazing are covered in this alternate way of exploring the special plastic properties of clay.

## ART 10800 - Introduction to Wood Design

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	10800

**Course Title**  
Introduction to Wood Design

**Department(s)**  
Art

**Description**  
This is a course that provides an introduction to design and fabrication with wood as the primary medium. The projects will explore the intrinsic qualities of wood and creative design, from sketch to final form. The goal is to create work that shows a cohesive integration of design, material and execution. The safe use and the proper use of hand and power tools is a vital component of this course.

## ART 21510 - Art & Protest

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	21510

**Course Title**  
Art & Protest

**Department(s)**  
Art

**Description**  
This course offers the opportunity to reflect upon the relationship between art and activism by applying, in students' own creative work, critical tools and methods generated by contemporary theory and social history. While art is often perceived as unrelated to and independent of politics and social history, this course will examine how these underlying contexts affect aesthetics. Many artists have resisted traditional and conventional approaches to art in order to inform us of the existence of other perspectives, histories and voices. Through creative projects and the exposure to other artists' works, readings and films, this course will explore the realities within which images are made. Some of many questions for contemplation and discussion include: What is taste and how is it acquired? Who is responsible for the writing of our history? What is the relationship between money and art history? To what extent do artists simply parrot traditional values in their work? What outlets are available for activist artists? Have alternative aesthetics and radical activities challenged the writing of mainstream representation? How can artists define a political/activist position, and what responsibility do they bear in making images?

ART 31000

Course Title  
How We Know Objects: exploring the Arts of Asia

Department(s)  
Art

Description  
This course takes a hands-on approach to the arts of Asia to think about how we encounter objects from our diverse contemporary perspectives. We work from the here and now back into the past, gradually estranging ourselves from our habits of experiencing to discover the ways that Asian objects once were known. This class puts curiosity and exploration front and center.

## ART 31023 - Portraiture Africa & Diaspora

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
ART                                      31023

Course Title  
Portraiture Africa & Diaspora

Department(s)  
Art

Description  
This course addresses portraiture in Africa and the African diaspora. The main focus is photography, but we will also consider portrait-making in other mediums, such as sculpture, painting and collage. The course is structured to allow students to think comparatively across contexts. We will particularly explore tendencies among contemporary artists to cite earlier portrait forms.

## ART 31077 - Memorials Today: Appropriate Subjects, Spatial Contexts, Best Practices for Removal

### Overview

Academic Institution  
CTY01

Subject area    Catalog Number  
ART    31077

Course Title  
Memorials Today: Appropriate Subjects, Spatial Contexts, Best Practices for Removal

Department(s)  
Art

Description  
This course asks what the appropriate subjects for memorials are today. What are the implications of comporting victims as if they were heroes? How does the memorial site affect the content? What factors should be considered in determining if a memorial should be removed. This will include the recommendations of the Mayoral Advisory Commission on City Art, Monuments, and Markers, of which Professor Senie was a member.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31115

**Course Title**  
Public Art in the U.S.

**Department(s)**  
Art

**Description**  
This course presents a historical overview of public art in the United States, focusing on key paradigms: memorials, non-commemorative sculpture, landscape or urban design projects, and social interventions. It includes class visits to major public art commissioning agencies such as Percent for Art (Department of Cultural Affairs), MTA Arts for Transit and Creative Time. Requirements consist of take-home midterm and final exams, several short writing assignments, weekly classroom group discussions and presentations.

## ART 31118 - Themes and Methods of African Arts

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
ART                                      31118

Course Title  
Themes and Methods of African Arts

Department(s)  
Art

Description  
Dynamic sculptures, textiles, masquerades, assemblages, photography, and architecture made from a variety of materials constitute some of the arts that diverse artists from across West Africa have historically produced. Using a thematic approach, students examine a range of arts linked to the continent and investigate similarities and differences in strategies of artistic production. Students also consider different methods scholars have developed to understand such arts.

## ART 31122 - International Pop Art

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31122

Course Title  
International Pop Art

Department(s)  
Art

**Description**  
Andy Warhol's soup cans and Roy Lichtenstein's comic strip art are well known as quintessential Pop art, the wildly popular movement that is identified with the 1960s in the U.S. Less well known is the fact that Pop art was an international art movement, as demonstrated by the exhibition "International Pop" at the Philadelphia Museum of Art in spring 2016. This course, like the exhibition, traces the migration of the style from the UK to the US to western and eastern Europe, Latin America, and Japan. It will focus on the distinct forms of the style in each region as well as the shared interest in mass media, consumerism.

## ART 31124 - Contemporary U.S. Latin@Art

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31124

**Course Title**  
Contemporary U.S. Latin@Art

**Department(s)**  
Art

**Description**  
This course serves as an introduction to art made by artists of Latin American descent born or raised in the United States. We begin with a survey of artists who immigrated from Latin America and the Caribbean to make their careers in New York City in the late 1960s. This includes artists such as ADAL, Luis Camnitzer, Agustin Fernandez, Rafael Ferrer, Rolando Peña, the New York Graphic Workshop, Marisol, Catalina Parra, Liliana Porter, Fanny Sanin, and Ana Mendieta. Following this generation of early immigrants, students will be introduced to artists of Latin American and Caribbean descent born in United States or who immigrated in their youth, including Juan Sánchez, Raphael Montanez Ortiz, Maria , and Sophie Rivera. The course also takes stock of some of the earliest exhibitions that featured U.S. based Latino artists as well as newer exhibitions that focus on younger generations, including selections of Latin@ artists from biennials presented at El Museo del Barrio. Two units on West Coast and Southwest-based artists from the 1970s through the present explore the work of artists such as John Valadez, Gronk, Patsi Valdez, Ester Hernandez, and the collaborative avat-garde Chicano group ASCO. A unit on posters and graphics by Chicano and Puerto Rican artists from the 1970s illustrates the affinities between these groups working on opposite sides of the country. Finally, the course ends with a selection of contemporary artists who represent the diversity of the art scene in New York City including a selection of Latin@ artists who are represented by top galleries and featuring informal artist talks by Dominican (York) artists and a younger generation of Puerto Rican artists.

## ART 31126 - The Harlem Renaissance

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31126

**Course Title**  
The Harlem Renaissance

**Department(s)**  
Art

**Description**  
The newly offered graduate course "Harlem Renaissance" will take an interdisciplinary approach to the early 20th century (1918-1930) African-American urban cultural phenomenon. We will examine primary texts crucial to the movement's foundation. There will be a focus on key figures from the visual arts such as Romare Bearden, Aaron Douglas, Lois Mailou Jones, Augusta Savage and James Van der Zee; as well as contributors in literature, music, theatre, dance and politics. The course includes site visits to the era's important landmarks within the Harlem landscape. Case studies of exhibitions such as the MET's groundbreaking "Harlem on My Mind" and MoMA's recent "One Way Ticket: Jacob Lawrence's Migration Series" will be included. Additionally, we will examine period works from the Permanent Collection of the Studio Museum in Harlem.

## ART 31127 - Postcolonial Art and Exhibitions

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31127

**Course Title**  
Postcolonial Art and Exhibitions

**Department(s)**  
Art

**Description**  
This course will familiarize you with postcolonial art and theory through a global history of exhibitions from 1989 to the present. The "postcolonial" is imbricated with a host of important discourses and concepts: agency, alterity, ecofeminism, hybridity, dislocation, multiple modernities, neo-colonialism, orientalism, and globalization (to name only a few). In order to gain a firm grasp of these ideas, each week we will engage a formative exhibition dealing with postcolonial issues (beginning with Jean-Hubert Martin's "Magiciens de la terre" at the Centre Georges Pompidou in Paris from 1989, one of the first displays to critique Western ethnocentrism in art). This exhibition history is inherently global and we will, broadly speaking, travel from Latin America to Africa, the Middle East, and South Asia. Accompanying these weekly exhibition case studies will be readings in postcolonial theory by influential thinkers, including Homi Bhabha, Dipesh Chakrabarty, Edward Said, Okwui Enwezor, and Franz Fanon.

**ART 31128 - Photography Inventions****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31128

**Course Title**  
Photography Inventions

**Department(s)**  
Art

**Description**  
When, where, why, how and by whom was photography invented? What was early photography like and how did it look? What were its shortcomings, and how was it a marvel of technology? What was the world like before photography? What can we learn from the history of photography's inventions? We know that photography has changed the world (again and again and again) but this course will also explore some of the developments that have changed photography. How do artists, and other users of photography respond to the specific properties of the medium as it is successively re-invented? This course concentrates on the multiple inventions of photography. Working separately in different countries, several individuals sought to invent automatic imaging systems using photo-chemistry and the principles of optics in the 1820s and 1830s. Great minds thought alike, and several different types of photography were born almost simultaneously. We will discuss what scientific/artistic invention is and means--how it happens, as well as exploring the evolution of the photographic medium. We will spend time considering each of the main 19th photographic processes and the remarkable images created in each, as well as the emerging photographic image culture to which each invention contributed. Later in the semester, we will continue to explore how inventions and transformations in technologies shape photographic expressions. The invention of small hand-held cameras using roll film (which made possible amateur photography and so brought photography into everyone's daily lives--as well as making possible the practice of photojournalism), of flash and strobe photography (which allow the capture of motion and the exploration of nocturnal subjects), of color photography and eventually of digital imaging, have all transformed the medium of photography further. Do these successive transformations take photography in new directions, or do they return it to its origins? By studying the history of photography from the perspective of inventions, technologies and transformations, we will gain an overview of the medium.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31133

Course Title  
Graphic Novel

Department(s)  
Art

Description  
Students will design, illustrate and produce (print and/or web) a short graphic novel. Project development will include story structure, character development, plot and dialogue. Students will workshop scripts, storyboards, character model sheets, explore cinematic layout and develop an illustration style suitable for their particular narrative. 3cr/3hr.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31134

Course Title  
Bookbinding

Department(s)  
Art

Description  
Explore the hand bound book with an emphasis on structures for digital design and small scale printing. Printing technologies, papers and binding structures in relation to visual concept. Final products will include three prototypes: Hardcover Pamphlet, Perfect Bound and Lay Flat Drum styles plus one full size, printed and finely bound book in the Hardcover Flat Back style. Students can bring their own digital file for printing and binding or an example file will be provided.

## ART 31136 - Nueva York

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31136

Course Title  
Nueva York

Department(s)  
Art

**Description**  
This site-based class course approaches New York as a Latinx and Latin American city. Much of our work and discussion will take place out in the field, exploring Latinx and Spanish-speaking diasporic visual cultures, sites, and geographies of NYC, although there will be some classroom meetings. We will examine a broad range of material, from prints and murals to film and cuisine. Some events might take place outside of the regularly scheduled class time. The course will encourage non-traditional, creative, and interdisciplinary writing projects. "Nueva York" will center issues of visual spatial politics and Latinx and diasporic creativity and activism in our global city.

## ART 31150 - Contemporary Asian and Asian American Art and Architecture

### Overview

**Academic Institution**  
CTY01

**Subject area**                      **Catalog Number**  
ART                                      31150

**Course Title**  
Contemporary Asian and Asian American Art and Architecture

**Department(s)**  
Art

**Description**  
This seminar introduces a variety of diverse artistic and architectural projects spanning the cultures of East, South, Southeast Asia and the United States from 1945 to the present. Students learn to discuss and analyze key artworks, exhibitions, architectural sites, and urban developments. Course content will be organized both chronologically and thematically. Discussions are linked to a variety of social and theoretical issues pertinent to Asian and Asian American art, such as modernity vs. tradition, Orientalism, nationalism, identity, cosmopolitanism, post-colonialism, urbanization, globalization, and the city. Students engage materials through a series of multi-media presentations, film screenings, interdisciplinary readings, guest lectures by artists and curators, museum and gallery visits, and creative projects.

## ART 31155 - Evidence: Photographic Image, Fact, Document

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31155

Course Title  
Evidence: Photographic Image, Fact, Document

Department(s)  
Art

Description  
This course investigates the status of photographs as evidence in different contexts. How do photo images serve as evidence in history, science, journalism, anthropology, politics, advertising and popular culture? Is a picture worth a thousand words? Can photographs lie? Should we believe our eyes? What philosophical, technical, political and practical presumptions are involved in the use of photographs as evidence? When and how is photographic evidence contested?

## ART 31162 - Gender, Desire and the Gaze in Early Modern Visual Arts

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31162

Course Title  
Gender, Desire and the Gaze in Early Modern Visual Arts

Department(s)  
Art

**Description**  
The course takes a global perspective on gender and sexuality in early modern visual arts. In seminar style, we relate readings to a selection of artworks from Europe, Asia and the Islamic world to think about how early modern visual arts structured erotically charged vectors of looking and being looked at that confirmed, hyperbolized, instrumentalized and even made magic of gender norms. We look at gender play and the regulation of gender in and through the visual arts. The subject of gender before the advent of gender studies offers means to think outside of familiar frames of analysis, and the goal of taking a global perspective is to critique methods that developed primarily in relation to European art. A basic proposition will be that the visual arts have historically been gendered. The hope is to imagine new interpretive horizons.

## ART 31184 - New York City and the Arts

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31184

**Course Title**  
New York City and the Arts

**Department(s)**  
Art

**Description**  
This course will expand the traditional definition of the arts to include the whole built environment of this living, breathing city. Museum and gallery visits as a class, on your own or in small groups focus on art objects and their stories or functions. Along with "fine art" such as painting and sculpture, the class considers "low art," the visual and spatial cityscape of graphic design, photography, and architecture all around us. Themes to be considered include how New York's cultural and architectural histories are interwoven into contemporary artistic production, how history and future are in dialogue; interdisciplinarity among the arts, especially the ways that architecture shapes our experiences in museum and public spaces; and the civic and commercial underwriting of the arts in New York City. The course is discussion-based and every student is expected to participate in the classroom. There will be a variety of short writing assignments such as a personal reflection to an event, a critical review, a museum wall label, and a short research paper. The course fosters collaboration through group projects, class presentations and online discussions.

## ART 31186 - Graffiti & Street Art

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31186

**Course Title**  
Graffiti & Street Art

**Department(s)**  
Art

**Description**  
Artists have always aspired to have their work communicate with everyday people about socially relevant themes in ways that are informed by esthetic values without being imprisoned by them. The ultimate model of this idea is graffiti and street art. This class includes survey of graffiti from the public markings in the Egyptian-Roman periods, through the development of "train bombing" graffiti in the Bronx, to the current boom in global street art making. This class will investigate NYC area as the inception point for classic graffiti and hotbed of unsanctioned art making today by visiting with five writers or street artists, investigating three street or graffiti sites, and visiting museum exhibitions and Chelsea/Lower East Side/Williamsburg gallery shows. They will journal on these experiences and in response to directed readings and films on the topic. The class will conclude with the student presenting their findings on a significant topic related to graffiti or street art.

## ART 31196 - Art in the Age of Black Power

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31196

Course Title  
Art in the Age of Black Power

Department(s)  
Art

Description  
Focusing on art produced within the climate of Black Power, this course examines the range of aesthetic strategies taken up by Black artists during these decades alongside debates around "Black Art" and what it meant to be a Black artist at the time. It will consider activism that agitated for the display of Black artist's work and the hire of Black curatorial staff at established institutions, the creation of Black-run museums and commercial galleries, as well as efforts to circumvent institutional spaces by producing work in the streets and in print. Special attention will be paid to work and activism by Black women artists, as well as to the movement's international dimensions and its intersections with contemporary liberation struggles within the United States, such as the Chicano Movement.

## ART 31333 - Digital Photography: Investigating Personal History

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31333

**Course Title**  
Digital Photography: Investigating Personal History

**Department(s)**  
Art

**Description**  
In this multi-level course, we will focus on documentary photography as a way to investigate personal history. In recent years, contemporary artists have reinvented the documentary genre by altering the photographer's role from observer to protagonist - utilizing techniques like staging, melding fact and fiction, and involving personal narratives. Students will explore the role of artifice, construction, and appropriation in contemporary post-documentary works and create their own projects in response. Regular critiques, readings, and discussions will guide students through the production of a documentary series that involves their own personal and cultural experience. Visual presentations and lectures will introduce a foundation in the history of documentary practices. This class is for students who seek to experiment and reinterpret conventional documentary forms. There are no pre-requisites for this course; beginners are welcome. Basic instructions on how to use digital SLR cameras will be covered in class.

## ART 31505 - Ideas Across Disciplines

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
ART                                      31505

Course Title  
Ideas Across Disciplines

Department(s)  
Art

Description  
In this course students explore an idea they have been working with across different mediums or disciplines. For instance, a student who has been working with a theme in photography will explore that same theme through a performance, or sculpture, or painting, or some combination of those. We will not be dropping their original approach, we would be exploring what happens when these additional angles are added to the body of work...how the different media activate each other. If a student isn't at the point of having an advanced idea or content they are already working with, they will be guided to one.

## ART 31531 - Modern Mexican Art

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31531

**Course Title**  
Modern Mexican Art

**Department(s)**  
Art

**Description**  
This undergraduate course is an in-depth look at the period known as the "Mexican Renaissance" when numerous artists, intellectuals, and government institutions responded to the goals, proposals, and failures of the Mexican Revolution (1910-1920), the first social uprising of the twentieth century. It will provide an overview of Mexican muralism and consider the role of diverse media (easel painting, graphic art, and photography) in expressing issues such as cultural nationalism, gender, class, and race in post-Revolutionary Mexican society. The course is organized as a series of classroom lectures based on slides and selected thematic and chronological topics. A field trip to the Orozco mural at the New School and/or a local museum and/or gallery will provide students with first-hand knowledge of the art under discussion.

## ART 31550 - The Artist in Society: South Asian Perspectives

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31550

**Course Title**  
The Artist in Society: South Asian Perspectives

**Department(s)**  
Art

**Description**  
This course challenges students to think about how concepts of the artist develop in historically and culturally specific ways, and to consider how such concepts influence visual traditions. It focuses on the painters, sculptors, architects and craftspeople of South Asia. Major themes include concepts of art, artist/patron relationships, workshop practices, techniques and materials, tradition and innovation, and differing historical and cultural perceptions of artists. All periods of South Asian art history are covered, but the emphasis is on the 16th to 19th centuries.

## ART 31701 - Animals and Ecology in Contemporary Art

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31701

**Course Title**  
Animals and Ecology in Contemporary Art

**Department(s)**  
Art

**Description**  
This course will examine the growing visibility of animals in contemporary art and eco-political practices. Historical precedents, like Joseph Beuys's performances and the films of Chris Marker, will form the backdrop to the course's main focus on more recent forms of advanced art, such as bio-art, ecological art, and inter-species collaborations. Emphasis will be placed on tracing the profound ways animals have come to be reconfigured in art, online culture, and climate politics. To further their own thinking and practice in relation to these themes, students will also gain critical proficiency through essential readings across a number of different fields, including animal ethics, bio-politics, cognitive ethology, ecofeminism, environmental studies, postcolonial studies, and posthumanist theory.

## ART 31921 - Exhibition Cultures & Africa, Colonial to Postcolonial

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31921

Course Title  
Exhibition Cultures & Africa, Colonial to Postcolonial

Department(s)  
Art

**Description**  
This course examines major paradigms involved in exhibiting art and other work by African practitioners. The first part of the course explores the early influx of African objects to Europe beginning in the 19th century; displays of African arts and culture at Colonial Expositions and other colonial-era venues; issues of commodification and classification; and the construction and presentation of African objects in private settings, art museums, and ethnographic collections. The second part of the course surveys recent curatorial strategies—particularly as related to permanent collections, theme-based exhibitions, and biennials—as well as issues of “authenticity,” provenance, quality, repatriation, and value.

## ART 31923 - Avant-Garde Art in Post-war South Korea in a Global Context

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31923

Course Title  
Avant-Garde Art in Post-war South Korea in a Global Context

Department(s)  
Art

**Description**  
The course examines post-WWII art and visual culture in South Korea and other localities, and investigates why Western notions and forms of the avant-garde held such importance. The complex relationship between art and politics will be explored by examining various manifestations of political and social critique by South Korean artists and intellectuals in art and visual culture, as well as, by artists in other parts of the world. South Korea during the post war years, was primarily led by the military-oriented, authoritarian governments that operated under a Cold War ideology after the Korean War (1950--1953) ended in 1953 until 1993. During this period, while the country’s economic development was on a lightspeed fast track with its American alliance and superficial democratic political system, the negative effects of the economic boom was the severe restriction of human rights and political dissent. Communist witch hunts were prevalent in South Korea as they were in the United States during the McCarthy era. The course will map out the genealogy of the avant-garde in the West, its global circulation, and finally its South Korean renditions. After the midterm exam, the class will focus on several South Korean art collectives which engaged in avant-garde forms of art, music, performance, and literature to advance their cultural and political critique against the military regimes and analyze the various artistic strategies and tactics used by these dissidents to promote democratic reforms. A group of young South Korean artists were banded together in art collectives to mask their dissidence and resistance behind re-contextualized notions of Western avant-garde art. In addition to addressing various topics related to the South Korean and global avant-gardes, this course will also consider postcolonial theories pertaining to South Korea and non-Western cultures, and the histories and theories of protest and activism in art, as well as, a comparative critique of the various global avant-garde arts

**ART 31924 - Photography and the Book****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31924

**Course Title**  
Photography and the Book

**Department(s)**  
Art

**Description**  
The course surveys the photographic medium from its inception to the present by tracing the history of the photographic book. The earliest photographers embraced the book medium, the development of both fine art photography and scientific illustration are linked to photographic books, and today, virtually all printed books are made by means of digital photographic technology. Within the history of photography photobook studies are an increasingly active research area. In an age of increasingly digital image production, photographic books are newly historical artifacts requiring contextualization and analysis. We will consider: the book as an object; image-text relationships; how photographic books relate to the art market and the museum; photographic books and activism; the challenges of incorporating early photographic prints into printed volumes; the relationship of hand-made and mass-produced books; and the development of the photobook genre in the 20th century and its evolution in the 21st centuries.

**ART 31925 - Participatory and Socially Engaged Art****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31925

**Course Title**  
Participatory and Socially Engaged Art

**Department(s)**  
Art

**Description**  
This course examines the history of participation and social engagement as artistic practices. These strategies involve the interaction of publics, spectators, and audiences in video, photography, performance, and installation. We consider antecedents from the historical avant-gardes and international art movements in the 1960s, which lead to the proliferation of such practices in the 1990s and beyond. This more recent history of contemporary art is inherently global. Emphasis will be placed on balancing theoretical texts arguing for participatory approaches—such as Nicolas Bourriaud's influential *Relational Aesthetics* (2001)—with artist statements and understandings of this type of work, from Thomas Hirschhorn, Pierre Huyghe, Adrian Piper, Rirkrit Tiravanija, Ai Wei Wei, and many more.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31931

**Course Title**  
Arts, Education, & Human Rights

**Department(s)**  
Art

**Description**  
Through an exploration of visual art that has been used in prominent human rights campaigns, from protest art to large-scale public installations, this course will explore the intersection of the arts and human rights and how the two intersect to catalyze social change in communities across the globe, and inspire human rights movements. Throughout this course, will become familiar with artists, movements and/or institutions, and practitioners and organizations working at this intersection. Lastly, through collaborative activities and class discussions, students will understand use of the visual arts, as a tool for understanding how societies process and critically reflect upon human rights issues directly impacting them.

Art

Description  
The Taller Grafica Popular in Mexico and the Medu Arts Ensemble in South Africa are both examples of artists collaborating for the rights of others. In this class we'll explore, through studio artmaking projects, the role of drawing, illustration, printmaking and more. We'll also guide you through a historical look at these activist art communities of the 20th Century.

## ART 31935 - Arts Administration & Equity

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31935

Course Title  
Arts Administration & Equity

Department(s)  
Art

Description  
July Session: Wednesdays 6:00pm-9:05pm This course will examine contemporary issues of (in)equity in the administration and facilitation of visual art education programs in the U.S. Students will investigate theoretical frameworks for interrogating the intersection of power, culture and art education, including discourses in critical race theory, feminism, and disability studies among others. Students will be leave with practical approaches for integrating equity-centered choices in their professional work.

## ART 31937 - Drawing Portraits of Everyone You Know

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31937

Course Title  
Drawing Portraits of Everyone You Know

Department(s)  
Art

Description  
Using observational techniques we'll investigate the concepts of confidence and trust through drawing. Portraiture becomes the medium through which we come to know others and ourselves, and, in this class, we'll learn techniques for illustrating a face and using mark-making for creating texture and definition in drawings while making portraits of your friends and family.

## ART 31939 - Interactive Storytelling: non-linear narratives in visual novels, games and film

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31939

Course Title  
Interactive Storytelling: non-linear narratives in visual novels, games and film

Department(s)  
Art

Description  
This course will explore adaptive and nonlinear narratives in visual novels, interactive films, and dialogue systems. Students will develop interactive stories to focus on new techniques in narrative development in video games and film and will discuss the history of interactive media. Students will learn to integrate audience participation and decision-making into the media of their choice. The course will utilize flow-chart software in the creation of these narratives, and the game engine Unity to deploy them and utilize animation, film, and programming to develop collaborative projects. Unity is an industry-standard software in the development of video games and interactive media.

## ART 31940 - Rococo and Neoclassical Art in France and Its Caribbean Colonies, 1748 - 1815

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31940

Course Title  
Rococo and Neoclassical Art in France and Its Caribbean Colonies, 1748 - 1815

Department(s)  
Art

Description  
This course examines the development of Neoclassicism (concomitantly, for a time, with the Rococo) with a particular emphasis on how art both serves as a fashionable style and also elaborates social ideologies, in France and its Caribbean colonies. New and evolving identities (with regard to politics, class, race, gender, and sexuality) emerge in the conflict between France's luxurious but decadent aristocracy and progressive Enlightenment ideals that exploded in cataclysmic revolutions in France and Haiti and in the meteoric rise and fall of Napoleon.

## ART 31941 - Art in Times of Environmental Crises

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31941

**Course Title**  
Art in Times of Environmental Crises

**Department(s)**  
Art

**Description**  
This course explores the history of ecological art beginning in the 1960s up to present-day artists fighting for social, political, and environmental change and the decolonization of nature. In considering art and the environment, our class will be structured according to some of the most urgent issues we currently face, including: pollution, ecocide, species extinction, environmental racism, environmental sexism, pandemics, global warming, and climate change. While our present moment is dire, we will work to find hope in the solutions and tools offered by artists, activists and collectives—from ecofeminists to indigenous rights movements to protest groups like Extinction Rebellion—food empowerment projects and other forms of social mobilization, as well as humanities disciplines outside art history that inform our aesthetic responses to environmental crises. As is only fitting for this course, we will explore and learn about artists, collectives, and activists from all walks of life.

## ART 31943 - Afro-Latinx Art and Activism in the 20th and 21st Centuries

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31943

**Course Title**  
Afro-Latinx Art and Activism in the 20th and 21st Centuries

**Department(s)**  
Art

**Description**  
Over the last century, Afro-diasporic artists in the Americas have continually affirmed the value of their African and Indigenous heritages as sources of inspiration and signs of resistance to the oppressive legacies of colonialism and racism. This course will look at repertoire of tropes and practices that Afro-Latinx artists have employed to visualize Black identity and address the historical subjugation of people of color. Among the questions we will pursue during the semester are: how have constructions of Blackness changed and evolved over time in the Americas; what can we learn from past struggles to advance "Black power" via art and culture; what kinds of artistic projects on behalf of social justice are effective today? Our course begins with a comparative study of the New Negro/ Negritude/ Negrismo movements in the 1920 through the 1940s. In Section II of the course, we will look at work by Afro-Latinx artists involved in solidarity movements to liberate nations in Africa and Latin American with a focus art of the Cuban Revolution. Section III will feature an overview of art and activism during Black Power Movement in the United States. We will also take a deep dive into the history of Afro-Latinx artist-run spaces and collectives in New York, California, Chicago, and Texas during the 1970s and 1980s. Our final classes will examine the global impact of the art of Jean Michel Basquiat, survey works created by Afro-Latinx artists for the Columbus Quincentenary in the 1990s, and feature talks with contemporary Afro-Latinx artists involved in groups such as Black Lives Matter, Decolonize this Place, and The Supper Club.

## ART 31944 - Spanish Colonial / Viceregal Art of Latin America

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31944

**Course Title**  
Spanish Colonial / Viceregal Art of Latin America

**Department(s)**  
Art

**Description**  
This course provides an introduction to the history of painting, sculpture and architecture during the three hundred years of Spanish domination of the Americas from the 16th to the early 19th centuries. Preliminarily providing an overview of colonial history and society, the course focuses primarily on the two main Spanish viceroyalties: New Spain (Mexico) and Peru, touching peripherally the art of the Viceroyalty of New Granada, the Royal Audience of Quito and Guatemala. The course will move chronologically by century between the two main geographical poles of artistic production, simultaneously exploring other contemporary works in other areas. Art issues will be considered from different aspects including techniques, styles, iconography, patronage, historical context, patrimony, and art theory.

## ART 31945 - Gender and Sexuality in Mughal Arts

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31945

**Course Title**  
Gender and Sexuality in Mughal Arts

**Department(s)**  
Art

**Description**  
Early critical theory in art history addressed questions of gender and sexuality to the European tradition, and that shaped how the discipline, even today, conceptualizes the male gaze and the formative role of images in the formation of sexual subjectivities. This class turns to the visual arts of South Asia during the Mughal period (1556-1858) to consider a different regime of gender, sexuality and the image. What does it mean to theorize gender and sexuality outside European traditions? We revisit canonic readings on these topics, as well as examples of critical thinking about gender and sexuality from other areas of art history. We consider how historians of Mughal art have begun to find a way forward to deal with Mughal works of art that put sexuality front and center of political and social discourse, and together we consider possible avenues for the future.

## ART 31946 - Digital Photography: Digital Photography: Investigating Culture and Identity in Fashion

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	31946

**Course Title**  
Digital Photography: Digital Photography: Investigating Culture and Identity in Fashion

**Department(s)**  
Art

**Description**  
In this multi-level course, we will focus on documentary photography as a way to investigate personal history. In recent years, contemporary artists have reinvented the documentary genre by altering the photographer's role from observer to protagonist - utilizing techniques like staging, melding fact and fiction, and involving personal narratives. Students will explore the role of artifice, construction, and appropriation in contemporary post-documentary works and create their own projects in response. Regular critiques, readings, and discussions will guide students through the production of a documentary series that involves their own personal and cultural experience. Visual presentations and lectures will introduce a foundation in the history of documentary practices. This class is for students who seek to experiment and reinterpret conventional documentary forms. There are no pre-requisites for this course; beginners are welcome. Basic instructions on how to use digital SLR cameras will be covered in class.

## ART 31947 - 19th C Latin American Art

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31947

Course Title  
19th C Latin American Art

Department(s)  
Art

**Description**  
This course explores the political, cultural, social, and artistic transformations that took place in Latin America during the 19th century, when battle cries for independence put an end to three hundred of European colonial control. The course will also study the revolutions that ensued, and how art was used in the discourse of national identity mainly throughout the former Spanish and Portuguese American territories.

## ART 31948 - Black Visual Culture

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	31948

Course Title  
Black Visual Culture

Department(s)  
Art

**Description**  
Black Visual Culture This course will provide students with an overall understanding of 20th and 21st century Black visual culture and art-making philosophies in the US and elsewhere. We will examine sculpture, textiles, performance, video, and more produced in the last 50 years or so. The lectures will directly draw upon the skills that students have already developed in literary analysis, critical theory and art history. While looking at the artists in this course, we begin to situate these non textual objects within their wider cultural, literary, historical, socio-political, aesthetic frameworks. We will consider major themes like: cultural representation; identity; trauma; experimentation; history. Foundational formal dimensions including color and composition as well as the aesthetic and political implications of creating art will also be addressed.

## ART 34200 - Art, Place, & Engagement: Harlem Convergence

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	34200

**Course Title**  
Art, Place, & Engagement: Harlem Convergence

**Department(s)**  
Art

**Description**  
This studio art course is conceived as a three part structure; first, a survey of the Harlem neighborhood spanning from the Harlem Renaissance to present, second a survey of socially engaged artists producing work in specific and committed orientation to the locality of their work (both Harlem-based and beyond), and finally the enactment of a neighborhood, group engagement project, designed and implemented by the class. The goal of the course is to provide thoughtful footing in the historic neighborhood City College is situated in, as a means of developing a nuanced understanding and development of community engaged ways of art making. Research and practice will be enhanced by class visits to area organizations such as The Schomburg Center for Black Culture and Research, The Laundromat Project, The Sugar Hill Children’s Museum for Art and Storytelling, and The Brotherhood Sister Sol, and by visits from contemporary, socially oriented artists living and working in the neighborhood today. Socially Engaged Artists come to this work from a broad spectrum of academic backgrounds and life experiences. Potential departmental overlaps of interest, outside of the Art Department may be found from the following CCNY degree programs: Sociology Political Science Gender Studies Black Studies History Teaching, Learning, and Culture

## ART 34300 - Digital Photography & NYC Galleries

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	34300

**Course Title**  
Digital Photography & NYC Galleries

**Department(s)**  
Art

**Description**  
In this multi-level course, we will visit exhibitions in New York City each week focusing on contemporary trends in art photography along with the historic works out of which the trends grow. The heart of the class will revolve around lively group discussions in which students gain insight into ideas and debates occupying photographers and curators in this particular cultural moment. Throughout the course students will create photographic artwork in response to the exhibitions we visit and readings assigned. New York City is the home of institutions that brought art photography to the same stature as painting and sculpture. Beginning with institutions like Stieglitz’s historic 291 Gallery to the numerous museum departments and galleries dedicated to photography today, New York City is a center for debate and presentation of the most innovative contemporary photographic work. Student work will be presented to the group in slideshow presentations. Presentations must highlight how they are engaging or challenging new and fresh territories both aesthetically and conceptually. By identifying their position with respect to the greater array of existing photographic work being produced today students are taking a vital developmental step in their photographic life.

34700

#### Course Title

Large Format Photography

#### Department(s)

Art

#### Description

An introduction to the large format view camera as used in fine art and commercial photography. A studio course covering fundamental camera movements, perspective controls and optics selection, applied lighting set-ups, metering and exposure calculation procedures, and specialized film processing and printing skills. Students will get hands-on experience with the 4x5 inch camera, while fostering a studio sensibility through the development of skills and techniques unique to large format photography. The course will introduce students to another way of seeing by exploring the special properties inherent in large format, while working in a professional, studio environment.

## ART 34800 - Digital Photography Explored through Cinema

### Overview

#### Academic Institution

CTY01

#### Subject area

ART

#### Catalog Number

34800

#### Course Title

Digital Photography Explored through Cinema

#### Department(s)

Art

#### Description

In this multi-level photography course, we will focus on the ways cinema utilizes photography, narrative structure, and poetic expression to investigate various modes of photographic image making. We will explore films by a diverse group of filmmakers including Apichatpong Weerasethakul, RaMell Ross, Wim Wenders and others. After viewing and discussing films as a group students will respond by creating their own photographic sequences. Through discussions and readings students will learn to identify technical aspects of lighting, color, composition, camera angle, close-ups, etc. and engage their symbolic representations. This class is for students who seek to experiment with photography and advance their visual literacy. There are no pre-requisites for this course; beginners are welcome. Basic instructions on how to use digital SLR cameras will be covered in class.

**ART 34900 - Art and Protest****Overview**

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	34900

**Course Title**  
Art and Protest

**Department(s)**  
Art

**Description**  
This course offers the opportunity to reflect upon the relationship between art and activism by applying, in your own creative work, critical tools and methods generated by contemporary theory and social history. While art is often perceived as unrelated to and independent of politics and social history, this course will examine how these underlying contexts affect aesthetics. Many artists have resisted traditional and conventional approaches to art in order to inform us of the existence of other perspectives, histories and voices. Through creative projects and the exposure to other artists' works, readings and films, this course will explore the realities within which images are made. Some of many questions for contemplation and discussion include: What is taste and how it is acquired? Who is responsible for the writing of our history? What is the relationship between money and art history? To what extent do artists simply parrot traditional values in their work? What outlets are available for activist artists? Have alternative aesthetics and radical activities challenged the writing of mainstream representation? How can artists define a pol

## ART 39525 - Illustration as Visual Journalism and Social Activism

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	39525

Course Title  
Illustration as Visual Journalism and Social Activism

Department(s)  
Art

**Description**  
This course in visual journalism incorporates illustration, language, and community, while inviting students to identify and assess current social issues, develop research and interviewing skills, learn storytelling techniques, and master digital/traditional illustration and drawing styles. Working in small groups, students will produce a set of graphic novels or visual essays, each based on research and interviews with people impacted by a variety of social issues, such as racial bias, mental health, or homelessness. Assignments will allow students opportunity to explore a variety of illustration and storytelling tools and methodologies while strengthening their conceptual skills to effectively deliver a message. The class will partner with community-based organizations, advocacy groups, and nonprofits for project research. In addition, artists working in the field of visual journalism will be invited as guest speakers to critique students' midterm and final projects.  
Prerequisite: ART 29520, Illustration.

## ART 39540 - Web Design I

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	39540

Course Title  
Web Design I

Department(s)  
Art

**Description**  
Interface design, information structuring, and interaction design for the Web. Sites will be examined from the perspective of design, utility, and interactivity. Design and development of HTML documents, CSS style sheets, text and images for websites including prototype testing. Students work individually and in teams, and will exit with an online portfolio.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	39542

Course Title  
Web Animation

Department(s)  
Art

**Description**  
This course explores tools and techniques for animation and the design of interactive experience for the Web. Exploration of traditional animation techniques (frame-by-frame animation and tweening) and the development of code-based animation and interactivity. Projects in visual communication for the Web incorporating text, audio, and moving images controlled via Actionscript.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
ART	39544

**Course Title**  
UX/UI Design

**Department(s)**  
Art

**Description**  
Projects in user experience and user interface design (UX/UI) for screen-based, interactive media. Graphic design and front-end (web) design focusing on usability heuristics, information architecture, rapid prototyping, and usability testing. Students will develop user personas, design user flows and wireframes, and develop high fidelity mockups and prototype apps for mobile phones, tablets, and kiosks.

Course Title

Concept Research

Department(s)

Art

Description

This class is recommended for all BFA students who want to prepare for their final thesis or other independent projects. This course examines the creation of an individual project through concepts, research, experimentation and exercises. Through readings, discussions and fieldtrips, students will learn to come up with a strong idea and how to formulate an argument for it.

### Overview

Academic Institution

CTY01

Subject area

ART

Catalog Number

39570

Course Title

3-Dimensional Computer Imaging and Animation I: Foundation

Department(s)

Art

Description

This course provides students with a solid foundation in both the creative and technical aspects of 3-Dimensional image creation on the computer. Topics include 3-Dimensional modeling, animating, lighting, shading, texturing, camera composition and rendering techniques. Both still image and animation will be covered. In addition to discussing a range of 3-Dimensional software programs, this course will explore the role of 2-Dimensional drawing and painting programs in the creation of 3-Dimensional image environments. The role of 3-Dimensional imaging in film, design, multimedia art, and electronic gaming will also be discussed.

Subject area                      Catalog Number  
ART                                      49511

Course Title  
Visualizing Resistance: Experimental Illustration and Motion Graphics

Department(s)  
Art

Description  
In this experimental illustration and motion class, students will design an animated and web-based narrative to retell the story of the first documented anti-slavery rebellion which took place in 1521 at a Dominican Republic sugar plantation. Working from a provided script, students will begin with illustrated responses and storyboards before producing a collaborative website incorporating motion graphics, animation, information design, and sound to convey the historical, emotional, and social impacts of this uprising. Throughout the semester, students will have access to experts from the CCNY Dominican Studies Institute and will collaborate with Sonic Arts students in sound design, dialogue editing, and audio mixing. The collaborative project, in remembrance of the rebellion's 500th anniversary, will bring this forgotten event to a wider audience and public consciousness. Students' work will be featured on the CUNY Dominican Studies Institute's website, First Blacks in the Americas / Los Primeros Negros en Las Américas, an internationally recognized and one-of-a-kind digital site, also the product of a collaboration among experts, students, and others. This Special Topics class is in partnership with the CCNY Dominican Studies Institute. Prerequisites: ART 39528 (2D Animation Principles) or ART 39560 (Digital Video 1) and ART 39540 (Web Design 1). Instructor permission is required for students not meeting the prerequisites

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
ART	49580

Course Title  
Animation Master Class

Department(s)  
Art

**Description**  
Students will expand upon their conceptual and technical animation skills to create a professional-level animated short using Adobe Animate, Photoshop, and Premiere. Animated shorts will develop across the semester from initial concept, pitch, script development, and design, to final product. The semester before enrolling, students must provide instructor with a 500 word (minimum) essay outlining their prior experience, animation career goals, classroom goals, and a thorough project idea description. Students are granted admission to the class based on their essay and project idea and are not allowed to change their project idea once accepted into the class. Prerequisites: ART 39528 (2D Animation Principles) and ART 49528 (Topics in Animation)

**ART 49595 - Pentagram Portfolio Program****Overview**

Academic Institution  
CTY01

Subject area	Catalog Number
ART	49595

Course Title  
Pentagram Portfolio Program

Department(s)  
Art

**Description**  
The Pentagram Portfolio Program is a two-semester class, open to select Electronic Design and Multimedia students and recent alumni, that serves as a bridge between a design education and the professional design world. Accepted students will take a weekly class at Pentagram, the New York office of the international design consultancy, where they will develop new portfolio projects that center around identity design. Paula Scher will lead the program, and students will be mentored by Scher with fellow Pentagram Partners Emily Oberman and Natasha Jen. The Pentagram Partners will donate their time and services. Students will be working on the same types of projects that are designed by Pentagram on a daily basis. They will learn how to create identity systems, invent visual languages, and translate them into the many forms necessary for today's communications, including digital, print, and environmental design. The students will have an opportunity to experience the design studio environment at Pentagram and have access to its resources and staff. The class will include guest speakers in the field who can lend insight into how students can navigate their future careers. By the end of the first semester, students should become comfortable with the process of creating design systems. By the end of the second semester, they should excel at it. Interested students should have a working understanding of typography, Photoshop, and basic animation skills. Select EDM students and recent alumni will be granted permission to enroll in the class based on a portfolio review and in-person interview at Pentagram. Portfolio submission guidelines are available on the EDM website, or contact Professor Mark Addison Smith, EDM Program Director and course faculty mentor.

## Biology Department

Professor David Lohman • Department Office: MR 526 Tel: 212-650-8456

The City College offers the following undergraduate and combined degrees in Biology

## Programs and Objectives

The Department of Biology offers courses in several areas, including Physiology, Neuroscience, Cell, Molecular, & Developmental Biology, and Ecology, Evolutionary Biology, and Behavior.

The Biology core curriculum covers a broad range of topics from molecular biology to ecosystems. Courses emphasize the fundamental principles of biology and incorporate the scientific method to gain deeper understanding. Evolution is emphasized as an organizing theme throughout.

Elective courses allow students to investigate a variety of biological processes and phenomena, and to explore the relationships among organisms. Qualified advanced students are encouraged to perform Independent Study or Honors research and may also take selected graduate courses.

The Department cooperates with the Program in Premedical Studies (PPS), a program of the Division of Science. PPS features a curriculum that specifically prepares participants to meet medical, dental, optometry, podiatry and veterinary school admission requirements. Students may major in Biology while participating in PPS.

To help students in making decisions about the career for which they are preparing, City College provides and encourages students to use the following resources:

[Choosing a major - Career exploration](#)

[What Can I do with This Major](#)

## Research Opportunities

The Biology Department has an active undergraduate research program. Students who wish to do laboratory research may enroll for Independent Study (BIO 31001, Bio 31002 or Bio 31003) if their Biology GPA is above 3.0, or Honors (BIO 30100-30300) if their Biology GPA is above 3.5. Up to 6 of the credits from these courses may be applied to the major's elective requirements. Students interested in research should consult with the Honors and Independent Study Committee. Financial support for research during the academic year and the summer may be available through a variety of college and grant sponsored programs.

## Articulation with Bronx Community College, LaGuardia Community College, and Queensborough Community College for the BS Degree in Biotechnology

The Combined AS/BS Degree in Biotechnology

The goal of the articulations with Bronx Community College (BCC), LaGuardia Community College (LGA), and Queensborough Community College (QCC) is to seamlessly transition community college students who have earned an A.S. in Biotechnology with the Biotechnology degree program at City College. To transfer into the program at CCNY, students must have completed the following:

An AS degree in Biotechnology from BCC, LGA, or QCC.

One English course with a grade of "C" or better.

At least 2.0 overall GPA.

2.75 minimum GPA in the science and mathematics courses from BCC, LGA, or QCC.

The curriculum that students follow at CCNY will depend on the courses taken at the articulating college.

## Courses in other Departments that count towards Biology Elective Requirements

The following non-Biology courses count towards the Biology Major electives and will be used to calculate the GPA in the Biology major, **but they do not count towards the Biology Department residency requirement.**

Non- Biology Courses

CHEM 32002	Biochemistry I	3
CHEM 44000	Journey to the Center of the Cell	3
PHIL 34905	Biomedical Ethics	3
PHYS 42200	Biophysics	3
SCI 28000	Bioinformatics and Biomolecular Systems	3

## Graduate Courses Open to Undergraduates

Qualified undergraduate students may take selected graduate courses. Permission of the Instructor, and the Biology Department advisors or the Deputy Chair must be obtained before a student may register for these courses. The courses are described in the Graduate Bulletin of The City College.

## Biology Minor

Requirements for the Minor

Required Courses:

BIO 10100	Biological Foundations I	4
BIO 10200	Biological Foundations II	4
BIO 20600	Introduction to Genetics	4

One of the following three:

BIO 20700	Organismic Biology	4
BIO 22800	Ecology and Evolution	4
BIO 22900	Cell and Molecular Biology	4

Subtotal: 16

All courses must be completed with a grade of C or higher. At least 50% of the credits must be taken at City College. Up to 8 biology credits taken as requirements for a Major can also count towards the requirements for the Biology Minor.

## Advisement

The Department provides advice and information on career opportunities, programs and opportunities for financial support. Prospective biology majors should email the Head Undergraduate Advisor, who will sign the Majors form. All Biology majors will be assigned a faculty advisor. Students needing advice on planning elective programs should consult with their faculty advisor. Non-majors seeking advice on individual courses should consult with the Head Undergraduate Advisor.

## Tutoring

---

Special tutoring services are available to those students needing help in Biology. Students seeking to avail themselves of such services are directed to the Division of Science Advising Center/CCAPP Administrative Office located on the first floor of the Marshak Building, Room 108.

## Facilities

---

### Resource Center

The Resource Center of the Department of Biology (MR 502) maintains a wide variety of reference materials for student use in conjunction with many of the undergraduate courses. Instructors will inform students as to the availability of materials available for their course. The facility is open Monday through Friday (hours are posted outside MR 502).

### Imaging Complex

The Imaging Complex houses a transmission electron microscope, a scanning electron microscope, a confocal microscope, a digital darkroom, and complete support facilities for tissue preparation. In addition to its use in several courses, the facility supports faculty and student research in many aspects of cellular biology.

## Departmental Activities

---

### Beta Beta Beta (TriBeta)

Beta Beta Beta (TriBeta) is an honor society for students, particularly undergraduates, dedicated to improving the understanding and appreciation of biological study and extending boundaries of human knowledge through scientific research.

### The Biology Club

The Biology Club, affiliated with the Biology Department, aims to aid students with opportunities to further their academic, social, and professional careers.

## Awards

---

The following awards are made annually to deserving students on the basis of merit and superior scholarship in biology:

**The Edmund Baermann Scholarship in Natural Sciences**

To a sophomore or junior completing the Biology core. Selection is based on performance in the Biology core.

**The Sharon D. Cosloy Scholarship**

To a junior who demonstrates potential in research and who will pursue graduate work in the biomedical field.

**The Eva J. Lindauer and Ira J. Pell Scholarship**

To students entering their junior year with superior academic records, demonstrated financial need, and of the first generation of their family to attend college.

**The Olivia McKenna Award**

To a graduating senior demonstrating the greatest research proficiency in Neuroscience.

**The Professor William Stratford Prize**

To the student demonstrating the greatest proficiency in both course work in zoology and zoological research.

**The Professor Josh Wallman Scholarship**

To a student pursuing studies in animal behavior, sensory perception, ophthalmology, neuroscience or related areas, who demonstrates a passion for the subject matter chosen, and with the potential to make meaningful contributions in the field of interest.

## Faculty

Robert P. Anderson, Professor

*B.A., Kansas State University; Ph.D., University of Kansas*

Amy Berkov, Assistant Professor

*BFA., University of Colorado; Ph.D., CUNY*

Ana Carnaval, Associate Professor

*B.S., Universidade Federal do Rio de Janeiro (Brazil), M.S.; Ph.D., University of Chicago*

Jay A. Edelman, Associate Professor

*A.B., University of California (Berkeley), Ph.D. University of California (Berkeley/ San Francisco)*

Mark Emerson, Associate Professor

*B.A., Oberlin College; Ph.D. Harvard University*

Fardad Firooznia, Lecturer

*B.S., Yale University; Ph.D. Cornell University*

Shubha Govind, Professor

*B.S., M.S., Delhi University (India); Ph.D., University of Illinois (Urbana-Champaign)*

Yevgeniy Grigoryev, Lecturer

*B.S., Hunter College, CUNY; Ph.D., Scripps Research Institute*

Michael Hickerson, Professor

*B.S., The Evergreen State College; M.S., Western Washington University; Ph.D., Duke University*

Karen Hubbard, Professor

*B.A., Barat College; Ph.D., Illinois Institute Of Technology*

Anuradha Janakiraman, Professor

*B.Sc., Presidency College (India); M.Sc. University of Calcutta (India); M.S. Kent State University; Ph.D. University of Illinois (Urbana-Champaign) Medical School*

Jonathan B. Levitt, Professor and Chair

*B.A., University of Pennsylvania; M.A., Ph.D., New York University*

Christine Li, Professor

*A.B., Columbia University; M.S.; Ph.D., Harvard University*

David Lohman, Associate Professor

*B.S., Bradley University; A.M., Ph.D., Harvard University*

Hysell V. Oviedo, Associate Professor

*B.A., B.S., Richard Stockton College; Ph.D., New York University*

Mark Pezzano, Associate Professor

*B.S., William Paterson University; Ph.D., CUNY*

Stefan Pukatzki, Professor

*B.Sc., M.Sc., University of Bremen; Ph.D. Columbia University*

Robert Rockwell, Professor

*B.S., Wright State University; M.S., Ph.D., Queen's University, Kingston (Canada)*

Adrian Rodriguez-Contreras, Associate Professor

*B.Sc., Universidad Nacional Autonoma de Mexico; Ph.D., University of Cincinnati*

Andrey Rudenko, Assistant Professor

*B.S., M.S. Kharkiv National University (Ukraine); D.Phil., Oxford University (U.K.)*

Shireen Saleque, Associate Professor

*B.Sc., M.Sc., Calcutta University (India); M.A., M.Phil., Columbia University; Ph.D., Albert Einstein College of Medicine*

Tadmiri R. Venkatesh, Professor

*B.S., Univ. of Mysore (India); M.S., Ph.D., Birla Institute of Technology and Science (India)*

Bao Q. Vuong, Associate Professor

*B.S., Cornell University; M.A., M. Phil., Ph.D., Columbia University*

Osceola Whitney, Assistant Professor

*B.S., Lincoln University; M.S., Florida A&M University; Ph.D., Florida State University*

**Professors Emeriti**

Jane C. Gallagher

Robert P. Goode

Jerry Guyden

Sally Hoskins

John J. Lee

Daniel Lemons

Linda H. Mantel

Olivia McKenna

Joseph Osinchak

Janis Roze

Carol Simon

John H. Tietjen

## Programs

### BIO-MIN - Biology

#### Overview

Institution Code

CTY01

Official Name of Program

Biology

Plan Code

BIO-MIN

Department(s) Sponsoring Program

Biology

Career

Undergraduate

#### Requirements

##### Simple Requisites

###### Minor Requirements - Overall

Type

Completion Requirement

Earn at least 16 credits

Earn at least 8 credits

*At least 50% of the credits must be taken at City College.*

Earn a minimum Grade of C

*All courses must be completed with a grade of C or higher*

###### Additional Comments:

*Up to 8 biology credits taken as requirements for a Major can also count towards the requirements for the Biology Minor.*

###### Minor Requirements - Required Courses

Type

Completion Requirement

Complete ALL of the following Courses:

- BIO 10100 - Biological Foundations I
- BIO 10200 - Biological Foundations II
- BIO 20600 - Introduction to Genetics

###### Additional Comments:

###### Minor Requirements - Elective Courses

Type

Completion Requirement

Complete at least 1 of the following courses:

- BIO 20700 - Organismic Biology
- BIO 22800 - Ecology and Evolution
- BIO 22900 - Cell and Molecular Biology

###### Additional Comments:

## BIO4-BSMS - Biology

### Overview

Institution Code  
CTY01

Official Name of Program  
Biology

Plan Code Department(s) Sponsoring Program  
BIO4-BSMS Biology

Career Degree Designation  
Undergraduate BSMS - Bachelor of Science/Master of Science

### Requirements

#### Simple Requisites

#### Degree Requirements - Bachelor of Science/Master of Science Type

Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 142 credits

AND

Earn at least 30 credits  
30 credits must be taken at The City College.

AND

Earn a minimum GPA of 3.0  
Some majors may require a higher GPA

AND

Earn at least 42 credits  
• In Liberal Arts and Science

Additional Comments:

#### General Education Requirements - Required (Fixed) Common Core Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 2 courses in the following course sets:

- Required Core English Composition
- English Composition I (usually FIQWS)
- English Composition II - ENGL21003 Writing for the Sciences

AND

Complete at least 1 courses in the following course sets:

- Required Core Mathematical and Quantitative

#### Reasoning

- MATH20100 Calculus I or MATH20500 Elements of Calculus

AND

Complete at least 1 courses in the following course sets:

- Required Core Life and Physical Sciences
- BIO10100 Biological Foundations I strongly recommended.

12 credits / 4 courses

#### Additional Comments:

- Biology students will satisfy their "Pathways" requirements most efficiently by following these recommendations
- Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.
- Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

#### General Education Requirements - Flexible Common Core Type

Completion Requirement

Fulfill ALL of the following requirements:

Complete at least 1 courses in the following course sets:

- Flexible Core World Cultures and Global Issues

AND

Complete at least 1 courses in the following course sets:

- Flexible Core U.S. Experience in Its Diversity

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Creative Expression

AND

Complete at least 1 courses in the following course sets:

- Flexible Core Individual and Society

AND

Complete at least 2 courses in the following course sets:

- Flexible Core Scientific World

- [BIO10200 Biological Foundations II](#) strongly recommended
- [CHEM10301 General Chemistry I](#) or [PHYS20300 General Physics I](#) strongly recommended

**Additional Comments:**

- Biology students will satisfy their "Pathways" requirements most efficiently by following these recommendations
- 18 credits / 6 courses
- Students will complete at least one course in each of the five Flexible Core areas and an additional sixth course in one of them. Students can complete no more than two courses from any one discipline or interdisciplinary field. The list of courses that satisfy this requirement changes from semester to semester – check our checklist to see what alternatives are available next semester.
- Once a student has met a Common Core area requirement at one CUNY college, that requirement will be met at any other CUNY college. Transfer students from institutions other than CUNY will have their transcripts evaluated and will be given credit for General Education courses taken at the previous institution.
- Because many Common Core courses can simultaneously count toward the satisfaction of major requirements for specific majors, students who have chosen or have a specific major in mind should consult with an advisor to see which Common Core choices will help them complete their degrees most efficiently. More on Pathways at CCNY is available through this [visual guide](#).

**General Education Requirements - College Option**

**Type**

Completion Requirement

Philosophy, 3 crs.; Speech, 3 crs. or exemption on the basis of demonstrated proficiency; Foreign Language, 6 credits in a single language, or exemption on the basis of demonstrated proficiency

- 12 credits / 4 courses
- Students at City College are required to take 12 additional credits of General Education. Transfer students will need to take 6 to 12 College Option credits depending on (a) whether they are transferring from a four-year or a two-year degree program, (b) whether they have completed an A.S. or A.A. (c) how many credits they had at the time of transfer, and (d) whether they have coursework that counted towards the completion of the College Option at their previous institution.  
Visit: <http://www.cuny.edu/academics/initiatives/pathways/gened/college-option.html> for more details on the College Option requirement for transfer students and consult an advisor.

**Additional Comments:**

**Major Requirements - Overall**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Earn at least 64 credits

AND

Earn a minimum GPA of 3.0

**Additional Comments:**

**Major Requirement - Math and Science Courses**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

Complete ALL of the following Courses:

- CHEM 10301 - General Chemistry I
- CHEM 10401 - General Chemistry II
- CHEM 26100 - Organic Chemistry I
- PHYS 20300 - General Physics I
- PHYS 20400 - General Physics II

AND

Complete at least 1 of the following:

Complete ALL of the following Courses:

- MATH 20100 - Calculus I
- MATH 21200 - Calculus II with Introduction to Multivariable Functions
- MATH 21300 - Calculus III with Planar Vector Analysis

OR

Complete ALL of the following Courses:

- MATH 20500 - Elements of Calculus
- MATH 20900 - Elements of Calculus and Statistics

OR

Complete ALL of the following Courses:

- MATH 20100 - Calculus I
- MATH 20900 - Elements of Calculus and Statistics

OR

Complete ALL of the following Courses:

- MATH 20100 - Calculus I
- MATH 21200 - Calculus II with Introduction to Multivariable Functions
- MATH 17300 - Introduction to Probability and Statistics

**Additional Comments:**

**Major Requirements - Biology Courses**

**Type**

Completion Requirement

Fulfill ALL of the following requirements:

**Complete ALL of the following Courses:**

- BIO 10100 - Biological Foundations I
- BIO 10200 - Biological Foundations II
- BIO 20600 - Introduction to Genetics
- BIO 20700 - Organismic Biology
- BIO 22800 - Ecology and Evolution
- BIO 22900 - Cell and Molecular Biology

AND

**Complete at least 1 of the following:**

**Earn at least 9 credits from the following:**

- BIO 30100 - Honors I
- BIO 30200 - Honors II
- BIO 30300 - Honors III

OR

**Earn at least 9 credits from the following:**

- BIO 31000 - Independent Study

AND

**Complete at least 1 of the following courses:**

- BIO B9901 - Thesis Research
- BIO B9902 - Thesis Research
- Students fulfill their Masters research requirements through a combination of these courses. No more than 6 credits of research can be taken per semester.

AND

**Earn at least 2 credits from the following:**

- BIO V9100 - Colloquium
- Must be taken twice, 2 credits total.

**Additional Comments:**

**Major Requirements - Additional Biology Electives**

Type

Completion Requirement

**Earn at least 30 credits**

- 30 credits must be at the 400- or graduate-level courses. A maximum of 8 of these 30 credits may consist of 400-, A, and B level courses (excluding B9901 and B9902). A minimum of 8 of these 30 credits must consist of graduate-level courses with C or V designations, excluding V9100 and V9204 courses. Students must maintain a minimum 3.0 overall GPA.

**Additional Comments:**

**Major Requirements - Additional Requirements**

Type

Completion Requirement

**Fulfill ALL of the following requirements:**

Foreign Language

Two semesters of college-level study, or exemption on the basis of two years of high-school level study, or demonstrated proficiency.

AND

Philosophy

Any CLAS offerings in this category.

Students are required to write a Master's thesis and defend it before a panel of three faculty members. Please email Prof. Jonathan Levitt Amy Berkov at [aberkovjlevitt@ccny.cuny.edu](mailto:aberkovjlevitt@ccny.cuny.edu) for more details on thesis requirements, and or Prof. Jay Edelman at [jedelman@ccny.cuny.edu](mailto:jedelman@ccny.cuny.edu) for general questions related to the B.S./M.S. degree.

**Additional Comments:**

**"4+1" Accelerated Masters Degree, Biotechnology, M.S.**

Type

Completion Requirement

The goal of the 4+1 degree is to better prepare Biotechnology students for careers in academia, medicine, and the biotechnology and pharmaceutical industries. The Division of Science's strength in research enables highly motivated undergraduates to concentrate on biotechnological research and to take graduate level courses in their chosen specialty for an additional year. Students fulfill their required undergraduate and Master's, course requirements while performing cutting edge bench research. Accelerating the two degrees affords the student increased flexibility in designing their course plans and provides them with consistent advisement.

A total of 147 credits are required for the 4+1 BS and MS degrees in Biotechnology. A minimum of 36 credits must consist of graduate-level courses designated A, B, C or V; of these credits, a total of 9 course credits (not including any departmental seminar course) may be applied towards the undergraduate and graduate degrees. Undergraduate majors will be required to submit an undergraduate research thesis; as Master's students, they will be required to submit an independent Master's thesis. Students must maintain at least a 3.0 overall average.

Students must apply for the 4+1 program before graduation with the B.S. degree. Interested students should contact Ms. Christine KluskeStefano, 212-650-6802, [biology@ccny.cuny.edu](mailto:biology@ccny.cuny.edu).

OR

**Complete ALL of the following Courses:**

- MATH 20100 - Calculus I
- MATH 20900 - Elements of Calculus and Statistics

OR

**Complete ALL of the following Courses:**

- MATH 20100 - Calculus I
- MATH 21200 - Calculus II with Introduction to Multivariable Functions
- MATH 17300 - Introduction to Probability and Statistics

**Additional Comments:**

**Major Requirements - Biology Courses**

**Type**

Completion Requirement

**Fulfill ALL of the following requirements:**

**Complete ALL of the following Courses:**

- BIO 10100 - Biological Foundations I
- BIO 10200 - Biological Foundations II
- BIO 20600 - Introduction to Genetics
- BIO 20700 - Organismic Biology
- BIO 22800 - Ecology and Evolution
- BIO 22900 - Cell and Molecular Biology
- Students with an AP Biology score of 4 or 5 or who pass an exemption examination may waive these courses and receive 8 credits. Students transferring to City College with one year

of College Biology with laboratory (grade C or better) will receive credit for [BIO 10100](#) and [BIO 10200](#) if the course coverage is sufficiently similar. Students applying for transfer credit for [BIO 10100](#) and [BIO 10200](#) should consult the syllabi for these courses to ensure comparability.

AND

**Earn at least 15 credits**

- Additional advanced electives
- Majors will not be permitted to register for Biology Core or elective courses unless the Biology course prerequisites have been passed with a grade of C or higher. Human anatomy and physiology courses taken at CCNY or at other colleges will not be credited toward the Biology major. Microbiology courses taken at other colleges must have their syllabi evaluated for credit. Six credits of research courses (Independent Study, Honors) can count towards this total.

**Additional Comments:**

- To qualify for Honors it is necessary to complete nine hours of Honors credit, six of which may count towards the 15 credits of Biology electives. The successful Honors candidate submits a thesis approved by his/her advisor based upon the student's original research and approved by the advisor.

Residency Requirement

Earn at least 46 credits

- 46 of the 76-80 total Biotechnology credit requirements must be taken at City College.

AND

Earn a minimum GPA of 3.0

- A GPA of 3.0 or higher in the major is required to maintain Major status and for graduation. The GPA in the major is calculated from all Biotechnology major courses taken at CCNY or by ePermit. To declare a Biotechnology major, a student must have a GPA of 3.0 or higher and have completed [BIO10100 Biological Foundations I](#)/[BIO10200 Biological Foundations II](#), [BIO20600 Introduction to Genetics](#).

[CHEM10301 General Chemistry I](#)/[CHEM10401 General Chemistry II](#), and [MATH20500 Elements of Calculus](#) or [MATH20100 Calculus I](#).

AND

Earn a minimum Grade of C

- All required courses for the major must be passed with a grade of C or higher.

Additional Comments:

### Major Requirements - Biology Courses

#### Type

Completion Requirement

Biology Requirements

Complete ALL of the following Courses:

- BIO 10100 - Biological Foundations I
- BIO 10200 - Biological Foundations II
- BIO 20600 - Introduction to Genetics
- BIO 22900 - Cell and Molecular Biology
- BIO 48300 - Laboratory in Biotechnology

Additional Comments:

### Major Requirements - Chemistry, Physics, Math and Ethics Requirements

#### Type

Completion Requirement

Fulfill ALL of the following requirements:

Chemistry Requirements

Complete ALL of the following Courses:

- CHEM 10301 - General Chemistry I
- CHEM 10401 - General Chemistry II
- CHEM 26100 - Organic Chemistry I
- CHEM 26200 - Organic Chemistry Laboratory I
- CHEM 26300 - Organic Chemistry II
- CHEM 32002 - Biochemistry 1
- PHIL 34905 - Biomedical Ethics
- OR** PHIL 34900 - Applied Ethics

Other bioethics courses may be selected upon consultation with the faculty advisor.

AND

Physics Requirements

Complete at least 1 of the following courses:

- PHYS 20300 - General Physics I
- AND** PHYS 20400 - General Physics II
- PHYS 20700 - University Physics I
- AND** PHYS 20800 - University Physics II

AND

Math Requirements

Complete at least 1 of the following courses:

- MATH 20500 - Elements of Calculus  
**AND** MATH 20900 - Elements of Calculus and Statistics
- MATH 20100 - Calculus I  
**AND** MATH 21200 - Calculus II with Introduction to Multivariable Functions  
**AND** MATH 17300 - Introduction to Probability and Statistics
- MATH 20100 - Calculus I  
**AND** MATH 21200 - Calculus II with Introduction to Multivariable Functions  
**AND** MATH 21300 - Calculus III with Planar Vector Analysis

Ethics Requirements

Complete at least 1 of the following courses:

- PHIL 34905 - Biomedical Ethics  
**OR** PHIL 34900 - Applied Ethics

Additional Comments:

Major Requirements - Electives

Type

Completion Requirement

Fulfill ALL of the following requirements:

Research Requirements

Complete at least 1 of the following:

Earn at least 9 credits from the following:

- BIO 31000 - Independent Study

OR

Complete ALL of the following Courses:

- BIO 30100 - Honors I
- BIO 30200 - Honors II
- BIO 30300 - Honors III

The research must encompass bench laboratory research and/or computational biology. Majors will not be permitted to register for Biotechnology Core or elective courses unless the core course prerequisites have been passed with a grade of C or higher.

AND

Advanced Electives

Earn at least 11 credits from the following:

- SCI 28000 - Bioinformatics and Biomolecular Systems
- BIO 35000 - Microbiology
- BIO 35400 - Introduction to Neurobiology
- BIO 35500 - Analysis of Scientific Literature Using CREATE (Inactive)
- BIO 37500 - Developmental Biology: Lecture
- BIO 37900 - Developmental Neurobiology
- BIO 38000 - Eukaryotic Genetics
- BIO 41000 - Cell Development and Cellular Senescence
- BIO 42000 - Virology
- BIO 42500 - Cancer Biology
- BIO 48100 - Introduction to Epigenetics

- CHEM 40600 - Environmental Chemistry
- CHEM 48005 - Biochemistry II
- CHEM 44000 - Journey to the Center of the Cell
- CHEM 44200 - RNA Biochemistry and Molecular Biology
- PHYS 31500 - Medical Physics
- PHYS 42200 - Biophysics
- PHYS 52200 - Biomedical Physics

Additional electives may also be selected upon consultation with a faculty member.

Additional Comments:

To qualify for Honors it is necessary to complete nine hours of Honors credit, six of which may count towards the Biotechnology electives. The successful Honors candidate submits a thesis approved by his/her advisor based upon the student's original research and approved by the Honors committee.

### BIO 10004 - Human Biology

#### Overview

**Academic Institution**  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	10004

**Course Title**  
Human Biology

**Department(s)**  
Biology

**Description**  
A Biology course for non-science majors that emphasizes the function of the human body. Medical issues relating to personal and community health, as well as ethical issues will be discussed. Not open to Science majors. Students cannot receive credit for both Bio 10004 and Bio 10000. 2 lec hr, 2 lab hours every other week, 3 cr. Pre-req: none, but it is recommended that have successfully completed 24 credits.

**Academic Career**  
Undergraduate

**Liberal Arts**  
Yes

## BIO 10005 - Introduction to Scientific Thinking

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	10005

**Course Title**  
Introduction to Scientific Thinking

**Department(s)**  
Biology

**Description**  
Introduction to Scientific Thinking aims to (1) teach students to read/analyze scientific literature, using the CREATE pedagogical strategy ([www.teachcreate.org](http://www.teachcreate.org)) to help them learn novel approaches to such analysis, (2) help students develop metacognitive awareness of their learning strategies, as well as the confidence that they can understand complex scientific material that is not presented in textbook format, (3) demystify science through email surveys of paper authors as well as assignments (e.g., grant panels) that put students in the roles of working scientists. This will be accomplished through close analysis of a series of readings from primary and secondary sources, and a combination of homework assignments and in-class activities designed to challenge students to develop and hone both their critical analytical skills and their creative thinking about science, particularly in the area of experimental design.

## BIO 10006 - Data, Science, Scientists

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	10006

**Course Title**  
Data, Science, Scientists

**Department(s)**  
Biology

**Description**  
The purpose of this course is three-fold: (1) to introduce new Biology students to a broad range of faculty who span the diversity of research areas in the field; (2) use exploration and experiential problem-solving to become familiar with how scientists ask questions, collect data, and analyze it to further knowledge; and (3) develop core technological skills in Microsoft Excel and the statistical programming language R to kick-start their success in future science courses and labs and research endeavors. Each week, a scientist will come to the class and introduce themselves and their study system. Emphases will be on career path, research system, and human/community elements of conducting this research. In the second class meeting, students will work with real data that was produced in the scientist's lab, developing their understanding of posing research questions, formulating hypotheses, collecting, entering, and organizing data, analyzing data and interpreting the results. The class will use Excel and R, building on core skill elements to use each program.

## BIO 10100 - Biological Foundations I

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	10100

**Course Title**  
Biological Foundations I

**Department(s)**  
Biology

**Description**  
Introduction to biology, emphasizing primarily the cell and molecular levels of organization. Topics include characteristics of life, cellular organization and diversity, chemistry of life, bioenergetics, reproduction and early development, and major living groups. The course features in-depth study of selected topics that are foundational for upper level study. Students develop critical thinking and technical skills that are essential for mastering the content areas and being successful in upper level courses. These include: vocabulary skills, critical thinking, collaborative learning, microscopy, collection and handling of scientific data, and elements of scientific investigation.

**Academic Career**  
Undergraduate

<b>Liberal Arts</b>	<b>Requirement Designation</b>
Yes	RLP - Required Core - Life and Physical Sciences

## BIO 10200 - Biological Foundations II

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	10200

**Course Title**  
Biological Foundations II

**Department(s)**  
Biology

**Description**  
Second semester of introductory biology, emphasizing organismic biology, evolution, and ecology. Topics include heredity, macro- and microevolution, structure and function of body systems, and ecology. The course features a survey of topics in lecture and in-depth study of selected topics in laboratories and workshops. Students develop critical thinking and technical skills that are essential for mastering the content areas and being successful in further study. These include: vocabulary skills, problem solving, collaborative learning, computer skills, experimental design, collection and analysis of scientific data, and preparing scientific reports.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	20600

**Course Title**  
Introduction to Genetics

**Department(s)**  
Biology

**Description**  
A thorough introduction to the principles of genetics. Using a combined cell biological and Mendelian approach, the course covers DNA organization, chromosome structure, genes and alleles, and transmission of genetic information in normal and genetically compromised organisms.

**Academic Career**  
Undergraduate

<b>Liberal Arts</b>	<b>Requirement Designation</b>

## BIO 20700 - Organismic Biology

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	20700

**Course Title**  
Organismic Biology

**Department(s)**  
Biology

**Description**  
Emphasizes the physiological adjustments organisms make to specific challenges in their environments. Bioenergetics, osmoregulation and transport are the areas of focus. Laboratories are investigational and intended to develop skills in experimental design, the use of technology in acquiring data, data analysis and presentation, and in scientific writing. The development of problem solving and thinking and analysis in biology is emphasized in all aspects of the course.

**Academic Career**

## BIO 31000 - Independent Study

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31000

**Course Title**  
Independent Study

**Department(s)**  
Biology

**Description**  
Individual laboratory, field, or library investigation of a problem. Recommended background: BIO 10100, BIO 10200, BIO 20600, and at least two of BIO 20700, BIO 22800 or BIO 22900, with a 3.0 average in Biology. Apply to the Committee on Honors and Independent Studies. Students may not register for Independent Study without written permission from the Committee every semester. Students must present a written proposal with well-defined goals to the committee for approval. No more than three credits of library research may be taken. In order to receive credit, a written paper must be produced and presented to the Committee. Students who work with mentors outside the department must also have a co-sponsor inside the department. Although mentors are primarily responsible for giving grades, these grades will be reviewed by the Committee before a final grade is awarded. 1-3 cr./sem. Course is repeatable up to four courses; a maximum of nine credits total of Independent Study and Honors can be taken.

## BIO 31006 - Developmental Biology Online Course.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31006

**Course Title**  
Developmental Biology Online Course.

**Department(s)**  
Biology

**Description**  
An in-depth analysis of the cellular and molecular mechanisms regulating development of animals and plants. Topics include: the production and storage of genetic information; sperm egg interactions; nuclear and cytoplasmic determinants; morphogenetic movements, inductive interactions and the development of primary organ rudiments; organogenesis; growth, differentiation and morphogenesis, mechanisms of aging, cancer, the immune system and regeneration; development of birth abnormalities; role of experimentation in the analysis of major developmental mechanisms in animals. This is the same course as Biology 37500, except this course runs completely online. You cannot get credit for taking both this online course and Biology 37500.

## BIO 31007 - Neurogenetics and Behavior

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31007

**Course Title**  
Neurogenetics and Behavior

**Department(s)**  
Biology

**Description**  
The course topics provide an in-depth examination of structural and functional genetics/epigenetics of central nervous system; an opportunity to learn about model organisms widely used in experimental neuroscience; investigate neurogenetic regulation of emotional and cognitive behavior; analyze mechanisms of neuropsychiatric (e.g., schizophrenia; depression; PTSD) and neurocognitive (e.g., Alzheimer's disease, frontotemporal dementia, Huntington disease) disorders; become familiar with classical and cutting-edge experimental tools of neurogenetic and behavioral research. The academic objectives are to strengthen the following skills: general writing skills, writing using hypotheses and critical reading of scientific literature (heavy emphasis), speaking, use of library resources. There is a significant emphasis on student participation. The course is structured such that in addition to conceptual information, students are encouraged to understand appropriate experimental methodology.

## BIO 31008 - Scientific Communication

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	31008

Course Title  
Scientific Communication

Department(s)  
Biology

**Description**  
This course creates a space for students to communicate science projects, ideas, and findings - orally or in writing - and to discuss effective presentation strategies. The course will include lectures on presentation and communication techniques. Students will be required to communicate about their own research projects, and will obtain feedback from peers and faculty. Students will submit a self-evaluation of their first oral presentation or written communication, to describe the improvements for a second version, which will also be evaluated in writing by a panel of peers and faculty. Students enrolled in Honors and Independent Study are especially encouraged to register.

## BIO 31010 - The Social Brain

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	31010

Course Title  
The Social Brain

Department(s)  
Biology

**Description**  
Humans are inherently social. Large portions of our brains are dedicated to social interactions and understanding other people. The functions of the social brain include: recognition of faces and bodily gestures, evaluation of what another person is thinking or feeling, prediction of a person's behavior and communication. This course will present a survey of our current understanding of the extensive network of brain areas devoted to social functions, the development of the social brain during adolescence, and the neural basis of pair-bonding and parental behavior. The course will also delve into conditions that lead to dysfunctions of the social brain: neurodevelopmental communication disorders, solitary confinement, loneliness, social media, and social distancing.

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	31052

Course Title  
Disease and History: How Plagues have Influenced Humankind Through the Ages

Department(s)  
Biology

Description  
In this course, we will learn about the myriad of pathogens and parasites that use humans as their hosts and, in so doing, have altered the course of history. You will learn basic biology of these scourges as well as review the history of their discovery, treatment, and occasionally eradication. With a lens on the current pandemic, we will cover what makes certain pathogens particularly dangerous and discuss where we should be looking for future outbreaks

## BIO 31053 - Social Animal Biology

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	31053

Course Title  
Social Animal Biology

Department(s)  
Biology

Description  
The study of animal sociality explores the extent to which individual animals interact to form groups and societies. The formation of cooperative social groups is rare within the animal kingdom when compared to species that carry out solitary lives. Under which conditions and evolutionary pressures is cooperation most beneficial? How do these conditions shape the “social phenotype” of organisms, having an impact on the anatomical, physiological, and behavioral traits they exhibit? To best approach these questions, students will explore underlying principles of social theory, ecology, and evolution to compare the wide variety of social systems that exist across the animal kingdom. These theories will be explored across natural systems and within the context of our own human condition. Lectures will be accompanied by discussion of relevant primary literature.

## BIO 31106 - Comparative Physiological Ecology

### Overview

Academic Institution

CTY01

Subject area

BIO

Catalog Number

31106

Course Title

Comparative Physiological Ecology

Department(s)

Biology

Description

This course is primarily concerned with the physiology of organisms as it is modified by the external environment. Topics include the basic principles of transfer and storage of energy (energy budgets and temperature regulation) and mass (water balance and gas exchange), physiological adaptations, and stress physiology. Emphasis will be placed on studying the whole organism as an integrated system. Case studies from the primary literature will probe the physiological ecology of both plants and animals, and the application of the topics to requirements in instrument design and mathematical models. A research paper in the format of a literature review on a related topic of interest is expected.

## BIO 31107 - Microbial Genetics Unveiled: Hallmark Techniques in Molecular Biology

### Overview

Academic Institution

CTY01

Subject area

BIO

Catalog Number

31107

Course Title

Microbial Genetics Unveiled: Hallmark Techniques in Molecular Biology

Department(s)

Biology

Description

Embark on a journey into the intricate world of microbial genetics. This course delves into the fundamental principles of microbial genetics, offering a comprehensive exploration of bacterial biology, phages, nucleic acids, gene transmission, genetic recombination, transposition, and gene regulation. The course emphasizes modern molecular biology techniques, including cutting-edge approaches like CRISPR. Through an engaging examination of primary literature, participants will gain firsthand insights into the innovative methods that leverage the inherent mechanisms within bacteria.

## BIO 31121 - Introduction to Epigenetics

### Overview

Academic Institution

CTY01

Subject area

BIO

Catalog Number

31121

Course Title

Introduction to Epigenetics

Department(s)

Biology

Description

How is it that cells in our body have the same genes, yet are able to perform distinct functions? This is made possible through the epigenetic control of gene expression. This course will give an introduction to the fundamentals of epigenetic control, examine the different molecular players involved, look at the interplay between epigenetic control and the environment and also explore the role of epigenetic deregulation in disease.

## BIO 31122 - Genetic and genome-wide analysis of development and disease

### Overview

Academic Institution

CTY01

Subject area

BIO

Catalog Number

31122

Course Title

Genetic and genome-wide analysis of development and disease

Department(s)

Biology

Description

This course will introduce basic concepts and techniques used to analyze and manipulate genomic information, chromosome structure & chromosomal rearrangements, transposable elements, and regulation of gene expression in eukaryotes. Genetic analysis of development and diseases such as cancer will also be discussed. Readings from primary literature will be included.

## BIO 31123 - Human Genetics and Genomics

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31123

**Course Title**  
Human Genetics and Genomics

**Department(s)**  
Biology

**Description**  
Organization and diversity of the human genome, the drivers of this diversity, the variation in human traits, and the genetic basis of normal and disease-related human traits. How genetic pathways affect human development, physiology, and DNA repair. Discussion of analytical tools used by geneticists to associate/link human traits and diseases to variants in specific genes, and how genomic analysis of populations ancient and modern is instructive about their history.

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31140

**Course Title**  
Biology of Learning and Memory

**Department(s)**  
Biology

**Description**  
This semester-long course will deal with the genetic, biochemical and neurobiological basis of learning and memory. Discussions will focus on both classic experiments as well as current research. The course format will be a mixture of lectures and in-class student presentations based on recent research from published papers. Special emphasis will be placed on concepts and mechanisms derived from studies involving experimental animal model systems.

## BIO 31704 - Cardiovascular, renal, and pulmonary systems

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31704

**Course Title**  
Cardiovascular, renal, and pulmonary systems

**Department(s)**  
Biology

**Description**  
This is an in-depth exploration of the integrated functioning of the cardiovascular, renal and pulmonary systems. Emphasis is primarily on human dynamic, non-pathological responses to a range of conditions including exercise and extreme environments. Structural and physiological aspects are covered. Clinical case studies highlight the interdependence of the systems. This course is appropriate for students considering health-related careers or advanced study in biomedical science. Format is 3-hour workshop class sessions once per week with online presentations and support material. Prereq.: Bio 20700 or permission of instructor

**Academic Career**  
Undergraduate

**Liberal Arts**

## BIO 31810 - Ethnobotany

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
BIO                                      31810

Course Title  
Ethnobotany

Department(s)  
Biology

Description  
This course will focus on the biology and history of economically important plants and some of the other organisms traditionally studied under the broad umbrella of botany. We will look at the diversity of plants and plant products in human use and the biological reasons behind their effects and importance. This will include most importantly medicinal plants, as well as plants that are sources of food and fodder, beverages and stimulants, fiber, dye, gums, resins, and latexes, pesticides, spices, herbs, and perfumes, and structural material. The course will also look at the connection between economic botany and genetics and evolution, especially with the increasing interest in genetically engineered plants, especially those engineered as vaccine vectors.

## BIO 31907 - Climate Change, Biodiversity and the Political Process

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31907

**Course Title**  
Climate Change, Biodiversity and the Political Process

**Department(s)**  
Biology

**Description**  
The purpose of this new course is to bring faculty, students and experts from the field of environmental studies and biodiversity science together with those in the field of international political policy making. Policy making on environmental sustainability must be grounded in a greater understanding of the sciences and the analysis of data on climate change, biodiversity, habitat loss and other contributing factors to the challenges of extinction, food security and extreme weather changes. In reverse, the sciences would benefit from a greater understanding of policy making, international law, the role of the United Nations, NGOs and the private sector as policies are put into place that impact biodiversity and environmental sustainability.

## BIO 31909 - Seminar in Gliophysiology

### Overview

**Academic Institution**

CTY01

**Subject area**

BIO

**Catalog Number**

31909

**Course Title**

Seminar in Gliophysiology

**Department(s)**

Biology

**Description**

Glial cells are a major cellular component of the nervous system in many animals. This course will be taught in the seminar format and will include lectures and discussions with experts on glial cells. We will place emphasis on long-standing questions about the functions of glial cells in light of recent technical advances that provide insight on neuron-glia interactions during development and physiological contexts, and disease.

## BIO 31910 - Signal transduction in development and disease

### Overview

**Academic Institution**

CTY01

**Subject area**

BIO

**Catalog Number**

31910

**Course Title**

Signal transduction in development and disease

**Department(s)**

Biology

**Description**

Just like metabolic pathways, signal transduction pathways are fundamental to cellular and organismic physiology. This course will provide an overview of the key conserved signaling pathways and how their dysfunction leads to aberrant development or disease.

**Academic Career**

Undergraduate

**Liberal Arts**

No

**Permission Type**

## BIO 31911 - Global Change Biology

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31911

**Course Title**  
Global Change Biology

**Department(s)**  
Biology

**Description**  
In Global Change Biology, students will read, reflect, discuss, and write about how biological systems interface with environmental changes that impact our planet – with a focus on responses happening now (in ecological time) as well as long-term responses to environmental shifts (reflecting evolutionary trends). Class and homework will integrate research in ecology, evolution and environmental science. Examples of topics to be discussed may include the evolutionary and ecological determinants of biological responses to environmental shifts, ecosystem and biome collapse (tipping points), biological adaptations to global and local change, and how to promote the sustainability of ecological and evolutionary functions and services. Students are expected to work on individual and group research, oral presentations, and writing assignments.

## BIO 31912 - Origins of Molecular Biology

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31912

**Course Title**  
Origins of Molecular Biology

**Department(s)**  
Biology

**Description**  
Learn how the molecular biology revolution led to recombinant DNA technologies, including COVID-19 mRNA-based vaccines. H.F. Judson's *The Eighth Day of Creation* | *Makers of the Revolution in Biology* will be the guiding text for this class. Hallmark experiments that form our current understanding of molecular biology (i.e., the discovery of DNA, RNA, and proteins) will be discussed.

## BIO 31913 - Modeling Biodiversity

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	31913

Course Title  
Modeling Biodiversity

Department(s)  
Biology

**Description**  
The course will cover classic and contemporary eco-evolutionary theory that accommodates biogeography, macroecology, and evolution across scales of space and time. The course will have two components: a seminar component covering the classic and current literature and a "hands-on" component that involves using computer simulation-based inference and high throughput DNA meta-barcoding datasets to test hypotheses about how biodiversity is generated and maintained.

## BIO 31914 - Neurogenetics (Genetics of behavior)

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	31914

Course Title  
Neurogenetics (Genetics of behavior)

Department(s)  
Biology

**Description**  
An upper-level elective course focusing on the Genetic and molecular analyses of behavior. The course is a tribute to the great American scientist Seymour Benzer, who pioneered the application of genetic analysis to behavior. The topics to be covered are (but not limited to) are: Visual behavior, Circadian rhythms/Clock behavior, Learning and Memory, Olfactory and Gustatory behaviors, Courtship and mating. Behavior. The lectures and discussions will be solely based on published peer reviewed papers. The Classes will involve in depth discussion of classic papers as well as the current research in the field. Students will be required to present papers and actively participate in the discussion.

## BIO 31915 - The innate immune system

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31915

**Course Title**  
The innate immune system

**Department(s)**  
Biology

**Description**  
The innate immune system is the first line of defense. It is activated when plants or animals are attacked by microbial pathogens or parasites. Topics will include: (a) the organs, tissues and cells that make up the innate immune system; (b) cell and molecular processes underlying the innate immune responses in a range of organisms: from plants, invertebrate animals to vertebrates, including mammals; and (c) strategies that bacteria, viruses and parasites use to dodge or suppress innate immune mechanisms. The course material will be based on review articles and the primary literature. Purchase of a text book is not required.

## BIO 31916 - Advanced Topics in Developmental Biology

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	31916

**Course Title**  
Advanced Topics in Developmental Biology

**Department(s)**  
Biology

**Description**  
The aim of this course is to familiarize students with fundamental concepts and processes of metazoan development across major invertebrate and vertebrate model organisms with the primary emphasis on embryonic development. The course will further emphasize the physiological and molecular parallels in development between diverse species while highlighting significant differences and evolutionary advances on basic themes. The lectures will be based on a prescribed textbook while significant advances in the field will be communicated via discussion and student presentations of primary literature. Reading, interpreting and presenting experiments and results from primary research articles both historical and contemporary will be a major focus of the course and students will be required to present and discuss primary literature both orally and in writing. In addition to 3 exams, students will be required to write 2 short summaries on any two research papers discussed in class other than the ones they present orally. In these papers students will be expected to design logical follow up experiments to those presented in the papers to extend the hypothesis and scope of the work.

### Overview

Academic Institution  
CTY01

<b>Subject area</b>	<b>Catalog Number</b>
BIO	33000

**Course Title**  
Survey of the Vertebrates

**Department(s)**  
Biology

**Description**  
Survey of the major features of the vertebrates, including brief modern classification of the major groups and summary review of their morphological features, evolutionary history, distribution, ecology, and social behavior. Specific additional characteristics such as mimicry, ectothermy-endothermy, cannibalism, migration, predation, defense and use of venom will be discussed. Special attention is given to conservation, destruction of the environment and human impact on vertebrate life.

## BIO 35100 - Anthropological Genomics

### Overview

Academic Institution  
CTY01

Subject area                      Catalog Number  
BIO                                      35100

Course Title  
Anthropological Genomics

Department(s)  
Biology

Description  
The goal of the course is to explore how genes can inform us about human history, ancestry and evolution while allowing students the option to participate by collecting genetic data from their own genome. Understanding how genetic data can be combined with independent information to become a powerful and fascinating tool for uncovering events in human history, reconstructing human ancestry, and understanding human evolution will be the focus of the course. The genetic data collected from students who volunteer (the normal fee will be waived) will also personalize the concepts in genetics, human history, anthropology, ethics, bioinformatics, quantitative reasoning and information literacy. Typically, there are two exams and weekly hands-on in class assignments

## BIO 35200 - Introduction to Immunology

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	35200

Course Title  
Introduction to Immunology

Department(s)  
Biology

Description  
Basic concepts in immunology including innate and adaptive immunity, development and function of the immune system, antigen receptor diversity and the basic methods used to induce and measure immune responses. Students will also present primary research papers on relevant clinical applications of immunology such as immunological diseases or cancer Immunotherapy.

## BIO 37500 - Developmental Biology: Lecture

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	37500

Course Title  
Developmental Biology: Lecture

Department(s)  
Biology

Description  
An in-depth analysis of the cellular and molecular mechanisms regulating development of animals and plants. Topics include: the production and storage of genetic information; sperm egg interactions; nuclear and cytoplasmic determinants; morphogenetic movements, inductive interactions and the development of primary organ rudiments; organogenesis; growth, differentiation and morphogenesis, mechanisms of aging, cancer, the immune system and regeneration; development of birth abnormalities; role of experimentation in the analysis of major developmental mechanisms in animals.

## BIO 37800 - Science of Sex and Gender

### Overview

Academic Institution  
CTY01

Subject area	Catalog Number
BIO	37800

Course Title  
Science of Sex and Gender

Department(s)  
Biology

**Description**  
the course will explore the interactions among genes on the Y chromosome with genes on other chromosomes as determinants of biological sex. Sociologically, the course will investigate the social construction of gender and how gendered identities shape everyday life, including at the intersection of sex and gender (e.g., intersex and trans expressions of sex and gender).
